

Skipton Reliability Ride – Sunday 1st March 2015

60 mile route – time limit 4 ½ hours

Indicates a hazard that riders should note and take care.

Most are right hand right hand junctions – some on A roads

Key route points – Anti clockwise route with mixture of quiet single lane rural roads and busier A Roads. You will encounter a range of hazards.

Hazards – you will or may encounter the following: gravel; mud, potholes and ruts, sunken drains, stones and sticks, animals (wild and farm), farm vehicles, cars in middle of road on the narrow lanes / bridges, walkers on the road, fast descents and T junctions and right hand turn across A roads.

Emergency contact – CALL 999 IN AN EMERGENCY, if you drop out please let the event organiser know via **07805408538**

Not a race, but time limit set on route of 4.5hrs so 13.3mph average. No Feedstops so take all you need for the ride – food to buy at finish

You must observe the Highway code. Set off in groups of less than 20, single out on the narrow roads. **KEEP LEFT ON ALL NARROW LANES**
