Introduction

This document is a compilation of all open space, playing pitch and sport and recreation facilities evidence underpinning the Craven Local Plan. The following table describes the document's constituent parts.

Title	Date	Comments
Executive Summary Assessment of Open Space, Playing Pitch, and Sports Facilities (Part I)	February 2016	This executive summary provides the key findings, recommendations and action plans for each of the three study areas (open space, playing pitches and sports facilities) covered in the 2016 assessment. The playing pitches element has been updated by the Playing Pitch Strategy Refresh 2021 (Part III, below).
Update Assessment for Open Space, Sport & Recreation Facilities (Part II)	February 2016	This is a refreshed and upgraded study to replace a previous version from 2004, which is out of date, and provides a qualitative and quantitative assessment of the community's existing and future needs.
Playing Pitch Strategy Refresh 2021 (Part III)	January 2022	This strategic assessment provides an up to date analysis of the supply of and demand for grass and artificial playing pitches for football, rugby union, cricket and hockey.
Sports Facilities Strategy (Part IV)	February 2016	This strategy and the accompanying Playing Pitch Strategy, above, ensure that current and future demand for sport and recreation facilities can be fully met. They provide clarity on how and where investments should be made and how the right indoor and outdoor sports facilities can be delivered.
Open Space, Playing Pitch and Sports Facility Annual Progress Report on Delivery (Part V)	Summer 2017	This provides an initial report on progress against action plans set out for built facilities, open space and playing pitches. The playing pitches element has been updated by the Playing Pitch Strategy Refresh 2021 (Part III, above).
Open Space, Playing Pitch and Sports Facility Annual Progress Report on Delivery (Part VI)	Summer 2019	This provides a further report on progress against action plans set out for built facilities, open space and playing pitches. The playing pitches element has been updated by the Playing Pitch Strategy Refresh 2021 (Part III, above).
Built Facilities Progress Report 2022-2023 (Part VII)	March 2023	This progress report reflects the updated picture of delivery of the strategy and action plan at year end 2022-2023.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

INTRODUCTION AND BACKGROUND

Craven District Council (CDC) recognises that their 2004 built facility, playing pitch and open space strategies, plus the 2007 strategic sport and recreation strategic documents are out of date and the evidence base that underpinned this work needed reviewing.

Given the planning, policy and financial changes of the last five years, including reductions in revenue budgets, there is a need to identify options for future provision which meet local need, but can be delivered more effectively and efficiently. This also provides a fresh opportunity to deploy national best practice to ensure the needs of a diverse resident population are suitably planned for, and addressed.

The time is therefore opportune to develop a robust needs and evidence base for future provision of open space, playing pitches and sports facilities (sports halls, swimming pools, health and fitness, cycling, indoor tennis and bowls) in the District.

The 2015 Assessments of Open Space, Playing Pitches and Sports Facilities are aligned, and cover the Craven District Council Planning Area, which covers Craven District outside the Yorkshire Dales National Park.

Each assessment comprises a separate, but linked report, which sets out in detail the approach and methodology followed for each assessment, its quantitative and qualitative findings, the consultation feedback, key issues, priority needs for investment, and an Action Plan for Strategy Delivery. This Executive Summary covers the key findings, recommendations and Action Plan for each assessment.

The three documents will ensure that the current and future demand for open space, sport and recreation facilities are planned for holistically and that the needs of the population of Craven can be fully met. The three strategies provide clarity on how and where available investments should be targeted and how the Council and other partners can use their own resources and work with others to ensure that the right facilities are delivered in the right places, to deliver the right outcomes.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

PLANNING CONTEXT

The Council has a statutory duty to meet the requirements of the National Planning Policy Framework. The National Planning Policy Framework (NPPF) sets out the requirement of local authorities to establish and provide adequate and proper leisure facilities to meet local needs. Paragraphs 73 and 74 outline the planning policies for the provision and protection of sport and recreation facilities.

“access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning Policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision are required.”

‘Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:

- **An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or**
- **The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or**
- **The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss’.**

Craven District Council is in the process of producing a new Local Plan; in line with the National Planning Policy Framework (NPPF) the Council’s Local Plan will comprise:

- **An analysis of the value of provision in terms of environment, economy, health, people and community**
- **A determination of appropriately locally-derived quantity, quality and accessibility standards in accordance with the guidance for new development and future populations.**

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA CRAVEN DISTRICT COUNCIL

- **An identification of surpluses and deficiencies in the quality, quantity and accessibility of sport and open space facilities as well as an identification of the spatial distribution of unmet needs and a forecasting of future needs for the Council's settlement areas. This will include a summary schedule and supportive mapping**
- **A range of creative solutions which will meet identified deficits, including more effective recommendations for the setting of accessibility, quantitative and qualitative use of existing open space and recreational facilities**
- **An updating of the schedule of sports and recreation facilities (including site mapping and digitalisation)**
- **The production of site-specific action plans identifying individual improvements.**

Sport England is a statutory consultee on all planning applications that affect sports pitches and it has a long established policy of playing pitch retention, even prior to the NPPF guidance. It looks to improve the quality, access and management of sports facilities as well as investing in new facilities to meet unsatisfied demand. Sport England requires local authorities to have an up-to date assessment of playing pitch needs and an associated strategy including a recommendation that the evidence base is reviewed every three years.

As a result of population growth in the Craven Planning Area, CDC will be able to secure developer contributions through S106 or Community Infrastructure Levy (CIL) if adopted by the Council; towards the investments required in open space, sport and recreation provision. The recommendations set out below will require a total level of investment of circa £15m based on the findings of the three assessments.

LOCAL CONTEXT

Craven District is bordered by Lancashire to the west and south, and Bradford Metropolitan District to the southeast; to the north and east are Richmondshire District and Harrogate Borough, respectively. Areas to the north and east fall within the Yorkshire Dales National Park (YDNP) boundary. Although the total area of Craven is 1179 sq kilometres, 808 sq kilometres (68.5%) is in the YDNP, which is its own planning authority. The part of Craven District that falls outside the Yorkshire Dales National Park covers 370 square kilometres. Craven District is the Local Planning Authority for this area.

The main settlements within the plan area include the largest market town of Skipton, located in the south sub area; Bentham in the north sub area, Settle in the mid sub area and the villages of Glusburn/Cross Hills located south of Skipton within the south sub area. The population of Skipton is around 15,000, and that of Settle 3,000.

The population of Craven outside the Yorkshire Dales National Park at 2012 is 45,620 and is expected to grow to 53,317 by 2032. This period reflects the next Local Plan period and the figures are based on the ONS 2012 mid year estimates and the Jobs-led SENS 2 scenario. Craven District is within the top ten most sparsely populated local authority areas in England. (Source: Strategic Housing Market Assessment (SHMA) 2015).

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA CRAVEN DISTRICT COUNCIL

A growth of 5,120 new homes between 1st April 2012 and 31st March 2032 equates to 256 net additional dwellings per annum and an increased population of 7,697 (based on the study area population being 45,620 (2012) and increasing to 53,317 by 2032).

The majority of the new homes to be built in the District will be in and around the main market towns of Skipton, Bentham and Settle.

Table 1: Summary of Craven Planning Area Demographics

KEY FACTORS	CRAVEN DISTRICT
POPULATION 2012 (ALL AGES) (ONS 2012 mid year estimates and the Jobs-led SENS 2 scenario)	45,620
POPULATION 2032 (ALL AGES)	53,317
POPULATION INCREASES PLANNED	5,120 new homes 2012-2032; Population growth of 7,697 between 2012-2032.
POPULATION CHARACTERISTICS	<p>Predominantly white; the population is ageing – the largest growth in the population will be in the 50-74 age group.</p> <p>Downward trend in population growth is projected for the 10-24 and 40-49 age bands.</p> <p>There will continue to be marginally more females than males in the District.</p>
RURAL AREAS	Craven is predominantly rural. 31% of the population live in Skipton, the largest town.
CAR OWNERSHIP	Although levels of car ownership are rising, 16% of the population does not own a car, a lower level than the regional and national averages (27% and 25% respectively) reflecting the rural nature of the local authority area with limited public transport available.
DEPRIVATION	<p>Deprivation is lower than the England average, but where it does occur, it is significant.</p> <p>Life expectancy is 9.0 years lower for men and 5.2 years lower for women in the most deprived areas of Craven than in the least deprived areas.</p> <p style="text-align: right;">(Source: Craven Health Profile 2014)</p>

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

KEY FACTORS	CRAVEN DISTRICT
OBESITY	18.9% i.e. less than a fifth of the adult population are categorised as obese, although 65.7% are classified as overweight (including those categorised as obese); 14.1% of children are obese. Both these levels, whilst of concern, are lower than the England average.
HEALTH COST OF INACTIVITY	£1,555,571 per 100,000 population
HEALTH ISSUES	The health of the Craven community is generally better than the England average. The main health problems are caused by obesity and smoking, cardio vascular diseases and diabetes.

ASSESSMENT FINDINGS, RECOMMENDATIONS AND ACTION PLANS

OPEN SPACE ASSESSMENT

KEY FINDINGS IN RELATION TO QUANTITY AND ACCESSIBILITY

- Provision of multi-purpose parks such as those at Sutton is lacking in all three geographical areas in key settlements
- Because of the variability in provision for children and young people, an upgrade is necessary in a number of communities. This should include the provision of safer surfaces in places, and the installation of challenging and exciting pieces of equipment. This is particularly important in Aireville Park, with its large potential catchment
- There is a demonstrable need for teenage and youth facilities such as BMX/pump tracks in Settle, and in Ingleton in the northern geographical area
- Adventurous play provision such as iplay should be considered in settlements in all three areas. This is lacking at the moment
- “Green” play provision would be desirable and suitable for all areas, but in particular in rural locations. Little provision of this type exists in Craven
- There is limited MUGA provision, and this should be considered, particularly in Settle

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

- **Greater use should be made of open space by using more informal landscape methods to encourage biodiversity and habitat creation. This is lacking at present**
- **Green corridors such as the Leeds to Liverpool Canal should be upgraded or created to link settlements, encourage wildlife, and increase green transportation (walking and cycling). There is also a current project to improve the towpath between Skipton and Bradley**
- **The provision of burial space should be further explored in order to ensure an adequate future supply**
- **Allotment provision should be increased in terms of quality and quantity to meet sustained demand. There are no sites in the north.**

TACKLING PLANNING ISSUES

Findings relating to the future direction of countryside and green space planning in the District are:

P1: Protection of the countryside

P2: Enhancement of biodiversity

P3: Plans to upgrade the Leeds to Liverpool Canal should be pursued as an extension to the current contract, and other green corridors should be considered in order to improve biodiversity, encourage sustainable travel, and connect isolated communities

P4: Developer contributions should be encouraged to meet shortfalls in quality. In particular improvements should be made to open spaces to make them more welcoming, and to interpret the diverse history and heritage of the district in order to increase residents' "sense of place"

P5: Define a developer contribution model to fund improvements to the quality, quantity and accessibility of open space, through the updating of the Council's existing Planning Gain Guide and approach to calculating developer contributions, and by using best practice models from other local authorities (e.g. Harrogate). In addition, local communities should be encouraged to include appropriate open spaces using the local green space designation in neighbourhood and local plans in order to protect valuable existing open space.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

- P6:** Shortfalls in the quality, quantity and accessibility of facilities for children and youth should be addressed by seeking contributions for innovative play (iplay, “green” Play, etc.), and for specific facilities such as “low ropes” adventures, BMX and pump tracks (specifically in Settle and Ingleton). MUGA provision is needed in Settle
- P7:** Measures should be adopted to acquire land where possible for additional burial space
- P8:** The provision of allotment plots appears inadequate, in line with a national demand which shows no sign of abating. If more space cannot be found, then improvements should be made to the quality of existing sites.

TACKLING KEY SERVICE ISSUES

The immediate future needs and demands of the CDC open space service are:

- S1:** Provision of a small number of multi-purpose Parks and Gardens. This is particularly important in centres of population, i.e. Settle, Bentham and Skipton
- S2:** Creation of challenging and exciting play areas using concepts such as “iplay”
- S3:** More teenage and youth provision in areas of need (e.g. Teen shelters, skateparks, BMX/Pump Tracks)
- S4:** The use of “green play” in suitable rural locations. A number of villages and hamlets in the North, Mid and South areas would benefit
- S5:** Seeking a ban on smoking in line with North Yorkshire County Council’s Strategy: “Prevention for Children and Young People”
- S6:** Increased Multi-Use Games Area provision where needed. MUGA provision is generally lacking. There is a MUGA in Aireville Park, but this is in relatively poor condition
- S7:** Interpretation of the heritage and history of the area for residents and visitors in Craven’s open spaces. This is true of both urban and rural settlements
- S8:** Improved and welcoming entrances. This is crucial across all types of open space
- S9:** Use of more “naturalessque” landscape methods in open spaces. This is particularly important in Semi/Natural Greenspace. However, many areas around the edges, and in larger expanses of Parks and Gardens and Amenity Greenspace can be utilized

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA CRAVEN DISTRICT COUNCIL

S10: Improvements to “green corridors,” and in particular to the Liverpool to Leeds Canal and the continuation of the project to upgrade the towpath between Skipton and Bradley

S11: Improvements to the quality of allotment sites where required.

LOCAL STANDARDS

The local standard has been calculated by expressing provision in hectares per thousand population by comparing the population with the actual level of current provision. Whilst this does not allow for benchmarking against external standards, it does allow for benchmark comparisons to be made between provision within the same typology in all three geographical areas, highlighting inequalities and relative shortfalls and surpluses. The population increases projected for 2032 over 2012 are as follows:

- **South Craven: 17% increase in population**
- **Mid Craven: 19% increase**
- **North Craven: 14% increase.**

A set of local standards were defined as part of the 2004 Craven open space provision study. These have been superseded (in some cases) by advice provided by Fields in Trust in their document: “Guidance for Outdoor Sport and Play Beyond the Six Acre Standard - England. Using the guidance provided by Fields in Trust a set of standards by open space type is shown at Table 2 below. It is important to note that access to the countryside is particularly good in Craven, thus reducing the need for provision of a natural or informal nature (e.g. Green Corridors).

These standards are applied across each of the three study areas within this section. The tables below show how each of the sub areas and the plan area compares to both the Fields in Trust National Benchmark standard as well as the District wide median Local Standard. They show each of the typologies and both the current and future deficit or over supply. This is color coded with Green for over supply and red for deficit.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

Table 2: Quantitative Open Space Standards By Open Space Type

GROUP	PROVISION FOR CHILDREN AND YOUNG PEOPLE	PARKS AND GARDENS	AMENITY GREENSPACE	FORMAL OPEN SPACE
	Other outdoor provision (MUGA's and skateboard parks) 0.30 ha/1000			Allotments, Civic Spaces, Cemeteries, Churchyards and other Burial Grounds
	Equipped/designated play areas 0.25 ha/1000			
NATIONAL STANDARD	0.55 ha/1,000¹	0.8ha/1,000	0.6 ha/1,000	n/a
SOURCE	Fields in Trust Guidelines	Fields in Trust Guidelines	Fields in Trust Guidelines	n/a
LOCAL STANDARD*	0.30 ha/1000	0.61 ha/1000	0.41 ha/1000	0.8 ha/1000
SOURCE	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment

*the local standard is the median average for the District as set out in tables below.

It is recommended that use of the National FIT Standard is applied to protect provision where there may be a current area over supply, against the local standard, but a predicted deficit by the end of the plan period. This only applies to Amenity Greenspace in the South Craven Area, provision for Children and Young People in both the Mid and South Craven area and Formal Open Space in the South Craven and Mid Craven Areas. Local standards should be applied to calculate the provision of new facilities.

The only area that is showing a future oversupply against the FIT national Standard is Parks and Gardens in the South Area, this is due to the 21ha Aireville Park, Skipton that skews this data.

¹ Includes equipped play areas and MUGA/Skatepark provision

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

PARKS AND GARDENS

A quantitative analysis of “Parks and Gardens” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 3.

There is considerable variation across the District in this category. South Craven is relatively well-provided. However, North and Mid Craven show a considerable quantitative shortfall in relation to both the average standard and in comparison to the National FIT benchmark standard.

Table 3: Quantitative Analysis of Parks and Gardens Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.61)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.61)	DEFICIT/ OVERSUPPLY 2032
South Craven	5	26.6	33,441	0.80	20.40 ha	6.20 ha	39,145	23.88 ha	2.72 ha
Mid Craven	0	0	5,771	0.00	3.40 ha	-3.40 ha	6,870	4.05 ha	-4.05 ha
North Craven	3	1.4	6,408	0.21	3.78 ha	-2.38 ha	7,302	4.31 ha	-2.91 ha
TOTAL	10	28	45,620	0.61*		-0.54	53,317		-4.35

The local comparison standard for Parks and Gardens is 0.61* ha/1,000 population (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven area has a current over supply of 6.20 ha, that reduces to 2.72 ha by 2032. The Mid and North Craven areas have a current deficit of 3.4 ha and 2.38 ha respectively that is exacerbated to 4.05 ha and 2.91 ha by 2032 if no new provision is created to meet the baseline deficit and future population needs.

Comparison with the Fields in Trust standards highlights a significant current deficit across the whole of the plan area of 8.5 ha that nearly doubles to 14.66 ha over the plan period. The South Craven area has a very small current deficit, with the highest increases to 4.72ha over the plan period due to the population increase. The Mid and North Craven area show a significant current deficit: 4.62 ha and 3.73 ha respectively, which slightly increases over the plan period if no new provision is created.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

AMENITY GREENSPACE

A quantitative analysis of “Amenity Greenspace” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 4.

There is fairly consistent provision across the District in this category that shows up with each sub area being very close to the District median average. All areas show a current deficit in comparison to the National FIT benchmark standard with the most pronounced being the South Craven area.

Table 4: Quantitative Analysis of Amenity Greenspace Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.41)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 LOCAL STANDARD (0.41)	DEFICIT/ OVERSUPPLY 2032
South Craven	37	14.44	33,441	0.43	13.71 ha	0.73 ha	39,145	16.05 ha	- 1.61 ha
Mid Craven	12	2.12	5,771	0.37	2.37 ha	- 0.25 ha	6,870	2.82 ha	- 0.7 ha
North Craven	10	2.02	6,408	0.32	2.63 ha	- 0.61 ha	7,302	2.99 ha	- 0.97 ha
TOTAL	59	18.58	45,620	0.41		-0.13	53,317		-3.28

The local comparison standard for Amenity Greenspace is **0.41 ha/1,000 population** (total amount of current provision / population). The South Craven area shows slightly higher provision with Mid and North Craven slightly down on the District Average. When compared to the future population growth all areas show a deficit with the South Craven area showing the highest at -1.61 ha. There are a small handful of sites that have not been included in the assessment such as highway buffers and small sites that have very little amenity value.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

PROVISION FOR CHILDREN AND YOUNG PEOPLE

A quantitative analysis of provision for “Children and Young People” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 5.

There is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area show a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and significant current and future provision in comparison to the National FIT benchmark standard.

Table 5: Quantitative Analysis of Provision for Children and Young people Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.30)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 LOCAL STANDARD (0.30)	DEFICIT/ OVERSUPPLY 2032
South Craven	23	10.68	33,441	0.32	10.03 ha	0.65 ha	39,145	11.74 ha	-1.06 ha
Mid Craven	5	1.80	5,771	0.31	1.73 ha	0.07 ha	6,870	2.06 ha	- 0.26 ha
North Craven	6	0.99	6,408	0.15	1.92 ha	-0.93 ha	7,302	2.19 ha	- 1.2 ha
TOTAL	34	13.47	45,620			-0.21	53,317		- 2.52

The local comparison standard for Children and Young People is 0.30* ha/1,000 population (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven and Mid Craven area has a current small over supply of 0.72 ha, that changes to a deficit of 1.32 ha by 2032. The North Craven area shows a current and future deficit of 0.93 ha to 1.2 ha if no new provision is created to meet the baseline deficit and future population needs.

Comparison with the Fields in Trust standards highlights a significant current deficit across the whole of the plan area of 11.61 ha and is exacerbated to 15.85 ha over the plan period due to the population increase. The South Craven has the highest current deficiency of 7.71 which increases to 10.85 over the plan period. The Mid and North Craven area show much smaller current deficiencies of 1.37 ha and 2.53 ha respectively, which slightly increases over the plan period if no new provision is created.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA CRAVEN DISTRICT COUNCIL

FORMAL OPEN SPACE: ALLOTMENTS, CIVIC SPACE, CEMETERIES, CHURCHYARDS AND OTHER BURIAL GROUNDS

A quantitative analysis of provision for “Formal Open Space” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 6.

Overall there is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area shows a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and there is no overall national benchmark standard to compare with. However, the FIT report “Beyond the Six Acre Standard Guidance” includes other open space standards including one for local authorities for Allotments at 0.3 ha per 1000 population. The standard in 2004 was 1.6 ha/1000 population; this would show a deficit of 73ha if applied and is therefore clearly out of date.

Table 6: Quantitative Analysis of Formal Open Space Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.80)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 LOCAL STANDARD (0.80)	DEFICIT/ OVERSUPPLY 2032
South Craven	40	28.59	33,441	0.85	26.75 ha	1.84 ha	39,145	31.32 ha	-2.73 ha
Mid Craven	10	4.96	5,771	0.86	4.62. ha	0.34 ha	6,870	5.50 ha	- 0.54 ha
North Craven	13	3.03	6,408	0.47	5.13 ha	-2.1 ha	7,302	5.84 ha	-2.81. ha
TOTAL	63	36.58	45,620	0.80		0.08 ha	53,317		- 6.08

The local comparison standard for Formal Open Space is 0.80 ha/1,000 population (total amount of current provision / population). When comparing the provision in each of the sub areas against this District Median average, it shows that the South Craven and Mid Craven area has a current over supply of 1.84 ha and 0.34 respectively. However this changes to a deficit of 2.73 ha and 0.54 by 2032 due to population change. The North Craven area shows a current and future deficit of 2.1 ha that will increase to 2.81 ha if no new provision is created to meet the baseline deficit and future population needs.

Within this data there are some very clear deficiencies such as no allotments in the North Craven Area, despite 13.85 ha of provision in South and Mid Craven. When compared to the National FIT local authority standard for allotments (0.3) the plan area matches this standard (13.85/45,620 X1000) with Skipton being showing a surplus at 0.36 and Mid Craven equal at 0.3. When comparing this for the end of the plan period there will be a small deficit of 0.04. This will be most acute in North Craven with no provision, Skipton will still have a slight over supply (0.38) and Mid Craven will have small deficit of 0.05.

ACTION PLAN

The Action Plan is divided into the following:

- **Short-term actions – within the next three years**
- **Medium-term actions – three to five years**
- **Long-term actions – up to ten years.**

Each action is numbered in accordance with the system used to identify actions in the assessment report, i.e.:

- **“P” numbers (P1; P2; P3, etc.) indicate actions relating to planning issues**
- **“S” numbers (S1; S2; S3, etc.) indicate actions relating to service issues**
- **There is a section where actions are detailed**
- **Resources are indicated either in terms of sources of finance for implementation, or as officer time required for preparation and implementation**
- **The “Progress to Date” and “Review Date” sections are included to allow for self-monitoring of progress.**

PLAYING PITCH ASSESSMENT

OVERVIEW

Craven Planning Area has sufficient provision for the current and future levels of demand for cricket, football and hockey. This has been calculated using projected population growth and the future planned housing development, emphasising the recommendation that the focus should be on improving the quality rather than quantity of provision.

The calculation has shown that rugby currently has inadequate provision to satisfy the demands of local residents, therefore it is strongly recommended that the RFU and Craven District Council work with the two key clubs to follow the pitch improvement programmes that are currently in place.

The quality of pitches is relatively ordinary apart from cricket, which scored well across a number of high quality sites. A major contribution to this is the wet weather that is unavoidable for the region; however it is compounded by the lack of winter training space. The maintenance and quality of the more rural sites has also been identified as a key issue, with over-marking of football pitches onto cricket pitches causing issues with maintenance when the seasons overlap.

There is a shortage of 3G AGP provision in the district, with the action plan recommending that this is addressed through the development at Giggleswick School and the installation of floodlights at South Craven School, to allow further community use of their full size 3G AGP.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

There are also a number of opportunities to benefit from planning gain, with the action plan below defining the recommended way forward for the former Malsis School Site and Embsay Playing Fields among others.

The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven.

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

KEY FINDINGS

FOOTBALL

Table 11: Key Findings for Football

FOOTBALL SUMMARY	
<ul style="list-style-type: none">• The supply and demand results indicate that on the whole, there is sufficient capacity across Craven for football pitches, with deficiency at seven sites across the study area.• Balance figures - adult football +11.5 pitches, youth football +7 pitches and mini soccer +19.5 pitches• This balance shows that there is a small over-supply of football pitches in Craven, which would be significantly higher if the quality of pitches allowed a higher carrying capacity• Due to geographical location and profile of the district, pitches suffer from high rainfall during the winter months, which contributes the poor quality of many of the smaller sites• A key FA priority for Craven is to develop a collaborative pitch maintenance programme for the district, with club officers and volunteers benefitting from a joint equipment bank and training by qualified FA pitch experts• The FA also support the initial development plans for Sandylands as a multi-sport hub site, as this will improve the quality and quantity of provision at one of the most accessible and largest sites in the district.• There is high reliance on education sites for the supply of grass pitches, which is a risk as provision for curriculum sport will take priority if the pitches are unable to take the demand from community use, especially during periods of poor weather. This is less of a risk for Giggleswick school due to the excellent maintenance programme, however this is a key driver for the proposed move to the Malsis School Site by Sutton FC• Two of the key clubs in Craven (Embsay Juniors and Sutton FC) do not have their own home grounds and use an unsecured mix of sites, some of which are outside the district and their home areas. The clubs suffer from a high proportion of games being cancelled or moved, due to the poor quality of the pitches they are using. With these two clubs providing over a quarter of all football provision in Craven, this position is unsustainable and inadequate. The proposed development at both the Malsis site and Shires Lane in Embsay must ensure that the needs of the clubs are met in line with this assessment and NFFP paragraphs 73 and 74• The highest scoring sites were Bridge End (Settle FC), Cross Hills FC and Giggleswick School, however there is a lower proportion of GOOD sites, compared with benchmarks from other Local Authorities in the UK• A common issue across the sites is the quality of ancillary facilities, which are in some cases unfit for purpose and urgently requiring re-development.	

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

CRICKET

Table 12: Key Findings for Cricket

CRICKET SUMMARY
<ul style="list-style-type: none">• There is a general surplus of cricket wickets across the district• Team generation rates for Craven suggest that there will be limited growth in demand for cricket from natural population growth• Balance figures for 2015 (not including non-turf pitches); +81 wickets (individual pitches)• Projected balance figures for 2031; +11 wickets (individual pitches)• Key clubs in the area include Skipton CC, Sutton-in-Craven CC, Settle CC, Ingleton CC, Embsay CC, Bradley CC• The proposed Sandylands Hub project is an opportunity for Skipton CC and Skipton CI CC to collaborate and benefit from improved ancillary facilities• There is a general downward trend for cricket in the area, which the YCB is looking to address by diversifying the supply of competitions to include 2020 and weeknight leagues and cups.

RUGBY

Table 13: Key findings for Rugby

RUGBY SUMMARY
<ul style="list-style-type: none">• There are two rugby clubs in Craven; Skipton RUFC and North Ribblesdale RUFC• The three key sites that have community use all show a deficiency of supply, with Grove Park (NRRUFC) calculated as having a significant deficiency• The RFU has prioritised the Pitch Improvement Programmes at Skipton RFC and North Ribblesdale RUFC and is also looking to support the development of the 3G pitch at Giggleswick school for use by North Ribblesdale RUFC and Wharfedale RUFC• There is an increasing interest in women and girl's rugby in Craven and the RFU is keen to encourage a collaborative approach between the three main clubs in the area, in order to exploit and develop this interest• North Ribblesdale RUFC require a combination of new pitch stock and improved maintenance programmes at their Grove Park site, in order to reduce the deficiency of supply at their site

ASSESSMENT OF OPEN SPACE, PLAYING PITCH, AND SPORTS FACILITIES FOR CRAVEN DISTRICT COUNCIL AREA

CRAVEN DISTRICT COUNCIL

HOCKEY

Table 14: Key findings for Hockey

HOCKEY SUMMARY
<ul style="list-style-type: none">Settle Hockey Club is the only club in Craven, and does not have any competitive teams. Instead it runs a successful casual and participation based strategy with weekly training suitable for all standards.There is one full-sized sand based AGP that is suitable for hockey at Giggleswick school, which was rated as STANDARD in the site assessments. There is spare capacity at the site, which is likely to increase if the proposed 3G development at the school is completedEngland Hockey is keen to support Settle Hockey club to maintain their successful club structure and ensure that residents have the opportunity to play casual hockey, with the optional development to nearby competitive clubs.

SPORTS FACILITIES

OVERVIEW

Although Craven's market towns have good sports facilities there are some ageing facilities, which will require replacement in the medium to long term. These are the Sandylands Sports Centre hall, Settle Pool and Skipton Academy.

The anticipated population growth in Craven to 2032 needs to be appropriately catered for in terms of demand for sports facilities – both formal facilities and informal, multi-purpose spaces.

The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven, and help people to live and age better, because they are more active.

In order to realise the above Vision and Aims for sport and leisure facility provision in Craven there are a number of key priorities that need to be addressed, and implemented. These are set out below in the Action Plan, based on the recommendations for future provision.

The identified priority investment needs for the Craven Planning Area, by sub area are:

Table 16: Priority Facility Investment Needs

TOWN	SUB AREA	FACILITIES REQUIRING REPLACEMENT (DUE TO AGE/CONDITION)	NEED FOR ADDITIONAL PROVISION - FACILITY TYPE	
			SPORTS HALLS (BADMINTON COURTS)	SWIMMING POOLS
NORTH	SUB AREA		Multi-purpose space, indoor courts	
MID	SUB AREA	Settle Swimming pool (medium to long term)	Increased capacity for community use at Giggleswick School	Additional pool provision on the Settle Pool site – likely to be a new facility given age and design of existing facility. The equivalent of a new 4 lane x 25m pool is needed by 2032, in addition to the existing water space in the District.
SOUTH	SUB AREA	Sandylands Sports Centre (medium – term) Skipton Academy	Multi-purpose space at Sandylands Sports Centre and/or Craven Swimming and Fitness Centre

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

1. BACKGROUND

1.1. The original assessment of existing and future needs in relation to Open Space and Playing Pitches was completed in 2004, and is therefore now out of date. The 2015 assessment was designed to refresh and upgrade the earlier study. This assessment has undertaken a qualitative and quantitative assessment of the existing and future needs of the community for the following types of open space that exist in the part of Craven District that falls outside the Yorkshire Dales National Park i.e., the plan area:

- **Parks and Gardens**
- **Amenity Greenspace**
- **Provision for Children and Young People**
- **Allotments**
- **Cemeteries, Churchyards and other Burial Grounds.**
- **Civic Spaces**
- **Natural and Semi-Natural Greenspaces**
- **Green Corridors**

Note – Not all natural and semi natural greenspaces and green corridors have been assessed and analysed. Those sites which have been included in this study are those that are located within existing settlements e.g., Skipton Woods & Leeds Liverpool Canal (see annexes D & E for a list of sites). Due to the rural nature of the plan area most residents have access to open countryside via the Public Rights of Way network; therefore this study has not completed a full quantitative analysis of all natural and semi natural green spaces and green corridors that exist throughout the plan area.

- 1.2. Whilst a similar methodology was adopted, the 2015 study in relation to the Open Space elements of the study included a new qualitative assessment of each significant space for the purposes of compliance with the original PPG17 methodology. Some small open spaces were assessed using a desktop and Street View method in order to carry out a complete and rounded assessment, although some very small spaces (less than 0.2 ha and of limited amenity value) were excluded.
- 1.3. In addition, consultation was conducted with parishes throughout the District. This sought views on the quality, quantity and accessibility of green space in those parishes. Some anecdotal information was also obtained relating to the desire for additional facilities in each parish's open spaces.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 1.4. Some conclusions were drawn in relation to the need for actions in service as well as in planning terms. A number of actions were formulated, and included in an Action Plan for consideration in the short, medium, and long term.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

2. VISION AND OBJECTIVES

2.1. The study was completed in accordance with the District Council's Open Space Vision, i.e.:

“Improving the quality of life and making Craven’s public spaces cleaner, safer and greener”¹

2.2. The key Open Space Assessment objectives were defined for the study by the client as follows:

- 1. Protecting existing open space and supporting and providing open spaces, play spaces and access to local biodiversity**
- 2. Creating safe, attractive and accessible spaces for all, improving the standard of management and maintenance and increasing participation in open spaces, sport and recreation**
- 3. To undertake a qualitative and quantitative assessment of all open space sites and both formal sports facilities and informal sport and recreational facilities**
- 4. To identify qualitative and quantitative deficits or surpluses of those facilities**
- 5. To provide robust and up to date evidence to inform the development of the appropriate planning policy within the Craven Local plan and used by multiple Council units and other stakeholders for a wide range of projects including neighbourhood plans and green space designation**
- 6. To identify the spatial distribution of unmet needs, forecast future needs of the community and establish clear, prioritised, specific and achievable recommendations and actions to address the key issues around quantity and quality of open space and pitch provision**
- 7. Update our comprehensive GIS database of the location, type and quality of all open space sites in the District**
- 8. Ensure that the Open space assessment and action plans are regularly monitored and updated, with a full re-assessment to be undertaken after 5 years.**
- 9. Update the Open Space Standards from the 2004 standards.**

¹ Council Plan 2015-2018

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

3. METHODOLOGY

3.1. The methodology employed included a number of elements:

- Review of national, regional and local strategy and policy documents relevant to the exercise
- Division of open spaces into typology consisting of a number of different and discrete amenity “types”
- Creation of a qualitative template to include key elements of design and maintenance
- Qualitative on-site assessment of approximately 150 open spaces distributed throughout the District, but not including the Yorkshire Dales National Park (YDNP) in accordance with the principles contained in the PPG17 Companion Guide
- Desktop surveys of some smaller and less significant open spaces using a desktop and Google Streetview methodology
- Analysis of results to qualitatively assess the value of open spaces
- Use of quantitative standards in accordance principles contained in the PPG17 Companion Guide (i.e. by applying a local standard based on new Fields in Trust standards to different types of open spaces grouped in accordance with the PPG17 typology in terms of ha per 1,000 population). This has been supplemented by setting local standards across the three geographical areas in Craven District in order to make a District-wide comparison
- Use of accessibility standards as defined by the Fields in Trust Guidance Document
- Defining of a parish questionnaire and distribution to all parishes within the District, but excluding the YDNP
- Analysis of questionnaire results
- Drafting key conclusions relating to the current state of open spaces in the District
- Drafting recommendations relating to the significance of open space in the District in relation to the Local Plan.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

4. STRATEGIC OVERVIEW

PPS GUIDANCE

- 4.1. At the national level, before the replacement of all Planning Policy Statements (PPS's) by the National Planning Policy Framework in March 2012, there were a number which dealt with planning issues in detail. These Planning Policy Statements are detailed for reference in Annex A.
- 4.2. The Localism Act was given Royal Assent in November 2011. It aimed to take planning power from central government and place it in the hands of local authorities and communities. The Act seeks to:
 - **Give new freedoms and flexibilities to local government**
 - **Give new rights and powers for local communities and individuals**
 - **Reform the planning system to make it clearer, more democratic and more effective**
 - **Make reforms to ensure that decisions about housing are taken locally.**

PPG17

- 4.3. The Government issued planning policy guidelines for local authorities in the form of PPG 17 and Companion Guide to PPG17: Assessing Needs and Opportunities. These guidelines formed the basis of the original Craven report. They were first published on 13 September 2001. Although withdrawn on 7 March 2014, the guidelines were not replicated in succeeding enactments and guidelines, and are therefore still relevant as an evidence base. The PPG17 guidelines contained a number of recommendations which are directly relevant to this study.
- 4.4. One policy relates to areas of open space or recreational facilities of high quality or particular importance as a local amenity. These should be recognized by local authorities and given protection through appropriate policies and plans.
- 4.5. In terms of action which local authorities should be taking, they were advised through the PPG17 guidelines to:
 - **Avoid any erosion of recreational function and maintain and enhance the character of open spaces**
 - **Ensure that open spaces do not suffer from encroachment (from traffic flows, etc.)**
 - **Protect and enhance rights of way**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Consider the impacts of development on biodiversity and nature conservation.**

4.6. In general, local authorities should:

- **Promote accessibility to open space and the countryside**
- **Carefully consider safety and security in open spaces**
- **Improve their quality**
- **Meet regeneration needs through the provision of open space**
- **Consider using surplus land for open space purposes**
- **Consider the needs of visitors and tourists through open space provision.**

4.7. PPG17 gives specific guidance in terms of defining how the quality of parks and open spaces can be audited. This guidance has been used to assess the quality of open spaces throughout the District of Craven.

LOCALISM ACT AND THE NPPF

4.8. The Localism Act is being developed through detailed Regulations and the National Planning Policy Framework. This supercedes previous guidance as previously outlined, and introduced detailed modifications to existing Acts including the Town and Country Planning Act 1990 and the Planning Act 2008. The Government laid stress on the role of the National Planning Policy Framework in the following areas:

- **Clarified that the local plan was the keystone of the planning regime**
- **Was crystal clear that sustainable development embraces social and environmental as well as economic objectives and does so in a balanced way**
- **Referred explicitly to the five principles of the UK Sustainable Development Strategy**
- **Is clear that councils should look for net improvements on all dimensions of sustainability**
- **Made explicit that the presumption in favour of sustainable development works through, not against, local plans**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Made it clear that relevant policies - such as those protecting the Green Belt, Sites of Special Scientific Interest, National Parks and other areas - cannot be overridden**
- **Recognised the intrinsic value and beauty of the countryside (whether specifically designated or not)**
- **Made explicit what was always implicit: that councils' policies must encourage brownfield sites to be brought back into use**
- **Underlined the importance of town centres, while recognising that businesses in rural communities should be free to expand**
- **Embraced a localist approach to creating a buffer of housing supply over and above five years, and in the use of windfall sites**
- **Allowed councils to protect back gardens from development**
- **Ensured that playing fields continue to benefit from that same protection that they do currently.**

4.9. There are a number of issues relating to the implementation of both the Localism Act and the NPPF. These are highlighted in table 4.1 below. This does indicate that there are some opportunities associated with the Localism Act, and in particular with the NPPF. However, there are also some gaps which presume against a fully co-ordinated planning approach. These need to be at least acknowledged when planning future open space requirements in the District.

FIELDS IN TRUST REVIEW OF STANDARDS FOR OUTDOOR PLAY, SPORT AND RECREATION

- 4.10. Local authorities have traditionally used the National Playing Field Association's "6 Acre Standard." Recommendations on Outdoor Playing Space were first formulated in 1925, soon after the Association's formation. This helped ensure that every man, woman and child in Great Britain should have the opportunity of participating in outdoor recreational activity within a reasonable distance of home during leisure hours. The National Playing Field Association urged all local authorities to adopt a minimum standard of provision of 5 acres (20,000 m²) of public open space for every 1,000 people, of which at least 4 acres (16,000 m²) should be set aside for team games, tennis, bowls and children's playgrounds.
- 4.11. Since then, the National Playing Field Association has kept the recreational space standard under regular review. It now stands as the Six Acre Standard, recommending 6 acres (24,000 m²) per 1,000 head of population as a minimum necessity for space. The National Playing Field Association has since been superceded by Fields in Trust. FIT has conducted research which has indicated that 81% of local planning authorities express quantity standards for open space as "hectares per 1,000 population." This has enabled comparison across England and Wales, and is the most widely used metric for open space standards.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 4.12. The median level of provision for Designated Play Space was 0.25 hectares per 1,000 population. This corresponds to the Fields In Trust benchmark standard. The median accessibility standard was 100m. for Local Areas of Play (LAP's), 400m. for Local Equipped Areas for Play (LEAP's), and 1,000m. for Neighbourhood Equipped Areas for Play" (NEAP's). Accessibility standards have often been expressed in terms of walking time rather than distance.

- 4.13. Fields In Trust has discovered that the median level of playing pitch provision was 1.21 hectares per 1,000 population (comparable with the Fields In Trust recommended benchmark standard). The median accessibility standard from respondents to the Fields In Trust survey was 1,200m. from dwellings, matching the Fields In Trust benchmark.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 4.14. Respondents to the Fields In Trust survey provided data relating to an overall standard for parks and amenity green space. The median level of provision sought was 1.0 hectares per 1,000 population.
- 4.15. In relation to the meeting of local standards for open space being met in planning decision-making, 64% indicated a score of between 7 and 10 (where 1 indicated “seldom” and 10 indicated “Always”).
- 4.16. Of relevance to future planning of open space requirements in Craven are the new benchmark guidelines contained in Fields in Trust’s “Guidance for Outdoor Sport and Play: Beyond the Six Acre Standard.” These are shown in figures 4.2 and 4.3 below.
- 4.17. The key quantitative standards which are included in this report are those defined in this report, and based on the earlier Craven District Council “Sports, Open Space and Recreation Facilities Assessment.” This was drafted in 2004 and updated in 2008. These define a local standard for each typology of open space across the District and compares it to provision in each of the study areas (North Craven, Mid Craven and South Craven).
- 4.18. These national standards are used later in section 7, and have been used in conjunction with local standards in order to calculate quantitative standards.
- 4.19. The application of national standards alone shows that Craven is deficient in most types of open space. However, the use of local standards provides a more realistic overall picture of provision.
- 4.20. The Council considers that the best approach is to utilise national standards if there is loss of existing provision; and that local standards should be applied to calculate the provision of new facilities (see Annex B & para 7.10).

Table 4.2: FIT Recommended Benchmark Guidelines – Formal Open Space

OPEN SPACE TYPOLOGY	QUANTITY GUIDELINE (HECTARES PER 1,000 POPULATION)	WALKING GUIDELINE (WALKING DISTANCE: METRES FROM DWELLINGS)
EQUIPPED/DESIGNATED PLAY AREAS	0.25	LAPs – 100m LEAPs – 400m NEAPs – 1,000m
OTHER OUTDOOR YOUTH PROVISION (MUGA’S AND SKATEBOARD PARKS)	0.30	700m
AMENITY GREENSPACE	0.60	480m
PARKS AND GARDENS	0.80	710m
ALLOTMENTS	0.30	n/a

Note: The FIT benchmark guidelines do not include quantity guidelines for civic spaces, cemeteries, churchyards and other burial grounds.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 4.3: FIT Quality Guidelines for Formal Open Space

- ✓ **Quality appropriate to the intended level of performance, designed to appropriate technical standards.**
- ✓ **Located where they are of most value to the community to be served.**
- ✓ **Sufficiently diverse recreational use for the whole community.**
- ✓ **Appropriately landscaped.**
- ✓ **Maintained safely and to the highest possible condition with available finance.**
- ✓ **Positively managed taking account of the need for repair and replacement over time as necessary.**
- ✓ **Provision of appropriate ancillary facilities and equipment.**
- ✓ **Provision of footpaths.**
- ✓ **Designed so as to be free of the fear of harm or crime.**
- ✓ **Local authorities can set their own quality benchmark standards for playing pitches, taking into account the level of play, topography, necessary safety margins and optimal orientation**
- ✓ **Local authorities can set their own quality benchmark standards for play areas using the Children's Play Council's Quality Assessment Tool.**

5. CONSTRAINTS

5.1. There were a number of constraints to this study. These were as follows:

- **This part of the assessment was confined to open spaces. Sport and recreation facilities are covered elsewhere in this report**
- **Because Craven's land use planning control does not extend to the Yorkshire Dales National Park, sites contained within the YNDP were not included in the study**
- **This part of the study includes a qualitative audit. Quantitative and accessibility standards, audits and projections are not included, with the exception of anecdotal evidence from the parish consultation exercise**
- **Sites of less than 0.2 ha and of little amenity value were generally excluded in line with PPG17 methodology guidelines**
- **Some small sites did not require a qualitative survey on-site, and were audited using a desktop approach**
- **A number of the responses to the parish and town council consultation exercise were anecdotal in nature (i.e. they requested respondents to give their views in the form of comments rather than by asking them to respond using a rating system).**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

6. GREENSPACE QUALITY AUDITS

6.1 Open spaces were divided using the typology shown in Annex B, which is based on PPG17. This was clarified in the brief provided by the client. The PPG17 Companion Guide stated that: “Quality standards can obviously vary according to the primary and secondary purposes of different forms of provision and their level within any adopted hierarchy of provision. They are not absolute measures, but reasonable aspirations and benchmarks against which to measure the quality of any existing open space or sports facility in order to determine the need for enhancement.” Accordingly, a number of measures were used based on this guidance, and including:

- **Main entrance elements**
- **Signage**
- **Roads, pathways and other accesses**
- **Shrub beds**
- **Mature trees**
- **Bins**
- **Toilets**
- **Lighting**
- **Play provision**
- **Tennis courts**
- **Side entrances**
- **Boundaries**
- **Flower beds**
- **Young trees**
- **Grass areas**
- **Seats**
- **Parking**
- **Information boards**
- **Cleanliness**
- **MUGAs**

6.2 A number of factors for each of the above were scored up to a maximum of five points, and an average rating was calculated for each of the above categories. Total points were compared to a maximum possible score. This was expressed as a percentage to produce a rating for each open space. These defined qualitative provision as:

- **Very poor**
- **Average**
- **Very good**
- **Poor**
- **Good**

6.3 All audited sites were categorized using the typology, and are shown in Annex D.

6.4 Annex C indicates the Craven Sub Areas which have been used in accordance with the study brief in order to carry out analysis of open spaces in the District. These cover the following key North communities:

- **Burton in Lonsdale**
- **High Bentham**
- **Newby**
- **Low Bentham**
- **Ingleton**
- **Clapham**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

6.5 In the Mid area, the following communities are served with open space:

- Giggleswick
- Rathmell
- Wiglesworth
- Settle
- Hellifield

6.6 In the South area, communities studied are as follows:

- Thornton in Craven
- Skipton
- Bradley
- Draughton
- Eastby
- Cowling
- Glusburn
- Halton East
- Cononey
- Gargrave
- Carleton
- Embsay
- Lothersdale
- Kildwick
- Sutton
- Crosshills
- Farnhill
- Embsay

6.7 Audit findings were analysed for these three areas. These findings are shown as figure 6.1 for the North Area. The issues outlined are in relation to qualitative standards as outlined in Annex B.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7. SERVICE ISSUES RELATING TO QUANTITY AND ACCESSIBILITY

- 7.1. Analysis of the audit findings has identified a number of issues relating mainly to the quantity of open spaces in the District. These, combined with a simple analysis of the distribution of different green space “types” and of relevant national standards (in particular Fields in Trust Guidelines for Formal Open Space) also leads to some conclusions relating to the quantity and accessibility of provision. These issues relate to service provision in terms of quantity and accessibility, rather than planning issues which are considered.
- 7.2. Quantitative issues were considered in the same geographical context as qualitative issues (i.e. by initially analysing quantity and accessibility by geographical area).
- 7.3. The basis for the analysis was the information contained in the Craven District Council “Sports, Open Space and Recreation Facilities Assessment.” This was drafted in 2004 and updated in 2008. These typologies are in line with PPG17 and its Companion Guide. The same typology categories were used as those for open space defined in this report, as set out at 1.1.
- 7.4. The methodology used in this study has been as follows, to:
- **Identify from the study the total area (ha) of open space in each category**
 - **Utilise Fields in Trust standards (in ha per 1,000 people) contained in the latest Guidance Notes for each open space type as defined using the PPG17 typology.**
 - **Merge analysis areas (four were used in the earlier study) so that these relate to the three analysis areas used in this study, and identified in Annex C**
 - **Use updated population statistics for 2012 provided by the client for each of the three analysis areas to create local standards in ha/1,000 population (median average across the plan area)**
 - **Study these local standards to identify shortfalls and surpluses in each analysis area.**
- 7.5. The next section identifies relative shortfalls and surpluses in relation to each of the open space types within the typology utilised in accordance with the PPG17 methodology. This will be of use to the Craven District Council Planning Unit in comparing levels of provision across geographical analysis levels. The local standard has been calculated by expressing provision in hectares per thousand population by comparing the population with the actual level of current provision, i.e. for South Craven in Table 7.91, the 2012 population in thousands was 33,441. This is therefore divided by the total holding of Parks and Gardens in that geographical location (26.6 hectares).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.6. This equates to a level of provision of 0.8 hectares per thousand population. The same process is applied by dividing the current level of provision by the projected population figure in thousands in 2032 (i.e. 39.145). The same process is used for the Mid and North areas. Whilst this does not allow for benchmarking against external standards as detailed in table 7.92, it does allow for benchmark comparisons to be made between provision within the same typology in all three geographical areas, highlighting inequalities and relative shortfalls and surpluses. The population increases projected for 2032 over 2012 are as follows:

- **South Craven: 17% increase in population**
- **Mid Craven: 19% increase**
- **North Craven: 14% increase.**

USE OF EXTERNAL GUIDANCE TO SET QUANTITATIVE PROVISION STANDARDS AND COMPARATIVE STUDY OF PROVISION IN EACH ANALYSIS AREA

7.7. A set of local standards were defined as part of the 2004 Craven open space provision study. However, in some cases these have been superceded by advice provided by Fields in Trust in their document: "Guidance for Outdoor Sport and Play Beyond the Six Acre Standard - England." The setting of these standards accords with guidance provided in relation to "Greenspaces or Sport and Recreation Facilities (October 2015)" which states: "The easiest way to express a quantity standard is a combination of a unit of a 'useful area' of provision and a population, such as X sq m/person (mainly for indoor provision) or Y ha/1,000 people (mainly for open spaces and outdoor sports provision).

7.8. Using the guidance provided by Fields in Trust a set of standards by open space type is shown at Table 7.8 below. It is important to note that access to the countryside is particularly good in Craven, thus reducing the need for provision of a natural or informal nature (e.g. Green Corridors).

7.9. These standards are applied across each of the three study areas within this section. The tables below show how each of the sub areas and the plan area compares to both the Fields in Trust National Benchmark standard as well as the District wide median Local Standard. They show each of the typologies and both the current and future deficit or over supply. This is color coded with Green for over supply and red for deficit.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.8: Quantitative Open Space Standards By Open Space Type

GROUP	PROVISION FOR CHILDREN AND YOUNG PEOPLE	PARKS AND GARDENS	AMENITY GREENSPACE	FORMAL OPEN SPACE
	Other outdoor provision (MUGA's and skateboard parks) 0.30 ha/1000			Allotments, Civic Spaces, Cemeteries, Churchyards and other Burial Grounds
	Equipped/designated play areas 0.25 ha/1000			
NATIONAL STANDARD	0.55 ha/1,000²	0.8ha/1,000	0.6 ha/1,000	n/a
SOURCE	Fields in Trust Guidelines	Fields in Trust Guidelines	Fields in Trust Guidelines	n/a
LOCAL STANDARD*	0.30 ha/1000	0.61 ha/1000	0.41 ha/1000	0.8 ha/1000
SOURCE	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment

*the local standard is the median average for the District as set out in tables below.

7.10. It is recommended that use of the National FIT Standard is applied to protect provision where there may be a current area over supply, against the local standard, but a predicted deficit by the end of the plan period. This only applies to Amenity Greenspace in the South Craven Area, provision for Children and Young People in both the Mid and South Craven area and Formal Open Space in the South Craven and Mid Craven Areas. The only area that is showing a future oversupply against the FIT national Standard is Parks and Gardens in the South Area, this is due to the 21ha Aireville Park, Skipton that skews this data.

² Includes equipped play areas and MUGA/Skatepark provision

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARKS AND GARDENS

- 7.11. There is considerable variation across the District in this category. South Craven is relatively well-provided. However, North and Mid Craven show a considerable quantitative shortfall in relation to both the average standard and in comparison to the National FIT benchmark standard.
- 7.12. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.13. A quantitative analysis of “Parks and Gardens” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.9.

Table 7.9: Quantitative Analysis of Parks and Gardens Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.61)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.61)	DEFICIT/ OVERSUPPLY 2032
South Craven	5	26.6	33,441	0.80	20.40 ha	6.20 ha	39,145	23.88 ha	2.72 ha
Mid Craven	0	0	5,771	0.00	3.40 ha	-3.40 ha	6,870	4.05 ha	-4.05 ha
North Craven	3	1.4	6,408	0.21	3.78 ha	-2.38 ha	7,302	4.31 ha	-2.91 ha
TOTAL	10	28	45,620	0.61*		-0.54	53,317		-4.35

- 7.14. The local comparison standard for Parks and Gardens is **0.61* ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven area has a current over supply of 6.20 ha, that reduces to 2.72 ha by 2032. The Mid and North Craven areas have a current deficit of 3.4 ha and 2.38 ha respectively that is exacerbated to 4.05 ha and 2.91 ha by 2032 if no new provision is created to meet the baseline deficit and future population needs.
- 7.15. Some settlements lack Parks and Gardens but often have spaces that have elements of this typology. Lothersdale Recreation Ground is a good example that's primary classification is that of a Play Area for Children and Young People as the site has an equipped play area, a multi sue Games area and an informal grass pitch. The site also has a War Memorial, some planted areas, trees, benches and paths. This type of multi-functional space is more prevalent in the smaller settlements in order to provide a single central site in the village for a wide range of use and purpose.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.16. A quantitative analysis based on Fields in Trust guidelines (0.8 ha/1000 population) for the category “Parks and Gardens” is shown as Table 7.10. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

Table 7.10: Quantitative Analysis of Parks and Gardens Against External Fields in Trust National Standard

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.8)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.8)	DEFICIT/ OVERSUPPLY 2032
South Craven	5	26.6	33,441	26.75 ha	-0.15 ha	39,145	31.32 ha	- 4.72 ha
Mid Craven	0	0	5,771	4.620 ha	-4.62 ha	6,870	5.50 ha	-5.50 ha
North Craven	3	1.4	6,408	5.13 ha	-3.73 ha	7,302	5.84 ha	-4.44 ha
TOTAL	10	28	45,620		-8.5 ha	53,317		- 14.66 ha

7.17. This highlights a significant current deficit across the whole of the plan area of 8.5 ha that nearly doubles to 14.66 ha over the plan period. The South Craven area has a very small current deficit, with the highest increases to 4.72ha over the plan period due to the population increase. The Mid and North Craven area show a significant current deficit: 4.62 ha and 3.73 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

AMENITY GREENSPACE

- 7.18. There is fairly consistent provision across the District in this category that shows up with each sub area being very close to the District median average. All areas show a current deficit in comparison to the National FIT benchmark standard with the most pronounced being the South Craven area.
- 7.19. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly with deficits increasing
- 7.20. A quantitative analysis of “Amenity Greenspace” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.11.

Table 7.11: Quantitative Analysis of Amenity Greenspace Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.41)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.41)	DEFICIT/ OVERSUPPLY 2032
South Craven	37	14.44	33,441	0.43	13.71 ha	0.73 ha	39,145	16.05 ha	- 1.61 ha
Mid Craven	12	2.12	5,771	0.37	2.37 ha	- 0.25 ha	6,870	2.82 ha	- 0.7 ha
North Craven	10	2.02	6,408	0.32	2.63 ha	- 0.61 ha	7,302	2.99 ha	- 0.97 ha
TOTAL	59	18.58	45,620	0.41		-0.13	53,317		-3.28

- 7.21. The local comparison standard for Amenity Greenspace is 0.41 ha/1,000 population (total amount of current provision / population). The South Craven area shows slightly higher provision with Mid and North Craven slightly down on the District Average. When compared to the future population growth all areas show a deficit with the South Craven area showing the highest at -1.61 ha. There are a small handful of sites that have not been included in the assessment such as highway buffers and small sites that have very little amenity value.
- 7.22. Some settlements lack any Amenity Greenspaces such as Bradley village, but this has a centrally located playing field that provides a secondary function as an Amenity Greenspace including seating, picnic area and host the annual village gala.
- 7.23. A quantitative analysis based on Fields in Trust guidelines (0.6 ha/1000 population) for the category “Amenity Greenspace” is shown as Table 7.12. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.12: Quantitative Analysis of Amenity Greenspace

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.60)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.60)	DEFICIT/ OVERSUPPLY BY 2032
South Craven	37	14.44	33,441	20.06 ha	- 5.62 ha	39,145	23.49 ha	- 9.05 ha
Mid Craven	12	2.12	5,771	3.46 ha	- 1.34 ha	6,870	4.12 ha	- 2.00 ha
North Craven	10	2.02	6,408	3.85 ha	- 1.82 ha	7,302	4.38 ha	- 2.36 ha
TOTAL	59	18.58	45,620		-8.79	53,317		-13.41

7.24. This highlights a significant current and future deficit across the whole of the plan area: 8.79 ha and increasing to 13.41 over the plan period. The South Craven area has the highest current deficit that nearly doubles over the plan period -5.62 to -9.05. The Mid and North Craven area show a smaller current deficit: 1.34 ha and 1.82 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PROVISION FOR CHILDREN AND YOUNG PEOPLE

- 7.25. There is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area show a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and significant current and future provision in comparison to the National FIT benchmark standard.
- 7.26. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.27. A quantitative analysis of provision for “Children and Young People” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.13.

Table 7.13: Quantitative Analysis of Provision for Children and Young people Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.30)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.30)	DEFICIT/ OVERSUPPLY 2032
South Craven	23	10.68	33,441	0.32	10.03 ha	0.65 ha	39,145	11.74 ha	-1.06 ha
Mid Craven	5	1.80	5,771	0.31	1.73 ha	0.07 ha	6,870	2.06 ha	- 0.26 ha
North Craven	6	0.99	6,408	0.15	1.92 ha	-0.93 ha	7,302	2.19 ha	- 1.2 ha
TOTAL	34	13.47	45,620			-0.21	53,317		- 2.52

- 7.28. The local comparison standard for Children and Young People is **0.30* ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven and Mid Craven area has a current small over supply of 0.72 ha, that changes to a deficit of 1.32 ha by 2032. The North Craven area shows a current and future deficit of 0.93 ha to 1.2 ha if no new provision is created to meet the baseline deficit and future population needs.
- 7.29. Most Primary schools in the plan area have on site equipped play areas that provides a play value during term day time use. These have not been included in the analysis unless they have secured community access such as Ings School MUGA.
- 7.30. A quantitative analysis based on Fields in Trust guidelines (0.55 ha/1000 population) for the category “Children and Young People” is shown as Table 7.14. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.14: Quantitative Analysis of Provision for Children and Young People Against External Fields in Trust National Standard

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.55)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.55)	DEFICIT/ OVERSUPPLY 2032
South Craven	23	10.68	33,441	18.39 ha	- 7.71 ha	39,145	21.53 ha	- 10.85 ha
Mid Craven	5	1.80	5,771	3.17 ha	- 1.37 ha	6,870	3.78 ha	-1.98 ha
North Craven	6	0.99	6,408	3.52 ha	- 2.53 ha	7,302	4.01 ha	-3.02 ha
TOTAL	34	13.47	45,620		- 11.61 ha	53,317		- 15.85 ha

7.31. This highlights a significant current deficit across the whole of the plan area of 11.61 ha and is exacerbated to 15.85 ha over the plan period due to the population increase. The South Craven has the highest current deficiency of 7.71 which increases to 10.85 over the plan period. The Mid and North Craven area show much smaller current deficiencies of 1.37 ha and 2.53 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

FORMAL OPEN SPACE: ALLOTMENTS, CIVIC SPACE, CEMETERIES, CHURCHYARDS AND OTHER BURIAL GROUNDS

- 7.32. Overall there is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area show a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and there is no overall national benchmark standard to compare with. However, the FIT report “Beyond the Six Acre Standard Guidance” include other open space standards including one for local authorities for Allotments at 0.3 ha per 1000 population. The standard in 2004 was 1.6 ha/1000 population, would show deficit of 73ha if applied and is therefore clearly out of date.
- 7.33. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.34. A quantitative analysis of provision for “Formal Open Space” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.15.

Table 7.15: Quantitative Analysis of Formal Open Space Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.80)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.80)	DEFICIT/ OVERSUPPLY 2032
South Craven	40	28.59	33,441	0.85	26.75 ha	1.84 ha	39,145	31.32 ha	-2.73 ha
Mid Craven	10	4.96	5,771	0.86	4.62. ha	0.34 ha	6,870	5.50 ha	- 0.54 ha
North Craven	13	3.03	6,408	0.47	5.13 ha	-2.1 ha	7,302	5.84 ha	-2 81. ha
TOTAL	63	36.58	45,620	0.80		0.08 ha	53,317		- 6.08

- 7.35. The local comparison standard for Formal Open Space is **0.80 ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against this District Median average, it shows that the South Craven and Mid Craven area has a current over supply of 1.84 ha and 0.34 respectively. However this changes to a deficit of 2.73 ha and 0.54 by 2032 due to population change. The North Craven area shows a current and future deficit of 2.1 ha that will increase to 2.81 ha if no new provision is created to meet the baseline deficit and future population needs.
- 7.36. Within this data there are some very clear deficiencies such as no allotments in the North Craven Area, despite 13.85 ha of provision in South and Mid Craven. When compared to the National FIT local authority standard for allotments (0.3) the plan area matches this standard ($13.85/45,620 \times 1000$) with Skipton being showing a surplus at 0.36 and Mid Craven equal at 0.3.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.37. When comparing this for the end of the plan period there will be a small deficit of 0.04. This will be most acute in North Craven with no provision, Skipton will still have a slight over supply (0.38) and Mid Craven will have small deficit of 0.05.

USE OF EXTERNAL GUIDANCE TO SET ACCESSIBILITY STANDARDS

7.38. The PPG17 Companion Guide states that: "Distance thresholds are a very useful planning tool, especially when used in association with a Geographical Information System (GIS). For example, it is possible to identify the percentage of households within a distance threshold of any particular provision or to compare possible locations for new provision to determine which will be the most effective."

7.39. The 2004 Open Space Assessment is utilised as a basis on which to define accessibility standards. These catchment areas are in part adapted from the Greater London Authority Guide to Preparing Open Space Strategies. These standards were endorsed within the Commission for the Built Environment Best Practice Guidance Document ("Open Space Strategies"). They have the advantage that they cover Allotments, Cemeteries and Civic Spaces for which alternative standards are unavailable or unrecognized (Table 7.16). These were used more extensively in the 2004 Craven Open Space Assessment. However, they have been superseded in the case of Informal Outdoor Space by the Fields in Trust recommended benchmark guidelines. Table 7.14 below describes catchment areas used for the Craven Open Space Assessment. These have also been used in relation to equipped play areas and other provision (MUGAs and skateboard parks). See Table 7.15. Equipped/designated play areas are designated as:

- **Local Areas for Play (LAPs) aimed at very young children;**
- **Locally Equipped Areas for Play (LEAPs) aimed at children who can go out to play independently; and**
- **Neighbourhood Equipped Areas for Play (NEAPs) aimed at older children.**

7.40. There are other standards available (e.g. the English Nature ANGst model), which uses the following:

- **No person should live within more than 300m from their nearest area of natural greenspace.**
- **Provision of at least 1ha of Local Nature Reserve per 1000 population.**
- **There should be at least one accessible 20ha site within 2km from home.**
- **There should be one 100ha site within 5km**
- **There should be one 500ha site within 10km.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.41. Despite these ANGST targets being used by a number of local authorities in relation to the planning of accessible natural greenspace, this has been rejected in the case of standards setting by Craven because the Fields in Trust guidelines are more appropriate for Craven as outlined in October 2015 “Beyond the Six Acre Standard Guidance for Outdoor Sport and Play England.” This is because the residents of Craven have access to large areas of countryside, and the guidelines are arguably over-detailed for a rural district.

Table 7.16: Accessibility Standards for Informal Open Space for Based on Fields in Trust Benchmark Guidelines (Oct 2015)

OPEN SPACE TYPOLOGY	WALKING GUIDELINE (walking distance: metres from dwellings)	QUALITY GUIDELINE
PARKS AND GARDENS	710 m	<ul style="list-style-type: none"> • Green Flag standard • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime
NATURAL/SEMI NATURAL GREENSPACES	720 m	<ul style="list-style-type: none"> • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime
AMENITY GREENSPACE	480 m	<ul style="list-style-type: none"> • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.17: Accessibility Standards for Play Provision Based on Fields in Trust Benchmark Guidelines (Oct 2015)

OPEN SPACE TYPOLOGY	WALKING GUIDELINE (walking distance: metres from dwellings)	QUALITY GUIDELINE
EQUIPPED/DESIGNATED PLAY AREAS OTHER OUTDOOR PROVISION (MUGAS AND SKATEBOARD PARKS)	LAPs – 100m LEAPs – 400m NEAPS – 1,000m 700m	<ul style="list-style-type: none"> • Quality appropriate to the intended level of performance, designed to appropriate technical standards. • Located where they are of most value to the community to be served. • Sufficiently diverse recreational use for the whole community. • Appropriately landscaped. • Maintained safely and to the highest possible condition with available finance. • Positively managed taking account of the need for repair and replacement over time as necessary. • Provision of appropriate ancillary facilities and equipment. • Provision of footpaths. • Designed so as to be free of the fear of harm or crime.

Table 7.18: Accessibility Standards for Allotments, Cemeteries and Civic Spaces Provision Based on GLA Guide to Preparing open Space Strategies

OPEN SPACE TYPOLOGY	REGIONAL SIGNIFICANCE (OVER 400 HA)	METROPOLITAN SIGNIFICANCE (60-400 HA)	DISTRICT SIGNIFICANCE (20-60 HA)	LOCAL SIGNIFICANCE
ALLOTMENTS	8km	3.2km	1.2km	400m
CEMETERIES	8km	3.2km	1.2km	400m
CIVIC SPACES	8km	3.2km	1.2km	400m

NOTE – In terms of CDC's draft policy approach the preference will be to improve the quantity of existing OS, which will incorporate accessibility standards. Where there is sufficient quantity of OS policy will then aim to improve the quality of existing OS.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

QUANTITATIVE ISSUES

7.42 Some analysis was also highlighted both as a result of impressions gained whilst conducting the qualitative review, and from comments obtained and analysis of the parish consultation exercise. These reinforce the findings of the foregoing quantitative analysis.

7.42. Issues relating to the northern area are shown as Table 7.19 below.

Table 7.19: Quantitative issues in the north

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none">Only multi-purpose park is in Ingleton. Other communities lack provision
AMENITY GREENSPACE	<ul style="list-style-type: none">Accessibility varies, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none">Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracksGreen play under-provided, and particularly suitable for rural locationsMore adventurous play equipment (e.g. iplay, low ropes, etc.) should be consideredSignificant shortfall in terms of Youth and Teenage provisionLack of provision in Burton in Lonsdale (recent closure of site identified via recent CDC site visit.
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none">Little provision of this type, but offset by high level of access to the wider countryside
CEMETERIES	<ul style="list-style-type: none">Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none">Distinct lack of provision

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.43. Quantitative issues identified in the Mid area are shown as Table 7.20.

Table 7.20: Quantitative issues in the mid area

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none"> Little provision. May warrant consideration in Settle
AMENITY GREENSPACE	<ul style="list-style-type: none"> Accessibility varies, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracks, particularly in Settle Green play under-provided, and particularly suitable for rural locations No MUGA provision in Settle More adventurous play equipment (e.g. iplay, low ropes, etc.) should be considered Significant shortfall in terms of Youth and Teenage provision
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> Little provision of this type (apart from Castleberg), but offset by high level of access to the wider countryside
CEMETERIES	<ul style="list-style-type: none"> Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none"> Lack of quality provision may need investigation in light of national demand

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.44. Finally, quantity and accessibility issues relating to the South area are shown in Table 7.21.

Table 7.21: Quantitative issues in the south

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none"> Limited provision. May warrant consideration in Skipton
AMENITY GREENSPACE	<ul style="list-style-type: none"> Accessibility varies in rural areas, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracks, particularly in Skipton Green play under-provided, and particularly suitable for rural locations More adventurous play equipment (e.g. iplay, low ropes, etc.) should be considered Significant shortfall in terms of Youth and Teenage provision
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> Little provision of this type (apart from Skipton Woods and Reservoir in Lothersdale and area south of recreation ground), but offset by high level of access to the wider countryside Greater accessibility to Leeds/Liverpool canal by improved signage, surfaces, etc. would increase usage
CEMETERIES	<ul style="list-style-type: none"> Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none"> Lack of quality provision may need investigation in light of national demand

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.45. Issues identified across the District in relation to quantity and accessibility are as follows:

- **Provision of multi-purpose parks such as those at Sutton is lacking in all three geographical areas in key settlements**
- **Because of the variability in provision for children and young people, an upgrade is necessary in a number of communities. This should include the provision of safer surfaces in places, and the installation of challenging and exciting pieces of equipment. This is particularly important in Aireville Park, with its large potential catchment**
- **There is a demonstrable need for teenage and youth facilities such as BMX/pump tracks in Settle, and in Ingleton in the northern geographical area**
- **Adventurous play provision such as iplay should be considered in settlements in all three areas. This is lacking at the moment**
- **“Green” play provision would be desirable and suitable for all areas, but in particular in rural locations. Little provision of this type exists in Craven**
- **There is limited MUGA provision, and this should be considered, particularly in Settle**
- **Greater use should be made of open space by using more informal landscape methods to encourage biodiversity and habitat creation. This is lacking at present**
- **Green corridors such as the Leeds to Liverpool Canal should be upgraded or created to link settlements, encourage wildlife, and increase green transportation (walking and cycling). There is also a current project to improve the towpath between Skipton and Bradley**
- **The provision of burial space should be further explored in order to ensure an adequate future supply**
- **Allotment provision should be increased in terms of quality and quantity to meet sustained demand. There are no sites in the north.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

8. CONSULTATION

8.1. A consultation exercise was conducted which consisted of a questionnaire to all parishes within the Craven District (excluding those in the Yorkshire Dales National Park). This covered the following areas in accordance with the PPG17 methodology pursued in accordance with the objectives of the study:

- **A general question about the importance of open space in each parish**
- **A question about the quality of open space as perceived split between:**
 - **Parks and Gardens:** usually multi-functional in terms of provision and serving a fairly wide catchment. May contain playgrounds and other facilities including sports pitches
 - **Amenity Greenspace:** smaller open spaces with provision usually confined to the immediate neighbourhood. Not multi functional and usually consisting of lawn and sometimes trees
 - **Children and young people:** playgrounds and similar facilities for children and teens
 - **Allotments:** allotment garden areas
 - **Cemeteries:** either active or redundant in terms of burial
 - **Civic Spaces:** Usually hard surfaced and consisting of small areas such as squares and war memorial areas.
- **A question about the quantity and accessibility of open space in the above categories**
- **A general question about improvements you would like to see in those categories.**

8.2. Findings indicating the issues arising from consultation are shown in Table 8.1. These are shown by Parish. Twelve parish responses were received in total.

8.3. The following codes are used to qualify responses in relation to “Importance to Health:”

V = very important

F = fairly important

N = not very important

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

8.4. The question relating to importance to health was:

“How important do you think it is to have green spaces for people’s mental, emotional and physical health near to where they live?”

8.5. The results were unequivocal. Eleven out of twelve respondents considered that local open spaces were “very important,” and one that they were “fairly important.” None thought that they were “not very important.” Thus it is obvious that there is a high awareness of the value of local green space to the health of people living nearby.

8.6. In relation to questions relating to the quality and quantity and accessibility of green space by parish, the following codes were used:

E = excellent

G= good

A = average

BA = below average

P = poor

8.7. Responses were received in relation to the question:

“How would you rate the quality of green space by type in the parish?”

8.8. These responses relate to each category of open space as indicated earlier in this section, and are as follows:

- **Parks and Gardens** - 33% believed quality to be “excellent;” 55% believed it to be “good;” and the remaining parish that it was “average.” There are few open spaces in this category, and they include multi-functional facilities such as Sutton Park and Ingleton Park. Direct parish experience of operating such open spaces is therefore limited. Nevertheless, the responses mirror those recorded from the site audits.
- **Amenity Greenspace** – 33% considered amenity greenspace to be “excellent,” 56% thought it “good,” and the other response as “average.” This is the type of greenspace with the most provision throughout the District. Responding parishes tended to have a higher opinion of quality than that suggested by the independent physical assessment.
- **Children and Young People** – 29% of parishes in the survey thought these facilities to be “excellent” in quality. A similar number felt quality to be “good.” One parish thought facilities were somewhere between “good” and “average,” and 29% thought them “average.” These results are slightly higher in terms of their assessment of quality than those suggested by the physical audit, but not to a marked degree.
- **Allotments** – of six parishes commenting on the value of allotments, one felt that quality was “excellent.” One parish felt that quality was “good” and one that it was somewhere between “good” and “average.” Two felt that the standard was “average.” The physical audit indicated that the standard was closer to “average.”

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

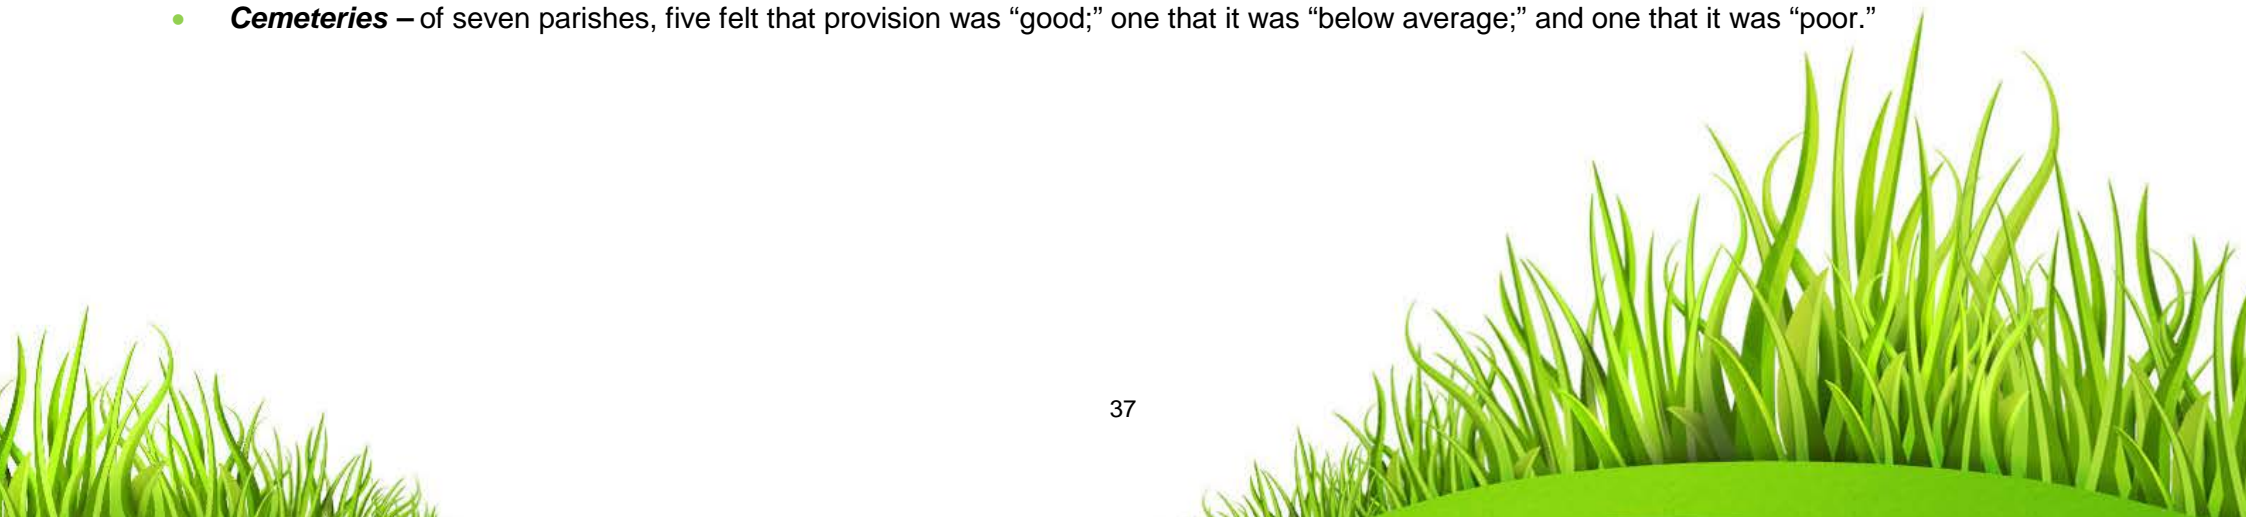

- **Cemeteries** – seven parishes responded to this question. Of these, two considered them “excellent,” three were “good” and two were “average.” It should be noted that “cemeteries” include areas set aside purely for burial as well as the grounds of churchyards which include current or historic burials. Overall results are similar to those of the physical assessment, although the latter indicated a disparity in quality between the two types of “cemetery” included in this category, with churchyards generally scoring more highly than bespoke burial grounds.
- **Civic Spaces** – four parishes responded, possibly reflecting the fact that civic spaces are not as numerous as most other categories (in particular amenity greenspaces). Opinion was divided, with one deeming them to be “excellent,” one “good,” one “average,” and one “average to below average.” These results were slightly below those indicated in the physical audit.

8.9. There were responses from parishes relating to the quantity of provision, phrased as:

“How would you rate the adequacy of supply of green space in terms of quantity and accessibility by type in the parish.”

8.10. Responses were as follows:

- **Parks and Gardens** - 29% felt that supply in this category was “excellent.” A similar percentage felt that it was “good.” The remainder (43%) felt it was “average” or “below average.”
- **Amenity Greenspace** – Eight parishes responded. 38% considered amenity greenspace to be “excellent,” in terms of quantity of provision and accessibility. Two parishes considered supply to be “good,” and two thought it “average.”
- **Children and Young People** – of the seven respondent parishes, two thought supply to be “excellent;” three “good;” one “average,” and one “poor.”
- **Allotments** – of six parishes, it is compelling that none thought supply to be more than average. Two felt it was “below average,” and one that it was “poor.”
- **Cemeteries** – of seven parishes, five felt that provision was “good;” one that it was “below average;” and one that it was “poor.”

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Civic Spaces** – five parishes responded. Two felt provision to be “excellent;” two that it was “average;” and one that it was “poor.”

8.11. A third question for parishes related to the need for improvements. The question was:

“What improvements would you like to see to green space by type in the parish?”

8.12. Responses were as follows:

- **Parks and Gardens** - some feedback was received in relation to the need for general improvements across the board, although no parishes considered that better landscaping was required. Some general comments were made which related in the main to concerns in individual parishes. However, the need for more information about heritage and history was raised.
- **Amenity Greenspace** – the need for some improvements in all categories was raised. The most requested were for improved entrances and better access. The need for some resourcing to maintain these spaces in good order was noted, including the need to consider improved litter collection at times. Comments were received specifically about the need to improve the Liverpool to Leeds Canal, and to make it more accessible to walkers (N.B. This issue is being addressed by the current improvement project).
- **Children and Young People** – more facilities were raised as important by two parishes. Of specific comments, better equipment was also highlighted as important, although efforts had stalled in Skipton because of a lack of consensus.
- **Allotments** – better access was cited as in need of improvement. The accompanying comments made reference to the need for better security (at two sites in Skipton), and also a perceived shortage in terms of supply.
- **Cemeteries** – comments related to the need for better access and better management. It should be noted that the quality audit elicited the difference in standards between burial grounds and churchyards used for burial, both of which are included within the “cemeteries” category. There was a comment about the need to maintain or improve grass cutting standards (N.B. it should be noted that these comments need to be taken in context, and by reference to the quality section of this report which identifies grass cutting and other standards on a site-by-site basis at the time of audit). A comment was received that the Raikes Road cemetery could be opened up more regularly to the general public. It was noted at the time of the quality audit (when the cemetery was closed) that this was a very attractive green space near Skipton town centre which could be an additional area for informal recreation for visitors and residents.
- **Civic Spaces** – no particular issues were raised, although general comments were made about the need for some repair works, and the perceived need for a recycling area.

8.13. Table 8.2 relates to all parishes, and requests for improvements to open space in accordance with the typology.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 8.2: All parishes - Requests for improvements to open space in accordance with the typology

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
<i>PARKS AND GARDENS</i>	✓		✓	✓	✓	✓	<ul style="list-style-type: none"> • Better weed control. Grass very good but weeds a problem near river • More information needed on heritage and history More information needed about PROW's • Improvements can always be made but overall the only real deficit is in the number of sports pitches. • Sandylands seems able to cope with demand at current levels, but as demand grows it is clear that additional formal pitches will be needed (see also comments in the "Built Facilities" Assessment).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
<i>AMENITY GREENSPACE</i>	✓	✓	✓	✓	✓	✓	<ul style="list-style-type: none"> There could be improvements to the canal towpath for walkers (N.B. the towpath is currently being improved to address these concerns). The Parish is against the use of the canal towpath for cycling as walkers and cyclists on the same path is a dangerous combination. We are supportive of Craven District's plans to upgrade the Leeds and Liverpool canal towpath in the area and would ask that they prioritise finding the funding to complete the stretch through Kildwick so that we link up with the stretch at Silsden (which has already been upgraded) and the stretch at Bradley (which is about to be) Litter can be a problem No obvious improvements required, although more money is needed to keep these spaces in good repair and to replace vandalized or stolen facilities.
<i>CHILDREN AND YOUNG PEOPLE</i>				✓			<ul style="list-style-type: none"> Better equipment – currently in the pipeline Some improved equipment required As highlighted above, the only issues are at North Parade and at Middletown, and these are either being resolved or are, as yet, unresolvable because of the lack of a consensus. Area needed for a youth shelter.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
ALLOTMENTS			✓				<ul style="list-style-type: none"> • More allotments may be needed. A waiting list is in operation • The Town Council's allotments sites, particularly at Middletown and Carleton Road, need better security but money remains the issue. The Council is tackling the problem incrementally. • Long waiting list (35 people for 22 plots) • We have no allotments.
CEMETERIES			✓		✓		<ul style="list-style-type: none"> • Any further reduction by Craven District Council to its grass cutting budget would impact on the appearance and usability of these spaces and we would therefore like to see grass cutting levels maintained or increased. • A new burial ground has just been opened • May need more space in future • It would be good if Raikes Road Burial Ground could be open on a more regular basis but this decision rests with the Friends Group • May need an extension in future • Almost full.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

<i>CIVIC SPACES</i>							<ul style="list-style-type: none"> Some stonework repairs required to war memorial Recycling area needed The setts on the High Street are in need of refurbishment – hopefully this will be resolved as the Town Council gains control of more areas of the Market.

8.14. In addition to these structured responses, a section entitled “other comments” was included in order to allow parishes the opportunity to make more general statements about their perception relating to green space in their parish or town council.

8.15. Comments received were as indicated in the Table overleaf.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 8.3: Parish Comments (Anecdotal)

PARISH	GENERAL COMMENTS
BANK NEWTON	<ul style="list-style-type: none"> The green space in the Parish is a combination of foot paths, bridle tracks and the canal towpath. The countryside is beautiful with easy access and of the highest quality. There is a National Cycle Route along the road which is well used. There are sufficient walking routes. There could be improvements to the canal towpath for walkers. The Parish is against the use of the canal towpath for cycling as walkers and cyclists on the same path is a dangerous combination.
KILDWICK	<ul style="list-style-type: none"> Green space is very important to the residents of Kildwick. The parish comprises a small village surrounded by open countryside which is one of the key reasons why people choose to live here. Local moorland, farmland and the canal and river which run through the village provide residents with excellent and numerous opportunities for a whole range of informal outdoor leisure activities including walking, running, cycling, horse riding, boating, angling, bird watching etc. This open greenspace is part of the special character of the village with immeasurable benefits to the physical, mental and emotional health and wellbeing of residents. We believe it is vital that local planning policy ensures this is protected and that agricultural land is not used for residential development. We are supportive of Craven District's plans to upgrade the Leeds and Liverpool canal towpath in the area and would ask that they prioritise finding the funding to complete the stretch through Kildwick so that we link up with the stretch at Silsden (which has already been upgraded) and the stretch at Bradley (which is about to be). In general, the quality of these spaces is good. Both the playing field and church yard are usually well maintained and tidy with seating and level access to both. Any further reduction by Craven District Council to its grass cutting budget would however impact on the appearance and usability of these spaces and we would therefore like to see grass cutting levels maintained or even increased.
CARLETON	<ul style="list-style-type: none"> Being a small village in the countryside, green, open spaces are assured. The nearest town (Skipton) is two miles away whilst others are between four to eight miles distant.
DRAUGHTON	<ul style="list-style-type: none"> We have no public open spaces in the village apart from our village green, which is an area of sloping grass to the side of the main road into the village. We have no cemeteries, allotments, parks or civic spaces. The village, however, is surrounded by open fields, so we have the benefit of open vistas.
ELSLACK	<ul style="list-style-type: none"> As a rural village of 27 houses and farms we have no formal open spaces but unlimited informal open spaces which in my opinion is wholly adequate!

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARISH	GENERAL COMMENTS
EMBSAY WITH EASTBY	<ul style="list-style-type: none"> • This is a rural parish – the presence of greenspaces within the built up part of the parish is vital to maintain that rural nature • Further recreation ground desirable at recently developed southern end of the village. • The maintenance of a “green corridor” upstream and downstream of the nature reserve is considered a vital complement to the more formal open spaces in the parish.
FARNHILL	<ul style="list-style-type: none"> • No facilities for older children • Thank you!
GARGRAVE	<ul style="list-style-type: none"> • Cemetery may need extension in future • Some improved equipment required for children and young people • Some upgrade required for children and young people.
SUTTON IN CRAVEN	<ul style="list-style-type: none"> • More football pitch space needed as the soccer club is expanding rapidly. • Youth shelter needed. • Long waiting list for allotments - 22 plots and waiting list of 35. • Cemetery almost full.
SKIPTON	<ul style="list-style-type: none"> • The beneficial effects of parks and open spaces are now well established, and the fact the Town Council maintains ELEVEN playing fields and play areas in a town the size of Skipton speaks for itself. • The issue of dog fouling continues to plague several of the town’s open spaces. • Owners neglecting to pick up after their dog and refusing to keep their dog on a lead in children’s play areas, even when the dog has bitten a child. • Referees calling off football matches because of the quantity of dog dirt on the pitch. • Play areas having to be closed to protect grounds staff from dog dirt flicked airborne by mowing equipment, and to prevent children being exposed to pathogens which cause stomach upsets, blindness and death (albeit rarely). • All of these things happen on a regular basis. • We need to channel more funds and human resources into tackling this problem.
HELLIFIELD	<ul style="list-style-type: none"> • No public toilets on sports field. • No water supply to allotments.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARISH	GENERAL COMMENTS
OTTERBURN <i>N.B. VILLAGE IS ENTIRELY WITHIN YORKSHIRE DALES NATIONAL PARK</i>	<ul style="list-style-type: none"> We are fortunate that we are a village with immediate access to the Dales. We do have a village green but besides gardens the hamlets' open spaces is the countryside. The village is very fortunate in that every house has a good garden; there is "civic" space along the beck and in the shape of the village green (though it is privately owned); and that we have good access to the countryside.

8.16. These general comments included a number of unifying "themes" including:

- An appreciation of the countryside as providing a unique resource in the Dales for outdoor recreation, and a desire to ensure that it is carefully conserved and not subject to development. A large proportion of the population of Craven have easy access to a large variety of leisure activities including walking, cycling, horse riding, running and other, similar pursuits. The presence of private gardens was also seen as important in meeting people's needs**
- The Liverpool to Leeds Canal towpath was seen as a highly important resource, particularly for walking. It also acts as a "green corridor" for wildlife**
- The quality of more formal open spaces (those included in the quality audit) was seen as generally good, although there were some reservations about grass cutting and litter collection standards**
- The inclusion of these formal open spaces was seen as essential by some in order to take pressure off the countryside**
- Facilities for children and young people were seen as in need of improvement in some areas with better equipment and more facilities. A youth shelter was mentioned as in need of provision for Sutton in Craven**
- Cemeteries are getting quite full in some places, highlighting the need for consideration of new burial space**
- The quantity and quality of allotment plots is lacking in some areas, indicating that more provision may be needed, and existing provision may need to be improved.**

9. OVERALL ANALYSIS OF CONSULTATION FINDINGS

9.1. Although based on the views of those parishes and town councils which responded to the survey, nevertheless it is considered that these were representative given the percentage that positively replied. These mirrored many of the findings which became apparent following analysis of the qualitative audit. They also provided useful anecdotal evidence, particularly in relation to perceptions of the quantity and accessibility of alternative forms of outdoor provision which were not considered in depth as part of this study.

9.2. Issues identified as a result of the consultation exercise in relation to quality are as follows:

- Respondents were unanimous in their endorsement of the value of local open spaces to people's mental, emotional and physical health
- Most believed the quality of "Parks and Gardens" to be "good" or "excellent"
- The quality of "Amenity Greenspace" was perceived as "good" or "average"
- Perceptions relating to facilities for "Children and Young People" varied, but were generally favourable
- "Allotments" were considered to vary, but were not generally seen as "poor"
- "Cemeteries" were viewed as "average" to "excellent." It is important to note that this category includes burial grounds as well as churchyards and grounds associated with churches
- "Civic Spaces" were perceived to vary from "below average" to "excellent."

9.3. Issues relating to quantity and accessibility were:

- A significant proportion of respondents felt the supply of "Parks and Gardens" to be only "average"
- In general respondents considered the supply of "Amenity Greenspace" to be adequate
- The perceived distribution of facilities for "Children and Young People" varied considerably from "poor" to "excellent"
- "Allotments" were considered to be poorly supplied
- The provision of "cemeteries" was considered to be generally "good," although two respondents felt that it was "below average" or "poor."

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

9.4. Improvements ranged across a number of functional service areas, and included the following:

- **Improvements could be made for walkers, and in particular the Liverpool to Leeds Canal towpath**
- **The presence of open spaces of a more formal nature was important in order to conserve the surrounding countryside**
- **Facilities including equipment were needed for children, and particularly for older children. A youth shelter was mentioned by Sutton in Craven**
- **Some areas need more allotment provision**
- **Some areas need additional burial space**
- **Dog fouling appears to be a significant issue in Skipton's open spaces.**

9.5. Many of the general comments were quite revealing, and included:

- **The need to conserve the countryside and protect it against development**
- **The value of the Liverpool to Leeds Canal for recreation and wildlife**
- **Formal open spaces were perceived as important in order to take pressure off the surrounding countryside**
- **Improved facilities are needed for children and young people**
- **Consideration needs to be given to improving and providing more allotment plots**
- **Some areas appear to be running out of burial space.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

10. KEY FINDINGS

10.1. A number of key findings were have strong potential implications for future strategy in relation to both the provision of the green space service, and also the planning service as it relates to green space and countryside provision in Craven.

10.2. These findings have been identified using the following sources:

- **Quality audit**
- **Client observations**
- **Consultation findings**
- **Local and national planning, countryside and green space guidelines.**

FINDINGS RELATING TO SERVICE PROVISION

10.3. These findings as they relate to service provision are as follows:

- **Parishes united in conclusions about the importance of open space**
- **Provision of multi-purpose parks such as those at Sutton is lacking in all three geographical areas in key settlements**
- **Because of the variability in provision for children and young people, an upgrade is necessary in a number of communities. This should include the provision of safer surfaces in places, and the installation of challenging and exciting pieces of equipment. This is particularly important in Aireville Park, with its large potential catchment**
- **There is a demonstrable need for teenage and youth facilities such as BMX/pump tracks in Settle, and in Ingleton in the northern geographical area**
- **Adventurous play provision such as iplay should be considered in settlements in all three areas**
- **“Green” play provision would be desirable and suitable for all areas, but in particular in rural locations**
- **There is limited MUGA provision, and this should be considered, particularly in Settle and better use of the MUGA in Aireville Park**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- The rich heritage and history of the area should be interpreted in parks and gardens, amenity open spaces, cemeteries and civic spaces in the north, mid and southern areas
- All open space types in all three geographical areas should have improvements made to entrances in line with Green Flag criteria in order to make them more welcoming, and to attract more visitors
- Greater use should be made of open space by using more informal landscape methods to encourage biodiversity and habitat creation
- Green corridors such as the Leeds to Liverpool Canal should be upgraded or created to link settlements, encourage wildlife, and increase green transportation (walking and cycling)
- Allotment provision should be increased in terms of quality to meet sustained demand. There are no sites in the north.

KEY PLANNING FINDINGS

10.4. Findings relating to the future direction of countryside and green space planning in the District are:

- The countryside needs to be protected to offset shortfalls in the quality, quantity and accessibility of more formal open space provision throughout the District
- Measures need to be enhanced to improve biodiversity by using open space through the introduction of meadow, native tree planting and other conservation methods
- Plans to upgrade the Leeds to Liverpool Canal should be pursued, and other green corridors should be considered in order to improve biodiversity, encourage sustainable travel, and connect isolated communities
- Developer contributions should be encouraged to meet shortfalls in quality. In particular improvements should be made to open spaces to make them more welcoming, and to interpret the diverse history and heritage of the district in order to increase residents' "sense of place"
- A developer contribution model to fund improvements to the quality, quantity and accessibility of open space should be developed, through the updating of the Council's existing Planning Gain Guide and approach to calculating developer contributions and by using best practice models from other local authorities (e.g. Harrogate)

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Shortfalls in the quality, quantity and accessibility of facilities for children and youth should be addressed by seeking contributions for innovative play (iplay, “green’ Play, etc.), and for specific facilities such as “low ropes” adventures, BMX and pump tracks (specifically in Settle and Ingleton). MUGA provision is needed in Settle**
- **Measures should be adopted to acquire land where possible for additional burial space**
- **The provision of allotment plots appears inadequate, in line with a national demand which shows no sign of abating. If more space cannot be found, then improvements should be made to the quality of existing sites.**

11. TACKLING KEY SERVICE ISSUES

11.1. Some guidance is provided in the following sections relating to how service issues might be tackled in order to meet the immediate future needs and demands of the green space service. These are:

- S1:** Provision of a small number of multi-purpose Parks and Gardens. This is particularly important in centres of population, i.e. Settle, Bentham and Skipton
- S2:** Creation of challenging and exciting play areas using concepts such as “iplay”
- S3:** More teenage and youth provision in areas of need (e.g. Teen shelters, skateparks, BMX/Pump Tracks)
- S4:** The use of “green play” in suitable rural locations. A number of villages and hamlets in the North, Mid and South areas would benefit
- S5:** Seeking a ban on smoking in line with North Yorkshire County Council’s Strategy: “Prevention for Children and Young People”
- S6:** Increased Multi-Use Games Area provision where needed. MUGA provision is generally lacking. There is a MUGA in Aireville Park, but this is in relatively poor condition
- S7:** Interpretation of the heritage and history of the area for residents and visitors in Craven’s open spaces. This is true of both urban and rural settlements
- S8:** Improved and welcoming entrances. This is crucial across all types of open space
- S9:** Use of more “naturalistic” landscape methods in open spaces. This is particularly important in Semi/Natural Greenspace. However, many areas around the edges, and in larger expanses of Parks and Gardens and Amenity Greenspace can be utilised
- S10:** Improvements to “green corridors,” and in particular to the Liverpool to Leeds Canal and the continuation of the project to upgrade the towpath between Skipton and Bradley
- S11:** Improvements to the quality of allotment sites where required.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S1: PROVISION OF MULTI-PURPOSE PARKS AND GARDENS

- 11.2. In terms of the delivery of Parks and Gardens, there is a perceived shortfall in meeting the desired outcomes included in the Council's quality criteria (Annex B). In particular the need to provide a ***“one stop community facility, accessible to all with a range of leisure, recreational and play opportunities.”***
- 11.3. There are some open spaces which have been designated “Parks and Gardens,” most notably Aireville Park, Skipton, and Sutton Park, Sutton in Craven in the South of the district. In addition there is Ingleton Park in the North, although this has to serve not just the population and visitors to Ingleton, but also to meet the demand from Benthams and the other communities in that area. There is no significant provision of this type in the Mid area, and in particular in Settle. Issues relating to the acquisition of land for such purposes are addressed in the Planning section. However, in terms of the design of such provision, the criteria used to judge parks for the UK's acclaimed “Green Flag” standard are very appropriate. These are:
- **A welcoming place**
 - When approaching or entering the park/green space, the overall impression for any member of the community - regardless of the purpose of their visit - should be positive and inviting.
 - There should be:
 - ▲ Good and safe access
 - ▲ Good signage to and in the park/green space
 - ▲ Equal access for all members of the community.
 - **Healthy, safe and secure**
 - The park/green space must be a healthy, safe and secure place for all members of the community to use. Any issues that have come to light must be addressed in the management plan and implemented on the ground.
 - New issues that arise must be addressed promptly and appropriately:
 - ▲ Equipment and facilities must be safe to use
 - ▲ It must be a secure place for all members of the community to use or traverse
 - ▲ Dog fouling must be adequately addressed
 - ▲ Health and safety policies should be in place, in practice and regularly reviewed
 - ▲ Toilets, drinking water, first aid, public telephones and emergency equipment where relevant (e.g. life belts by water) should be available in or near the park/green space, and be clearly signposted.
 - **Clean and well maintained**
 - For aesthetic as well as health and safety reasons, issues of cleanliness and maintenance must be adequately addressed, in particular:
 - ▲ Litter and other waste management
 - ▲ The maintenance of grounds, buildings, equipment and other features
 - ▲ A policy on litter, vandalism and maintenance should be in place, in practice and regularly reviewed.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Image 11.1: Saltaire Park, Bradford combines a variety of outdoor recreational activities

- **Sustainability**

- Methods used in maintaining the park/green space and its facilities should be environmentally sound, relying on best practices available according to current knowledge. Management should be aware of the range of techniques available to them, and demonstrate that informed choices have been made and are regularly reviewed. Parks/open spaces should:

- Have an environmental policy or charter and management strategy in place, which is in practice and regularly reviewed
- Minimise and justify pesticide use
- Eliminate horticultural peat use
- Recycle waste plant material
- Demonstrate high horticultural and arboricultural standards
- Have energy conservation, pollution reduction, waste recycling, and resource conservation measures.

- **Conservation and heritage**

- Particular attention should be paid to the conservation and appropriate management of:

- Natural features, wildlife and fauna
- Landscapes
- Buildings and structural features
- These should serve their function well without placing undue pressure on the surrounding environment.

- **Community involvement**

- The park/green space management should actively pursue the involvement of members of the community who represent as many park/green space user groups as possible. The following should be demonstrated:

- Knowledge of user community and levels and patterns of use
- Evidence of community involvement in management and/or developments and results achieved
- Appropriate levels of provision of recreational facilities for all sectors of the community

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Marketing**
 - A marketing strategy should be in place, which is in practice and regularly reviewed
 - There should be good provision of information to users, e.g. about management strategies, activities, features, ways to get involved
 - The park/green space should be promoted as a community resource.
- **Management**
 - A management plan or strategy should be in place
 - This should clearly and adequately address all of the above criteria and any other relevant aspects of the park/open spaces management
 - The plan must be actively implemented and regularly reviewed
 - A financially sound management of the park/green space must also be demonstrated.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S2: CREATION OF EXCITING AND CHALLENGING PLAY AREAS

- 11.4. The quality audit and the consultation findings highlight the need for play areas which are going to challenge children, to develop their social skills, and to provide opportunities for physical development.
- 11.5. In addition to obvious improvements such as the provision of exciting pieces of play equipment (e.g. zip wires, “low ropes” courses), a concept which is gaining in popularity is intelligent play or “iplay.” This has been devised by a recreation company affiliated to Loughborough University which has worked in conjunction with a leading play manufacturer to produce a range of suitable equipment. This includes a number of physical challenges similar to those provided by conventional play equipment, but using a list of commands.
- 11.6. The use of such equipment is in response to changing sociological leisure patterns which mean that children are spending more and more time watching television and using computer games. Facts and figures relating to the fact that a quarter of UK children are now clinically obese are as follows:
- **Half of all children in the UK will be obese by 2020 (Lobstein 2005)**
 - **An obese child is twice as likely to become an obese adult**
 - **Obesity is set to become the leading health problem in the UK**
 - **It is linked to the onset of type 2 diabetes and cardiovascular disease**
 - **The House of Commons Select Committee 2004 has stated that the economic cost of obesity is £7.5 billion p.a.**
- 11.7. Play is triggered with a start button, and can be played as part of a team or individually. The iplay unit issues commands relating to how to play. This consists of a number of challenges, and a score is displayed on the iplay screen. This score can be saved and compared to a league table of other competitors.
- 11.8. The big advantage of iplay is that it introduces new technology, and uses the concept of “stealth play.” This means that the level of activity can be stepped up without the participant being aware of it, and thus can encourage greater levels of fitness.
- 11.9. It is suggested that the introduction of an iplay playground in the District would create an exciting new concept, and could be used to gauge usage and popularity to guide future provision.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S3: SMOKING BAN IN PLAY AREAS

- 11.10. North Yorkshire County Council have recently launched a tobacco control initiative as part of its strategy entitled “Prevention for Children and Young People.” This aims to reduce exposure to smoking and second hand smoking for children and young people across North Yorkshire.
- 11.11. YouGov survey showed that 75% of adults supported banning smoking in playgrounds. Other surveys indicate similar results: 77% of adults in Wales agree and 98% of parents surveyed in the South East supported the ban. The key justifications for smoke free playgrounds are:
- **The ‘normalisation’ of smoking:** young people consistently over-estimate how many people smoke and therefore perceive it to be ‘normal’. In Wales in 2007, 60% of young people thought smoking was ‘the norm’, but only 23% of adults smoked at that time. Thompson states in the BMJ, “the central argument is that outdoor bans will reduce smoking being modelled to children as normal behaviour and thus cut the uptake of smoking”
 - **Littering and risk of eating cigarette butts amongst very young children.** Cigarette butts can take up to 12 years to biodegrade, and other smoking related litter e.g. cellophane, packets, are present in playgrounds where children play
 - **Providing positive role models** to children
 - **Reducing the opportunity and convenience to smoke** means smokers may smoke less
 - **Reducing the visibility of smoking around children and young people** thereby making smoking appear less socially acceptable.
- 11.12. Given these impacts, it is suggested that Town and Parish Councils and Craven District Council consider imposing a playground smoking ban when formulating future Management Plans. Also, that a similar recommendation is included in forthcoming Neighbourhood Plans.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S4: TEENAGE AND YOUTH PROVISION

11.13. This report highlights the need to provide exciting and innovative play solutions for older as well as younger children. These play solutions which are in particular demand in Craven include BMX bike tracks and pumptracks. There are already two small bike tracks in the District, and a new pump track exists in Aireville Park. However, there is limited provision in the Mid and North areas, highlighting the need for additional tracks in Settle and Ingletton.

11.14. Good BMX/Pump Track design should include the following elements:

- **Adequate drainage**
- **Durable construction which will withstand heavy usage and will be safe to use. Materials which reduce friction noise should be considered if this is likely to constitute a nuisance (i.e. if the track is near to residential development or in an otherwise quiet area of a green space**
- **Signage. This needs to be informative, and to include contact numbers in case of emergency**
- **Landscaping. The track should be attractively landscaped to help it to blend in to its surrounding environment, and to be attractive to users.**

11.15. Pumptracks are one of the newest and most exciting outdoor recreational activities. Although many BMX tracks have been constructed throughout the UK, pumptracks have a wider potential appeal. They are attractive in particular to teenagers and youths, but are suitable not just for bikes of all sizes, but also skateboards, rollerblades and scooters. As such they can bridge the generation gap between older people, teenagers, and smaller children. The pumptrack utilises an up and down pumping motion to generate forward momentum. A big advantage is that pumptracks can be as little as 10m. x 3m. in extent, and so can be fitted into a very limited area. Provision of this type is generally under-provided, and in order to meet increasing future demand, it is suggested that consideration be given to building another track in Craven, possibly in Settle/Ingletton.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S5: GREEN PLAY

- 11.16. Craven is unusual in having relatively dispersed settlements located in extensive and attractive countryside. Playgrounds of the conventional type can look out of keeping in rural areas, and the use of “green play” can integrate more happily in non-urban environments.
- 11.17. Green play has developed in response to the decline in outdoor recreation amongst children. Home entertainment in the form of computer games, television and other media have resulted in a decline in natural play. Green play provides play opportunities in a play area using natural materials, and in particular timber. Green play areas often include “soft” elements such as the use of willow tunnels, soft landscaping using wild species, and tree planting. Thus green play has a number of advantages:
- **It is sustainable, using natural and renewable materials**
 - **It is in keeping with natural landscapes in small settlements, or in the countryside**
 - **It provides exciting play opportunities in a controlled, low-risk environment**
 - **Biodiversity can be enhanced with careful landscaping**
 - **Children have the opportunity to engage with the natural environment.**
- 11.18. This study has demonstrated the need to provide new and challenging opportunities for play. In addition, many existing play areas are deficient in terms of their quality and their ability to encourage exciting and innovative play, and will in any case need to be replaced or upgraded over the coming years. It is therefore suggested that a green play area is provided in the District in order to assess its popularity and value.

Image 11.2: Green play in Hanwell

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S6: MULTI-USE GAMES AREA PROVISION

- 11.19. The need for additional Multi-Use Games Areas (MUGA's) has increased to match the increase in participation in outdoor recreational pursuits since the 1980's. This report highlights the lack of a MUGA in the Mid area of Craven District, and in particular in Settle. This has its own large community as well as serving other communities in the surrounding catchment.
- 11.20. The development of MUGA's similar to the type installed in Aireville Park was a response to a number of factors. One factor was the need to seek an alternative to grass, with its high maintenance costs and limited practicality. The other was the ability to hold several different types of outdoor sport on one surface, reducing the need for large plots of land which were sometimes unavailable in urban areas. Synthetic surfaces and sometimes floodlighting have increased the length of season, the degree of usage, and introduced the ability to play outdoors after dark.
- 11.21. In practical terms Sport England in its Guidance Note: "Artificial Surfaces for Outdoor Sports 2012" highlights three key principles for provision:
- **Accessibility**
 - Improving accessibility refers to the provision of easy, safe and convenient access to a choice of opportunities for participating in sport, active travel and physical activity for the whole community.
 - **Amenity**
 - Enhancing amenity involves the promotion of environmental quality in the design and layout of new sports and recreational facilities, the links to them and their relationship to other development and the wider public realm.
 - **Awareness**
 - Increasing awareness highlights the need for increased prominence and legibility of sports and recreation facilities and opportunities for exercise through the layout of the development.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S7: INTERPRETATION OF HERITAGE AND HISTORY / WELCOMING ENTRANCES

11.22. The need to provide welcoming entrances has already been referred to as one of the eight key criteria in the national Green Flag standard. This is paramount in providing an enticing green space which visitors will feel to be well managed, and will be encouraged to use.

11.23. Craven has a rich heritage and history. This needs to be interpreted to encourage a “sense of place,” and open spaces are one of the best places to impart this message because:

- **Annual visitor numbers will be very high**
- **A large percentage of the population visit their local open spaces on a fairly regular basis**
- **Spaces are open and accessible to all**
- **Greater usage will lead to higher levels of participation in outdoor recreation, and thus mental and physical health**
- **Well interpreted open spaces encourage tourism.**

11.24. The concept of generating a “sense of place” is well recognized in the UK. The following quote is from Special Delivery Outcome 1 of the Peak District Management Plan 2012-2017:

“What gives a community its sense of identity? How do places identify and retain what makes them distinctive, while adapting to new challenges? It is important that communities can recognise what makes their cultural heritage so special, and that this identity mobilises, motivates and binds them together.”

Image 11.3: Good quality signage is very informative, and is welcoming at entrances

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

11.25. The South Downs National Park has developed a “Sense of Place Toolkit” from which the following quote is taken:

“We believe that the more visitors know about the area – before they come, and while they’re here – the more they should enjoy their visit. They’ll be more likely to try out new experiences in the Park, to repeat-visit, and to recommend the Park to others. And the more that visitors understand about the special nature of the Park, the more they should want to help sustain it, including supporting local businesses and services.”

11.26. This heritage and history need not just relate to the open spaces themselves (e.g. the varied history of the Liverpool to Leeds Canal), but also to the surrounding towns, villages and countryside.

11.27. Attractive interpretation boards including the use of visual images such as photographs, visual representations and maps and diagrams, are a popular means of learning about the surrounding area. The use of interpretation boards can be used at entrances, or at specific points of interest. It would be worth considering the use of interactive Quick Response (QR) codes, which will allow a smart phone user to access appropriate additional information on websites or specific web pages. This would also make information accessible in particular to people interested in the use of new technology.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S8: NATURAL LANDSCAPES/IMPROVEMENTS TO “GREEN CORRIDORS”

- 11.28. Urban greenspace, whether it be formal public space such as parks, sports fields and gardens or informal space such as riverbanks, waste ground, rail and road verges and other open spaces are a vital component of local biodiversity. As such, the management of biodiversity in these areas plays a fundamental part in maintaining the richness and diversity of urban areas. This is particularly true in Craven, which has a network of very varied open space types. However, the work of the qualitative audit indicates that biodiversity is not adequately managed, particularly in terms of opportunities in the more formal open spaces.
- 11.29. The district of Craven is relatively rich in its own natural biodiversity, and has a number of regionally and nationally important wildlife sites such as the Yorkshire Dales National Park. However, it should be noted that this is outside the assessment area.
- 11.30. Parks can have an amazing range of habitats and species from the ‘common or garden’ to nationally rare examples.
- 11.31. Habitats in parks will obviously vary from location to location but can include:
- **Meadowland and unimproved grassland**
 - **Neutral grassland**
 - **Hedgerows**
 - **Ancient woodland and veteran trees**
 - **Scrub**
 - **Ponds, streams and rivers**
 - **and many other man adapted habitats.**
- 11.32. All these habitats will have associated species and communities of animals and plants, including many rare and endangered species. Parks can also be rich in non-native ‘exotic’ plants which can also have a tremendous wildlife potential. The Buddleia (*Buddleia davidii*) is a good example of this.
- 11.33. This section outlines the following:
- **The value of biodiversity in the District, taking account of its unique habitats and the relationship to key strategies and policies**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **The factors which affect habitats in Craven, including types of land use and user pressures**
- **Ways in which the biodiversity of the District can be enhanced through its open spaces, both in relation to the planning of new open space, and through changes to the management of existing facilities.**

11.34. The biodiversity potential of such habitats is dependent largely on the management practices within the park. There are many factors affecting habitats in parks. These include:

- **The need for tidiness, formal landscapes & public perceptions of safety.**
 - There is a potential conflict between management of formal park landscapes and formal flower displays and the need for biodiversity. Park users may want formal landscapes and consider wildlife habitats to be untidy or even unsafe. Natural areas of woodland and scrub may be associated in the public eye with feelings of insecurity, especially for women and people on their own. Long grass may appear to be uncared for and may accumulate litter. Introducing new ideas incrementally, with good consultation and interpretation at each stage can help to gain public support.³ Formal landscapes are found in Craven's Parks and Gardens, and in many of its Amenity Greenspaces. However, this is not incompatible with the careful introduction of natural areas of woodland, floral meadow and scrub. However, these need to be managed to include defined edges, careful placement away from areas used for more formal activities, and in some cases may need to be interpreted by explaining their significance
 - Perceptions that these areas are an example of neglect or lack of management may lead to filling ponds, clearing shrub beds and removing all dead wood etc. This will not help enhance biodiversity. Grounds maintenance work within parks and open spaces can often include very frequent mowing of grass and the routine use of herbicides and other agrichemicals. Such practices can obviously have a negative impact on biodiversity. Parks Maintenance, contract specifications may include activities which may be detrimental to the biodiversity of the area being managed. For example, the removal of all dead wood, the removal of leaf litter from all beds, the timing and techniques of grass mowing and the timing of shrub and tree pruning and all potentially have a negative impact on biodiversity. Clearly this needs to be avoided in Craven's Parks and Gardens, its Amenity Greenspaces, and in areas surrounding Children's Play Facilities, Cemeteries, and other open spaces.
 - The previous section mentioned the findings of the qualitative audit for Craven and the need to plan for biodiversity in new open spaces, and change land use types in existing open spaces. There is sometimes a need for formality in grounds maintenance if the provision of sporting facilities or "high" horticulture for ornamental purposes is necessary. This is not always the case, and even the borders of "formal" open spaces could benefit from the introduction of meadow or other form of more natural landscape.

³ lbp.org.uk London biodiversity partnership

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Impact of Visitors**

- Parks and open spaces are intended for the usage and enjoyment of all visitors, but heavy usage and noise can have a negative impact on wildlife. Even the over use of lighting in parks can disrupt night flying animals and disrupt feeding. Major events, which may include loud music and fireworks, are likely to have such impacts.
- Vandalism, in the form of damaging trees and planting areas can also have a negative impact on biodiversity and the remedial costs can take away from existing enhancement budgets.

- **Habitat Isolation**

- Whilst many parks contain valuable habitats and communities, they are often in fragmented populations surrounded by urban development and are not connected to other similar communities. There is real value in supporting the biodiversity in individual parks by ensuring they are connected by green corridors to enable movement of wildlife between parks and help maintain viable populations.

- **Sports Facilities**

- Modernisation of sports facilities changes the character of parks e.g. the change from grass to all weather pitches and the demand for more buildings and structures. Such recognized on can lead to reduced greensward, less shrub beds and mature trees, all of which are of benefit to wildlife. Many sports areas in the District are lacking in landscape variety.
- A plethora of information has been produced in the UK over the last 30 years on improving the biodiversity of urban greenspace. Two key potential actions can be taken to improve Biodiversity in urban parks:

- **Survey and Monitoring**

- Knowing what animals and plants are found in the many parks and open spaces is a key starting point in developing effective management plans for specific parks. The outcome of the surveys should inform management practices and contract specifications. For example to mow areas of grassland at specific times and specific heights to encourage the spread of key species or to manage dead wood in a way that it becomes a key habitat in its own right. On-going monitoring will help to show whether management practices are successful or need further adaptation.

- **Contract Specifications and Contractor Competencies**

- It is vital to ensure that contract specifications address the need for specific biodiversity enhancement management practices, but also that contractors are competent to undertake, often more traditional management techniques (such as coppicing or hedgelaying) to help maintain biodiversity.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S9: IMPROVEMENTS TO THE QUALITY OF ALLOTMENT SITES

11.35. The quality audit outlined a number of problems with allotment sites in the District. These were as follows:

- **Provision across then District was uneven**
- **Sites in some cases were almost impossible to find**
- **Entrances were usually poor, being unwelcoming and without adequate signage**
- **Information was limited, even in relation to contact numbers**
- **Boundaries were often in poor condition, and sites in some cases were insecure**
- **Many sites lacked basic facilities such as a water supply.**

11.36. The importance of allotments lies in the fact that there is a statutory obligation on local authorities to provide them, and that across the UK it is estimated that there are currently over 90,000 people wanting an allotment and are on waiting lists. Health benefits are considerable, and include healthy outdoor recreation, social activity, and the production and consumption of healthy food. Sites also improve biodiversity, and allotment gardening helps to maintain vegetable and fruit species which would otherwise be lost.

11.37. The National Society of Allotment and Leisure Gardeners Ltd. Provides advice on the management of allotment sites. It provides guidelines on what constitutes a good site, and factors include:

- **Site should be easily accessible by car or near to a public transport route**
- **Soil should be capable of easy cultivation**
- **Site should not be prone to flooding**
- **Soil should not be contaminated with poisons (e.g. chemicals)**
- **Paths should be no less than 1.5m. wide and preferably 1.7m. to allow for a wheelchair and ambulant person to travel side by side**
- **Main gates should be wide enough to allow for material deliveries by lorry.**

12. TACKLING PLANNING ISSUES

12.1. This section investigates actions which are appropriate to tackling the planning issues identified in this study. These include:

- P1: Protection of the countryside**
- P2: Enhancement of biodiversity**
- P3: Plans to upgrade the Leeds to Liverpool Canal should be pursued as an extension to the current contract, and other green corridors should be considered in order to improve biodiversity, encourage sustainable travel, and connect isolated communities**
- P4: Developer contributions should be encouraged to meet shortfalls in quality. In particular improvements should be made to open spaces to make them more welcoming, and to interpret the diverse history and heritage of the district in order to increase residents' "sense of place"**
- P5: Define a developer contribution model to fund improvements to the quality, quantity and accessibility of open space, through the updating of the Council's existing Planning Gain Guide and approach to calculating developer contributions, and by using best practice models from other local authorities (e.g. Harrogate). In addition, local communities should be encouraged to include appropriate open spaces using the local green space designation in neighbourhood and local plans in order to protect valuable existing open space.**
- P6: Shortfalls in the quality, quantity and accessibility of facilities for children and youth should be addressed by seeking contributions for innovative play (iplay, "green" Play, etc.), and for specific facilities such as "low ropes" adventures, BMX and pump tracks (specifically in Settle and Ingleton). MUGA provision is needed in Settle**
- P7: Measures should be adopted to acquire land where possible for additional burial space**
- P8: The provision of allotment plots appears inadequate, in line with a national demand which shows no sign of abating. If more space cannot be found, then improvements should be made to the quality of existing sites.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P1: PROTECTION OF THE COUNTRYSIDE

- 12.2. The countryside needs to be protected to offset shortfalls in the quality, quantity and accessibility of more formal open space provision throughout the District.
- 12.3. At the heart of the NPPF is the presumption in favour of sustainable development. Therefore proposals for development should be approved if they accord with the development plan or the specific policies set out in the NPPF.
- 12.4. Before considering approval for new development, the intrinsic character and beauty of the countryside should be recognized. To this end the character types and areas mapped within the Craven District Assessment 2002 and the North Yorkshire and York Character Assessment 2011 should be actively upheld.
- 12.5. Natural England provides advice on the creation of Landscape Character Assessments (LCA's). It makes the point that existing LCA's can be used as the basis of new or updated assessments. It outlines steps for the carrying out of assessments as follows:
- **Define the purpose and scope of your LCA, e.g. the area it will cover, its scale, level of detail and resources available to carry out the work.**
 - **Conduct a desk study – collect, review and analyse data and documentation and speak to stakeholders involved with the landscape.**
 - **Conduct a field survey – test, refine and add to the outputs from the desk study, capturing aesthetic, perceptual and experiential qualities of the landscape.**
 - **Classify, map and describe the landscape's character areas, types and characteristics including geological, other physical and socio-cultural influences.**
- 12.6. The following characteristics need to be included, but the context of the Craven District Assessment 2002 and the North Yorkshire and York Character Assessment 2011 should be recognised:
- **Topographic features**
 - **Flora and fauna**
 - **Land use**
 - **Sights, sounds, touch and smells**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Cultural associations, history and memories.**

12.7. It is suggested that a review of LCA's is carried out for countryside areas throughout the District with a view to updating as necessary. This review could also be used to assist in the definition of the District's heritage and history as well as its landscape character, and thus inform the use of interpretation in open spaces to engender a greater "sense of place" amongst residents.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P2: ENHANCEMENT OF BIODIVERSITY

12.8. Craven is very lucky to contain a wide number of 'natural' open spaces including nationally important sites. The biodiversity value of such sites locally, regionally and nationally is unquestionable. This is articulated in the Craven Biodiversity Action Plan, which cites a number of habitats and areas of importance in the District including:

- Hedgerows
- Arable field margins
- Lowland meadows
- [Coastal and] floodplain grazing marsh
- Upland hay meadows
- Upland calcareous grassland
- Lowland calcareous grassland
- Eutrophic standing waters
- Ponds
- Rivers
- Fens
- Lowland raised bog
- Upland heathland
- Blanket bog
- Wood pasture and parkland
- Mesotrophic lakes
- Upland mixed ashwoods
- Upland oakwood
- Wet woodland.

12.9. The biodiversity value of the open spaces can be seen to help improve the mental health and sense of place of urban communities.

12.10. This value of biodiversity in open spaces is expressed in the UK Biodiversity Strategy 2002.

'Biodiversity has an essential role to play in liveability improvements: 'designing with nature' especially in buildings and public spaces, can improve people's quality of life directly and show how nature can itself work to maintain the qualities of land air and water for people's benefit.'

(Department of Environment, Food and Rural Affairs, *Biodiversity Strategy*; 2002: 54)

12.11. This value of biodiversity in urban open spaces is re-iterated in the Caba Space Report – The Value of Public Open Space notes 4 which states that 'Aside from the intrinsic value of having nature in our cities, urban wildlife habitats also provide a focus for local communities, who often become very attached to them. Even the simple knowledge that a natural area exists is, for many, a source of satisfaction. Open space managed for biodiversity provides an opportunity for people to be close to 'nature', with the associated positive impact that this can bring in terms of mental health and the pleasure of experiencing wildlife in the urban situation.

⁴ The Value of Public Open Space – How High Quality Parks and Public Spaces Create Economic, Social and Environmental Value - CABA Space (2003)

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

12.12. This 'value' of biodiversity in open spaces is recognized in the Sustainable Community Strategy for North Yorkshire 2008/18. One of the Strategy's nine priorities is "Environment." In this section Craven's Sustainable Community Strategy. This creates five priorities for action. One of these is "Creating a Sustainable Future – One Planet Living." This states:

".....the focus on bio –diversity reflects the importance of bio diversity as a value in itself but also its importance as a mirror of the way we treat our increasingly stressed environment."

12.13. It is vital that the management of biodiversity in parks and open spaces is in keeping with the overall wildlife management strategy or Biodiversity Action Plan for the area as a whole. For example, the Biodiversity Action Plan⁵ for Craven identifies a range of habitats of Concern requiring the production of Habitat Action Plans. These include woodland; scrub; parkland and eight other habitats.

12.14. In considering all applications for future development, it is suggested that a **Biodiversity Toolkit** is drafted with colleagues responsible for green space management in order to guide the enhancement of biodiversity both in relation to building suitable landscapes in to new developments and altering the management of open spaces managed directly by the District. Given that there may be limited resources at Craven District Council to draft such a toolkit sources of external funding and support should be considered (e.g. North Yorkshire County Council).

⁵ <http://www.hampshirebiodiversity.org.uk/vol-two.html>

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P3: DEVELOPMENT OF GREEN CORRIDORS

- 12.15. The identification, effective protection and enhancement of green corridors can help connect greenspaces within the District of Craven but can also help create green fingers from the surrounding countryside to the very heart of its communities. The successful management of green corridors will only be possible within the context of an integrated urban management framework where biodiversity issues are given meaningful and practical consideration.
- 12.16. There are a number of ways in which the green infrastructure can be used to deliver meaningful opportunities for multiple functions. These functions can be used to drive planning and management of the green environment. Each is considered in this section in relation to what they can afford in relation both to outline proposals for existing open spaces within the Craven district; and to green and blue corridor open space areas in other parts of the District to which these principles can be applied in future. Each is illustrated to indicate the style of approach which can be adopted:
- 12.17. Planting to create a microclimate and to reduce temperature – it has been proved that tree and shrub planting in sufficient quantities can reduce peak urban summer temperatures, a major cause of mortality for instance in Paris in 2003, and can create a cool and more humid microclimate in urban areas. Tree planting and amenity woodland can be extremely successful in this context

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

HOUSING AND COMMERCIAL

- 12.18. Use of landscape features in housing and commercial areas – this can include the use of green roofs and green walls to reduce runoff and to improve air quality.
- 12.19. Parking on permeable surfaces will contribute to the reduction of surface run off.

SUSTAINABLE URBAN DRAINAGE SYSTEMS (SUDS)

- 12.20. This indicates how the green infrastructure can be used to allow for the replication of natural systems that use cost effective solutions with low environmental impact to drain away dirty and surface water run-off through collection, storage, and cleaning. After this point it is allowed to be released slowly back into the environment, such as into water courses. This is to counter the effects of conventional drainage systems that often allow for flooding, pollution of the environment with the resultant harm to wildlife and contamination of groundwater sources used to provide drinking water.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

TRANSPORT

- 12.21. Linear corridors as access routes for sustainable transportation – the creation of routeways of green open space which allow for sustainable transport. The principal objective in this case is to reduce the need for transportation in motor vehicles, and to open up greenspace for walking, cycling and other forms of sustainable transport. The objective is to use the line of a watercourse or natural linking feature, to create footpaths and cycle routes between urban areas to incorporate appropriate waymarking and landscaping.

RECREATION

- 12.22. Recreational open spaces – these create attractive areas for the execution of a range of outdoor recreational pursuits. These may include sports and games; picnics; events and activities; and children's play. Open space designated for this use needs to be managed to avoid conflict between active uses and natural habitats.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

WILDLIFE

- 12.23. Wildlife corridors – these are linear strips of open space which combine habitats and species, which will complement regional and local biodiversity action plans.
- 12.24. Achieving multiple benefits from green infrastructure underlines its importance generally boosts the environmental capacity of the area to support a thriving eco-town. Many sites will naturally fulfill many functions. For example, the Liverpool to Leeds Canal could act as a nature reserve as well as a recreational facility; or a wet woodland can serve to ameliorate flooding and secure habitat value. If planned and managed appropriately the potential of a site and the ecosystem services that the land can provide can be enhanced. This should be done appropriately and not to the detriment of an overriding management priority, such as the need to protect a sensitive habitat.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

AMENITY

- 12.25. Amenity open spaces – these can frequently be used to improve biodiversity. Woodland which is created by planting native species, and which favour a wider diversity of wildlife, create local oases. This has helped to mitigate the effects of peak urban summer temperatures and to provide shade; the use of floral meadow and wetland meadow in areas likely to become saturated, in order to increase biodiversity; and the use of “prairie” plantings to mimic nature in the use of natural species in bold groupings.

GREEN CORRIDORS

- 12.26. These are linear strips of open space which combine habitats and species which will complement regional and local biodiversity action plans

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 12.27. As previously stated, when planning green infrastructure, it is important to consider the scale and connection of the corridor when green and blue ribbon strategies for habitat and recreational corridors are proposed. It should be noted that a network, for coherence and resilience, is represented by more than just a physical link between two or more ecological areas and must involve working links.
- 12.28. Improving links through linear habitats such as green corridors can provide opportunities to incorporate footpaths and cycleways to promote sustainable travel patterns. Green corridors can serve both people and wildlife by carrying footpaths, cycleways, and tram and light rail routes alongside linear grassland habitats, wooded belts, streams, rivers and ponds.
- 12.29. However, there can be a conflict between providing areas for recreation and transport and simultaneously maintaining biodiversity. This is addressed in the TCPA guide¹⁰² which suggests pedestrian and transport routes need to be well designed so that they do not interfere with habitat creation and provide natural surveillance so that they do not become havens for crime.
- 12.30. In a successful network, an understanding of the existing corridors and their functional requirements is essential in order that a hierarchy of linked spaces can be created.
- 12.31. It is suggested that existing plans to improve the Liverpool to Leeds Canal be pursued, but also that new linkages are explored in order to identify other green corridors which could link communities across the District.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P4 & P5: USING DEVELOPER CONTRIBUTIONS TO IMPROVE GREEN SPACE

- 12.32. At present the Council has yet to decide whether the Community Infrastructure Levy will be implemented. However, developer contributions have been used in the past and will continue to be used. These contributions should be used to meet shortfalls identified in this study in relation to quantity and accessibility. This can be done by creating new provision, but can offset such shortfalls by increasing the quality, and thus the accessibility, of existing green space where necessary.
- 12.33. Shortfalls should be used in particular to assist in the development of specific types of outdoor leisure provision in the District. Targeting should include the provision of exciting play areas by the use of innovative concepts such as iplay, green play, as well as facilities for youth and teenagers, including MUGA's, BMX tracks and pumtracks.
- 12.34. PPG17 states that local authorities are justified in seeking planning obligations where new development will place additional pressure on open space resources and increase local need. This is supported by the Companion Guide to PPG17 which states that developer contributions could include:
- **The cost of the land for open space;**
 - **The laying out of that open space including provision of new play equipment (or enhancement of the quality of existing equipment), either on site or off site;**
 - **Commuted sums for the maintenance cost of open space for a locally established period; and**
 - **Legal fees.**
- 12.35. To ensure that open space contributions are appropriately sought they must comply with the statutory requirements set out in Circular 05/2005. These tests require the contribution to be:
- **Necessary to make the proposed development acceptable in planning terms;**
 - **Directly related to the proposed development; and**
 - **Fairly and reasonably related in scale and kind to the proposed development.**
- 12.36. Developer contributions will be used for establishing and improving open spaces appropriate to the locality in which the development takes place. The requirements are expressed in terms of square metres (m2).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

12.37. There are two mechanisms that will be used by the Local Planning Authority to deliver open space. These are:

- **Inclusion of open space as part of the development by the developer; and**
- **Financial contributions towards the provision of open space off site.**

12.38. A number of local authorities have used an approach which defines developer contributions in relation to green space. One such in Yorkshire is that adopted by Harrogate Borough Council. It is suggested that a developer contribution model is adopted by the Council once resolution over the use of the Community Infrastructure Levy (CIL) has been achieved. The Council's existing Planning Gain Guide and approach to calculating developer contributions could be used as a basis for developing a model.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P6: MAINTAINING AND IMPROVING THE QUALITY, QUANTITY AND ACCESSIBILITY OF GREEN SPACE

12.39. In order to ensure the adequate supply of green space in the District, it will be necessary to:

1. **Protect valuable existing green space**
2. **Encourage the improvement of existing spaces.**

12.40. The Neighbourhood Planning process is currently being invoked in Craven using guidelines included in the National Planning Policy Framework (NPPF). Parishes will have the opportunity and power to set local planning policies. Within the Neighbourhood Plan, areas of green space that are of value to the community can be protected by having them designated as local green space (LGS). The LGS will also be designated in the Local Plan. The planning authority (Craven District Council) is responsible for the designation process. The criteria for eligibility are as follows:

- **Reasonably close proximity to the community it serves**
 - There is no definition of this in the NPPF and it will be up to individual planning authorities to define. This may vary depending on the size of the community to which the green space relates, the size of the green space or the value placed on it by the community. The land must not be isolated from the community and would normally be within easy walking distance of the community served.
- **Demonstrably special to a local community**
 - Evidence must be provided of the land's value to and use by the local community to show the land holds a particular local significance. The land must fulfil one or more of the following criteria:
- **Beauty**
 - This relates to the visual attractiveness of the site, and its contribution to landscape, character and or setting of the settlement. LGS would need to contribute to local identity, character of the area and a sense of place, and make an important contribution to the physical form and layout of the settlement. It may link up with other open spaces and allow views through or beyond the settlement which are valued locally.
- **Historic significance**
 - The land should provide a setting for, and allow views of, heritage assets or other locally-valued landmarks. It may be necessary to research historic records from the County Archaeologist or National or Local Records Office.
- **Recreational value**
 - It must have local significance for recreation, perhaps through the variety of activities it supports, and be of value to the community.
- **Tranquillity**
 - Some authorities have an existing 'tranquillity map' showing areas that provide an oasis of calm and a space for quiet reflection.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Richness of wildlife**
 - This might include the value of its habitat, and priority areas may have been identified by the council. It may require some objective evidence, such as a designation, like a wildlife site or Local Nature Reserve.
- **Local in character, not an extensive tract of land**
 - The criteria may differ between settlements depending on their physical size and population. The areas would normally be fairly self contained with clearly-defined edges. Blanket designation of open countryside adjacent to settlements will not be appropriate. There is a no minimum size limit for LGS.
- **Land already designated**
 - If land is already protected by Green Belt policy, consideration should be given to whether any additional local benefit would be gained. This may be in a case 4 where LGS designation could help to identify areas that are of particular importance to the local community.

12.41. The Council consulted with the local community including parishes in November and December 2015 to invite the submission of Local Green Space applications. Those applications that meet the criteria set out above will be shown as LGS designations within the Local Plan. It is encouraged to consider looking favourably on eligible green space applications by granting LGS designations.

12.42. In relation to meeting quantitative and accessibility needs in relation to green space, the Council should carefully consider any proven shortfalls in relation to different greenspace types. If approved by the Council, the Community Infrastructure Levy (CIL) should be used to provide new open space in conjunction with new development wherever possible. Prior to the adoption of the CIL, planning obligations need to be invoked in order to facilitate this approach. Where this is not possible, planning obligations should be used to contribute towards improving the quality of existing open spaces where required. This will go some way to both enhancing their recreational value, and offsetting quantitative shortfalls.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P7: PROVISION OF ADDITIONAL BURIAL SPACE

- 12.43. Anecdotal evidence from the quality audit and the parish consultation process appears to indicate that there is a shortage of burial space in the District. Some additional spaces can be created using management techniques, including landraising, fitting new graves between old, or infilling paths, avenues, and ornamental gardens. Some caution is required in that this may still not be sufficient to meet demand, and the character, beauty and integrity of existing burial grounds could be adversely affected.
- 12.44. An initial requirement will be to assess future demand taking into account the following factors:
- **Existing burial space provision**
 - **Future trends (i.e. for burial as against cremation)**
 - **The projected in population levels in the District in future. This projection also indicates that there will be an increase in older age groups as a percentage of the age range**
 - **Area required to accommodate any new burial provision (Evidence is limited in terms of studies relating to this provision. However, paragraph 10.39 of “South East Counties: The Cost & Funding of Growth in South East England” indicates that 1,730 grave plots can be accommodated in a hectare and at an average of 2.5 burials per grave plot this amounts to 4,325 burials per hectare).**
- 12.45. Piecemeal delivery of additional burial space on individual sites is unlikely to be appropriate. Therefore the Council needs to explore options based around the strategic delivery of additional burial space.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P8: PROVISION OF ADDITIONAL ALLOTMENT SPACE

- 12.46. Evidence from the quality audit and from the parish consultation indicates at least in anecdotal terms that there is a shortfall in provision in some areas of the District. This is backed up by one parish holding a considerable waiting list of those wishing to cultivate a plot. For example, the parish of Sutton in Craven has 22 plots occupied, but holds a waiting list of 35.
- 12.47. The Small Holdings and Allotments Act 1908 was the first act to comprehensively place a duty on local authorities to provide sufficient allotments according to demand. “Sufficient” has yet to be defined. However, it could be argued that under section 23 of the 1908 act if there is one person on a waiting list for an allotment, a local authority has breached its duty.
- 12.48. In practical terms the 1908 act empowers local authorities to acquire land for allotments by agreement or compulsorily, or to lease land for the supply of allotments.
- 12.49. The National Society of Allotment and Leisure Gardeners Ltd. Carried out in recent years a study which indicates that the number of plots peaked during World War 2 at 1,399,935 plots. This had reduced to 532,964 plots in 1970, and had diminished to 296,923 plots by 1996. The waiting list at that point was 12,950 in England only. There has since been a resurgence of interest in allotment gardening which is likely to be mirrored in Craven.
- 12.50. It is recommended that a review of allotment provision is carried out with a view to obtaining additional plots to meet future demand if necessary.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

13. ACTION PLAN

13.1. The actions outlined in previous sections are included in the Action Plan. This is divided into the following:

- **Short-term actions – within the next three years**
- **Medium-term actions – three to five years**
- **Long-term actions – up to ten years.**

13.2. Each action is numbered in accordance with the system used to identify actions in the previous sections, i.e.:

- **“P” numbers (P1; P2; P3, etc.) indicate actions relating to planning issues**
- **“S” numbers (S1; S2; S3, etc.) indicate actions relating to service issues**
- **There is a section where actions are detailed**
- **Resources are indicated either in terms of sources of finance for implementation, or as officer time required for preparation and implementation**
- **The “Progress to Date” and “Review Date” sections are included for the client in order to allow for self-monitoring of progress.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

1. INTRODUCTION AND SCOPE

INTRODUCTION

- 1.1 The rural district of Craven is located in the county of North Yorkshire and covers 370 square kilometres. The District is bordered by Lancashire to the west and south, and Bradford Metropolitan District to the southeast; to the north and east are Richmondshire District and Harrogate Borough, respectively. Areas to the north and east fall within the Yorkshire Dales National Park (YDNP) boundary. Although the total area of Craven is 1,1179 sq kilometres, 808 sq kilometres (68.5%) is in the YDNP, which has its own planning authority.
- 1.2 The four largest settlements include the market towns of Skipton which is designated as the principle settlement in the Regional Spatial Strategy, Benthams in the north sub area, Settle in the mid sub area and the villages of Glusburn/Cross Hills which serve the south. The population of Skipton is around 15,000, and that of Settle 3,000.
- 1.3 The population of the whole of Craven is 55,574 as at the ONS 2012 midyear estimates and is expected to grow to 58,000 by 2037. The population of the YDNP is 8,500, meaning the population for this Strategy (study area) is 47,074. The District is within the top ten most sparsely populated local authority areas in England. Given the rural nature of Craven many people need a car out of necessity to access services.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 1.1: Craven District, showing surrounding districts and the National Park

Version: April 2012

RATIONALE FOR DEVELOPING A SPORTS FACILITIES STRATEGY

- 1.4 Craven District Council (CDC) recognises that their 2007 sport and recreation strategic documents and 2004 built facility strategies are out of date and the evidence base that underpinned this work needs reviewing. Given the policy and financial changes of the last five years, including reductions in revenue budgets, there is a need to identify options for future provision which meet local need, but can be delivered more effectively and efficiently. This also provides a fresh opportunity to deploy national best practice to ensure the needs of a diverse resident population are suitably planned for, and addressed.
- 1.5 The Council has a statutory duty to meet the requirements of the National Planning Policy Framework. The NPPF para 73 states “*access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning Policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision are required.*”
- 1.6 The time is therefore opportune to develop a robust needs and evidence base for future provision of sports facilities in the District, supported by an audit and mapping of provision. This Sports Facility Strategy sits alongside the recently reviewed 2015 Playing Pitch Strategy. The two documents will ensure that the current and future demand for sport and recreation facilities are planned for holistically and that the needs of the population of Craven can be fully met. The two strategies provide clarity on how and where available investments should be targeted and how the Council and other partners can use their own resources and work with others to ensure that the right sports facilities (indoor and outdoor) are delivered in the right places, to deliver the right outcomes.
- 1.7 The aims of the Sports Facility Strategy are to:
- **Provide a viable and deliverable model of sports facility stock (type/mix) that meets existing and anticipated future demand**
 - **Provide a clear understanding of the overall surpluses and deficiencies across the District and any specific geographical and/or individual facility needs**
 - **Establish the principles to help inform where future resources should be focused and help inform the policy direction of the emerging LDP (Local Development Plan)**
 - **Produce a strategy which is compliant with Sport England guidance**
- 1.8 Craven District Council is in the process of producing a new Local Plan; in line with the National Planning Policy Framework (NPPF) the Council’s Local Plan will comprise:

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- **An analysis of the value of provision in terms of environment, economy, health, people and community**
- **A determination of appropriately locally-derived quantity, quality and accessibility standards in accordance with the guidance for new development and future populations.**
- **An identification of surpluses and deficiencies in the quality, quantity and accessibility of sport and open space facilities as well as an identification of the spatial distribution of unmet needs and a forecasting of future needs for the Council' settlement areas.**
- **A range of creative solutions which will meet identified deficits, including more effective recommendations for the setting of accessibility, quantitative and qualitative use of existing open space and recreational facilities**
- **An updating of the schedule of sports and recreation facilities (including site mapping and digitalisation)**
- **The production of site-specific action plans identifying individual improvements.**

BACKGROUND CONTEXT

STRATEGY SCOPE

1.9 The scope of the work included is summarised as:

- **Building on existing material to comprehensively audit all pre-defined sports facilities / facility networks across Craven District.**
- **Assess the impact of forecast population growth on the future planning for sports facility provision within Craven District.**
- **Assess the impact that sports facility provision in neighbouring Local Authorities has on future provision and planning for sports facility provision within Craven District.**
- **Assess the requirements to demonstrate the impact of investing in existing and new facility stock across Craven District in terms of economic, social and health outcomes.**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

1.10 The project scope includes the following type of facilities:

- **Swimming Pools – indoor and outdoor**
- **Sports Halls**
- **Fitness Facilities (gyms)**

1.11 The key sports covered by the facilities included within the scope include:

- | | |
|--|-------------------------------------|
| • Badminton | • Basketball |
| • Volleyball | • Indoor Netball |
| • Health and Fitness (Fitness Suites and dance studios) | • Swimming (all disciplines) |
| • Bowls | • Indoor Tennis |
| | • Table Tennis |

1.12 Whilst the main focus of this assessment and strategy is sports halls and swimming pools, other locally important sports facilities are referenced as appropriate.

1.13 Sports such as Gymnastics, Boxing and Martial Arts, whilst requiring specific high performance facilities, can also be delivered at introductory levels in multipurpose sports halls.

1.14 The Strategy assesses and identifies the provision of all strategic scale indoor recreation facilities i.e. 3 court sports halls, 20m pools or larger. The strategy focusses on key providers such as:

- **Local Authority**
- **Education (School and Further and Higher Education based)**
- **Voluntary and Private Sectors**

TERMS OF REFERENCE

1.15 The brief developed by Craven District Council identifies the key objectives of the strategy as:

- **To help deliver the public health agenda**
- **To underpin CDC's (Craven District Council) core strategic priorities**
- **To inform the investment strategy for Council initiatives/projects**
- **To inform Local Plan Policies and assessment of planning applications**
- **To inform potential developer contributions**
- **To help facilitate and promote community use of open spaces/sport facilities/playing pitches**
- **To inform sports development initiatives**
- **To evaluate trends in participation and needs of different users particularly in respect of social inclusion and DDA**
- **To understand cross boundary border issues and facility provision**
- **To inform efficient management and maintenance of facilities in response to pressures such as budgetary pressures**
- **To establish catchment areas for particular sports**
- **To protect and enhance facilities**
- **To provide evidence to secure internal and external funding**
- **To understand opportunities for dual use of facilities**

STRATEGY STRUCTURE

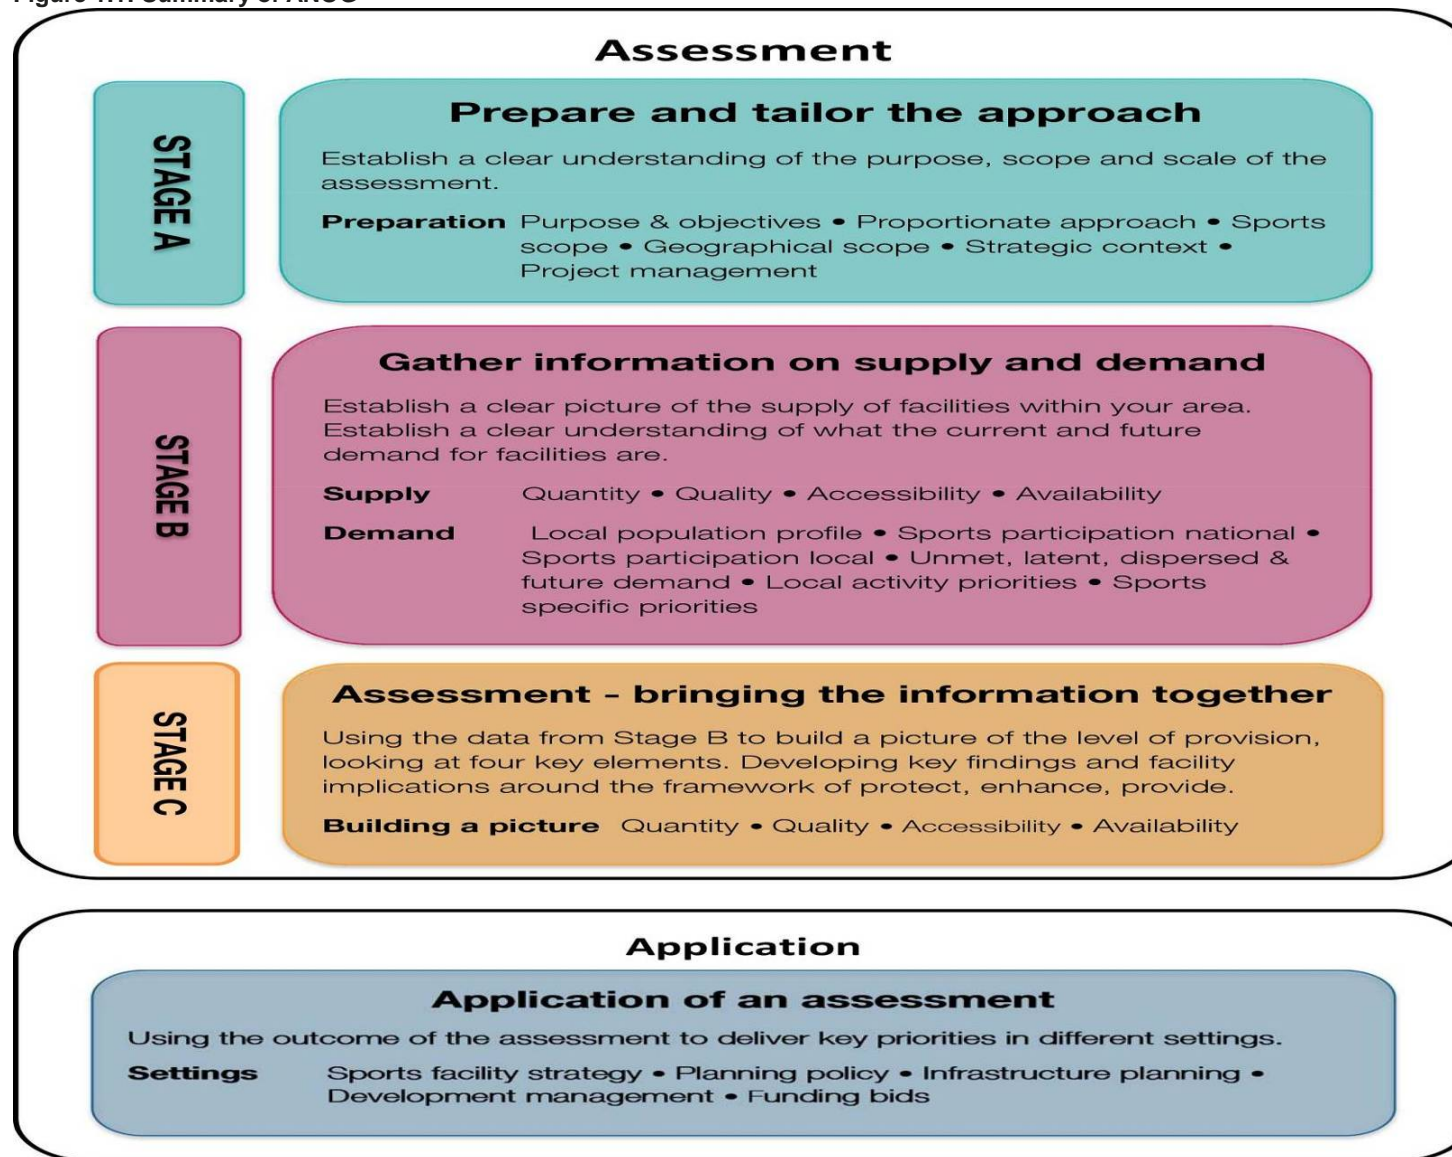

1.16 The Strategy has been developed using the Sport England Assessing Needs and Opportunities guidance (ANOG), published in 2014.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

1.17 The Strategy structure has been developed to reflect the ANOG Guidance. The structure is detailed in the Contents section, and reflects the following ANOG stages, as set out in Figure 1 below:

Figure 1.1: Summary of ANOG

2. STRATEGIC POLICY AND CONTEXT

INTRODUCTION

NATIONAL LEVEL

- 2.1 The National Planning Policy Framework (NPPF) sets out the requirement of local authorities to establish and provide adequate and proper leisure facilities to meet local needs. Paragraphs 73 and 74 outline the planning policies for the provision and protection of sport and recreation facilities.
- 2.2 “Access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision is required”.
- 2.3 ‘Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:
- **An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or**
 - **The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or**
 - **The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.”**
- 2.4 Sport England is a statutory consultee on all planning applications that affect sports pitches and it has a long established policy of playing pitch retention, even prior to the NPPF guidance. It looks to improve the quality, access and management of sports facilities as well as investing in new facilities to meet unsatisfied demand. Sport England requires local authorities to have an up-to date assessment of playing pitch needs and an associated strategy including a recommendation that the evidence base is reviewed every three years.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.5 The key drivers for the production of the strategy as advocated by Sport England are to protect, enhance and provide playing pitches, as follows:

- **Protect: To provide evidence to inform policy and specifically to support Site**
 - Allocations and Development Management Policies which will protect playing fields and their use by the community, irrespective of ownership
- **Enhance: To ensure that sports facilities are effectively managed and maintained and that best uses are made of existing resources - whether facilities, expertise and/or personnel to improve and enhance existing provision – particularly in the light of pressure on local authority budgets**
- **Provide: To provide evidence to help secure external funding for new facilities and enhancements through grant aid and also through CIL and Section 106 agreements Sport England and local authorities can then use the strategies developed and the guidance provided in making key planning decisions regarding sports pitches and facility developments in the area and to support or protect against planning applications brought forward by developers.**

A NEW STRATEGY FOR SPORT – DEPARTMENT FOR CULTURE, MEDIA AND SPORT (CONSULTATION DRAFT DECEMBER 2015)

2.6 The Department for Culture, Media and Sport issued a consultation paper in August 2015 for comment by October 2015. The development of the new strategy reflects a need to re-invigorate the nation's appetite for participation in sport following what appears to be a significant reduction in participation (most high profile being swimming), following the upsurge after the 2012 London Olympics.

2.7 The Consultation Paper has 10 themes, which explore the future role, remit and influence of sport in the UK into the future:

- **Theme One: Participation**
- **Theme Two: Physical Activity**
- **Theme Three: Children and Young People**
- **Theme Four: Financial Sustainability**
- **Theme Five: Coaching, Workforce and Good Governance**
- **Theme Six: Elite and Professional Sport**
- **Theme Seven: Infrastructure**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- **Theme Eight: Fairness and Equality**
- **Theme Nine: Safety and Wellbeing**
- **Theme Ten: International Influence and Major Sporting Events**

- 2.8 The key driver for the strategy is to increase participation in sport and physical activity and to make activity an integral part of everyday life in the UK, for everyone.
- 2.9 The Consultation paper examines the role of funding, partnerships and priorities for the future of sport and sports facilities. It is anticipated that the full Strategy will be published in 2016.
- 2.10 The remaining national policy context is summarised in Appendix 1, National Level.

LOCAL LEVEL

- 2.11 A number of current strategic policies, strategies and factors influence current and future supply and demand for sport and recreation facilities in Craven. These include:
- **North Yorkshire Community Plan 2014-2017**
 - **Craven District Council Plan 2015-2018**
 - **New Local Plan 2014 ongoing (Draft)**
 - **North Yorkshire Health and Well Being Strategy 2013 -2018**
 - **Joint Strategic Needs Assessment – Annual Update 2015**
 - **Young and Yorkshire – Children’s Plan 2014-17**
 - **Population Profiles and Projections**
 - **Participation Trends and Rates**

NORTH YORKSHIRE COMMUNITY PLAN 2014-2017

- 2.12 The North Yorkshire Community Plan sets out the key issues and actions that need to be tackled in partnership across North Yorkshire to help make sure that the county is well placed to respond to both challenges and opportunities.

‘Our vision is we want North Yorkshire to be a thriving county which adapts to a changing world and remains a special place for everyone to live, work and visit’

- 2.13 Three priorities for 2014-2017 are:

- **Facilitate the development of key housing and employment sites across North Yorkshire delivering necessary infrastructure investments through partnership.**
- **Supporting and enabling North Yorkshire communities to have a greater capacity to shape and deliver the services they need and to enhance their resilience in a changing world.**
- **Reduce Health inequalities across North Yorkshire**

- 2.14 The plan acknowledges the rapid changes in the public sector and the way in which services are delivered. It identifies that where a service is reduced, there is potential for impact on the delivery of another service by another partner; therefore collaborative working should look to minimise any impact.

- 2.15 The growing older population in North Yorkshire provides opportunities to promote community action and healthy aging, helping tackle issues such as dementia, loneliness and isolation.

- 2.16 North Yorkshire offers a good quality of life for many. However, there are significant differences in terms of health and well being for those in the more affluent communities compared to those who experience higher social and economic deprivation. The plan recognises that public sector budget cuts have already started to impact; in the longer term these will impact on the health and wellbeing of the population. It is therefore important to ensure that negative impacts are minimised.

CRAVEN DISTRICT COUNCIL PLAN 2015-2018

2.17 The Plan explains the Council's future priorities for improving the services offered to communities and residents.

'The Council's vision is for the Craven to be a prosperous place with strong, vibrant, and diverse communities'

2.18 The Council has four priorities:

- **Enterprising Craven**
- **Greener Craven**
- **Working with Communities**
- **Financial resilience**

2.19 The Sports Facility Strategy can contribute to a number of the actions identified under each priority; these include;

- **Enterprising Craven**
 - Improve the economic vitality of Cravens market towns and villages by implementing a range of initiatives to make them more attractive places to live, work, visit and do business.
- **Greener Craven**
 - Improve the quality of life and make Craven's public spaces cleaner, safer and greener
- **Working with Communities**
 - Provide support for community-based groups to undertake initiatives aimed at improving their local community.
 - Work with partners to deliver the Tour de France legacy
 - Improve the opportunities available to residents of Greatwood and Horse Close, South Skipton
 - Increase partner and community involvement in service delivery
- **Financial Resilience**
 - Ensure the Council remains financially sustainable and has robust arrangements in place for securing value for money.

CRAVEN LOCAL PLAN TO 2032

- 2.20 The information below has been referenced from the draft new Local Plan which went out to public consultation in September 2014, with feedback collated in February 2015. The feedback is being taken into account as further work on the plan and the development of the SPD's (Supplementary Planning Documents) is undertaken. The timescale for adoption of the plan is 2016/17.
- 2.21 The vision for Craven in 2032 is for a period of steady and sustainable growth and change. There will be;
- **Greater equality in communities in terms of housing choice**
 - **Better paid local job opportunities**
 - **More opportunities to pursue a healthy and active lifestyle**
 - **More access to services on which residents of all ages depend**
- 2.22 Craven will be an attractive place to live, work and visit, offering a full and vibrant community life.
- 2.23 A key issues in the District is projected population growth. The population grew by 3.3% from 2001 to 2011 to 55,409; further growth of 4.7% is projected from 2011 to 2032 to 58,000. The population of older people will continue to increase, placing great demands on health and social care. The population within younger age groups has fallen and will continue to do so.
- 2.24 Household sizes will fall, but the number of households will increase as a result of the population growth. In addition, there is likely to be an increase in people commuting into Craven from areas where housing is more affordable.
- 2.25 The Local Plan draws out the varied characteristics, functions and needs of the three Sub- Area. Each sub-area has different geographies, housing markets and travel to work patterns.

SPORT AND LEISURE FACILITIES STRATEGY
 CRAVEN DISTRICT COUNCIL

Table 2.1: Summary of Craven's Sub Areas

	NORTH SUB-AREA	MID SUB-AREA	SOUTH SUB-AREA
COMMUNITIES	Market Town - Bentham Villages - Ingleton, Clapham, Burton in Lonsdale	Market Town – Settle Villages – Rathmell, Giggleswick, Hellfield	Market Town – Skipton, largest in Craven 14,677 (32% of District) Cross Hills/Glusburn provide serves from South Craven Villages – Sutton in Craven, Gargrave
HOUSING & INCOME	Significant need for affordable housing Gross household income average for District £22K	Significant need for affordable housing Gross household income above average £24K	Significant need for affordable housing Gross household income average for District £22K
HEALTH	Bentham GP Surgery is part of NHS Cumbria CCG	Settle/Hellifield GP Practices part of Bradford Districts CCG	Skipton, Gargrave, Cross Hills GP Practices part of Bradford Districts CCG
EDUCATION-	Primary schools in Bentham. Ingleton, Clapham. No secondary Schools, links with Kirby Lonsdale, Cumbria	Primary schools in market town and villages. Secondary School in Settle in addition a private school in Giggleswick	Strong reputation of the schools attracts commuting and migration from areas outside Craven.
ACCESSIBILITY	10 miles from M6 Rail links from Bentham and Clapham to Skipton, Leeds, Lancaster Infrequent public transport	Rail connections from Settle to Carlisle. Connection between Giggleswick, Settle, Hellifield and Skipton through to Leeds.	Good Accessibility by road and rail to Leeds, Bradford and beyond to South Yorkshire. Rail links to Leeds, Bradford, Lancaster and Carlisle. Daily direct train to London
DEPRIVATION	Parts of Clapham and Ingleton disadvantaged in terms of access to services	Issues of access to services and lack of further education facilities.	Parts of south and west Skipton are the most deprived areas in the District. 2 LSOA are within top 20 % in England.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	NORTH SUB-AREA	MID SUB-AREA	SOUTH SUB-AREA
ECONOMY	High levels of self employment and micro businesses	Significant number of small businesses and self employed. Industrial Estate in Settle.	Diverse local economy with links to outside the District. Employment in financial services, manufacturing and health care.
TOURISM	Gateways to Forest of Bowland, YDNP	Gateway to YDNP Settle to Carlisle Railway	Skipton a visitor destination in its own right as well as gateways to YDNP.
LINKS WITH AREAS OUTSIDE CRAVEN	Net out commuting from this area for work and education in Lancaster and Cumbria	Compared with the other sub-areas links to outside Craven are less strong. The area is a greater distance from towns and cities outside of the District.	Strategic links exist with West Yorkshire cities of Leeds and Bradford and East Lancashire via the M56 corridor. Commuting to and from the south sub-area.

(Source Craven District Local Plan to 2032)

2.26 The plan has 9 objectives; most relevant to this strategy are:

- PO1:** Achieve patterns of development which make best use of available resources, nurture high quality environments and community life and promote health, well being and equality.
- PO5:** Enhance the vitality of market towns and larger village centres and improve the provision of local community services and facilities in smaller settlements.
- PO6:** Provide sufficient and suitable employment land to enable businesses to grow and enhance their productivity and identify locations for new and diversified employment related to a high quality local environment, the tourism economy and recreation opportunities.

2.27 The Spatial Strategy within the Local Plan uses the sub-area approach to identify the most appropriate locations and distribution for different types of development in Craven. Most forms of new development and growth are directed to the more sustainable locations with the primary area for growth area being the south sub-area. The north and mid sub areas are identified as secondary growth areas. The three market towns are identified as the primary focus for growth in each sub-area as Skipton, Settle and Bentham provide for their own local communities and act as service hubs for the wider and sparsely populated rural hinterlands. Secondary areas for growth in the sub-areas are identified key villages.

2.28 Although the Plan supports Neighbourhood Planning to date only three parish councils have come forward with ambitions to develop a Neighbourhood Plan.

2.29 The Local Plan promotes a policy of good design and highlights that:

‘Development should promote socialising, recreation, art, health and wellbeing, by maintaining and improving existing public spaces and creating new public spaces, such as parks, squares and other areas of public realm’.

2.30 It is important that any future planning conditions attached to new development of eg schools, community buildings requires community access too sports facilities; this needs to be on the basis of ‘proper’ pay and play access, not simply groups or sports clubs.

2.31 There is a requirement for at least 5,120 new homes over the next 15 years of the Plan period. This represents an average of 256 dwellings per annum (overall 5,120 new homes 2012-2032). The distribution of new housing allocations per annum is:

- **25 North sub area**
- **22 mid sub area**
- **113 South sub area**

2.32 The largest numbers of new homes will be in the market towns of Skipton, Settle and Benthams.

2.33 The main focus for development is in the south sub-area which includes 9.5 hectares for a strategic business zone in Skipton. The plan recognises the importance of the rural economy and acknowledges the potential sustainability benefits of people being able to live and work locally.

2.34 Tourism plays a substantial part in the economy of Craven and the District attracts visitors for a variety of reasons. Continued growth in tourism needs to be sustainable and the Plan states that the growth will be achieved in a number of ways including:

- **‘Enabling established tourism destinations to become even better through the development of new and improved facilities**
- **Acknowledging the range of sporting, recreational, cultural and leisurely activities that people wish to engage in as tourists’**

2.35 The Plan references the use of Section 106 agreements as part of the development process. The Council will also be considering the introduction of Community Infrastructure Levy (CIL) whilst being mindful that any planning obligations and CIL charges will perform separate functions and developers will be safeguarded from ‘double charging’

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.36 The importance of community buildings and social spaces is highlighted as it is difficult for some disadvantaged communities to access services. The Plan aims to promote the continuation and improvement of village services and facilities including sports facilities and community buildings.

NORTH YORKSHIRE HEALTH AND WELL - BEING STRATEGY 2013-2018

2.37 The Strategy is based on the JSNA (Joint Strategic Needs Assessment), which highlights the needs and health inequalities in North Yorkshire. Key challenges in the County are:

- **Rurality** – just seven towns in the County have populations over 15,000
- **An Ageing population** – predicted increase of over 65's from 125,000 to 160,000 by 2021
- **Deprivation** – pockets of deprivation including Skipton
- **'Killer' Disease** – CVD, stroke, cancer
- **Financial Pressures** – continued challenge to make financial efficiencies

2.38 The Health and Wellbeing Board encourage commissioners and providers to pursue an integrated approach to provide joined up solutions and reduce duplication of effort and investment. The board is expecting commissioners to increase their investment in community- based services.

2.39 Areas of particular focus for the Strategy include;

- **Social isolation and its impact on mental and wider aspects of people's health**
- **Encouraging positive lifestyle behaviour changes. Improving awareness around need to develop healthy lifestyles, in particular smoking reduction, obesity and alcohol consumption**
- **Opportunities should be sought to develop healthy lifestyles by supporting wide-ranging less obvious initiatives such as maximising the use of our local countryside and supporting local sports clubs**

2.40 In response to the challenges identified, the Strategy aims to achieve:

- **Improved access to leisure activities for people in rural areas**
- **A reduction in the number of socially isolated vulnerable people**
- **Improved knowledge and understanding of the assets available within local communities by health and social care agencies and the communities themselves**
- **More services being developed and provided in partnership**
- **Reduction in the instances of 'killer' diseases**
- **Improvements in life expectancy for people with chronic and long term conditions**
- **Increase in the number of people of all ages choosing to adopt a healthier lifestyle**
- **More people having better mental health**
- **People with mental health needs will have improved physical health**

JOINT STRATEGIC NEEDS ASSESSMENT (JSNA) ANNUAL UPDATE 2015

2.41 The North Yorkshire JSNA was originally produced in 2012; annual updates provide a snapshot of the current health and wellbeing indicators and how they have changed. A countywide annual update is produced with summary reports for each of the local Clinical Commissioning Groups (CCG) in the County. Key facts from the Craven 2015 update are;

- **2 Lower super Output Areas (LSOA) in Skipton are amongst the most deprived in England.**
- **Life expectancy is above the national average for both males and females.**
- **Alcohol is an area of concern although not significantly worse than the national average**
- **The level of overweight 10-11 year olds in Craven is 21%, well below the national average of 33%. In 2014 18.9% of adults were classed as obese, lower than the national average. However, excess weight levels for Adults in Craven are above the national average with 65.7% which is over 30,000 people.**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- **Smoking in Craven is 11.3% compared with national average of 19.5%**
- **Long term and chronic health conditions are high compared to the national average. Specifically asthma, Cardio-pulmonary disease, hypertension and stroke.**
- **Detection rates indicate that there are a large number of CVD related factors being undiagnosed. Only 40.8% of people invited for a health check in Craven 2013/14 made an appointment. The national average is 49%.**

YOUNG AND YORKSHIRE – NORTH YORKSHIRE CHILDREN & YOUNG PEOPLES PLAN 2014-2017

- 2.42 Development of the Plan included listening to children, young people and their families across the County. Clear themes and messages emerged which included concerns about rural isolation and hopes for more local amenities, health and other public services, and better transport links. There was a desire to be able to readily access organised sports and leisure facilities, and many young people expressed a desire to have more places to 'hang out' with their mates.
- 2.43 The Vision for the Plan is expressed through both the children's version;

'We want North Yorkshire to be a cool place with loads of great things to do'

- 2.44 And the professional's statement:

'We want North Yorkshire to be a special place where every childhood is wonderful and every young person thrives'

- 2.45 Three priorities have been identified

- **Ensuring that education is our greatest liberator**
- **Helping children enjoy a happy family life**
- **Ensuring a healthy start in life with more children and young people leading a healthy lifestyle.**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

2.46 Measures within the Plan include 63% of Key Stage 2 students participating in 5 hours or more of physical activity per week, and 50% at key stages 3/4. Targets for increasing the physical activity levels are Year 1 65% and 52% and by the end of the plan 66% and 53% respectively.

POPULATION PROFILES AND PROJECTIONS

2.47 Understanding the population and future growth projections are important in planning the future provision of sports facilities. The Local Plan, Spatial Strategy identifies the primary and secondary locations for development and growth. The population of the three market towns is:

- **Bentham 3,027, (north)**
- **Settle 2,564 (mid district)**
- **Skipton 14,623 (south)**
- **The other significant settlement is in the parish of Glusburn/Cross Hills, South Craven at 3,980**

(Source: ONS Data 2011 Census)

2.48 31% of the district's population live in Skipton, which is the largest town in Craven. 69% of the population live in the other market towns and in the small villages and hamlets, which characterise the rest of the district.

2.49 Map 2.1 shows the current population distribution in the District. The darker the shade, the higher the population in that area. The large light area is the National Park.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

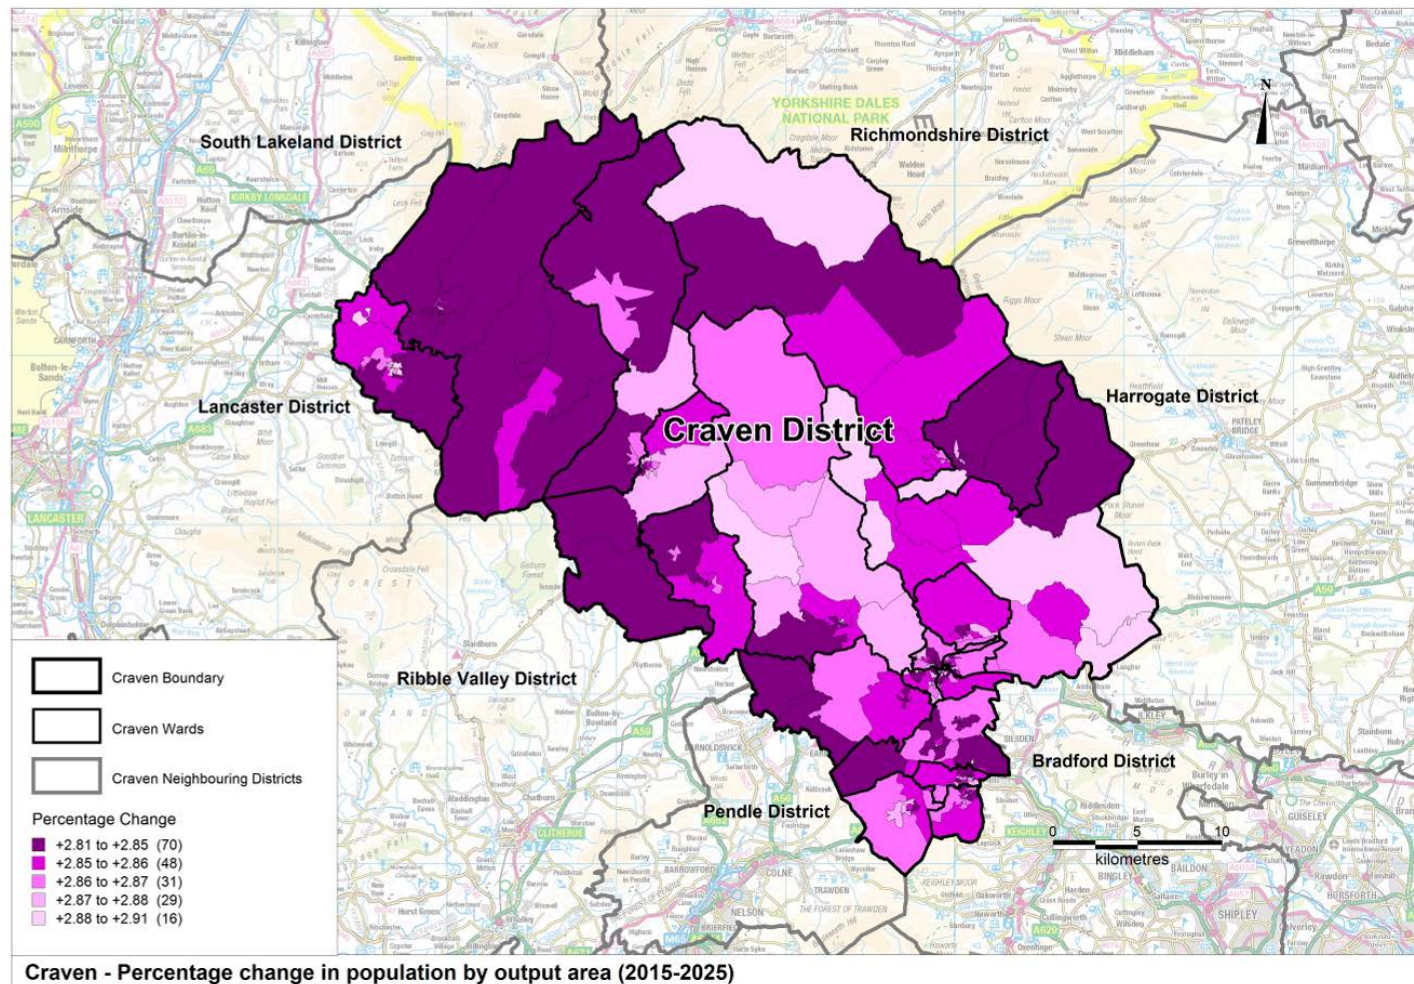

Map 2.1 Craven District – Current Population

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.50 Map 2.2 shows the future population distribution in the District, and how the population density will increase around the urban areas, and particularly in the north and west by 2037. The darker the colour shade, the higher the population growth in that specific area. The areas of densest population growth are in and around the three market towns, as detailed in Table 2.3, with the greatest level of growth around Bentham in the north and across to the east around Settle, and in the south east around Skipton.

Map 2.2 Craven District – Population Change

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

2.51 Over the period 1991 to 2011, the total population of Craven increased by 11%. Over this period, the proportion aged 0-15 increased by 4%, those aged 16-39 reduced by 16.7%, those aged 40-59 increased by 29.2% and those aged 60 and over has increased by 30%.

(source: Strategic Housing Market Assessment (SHMA) 2015).

2.52 Population estimates (Source: Census 2011 2012 midyear estimates) indicate an overall population growth of 0.7% from 2012-2018 from 55,500 to 56,000 (and further growth to 58,800 by 2037).

2.53 The population across Craven is expected to increase with the building of 256 new homes per annum to 2032 (including the National Park Area) (Source: Strategic Housing Market Assessment (SHMA) 2015). Excluding the 117 new homes per annum required in the National Park Area, this equates to 256 new homes per annum in the District, or a total of 5,120 new homes by 2032. Around 1,300 have been given permission to date (See Appendix 11). A growth of 5,120 new homes equates to an increased population of 6,243 (based on the study area population being 47,074 and increasing to 53,317 by 2032).

2.54 The majority of the new homes to be built in the District will be in and around Skipton, Bentham and Settle.

2.55 The largest growth in population will be in the 50-74 year old age band. A downward trend in population growth is projected for the 10-24 and 40-49 age bands. There will continue to be marginally more females than males in the District.

(Source: ONS 2012 based subnational population estimates)

DEPRIVATION

2.56 There is lower than average deprivation in Craven; the highest levels are concentrated in the south of the District, (shown in red). The orange area, which covers a significant amount of the District, also indicates areas of deprivation. 4.1% of the Craven population live in an area which is in the 20% most deprived areas in England.

SPORT AND LEISURE FACILITIES STRATEGY Craven District Council

Map 2.3 Areas of Deprivation in Craven District

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

2.57 Table 2.4 summarises the overall demographics of the Craven Planning Area (excluding the YDNP):

Table 2.4 Summary of Craven Planning Area Demographic Profile

KEY FACTORS	CRAVEN DISTRICT
POPULATION 2015 (ALL AGES) (Office for National Statistics mid year estimates 2013)	47,074 (Population 2012 45,620)
POPULATION 2037 (ALL AGES)	53,317
POPULATION INCREASES PLANNED	5,120 new homes 2015-2032; circa 6,243 additional residents 2015-2032 (based on 2012 population, 7,697 additional residents)
POPULATION CHARACTERISTICS	Predominantly white; the population is ageing – the largest growth in the population will be in the 50-74 age group.
RURAL AREAS	Craven is predominantly rural. 31% of the population live in Skipton, the largest town.
CAR OWNERSHIP	Although levels of car ownership are rising, 16% of the population does not own a car, a lower level than the regional and national averages (27% and 25% respectively) reflecting the rural nature of the local authority area with limited public transport available.
DEPRIVATION	Deprivation is lower than the England average, but where it does occur, it is significant. Life expectancy is 9.0 years lower for men and 5.2 years lower for women in the most deprived areas of Craven than in the least deprived areas. (Source: Craven Health Profile 2014)
OBESITY	18.9% i.e. less than a fifth of the adult population are categorised as obese, although 65.7% are classified as overweight (including those categorised as obese); 14.1% of children are obese. Both these levels, whilst of concern, are lower than the England average.
HEALTH COST OF INACTIVITY	£1,555,571 per 100,000 population
HEALTH ISSUES	The health of the Craven community is generally better than the England average. The main health problems are caused by obesity and smoking, cardio vascular diseases and diabetes.

(Sources: Craven Local Plan, Sport England Local Sports Profile 2015)

THE ECONOMIC VALUE OF SPORT

- 2.58 Sport has a valuable role to play in benefitting the health and social economy of the nation and at local level. It is estimated (**source: Sport England local profile 2015, and the Economic value of sport, 2013**) that sport makes an £11.3 billion contribution to the health economy of England. In 2010, sport contributed gross value-add of £20.3 billion to the economy in England. In Craven, 26,900 jobs are in sport or sport related sectors

PHYSICAL ACTIVITY AND PARTICIPATION

THE VALUE OF PARTICIPATION

- 2.59 The value of participation in sport and physical activity is significant, and its contribution to individual and community quality of life should not be under estimated. This is true for both younger and older people; participation in sport and physical activity delivers:
- **Opportunities for physical activity, and therefore more ‘active living’**
 - **Health benefits – cardio vascular, stronger bones, mobility**
 - **Health improvement**
 - **Mental health benefits**
 - **Social benefits – socialisation, communication, inter-action, regular contact, stimulation**
- 2.60 In addition, participation in sport and physical activity can facilitate the learning of new skills, development of individual and team ability / performance, and provide a ‘disciplined’ environment in which participants can ‘grow’ and develop.
- 2.61 The benefits of regular and active participation in sport and physical activity will be important to promote in relation to future sport, leisure and physical activity in Craven. There is an existing audience in the District, which already recognise the advantages of participation, and a latent community who are ready to take part. The sport, physical activity and leisure offer in the District can support the delivery of the desired outcomes across a number of District and County Strategic priorities and objectives.

CURRENT PARTICIPATION RATES

- 2.62 The Active People Survey (ASP) 9 (2014/15 Q2) shows that 32.4% of those aged 16+ years participate in sport at least once per week and 28.6% participate three or more times per week in sport and active recreation (NI8).
- 2.63 The Sport England (SE) Local Sports Profile for the District shows a trend over the last ten years of steady growth in once a week participation from 33.8% in 2005/06 peaking at 43.2% in 2011/12; this growth saw the District achieve participation rates above both regional and national figures. The last three years has seen a downward trend in participation to levels below the 2005/06 figures and the average regional (34.9%) and national rates (35.5%).
- 2.64 The number of those participating (NI8) shows a similar trend peaking at 32.3% in 2012/13 (APS7).
- 2.65 The number of people not participating in sport is 54.8% as at APS 9 (Q2), an increase from 52%, APS 8 2013/14.
- 2.66 Latent demand i.e. those who would like to do more sport, has risen from 39.9% APS 8 to 50% APS 9 (Q2). The number of those who are currently inactive but would like to do more sport has increased from 25.9% to 35.9%. Data for those who are currently active and would like to do more sport is unavailable.
- 2.67 The SE Small Area Estimates maps for the District indicate in geographic terms the areas where there is greatest participation. Once a week participation is greatest in the south and south east of the District where there is greater number of sports facilities and where middle super output areas border the neighbouring districts of Harrogate and Bradford.
- 2.68 The Small Areal Estimates map for 3 x 30 min per week shows a high level of participation across the east of the District, middle to high participation rates in the North West and low to middle rates in the central area.
- 2.69 Participation in organised sport such as club membership (APS 6-19.7%, APS 9- 23.6%) and participation in competitions (APS 6-14.4%, APS 9- 17.8%) has shown growth since 2011/12. Participation in coaching/tuition grew similarly, but has seen a downward trend from APS 8 21% to 16.1% APS 9 (Q2). Data for volunteering is unavailable.
- 2.70 Satisfaction with local sports provision indicates that 67.4% were very/fairly satisfied with local sports provision in 2014/15. Satisfaction levels have increased year on year since 2012/13.
- 2.71 The Craven 2014 Health Profile identifies that 60.3% of the population are physically active, but that 21.4% does not participate in physical activity.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.72 Given the demographics of the population, the issues highlighted in the Health and Well Being Strategy and the priorities of the Children and Young People's Plan the downward trends in participation are of real concern. However, the potential to address participation rates and their impact by addressing latent demand is a significant opportunity.

SPORT ENGLAND KEY PERFORMANCE INDICATORS

2.73 Sport England, the Governments agency for sport, measures 5 key areas in relation to sport activity. Tables 2.5 and 2.6 set out the performance of Craven, compared with the Yorkshire and Humber region and England.

Table 2.5: Participation Frequency in Physical Activity - Comparison with Sport England KPIs

	YEAR	CRAVEN			YORKSHIRE & HUMBER			ENGLAND		
		ALL	MALE	FEMALE	ALL	MALE	FEMALE	ALL	MALE	FEMALE

Source: Active People Survey, Year: 2011/12-2014/15, Measure: Key Performance Indicators 3, 4, 5, 6

* Data unavailable, question not asked or insufficient sample size

2.74 Craven is performing above the regional and national KPI averages (highest average KPIs shown in green in Tables 2.5 and 2.6, and lowest shown in red), despite the downward trend in participation levels. However, it is clear that regular participation opportunities continue to be provided.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

SPORTS ACTIVITY

- 2.75 Active People data is limited in terms of the being able to identify the top participation sports as a result of insufficient sample size. The data available for individual sports does show a drop in participation from APS 7 (7.68%) to APS 8 (5.83%) for swimming; the current APS 9 Q2 indicates an increase in participation to 8.71% for swimming.
- 2.76 Levels of participation in indoor sports are around 20-22% this is mirrored by sports hall and swimming pool usage figures. Participation in Keep fit and Gym activities is around 12.5%, and 13% for activities which take place in flexible locations eg running, cycling. Participation levels have remained stable in these activities APS7 – APS 9 Q2. Participation in individual sports shows a decline. Data for 1 vs1 and team sports is not available.

MARKET SEGMENTATION

- 2.77 Sport England's market segmentation model comprises of 19 'sporting' segments. It is designed to assist understanding of attitudes, motivations and perceived barriers to sports participation and to assist agencies involved in the delivery of sport and recreation to develop tailored interventions, communicate more effectively with the target market and to better understand participation in the context of life stages and cycles.
- 2.78 In Craven the dominant segments are Tim, Philip, Roger & Joy, Elaine and, Elsie and Arnold as summarised below;

Table 2.3: Summary of Market Segmentation for Craven

MARKET SEGMENT	KEY CHARACTERISTICS	% CRAVEN	ACTIVITIES / SPORTS THAT APPEAL TO SEGMENT
Tim, Settling Down Males	Tim is an active type that takes part in sport on a regular basis. He is aged 26-35, may be married or single, is career professional and may or may not have children. Tim participates in very active, technical sports, team sports, individual activities and is likely to have a gym membership	11.3%	Cycling, Keep fit/gym, swimming. Football, athletics or running, football
Philip, Comfortable Mid-Life Males	<p>Mid-life professional, sporty males with older children and more time to themselves.</p> <p>Philip's sporting activity levels are above the national average. The top sports that Philip participates in are cycling; 16% of this segment does this at least once a month, almost double the national average. Philip also enjoys keep fit/gym, swimming, football, golf and athletics (running). His participation in most of his top sports is above the national average, which is indicative of the priority he places on sport.</p>	10.9%	Cycling Keep fit/gym Swimming Football, Golf, Athletics or running

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

MARKET SEGMENT	KEY CHARACTERISTICS	% CRAVEN	ACTIVITIES / SPORTS THAT APPEAL TO SEGMENT
Roger & Joy, Early Retirement Couples	<p>Free-time couples nearing the end of their careers aged 56-65 years</p> <p>Roger & Joy are slightly less active than the average adult population. The top sports that Roger & Joy participate in are keep fit/gym and swimming are the most popular sports with 13% of the segment doing these, followed by cycling (8%), golf (6%) and angling (2%).</p> <p>Their participation levels are below average for all of these sports, with the exception of bowls, golf and angling</p>	9.4%	Swimming, Keep fit/gym Cycling, Golf, Angling
Elaine, Empty Nest Career Ladies	<p>Mid-life professionals, who have more time for themselves since their children left home, aged 46-55 years.</p> <p>Elaine's sporting activity levels are consistent with the national average, and slightly above average for some indicators. The top sports that Elaine participates in are Keep fit/gym and swimming are the most popular sports with around a fifth of the segment doing these, followed by cycling (7%), athletics or running (3%), tennis (2%), badminton (2%) and horse riding (2%). Her participation levels are above average for keep fit/gym and swimming</p>	8.4%	Keep fit/gym, Swimming, Cycling
Elsie & Arnold Retirement Home Singles	<p>Retired singles or widowers, predominantly female, living in sheltered accommodation. Aged 66+ years.</p> <p>Elsie & Arnold are much less active than the average adult population. They are likely to be doing less sport than 12 months ago, mainly due to health or injury. The top sports that Elsie & Arnold participate in are 10% of this group take part in 'keep fit/gym', 7% take part in swimming, and 3% in bowls</p>	8.2%	Keep fit/gym, Swimming, Bowls

Figure 2.1: Dominant Market Segments in Craven

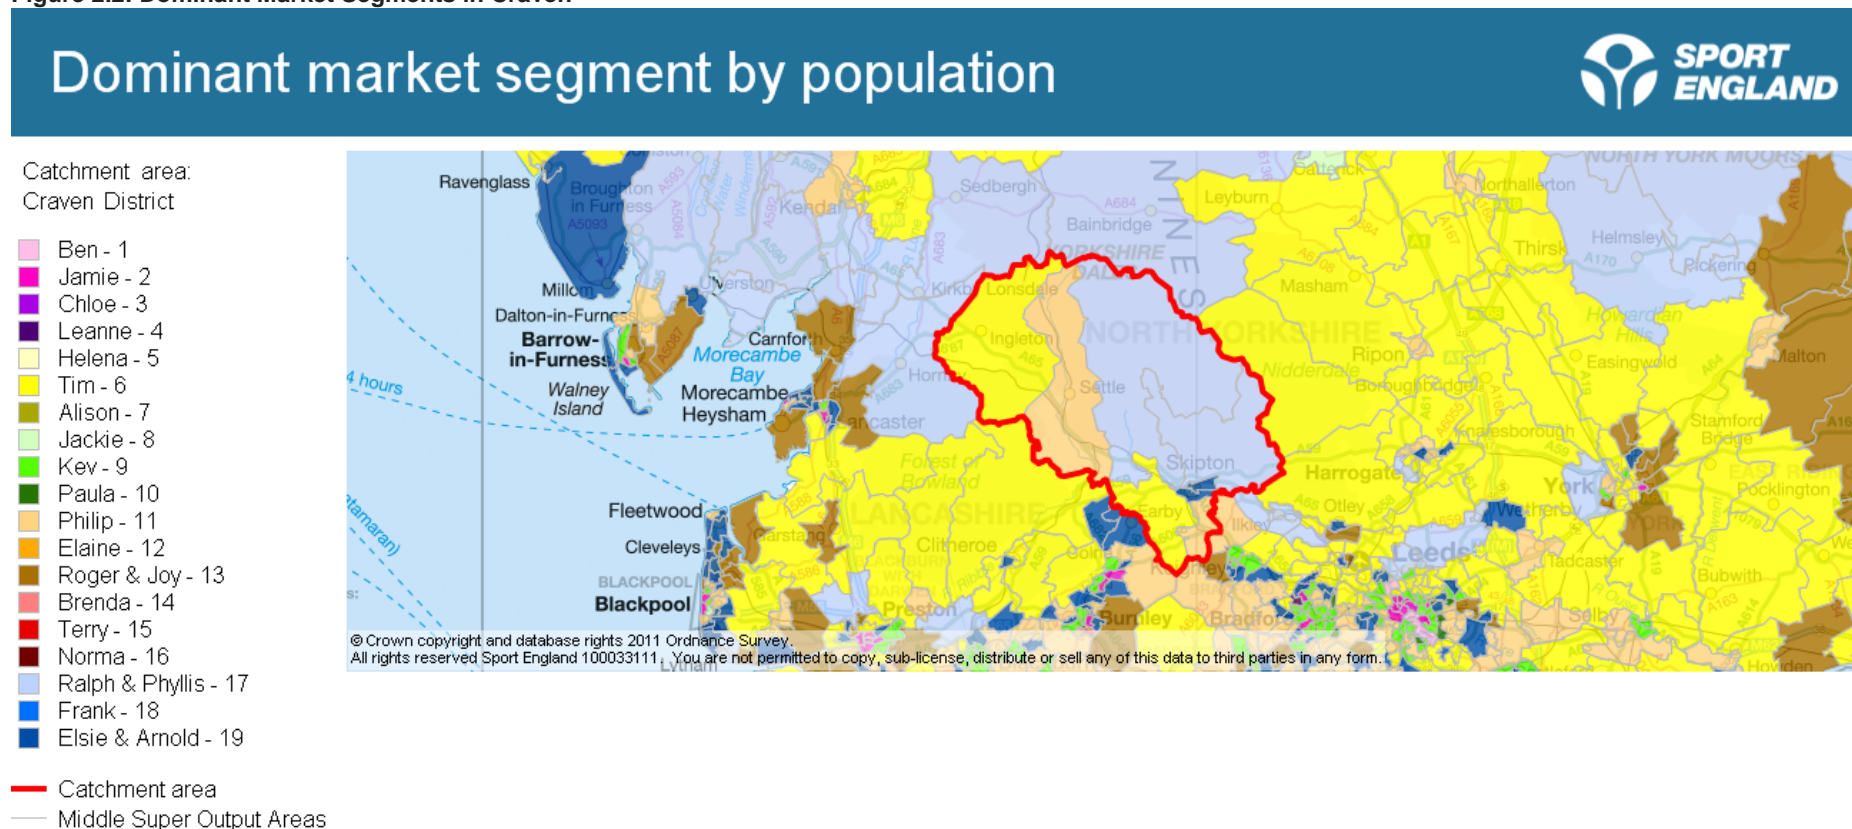

(Source: Sport England October 2015)

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- 2.79 The implications of the above analysis are that there is need to ensure provision of quality facilities for cycling, keep fit/gym, swimming and football with opportunities to participate in bowls, golf and running.
- 2.80 The distribution of the dominant market segments are shown on the map below. Ralph and Phyllis dominate in the east of the District, Philip in the middle and Tim in the North and South of the District.

Figure 2.2: Dominant Market Segments in Craven

(Source: Sport England October 2015)

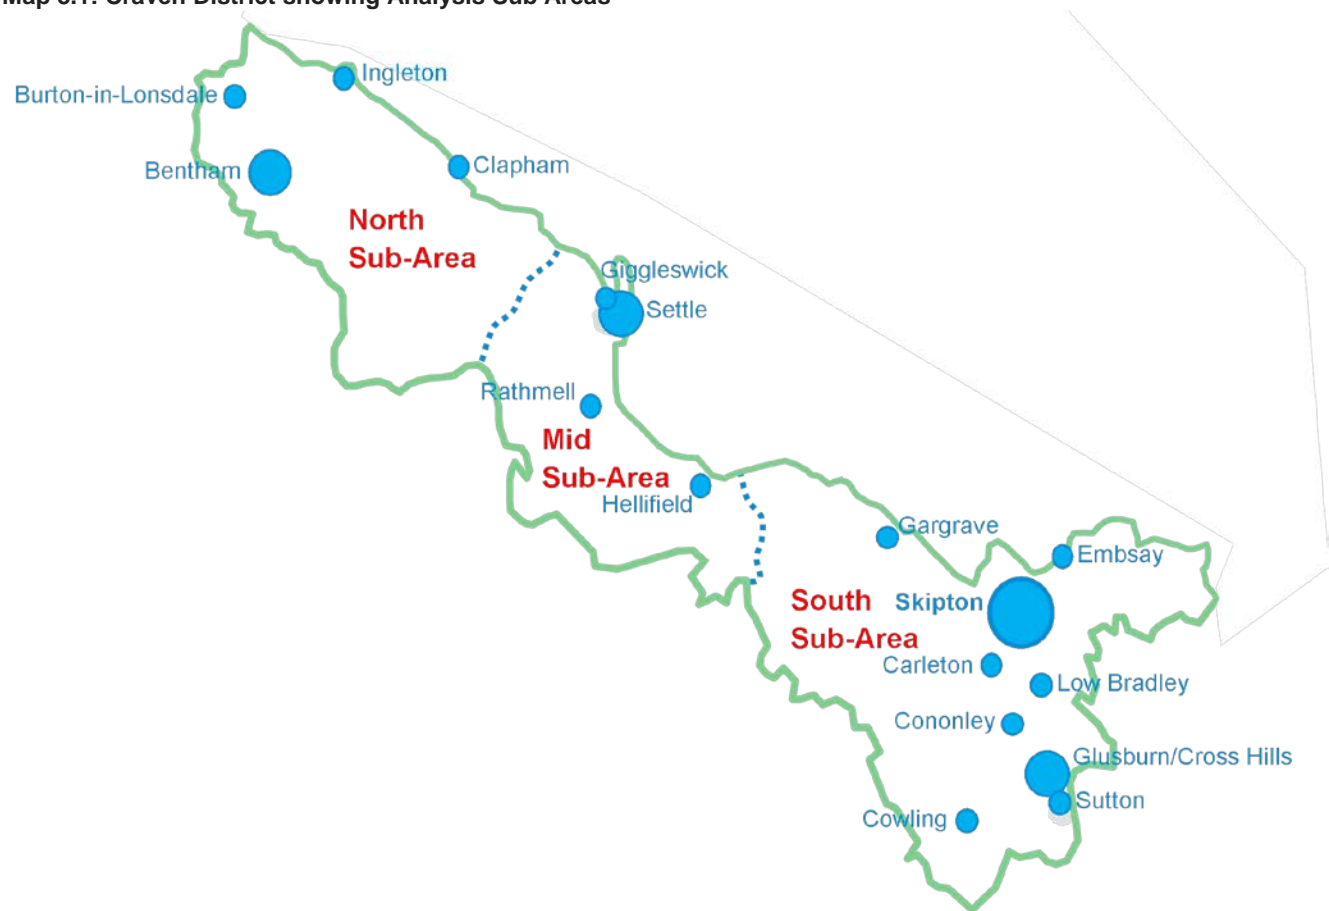

- 2.81 Further analysis of each of the dominant segments by population shows that Philips are evenly spread across the District, Elaine's live more on the eastern side, Roger and Joy to the west and north and Elsie and Arnold the north and south.
- 2.82 Accessible opportunities to participate in sport and physical activity are an important factor in planning for future provision.

3. EXISTING FACILITY PROVISION

INTRODUCTION

- 3.1. The current level and nature of facility provision in Craven, has been assessed overall on the basis of the three sub areas as shown on Map 3.1 below. Map 3.1 also illustrates the main towns and smaller settlements in these sub areas.

Map 3.1: Craven District showing Analysis Sub Areas

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3.2. There are three other main facilities in the District:

- **Sandylands Sports Centre – managed by Sandylands Community Trust**
- **Settle Swimming Pool – managed by Settle Community Trust**
- **Craven Swimming Pool and Fitness Centre - managed by Craven District Council**

SUPPLY OF SPORT AND RECREATIONAL FACILITIES IN CRAVEN

3.3. The following summarises the existing indoor sports facilities across Craven:

Table 3.2: Existing Indoor Sports Facilities – Craven

FACILITIES	CRAVEN
Health & Fitness Suite	17
Sports Hall	15
Squash Courts	8
Swimming Pool	5
TOTAL	45

N.B Outdoor facilities are covered in the 2015 Craven Playing Pitch Strategy

- 3.4. Based on the Active Places database, the Sport England Facility Planning Model (FPM), the local sports profile data (Sport England), and the audit undertaken to inform this Strategy, the maps used in the following facility assessments show the extent of existing sport and leisure built facility provision in Craven.
- 3.5. Active Places allows sports facilities in an area to be identified. Nationally, it contains information regarding 50,000 facilities, across eleven facility types.
- 3.6. Users of sport and recreation facilities do not recognise administrative boundaries and will use facilities that are convenient and/or provide a quality/value for money experience. Ownership and management are, in this context, a minor consideration for most users.
- 3.7. The availability of facilities in neighbouring areas can and does influence sports facility usage patterns; however, in Craven, usage patterns are more affected by accessibility, given the rurality of the area, levels of car ownership (72.5% of the population have access to private transport), and limited public transport.

CATCHMENT AREAS

- 3.8. Catchment areas for different types of provision provide a means of identifying areas currently not served by existing indoor sports facilities. It is however, recognised that catchment areas vary from person to person, day to day, hour to hour, and are also very different in rural and urban areas. This problem is overcome by accepting the concept of 'effective catchment', defined as the distance travelled by around 75-80% of users. The Maps in Section 3 demonstrate catchment areas for facility provision in Craven, based on this approach.

PUBLIC TRANSPORT

- 3.9. Car ownership in Craven is above the national average with 72.5% owning one car compared with nearly 44% in England, despite relatively low incomes. Villages in the district are dispersed, and public transport services inadequate in many locations, thus leading to people needing to travel. Relatively poor public transport (compared with more urban areas) and a limited walking and cycling infrastructure etc., makes the option of owning a private car more attractive.

(Source: Craven Local Plan 2015).

- 3.10. 27.5% of the Craven population do not have access to private transport (Source: Craven Local Plan 2015). It is not always easy (or indeed possible in some cases) to use public transport to get to and from some sport and recreation facilities.
- 3.11. In light of aspirations to reduce private car journeys, improved links with the public transport network could improve access to sport and recreation facilities. Establishing or improving links with existing or proposed public transport networks should therefore be a key consideration in development of new sports facilities in Craven. It is however recognised that in rural areas this can present more of a challenge than in more urban communities.
- 3.12. This approach is clearly supported in Local Plan policy, which positively supports the development of additional opportunities for walking and cycling (within existing communities and those that will be developed), both on an informal basis, for example, new routes connecting to existing networks, and as a means of accessing community facilities, and thereby reducing the number of car journeys and contributing to Craven's health and wellbeing agenda.

ASSESSMENT OF EXISTING SPORTS FACILITY PROVISION IN CRAVEN

- 3.13. Given the range of facilities in Craven, each type is summarised below and assessed separately, to provide a more detailed picture of the current supply and demand, and critically future need.
- 3.14. The facility types assessed are:

- **Sports Halls**
- **Health and Fitness Facilities**
- **Swimming Pools**
- **Squash Courts**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.15. The quality assessment of the CDC facility, managed by CDC is summarised in Table 3.3; this is also be referenced in subsequent sections as it clearly impacts on swimming pools, health and fitness facilities etc. A quality audit was also undertaken on the other two main sports facilities in the District. Site visits were also made to the key school sports facilities.
- 3.16. The quality audits comprise an independent visual assessment of the quality and condition of the facilities; results are recorded on the ANOG assessment sheet, developed by Sport England. Details of the audits undertaken are included in Appendix 8a-8c.
- 3.17. The audit scores are based on a numerical value, detailed on each assessment sheet, as follows:

Table 3.3: Audit Scoring System

KEY	RATING
>80%	Excellent
60% - 80%	Good
40% - 59%	Average
20%-39%	Poor
<20%	Very Poor

- 3.18. A facility scoring highly in terms of visual quality and condition is likely to require less investment than one which in a poorer visual condition. The combination of the scores results in the facility rating, and identification of investment need (significant, moderate etc).

Table 3.4: Summary of CDC Facility and other Main Facilities in Craven District – Quality Audits

FACILITY	QUANTITATIVE AUDIT SCORE	QUALITATIVE AUDIT SCORE	NEED FOR INVESTMENT
CRAVEN SWIMMING POOL AND FITNESS CENTRE	98%	Excellent	Minimal; opportunities exist for extension/expansion if required Need for investment in order to maintain the current high quality service
OTHER MAIN SPORTS FACILITIES			
SETTLE SWIMMING POOL	61%	Good	Moderate
SANDYLANDS SPORTS CENTRE	58%	Average	Significant

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

SPORTS HALLS

EXISTING PROVISION - SUPPLY

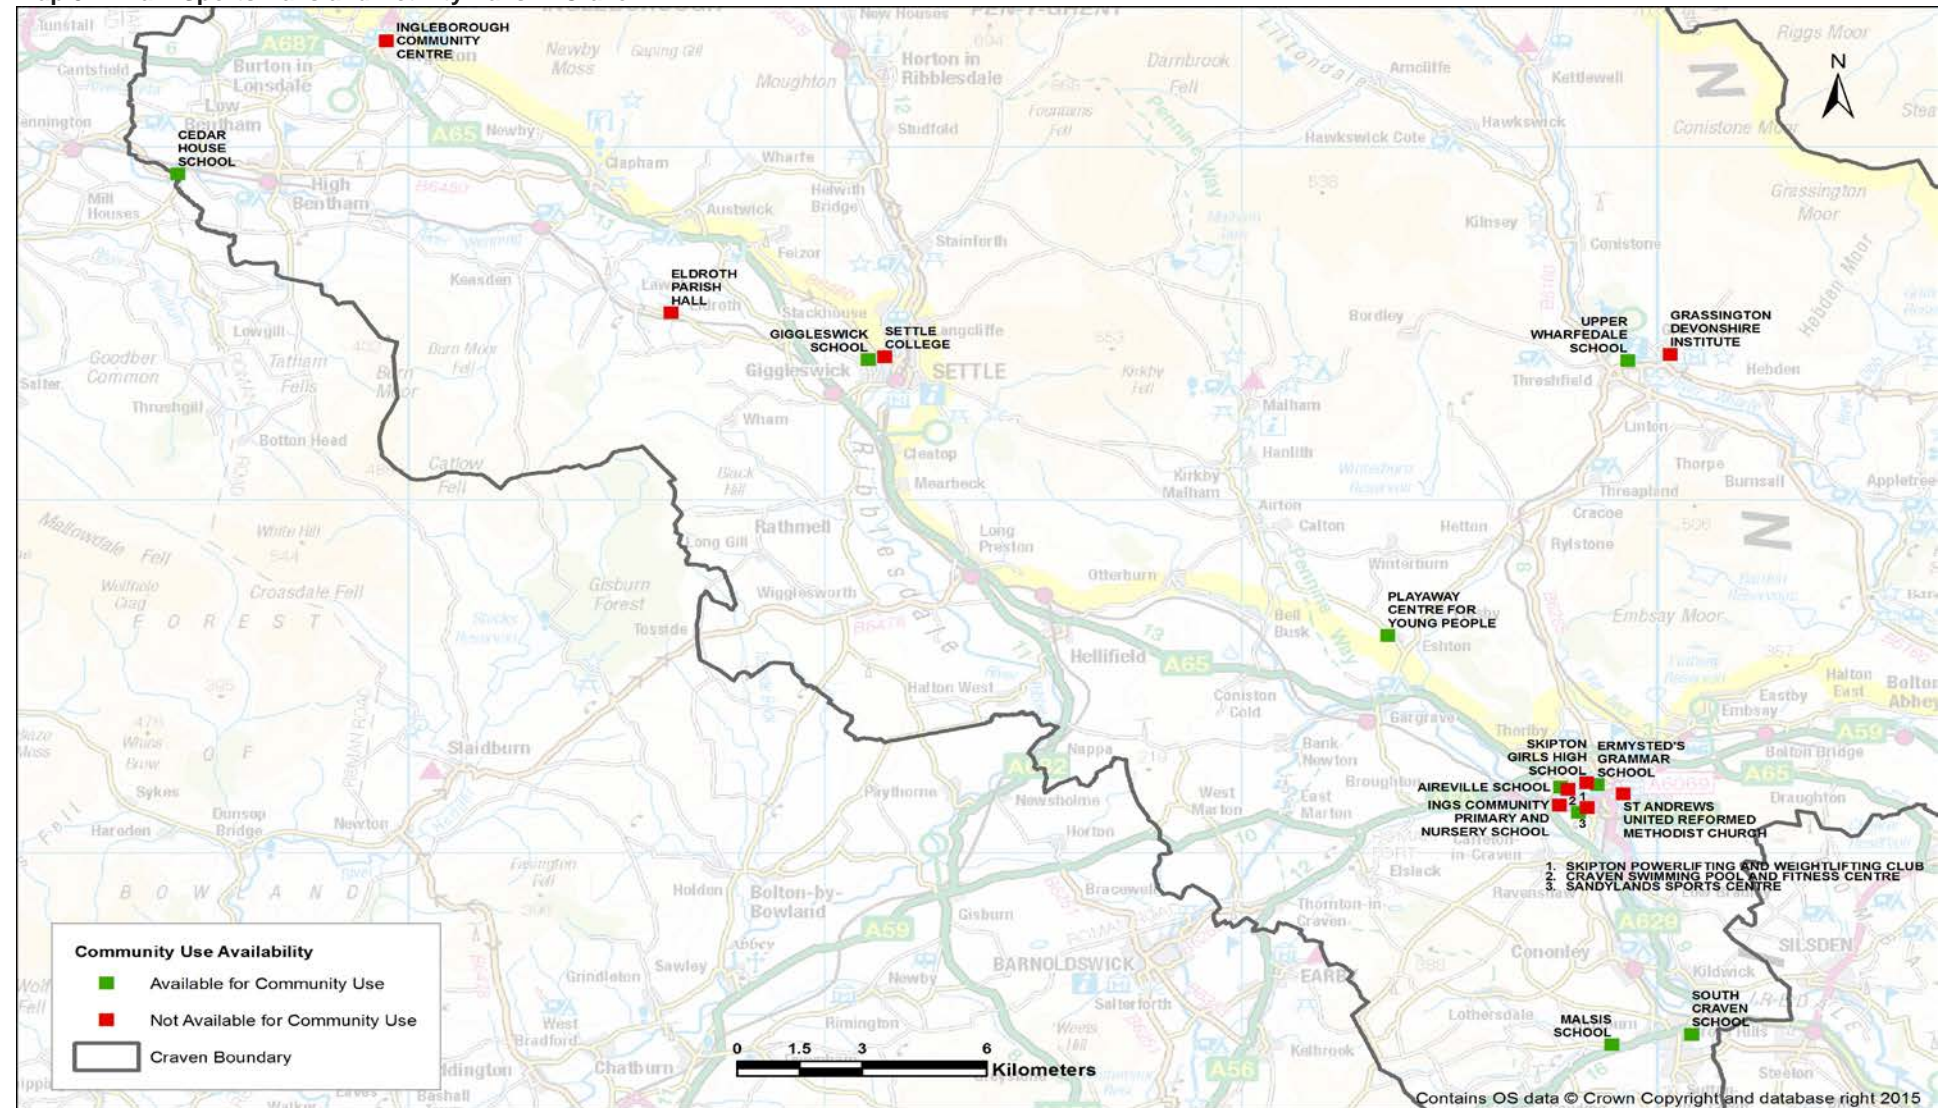

- 3.19. Indoor multi-sports halls are defined as areas where a range of sport and recreational activities are carried out. They are at least 10m x 18m (e.g., the size of one badminton court including surrounding safety area) and include specifically designed venues such as leisure centres and school sports halls. The definition also applies to halls where activities can take place, such as school assembly halls, community buildings and community centres (the main ones are included in the table below). Specialist centres, e.g. dance centres, are not included.

SPORTS HALL SUPPLY IN CRAVEN

- 3.20. The supply analysis identifies that Craven has a total of 15 halls (sports halls/activity halls) across 9 sites (Craven Facility Planning Model Report and Active Places, September 2015). However, as highlighted in Table 3.5, there are only 10 sports halls across 9 sites. All of these facilities are community accessible.
- 3.21. Map 3.2 shows all the sports halls and main activity halls in Craven and their location. Sports halls are primarily located on education sites and at Sandylands Sports Centre, Skipton.

TOTAL ACTIVITY HALLS		27		

N.B The above shows facilities in the whole of Craven; the analysis takes into account that this Strategy only covers the facilities in the area outside the YDNP.

- 3.23. Given that the scope of this Strategy is the Craven district outside the YDNP, the actual number of badminton courts considered is 32 (Upper Wharfedale High School, (5 courts) is in the YDNP). This means the actual number of accessible badminton courts reduces to 25.9, and the number of community accessible sports halls to 9.
- 3.24. Table 3.5 highlights that there are no sports halls larger than 4 badminton court size in the District. All of the sports halls except two (Sandylands Sports Centre and Playaway Centre for Young People) are on education sites; all sports halls provide access for /community associations/sports club use.
- 3.25. There are only two sports halls in the District which are accessible for daytime use (Sandylands Sports Centre and Playaway Centre for Young People); this may result in accessibility challenges particularly for older people who are unable to get out in the evening, or whom are reliant on public transport. The sports halls with daytime access are in the south and middle of the District; there is no daytime access to sports halls in the north of Craven. CDC does not operate any sports halls in the District.
- 3.26. All school sports halls identified in Table 3.5 have community access. The issue is that only four of the seven schools are community schools; excluding Upper Wharfedale School because it is out of the assessment area, reduces this to three community schools:
- **Skipton Academy, Skipton**
 - **Ermysted's grammar School for Boys, Skipton**
 - **South Craven High School, Cross Hills**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3.27. Three Independent Schools also provide sports halls available for community access:

- **Malsis School, Glusburn but school closed in 2014**
- **Giggleswick School, Settle**
- **Cedar House School, Bentham**

3.28. All schools in Craven were contacted as part of the development of this Strategy. The responses from those with sports facilities are particularly important for future provision.

3.29. Consultation with the schools identified the following information about their programmes and community access.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

SCHOOL/COLLEGE CONTACT	WHAT SPORTS FACILITIES DO YOU HAVE ON YOUR SITE?	ARE YOUR SPORTS FACILITIES USED BY THE COMMUNITY OUTSIDE OF THE SCHOOL DAY AND TERM TIME?		DO YOU HAVE ANY PLANS TO DEVELOP NEW OR MAKE IMPROVEMENTS TO EXISTING SPORTS FACILITIES IN THE FUTURE?
	Small pool – not available for community use Fitness Suite – approx. 17 stations All weather floodlit pitch Grass pitches – rugby and football 9 tennis courts (3 hard and 6 grass) Mountain Bike Trail Also manage Settle Golf Course			
MALSIS SCHOOL INDEPENDENT SCHOOL SCHOOL PERMANENTLY CLOSED AS FROM DEC 2014	Small pool 4 court sports hall 2 cricket pitches with pavilions ¾ size sand dressed all weather pitch 2 rugby pitches Sufficient land to provide more mini soccer pitches	No the site is now closed to all public and community use		Various options under discussion.

3.30. Analysis of the above information highlights the following:

- **There is quite limited availability of the sports halls/gymnasiums during the week and weekends for community use.**
- **The use of these facilities is predominantly by block bookings, as opposed to pay and play usage; based on school feedback, only two facilities seem to offer 'true' pay and play access.**
- **Table 4.7 highlights the nature of the use of the existing school sports facilities, and that this comprises a wide range of sports. It also emphasises that the majority of usage at the school facilities is by clubs and organised groups, as opposed to pay and play.**
- **Whilst it appears that there may be some potential to increase hours of community access at the facilities on school sites, in reality this may not be possible, and would be the decision of the schools. Ermsysted's Grammar Boys' School is the only school to highlight that they would like to increase their operational hours.**
- **Some of the schools e.g. Giggleswick have formal community use agreements, as a result of either a negotiated arrangement, or as a result of a planning condition. The schools without formal community use agreements could decide to withdraw access to sports facilities at anytime, which has occurred in the recent past.**
- **It is clear that there is extensive usage of Sandylands Sports centre by Craven College (predominantly the all weather pitch), and also Skipton Girls' School.**

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

3.31. Detailed quality assessments have been undertaken on all CDC facilities. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4 above.

3.32. Two of the sports hall facilities in Craven have been refurbished within the last 11 years (South Craven School 2007, and Sandylands Sports Centre in 2009). However, given that the two facilities were built between fifty-six and forty four years ago (South Craven School 1960, Sandylands Sports Centre 1972), there is a need to plan for their replacement in the medium to long term. The buildings are ageing, and the quality of their environment is deteriorating. If these facilities were re-provided today, their design, layout, circulation space, and appearance would be very different; they would also have the added benefit of modern technology in terms of heating and light, which can significantly reduce utility costs.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.33. Of the other 9 community accessible sports halls (3 courts+), one was built 62 years ago (1954 Skipton Academy). Only 1 community accessible sports halls have been built in the last 10 years – Giggleswick 2007.
- 3.34. The quality of the existing facilities is therefore variable, despite refurbishments undertaken in the last 11 years. Whilst two of the pay and play facilities have been refurbished to modern standards, most of the community accessible facilities on education sites are older and have not been refurbished to date. Although the sports hall at Giggleswick is relatively new build, investment will be required to upgrade/refurbish other existing sports halls in the next few years, given their age, current condition and quality.

EXISTING SUPPLY - ACCESSIBILITY

- 3.35. Geographical distribution of sports hall provision is based around the more urban areas of Craven (See Map 3.3). All sub areas have access to an existing 4 badminton court sports hall.
- 3.36. Whilst the facilities in the urban areas are within walking distance of a large number of residents in those towns, walking catchment areas alone are not an appropriate means of determining accessibility for those in more rural areas. The rural roads are not particularly safe for either walking or cycling, so use of private transport tends to be the norm to access leisure facilities.
- 3.37. As illustrated in Map 3.3, the majority of Craven falls within the identified catchment areas for the existing community accessible sports hall facilities. The area outside the 20 minute catchment area is predominantly the YDNP. The YDNP area is served by Upper Wharfedale High School sports facilities.
- 3.38. The areas of Craven outside the identified catchment areas are to the west of the district, where access to facilities in Ribbles Valley and Lancaster is available, assuming residents have transport.
- 3.39. The main issue for accessibility of sports halls in Craven is the fact that 7 out of the 9 available sports halls (minimum 3 badminton court size) are on school sites. Even if the schools have formal community use arrangements in place, this does mean that there is only limited access available during the day; such as weekends only.
- 3.40. Sandylands Sports Centre has a four badminton court sports hall; this is an ageing facility, very heavily used during the day by Skipton Girls' School, and also Craven College, at other times it is very heavily used for football. This is not the case as it has always been heavily used by footy and this has not increased due to the 3G pitch carpet.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.3: Sports Halls in Craven – Service Areas

Sports Hall facilities service areas in Craven with community access (up to 20 minutes drive time)

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.41. The challenge in Craven is that whilst around 31% of the community live in the largest settlement of Skipton, which is where the majority of sports hall provision is located, 69% of the population live in other market towns and small settlements., This is where the provision of local and informal activity halls, or sports halls on education sites becomes even more important, as this type of facility increases the level of local provision available for local people. Given the planned population increases in and around the main market towns, it will be important to ensure there is adequate provision of, and access to, sports hall and other leisure facilities in the urban centres, as well as the rural areas.

3.42. A summary of the three sub areas and their existing sports hall provision is set out below:

- **South Sub Area - South Craven Academy, Cross Hills**, provides good range of indoor and outdoor facilities, and is planning to improve 3G and Facility at south of district close to Keighley in the neighbouring authority of Bradford.
- **Skipton** - 3 schools plus 1 college in the town, where there are suitable facilities all offering community use. All but one school books external facilities at Sandylands as they cannot cater for their curriculum needs on site. There appears to be a shortfall of indoor facilities and quality outdoor pitch space for education use during curriculum time which then impacts on the availability of facilities for daytime community access. Appears to be competition during curriculum time for space at Sandylands; the revenue provided by education daytime use also needs to be considered, as it is important for the operation of Sandylands Sports Centre.
- **Mid Sub Area - Settle** - lack of suitable facilities indoor and outdoor; access not always possible at Giggleswick School for other education use. Minimum of 30min travel time to other facilities at Skipton or Kirby Lonsdale in neighbouring authority
- **North Sub Area** – very limited provision ie Cedar House School
- **YDNP (out of study area)** Upper Wharfedale School - good facilities: sports hall, pool and pitches serving relatively small school and very rural area. Facilities have capacity for more community use. There has been investment in recent years.

3.43. **Village Halls/Community Halls** there are a number of rural villages with small halls; some already cater for short mat bowls, fitness classes, badminton, table tennis, martial arts or have the potential to do so. Such halls can be limited in what they are able to offer due to a lack of space.

3.44. All schools and colleges offer their sports hall facilities for community use although the nature, extent and practical arrangements surrounding this and 'usefulness' of said facility use varies considerably. This matters in terms of both future accessibility and participation. Those education facilities with a formal community use arrangement provide community access and use based on this formal agreement e.g. times and types of use; education facilities which are not subject to a formal community use arrangement may withdraw community access at any time.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.45. The newest and most recently refurbished sports halls have been developed on education sites as a result of investment in education provision; these sites tend to have at least a form of formal community usage agreed, even if it is use by community sports clubs and associations. However, schools with Academy status tend not to have formal community use arrangements, even if they allow their facilities to be used by the community.
- 3.46. Maintaining developing increased community access to education-based sports facilities is important to ensure locally available access and facilitating increased participation in sport and physical activity for health benefits.

SUPPLY AND DEMAND ANALYSIS

SPORT ENGLAND'S FACILITIES PLANNING MODEL

- 3.47. Strategic Leisure was provided with Sport England's Facilities Planning Model National Run (September 2015 report, based on January 2015 data) for sports hall provision in Craven.

CRAVEN

- 3.48. The report sets out an assessment of the current situation regarding sports hall supply, based on 2015 population (55,574). The key findings are summarised below. The full report can be accessed at Appendix 2.

SUPPLY

- 3.49. The Sport England Facilities Planning Model analysis for Craven identifies 15 sports halls (including 1 court activity halls on the same site as sports halls) across 9 sites in the District, with a total supply equivalent to 63.6 marked out courts. However, when the availability of sports hall space during the peak period is calculated, the number of courts actually available reduces significantly to 30.39 (This may not specifically relate to the number of courts available but reflects the space available in each hall and what this equates to in equivalent court space). This hall space provides a capacity for approximately 5,647 visits per week during the peak period (vpwpp).
- 3.50. The halls modelled are those identified as being accessible to the community on a club hire basis (see Table 3.5), and take into account court availability.
- 3.51. There are 10 community accessible sports halls in the District (7 halls have 4 badminton courts, and 3 have 3 badminton courts); this is higher than its neighbouring rural local authority areas such as Richmondshire (5 halls on 4 sites), South Lakeland (14 halls on 11 sites), Ribbles Valley (8 halls on 7 sites). Craven's stock of halls is lower than its neighbouring more urban local authority areas: Harrogate (18 halls on 13 sites), and Bradford (53 halls on 34 sites); while it has more than Lancaster, (13 halls on 9 sites) and Pendle (8 halls on 8 sites).

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.52. Craven's total supply of sports halls at peak periods equates to 11 courts per 10,000 population. This is a higher level of supply than both the regional and national averages (5 and 4 respectively), and is, on average, double the supply available in all comparator local authority areas, including Bradford and Harrogate (5 and 4 respectively).
- 3.53. Excluding the YDNP area, there are 9 sports halls in the District, with 25.39 courts available for community access. Excluding Upper Wharfedale School from the assessment reduces the overall capacity of the existing sports halls by approximately 1,202 vpwpp. The analysis excluding Upper Wharfedale School is shown in brackets (where it is possible to calculate).

CURRENT DEMAND

- 3.54. The Sport England Facilities Planning Model analysis identifies that the 2015 population (55,574) generates a demand for 16.06 courts and 3,507 (2305) visits per week during peak periods (this is based on a comfort factor of 80%: above 80% usage a sports hall is too full to be used). Clearly, with current community accessible provision at 30.39 (25) courts, and capacity for 8,298 vpwpp there is an over-supply of sports halls in the District of around 14.33 (9.33) courts. N.B This is calculated by taking the current supply of courts available for community use i.e. 30.39 (25.39) away from the actual number that are required i.e.16.06.
- 3.55. Currently, 92% of all demand for sports hall provision is met in the District; this is a higher figure than both the regional (91%) and England average (89.7%). 43.4% of all available capacity in the existing and available community accessible provision is used during peak periods, compared with the regional average of 69%, and the England average of 72%.
- 3.56. 88.6% (2,858 vpwpp) of all demand is retained in the District. It is likely that the figures are relatively high due to the rurality of the area, and the distances to other facilities outside the District.
- 3.57. Some use of Craven's existing sports halls is a result of people living outside the district using the facilities. This is called 'net import' and equates to 747 vpwpp (20.7% of used capacity).
- 3.58. The percentage of demand satisfied by car users (83.9%) is much higher than the national average (75.3%) and the Yorkshire average (73.2%), reflecting the rural nature of the district. 84% of all visits to sports halls in the District are made by car.
- 3.59. 16.4% of Craven residents do not have access to a car; this figure means that some residents may not be able to access this type of provision, either in the District, or in neighbouring authorities.
- 3.60. 8% of demand is unmet by the current provision of community accessible sports halls. This is a low figure, equating to 280 vpwpp, or 0.3 courts. Given the need to increase activity levels significantly in the District to address health inequalities, the availability of court capacity is a real opportunity.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3.61. It is thought that this demand is unmet predominantly because people live outside the catchment area of an existing sports hall (8% (280 vpwpp)). Areas of unmet demand are mostly in the YDNP where there is only the one community accessible sports hall at Upper Wharefdale which has only capacity of 1,202 vpwpp.

3.62. Table 3.9 summarises the analysis described in paragraphs 3.54 – 3.62.

Table 3.9: Summary of 2015 Supply and Demand Analysis

2015 DEMAND FOR COURTS	2015 SUPPLY OF COURTS	SURPLUS (+)/ DEFICIENCY (-) OF COURTS	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) DEMANDED BY CURRENT POPULATION	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) SATISFIED	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) UNSATISFIED	DEMAND MET IN THE DISTRICT	DEMAND UNMET IN THE DISTRICT
16.06	30.39 (25.33)	+14.33 (9.33)	3,507	3,227	280	92%	8%

3.63. The existing sports hall stock is sufficient to meet current demand; however, given existing facilities are ageing, and over time quality will further deteriorate, there is potential to review the nature of district-wide sports hall provision in the future, and replace existing sports halls with newer stock.

3.64. The highest level of unmet demand for sports hall provision is in and around the YDNP.

3.65. Based on current demand, there is sufficient sports hall provision in the District. The increase in population (6,243) from 5,120 new homes by 2032 will increase demand for sports halls. Although there is currently capacity in most sports halls in the District, two are operating above the Sport England recommended comfort level; Sandylands Sports centre is operating at 80%, and Cedar House School at 73% (this facility has very limited opening hours for the community). South Craven School is operating at only 56% of capacity, which suggests there is opportunity to increase usage. Malsis School sports hall built in 1965 operated at only 20% of its available capacity when it was open.

FUTURE DEMAND

3.66. The Sport England FPM analysis undertaken does not identify future demand. The overall population of Craven will increase to 58,000; the population of the study area will increase from 47,074 to 53,317, an increase of 6,243 people).

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.67. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on this population increase.
- 3.68. Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. That needs to be informed by the nature and location of future housing development, local geography and accessibility, and critically the location of existing facilities.
- 3.69. This is because future demand may have the potential to be address through facility extension, or refurbishment, as well as new build.
- 3.70. Future demand will also need to reflect the current supply and demand analysis. Clearly if there is under-supply of a specific facility type now, the level of undersupply is going to increase by 2031, given population growth and increased levels of participation.
- 3.71. The SFC for Craven identifies the following future facility demand (Table 3.10), based on a population increase of 2,000 by 2032.

Table 3.10: Future Facility Demand (2032) – Craven

FACILITY TYPE	UNIT	FACILITY	ADDITIONAL VPWPP
SPORTS HALL	1.80 Badminton Courts	0.45 4 Badminton Court Sports Halls	994

- 3.72. Using the SFC, the future demand for sports halls and badminton courts generated by 2000 additional residents in the Districts is 0.45 sports halls, equivalent to 1.80 courts.
- 3.73. Taking the existing over supply of provision into account (+14.33/+9.33)), by 2032, if no other sports halls are built, nor additional hours are accessed in the existing provision, both current and future demand can be met by the existing stock of sports halls. The real issue is the quality of this provision, as the majority of existing facilities are ageing.

CONSULTATION

- 3.74. Consultation with relevant National Governing Bodies (NGBs), and local clubs, highlights local factors in relation to supply and demand for sports halls in the future.

SPORT AND LEISURE FACILITIES STRATEGY
 CRAVEN DISTRICT COUNCIL

Table 3.11: Summary of National Governing Body Consultation – Sports Hall Sports

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
BADMINTON ENGLAND	<p>Young People 13-26 years</p> <p>Casual Market</p> <p>Club engagement</p> <p>Badminton as a whole aims to improve the profile of the sport.</p>	<p>Craven District is not identified in our National Facilities Strategy 2012-16 as a priority area for the development of additional court capacity.</p>
ENGLAND BASKETBALL	<p>Focus Satellite Clubs, school and club competitions – national perspective.</p> <p>AP9 – shows that basketball participation has increased even though Sport England funding was cut from Basketball England in 2014 due to them not hitting their previous Active People targets.</p> <p>The AP9 increase could be legacy of Ball Again and IM basketball programmes that Basketball England previously promoted.</p> <p>Mixed economy model now being used through alternative organisations to deliver basketball that are receiving Sport England funding e.g. British Basketball Foundation, Reach and Teach. Basketball England still received some funding from Sport England for Satellite clubs programme, which is one of the most successful Satellite programmes amongst NGBs, and is currently working on a higher education specific satellite clubs model.</p> <p>Urban conurbations have the greatest potential and therefore are the main focus for Basketball England</p>	<p>Formal basketball activity in the area is limited to 1 basketball club, West Craven Turbines. They are affiliated with us and run junior and senior teams/sessions out of the 2 college sports halls in the area. They have 20+ affiliated members</p>
LAWN TENNIS ASSOCIATION (LTA)		<p>Working through priority cities of: Sheffield. Leeds, Bradford, Hull.</p> <p>Next phase York, Wakefield</p>

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
		<p>Craven not a priority.</p> <p>Looking to develop and retain local authority parks facilities.</p> <p>Will support local clubs if they come forward with requests but would signpost them mainly through Yorkshire Sport CSP.</p>
<p>ENGLAND NETBALL</p>	<p>Within the last year netball has seen an increase in participation rates. There are now more than 150,000 netballers across the country who are playing the sport for at least half an hour every week.</p> <p>‘Back to Netball’ for women over 16 provides coached sessions.</p>	<p>Craven is not a priority area</p> <p>The workforce in North Yorkshire consists of the following posts:</p> <ul style="list-style-type: none"> • Netball Development Officer (14 hours per week) • Performance Pathway coach (1 per Sport England region) <p>National picture: Plans are in place to develop a National Facilities Strategy for netball during 2015.</p> <p>Facility Objectives and Outputs 13-17 (as set out in Your Game Your Way)</p> <p>Increase provision of, and access to, community level venues for netball through the development of partnerships with leisure trusts and NGB’s with an aligned ambition</p> <p>Development of a new network of caged netball arenas to support a new form of the game</p>

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
		<p>Increase the network of county and regional netball centres providing central venue 'Homes' for the sport</p> <p>Enhance provision at Intensive Netball Training Centres (INTC's) to ensure high quality netball environments for performance athletes</p>
TABLE TENNIS ENGLAND		<p>Currently no strategic facility plans for this area, but continue to support any clubs and leagues looking to develop multi table facilities.</p> <p>Not aware of any plans in the Craven area.</p>
VOLLEYBALL ENGLAND	<p>Go Spike – Adult participation programme (16+)</p> <p>Satellite Clubs – Children and young people (11-25)</p> <p>Further Education – Colleges and Sixth Forms (16-18)</p> <p>Club Development</p> <p>Sitting Volleyball – Disability offer (14+)</p> <p>Since 2013 nationally there has been lots of effort put in to develop new clubs.</p>	<p>No affiliated clubs, not a focus areas</p>

3.75. Consultation was undertaken at local level with local sports clubs, who were asked their views on the current facilities they use, whether they are likely to increase their membership in the future, and what the main issues are for them in terms of facilities in Craven.

3.76. A summary of feedback from sports clubs using sports hall facilities is set out below. Detailed feedback is included at Appendix 5..

SUMMARY OF SPORTS HALL SPORTS CLUB VIEWS'

- 3.77. A questionnaire was sent to identified indoor sports clubs in July 2015. There was an extremely poor response to this survey, therefore follow up telephone calls were made in September 2015. This also elicited a very poor response. All identified clubs were contacted again by email and telephone in October and November 2015.

Table 3.12: Summary of Sports Club Consultation – Sports Hall Sports

CLUB	FACILITY HIRED	RESPONSE
CRAVEN DRAGONS NETBALL CLUB	South Craven Academy 3.5 hours per week Sports hall Some use of outdoor courts in summer	Indoor sports hall facility rated as excellent. Changing rooms. Toilets etc. rated as basic but OK, club does not tend to use as it suits people to come and go in sports kit. Club membership in the region of 75 across juniors, cadets and seniors. Waiting list for cadets. Growth of club limited by capacity of 2 x volunteer coaches having time to deliver more sessions. If the bubble over the outdoor courts was to go ahead would provide 2 adjacent courts and therefore be able to have more attendees within same time period. General comment from coach – Insufficient opportunities to keep girls interested and taking part in sport in Craven. Support needs to be in the form of funding to help set things up, marketing and recruiting and training volunteers
SKIP TON BADMINTON CLUB CRAVEN BADMINTON CLUB	Sandylands Sports Centre Skipton Club – 2 hrs x 4 courts , Adults Craven – 6 hrs x 4, Adults, Juniors and Disability sessions	Skipton Bad Club approx 30 members Craven Bad Club Approx 25 juniors mid week, 15 juniors Sat am, 12 disability group, ?adults Cleaning – on occasions would be helpful to have remedial cleaning prior to use of courts for badminton. Changing rooms and toilets not used – club does not tend to use as it suits people to come and go in sports kit.
SETTLE BADMINTON CLUB	Giggleswick School 3 hrs per week	Club has in the region of 20-25 members. Mainly adults; had juniors a couple of years ago who are now adult club members.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

CLUB	FACILITY HIRED	RESPONSE
		<p>Quality of sports hall excellent as built in the last 5 years and the only 4 court hall in the Settle area.</p> <p>Play socially and in the Craven local badminton league.</p>
LOW BENTHAM BADMINTON CLUB RESPONDENT)	<p>Cedar House School (independent school) 4 hours</p>	<p>10 junior, 15 adult members.</p> <p>Sports hall quality rated as very good, cleaning/maintenance rated as fairly good.</p> <p>Concerned if school was to close, due to lack of alternative facility in the area. Have a view that when new school was built in Low Bentham by NYCC this should have included a community accessible sport shall.</p>
CRAVEN FENCING CLUB	<p>St Andrews Methodist Church Hall (Skipton)</p> <p>Sandylands and some village halls for private lessons</p> <p>5- 8 hours per week</p>	<p>30 under 18's , 10 adults</p> <p>Rate facilities as adequate to fairly good. Changing facilities was poor.</p> <p>Size of the hall too small at busy times. Club numbers have increased and in the longer term likely to need larger facility and would need support to help find a suitable venue.</p>
GRASSINGTON BADMINTON CLUB	<p>Upper Wharfedale School sports hall</p> <p>2 hours per week from Sept to May - Thurs nights</p>	<p>Overall good. Use up to 4 courts, and have access to toilets and changing facilities. The school cleaner and caretaker look after the hall. Take our own nets and shuttles. The sports hall has minor problems such as occasional leaks, and sometimes a slippery floor, or a bit of mud after junior football training but is generally good. Previously used the Town hall, which had a single court so good to have more space!</p> <p>Membership Approx. 12 adult players. Mainly age 50+. Stays about the same, new people join and then players are off with injuries etc. No youth members at present, we did have a 21 yr old for a couple of years but he has moved away.</p> <p>Next 3 years – Membership will stay about the same.</p>

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

CLUB	FACILITY HIRED	RESPONSE
		There was a junior club for a couple of years run by volunteers. It was for 12 - 16 yr old on a Friday night. This has now folded. Club members used to introduce their teenage children to the club but we are all too old to have teenagers now!

3.78. In summary, sports hall sports clubs based at Upper Wharfedale School sports facilities are happy with the facilities and you get a sense they are just grateful and appreciate having sports facilities in this part of the district (YDNP). It appears that the clubs are catering for older people in the main, and there probably needs be work to develop access and opportunities for young people.

3.79. South Craven Academy Sports facilities - the netball and badminton clubs highlight areas for improvement in the facility.

SUMMARY CONCLUSIONS – SPORTS HALLS

3.80. From the Sport England Facility Planning Model (FPM), which is only one element of the needs assessment, the simplistic analysis of supply versus demand in relation to sports halls within Craven has identified a current over supply of sports hall space within the local authority area (+14.33 (+9.33) courts), and future demand for an additional 1.80 courts. This assumes retention of all existing community accessible facilities.

3.81. On the basis of current and future demand to 2032, there is no need for additional badminton courts in the District, as future demand can be accommodated within the existing facility stock.

3.82. Current levels of satisfied demand are higher than national and regional levels at 92%, because there is available sports hall capacity to meet demand.

3.83. The largest sports halls are 4 court; there are no 6 or 8 court halls in the District; this means there is a lack of indoor competition venues for netball, basketball, and volleyball. However, given the rurality of the area, and the population scale, it is unlikely that a hall of this scale would be operationally viable (in the context of the current levels of use).

3.84. No Governing Bodies (NGBs) highlight the need, and demand, for additional indoor sports hall space in Craven. Clubs highlight qualitative issues with existing facilities, as opposed to a lack of provision. It is the education sector that identifies a lack of facilities, particularly in Skipton, because two education institutes have insufficient facilities to deliver their curriculums.

3.85. Given there are a significant number of sports halls on education sites, it may be possible to achieve some increased capacity within the existing sports hall stock, by negotiating improved and extended access to existing facilities on educational sites through formal community use agreements, and opening existing community facilities for longer.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.86. Schools play a key role in providing facilities for community access; it is key that all new sports halls on school sites provide secured community access to a minimum 4 court sports hall, through a formal agreement, which prioritises pay and play access, not simply sports clubs and groups.
- 3.87. The condition and quality of these facilities, despite various refurbishments, will need to be carefully monitored, to ensure that facility quality does not deteriorate. Despite the fact that there is an over supply of sports halls (badminton courts) in the District, planning should be undertaken for replacement facilities in the medium term (3-5 years), to ensure quality of provision does not deteriorate further.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

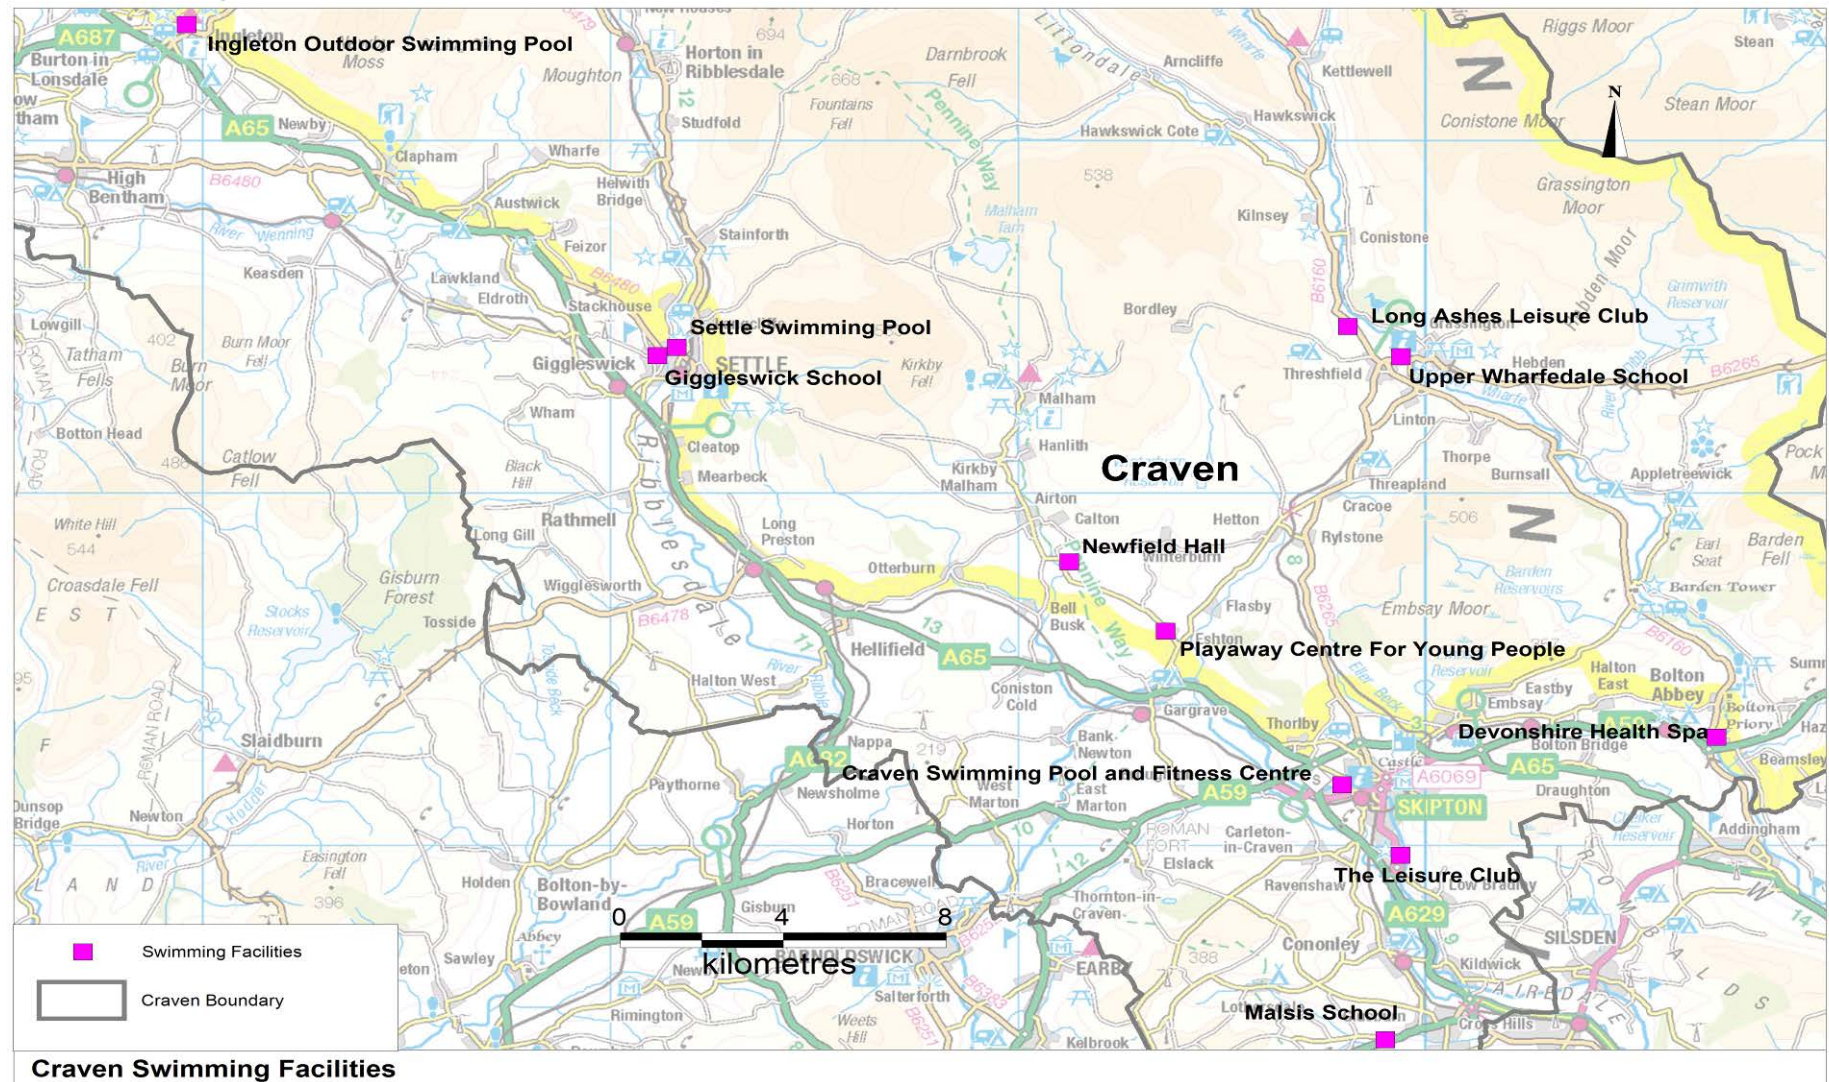

SWIMMING POOLS

SWIMMING POOL SUPPLY IN CRAVEN

- 3.88. Overall there are 7 main pools, 1 learner pool and 4 lidos in Craven; these are shown on Map 3.4.
- 3.89. The supply analysis identifies that Craven has a total of 5 community accessible swimming pools, across 4 sites (FPM September 2015 (Data January 2015), Active Places August 2015). Of these 5 pools, 4 are main pools, and 1 is a learner/teaching/training pool.
- 3.90. 3 sites, offer pay and play community access; Craven Swimming Pool and Fitness Centre managed by CDC has a 6 lane x 25m pool and a small learner pool. Settle Swimming Pool is 20m x 3 lanes and is managed by the Settle Community Trust. Upper Wharfedale School also has a 20m x 3 lane pool, which is managed by the school.
- 3.91. Giggleswick School also has a small pool 18m x 4 lane, but this is not available for community access, except on very rare occasions when it is hired out to a group. The pool has no poolside area and it is not considered safe to allow pay and play use.
- 3.92. There are also pools at the Devonshire Spa and the Long Ashes Leisure Club, but these require membership to use.
- 3.93. Malsis School has a pool, but this is now rarely used.
- 3.94. The lidos are located at The Newfield, the Playaway Centre, Ingleborough Community Centre, and the Leisure Club. These are predominantly seasonal facilities.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.4: Swimming Pools in Craven

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.95. Map 3.4 shows the swimming pools in Craven and their location. The analysis of the overall swimming pool supply in Craven, is as follows:

Table 3.13: Analysis of Swimming Pool Supply in Craven

TOTAL SWIMMING POOLS	8
TOTAL COMMUNITY ACCESSIBLE SWIMMING POOLS	4 (2 LOCAL AUTHORITY POOLS)
TOTAL MAIN POOLS	7 (1 LOCAL AUTHORITY POOL)
TOTAL LEARNER POOLS	1 (1 LOCAL AUTHORITY POOL)
NON COMMUNITY ACCESSIBLE POOLS	4

3.96. Table 3.13 highlights that half the swimming pools in Craven are available for community use. All CDC pools are available for community use at all times and are programmed accordingly, with a combination of lessons, casual and lane swimming, fun sessions, aqua fitness sessions, and club use. The only learner pool is at the Craven Swimming and Fitness Centre.

3.97. In addition to the CDC pools, Settle Swimming Pool and Upper Wharfedale School is available for community use.

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

3.98. Detailed quality assessments have been undertaken on the CDC facility and the two other community accessible pools in the District. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4 above.

3.99. The Craven Swimming and Fitness Centre was built in 2003. Settle Swimming Pool was built in 1975 and minor refurbishment in 2004. Upper Wharfedale School was built in 1972 and changing rooms refurbished in 2010. Giggleswick School pool was built in 1906 and refurbished in 2002.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.100. The quality of the existing swimming pool facilities is therefore variable.

3.101. Although an ageing facility, the Upper Wharfedale School pool is in good condition given its refurbishment six years ago. Settle Pool was refurbished twelve years ago; it is an ageing facility, and is showing this. Thought will need to be given to its further refurbishment/replacement (potentially funded through developer contributions (CIL/S106), given the scale of housing development in the area) in the medium to long term, given that public swimming facilities are typically designed with a life of 30-40 years. The quality of the future swimming offer is important to encourage increased physical activity, given that half of all community swimming is provided through the non-CDC pools. A more modern facility would also be more efficient and economic to operate.

EXISTING SUPPLY - ACCESSIBILITY

3.102. Swimming pool facilities are based in the more urban areas of Skipton and Settle, and the very rural YDNP.

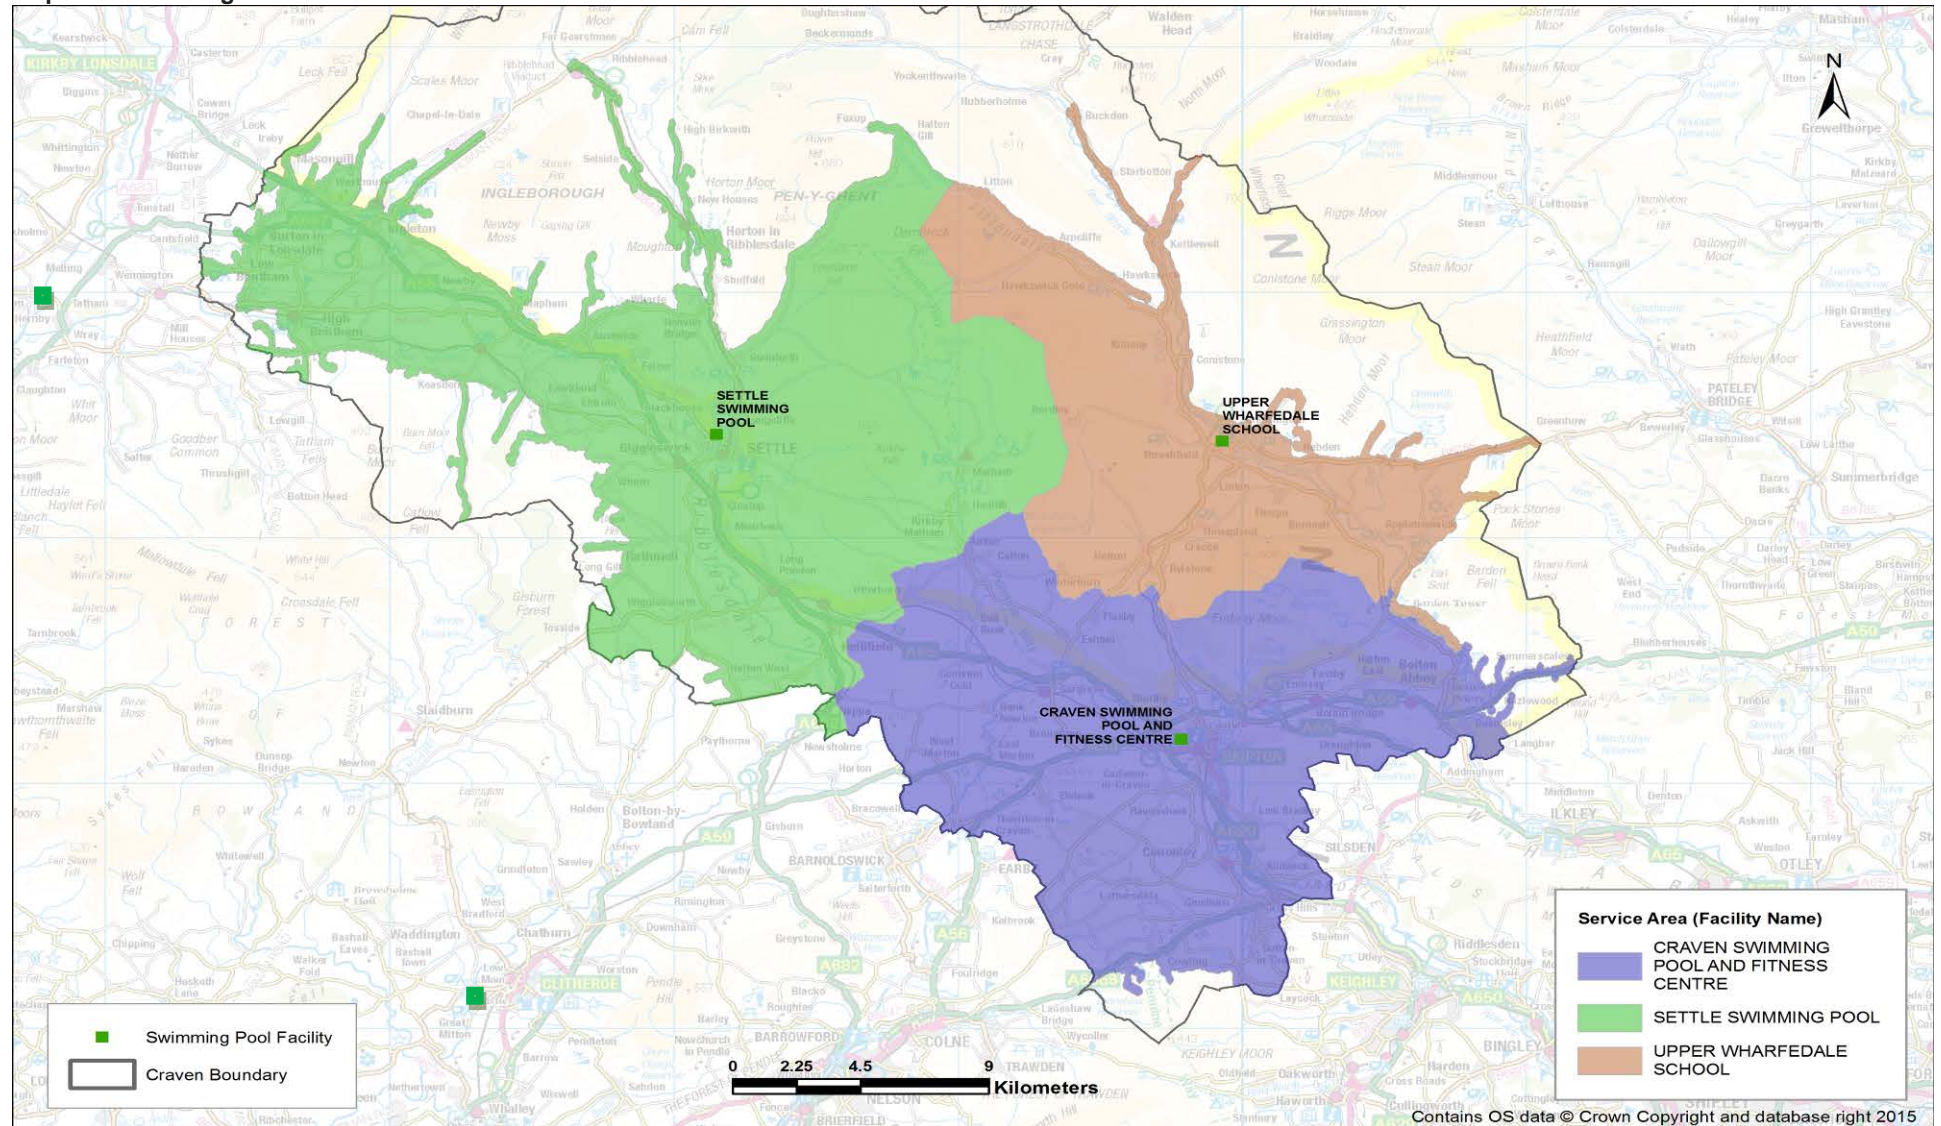

3.103. Map 3.5 below illustrates that the majority of residents are within 20 minutes drive time of a community accessible swimming pool; residents in Skipton have access to a 25m pool, whereas the other two main pools are 20m in length.

3.104. Residents in the north west of the District have very limited access to pool facilities in Ribble Valley or Lancaster. The nearest community accessible pools are between a 10-15 mile drive from Ingleton and 20 mile drive from Settle

3.105. A significant proportion of users travel by car to use the swimming facilities.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.5: Swimming Pools in Craven – Service Areas

SUPPLY AND DEMAND ANALYSIS

SPORT ENGLAND'S FACILITIES PLANNING MODEL

- 3.106. Strategic Leisure was provided with the Sport England's Facilities Planning Model National Run (September 2015; data from January 2015 report) for swimming pool provision in Craven. The report sets out an assessment of the current situation regarding swimming pool supply, based on 2015 population (55,574), and provision in the surrounding local authorities of Harrogate, Richmondshire, South Lakeland, Lancaster, Ribble Valley, Pendle, Bradford.. The key findings are summarised below. The full report can be accessed at Appendix 3.

SUPPLY

- 3.107. The Facilities Planning Model analysis identifies 5 pools across 4 sites in Craven. This is the same number of pools, though more sites than neighbouring LA areas of Richmondshire (5 pools on 2 sites) and Pendle (5 pools on 3 sites), but fewer than all other neighbouring LA areas apart from Ribble Valley (3 pools on 2 sites).
- 3.108. This supply of swimming pools in Craven provides a total water space of 16 sqm reduces to 9.22 from above note. per 10,000 population, which is higher than national and regional levels (both around 12 sqm.) as well as all other comparator local authority areas, particularly Bradford which has half this level of water space per 10,000 population.
- 3.109. However, in reality there are only 4 community accessible pools as Giggleswick School pool is not available for pay and play community use. This includes the Upper Wharfedale Pool, which really only serves the population of the YDNP.
- 3.110. The population of the YDNP area of Craven is 8,500 so bringing the study area population down to 47,074. The Upper Wharfedale pool at 160m2 should technically service YDNP population (well over 160 sq m per 10,000 population). With this pool and population outside the study area it means that Craven then has just 433.5 sq meters of water space to serve the 47,074 residents. This gives the study area just 9,22 sq m of water space per 10,000.
- 3.111. The boundary of the national park is just a few miles from both Settle and Skipton pools and residents living in the YDNP will use both of these pools, thus putting more demand on accessible pool space.
- 3.112. Where possible to calculate, the impact of removing Giggleswick Pool and Upper Wharfedale Pool from the FPM analysis is shown in brackets in the following paragraphs 3.113- 3.116).
- 3.113. The 5 (3) swimming pools have a capacity of 5,145 (3,847) visits per week in the peak period (vpwpp), based on the current supply of 894 (554) square metres (sqm) of water space, if it is assumed that all pools are full to 100% capacity.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.114. The existing community accessible pools provide a total of 593.5 (408) sq m of water space, compared with a current demand for 555.3 sq m of water space (based on pools being 70% full, using the Sport England comfort factor. The comfort factor means that the facility is full, but people can still swim; if capacity is over the 70% comfort factor, it is difficult to actually swim in the pool.), an oversupply of 38.21 (or under supply of -134.6) sqm. The oversupply is very small; the under supply is equivalent to just under 2 lanes of a 6 lane x 25m pool.
- 3.115. Whether the situation is a very small over supply, or an under supply, it is important to note that the majority of neighbouring local authorities also have very low levels of pool provision. Therefore, additional demand in Craven is unlikely to be met in neighbouring districts.
- 3.116. Residents in Craven have reasonable access to swimming pools, with the majority of the population being able to access a pool within a 20 minute drive time. This is emphasised by the fact that 82.2% of demand, or 2,313 vpwpp, for swimming is retained in the district.

CURRENT DEMAND

- 3.117. The Facilities Planning Model analysis identifies that the 2015 population (55,574) generates a demand for 3,346 visits per week during peak periods (vpwpp). This equates to 5,553 sq m of water space, based on pools operating at 70% capacity, as paragraph 3.112 above. Clearly there is currently a very small over supply of water space in the District. This also needs to be seen in the context that nationally there is a decline in levels of participation in swimming..
- 3.118. 84.1% (2,812 visits per week in peak periods) of all demand for swimming pool provision is met in the District; this is a low level of satisfied demand compared to regional (90% and England (91%) averages. 88.94% of all existing use is made by those using a car. 82.2% of all demand for swimming is retained in the District. However, only 52.6% of all available capacity in the existing community accessible provision is used during peak periods. Craven Swimming and Fitness Centre is the only pool operating at near to capacity at 63%; Settle Swimming Pool operates at 42% of its 949 capacity, which is available for 39 hours weekly at peak period. Upper Wharfedale School operates at 37% of its smaller 533 capacity, which is available for only 20 hours weekly at peak period.
- 3.119. 15.9% (533 vpwpp) of demand is unmet by the current provision of community accessible swimming pools; this is higher than the regional (10%), and England average (9%). Areas with the highest unmet demand are in the south between Skipton and Keighley, and around Lower Benthams in the far west of the District. This demand is unmet because some pools are at capacity (4% of the unmet 533 vpwpp), and secondly because some residents are outside the catchment of an existing swimming pool (96.2% of the unmet 913 vpwpp). This latter point reflects the fact that around 16.4% of Craven residents do not own a car (England average is 25%). Despite this 94% of all pool visits are made by car.
- 3.120. Craven imports 392 swimmers (14.5%) per week.
- 3.121. The age of the existing pool stock, particularly Settle Swimming Pool will become an issue into the future, and therefore the quality of the offer will diminish.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.122. A growth in population by 2032 will increase demand for swimming provision, and the level of over-supply will decrease, whilst an under supply will increase. Table 3.14 summarises the analysis described in paragraphs 3.115 – 3.120.

Table 3.14: Summary of 2015 Supply and Demand Analysis

2015 DEMAND FOR POOLS Sq M	2015 SUPPLY OF POOLS Sq M	SURPLUS (+)/ DEFICIENCY (-) OF POOLS	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) DEMANDED BY CURRENT POPULATION	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) SATISFIED	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) UNSATISFIED	DEMAND MET IN THE DISTRICT	DEMAND UNMET IN THE DISTRICT
555.3	593.5 (568)	+38.21 (-134.6) sq m	3,346	2,812	533	84.1%	15.9%

FUTURE DEMAND

- 3.123. The FPM analysis undertaken does not identify future demand. The population of Craven will increase to 58,000..
- 3.124. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on this population increase.
- 3.125. Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. That needs to be informed by the nature and location of future housing development, local geography and accessibility, and critically the location of existing facilities. This is because future demand may have the potential to be addressed through facility extension, or refurbishment, as well as new build.
- 3.126. Future demand will also need to reflect the current supply and demand analysis. Clearly if there is under-supply of a specific facility type now, the level of undersupply is going to increase by 2032, given population growth and increased levels of participation.
- 3.127. The SFC for Craven identifies the following future facility demand (Table 3.15), based on a population increase by 2032.

Table 3.15: Future Facility Demand (2032) – CRAVEN

FACILITY TYPE	UNIT	FACILITY	ADDITIONAL VPWPP
SWIMMING POOL	1.17 Lane (62.40sq m)	0.29 of a 4 Lane X 25m Pool	376

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.128. Clearly, the small over supply of water space is insufficient to meet future demand or swimming provision, generated by population growth. The identified actual under supply increases; taking the under supply and the future need together, there will be a need for almost 1 4 lane x 25m pool

CONSULTATION

- 3.129. Consultation with relevant National Governing Bodies (NGBs), and local clubs, highlights local factors in relation to supply and demand for swimming pool provision in the future.

Table 3.16: Summary of National Governing Body Consultation – Aquatic Activities

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
AMATEUR SWIMMING ASSOCIATION (ASA)	Encouraging and facilitating more people to swim more often. Development of the Talent pathway.	The ASA has not identified the need for additional swimming pool provision in Craven.

CLUB CONSULTATION

- 3.130. Consultation feedback from local swimming clubs identifies the following:

- **Clubs based at Upper Wharfedale School sports facilities are happy with the facilities; they are just grateful and appreciate having sports facilities in the YDNP. However, assistance is needed to help the swimming club address their membership scheme to make access more affordable.**
- **Settle Swimming Pool – the clubs accept the facility for what it is, but there are opportunities for club and pool to work together more.**

SUMMARY CONCLUSIONS – SWIMMING POOLS – AMEND AS NECESSARY FROM ABOVE NOTE

- 3.131. From the FPM, which is only one element of the overall assessment of swimming pools in Craven, it is clear that there is a current small over supply of pools in the District.
- 3.132. Based on current and future demand, there is just sufficient swimming pool provision in the District. Current over supply of water space equates to +38.21 sq m, but if the real situation is taken i.e. excluding both Giggleswick and Upper Wharfedale pools from the assessment, there is an under supply of 134.6 sq m); future demand based on population growth equates to 62.40sqm of a 25m pool. In total by 2032, assuming no new pools are opened, and the existing facilities remain open, there will be a need for **an additional 197sqm minimum of a 25m pool; this cannot be met by the existing facility stock. This equates to a 4 lane x 25m pool (200 sq m).**
- 3.133. The current level of satisfied demand is low in Craven, reflecting the fact that 1 of the 3 main pools is virtually operating at recommended capacity.
- 3.134. Current levels of unmet demand are at 15.9% in Craven and equate to 533 vpwpp. This unmet demand is attributed predominantly to existing pools being full (4%), and to people living outside the catchment of an existing pool (96.2%).
- 3.135. 52.6 % of peak available capacity is used; this is considerably lower than the regional and national averages (67% and 65% respectively) as well as being much lower than the more urban Bradford (90%), Pendle (73%) and Lancaster (64%). Swimming pools in Craven are used at around the same level as Harrogate but are busier than those of its more rural neighbouring LA areas of Richmondshire, South Lakeland and Ribbles Valley.
- 3.136. Unmet demand is highest between Skipton and Keighley, and in the Lower Bentham area.
- 3.137. There is a need to consider the age, condition and quality of the existing pools in Craven as the quality of the offer will reduce over time; the need to replace Settle Swimming pool facilities will need to be a medium –long term priority (5-10 years).
- 3.138. The ASA has not highlighted the need to provide better quality facilities in Craven.
- 3.139. Given the major developments of new housing will be in Skipton, Settle and Long Bentham, sufficient provision of good quality and accessible water space for both current and future residents of Craven is necessary. Consideration should also be given to the fact that swimming is the most popular sport in Craven, and that it provides a significant opportunity to increase participation.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

HEALTH AND FITNESS FACILITIES

SUPPLY OF HEALTH AND FITNESS SUITES IN CRAVEN

3.140. The supply analysis identifies that Craven has a total of 14 fitness suites across 15 sites (Active Places September 2015).

3.141. The analysis of the overall fitness suite supply in Craven is as follows:

Table 3.16: Analysis of Fitness Suite Supply in Craven

TOTAL FITNESS SUITES	17
TOTAL FITNESS STATIONS	393
TOTAL COMMUNITY ACCESSIBLE FITNESS SUITES (ALL WILL REQUIRE SOME FORM OF PAYMENT PRIOR TO USE/MONTHLY DD, MEMBERSHIP ETC)	4
TOTAL COMMUNITY ACCESSIBLE FITNESS STATIONS	109

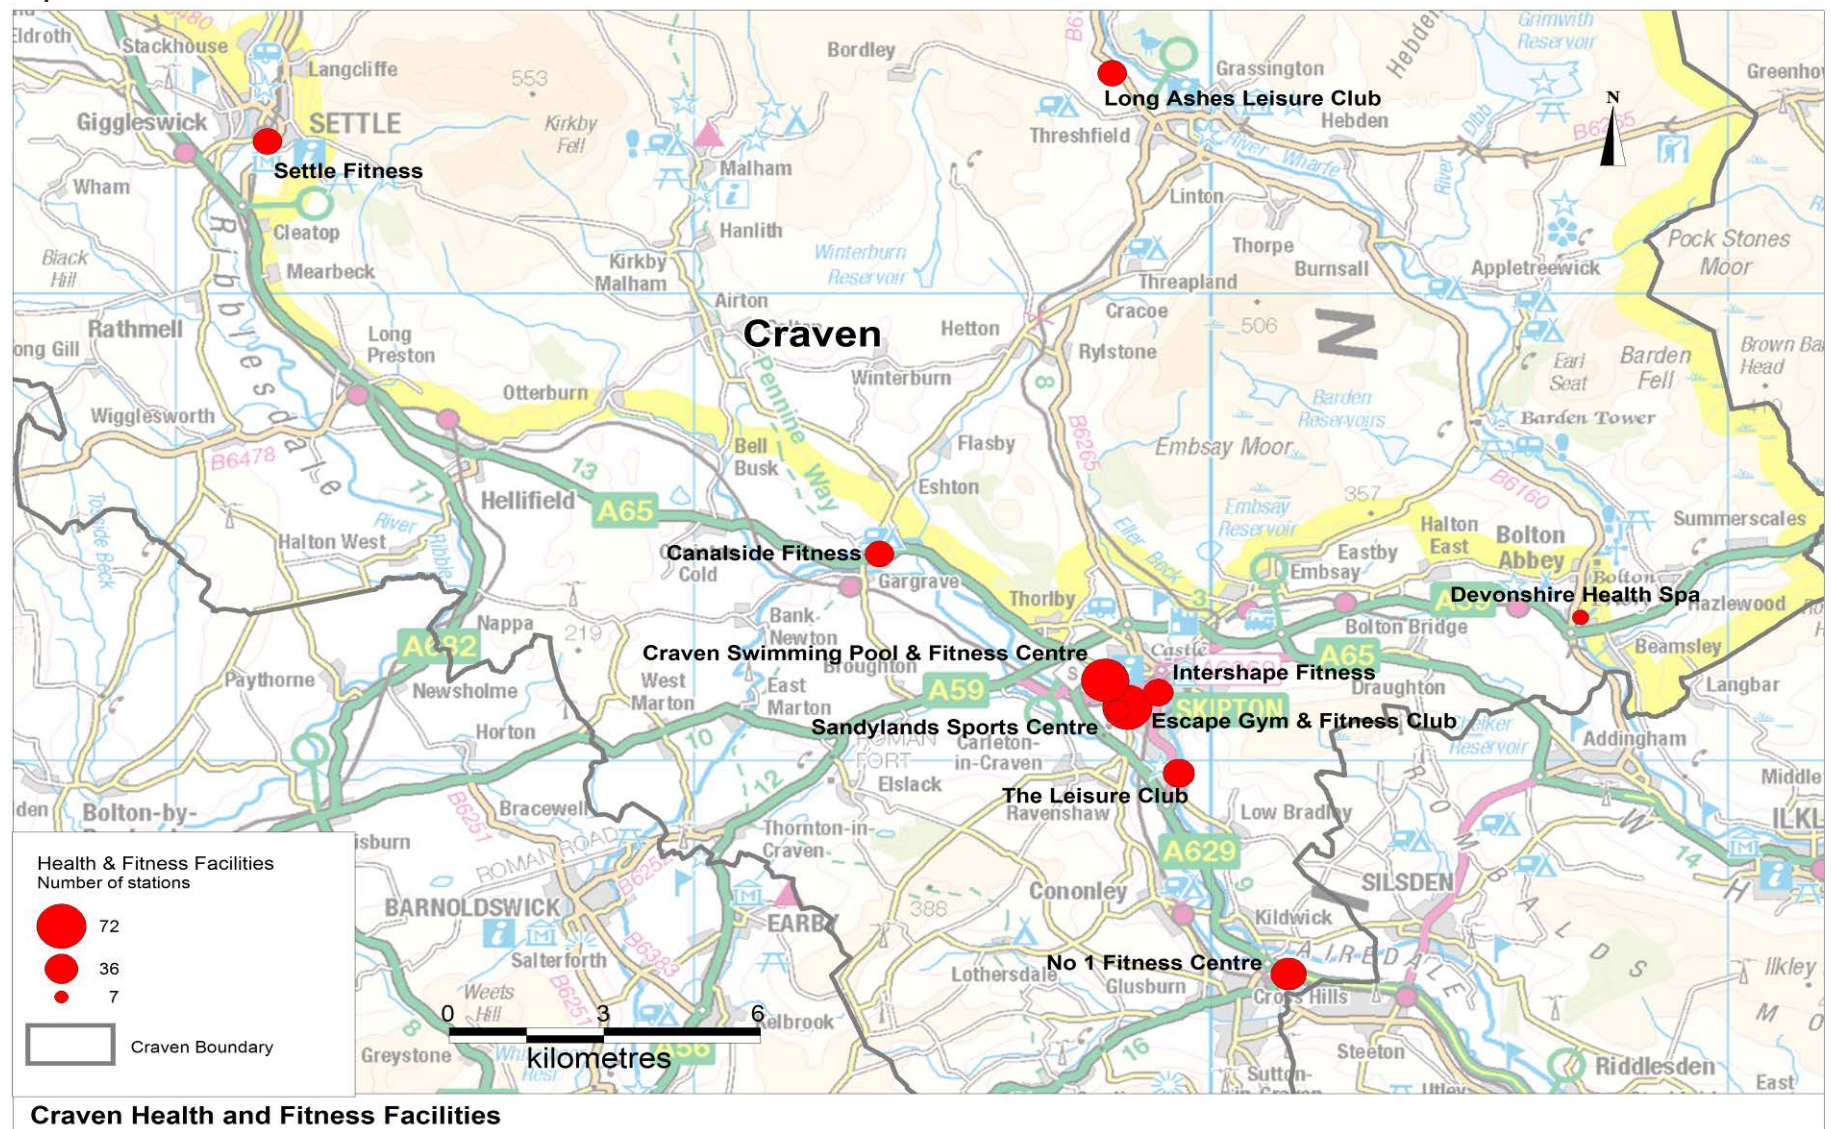

3.142. Table 3.16 highlights the supply of fitness stations in Craven. Only a few facilities operate as pay and play facilities (4 fitness suites, with a total of 109 stations),

3.143. All fitness facilities will require some form of payment/membership before use with the CDC facilities no different to those in the commercial sector. The 4 education facilities are small and provide for school students. Commercial fitness facilities in Craven are not 'top end' provision, but in the bottom to middle of the commercial market; therefore the membership/monthly fees do not present too much of a barrier.

3.144. Map 3.6 shows all the fitness suites in Craven.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.6: Health and Fitness Facilities Craven

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

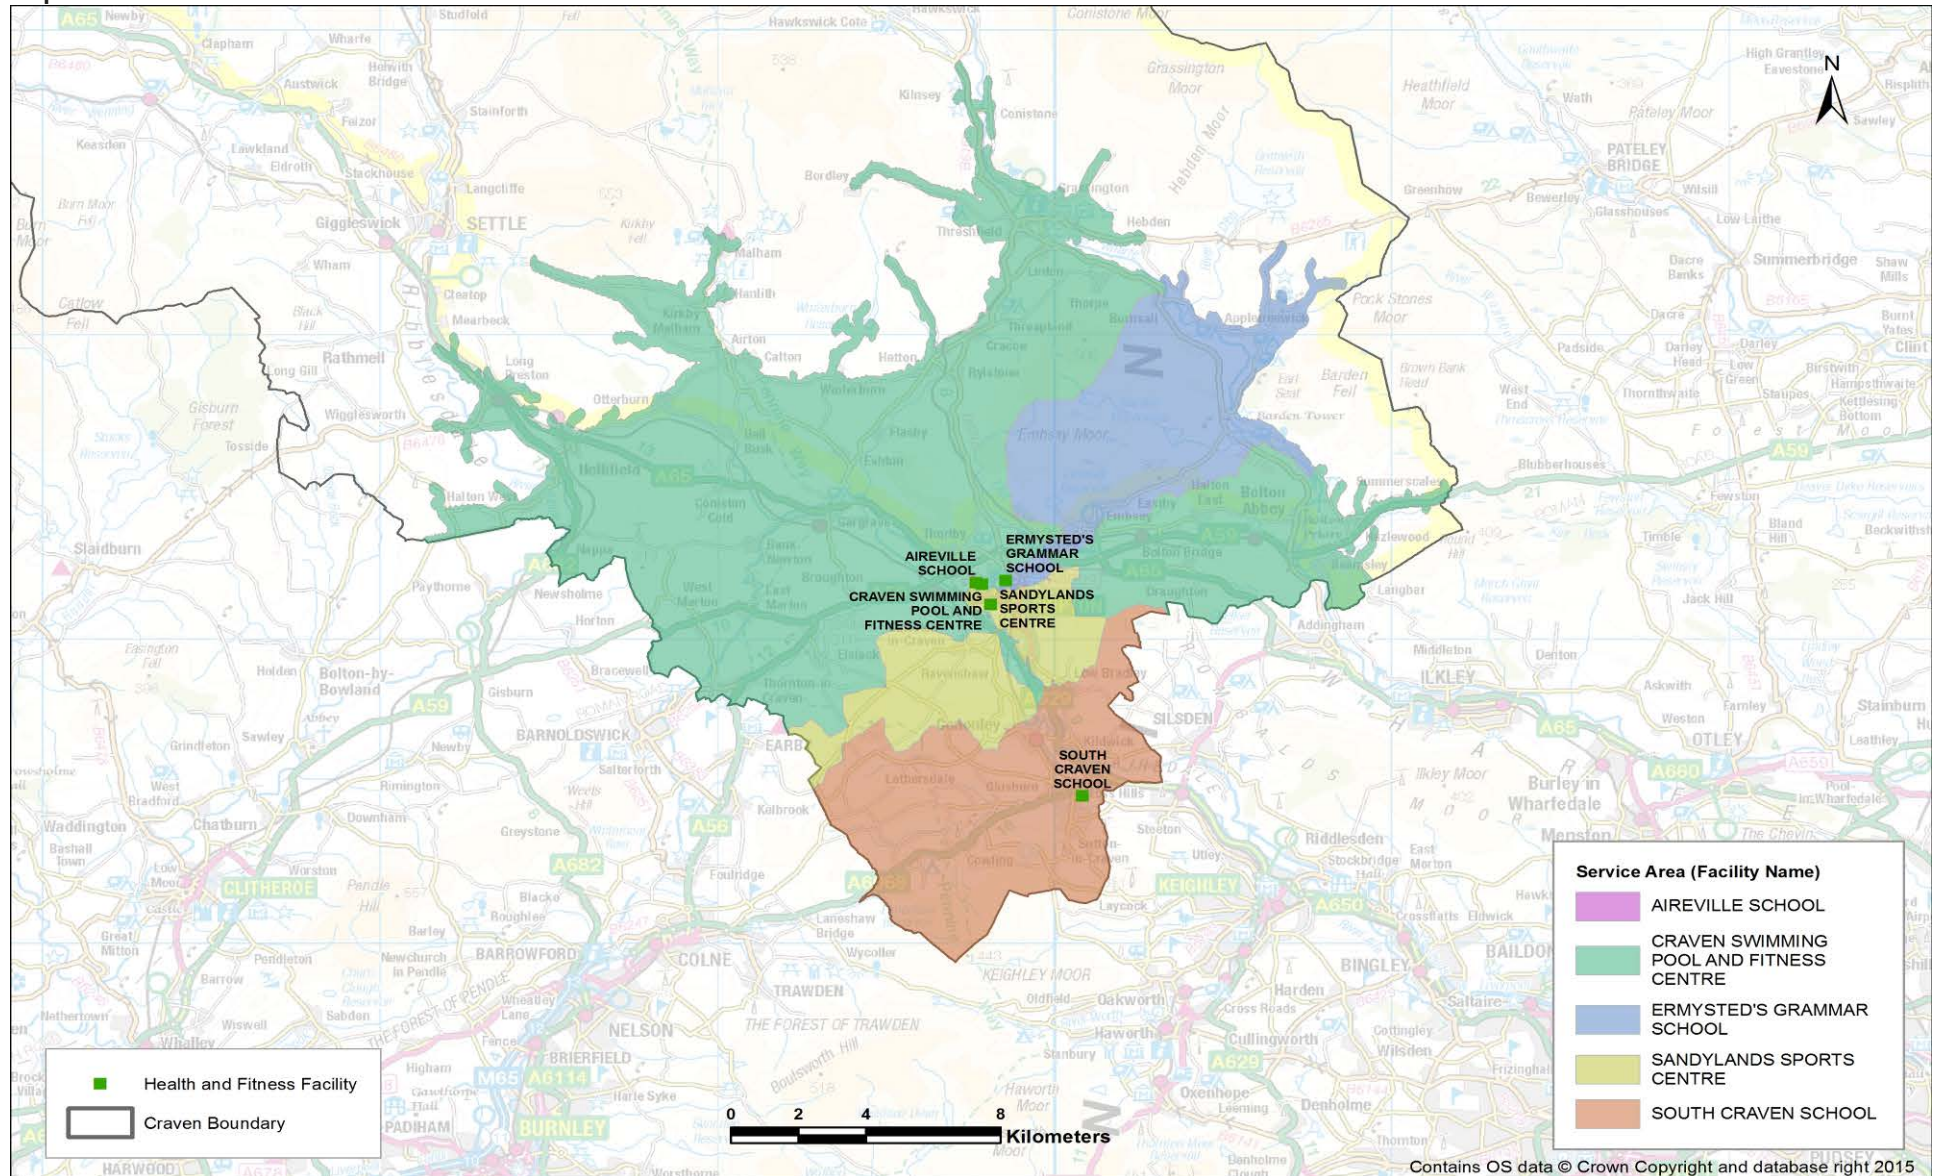

- 3.145. Detailed quality assessments have been undertaken on the CDC facility and other main sites. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4.
- 3.146. The majority of the existing fitness suites in Craven were built from 2000 onwards; some have been refurbished in the last 5-10 years.
- 3.147. The quality of the existing facilities is therefore better than that of pools and halls.

EXISTING SUPPLY - ACCESSIBILITY

- 3.148. Geographical distribution of community accessible fitness facilities is focused on the south of the District, in and around Skipton.. Map 4.7 shows the community accessible fitness suites with a 20 minute catchment area, which demonstrates that a significant area of the District is not within the catchment area of these facilities. There is only one facility in Settle, (commercial), and none in the north sub area.
- 3.149. The challenge in Craven is that in a rural area travel distances vary, and although car ownership is high, 16.4% of the community do not have access to private transport.
- 3.150. This is where the local provision of fitness facilities on education sites, becomes even more important, as this type of facility increases the level of local provision available for local people. Maintaining and developing increased community access to education-based sports facilities is key in ensuring locally available access, and facilitating increased participation in sport and physical activity for health benefits. Equally, the provision of a few fitness stations in a village hall/community hall could increase access to provision, particularly in a rural area.
- 3.151. In addition there is potential to locate some fitness provision, for example 6 fitness stations, resistance and cardio-vascular, in some community halls, to improve access in the rural areas. Such an approach would be most sustainable if located in a community/village hall which already has some sports facilities such as a pitch, and/or a bowls green. The fitness facilities would then provide participation opportunities for local people playing in teams, as well as individuals.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.7: Fitness Suites in Craven – Service Areas

Health and Fitness facilities service areas in Craven with community access (up to 20 minutes drive time)

SUPPLY AND DEMAND ANALYSIS

- 3.152. Appendices 6 and 7 model the current supply and demand of community accessible fitness stations in more detail; based on current population demand for fitness in Craven (excluding the YDNP) there is an under supply of -14 fitness stations in the District. Based on population projections for 2032, there remains an under supply of provision, but this increases to -32 stations. Craven Swimming Pool and fitness center is considering options of reconfiguring and extending the center to plan for this future demand.
- 3.153. If new facilities are built in the district to replace existing, ageing facilities, there is potential to increase the current number of community accessible fitness stations provided. This would help to address future demand, generated by population growth and increased participation.

SUMMARY CONCLUSIONS – FITNESS SUITES

- 3.154. There is a very good supply of fitness facilities across Craven in and around the market towns. There is limited provision in the rural areas, however, as shown in Map 3.7, accessibility is satisfactory.
- 3.155. Current supply of fitness suites is predominantly through the public and commercial sectors (low to middle end of the market); limited facilities are located on education sites.
- 3.156. The quality of fitness provision is better than that of pools and sports halls, because the facilities are newer.
- 3.157. Overall there is sufficient provision of fitness stations to meet current and future demand given that there is more actual provision than demand, assuming that some individuals use facilities where membership is required.

SQUASH

SUPPLY OF SQUASH FACILITIES IN CRAVEN

- 3.158. There are 8 squash courts in Craven, located across 3 sites. Only 2 courts are glass back.
- 3.159. Existing squash courts are managed as follows: Giggleswick School (2 courts), Sandylands Sports centre (4 courts, 2 glass-backs), and the Leisure club (2 courts). Of the 8 courts available, 6 are community accessible, but the Leisure Club site requires membership.
- 3.160. No response to consultation was received by from England Squash and Racketball, or local squash clubs.
- 3.161. No need for additional squash courts has been identified in the area, assuming the existing level of supply is retained. .

OTHER SPORTS FACILITY NEEDS IDENTIFIED THROUGH CONSULTATION

SKIPTON LAWN TENNIS CLUB

- 3.162. In 2007 Skipton Lawn Tennis Club folded with just 3 members. The club courts and clubhouse based at Sandylands were gifted to the Coulthurst Craven Sports Centre (AKA Sandylands Sports Centre). CDC then worked to set up the Skipton Tennis Centre and re-established the club in 2008. The qualified coach secured a long term lease on the club facilities and a LTA loan to resurface 3 of the courts.
- 3.163. The Club has 12 teams, and over 200 players in a coaching programme and works with nearly 30 schools across Craven. The club also supports many healthy lifestyle programmes and many local businesses and organisations.
- 3.164. The Club currently has 3 floodlit courts and a clubhouse.
- 3.165. The Tennis Club and coach now wish to further develop the site as follows, over the next 5 years
- **2 extra courts making us a 5 court club - This will help us grow our current programme and meet the needs of the community, we are currently 120 players over subscribed for court space (2015)**
 - **3 improved LED floodlit courts - This will reduce our running costs and our footprint on the environment**
 - **New Fencing**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- **Improved changing facilities to provide shower facilities.**
- **Indoor Courts (long term goal) - The longer term goal is to provide 3 indoor courts for the residents of Craven.**

3.166. There is opportunity to work with Skipton Table Tennis Club to have a Table Tennis room added to indoor tennis courts; an alternative option would be to develop one court as multi-purpose space, based on wider sporting need. This would be likely to drive more revenue than a single tennis court.

BOWLS

3.167. There are 15 Bowling Crown Green Bowls clubs/ facilities across the Craven District (2 inside YDNP). Most have their own pavilion / clubhouse. Due to the predicted increase in number of older people, CDC should seek to protect and enhance bowling provision to ensure that this resource is supported to meet the changing demographics.

3.168. Currently, the population of 47,074 in Craven need 4.18 indoor bowls rinks, providing for 651 vpwpp. By 2032, the Craven population will demand 4.73 indoor rinks, which equates to 0.79 of a 6 rink centre. Demand will be for an additional 86 visits vpwpp.

SKIPTON CYCLING CLUB

3.169. Cycling: despite high levels of adult cycle participation (4500 adults) there is very limited cycling facility provision in Craven. There are no thriving junior cycle clubs due to lack of accessible, suitable and safe venue. Skipton Cycle Club has expressed a need/demand for a closed road cycle circuit in Skipton to provide a viable venue for its junior programme as well as Get back in the Saddle adult programme. Craven Energy Tri Club also has a junior section and they share this need/demand. Skipton Athletics Club's junior section is currently homeless and would also use such a venue to host their club training.

3.170. The Club needs a closed circuit cycle track (1km loop). British Cycling would support any development with technical guidance etc but not funding, as it would not fit with their national priorities for the location of closed road circuits. The location proposed at Sandylands is unlikely to take a full 1.5km track but possibly a 1km, if a track was to be pursued. Although it would not meet BC requirements in terms of length they would like to see any development in line with other technical guidance in terms of width, gradient, run offs etc. They would see a track of this sort as good for beginners, go- ride programme training and local races, and as a safe place to introduce people to cycling.

ATHLETICS CLUBS

3.171. The following feedback was received to the consultation:

CLUB	FACILITIES USED	FEEDBACK
SETTLE HARRIERS JUNIORS	Giggleswick School Running, biking tracks and sports pitches 1- 4 hours per week	80 under 18's, 120 adult members; membership increasing, have a waiting list Most members from Settle, Ingleton and Bentham areas Rate the facilities and services as adequate to fairly good. In the future looking for winter indoor training space, need support for volunteer recruitment for coaches etc in order to reduce waiting list.
SKIPTON ATHLETICS CLUB	Craven Swimming Pool and Fitness Centre as a meeting point for runs Tues & Thurs	Meet outside the Craven Swimming Pool & Fitness Centre twice a week (Tuesday and Thursday evenings) and head out in groups to jog/run a choice of routes around the local area up to approximately 7-9 miles. We also run interval sessions on Tuesdays; in summer use the track adjacent to the cricket field and in winter either train in Aireville Park or in local streets. 115 adult members and no junior members, (other than family members). This has remained fairly consistent over the last 3 years. Looking to the next 3 years the membership is expected to increase due to a number of factors: <ol style="list-style-type: none">1. In the process of setting up a Junior section and would anticipate this to increase membership numbers2. Being more pro-active in promoting the club3. Increased participation in local events such as Harrogate District Summer Race League and West Yorkshire Winter League4. Supporting events such as Skipton parkrun and the recently held 'Celebration of Aireville Park'

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

CLUB	FACILITIES USED	FEEDBACK
		<p>Skipton Athletics Club has been established for over 30 years catering for all abilities, but in recent years, has not had an active junior section. The club is currently investing in getting more qualified athletics coaches and running leaders, with a vision of offering more improved coaching to both senior and junior athletes alike. A facility which allows us to effectively deliver coaching in support of this vision would be welcome; the club has recently been in talks with Sandylands and the Tennis Centre around using their facilities for junior coaching</p> <p>The cycling club needs a tarmac track.</p> <p>This would be a great facility for the running club too especially as the running track facilities elsewhere are too far away and the facilities at Sandylands are better in the summer than the winter.</p>

3.172. Settle and Skipton Athletics Clubs, Triathlon Club and Fencing Club indicate that they need either more access to facilities and/or alternative venues.

4. APPLYING THE ANALYSIS

CONSULTATION WITH NEIGHBOURING LOCAL AUTHORITIES

- 4.1. In determining the nature, level and location of sports facility provision required for the future in Craven, it is also important to be aware of how neighbouring local authorities are planning for the future. Given that communities use sports facilities in areas other than where they live, the development of new or improved provision can impact significantly on both participation levels and capacity cross-boundary.
- 4.2. The issue for Craven residents, however is that neighbouring local authorities actually have relatively low levels of sports hall and swimming pool provision.
- 4.3. Table 4.1 summarises the consultation undertaken with neighbouring local authorities to inform this Strategy.

Table 4.1: Neighbouring Local Authority Swimming Pool Developments

LOCAL AUTHORITY	FACILITY DEVELOPMENTS
RIBBLE VALLEY BC	No new provision likely, although the Ribblesdale Pool requires significant investment. The all weather pitch at Roefield may be refurbished.
BRADFORD MDC	There are plans to invest £41m to build four new swimming and sports facilities, and to close four existing facilities. The closest facility to Craven, which will eventually close, is Bingley Pool. Oakbank School, Keighley will be re-developed; this is one of four schools to be re-developed, but is the closest one to Craven.
PENDLE BC	No response received
RICHMONDSHIRE DC	Local Plan Review identified that the District has sufficient provision. New leisure centre opened in partnership with Catterick Garrison 4 years ago.
HARROGATE BC	No response received
STH LAKELAND DC	No response received
LANCASTER Cc	No response received

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 4.4. Consultation with the neighbouring local authorities does not identify any development proposals, other than the new pools/school facilities in Bradford, which are likely to have a limited impact on provision in Craven.

KEY ISSUES AND OPTIONS

- 4.5. Based on the local context and the supply and demand analysis, there is potentially a need to consider additional provision of swimming pools in the District, plus a need to address identified demands for community accessible health and fitness provision. There is also a need to replace some existing sports and leisure facilities in Craven in the medium to long term (3-10 years). There are a number of reasons for this:
- **The age, condition and poor quality of some facilities – particularly Settle swimming pools and Sandylands sports halls**
 - **The need to significantly increase participation in physical activity for community health benefits**
 - **The need to invest in active environments, where physical activity is the norm**
 - **The vision of providing good quality community sport and leisure facilities for all Craven communities**
 - **The need to improve accessibility in rural areas**
 - **The focus on the 3 sub areas in terms of community provision and accessibility**
 - **Long term population growth in Craven, which will increase demand for community facilities, including sport and leisure provision, particularly in the market towns where the majority of new homes will be built**
 - **The potential future need for additional swimming pool space.**
- 4.6. Housing development is one of the principal justifications for additional community sports facilities because additional residents increase demand for sports facilities. The population of Craven is set to grow by 2032, and there will be a need to ensure good quality community sport and leisure facilities are available to meet existing and future demand.
- 4.7. A further driver for considering investment/replacement in terms of sports facilities is accessibility; accessibility is related both to geographic location and programming. If particular activities are not provided, or are programmed at times which are unsuitable for participants, they are unlikely to take part.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

4.8. The way in which a sport and recreation facility is managed often determines the level and type of community use allowed/encouraged. For example, local authority managed sport and recreation facilities are more likely to encourage use by disadvantaged groups than those managed by commercially sector operators and are, thus, more accessible.

4.9. Retaining and improving the quality of provision is particularly important in given that 32.4% of Craven residents currently take part in sport and physical activity at least once a week, on a regular basis.

(source: APS 9, 2014/15)

4.10. Priority is placed on reducing health inequalities and increasing participation in physical activity in Craven; the provision of good quality, local community facilities, accessible and affordable to meet identified need, is key to facilitating participation growth.

4.11. Based on the quality audits and assessments, age and condition, the priorities for future investment in facility provision are:

- **Swimming Pools – due to age (by 2032) – Settle Pool medium to long term (5-10years)**
- **Sports Halls – due to age (by 2032) – Sandylands Sports Centre medium term (3-5years)**
- **Facilities on Education sites due to age – Skipton Academy medium to long term (5-10years)**

4.12. Key issues informing future provision include:

Table 4.2: Key issues informing future provision

	KEY ISSUE	EVIDENCE
1	Population growth of 4.75k by 2032. The number of people in older age groups (50-74yrs) will increase with the number in younger age groups continuing to fall.	Local Plan, NY Health & Well Being Strategy
2	Rural district, sparsely populated in areas. Three market towns of Bentham, Settle and Skipton are key service centres. Majority of population lives in these three towns. Yorkshire Dales National Park covers much of the District.	Local Plan
3	Access to services difficult. Many people need a car out of necessity.	Local Plan

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
	Net out-commuting from the District particularly in the North and South for work and education. High car ownership at 74.6%.	
4	<p>Community buildings important as it is difficult to access services. Local plan aims to promote continuation and improvement of facilities including sports and community buildings.</p> <p>Existing buildings to be safeguarded and full justification needed for any development, which would result in loss of a community asset.</p> <p>Development of new and improved community buildings encouraged but need to be well located, accessible, meet local needs and consider options for co-location.</p>	Local Plan Report section 2.23, 2.24,2.25
5	<p>Health and Well Being challenges: ageing population, Asthma, CVD, Stroke, Cancer, social isolation, 2 x LSOA in Skipton amongst the most deprived in England, less than national average make an appointment for health checks.</p> <p>Lower levels of childhood obesity (14%) than national average; adult obesity is at 66%, higher than the national average.</p>	NY Health & Well Being Strategy JSNA
6	<p>Children and young People are concerned about rural isolation, would like more local amenities, better transport links.</p> <p>Like to be able to access organised sport and leisure facilities.</p>	NY Children's and Young People Plan
7	Three year downward trend in participation levels for both once a week (now 32.4%) and 3 x 30 levels. Participation levels are below the regional and national averages.	SE APS 9
8	Latent demand for those who would like to do more sport has risen to 50%.	SE APS 9
9	<p>Participation in organised sport such as club membership and competition has risen.</p> <p>Recent downward trend in numbers participating, and in those taking part in coaching and tuition.</p>	SE APS 9

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
10	Satisfaction with local sports provision is rated as very/fairly satisfied.	SE APS 9
11	Sports which appeal to the most dominant market segments are: keep fit/gym, swimming, football, bowls, cycling, running/athletics, angling, golf.	SE market segmentation
12	<p>There is a dominance of facilities in the south sub area of the District, the most heavily populated area of the District. Indoor facilities in Settle and Wharfedale provide access for the population who live in the mid and north sub areas. Overall sports facilities are accessible to the majority of the population.</p> <p>The District Council is directly responsible for the management and operation of only one facility – Craven Swimming Pool and Fitness Centre (Skipton). Other facilities are managed and operated by Community Trusts and the education sector. There are commercial operators in the health and fitness market.</p> <p>Consideration needs to be given to the impact of any loss of a facility, changes to community access at facilities which are not managed by the District Council, and how such factors might reduce opportunities for access to sport and physical activity in the District.</p> <p>How can the District Council influence, support, work in partnership with other providers to ensure access to sports provision across the District?</p>	Local Plan Active Places Consultation
13	<p>Settle Pool operated by Community Trust – in need of investment to meet up to date design, operation guidance.</p> <p>Financial position weak, in part due to reduction of £30K grant by CDC.</p> <p>Full programme of public swimming, lessons, clubs, disability swimming, etc.</p> <p>Should the pool no longer be viable or cease to trade, loss of the pool would have a significant impact on people's ability to participate in swimming. Minimum of 30-40 min drive to next nearest pool.</p>	Consultation Active Places FPM

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
14	<p>Sandylands - Quality of indoor changing/ sports hall complex average. Outdated and ageing facility, compared with newer developments on the site 3G pitch, tennis club.</p> <p>Craven Swimming Pool and Fitness Centre – very good quality, well maintained, modern up to date facility; very heavily used; certain facilities at capacity eg studio, fitness suite.</p>	Quality audits
15	<p><i>Is the facility mix and number of facilities appropriate?</i> - Consultation outcomes begs the question 'is there a need for additional sports hall provision? Possibly as a partnership venture between education and local authority in Skipton?</p> <p><i>Does Settle need a Sportshall - dual use facility adjacent to Settle Pool/Settle College? Or are there opportunities to widen access at Giggleswick School? i.e. increase hours of use</i> - There is capacity at Upper Wharfedale School, and at South Craven School.</p>	Consultation Active Places FPM
16	<p>15 halls on 9 sites; 11 courts per 1000 population – higher level of supply than national (5) and regional (4) average.</p> <p>All halls on education sites, except 2. Therefore limited access for daytime use.</p>	<p>Sport England Halls FPM September 15</p> <p>Sports Facility Calculator</p>
17	<p>Only 3 pools are community accessible</p> <p>Craven Swimming and Fitness Centre operates at 63% capacity; overall all the pools operate at 53% of capacity.</p> <p>Settle Pool is operated by a Trust and may not be sustainable. If this pool were to close, there would be a current and future under supply of water space against demand.</p>	<p>Sport England Pools FPM September 15</p> <p>Sports Facility Calculator</p>

4.13. Based on the analysis, consultation and identified key issues, the main facility priorities to address are:

1. **South Sub Area** - What should future provision look like in Skipton and is there a need for a new sports hall?
2. **South Sub Area** - is there a need to retain the existing sports hall and pool at Malsis School?

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3. **South Sub Area** – is there a need for the proposed dome at South Craven School to create additional indoor courts?
4. **Mid Sub Area** – Given the need for a pool in Settle, what are the options for Settle Swimming Pool?
5. **North Sub Area** - Is there a need for additional facility provision in the north/north west of the District, given the population growth planned around Bentham, and the fact that there is limited provision in the area?

SOUTH SUB AREA

- 4.14. The issue of the need for a new sports hall in Skipton was examined in the 2014 NAA report. This report highlights the fact that the need for additional sports hall facilities is predominantly driven by education, because two institutions in particular lack the required facilities to deliver their curriculum. The provision of additional sports hall facilities in Skipton would impact on current educational use of Sandylands Sports centre.
- 4.15. This Strategy has highlighted that existing sports halls are not all used to capacity, although at peak periods Sandylands Sports Centre is operating at 80%, and Cedar House School at 73% (this facility has very limited opening hours for the community).
- 4.16. South Craven School is operating at only 56% of capacity, which suggests there is opportunity to increase usage. When the Malsis School sports hall was open (built in 1965) it operated at only 20% of its available capacity
- 4.17. The 2014 naa report does not recommend the development of a new sports hall in Skipton; whilst a replacement sports hall would improve the quality of provision, the existing community usage levels do not justify a new facility. Future demand for sports hall facilities can be accommodated within the existing over supply of facilities (14 courts).
- 4.18. The opportunity to increase sports hall capacity at Sandylands Sports Centre could be achieved both by moving football outdoors (if the all weather pitch is re-surfaced), and through the development of a multi-purpose space, in partnership with the Skipton Lawn Tennis Club. This approach could realise improved tennis facilities, new space for table tennis and the development of multi-purpose hall space, which could be used by schools and the community. School use during the day could release some sports hall space for community use.
- 4.19. Equally, the development of multi-purpose hall space at Craven Swimming and Fitness Centre, as well as, or instead of, development at Sandylands, would provide functional revenue generating space, which could be used by a wide section of the population.
- 4.20. Based on the approach of developing some new multi-purpose space in Skipton, and the fact that there is already a surplus of sports halls and swimming pools (small surplus, but this is calculated excluding Malsis Pool) in the District, there is no need to retain the sports hall and pool at Malsis School. There is also a new school facility to be developed in Keighley, which could be accessible to Craven residents.
- 4.21. However, this is in the context of supporting investment in South Craven School to improve the tennis courts and outdoor pitches (floodlighting). Investing in a dome is not, however necessary, unless this proves to be the one opportunity to deliver indoor tennis in the District. South Craven School has the largest number of badminton courts on anyone site in the District, but the facilities are not used to capacity. The aim should be to increase community access on this site by extending accessibility, and investing in improving and developing existing facilities. Better use of the capacity at this site for e.g. club use, could also help to release some pay and play access in other sports halls in the south sub area, e.g. Sandylands Sports Centre.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

MID SUB AREA

- 4.22. In the mid sub area the main issue is the future of Settle Pool. The pool is now 40 years old and nearing the end of its original intended lifespan. Should it be retained/replaced, or closed?. Closure would leave the district with a significant deficiency of water space with very limited accessibility to other community water space for both the mid and north Craven Sub areas. The current vision of the pool owners and management is to retain the pool and try and sustain it over the short to medium term. The assessment highlights the need to replace the facility in the medium to long term (5-10+ years). The [Sport England Affordable Community Swimming pools](https://www.sportengland.org/media/42751/Affordable-Community-Swimming-Pools-R003-2012.pdf) model demonstrates it is entirely realistic for a replacement pool to be fully sustainable. <https://www.sportengland.org/media/42751/Affordable-Community-Swimming-Pools-R003-2012.pdf>. Replacement of the existing facility is the most likely option, as a modern pool would be more efficient and effective to operate, at less cost; if the existing facility is replaced, opportunity should be taken to develop a larger pool, to meet both current and future need in the District.
- 4.23. Clearly the existing pool, whilst ageing, provides an important facility for the middle of the District. There is a need for investment to improve the facility quality, and an opportunity to invest in e.g. fitness provision to increase revenue. If this pool were to close there would be a significant current and future under supply of water space in the District, so it is important that the Trust is supported to manage, and develop, the pool. This is critical to ensure its current viability and consider its future sustainability.
- 4.24. A partnership approach (the Trust, NYCC and Public Health, CDC, North Yorkshire Sports Partnership, and the local community) is important moving forward, to develop and better manage the facility, increase usage, and drive up revenue, to sustain its current operation.
- 4.25. Every opportunity should also be taken to increase access to facilities at Giggleswick School, as capacity is not currently used.

NORTH SUB AREA

- 4.26. There will be population growth in and around Bentham to 2032. The only existing facility in this area is Cedar House School; the sports hall here is operating at 73%. Increased capacity could be achieved if additional opening hours could be secured.
- 4.27. The level of population growth will not justify the provision of another sports hall, but there is potential to consider the development of multi-purpose hall space: such as access to the new Bentham Primary School hall. Equally, access to all available community hall space should be maximised, to facilitate participation.

HEALTH AND FITNESS

- 4.28. There is a significant amount of fitness provision in Craven, with the majority of facilities being provided by the public/commercial sector.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 4.29. Overall access is generally good to fitness facilities across Craven; however, there is a lack of community accessible provision outside the South sub area. The commercial fitness facilities in Craven are not 'top end' and therefore are more likely to be affordable; this means that commercial facilities are likely to be accessed by the local community. On this basis, although the assessment identifies an apparent under supply of provision both now and into the future, the reality is that there is sufficient fitness provision across all sectors to meet identified demand.
- 4.30. This does not preclude the provision of additional community accessible fitness stations eg at Settle Pool, as this would further improve accessibility, and reduce the need to travel.

OTHER FACILITIES

- 4.31. Other future facility provision, linked particularly to the population growth and housing development, is the development of new and improved walking, jogging and cycling routes, to encourage active travel, and provide an environment in which physical activity can be easily integrated into daily life.
- 4.32. Need has also been identified for:
- **Improved tennis facilities – Sandylands sports centre**
 - **A closed circuit cycling track – Sandylands Sports centre could be a potential location**
 - **Retention of existing, and potentially development of additional bowls facilities as population ages**

5. DELIVERING THE STRATEGY

INTRODUCTION

- 5.1. Overall, Craven has a good range of existing sport and leisure facilities across the area; however, some are now ageing, and will require investment and/or replacement. This is particularly true of education-based sports hall and swimming pool facilities. In Craven there is sufficient swimming pool provision to meet current and future demand. There is also sufficient sports hall provision to meet both current and future demand.
- 5.2. Whilst there are some facilities on education sites, which are not available for community use, these are in the minority. Proposals for new schools should incorporate formal community use arrangements for use of sports facilities.
- 5.3. Craven's population will grow over the next few years, particularly in and around the main urban areas, so there is a need to ensure sufficient provision of accessible, quality and affordable facilities to meet local need.
- 5.4. There is a range of facility providers in Craven, and it is important that CDC continues to work with these in partnership to develop and deliver facility provision, given its enabling and facilitating role.

VISION

- 5.5. The Vision for future provision of sport and leisure facilities in Craven is:

To encourage more people to be more active, more often, by facilitating provision of, and access to, a range of quality, accessible and sustainable facilities

- 5.6. CDC wishes to see accessible community sport and leisure facilities for swimming, fitness and sports hall sports/activities available for all residents. This includes both formal and informal spaces in which to play sport and be physically active.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

AIMS

5.7. The aim of providing sufficient high quality, fit for purpose and accessible provision is to:

- **Increase the regular amount of physical activity undertaken by individuals**
- **Develop additional facility provision where need is evidenced**
- **Create active environments where the choice to become physical active is an integral part of everyday life**
- **Encourage new participants to start taking part in physical activity**
- **Facilitate the further development of healthier lifestyles across Craven's communities**
- **Contribute to a reduction in health inequalities across Craven**
- **Support and provide opportunities for local sports clubs and community groups**

5.8. The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven, and help people to live and age better.

5.9. Sustainability of facility provision is key to maintaining these opportunities; CDC needs to plan now for the investment requirements of its existing facilities, and work in partnership with other providers and stakeholders to address the other priorities identified through this Strategy.

PRINCIPLES FOR FUTURE PROVISION

5.10. Analysis of existing provision also identifies the principles that should underpin all future sport and leisure facility development in Craven. These are to:

- **Ensure residents in all sub areas of Craven have good quality, local, accessible and affordable facilities, with the minimum provision being a 4 court sports hall, a 25m pool, and a fitness suite**
- **Replace ageing facilities where new provision is needed; all new provision should be designed and developed based on Sport England and NGB guidance, and be fully inclusive**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- Rationalise existing provision where new fit for purpose facilities can replace/improve existing buildings
- Invest in existing provision to maintain and improve quality where economically viable or replace where refurbishment is not viable
- Development of Craven Swimming pool and Fitness Centre dryside provision to reconfigure and extend the centre to make best use of space and growing market
- Invest strategically to ensure economic viability and sustainability of provision
- Where possible, provide facilities (formal and informal) closer to where people live; access to informal provision is critical in the rural areas
- Aim to ensure that more facilities on education sites provide opportunities (on a formal basis) for community access

SUMMARY OF NEEDS, PRIORITIES AND OPPORTUNITIES

5.11. The assessment and analysis undertaken to develop this Strategy identifies a need for some additional provision, across a range of facility types, as well as more generic needs in terms of improvement to the quality of existing facilities, and the accessibility and operational management of provision.

5.12. The facility needs have been identified as a result of the qualitative, quantitative and accessibility analysis undertaken.

5.13. These are summarised below, by facility type.

Table 5.1: Summary of Facility Needs in Craven

FACILITY TYPE	FACILITY NEEDS/PRIORITIES
SPORTS HALLS	Multi-purpose space in Skipton such as extended space at Craven Swimming pool and Fitness Centre Replacement of ageing sports hall at Sandylands and on education sites
SWIMMING POOLS	Improved facilities at Settle Pool Additional water space, given scale of population growth, and current under supply; Craven Swimming and Fitness Centre is operating at 63%. The equivalent of an additional 4 lane x 25m pool will be required by 2032.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

FACILITY TYPE	FACILITY NEEDS/PRIORITIES
OTHER FACILITIES	Improved tennis courts Closed circuit cycling track Retention and potentially development of bowls facilities
INFORMAL FACILITIES	Cycling and walking routes; safe cycling routes

PRIORITY INVESTMENT NEEDS

5.14. The facilities that have been identified as being in need of investment are:

Table 5.2: Priority Facility Investment Needs

TOWN	FACILITIES REQUIRING REPLACEMENT (DUE TO AGE/CONDITION)	NEED FOR ADDITIONAL PROVISION - FACILITY TYPE	
		SPORTS HALLS (BADMINTON COURTS)	SWIMMING POOLS
NORTH SUB AREA		Multi-purpose space, indoor courts	
MID SUB AREA	Settle Swimming pool (medium to long term)	Increased capacity for community use at Giggleswick School	Additional pool provision on the Settle Pool site – likely to be a new facility given age and design of existing facility. The equivalent of a new 4 lane x 25m pool is needed by 2032, in addition to the existing water space in the District.
SOUTH SUB AREA	Sandylands Sports Centre (medium – term) Skipton Academy	Multi-purpose space at Sandylands Sports Centre and/or Craven Swimming and Fitness Centre	

5.15. The exact scale of provision in each town, and the options to consider in determining this are set out in detail in Section 5.

OTHER PRIORITIES AND NEEDS

CAPITAL INVESTMENT

5.16. It is clear from the strategy analysis that there is a need for capital investment in Craven's existing facility network, or replacement of this, to address both current and future needs. Whilst some of this investment relates to additional facility provision, there is also a need for medium – long-term investment in existing ageing stock; increased participation is more likely to be achieved if the environment in which people take part is fit for purpose. The current planning policy SRC2 and developer contributions can assist with this along with potential use of New Homes Bonus funds and the future adoption of the Council of a Community Infrastructure Levy. External funding will be required from Sport England Governing Bodies and NYCC for Education sites.

5.17. It is also clear that delivery of the levels of investment required will only result from a local partnership approach. The development of improved sports facilities, and physical activity environments, will facilitate increased participation, which in turn will benefit individual and community health. The challenge is that the greatest health benefit will be gained by encouraging the inactive, to become active.

5.18. In relation to getting more people active, it is important to highlight the following issues:

- **Much of the existing facility portfolio is ageing and of poor quality**
- **Increasing population will put additional demands on the capacity of existing facilities**
- **Increasing participation will increase demand on existing facilities**
- **Whilst there is no current or future need for additional facilities, there is a need to:**
 - **replace ageing facilities**
 - **develop multi-purpose, sustainable hall space**
 - **optimise the capacity for community use of sports facilities on education sites**

5.19. These issues all highlight the need for investment, and some additional provision. Whilst some of this could be met through extending the operational hours of existing school sports halls (and generating the schools additional income), there remains a need for CDC to consider investment in additional multi-sport hall space. This could be funded through developer contributions, New Homes bonus or Community Infrastructure Levy if pursued by the Council.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

LOCAL PARTNERSHIP WORKING

- 5.20. In order to deliver the identified Strategy needs, and the key outcome of increased participation to address health inequalities, there is a need to further develop and deliver through partnership working.
- 5.21. More joined-up partnerships on the ground, with shared, and agreed local priorities will address the health, participation and investment issues in Craven much more successfully than organisations working on their own.

FACILITY PROVISION BASED ON SUB AREAS

- 5.22. Development of facility provision based on sub areas, which includes both formal and informal sports facilities is an opportunity in Craven. Given the rural nature of the district, it is not economically viable to provide a sports hall or swimming pool in every community. It is inevitable that there will be fewer specialist facilities in an area, than those which are multi-purpose.
- 5.23. It is therefore a priority to invest, not just in the formal sports facilities to provide opportunities for participation, but in the village halls and community centres around the district, to enable them to provide a wider activity offering at a very local level. Investment may be needed in resources, people, and programming, as well as in the facilities themselves.
- 5.24. This model of facility provision is based on a 'hub and spoke' approach. Formal sports facilities, located in the market towns (areas of highest population) form the 'hubs' at the centre of the participation model; these are then linked to, and complemented by school halls, which are open for community access (preferably with secured community use agreements), and community halls where informal activities are offered.

OVERVIEW

- 5.25. Although Craven's market towns have good sports facilities there are some ageing facilities, which will require replacement in the medium to long term. These are the Sandylands Sports Centre hall, Settle Pool and Skipton Academy.
- 5.26. The anticipated population growth in Craven to 2032 needs to be appropriately catered for in terms of demand for sports facilities – both formal facilities and informal, multi-purpose spaces.
- 5.27. The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven, and help people to live and age better, because they are more active.
- 5.28. In order to realise the above Vision and Aims for sport and leisure facility provision in Craven there are a number of key priorities that need to be addressed, and implemented. These are set out below in the Action Plan, based on the recommendations for future provision.

RECOMMENDATIONS

RECOMMENDATION 1 (R1)

The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, including the retention and increase of water space in Settle £5m and new or fully refurbished sports hall at Sandylands Sports Centre (£1.2m).

RECOMMENDATION 2 (R2)

CDC identifies the level of capital funding required to address the identified investment needs circa £7.5 – £8.7million, and seeks to secure S106 contributions and adoption of CIL to secure investment for the identified needs

RECOMMENDATION 3 (R3)

CDC adopts the suggested sub area approach to provision of participation opportunities through formal and informal facilities and facilitates and enables this local approach in partnership working driven by increased investment in sports facilities.

RECOMMENDATION 4 (R4)

It is recommended that the pool and sports hall on the former Malsis school site are closed – surplus to requirements.

RECOMMENDATION 5 (R5)

South Craven School is developed as a key community accessible sports facility; improvements to the tennis courts and pitches should progress, and the sports hall capacity be maximised for use by local clubs.

RECOMMENDATION 6 (R6)

CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community access (pay and play usage as a priority).

RECOMMENDATION 7 (R7)

Further work is undertaken to assess the business case for the development of improved tennis and multi-sport facilities at Sandylands Sports centre. £1m

RECOMMENDATION 8 (R8)

Further work is undertaken to develop the business case for investment in, and development of a closed circuit cycling track, and the future development of bowls facilities. £1m

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

1. BACKGROUND

1.1. The original assessment of existing and future needs in relation to Open Space and Playing Pitches was completed in 2004, and is therefore now out of date. The 2015 assessment was designed to refresh and upgrade the earlier study. This assessment has undertaken a qualitative and quantitative assessment of the existing and future needs of the community for the following types of open space that exist in the part of Craven District that falls outside the Yorkshire Dales National Park i.e., the plan area:

- **Parks and Gardens**
- **Amenity Greenspace**
- **Provision for Children and Young People**
- **Allotments**
- **Cemeteries, Churchyards and other Burial Grounds.**
- **Civic Spaces**
- **Natural and Semi-Natural Greenspaces**
- **Green Corridors**

Note – Not all natural and semi natural greenspaces and green corridors have been assessed and analysed. Those sites which have been included in this study are those that are located within existing settlements e.g., Skipton Woods & Leeds Liverpool Canal (see annexes D & E for a list of sites). Due to the rural nature of the plan area most residents have access to open countryside via the Public Rights of Way network; therefore this study has not completed a full quantitative analysis of all natural and semi natural green spaces and green corridors that exist throughout the plan area.

1.2. Whilst a similar methodology was adopted, the 2015 study in relation to the Open Space elements of the study included a new qualitative assessment of each significant space for the purposes of compliance with the original PPG17 methodology. Some small open spaces were assessed using a desktop and Street View method in order to carry out a complete and rounded assessment, although some very small spaces (less than 0.2 ha and of limited amenity value) were excluded.

1.3. In addition, consultation was conducted with parishes throughout the District. This sought views on the quality, quantity and accessibility of green space in those parishes. Some anecdotal information was also obtained relating to the desire for additional facilities in each parish's open spaces.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 1.4. Some conclusions were drawn in relation to the need for actions in service as well as in planning terms. A number of actions were formulated, and included in an Action Plan for consideration in the short, medium, and long term.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

2. VISION AND OBJECTIVES

2.1. The study was completed in accordance with the District Council's Open Space Vision, i.e.:

“Improving the quality of life and making Craven’s public spaces cleaner, safer and greener”¹

2.2. The key Open Space Assessment objectives were defined for the study by the client as follows:

- 1. Protecting existing open space and supporting and providing open spaces, play spaces and access to local biodiversity**
- 2. Creating safe, attractive and accessible spaces for all, improving the standard of management and maintenance and increasing participation in open spaces, sport and recreation**
- 3. To undertake a qualitative and quantitative assessment of all open space sites and both formal sports facilities and informal sport and recreational facilities**
- 4. To identify qualitative and quantitative deficits or surpluses of those facilities**
- 5. To provide robust and up to date evidence to inform the development of the appropriate planning policy within the Craven Local plan and used by multiple Council units and other stakeholders for a wide range of projects including neighbourhood plans and green space designation**
- 6. To identify the spatial distribution of unmet needs, forecast future needs of the community and establish clear, prioritised, specific and achievable recommendations and actions to address the key issues around quantity and quality of open space and pitch provision**
- 7. Update our comprehensive GIS database of the location, type and quality of all open space sites in the District**
- 8. Ensure that the Open space assessment and action plans are regularly monitored and updated, with a full re-assessment to be undertaken after 5 years.**
- 9. Update the Open Space Standards from the 2004 standards.**

¹ Council Plan 2015-2018

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

3. METHODOLOGY

3.1. The methodology employed included a number of elements:

- Review of national, regional and local strategy and policy documents relevant to the exercise
- Division of open spaces into typology consisting of a number of different and discrete amenity “types”
- Creation of a qualitative template to include key elements of design and maintenance
- Qualitative on-site assessment of approximately 150 open spaces distributed throughout the District, but not including the Yorkshire Dales National Park (YDNP) in accordance with the principles contained in the PPG17 Companion Guide
- Desktop surveys of some smaller and less significant open spaces using a desktop and Google Streetview methodology
- Analysis of results to qualitatively assess the value of open spaces
- Use of quantitative standards in accordance principles contained in the PPG17 Companion Guide (i.e. by applying a local standard based on new Fields in Trust standards to different types of open spaces grouped in accordance with the PPG17 typology in terms of ha per 1,000 population). This has been supplemented by setting local standards across the three geographical areas in Craven District in order to make a District-wide comparison
- Use of accessibility standards as defined by the Fields in Trust Guidance Document
- Defining of a parish questionnaire and distribution to all parishes within the District, but excluding the YDNP
- Analysis of questionnaire results
- Drafting key conclusions relating to the current state of open spaces in the District
- Drafting recommendations relating to the significance of open space in the District in relation to the Local Plan.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

4. STRATEGIC OVERVIEW

PPS GUIDANCE

- 4.1. At the national level, before the replacement of all Planning Policy Statements (PPS's) by the National Planning Policy Framework in March 2012, there were a number which dealt with planning issues in detail. These Planning Policy Statements are detailed for reference in Annex A.
- 4.2. The Localism Act was given Royal Assent in November 2011. It aimed to take planning power from central government and place it in the hands of local authorities and communities. The Act seeks to:
 - **Give new freedoms and flexibilities to local government**
 - **Give new rights and powers for local communities and individuals**
 - **Reform the planning system to make it clearer, more democratic and more effective**
 - **Make reforms to ensure that decisions about housing are taken locally.**

PPG17

- 4.3. The Government issued planning policy guidelines for local authorities in the form of PPG 17 and Companion Guide to PPG17: Assessing Needs and Opportunities. These guidelines formed the basis of the original Craven report. They were first published on 13 September 2001. Although withdrawn on 7 March 2014, the guidelines were not replicated in succeeding enactments and guidelines, and are therefore still relevant as an evidence base. The PPG17 guidelines contained a number of recommendations which are directly relevant to this study.
- 4.4. One policy relates to areas of open space or recreational facilities of high quality or particular importance as a local amenity. These should be recognized by local authorities and given protection through appropriate policies and plans.
- 4.5. In terms of action which local authorities should be taking, they were advised through the PPG17 guidelines to:
 - **Avoid any erosion of recreational function and maintain and enhance the character of open spaces**
 - **Ensure that open spaces do not suffer from encroachment (from traffic flows, etc.)**
 - **Protect and enhance rights of way**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Consider the impacts of development on biodiversity and nature conservation.**

4.6. In general, local authorities should:

- **Promote accessibility to open space and the countryside**
- **Carefully consider safety and security in open spaces**
- **Improve their quality**
- **Meet regeneration needs through the provision of open space**
- **Consider using surplus land for open space purposes**
- **Consider the needs of visitors and tourists through open space provision.**

4.7. PPG17 gives specific guidance in terms of defining how the quality of parks and open spaces can be audited. This guidance has been used to assess the quality of open spaces throughout the District of Craven.

LOCALISM ACT AND THE NPPF

4.8. The Localism Act is being developed through detailed Regulations and the National Planning Policy Framework. This supercedes previous guidance as previously outlined, and introduced detailed modifications to existing Acts including the Town and Country Planning Act 1990 and the Planning Act 2008. The Government laid stress on the role of the National Planning Policy Framework in the following areas:

- **Clarified that the local plan was the keystone of the planning regime**
- **Was crystal clear that sustainable development embraces social and environmental as well as economic objectives and does so in a balanced way**
- **Referred explicitly to the five principles of the UK Sustainable Development Strategy**
- **Is clear that councils should look for net improvements on all dimensions of sustainability**
- **Made explicit that the presumption in favour of sustainable development works through, not against, local plans**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Made it clear that relevant policies - such as those protecting the Green Belt, Sites of Special Scientific Interest, National Parks and other areas - cannot be overridden**
 - **Recognised the intrinsic value and beauty of the countryside (whether specifically designated or not)**
 - **Made explicit what was always implicit: that councils' policies must encourage brownfield sites to be brought back into use**
 - **Underlined the importance of town centres, while recognising that businesses in rural communities should be free to expand**
 - **Embraced a localist approach to creating a buffer of housing supply over and above five years, and in the use of windfall sites**
 - **Allowed councils to protect back gardens from development**
 - **Ensured that playing fields continue to benefit from that same protection that they do currently.**
- 4.9. There are a number of issues relating to the implementation of both the Localism Act and the NPPF. These are highlighted in table 4.1 below. This does indicate that there are some opportunities associated with the Localism Act, and in particular with the NPPF. However, there are also some gaps which presume against a fully co-ordinated planning approach. These need to be at least acknowledged when planning future open space requirements in the District.

FIELDS IN TRUST REVIEW OF STANDARDS FOR OUTDOOR PLAY, SPORT AND RECREATION

- 4.10. Local authorities have traditionally used the National Playing Field Association's "6 Acre Standard." Recommendations on Outdoor Playing Space were first formulated in 1925, soon after the Association's formation. This helped ensure that every man, woman and child in Great Britain should have the opportunity of participating in outdoor recreational activity within a reasonable distance of home during leisure hours. The National Playing Field Association urged all local authorities to adopt a minimum standard of provision of 5 acres (20,000 m²) of public open space for every 1,000 people, of which at least 4 acres (16,000 m²) should be set aside for team games, tennis, bowls and children's playgrounds.
- 4.11. Since then, the National Playing Field Association has kept the recreational space standard under regular review. It now stands as the Six Acre Standard, recommending 6 acres (24,000 m²) per 1,000 head of population as a minimum necessity for space. The National Playing Field Association has since been superceded by Fields in Trust. FIT has conducted research which has indicated that 81% of local planning authorities express quantity standards for open space as "hectares per 1,000 population." This has enabled comparison across England and Wales, and is the most widely used metric for open space standards.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 4.12. The median level of provision for Designated Play Space was 0.25 hectares per 1,000 population. This corresponds to the Fields In Trust benchmark standard. The median accessibility standard was 100m. for Local Areas of Play (LAP's), 400m. for Local Equipped Areas for Play (LEAP's), and 1,000m. for Neighbourhood Equipped Areas for Play" (NEAP's). Accessibility standards have often been expressed in terms of walking time rather than distance.

Table 4.1: Gaps and Opportunities Relating to the Localism Act and the National Planning Policy Framework

OPPORTUNITIES	UNDERSTANDING GAPS	SCOPE FOR IMPROVEMENT
LOCALISM ACT		
<ul style="list-style-type: none"> Local definition of GI Deciding climate change methods at local level 	<ul style="list-style-type: none"> No clarity on range of measures to be delegated How CCPs will operate in practice Lack of strategic-level planning and management without Regional Strategies Lack of expertise of local communities to lead on neighbourhood-level plans 	<ul style="list-style-type: none"> Guidelines required to clarify how localism will work in practice Capacity building for neighbourhoods
NPPF		
<ul style="list-style-type: none"> Presumption in favour of sustainable development Climate change mitigation measures could improve well-being Use of GI as panacea to development GI can be managed using specific designations 	<ul style="list-style-type: none"> Specific recognition for Local Wildlife Sites GI in brownfield sites could be developed 	<ul style="list-style-type: none"> Presumption against development in LWS's Clarity over use of planning designation to protect GI in brownfield sites

- 4.13. Fields In Trust has discovered that the median level of playing pitch provision was 1.21 hectares per 1,000 population (comparable with the Fields In Trust recommended benchmark standard). The median accessibility standard from respondents to the Fields In Trust survey was 1,200m. from dwellings, matching the Fields In Trust benchmark.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 4.14. Respondents to the Fields In Trust survey provided data relating to an overall standard for parks and amenity green space. The median level of provision sought was 1.0 hectares per 1,000 population.
- 4.15. In relation to the meeting of local standards for open space being met in planning decision-making, 64% indicated a score of between 7 and 10 (where 1 indicated “seldom” and 10 indicated “Always”).
- 4.16. Of relevance to future planning of open space requirements in Craven are the new benchmark guidelines contained in Fields in Trust’s “Guidance for Outdoor Sport and Play: Beyond the Six Acre Standard.” These are shown in figures 4.2 and 4.3 below.
- 4.17. The key quantitative standards which are included in this report are those defined in this report, and based on the earlier Craven District Council “Sports, Open Space and Recreation Facilities Assessment.” This was drafted in 2004 and updated in 2008. These define a local standard for each typology of open space across the District and compares it to provision in each of the study areas (North Craven, Mid Craven and South Craven).
- 4.18. These national standards are used later in section 7, and have been used in conjunction with local standards in order to calculate quantitative standards.
- 4.19. The application of national standards alone shows that Craven is deficient in most types of open space. However, the use of local standards provides a more realistic overall picture of provision.
- 4.20. The Council considers that the best approach is to utilise national standards if there is loss of existing provision; and that local standards should be applied to calculate the provision of new facilities (see Annex B & para 7.10).

Table 4.2: FIT Recommended Benchmark Guidelines – Formal Open Space

OPEN SPACE TYPOLOGY	QUANTITY GUIDELINE (HECTARES PER 1,000 POPULATION)	WALKING GUIDELINE (WALKING DISTANCE: METRES FROM DWELLINGS)
EQUIPPED/DESIGNATED PLAY AREAS	0.25	LAPs – 100m LEAPs – 400m NEAPs – 1,000m
OTHER OUTDOOR YOUTH PROVISION (MUGA’S AND SKATEBOARD PARKS)	0.30	700m
AMENITY GREENSPACE	0.60	480m
PARKS AND GARDENS	0.80	710m
ALLOTMENTS	0.30	n/a

Note: The FIT benchmark guidelines do not include quantity guidelines for civic spaces, cemeteries, churchyards and other burial grounds.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 4.3: FIT Quality Guidelines for Formal Open Space

- ✓ **Quality appropriate to the intended level of performance, designed to appropriate technical standards.**
- ✓ **Located where they are of most value to the community to be served.**
- ✓ **Sufficiently diverse recreational use for the whole community.**
- ✓ **Appropriately landscaped.**
- ✓ **Maintained safely and to the highest possible condition with available finance.**
- ✓ **Positively managed taking account of the need for repair and replacement over time as necessary.**
- ✓ **Provision of appropriate ancillary facilities and equipment.**
- ✓ **Provision of footpaths.**
- ✓ **Designed so as to be free of the fear of harm or crime.**
- ✓ **Local authorities can set their own quality benchmark standards for playing pitches, taking into account the level of play, topography, necessary safety margins and optimal orientation**
- ✓ **Local authorities can set their own quality benchmark standards for play areas using the Children's Play Council's Quality Assessment Tool.**

5. CONSTRAINTS

5.1. There were a number of constraints to this study. These were as follows:

- **This part of the assessment was confined to open spaces. Sport and recreation facilities are covered elsewhere in this report**
- **Because Craven's land use planning control does not extend to the Yorkshire Dales National Park, sites contained within the YNDP were not included in the study**
- **This part of the study includes a qualitative audit. Quantitative and accessibility standards, audits and projections are not included, with the exception of anecdotal evidence from the parish consultation exercise**
- **Sites of less than 0.2 ha and of little amenity value were generally excluded in line with PPG17 methodology guidelines**
- **Some small sites did not require a qualitative survey on-site, and were audited using a desktop approach**
- **A number of the responses to the parish and town council consultation exercise were anecdotal in nature (i.e. they requested respondents to give their views in the form of comments rather than by asking them to respond using a rating system).**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

6. GREENSPACE QUALITY AUDITS

6.1 Open spaces were divided using the typology shown in Annex B, which is based on PPG17. This was clarified in the brief provided by the client. The PPG17 Companion Guide stated that: “Quality standards can obviously vary according to the primary and secondary purposes of different forms of provision and their level within any adopted hierarchy of provision. They are not absolute measures, but reasonable aspirations and benchmarks against which to measure the quality of any existing open space or sports facility in order to determine the need for enhancement.” Accordingly, a number of measures were used based on this guidance, and including:

- **Main entrance elements**
- **Signage**
- **Roads, pathways and other accesses**
- **Shrub beds**
- **Mature trees**
- **Bins**
- **Toilets**
- **Lighting**
- **Play provision**
- **Tennis courts**
- **Side entrances**
- **Boundaries**
- **Flower beds**
- **Young trees**
- **Grass areas**
- **Seats**
- **Parking**
- **Information boards**
- **Cleanliness**
- **MUGAs**

6.2 A number of factors for each of the above were scored up to a maximum of five points, and an average rating was calculated for each of the above categories. Total points were compared to a maximum possible score. This was expressed as a percentage to produce a rating for each open space. These defined qualitative provision as:

- **Very poor**
- **Average**
- **Very good**
- **Poor**
- **Good**

6.3 All audited sites were categorized using the typology, and are shown in Annex D.

6.4 Annex C indicates the Craven Sub Areas which have been used in accordance with the study brief in order to carry out analysis of open spaces in the District. These cover the following key North communities:

- **Burton in Lonsdale**
- **High Bentham**
- **Newby**
- **Low Bentham**
- **Ingleton**
- **Clapham**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

6.5 In the Mid area, the following communities are served with open space:

- Giggleswick
- Rathmell
- Wigglesworth
- Settle
- Hellifield

6.6 In the South area, communities studied are as follows:

- Thornton in Craven
- Skipton
- Bradley
- Draughton
- Eastby
- Cowling
- Glusburn
- Halton East
- Cononey
- Gargrave
- Carleton
- Embsay
- Lothersdale
- Kildwick
- Sutton
- Crosshills
- Farnhill
- Embsay

6.7 Audit findings were analysed for these three areas. These findings are shown as figure 6.1 for the North Area. The issues outlined are in relation to qualitative standards as outlined in Annex B.

Figure 6.1: Quality Issues in the North Area

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none">• Quality generally good• Absence of welcoming signage• More information needed for visitors
AMENITY GREENSPACE	<ul style="list-style-type: none">• Generally only average• Absence of welcoming signage• Shortage of bins• Grass maintenance only average• Absence or shortage of benches, particularly those adapted for less able-bodied• Absence or shortage of information, even where there is obvious heritage and history

OPEN SPACE TYPE	ISSUE
CIVIC SPACES	<ul style="list-style-type: none"> • Good or very good • More information needed (e.g. Millennium Square, Bentham)
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> • Good or very good • Wenning Avenue only average • Main problem is lack of signage • Some shortfall in terms of benches and bins
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> • Only average • Lack of information • Some trees in poor condition
CEMETERIES	<ul style="list-style-type: none"> • Cemeteries average or good • Churchyards either good or very good • Difficult to find • Poor signage • Bins and seats in short supply • Some memorials need stress testing

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

6.8 Issues relating to quality in the Mid Area are shown as Table 6.2.

Table 6.2: Quality Issues in the Mid Area

OPEN SPACE TYPE	ISSUE
AMENITY GREENSPACE	<ul style="list-style-type: none"> • Generally only average • Absence of welcoming signage • Shortage of bins • Absence or shortage of benches, particularly those adapted for less able-bodied • Absence or shortage of information, even where there is obvious heritage and history
CIVIC SPACES	<ul style="list-style-type: none"> • Average (Settle Market Place) • More information needed (no signage) • No bench (Settle Market Place)
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> • Average or good • Main problem is lack of signage • Some shortfall in terms of benches and bins
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> • Very good (Castleberg) • Some vandalism • Access difficult owing to terrain (Castleberg)
CEMETERIES	<ul style="list-style-type: none"> • Cemeteries good or very good (churchyards but green burial site exists in Rathmell) • Signage at entrances and to interpret rich heritage and history could be more welcoming and informative • Bins and seats in short supply in places • Some memorials need stress testing

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	ISSUE
ALLOTMENTS	<ul style="list-style-type: none"> • One very poor (Dog Meadow); one average (Settle) • One appears redundant (Gargrave) • Very difficult to find, and unwelcoming • Modest facilities • Poor boundaries in places

6.9 Quality issues relating to the South area are shown as Table 6.3.

Table 6.3: Quality Issues in the South Area

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none"> • Lothersdale Recreation Ground and area south of recreation ground average; Sutton and Aireville Park very good (with the exception of the golf pitch and putt which is poor quality) • Welcoming signage • More information needed for visitors
AMENITY GREENSPACE	<ul style="list-style-type: none"> • Standards variable dependent upon care taken by local community, e.g. low in Glusburn and Crosshills, generally high in Gargrave • Absence of welcoming signage/information/bins • Grass maintenance only average • Absence or shortage of benches
CIVIC SPACES	<ul style="list-style-type: none"> • Very good in Skipton; average or good in Thornton • More information needed • Bench shortage in places

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	ISSUE
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> • Very variable standards • Main problem is lack of signage • More exciting equipment needed in places, especially Aireville Park (regionally significant) • Some shortfall in terms of benches and bins
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> • Skipton good; Lothersdale Reservoir poor • Lack of information • Leeds/Liverpool Canal and towpath between Skipton and Bradley need to be improved
CEMETERIES	<ul style="list-style-type: none"> • Cemeteries average or good • Churchyards either good or very good • Poor signage/bins and seats in short supply • Some memorials are leaning and may need testing
ALLOTMENTS	<ul style="list-style-type: none"> • Mostly poor or average • Very difficult to find, and unwelcoming • Modest facilities • Poor boundaries in places

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7. SERVICE ISSUES RELATING TO QUANTITY AND ACCESSIBILITY

- 7.1. Analysis of the audit findings has identified a number of issues relating mainly to the quantity of open spaces in the District. These, combined with a simple analysis of the distribution of different green space “types” and of relevant national standards (in particular Fields in Trust Guidelines for Formal Open Space) also leads to some conclusions relating to the quantity and accessibility of provision. These issues relate to service provision in terms of quantity and accessibility, rather than planning issues which are considered.
- 7.2. Quantitative issues were considered in the same geographical context as qualitative issues (i.e. by initially analysing quantity and accessibility by geographical area).
- 7.3. The basis for the analysis was the information contained in the Craven District Council “Sports, Open Space and Recreation Facilities Assessment.” This was drafted in 2004 and updated in 2008. These typologies are in line with PPG17 and its Companion Guide. The same typology categories were used as those for open space defined in this report, as set out at 1.1.
- 7.4. The methodology used in this study has been as follows, to:
- **Identify from the study the total area (ha) of open space in each category**
 - **Utilise Fields in Trust standards (in ha per 1,000 people) contained in the latest Guidance Notes for each open space type as defined using the PPG17 typology.**
 - **Merge analysis areas (four were used in the earlier study) so that these relate to the three analysis areas used in this study, and identified in Annex C**
 - **Use updated population statistics for 2012 provided by the client for each of the three analysis areas to create local standards in ha/1,000 population (median average across the plan area)**
 - **Study these local standards to identify shortfalls and surpluses in each analysis area.**
- 7.5. The next section identifies relative shortfalls and surpluses in relation to each of the open space types within the typology utilised in accordance with the PPG17 methodology. This will be of use to the Craven District Council Planning Unit in comparing levels of provision across geographical analysis levels. The local standard has been calculated by expressing provision in hectares per thousand population by comparing the population with the actual level of current provision, i.e. for South Craven in Table 7.91, the 2012 population in thousands was 33.441. This is therefore divided by the total holding of Parks and Gardens in that geographical location (26.6 hectares).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.6. This equates to a level of provision of 0.8 hectares per thousand population. The same process is applied by dividing the current level of provision by the projected population figure in thousands in 2032 (i.e. 39.145). The same process is used for the Mid and North areas. Whilst this does not allow for benchmarking against external standards as detailed in table 7.92, it does allow for benchmark comparisons to be made between provision within the same typology in all three geographical areas, highlighting inequalities and relative shortfalls and surpluses. The population increases projected for 2032 over 2012 are as follows:

- **South Craven: 17% increase in population**
- **Mid Craven: 19% increase**
- **North Craven: 14% increase.**

USE OF EXTERNAL GUIDANCE TO SET QUANTITATIVE PROVISION STANDARDS AND COMPARATIVE STUDY OF PROVISION IN EACH ANALYSIS AREA

7.7. A set of local standards were defined as part of the 2004 Craven open space provision study. However, in some cases these have been superseded by advice provided by Fields in Trust in their document: "Guidance for Outdoor Sport and Play Beyond the Six Acre Standard - England." The setting of these standards accords with guidance provided in relation to "Greenspaces or Sport and Recreation Facilities (October 2015)" which states: "The easiest way to express a quantity standard is a combination of a unit of a 'useful area' of provision and a population, such as X sq m/person (mainly for indoor provision) or Y ha/1,000 people (mainly for open spaces and outdoor sports provision).

7.8. Using the guidance provided by Fields in Trust a set of standards by open space type is shown at Table 7.8 below. It is important to note that access to the countryside is particularly good in Craven, thus reducing the need for provision of a natural or informal nature (e.g. Green Corridors).

7.9. These standards are applied across each of the three study areas within this section. The tables below show how each of the sub areas and the plan area compares to both the Fields in Trust National Benchmark standard as well as the District wide median Local Standard. They show each of the typologies and both the current and future deficit or over supply. This is color coded with Green for over supply and red for deficit.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.8: Quantitative Open Space Standards By Open Space Type

GROUP	PROVISION FOR CHILDREN AND YOUNG PEOPLE	PARKS AND GARDENS	AMENITY GREENSPACE	FORMAL OPEN SPACE
	Other outdoor provision (MUGA's and skateboard parks) 0.30 ha/1000			Allotments, Civic Spaces, Cemeteries, Churchyards and other Burial Grounds
	Equipped/designated play areas 0.25 ha/1000			
NATIONAL STANDARD	0.55 ha/1,000²	0.8ha/1,000	0.6 ha/1,000	n/a
SOURCE	Fields in Trust Guidelines	Fields in Trust Guidelines	Fields in Trust Guidelines	n/a
LOCAL STANDARD*	0.30 ha/1000	0.61 ha/1000	0.41 ha/1000	0.8 ha/1000
SOURCE	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment	2015 Open Space Assessment

*the local standard is the median average for the District as set out in tables below.

7.10. It is recommended that use of the National FIT Standard is applied to protect provision where there may be a current area over supply, against the local standard, but a predicted deficit by the end of the plan period. This only applies to Amenity Greenspace in the South Craven Area, provision for Children and Young People in both the Mid and South Craven area and Formal Open Space in the South Craven and Mid Craven Areas. The only area that is showing a future oversupply against the FIT national Standard is Parks and Gardens in the South Area, this is due to the 21ha Aireville Park, Skipton that skews this data.

² Includes equipped play areas and MUGA/Skatepark provision

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARKS AND GARDENS

- 7.11. There is considerable variation across the District in this category. South Craven is relatively well-provided. However, North and Mid Craven show a considerable quantitative shortfall in relation to both the average standard and in comparison to the National FIT benchmark standard.
- 7.12. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.13. A quantitative analysis of “Parks and Gardens” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.9.

Table 7.9: Quantitative Analysis of Parks and Gardens Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.61)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.61)	DEFICIT/ OVERSUPPLY 2032
South Craven	5	26.6	33,441	0.80	20.40 ha	6.20 ha	39,145	23.88 ha	2.72 ha
Mid Craven	0	0	5,771	0.00	3.40 ha	-3.40 ha	6,870	4.05 ha	-4.05 ha
North Craven	3	1.4	6,408	0.21	3.78 ha	-2.38 ha	7,302	4.31 ha	-2.91 ha
TOTAL	10	28	45,620	0.61*		-0.54	53,317		-4.35

- 7.14. The local comparison standard for Parks and Gardens is **0.61* ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven area has a current over supply of 6.20 ha, that reduces to 2.72 ha by 2032. The Mid and North Craven areas have a current deficit of 3.4 ha and 2.38 ha respectively that is exacerbated to 4.05 ha and 2.91 ha by 2032 if no new provision is created to meet the baseline deficit and future population needs.
- 7.15. Some settlements lack Parks and Gardens but often have spaces that have elements of this typology. Lothersdale Recreation Ground is a good example that's primary classification is that of a Play Area for Children and Young People as the site has an equipped play area, a multi sue Games area and an informal grass pitch. The site also has a War Memorial, some planted areas, trees, benches and paths. This type of multi-functional space is more prevalent in the smaller settlements in order to provide a single central site in the village for a wide range of use and purpose.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.16. A quantitative analysis based on Fields in Trust guidelines (0.8 ha/1000 population) for the category “Parks and Gardens” is shown as Table 7.10. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

Table 7.10: Quantitative Analysis of Parks and Gardens Against External Fields in Trust National Standard

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.8)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.8)	DEFICIT/ OVERSUPPLY 2032
South Craven	5	26.6	33,441	26.75 ha	-0.15 ha	39,145	31.32 ha	- 4.72 ha
Mid Craven	0	0	5,771	4.620 ha	-4.62 ha	6,870	5.50 ha	-5.50 ha
North Craven	3	1.4	6,408	5.13 ha	-3.73 ha	7,302	5.84 ha	-4.44 ha
TOTAL	10	28	45,620		-8.5 ha	53,317		- 14.66 ha

7.17. This highlights a significant current deficit across the whole of the plan area of 8.5 ha that nearly doubles to 14.66 ha over the plan period. The South Craven area has a very small current deficit, with the highest increases to 4.72ha over the plan period due to the population increase. The Mid and North Craven area show a significant current deficit: 4.62 ha and 3.73 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

AMENITY GREENSPACE

- 7.18. There is fairly consistent provision across the District in this category that shows up with each sub area being very close to the District median average. All areas show a current deficit in comparison to the National FIT benchmark standard with the most pronounced being the South Craven area.
- 7.19. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly with deficits increasing
- 7.20. A quantitative analysis of “Amenity Greenspace” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.11.

Table 7.11: Quantitative Analysis of Amenity Greenspace Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.41)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.41)	DEFICIT/ OVERSUPPLY 2032
South Craven	37	14.44	33,441	0.43	13.71 ha	0.73 ha	39,145	16.05 ha	- 1.61 ha
Mid Craven	12	2.12	5,771	0.37	2.37 ha	- 0.25 ha	6,870	2.82 ha	- 0.7 ha
North Craven	10	2.02	6,408	0.32	2.63 ha	- 0.61 ha	7,302	2.99 ha	- 0.97 ha
TOTAL	59	18.58	45,620	0.41		-0.13	53,317		-3.28

- 7.21. The local comparison standard for Amenity Greenspace is 0.41 ha/1,000 population (total amount of current provision / population). The South Craven area shows slightly higher provision with Mid and North Craven slightly down on the District Average. When compared to the future population growth all areas show a deficit with the South Craven area showing the highest at -1.61 ha. There are a small handful of sites that have not been included in the assessment such as highway buffers and small sites that have very little amenity value.
- 7.22. Some settlements lack any Amenity Greenspaces such as Bradley village, but this has a centrally located playing field that provides a secondary function as an Amenity Greenspace including seating, picnic area and host the annual village gala.
- 7.23. A quantitative analysis based on Fields in Trust guidelines (0.6 ha/1000 population) for the category “Amenity Greenspace” is shown as Table 7.12. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.12: Quantitative Analysis of Amenity Greenspace

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.60)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.60)	DEFICIT/ OVERSUPPLY BY 2032
South Craven	37	14.44	33,441	20.06 ha	- 5.62 ha	39,145	23.49 ha	- 9.05 ha
Mid Craven	12	2.12	5,771	3.46 ha	- 1.34 ha	6,870	4.12 ha	- 2.00 ha
North Craven	10	2.02	6,408	3.85 ha	- 1.82 ha	7,302	4.38 ha	- 2.36 ha
TOTAL	59	18.58	45,620		-8.79	53,317		-13.41

7.24. This highlights a significant current and future deficit across the whole of the plan area: 8.79 ha and increasing to 13.41 over the plan period. The South Craven area has the highest current deficit that nearly doubles over the plan period -5.62 to -9.05. The Mid and North Craven area show a smaller current deficit: 1.34 ha and 1.82 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PROVISION FOR CHILDREN AND YOUNG PEOPLE

- 7.25. There is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area show a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and significant current and future provision in comparison to the National FIT benchmark standard.
- 7.26. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.27. A quantitative analysis of provision for “Children and Young People” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.13.

Table 7.13: Quantitative Analysis of Provision for Children and Young people Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.30)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.30)	DEFICIT/ OVERSUPPLY 2032
South Craven	23	10.68	33,441	0.32	10.03 ha	0.65 ha	39,145	11.74 ha	-1.06 ha
Mid Craven	5	1.80	5,771	0.31	1.73 ha	0.07 ha	6,870	2.06 ha	- 0.26 ha
North Craven	6	0.99	6,408	0.15	1.92 ha	-0.93 ha	7,302	2.19 ha	- 1.2 ha
TOTAL	34	13.47	45,620			-0.21	53,317		- 2.52

- 7.28. The local comparison standard for Children and Young People is **0.30* ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against the District Median average, it shows that the South Craven and Mid Craven area has a current small over supply of 0.72 ha, that changes to a deficit of 1.32 ha by 2032. The North Craven area shows a current and future deficit of 0.93 ha to 1.2 ha if no new provision is created to meet the baseline deficit and future population needs.
- 7.29. Most Primary schools in the plan area have on site equipped play areas that provides a play value during term day time use. These have not been included in the analysis unless they have secured community access such as Ings School MUGA.
- 7.30. A quantitative analysis based on Fields in Trust guidelines (0.55 ha/1000 population) for the category “Children and Young People” is shown as Table 7.14. The table sets out how the District and each of the Sub areas compares to this national benchmark standard.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.14: Quantitative Analysis of Provision for Children and Young People Against External Fields in Trust National Standard

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT REQUIREMENT AGAINST FIT STANDARD (0.55)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT AGAINST FIT STANDARD BY 2032 (0.55)	DEFICIT/ OVERSUPPLY 2032
South Craven	23	10.68	33,441	18.39 ha	- 7.71 ha	39,145	21.53 ha	- 10.85 ha
Mid Craven	5	1.80	5,771	3.17 ha	- 1.37 ha	6,870	3.78 ha	-1.98 ha
North Craven	6	0.99	6,408	3.52 ha	- 2.53 ha	7,302	4.01 ha	-3.02 ha
TOTAL	34	13.47	45,620		- 11.61 ha	53,317		- 15.85 ha

7.31. This highlights a significant current deficit across the whole of the plan area of 11.61 ha and is exacerbated to 15.85 ha over the plan period due to the population increase. The South Craven has the highest current deficiency of 7.71 which increases to 10.85 over the plan period. The Mid and North Craven area show much smaller current deficiencies of 1.37 ha and 2.53 ha respectively, which slightly increases over the plan period if no new provision is created.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

FORMAL OPEN SPACE: ALLOTMENTS, CIVIC SPACE, CEMETERIES, CHURCHYARDS AND OTHER BURIAL GROUNDS

- 7.32. Overall there is a good coverage across the District in this category with the South Craven and Mid Craven areas slightly above the plan area average. However, North Craven area show a quantitative shortfall in relation to the average standard. All areas show a future deficiency against the current district average and there is no overall national benchmark standard to compare with. However, the FIT report “Beyond the Six Acre Standard Guidance” include other open space standards including one for local authorities for Allotments at 0.3 ha per 1000 population. The standard in 2004 was 1.6 ha/1000 population, would show deficit of 73ha if applied and is therefore clearly out of date.
- 7.33. Projected population figures for 2032 show a 17% increase over 2012. At the current level of provision, the quantity of land available in this category decreases accordingly.
- 7.34. A quantitative analysis of provision for “Formal Open Space” compared across the 3 sub area and against the District average for current and future population levels is shown as Table 7.15.

Table 7.15: Quantitative Analysis of Formal Open Space Comparison by Sub Area and Craven Total

GEOGRAPHICAL AREA	TOTAL NO OF SITES.	HA	POPULATION 2012	CURRENT PROVISION HA/1000	REQUIREMENT CURRENT MEDIAN (0.80)	CURRENT DEFICIT/ OVERSUPPLY	POPULATION 2032	REQUIREMENT BY 2032 AGAINST LOCAL STANDARD (0.80)	DEFICIT/ OVERSUPPLY 2032
South Craven	40	28.59	33,441	0.85	26.75 ha	1.84 ha	39,145	31.32 ha	-2.73 ha
Mid Craven	10	4.96	5,771	0.86	4.62. ha	0.34 ha	6,870	5.50 ha	- 0.54 ha
North Craven	13	3.03	6,408	0.47	5.13 ha	-2.1 ha	7,302	5.84 ha	-2.81. ha
TOTAL	63	36.58	45,620	0.80		0.08 ha	53,317		- 6.08

- 7.35. The local comparison standard for Formal Open Space is **0.80 ha/1,000 population** (total amount of current provision / population). When comparing the provision in each of the sub areas against this District Median average, it shows that the South Craven and Mid Craven area has a current over supply of 1.84 ha and 0.34 respectively. However this changes to a deficit of 2.73 ha and 0.54 by 2032 due to population change. The North Craven area shows a current and future deficit of 2.1 ha that will increase to 2.81 ha if no new provision is created to meet the baseline deficit and future population needs.
- 7.36. Within this data there are some very clear deficiencies such as no allotments in the North Craven Area, despite 13.85 ha of provision in South and Mid Craven. When compared to the National FIT local authority standard for allotments (0.3) the plan area matches this standard ($13.85/45,620 \times 1000$) with Skipton being showing a surplus at 0.36 and Mid Craven equal at 0.3.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.37. When comparing this for the end of the plan period there will be a small deficit of 0.04. This will be most acute in North Craven with no provision, Skipton will still have a slight over supply (0.38) and Mid Craven will have small deficit of 0.05.

USE OF EXTERNAL GUIDANCE TO SET ACCESSIBILITY STANDARDS

7.38. The PPG17 Companion Guide states that: "Distance thresholds are a very useful planning tool, especially when used in association with a Geographical Information System (GIS). For example, it is possible to identify the percentage of households within a distance threshold of any particular provision or to compare possible locations for new provision to determine which will be the most effective."

7.39. The 2004 Open Space Assessment is utilised as a basis on which to define accessibility standards. These catchment areas are in part adapted from the Greater London Authority Guide to Preparing Open Space Strategies. These standards were endorsed within the Commission for the Built Environment Best Practice Guidance Document ("Open Space Strategies"). They have the advantage that they cover Allotments, Cemeteries and Civic Spaces for which alternative standards are unavailable or unrecognized (Table 7.16). These were used more extensively in the 2004 Craven Open Space Assessment. However, they have been superseded in the case of Informal Outdoor Space by the Fields in Trust recommended benchmark guidelines. Table 7.14 below describes catchment areas used for the Craven Open Space Assessment. These have also been used in relation to equipped play areas and other provision (MUGAs and skateboard parks). See Table 7.15. Equipped/designated play areas are designated as:

- **Local Areas for Play (LAPs) aimed at very young children;**
- **Locally Equipped Areas for Play (LEAPs) aimed at children who can go out to play independently; and**
- **Neighbourhood Equipped Areas for Play (NEAPs) aimed at older children.**

7.40. There are other standards available (e.g. the English Nature ANGSt model), which uses the following:

- **No person should live within more than 300m from their nearest area of natural greenspace.**
- **Provision of at least 1ha of Local Nature Reserve per 1000 population.**
- **There should be at least one accessible 20ha site within 2km from home.**
- **There should be one 100ha site within 5km**
- **There should be one 500ha site within 10km.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.41. Despite these ANGSt targets being used by a number of local authorities in relation to the planning of accessible natural greenspace, this has been rejected in the case of standards setting by Craven because the Fields in Trust guidelines are more appropriate for Craven as outlined in October 2015 “Beyond the Six Acre Standard Guidance for Outdoor Sport and Play England.” This is because the residents of Craven have access to large areas of countryside, and the guidelines are arguably over-detailed for a rural district.

Table 7.16: Accessibility Standards for Informal Open Space for Based on Fields in Trust Benchmark Guidelines (Oct 2015)

OPEN SPACE TYPOLOGY	WALKING GUIDELINE (walking distance: metres from dwellings)	QUALITY GUIDELINE
PARKS AND GARDENS	710 m	<ul style="list-style-type: none"> • Green Flag standard • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime
NATURAL/SEMI NATURAL GREENSPACES	720 m	<ul style="list-style-type: none"> • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime
AMENITY GREENSPACE	480 m	<ul style="list-style-type: none"> • Appropriately landscaped • Positive management • Provision of footpaths • Designed to be free of the fear of harm or crime

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 7.17: Accessibility Standards for Play Provision Based on Fields in Trust Benchmark Guidelines (Oct 2015)

OPEN SPACE TYPOLOGY	WALKING GUIDELINE (walking distance: metres from dwellings)	QUALITY GUIDELINE
EQUIPPED/DESIGNATED PLAY AREAS OTHER OUTDOOR PROVISION (MUGAS AND SKATEBOARD PARKS)	LAPs – 100m LEAPs – 400m NEAPS – 1,000m 700m	<ul style="list-style-type: none"> • Quality appropriate to the intended level of performance, designed to appropriate technical standards. • Located where they are of most value to the community to be served. • Sufficiently diverse recreational use for the whole community. • Appropriately landscaped. • Maintained safely and to the highest possible condition with available finance. • Positively managed taking account of the need for repair and replacement over time as necessary. • Provision of appropriate ancillary facilities and equipment. • Provision of footpaths. • Designed so as to be free of the fear of harm or crime.

Table 7.18: Accessibility Standards for Allotments, Cemeteries and Civic Spaces Provision Based on GLA Guide to Preparing open Space Strategies

OPEN SPACE TYPOLOGY	REGIONAL SIGNIFICANCE (OVER 400 HA)	METROPOLITAN SIGNIFICANCE (60-400 HA)	DISTRICT SIGNIFICANCE (20-60 HA)	LOCAL SIGNIFICANCE
ALLOTMENTS	8km	3.2km	1.2km	400m
CEMETERIES	8km	3.2km	1.2km	400m
CIVIC SPACES	8km	3.2km	1.2km	400m

NOTE – In terms of CDC's draft policy approach the preference will be to improve the quantity of existing OS, which will incorporate accessibility standards. Where there is sufficient quantity of OS policy will then aim to improve the quality of existing OS.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

QUANTITATIVE ISSUES

7.42 Some analysis was also highlighted both as a result of impressions gained whilst conducting the qualitative review, and from comments obtained and analysis of the parish consultation exercise. These reinforce the findings of the foregoing quantitative analysis.

7.42. Issues relating to the northern area are shown as Table 7.19 below.

Table 7.19: Quantitative issues in the north

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none">Only multi-purpose park is in Ingleton. Other communities lack provision
AMENITY GREENSPACE	<ul style="list-style-type: none">Accessibility varies, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none">Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracksGreen play under-provided, and particularly suitable for rural locationsMore adventurous play equipment (e.g. iplay, low ropes, etc.) should be consideredSignificant shortfall in terms of Youth and Teenage provisionLack of provision in Burton in Lonsdale (recent closure of site identified via recent CDC site visit.
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none">Little provision of this type, but offset by high level of access to the wider countryside
CEMETERIES	<ul style="list-style-type: none">Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none">Distinct lack of provision

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.43. Quantitative issues identified in the Mid area are shown as Table 7.20.

Table 7.20: Quantitative issues in the mid area

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none"> • Little provision. May warrant consideration in Settle
AMENITY GREENSPACE	<ul style="list-style-type: none"> • Accessibility varies, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> • Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracks, particularly in Settle • Green play under-provided, and particularly suitable for rural locations • No MUGA provision in Settle • More adventurous play equipment (e.g. iplay, low ropes, etc.) should be considered • Significant shortfall in terms of Youth and Teenage provision
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> • Little provision of this type (apart from Castleberg), but offset by high level of access to the wider countryside
CEMETERIES	<ul style="list-style-type: none"> • Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none"> • Lack of quality provision may need investigation in light of national demand

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.44. Finally, quantity and accessibility issues relating to the South area are shown in Table 7.21.

Table 7.21: Quantitative issues in the south

OPEN SPACE TYPE	ISSUE
PARKS AND GARDENS	<ul style="list-style-type: none"> Limited provision. May warrant consideration in Skipton
AMENITY GREENSPACE	<ul style="list-style-type: none"> Accessibility varies in rural areas, but is offset in most places by a high level of access to the countryside
CHILDREN'S PLAY AREAS AND FACILITIES FOR YOUNG PEOPLE	<ul style="list-style-type: none"> Demonstrable need for more teenage/youth provision for facilities such as skate parks, BMX or pump tracks, particularly in Skipton Green play under-provided, and particularly suitable for rural locations More adventurous play equipment (e.g. iplay, low ropes, etc.) should be considered Significant shortfall in terms of Youth and Teenage provision
SEMI/NATURAL GREENSPACE	<ul style="list-style-type: none"> Little provision of this type (apart from Skipton Woods and Reservoir in Lothersdale and area south of recreation ground), but offset by high level of access to the wider countryside Greater accessibility to Leeds/Liverpool canal by improved signage, surfaces, etc. would increase usage
CEMETERIES	<ul style="list-style-type: none"> Cemeteries appear quite full – may need to investigate consideration of space allocation to meet future demand
ALLOTMENTS	<ul style="list-style-type: none"> Lack of quality provision may need investigation in light of national demand

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

7.45. Issues identified across the District in relation to quantity and accessibility are as follows:

- **Provision of multi-purpose parks such as those at Sutton is lacking in all three geographical areas in key settlements**
- **Because of the variability in provision for children and young people, an upgrade is necessary in a number of communities. This should include the provision of safer surfaces in places, and the installation of challenging and exciting pieces of equipment. This is particularly important in Aireville Park, with its large potential catchment**
- **There is a demonstrable need for teenage and youth facilities such as BMX/pump tracks in Settle, and in Ingleton in the northern geographical area**
- **Adventurous play provision such as iplay should be considered in settlements in all three areas. This is lacking at the moment**
- **“Green” play provision would be desirable and suitable for all areas, but in particular in rural locations. Little provision of this type exists in Craven**
- **There is limited MUGA provision, and this should be considered, particularly in Settle**
- **Greater use should be made of open space by using more informal landscape methods to encourage biodiversity and habitat creation. This is lacking at present**
- **Green corridors such as the Leeds to Liverpool Canal should be upgraded or created to link settlements, encourage wildlife, and increase green transportation (walking and cycling). There is also a current project to improve the towpath between Skipton and Bradley**
- **The provision of burial space should be further explored in order to ensure an adequate future supply**
- **Allotment provision should be increased in terms of quality and quantity to meet sustained demand. There are no sites in the north.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

8. CONSULTATION

8.1. A consultation exercise was conducted which consisted of a questionnaire to all parishes within the Craven District (excluding those in the Yorkshire Dales National Park). This covered the following areas in accordance with the PPG17 methodology pursued in accordance with the objectives of the study:

- **A general question about the importance of open space in each parish**
- **A question about the quality of open space as perceived split between:**
 - **Parks and Gardens:** usually multi-functional in terms of provision and serving a fairly wide catchment. May contain playgrounds and other facilities including sports pitches
 - **Amenity Greenspace:** smaller open spaces with provision usually confined to the immediate neighbourhood. Not multi functional and usually consisting of lawn and sometimes trees
 - **Children and young people:** playgrounds and similar facilities for children and teens
 - **Allotments:** allotment garden areas
 - **Cemeteries:** either active or redundant in terms of burial
 - **Civic Spaces:** Usually hard surfaced and consisting of small areas such as squares and war memorial areas.
- **A question about the quantity and accessibility of open space in the above categories**
- **A general question about improvements you would like to see in those categories.**

8.2. Findings indicating the issues arising from consultation are shown in Table 8.1. These are shown by Parish. Twelve parish responses were received in total.

8.3. The following codes are used to qualify responses in relation to “Importance to Health:”

V = very important

F = fairly important

N = not very important

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

8.4. The question relating to importance to health was:

“How important do you think it is to have green spaces for people’s mental, emotional and physical health near to where they live?”

8.5. The results were unequivocal. Eleven out of twelve respondents considered that local open spaces were “very important,” and one that they were “fairly important.” None thought that they were “not very important.” Thus it is obvious that there is a high awareness of the value of local green space to the health of people living nearby.

8.6. In relation to questions relating to the quality and quantity and accessibility of green space by parish, the following codes were used:

E = excellent

G= good

A = average

BA = below average

P = poor

8.7. Responses were received in relation to the question:

“How would you rate the quality of green space by type in the parish?”

8.8. These responses relate to each category of open space as indicated earlier in this section, and are as follows:

- ***Parks and Gardens*** - 33% believed quality to be “excellent;” 55% believed it to be “good;” and the remaining parish that it was “average.” There are few open spaces in this category, and they include multi-functional facilities such as Sutton Park and Ingleton Park. Direct parish experience of operating such open spaces is therefore limited. Nevertheless, the responses mirror those recorded from the site audits.
- ***Amenity Greenspace*** – 33% considered amenity greenspace to be “excellent,” 56% thought it “good,” and the other response as “average.” This is the type of greenspace with the most provision throughout the District. Responding parishes tended to have a higher opinion of quality than that suggested by the independent physical assessment.
- ***Children and Young People*** – 29% of parishes in the survey thought these facilities to be “excellent” in quality. A similar number felt quality to be “good.” One parish thought facilities were somewhere between “good” and “average,” and 29% thought them “average.” These results are slightly higher in terms of their assessment of quality than those suggested by the physical audit, but not to a marked degree.
- ***Allotments*** – of six parishes commenting on the value of allotments, one felt that quality was “excellent.” One parish felt that quality was “good” and one that it was somewhere between “good” and “average.” Two felt that the standard was “average.” The physical audit indicated that the standard was closer to “average.”

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

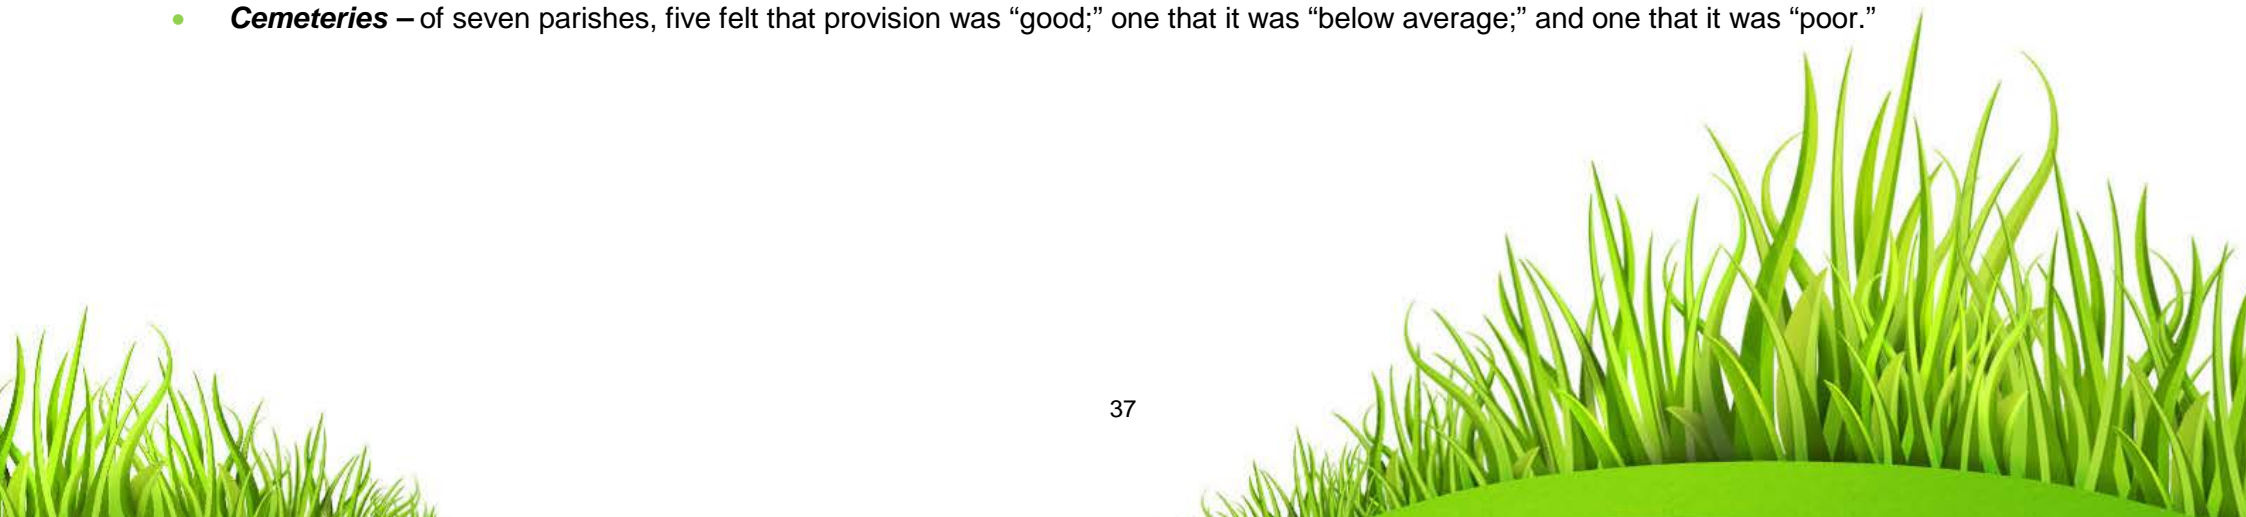

- **Cemeteries** – seven parishes responded to this question. Of these, two considered them “excellent,” three were “good” and two were “average.” It should be noted that “cemeteries” include areas set aside purely for burial as well as the grounds of churchyards which include current or historic burials. Overall results are similar to those of the physical assessment, although the latter indicated a disparity in quality between the two types of “cemetery” included in this category, with churchyards generally scoring more highly than bespoke burial grounds.
- **Civic Spaces** – four parishes responded, possibly reflecting the fact that civic spaces are not as numerous as most other categories (in particular amenity greenspaces). Opinion was divided, with one deeming them to be “excellent,” one “good,” one “average,” and one “average to below average.” These results were slightly below those indicated in the physical audit.

8.9. There were responses from parishes relating to the quantity of provision, phrased as:

“How would you rate the adequacy of supply of green space in terms of quantity and accessibility by type in the parish.”

8.10. Responses were as follows:

- **Parks and Gardens** - 29% felt that supply in this category was “excellent.” A similar percentage felt that it was “good.” The remainder (43%) felt it was “average” or “below average.”
- **Amenity Greenspace** – Eight parishes responded. 38% considered amenity greenspace to be “excellent,” in terms of quantity of provision and accessibility. Two parishes considered supply to be “good,” and two thought it “average.”
- **Children and Young People** – of the seven respondent parishes, two thought supply to be “excellent;” three “good;” one “average,” and one “poor.”
- **Allotments** – of six parishes, it is compelling that none thought supply to be more than average. Two felt it was “below average,” and one that it was “poor.”
- **Cemeteries** – of seven parishes, five felt that provision was “good;” one that it was “below average;” and one that it was “poor.”

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 8.1: Issues Arising From Parish Consultation

OPEN SPACE TYPE	BANK NEWTON	KILDWICK	CARLETON	DRAUGHTON	ELSLACK	EMBSAY WITH EASTBY	FARNHILL	GARGRAVE	SUTTON IN CRAVEN	SKIPTON	HELLIFIELD	OTTERBURN

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Civic Spaces** – five parishes responded. Two felt provision to be “excellent;” two that it was “average;” and one that it was “poor.”

8.11. A third question for parishes related to the need for improvements. The question was:

“What improvements would you like to see to green space by type in the parish?”

8.12. Responses were as follows:

- **Parks and Gardens** - some feedback was received in relation to the need for general improvements across the board, although no parishes considered that better landscaping was required. Some general comments were made which related in the main to concerns in individual parishes. However, the need for more information about heritage and history was raised.
- **Amenity Greenspace** – the need for some improvements in all categories was raised. The most requested were for improved entrances and better access. The need for some resourcing to maintain these spaces in good order was noted, including the need to consider improved litter collection at times. Comments were received specifically about the need to improve the Liverpool to Leeds Canal, and to make it more accessible to walkers (N.B. This issue is being addressed by the current improvement project).
- **Children and Young People** – more facilities were raised as important by two parishes. Of specific comments, better equipment was also highlighted as important, although efforts had stalled in Skipton because of a lack of consensus.
- **Allotments** – better access was cited as in need of improvement. The accompanying comments made reference to the need for better security (at two sites in Skipton), and also a perceived shortage in terms of supply.
- **Cemeteries** – comments related to the need for better access and better management. It should be noted that the quality audit elicited the difference in standards between burial grounds and churchyards used for burial, both of which are included within the “cemeteries” category. There was a comment about the need to maintain or improve grass cutting standards (N.B. it should be noted that these comments need to be taken in context, and by reference to the quality section of this report which identifies grass cutting and other standards on a site-by-site basis at the time of audit). A comment was received that the Raikes Road cemetery could be opened up more regularly to the general public. It was noted at the time of the quality audit (when the cemetery was closed) that this was a very attractive green space near Skipton town centre which could be an additional area for informal recreation for visitors and residents.
- **Civic Spaces** – no particular issues were raised, although general comments were made about the need for some repair works, and the perceived need for a recycling area.

8.13. Table 8.2 relates to all parishes, and requests for improvements to open space in accordance with the typology.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 8.2: All parishes - Requests for improvements to open space in accordance with the typology

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
<i>PARKS AND GARDENS</i>	✓		✓	✓	✓	✓	<ul style="list-style-type: none"> • Better weed control. Grass very good but weeds a problem near river • More information needed on heritage and history More information needed about PROW's • Improvements can always be made but overall the only real deficit is in the number of sports pitches. • Sandylands seems able to cope with demand at current levels, but as demand grows it is clear that additional formal pitches will be needed (see also comments in the "Built Facilities" Assessment).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
<i>AMENITY GREENSPACE</i>	✓	✓	✓	✓	✓	✓	<ul style="list-style-type: none"> There could be improvements to the canal towpath for walkers (N.B. the towpath is currently being improved to address these concerns). The Parish is against the use of the canal towpath for cycling as walkers and cyclists on the same path is a dangerous combination. We are supportive of Craven District's plans to upgrade the Leeds and Liverpool canal towpath in the area and would ask that they prioritise finding the funding to complete the stretch through Kildwick so that we link up with the stretch at Silsden (which has already been upgraded) and the stretch at Bradley (which is about to be) Litter can be a problem No obvious improvements required, although more money is needed to keep these spaces in good repair and to replace vandalized or stolen facilities.
<i>CHILDREN AND YOUNG PEOPLE</i>				✓			<ul style="list-style-type: none"> Better equipment – currently in the pipeline Some improved equipment required As highlighted above, the only issues are at North Parade and at Middletown, and these are either being resolved or are, as yet, unresolvable because of the lack of a consensus. Area needed for a youth shelter.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
ALLOTMENTS			✓				<ul style="list-style-type: none"> • More allotments may be needed. A waiting list is in operation • The Town Council's allotments sites, particularly at Middletown and Carleton Road, need better security but money remains the issue. The Council is tackling the problem incrementally. • Long waiting list (35 people for 22 plots) • We have no allotments.
CEMETERIES			✓		✓		<ul style="list-style-type: none"> • Any further reduction by Craven District Council to its grass cutting budget would impact on the appearance and usability of these spaces and we would therefore like to see grass cutting levels maintained or increased. • A new burial ground has just been opened • May need more space in future • It would be good if Raikes Road Burial Ground could be open on a more regular basis but this decision rests with the Friends Group • May need an extension in future • Almost full.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

OPEN SPACE TYPE	BETTER ENTRANCES	LANDSCAPING	BETTER ACCESS (FOOTPATHS, ETC.)	MORE FACILITIES (CATERING, ETC.)	BETTER MANAGEMENT (LITTER, ETC.)	MORE INFORMATION (BOARDS, ETC.)	OTHER
<i>CIVIC SPACES</i>							<ul style="list-style-type: none"> Some stonework repairs required to war memorial Recycling area needed The setts on the High Street are in need of refurbishment – hopefully this will be resolved as the Town Council gains control of more areas of the Market.

8.14. In addition to these structured responses, a section entitled “other comments” was included in order to allow parishes the opportunity to make more general statements about their perception relating to green space in their parish or town council.

8.15. Comments received were as indicated in the Table overleaf.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Table 8.3: Parish Comments (Anecdotal)

PARISH	GENERAL COMMENTS
BANK NEWTON	<ul style="list-style-type: none"> The green space in the Parish is a combination of foot paths, bridle tracks and the canal towpath. The countryside is beautiful with easy access and of the highest quality. There is a National Cycle Route along the road which is well used. There are sufficient walking routes. There could be improvements to the canal towpath for walkers. The Parish is against the use of the canal towpath for cycling as walkers and cyclists on the same path is a dangerous combination.
KILDWICK	<ul style="list-style-type: none"> Green space is very important to the residents of Kildwick. The parish comprises a small village surrounded by open countryside which is one of the key reasons why people choose to live here. Local moorland, farmland and the canal and river which run through the village provide residents with excellent and numerous opportunities for a whole range of informal outdoor leisure activities including walking, running, cycling, horse riding, boating, angling, bird watching etc. This open greenspace is part of the special character of the village with immeasurable benefits to the physical, mental and emotional health and wellbeing of residents. We believe it is vital that local planning policy ensures this is protected and that agricultural land is not used for residential development. We are supportive of Craven District's plans to upgrade the Leeds and Liverpool canal towpath in the area and would ask that they prioritise finding the funding to complete the stretch through Kildwick so that we link up with the stretch at Silsden (which has already been upgraded) and the stretch at Bradley (which is about to be). In general, the quality of these spaces is good. Both the playing field and church yard are usually well maintained and tidy with seating and level access to both. Any further reduction by Craven District Council to its grass cutting budget would however impact on the appearance and usability of these spaces and we would therefore like to see grass cutting levels maintained or even increased.
CARLETON	<ul style="list-style-type: none"> Being a small village in the countryside, green, open spaces are assured. The nearest town (Skipton) is two miles away whilst others are between four to eight miles distant.
DRAUGHTON	<ul style="list-style-type: none"> We have no public open spaces in the village apart from our village green, which is an area of sloping grass to the side of the main road into the village. We have no cemeteries, allotments, parks or civic spaces. The village, however, is surrounded by open fields, so we have the benefit of open vistas.
ELSLACK	<ul style="list-style-type: none"> As a rural village of 27 houses and farms we have no formal open spaces but unlimited informal open spaces which in my opinion is wholly adequate!

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARISH	GENERAL COMMENTS
EMBSAY WITH EASTBY	<ul style="list-style-type: none"> • This is a rural parish – the presence of greenspaces within the built up part of the parish is vital to maintain that rural nature • Further recreation ground desirable at recently developed southern end of the village. • The maintenance of a “green corridor” upstream and downstream of the nature reserve is considered a vital complement to the more formal open spaces in the parish.
FARNHILL	<ul style="list-style-type: none"> • No facilities for older children • Thank you!
GARGRAVE	<ul style="list-style-type: none"> • Cemetery may need extension in future • Some improved equipment required for children and young people • Some upgrade required for children and young people.
SUTTON IN CRAVEN	<ul style="list-style-type: none"> • More football pitch space needed as the soccer club is expanding rapidly. • Youth shelter needed. • Long waiting list for allotments - 22 plots and waiting list of 35. • Cemetery almost full.
SKIPTON	<ul style="list-style-type: none"> • The beneficial effects of parks and open spaces are now well established, and the fact the Town Council maintains ELEVEN playing fields and play areas in a town the size of Skipton speaks for itself. • The issue of dog fouling continues to plague several of the town’s open spaces. • Owners neglecting to pick up after their dog and refusing to keep their dog on a lead in children’s play areas, even when the dog has bitten a child. • Referees calling off football matches because of the quantity of dog dirt on the pitch. • Play areas having to be closed to protect grounds staff from dog dirt flicked airborne by mowing equipment, and to prevent children being exposed to pathogens which cause stomach upsets, blindness and death (albeit rarely). • All of these things happen on a regular basis. • We need to channel more funds and human resources into tackling this problem.
HELLIFIELD	<ul style="list-style-type: none"> • No public toilets on sports field. • No water supply to allotments.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

PARISH	GENERAL COMMENTS
OTTERBURN <i>N.B. VILLAGE IS ENTIRELY WITHIN YORKSHIRE DALES NATIONAL PARK</i>	<ul style="list-style-type: none"> We are fortunate that we are a village with immediate access to the Dales. We do have a village green but besides gardens the hamlets' open spaces is the countryside. The village is very fortunate in that every house has a good garden; there is "civic" space along the beck and in the shape of the village green (though it is privately owned); and that we have good access to the countryside.

8.16. These general comments included a number of unifying "themes" including:

- An appreciation of the countryside as providing a unique resource in the Dales for outdoor recreation, and a desire to ensure that it is carefully conserved and not subject to development. A large proportion of the population of Craven have easy access to a large variety of leisure activities including walking, cycling, horse riding, running and other, similar pursuits. The presence of private gardens was also seen as important in meeting people's needs**
- The Liverpool to Leeds Canal towpath was seen as a highly important resource, particularly for walking. It also acts as a "green corridor" for wildlife**
- The quality of more formal open spaces (those included in the quality audit) was seen as generally good, although there were some reservations about grass cutting and litter collection standards**
- The inclusion of these formal open spaces was seen as essential by some in order to take pressure off the countryside**
- Facilities for children and young people were seen as in need of improvement in some areas with better equipment and more facilities. A youth shelter was mentioned as in need of provision for Sutton in Craven**
- Cemeteries are getting quite full in some places, highlighting the need for consideration of new burial space**
- The quantity and quality of allotment plots is lacking in some areas, indicating that more provision may be needed, and existing provision may need to be improved.**

9. OVERALL ANALYSIS OF CONSULTATION FINDINGS

9.1. Although based on the views of those parishes and town councils which responded to the survey, nevertheless it is considered that these were representative given the percentage that positively replied. These mirrored many of the findings which became apparent following analysis of the qualitative audit. They also provided useful anecdotal evidence, particularly in relation to perceptions of the quantity and accessibility of alternative forms of outdoor provision which were not considered in depth as part of this study.

9.2. Issues identified as a result of the consultation exercise in relation to quality are as follows:

- Respondents were unanimous in their endorsement of the value of local open spaces to people's mental, emotional and physical health
- Most believed the quality of "Parks and Gardens" to be "good" or "excellent"
- The quality of "Amenity Greenspace" was perceived as "good" or "average"
- Perceptions relating to facilities for "Children and Young People" varied, but were generally favourable
- "Allotments" were considered to vary, but were not generally seen as "poor"
- "Cemeteries" were viewed as "average" to "excellent." It is important to note that this category includes burial grounds as well as churchyards and grounds associated with churches
- "Civic Spaces" were perceived to vary from "below average" to "excellent."

9.3. Issues relating to quantity and accessibility were:

- A significant proportion of respondents felt the supply of "Parks and Gardens" to be only "average"
- In general respondents considered the supply of "Amenity Greenspace" to be adequate
- The perceived distribution of facilities for "Children and Young People" varied considerably from "poor" to "excellent"
- "Allotments" were considered to be poorly supplied
- The provision of "cemeteries" was considered to be generally "good," although two respondents felt that it was "below average" or "poor."

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

9.4. Improvements ranged across a number of functional service areas, and included the following:

- **Improvements could be made for walkers, and in particular the Liverpool to Leeds Canal towpath**
- **The presence of open spaces of a more formal nature was important in order to conserve the surrounding countryside**
- **Facilities including equipment were needed for children, and particularly for older children. A youth shelter was mentioned by Sutton in Craven**
- **Some areas need more allotment provision**
- **Some areas need additional burial space**
- **Dog fouling appears to be a significant issue in Skipton's open spaces.**

9.5. Many of the general comments were quite revealing, and included:

- **The need to conserve the countryside and protect it against development**
- **The value of the Liverpool to Leeds Canal for recreation and wildlife**
- **Formal open spaces were perceived as important in order to take pressure off the surrounding countryside**
- **Improved facilities are needed for children and young people**
- **Consideration needs to be given to improving and providing more allotment plots**
- **Some areas appear to be running out of burial space.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

10. KEY FINDINGS

10.1. A number of key findings have strong potential implications for future strategy in relation to both the provision of the green space service, and also the planning service as it relates to green space and countryside provision in Craven.

10.2. These findings have been identified using the following sources:

- **Quality audit**
- **Client observations**
- **Consultation findings**
- **Local and national planning, countryside and green space guidelines.**

FINDINGS RELATING TO SERVICE PROVISION

10.3. These findings as they relate to service provision are as follows:

- **Parishes united in conclusions about the importance of open space**
- **Provision of multi-purpose parks such as those at Sutton is lacking in all three geographical areas in key settlements**
- **Because of the variability in provision for children and young people, an upgrade is necessary in a number of communities. This should include the provision of safer surfaces in places, and the installation of challenging and exciting pieces of equipment. This is particularly important in Aireville Park, with its large potential catchment**
- **There is a demonstrable need for teenage and youth facilities such as BMX/pump tracks in Settle, and in Ingleton in the northern geographical area**
- **Adventurous play provision such as iplay should be considered in settlements in all three areas**
- **“Green” play provision would be desirable and suitable for all areas, but in particular in rural locations**
- **There is limited MUGA provision, and this should be considered, particularly in Settle and better use of the MUGA in Aireville Park**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- The rich heritage and history of the area should be interpreted in parks and gardens, amenity open spaces, cemeteries and civic spaces in the north, mid and southern areas
- All open space types in all three geographical areas should have improvements made to entrances in line with Green Flag criteria in order to make them more welcoming, and to attract more visitors
- Greater use should be made of open space by using more informal landscape methods to encourage biodiversity and habitat creation
- Green corridors such as the Leeds to Liverpool Canal should be upgraded or created to link settlements, encourage wildlife, and increase green transportation (walking and cycling)
- Allotment provision should be increased in terms of quality to meet sustained demand. There are no sites in the north.

KEY PLANNING FINDINGS

10.4. Findings relating to the future direction of countryside and green space planning in the District are:

- The countryside needs to be protected to offset shortfalls in the quality, quantity and accessibility of more formal open space provision throughout the District
- Measures need to be enhanced to improve biodiversity by using open space through the introduction of meadow, native tree planting and other conservation methods
- Plans to upgrade the Leeds to Liverpool Canal should be pursued, and other green corridors should be considered in order to improve biodiversity, encourage sustainable travel, and connect isolated communities
- Developer contributions should be encouraged to meet shortfalls in quality. In particular improvements should be made to open spaces to make them more welcoming, and to interpret the diverse history and heritage of the district in order to increase residents' "sense of place"
- A developer contribution model to fund improvements to the quality, quantity and accessibility of open space should be developed, through the updating of the Council's existing Planning Gain Guide and approach to calculating developer contributions and by using best practice models from other local authorities (e.g. Harrogate)

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Shortfalls in the quality, quantity and accessibility of facilities for children and youth should be addressed by seeking contributions for innovative play (iplay, “green’ Play, etc.), and for specific facilities such as “low ropes” adventures, BMX and pump tracks (specifically in Settle and Ingleton). MUGA provision is needed in Settle**
- **Measures should be adopted to acquire land where possible for additional burial space**
- **The provision of allotment plots appears inadequate, in line with a national demand which shows no sign of abating. If more space cannot be found, then improvements should be made to the quality of existing sites.**

11. TACKLING KEY SERVICE ISSUES

11.1. Some guidance is provided in the following sections relating to how service issues might be tackled in order to meet the immediate future needs and demands of the green space service. These are:

- S1:** Provision of a small number of multi-purpose Parks and Gardens. This is particularly important in centres of population, i.e. Settle, Bentham and Skipton
- S2:** Creation of challenging and exciting play areas using concepts such as “iplay”
- S3:** More teenage and youth provision in areas of need (e.g. Teen shelters, skateparks, BMX/Pump Tracks)
- S4:** The use of “green play” in suitable rural locations. A number of villages and hamlets in the North, Mid and South areas would benefit
- S5:** Seeking a ban on smoking in line with North Yorkshire County Council’s Strategy: “Prevention for Children and Young People”
- S6:** Increased Multi-Use Games Area provision where needed. MUGA provision is generally lacking. There is a MUGA in Aireville Park, but this is in relatively poor condition
- S7:** Interpretation of the heritage and history of the area for residents and visitors in Craven’s open spaces. This is true of both urban and rural settlements
- S8:** Improved and welcoming entrances. This is crucial across all types of open space
- S9:** Use of more “naturalesque” landscape methods in open spaces. This is particularly important in Semi/Natural Greenspace. However, many areas around the edges, and in larger expanses of Parks and Gardens and Amenity Greenspace can be utilised
- S10:** Improvements to “green corridors,” and in particular to the Liverpool to Leeds Canal and the continuation of the project to upgrade the towpath between Skipton and Bradley
- S11:** Improvements to the quality of allotment sites where required.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S1: PROVISION OF MULTI-PURPOSE PARKS AND GARDENS

11.2. In terms of the delivery of Parks and Gardens, there is a perceived shortfall in meeting the desired outcomes included in the Council's quality criteria (Annex B). In particular the need to provide a ***“one stop community facility, accessible to all with a range of leisure, recreational and play opportunities.”***

11.3. There are some open spaces which have been designated “Parks and Gardens,” most notably Aireville Park, Skipton, and Sutton Park, Sutton in Craven in the South of the district. In addition there is Ingleton Park in the North, although this has to serve not just the population and visitors to Ingleton, but also to meet the demand from Benthams and the other communities in that area. There is no significant provision of this type in the Mid area, and in particular in Settle. Issues relating to the acquisition of land for such purposes are addressed in the Planning section. However, in terms of the design of such provision, the criteria used to judge parks for the UK's acclaimed “Green Flag” standard are very appropriate. These are:

- **A welcoming place**
 - When approaching or entering the park/green space, the overall impression for any member of the community - regardless of the purpose of their visit - should be positive and inviting.
 - There should be:
 - ▲ Good and safe access
 - ▲ Good signage to and in the park/green space
 - ▲ Equal access for all members of the community.
- **Healthy, safe and secure**
 - The park/green space must be a healthy, safe and secure place for all members of the community to use. Any issues that have come to light must be addressed in the management plan and implemented on the ground.
 - New issues that arise must be addressed promptly and appropriately:
 - ▲ Equipment and facilities must be safe to use
 - ▲ It must be a secure place for all members of the community to use or traverse
 - ▲ Dog fouling must be adequately addressed
 - ▲ Health and safety policies should be in place, in practice and regularly reviewed
 - ▲ Toilets, drinking water, first aid, public telephones and emergency equipment where relevant (e.g. life belts by water) should be available in or near the park/green space, and be clearly signposted.
- **Clean and well maintained**
 - For aesthetic as well as health and safety reasons, issues of cleanliness and maintenance must be adequately addressed, in particular:
 - ▲ Litter and other waste management
 - ▲ The maintenance of grounds, buildings, equipment and other features
 - ▲ A policy on litter, vandalism and maintenance should be in place, in practice and regularly reviewed.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

Image 11.1: Saltaire Park, Bradford combines a variety of outdoor recreational activities

- **Sustainability**

- Methods used in maintaining the park/green space and its facilities should be environmentally sound, relying on best practices available according to current knowledge. Management should be aware of the range of techniques available to them, and demonstrate that informed choices have been made and are regularly reviewed. Parks/open spaces should:

- Have an environmental policy or charter and management strategy in place, which is in practice and regularly reviewed
- Minimise and justify pesticide use
- Eliminate horticultural peat use
- Recycle waste plant material
- Demonstrate high horticultural and arboricultural standards
- Have energy conservation, pollution reduction, waste recycling, and resource conservation measures.

- **Conservation and heritage**

- Particular attention should be paid to the conservation and appropriate management of:

- Natural features, wildlife and fauna
- Landscapes
- Buildings and structural features
- These should serve their function well without placing undue pressure on the surrounding environment.

- **Community involvement**

- The park/green space management should actively pursue the involvement of members of the community who represent as many park/green space user groups as possible. The following should be demonstrated:

- Knowledge of user community and levels and patterns of use
- Evidence of community involvement in management and/or developments and results achieved
- Appropriate levels of provision of recreational facilities for all sectors of the community

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Marketing**
 - A marketing strategy should be in place, which is in practice and regularly reviewed
 - There should be good provision of information to users, e.g. about management strategies, activities, features, ways to get involved
 - The park/green space should be promoted as a community resource.
- **Management**
 - A management plan or strategy should be in place
 - This should clearly and adequately address all of the above criteria and any other relevant aspects of the park/open spaces management
 - The plan must be actively implemented and regularly reviewed
 - A financially sound management of the park/green space must also be demonstrated.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S2: CREATION OF EXCITING AND CHALLENGING PLAY AREAS

- 11.4. The quality audit and the consultation findings highlight the need for play areas which are going to challenge children, to develop their social skills, and to provide opportunities for physical development.
- 11.5. In addition to obvious improvements such as the provision of exciting pieces of play equipment (e.g. zip wires, “low ropes” courses), a concept which is gaining in popularity is intelligent play or “iplay.” This has been devised by a recreation company affiliated to Loughborough University which has worked in conjunction with a leading play manufacturer to produce a range of suitable equipment. This includes a number of physical challenges similar to those provided by conventional play equipment, but using a list of commands.
- 11.6. The use of such equipment is in response to changing sociological leisure patterns which mean that children are spending more and more time watching television and using computer games. Facts and figures relating to the fact that a quarter of UK children are now clinically obese are as follows:
- **Half of all children in the UK will be obese by 2020 (Lobstein 2005)**
 - **An obese child is twice as likely to become an obese adult**
 - **Obesity is set to become the leading health problem in the UK**
 - **It is linked to the onset of type 2 diabetes and cardiovascular disease**
 - **The House of Commons Select Committee 2004 has stated that the economic cost of obesity is £7.5 billion p.a.**
- 11.7. Play is triggered with a start button, and can be played as part of a team or individually. The iplay unit issues commands relating to how to play. This consists of a number of challenges, and a score is displayed on the iplay screen. This score can be saved and compared to a league table of other competitors.
- 11.8. The big advantage of iplay is that it introduces new technology, and uses the concept of “stealth play.” This means that the level of activity can be stepped up without the participant being aware of it, and thus can encourage greater levels of fitness.
- 11.9. It is suggested that the introduction of an iplay playground in the District would create an exciting new concept, and could be used to gauge usage and popularity to guide future provision.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S3: SMOKING BAN IN PLAY AREAS

- 11.10. North Yorkshire County Council have recently launched a tobacco control initiative as part of its strategy entitled “Prevention for Children and Young People.” This aims to reduce exposure to smoking and second hand smoking for children and young people across North Yorkshire.
- 11.11. YouGov survey showed that 75% of adults supported banning smoking in playgrounds. Other surveys indicate similar results: 77% of adults in Wales agree and 98% of parents surveyed in the South East supported the ban. The key justifications for smoke free playgrounds are:
- **The ‘normalisation’ of smoking:** young people consistently over-estimate how many people smoke and therefore perceive it to be ‘normal’. In Wales in 2007, 60% of young people thought smoking was ‘the norm’, but only 23% of adults smoked at that time. Thompson states in the BMJ, “the central argument is that outdoor bans will reduce smoking being modelled to children as normal behaviour and thus cut the uptake of smoking”
 - **Littering and risk of eating cigarette butts amongst very young children.** Cigarette butts can take up to 12 years to biodegrade, and other smoking related litter e.g. cellophane, packets, are present in playgrounds where children play
 - **Providing positive role models** to children
 - **Reducing the opportunity and convenience to smoke** means smokers may smoke less
 - **Reducing the visibility of smoking around children and young people** thereby making smoking appear less socially acceptable.
- 11.12. Given these impacts, it is suggested that Town and Parish Councils and Craven District Council consider imposing a playground smoking ban when formulating future Management Plans. Also, that a similar recommendation is included in forthcoming Neighbourhood Plans.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S4: TEENAGE AND YOUTH PROVISION

- 11.13. This report highlights the need to provide exciting and innovative play solutions for older as well as younger children. These play solutions which are in particular demand in Craven include BMX bike tracks and pumptracks. There are already two small bike tracks in the District, and a new pump track exists in Aireville Park. However, there is limited provision in the Mid and North areas, highlighting the need for additional tracks in Settle and Ingletton.
- 11.14. Good BMX/Pump Track design should include the following elements:
- **Adequate drainage**
 - **Durable construction which will withstand heavy usage and will be safe to use. Materials which reduce friction noise should be considered if this is likely to constitute a nuisance (i.e. if the track is near to residential development or in an otherwise quiet area of a green space**
 - **Signage. This needs to be informative, and to include contact numbers in case of emergency**
 - **Landscaping. The track should be attractively landscaped to help it to blend in to its surrounding environment, and to be attractive to users.**
- 11.15. Pumptracks are one of the newest and most exciting outdoor recreational activities. Although many BMX tracks have been constructed throughout the UK, pumptracks have a wider potential appeal. They are attractive in particular to teenagers and youths, but are suitable not just for bikes of all sizes, but also skateboards, rollerblades and scooters. As such they can bridge the generation gap between older people, teenagers, and smaller children. The pumptrack utilises an up and down pumping motion to generate forward momentum. A big advantage is that pumptracks can be as little as 10m. x 3m. in extent, and so can be fitted into a very limited area. Provision of this type is generally under-provided, and in order to meet increasing future demand, it is suggested that consideration be given to building another track in Craven, possibly in Settle/Ingletton.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S5: GREEN PLAY

- 11.16. Craven is unusual in having relatively dispersed settlements located in extensive and attractive countryside. Playgrounds of the conventional type can look out of keeping in rural areas, and the use of “green play” can integrate more happily in non-urban environments.
- 11.17. Green play has developed in response to the decline in outdoor recreation amongst children. Home entertainment in the form of computer games, television and other media have resulted in a decline in natural play. Green play provides play opportunities in a play area using natural materials, and in particular timber. Green play areas often include “soft” elements such as the use of willow tunnels, soft landscaping using wild species, and tree planting. Thus green play has a number of advantages:
- **It is sustainable, using natural and renewable materials**
 - **It is in keeping with natural landscapes in small settlements, or in the countryside**
 - **It provides exciting play opportunities in a controlled, low-risk environment**
 - **Biodiversity can be enhanced with careful landscaping**
 - **Children have the opportunity to engage with the natural environment.**
- 11.18. This study has demonstrated the need to provide new and challenging opportunities for play. In addition, many existing play areas are deficient in terms of their quality and their ability to encourage exciting and innovative play, and will in any case need to be replaced or upgraded over the coming years. It is therefore suggested that a green play area is provided in the District in order to assess its popularity and value.

Image 11.2: Green play in Hanwell

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S6: MULTI-USE GAMES AREA PROVISION

- 11.19. The need for additional Multi-Use Games Areas (MUGA's) has increased to match the increase in participation in outdoor recreational pursuits since the 1980's. This report highlights the lack of a MUGA in the Mid area of Craven District, and in particular in Settle. This has its own large community as well as serving other communities in the surrounding catchment.
- 11.20. The development of MUGA's similar to the type installed in Aireville Park was a response to a number of factors. One factor was the need to seek an alternative to grass, with its high maintenance costs and limited practicality. The other was the ability to hold several different types of outdoor sport on one surface, reducing the need for large plots of land which were sometimes unavailable in urban areas. Synthetic surfaces and sometimes floodlighting have increased the length of season, the degree of usage, and introduced the ability to play outdoors after dark.
- 11.21. In practical terms Sport England in its Guidance Note: "Artificial Surfaces for Outdoor Sports 2012" highlights three key principles for provision:
- **Accessibility**
 - Improving accessibility refers to the provision of easy, safe and convenient access to a choice of opportunities for participating in sport, active travel and physical activity for the whole community.
 - **Amenity**
 - Enhancing amenity involves the promotion of environmental quality in the design and layout of new sports and recreational facilities, the links to them and their relationship to other development and the wider public realm.
 - **Awareness**
 - Increasing awareness highlights the need for increased prominence and legibility of sports and recreation facilities and opportunities for exercise through the layout of the development.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S7: INTERPRETATION OF HERITAGE AND HISTORY / WELCOMING ENTRANCES

Image 11.3: Good quality signage is very informative, and is welcoming at entrances

11.22. The need to provide welcoming entrances has already been referred to as one of the eight key criteria in the national Green Flag standard. This is paramount in providing an enticing green space which visitors will feel to be well managed, and will be encouraged to use.

11.23. Craven has a rich heritage and history. This needs to be interpreted to encourage a “sense of place,” and open spaces are one of the best places to impart this message because:

- **Annual visitor numbers will be very high**
- **A large percentage of the population visit their local open spaces on a fairly regular basis**
- **Spaces are open and accessible to all**
- **Greater usage will lead to higher levels of participation in outdoor recreation, and thus mental and physical health**
- **Well interpreted open spaces encourage tourism.**

11.24. The concept of generating a “sense of place” is well recognized in the UK. The following quote is from Special Delivery Outcome 1 of the Peak District Management Plan 2012-2017:

“What gives a community its sense of identity? How do places identify and retain what makes them distinctive, while adapting to new challenges? It is important that communities can recognise what makes their cultural heritage so special, and that this identity mobilises, motivates and binds them together.”

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

11.25. The South Downs National Park has developed a “Sense of Place Toolkit” from which the following quote is taken:

“We believe that the more visitors know about the area – before they come, and while they’re here – the more they should enjoy their visit. They’ll be more likely to try out new experiences in the Park, to repeat-visit, and to recommend the Park to others. And the more that visitors understand about the special nature of the Park, the more they should want to help sustain it, including supporting local businesses and services.”

11.26. This heritage and history need not just relate to the open spaces themselves (e.g. the varied history of the Liverpool to Leeds Canal), but also to the surrounding towns, villages and countryside.

11.27. Attractive interpretation boards including the use of visual images such as photographs, visual representations and maps and diagrams, are a popular means of learning about the surrounding area. The use of interpretation boards can be used at entrances, or at specific points of interest. It would be worth considering the use of interactive Quick Response (QR) codes, which will allow a smart phone user to access appropriate additional information on websites or specific web pages. This would also make information accessible in particular to people interested in the use of new technology.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S8: NATURAL LANDSCAPES/IMPROVEMENTS TO “GREEN CORRIDORS”

- 11.28. Urban greenspace, whether it be formal public space such as parks, sports fields and gardens or informal space such as riverbanks, waste ground, rail and road verges and other open spaces are a vital component of local biodiversity. As such, the management of biodiversity in these areas plays a fundamental part in maintaining the richness and diversity of urban areas. This is particularly true in Craven, which has a network of very varied open space types. However, the work of the qualitative audit indicates that biodiversity is not adequately managed, particularly in terms of opportunities in the more formal open spaces.
- 11.29. The district of Craven is relatively rich in its own natural biodiversity, and has a number of regionally and nationally important wildlife sites such as the Yorkshire Dales National Park. However, it should be noted that this is outside the assessment area.
- 11.30. Parks can have an amazing range of habitats and species from the ‘common or garden’ to nationally rare examples.
- 11.31. Habitats in parks will obviously vary from location to location but can include:
- **Meadowland and unimproved grassland**
 - **Neutral grassland**
 - **Hedgerows**
 - **Ancient woodland and veteran trees**
 - **Scrub**
 - **Ponds, streams and rivers**
 - **and many other man adapted habitats.**
- 11.32. All these habitats will have associated species and communities of animals and plants, including many rare and endangered species. Parks can also be rich in non-native ‘exotic’ plants which can also have a tremendous wildlife potential. The Buddleia (*Buddleia davidii*) is a good example of this.
- 11.33. This section outlines the following:
- **The value of biodiversity in the District, taking account of its unique habitats and the relationship to key strategies and policies**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- The factors which affect habitats in Craven, including types of land use and user pressures
- Ways in which the biodiversity of the District can be enhanced through its open spaces, both in relation to the planning of new open space, and through changes to the management of existing facilities.

11.34. The biodiversity potential of such habitats is dependent largely on the management practices within the park. There are many factors affecting habitats in parks. These include:

- **The need for tidiness, formal landscapes & public perceptions of safety.**
 - There is a potential conflict between management of formal park landscapes and formal flower displays and the need for biodiversity. Park users may want formal landscapes and consider wildlife habitats to be untidy or even unsafe. Natural areas of woodland and scrub may be associated in the public eye with feelings of insecurity, especially for women and people on their own. Long grass may appear to be uncared for and may accumulate litter. Introducing new ideas incrementally, with good consultation and interpretation at each stage can help to gain public support.³ Formal landscapes are found in Craven's Parks and Gardens, and in many of its Amenity Greenspaces. However, this is not incompatible with the careful introduction of natural areas of woodland, floral meadow and scrub. However, these need to be managed to include defined edges, careful placement away from areas used for more formal activities, and in some cases may need to be interpreted by explaining their significance
 - Perceptions that these areas are an example of neglect or lack of management may lead to filling ponds, clearing shrub beds and removing all dead wood etc. This will not help enhance biodiversity. Grounds maintenance work within parks and open spaces can often include very frequent mowing of grass and the routine use of herbicides and other agrichemicals. Such practices can obviously have a negative impact on biodiversity. Parks Maintenance, contract specifications may include activities which may be detrimental to the biodiversity of the area being managed. For example, the removal of all dead wood, the removal of leaf litter from all beds, the timing and techniques of grass mowing and the timing of shrub and tree pruning and all potentially have a negative impact on biodiversity. Clearly this needs to be avoided in Craven's Parks and Gardens, its Amenity Greenspaces, and in areas surrounding Children's Play Facilities, Cemeteries, and other open spaces.
 - The previous section mentioned the findings of the qualitative audit for Craven and the need to plan for biodiversity in new open spaces, and change land use types in existing open spaces. There is sometimes a need for formality in grounds maintenance if the provision of sporting facilities or "high" horticulture for ornamental purposes is necessary. This is not always the case, and even the borders of "formal" open spaces could benefit from the introduction of meadow or other form of more natural landscape.

³ lbp.org.uk London biodiversity partnership

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Impact of Visitors**

- Parks and open spaces are intended for the usage and enjoyment of all visitors, but heavy usage and noise can have a negative impact on wildlife. Even the over use of lighting in parks can disrupt night flying animals and disrupt feeding. Major events, which may include loud music and fireworks, are likely to have such impacts.
- Vandalism, in the form of damaging trees and planting areas can also have a negative impact on biodiversity and the remedial costs can take away from existing enhancement budgets.

- **Habitat Isolation**

- Whilst many parks contain valuable habitats and communities, they are often in fragmented populations surrounded by urban development and are not connected to other similar communities. There is real value in supporting the biodiversity in individual parks by ensuring they are connected by green corridors to enable movement of wildlife between parks and help maintain viable populations.

- **Sports Facilities**

- Modernisation of sports facilities changes the character of parks e.g. the change from grass to all weather pitches and the demand for more buildings and structures. Such recognized on can lead to reduced greensward, less shrub beds and mature trees, all of which are of benefit to wildlife. Many sports areas in the District are lacking in landscape variety.
- A plethora of information has been produced in the UK over the last 30 years on improving the biodiversity of urban greenspace. Two key potential actions can be taken to improve Biodiversity in urban parks:

- **Survey and Monitoring**

- Knowing what animals and plants are found in the many parks and open spaces is a key starting point in developing effective management plans for specific parks. The outcome of the surveys should inform management practices and contract specifications. For example to mow areas of grassland at specific times and specific heights to encourage the spread of key species or to manage dead wood in a way that it becomes a key habitat in its own right. On-going monitoring will help to show whether management practices are successful or need further adaptation.

- **Contract Specifications and Contractor Competencies**

- It is vital to ensure that contract specifications address the need for specific biodiversity enhancement management practices, but also that contractors are competent to undertake, often more traditional management techniques (such as coppicing or hedgelaying) to help maintain biodiversity.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

S9: IMPROVEMENTS TO THE QUALITY OF ALLOTMENT SITES

11.35. The quality audit outlined a number of problems with allotment sites in the District. These were as follows:

- **Provision across then District was uneven**
- **Sites in some cases were almost impossible to find**
- **Entrances were usually poor, being unwelcoming and without adequate signage**
- **Information was limited, even in relation to contact numbers**
- **Boundaries were often in poor condition, and sites in some cases were insecure**
- **Many sites lacked basic facilities such as a water supply.**

11.36. The importance of allotments lies in the fact that there is a statutory obligation on local authorities to provide them, and that across the UK it is estimated that there are currently over 90,000 people wanting an allotment and are on waiting lists. Health benefits are considerable, and include healthy outdoor recreation, social activity, and the production and consumption of healthy food. Sites also improve biodiversity, and allotment gardening helps to maintain vegetable and fruit species which would otherwise be lost.

11.37. The National Society of Allotment and Leisure Gardeners Ltd. Provides advice on the management of allotment sites. It provides guidelines on what constitutes a good site, and factors include:

- **Site should be easily accessible by car or near to a public transport route**
- **Soil should be capable of easy cultivation**
- **Site should not be prone to flooding**
- **Soil should not be contaminated with poisons (e.g. chemicals)**
- **Paths should be no less than 1.5m. wide and preferably 1.7m. to allow for a wheelchair and ambulant person to travel side by side**
- **Main gates should be wide enough to allow for material deliveries by lorry.**

12. TACKLING PLANNING ISSUES

12.1. This section investigates actions which are appropriate to tackling the planning issues identified in this study. These include:

- P1: Protection of the countryside**
- P2: Enhancement of biodiversity**
- P3: Plans to upgrade the Leeds to Liverpool Canal should be pursued as an extension to the current contract, and other green corridors should be considered in order to improve biodiversity, encourage sustainable travel, and connect isolated communities**
- P4: Developer contributions should be encouraged to meet shortfalls in quality. In particular improvements should be made to open spaces to make them more welcoming, and to interpret the diverse history and heritage of the district in order to increase residents' "sense of place"**
- P5: Define a developer contribution model to fund improvements to the quality, quantity and accessibility of open space, through the updating of the Council's existing Planning Gain Guide and approach to calculating developer contributions, and by using best practice models from other local authorities (e.g. Harrogate). In addition, local communities should be encouraged to include appropriate open spaces using the local green space designation in neighbourhood and local plans in order to protect valuable existing open space.**
- P6: Shortfalls in the quality, quantity and accessibility of facilities for children and youth should be addressed by seeking contributions for innovative play (iplay, "green" Play, etc.), and for specific facilities such as "low ropes" adventures, BMX and pump tracks (specifically in Settle and Ingleton). MUGA provision is needed in Settle**
- P7: Measures should be adopted to acquire land where possible for additional burial space**
- P8: The provision of allotment plots appears inadequate, in line with a national demand which shows no sign of abating. If more space cannot be found, then improvements should be made to the quality of existing sites.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P1: PROTECTION OF THE COUNTRYSIDE

- 12.2. The countryside needs to be protected to offset shortfalls in the quality, quantity and accessibility of more formal open space provision throughout the District.
- 12.3. At the heart of the NPPF is the presumption in favour of sustainable development. Therefore proposals for development should be approved if they accord with the development plan or the specific policies set out in the NPPF.
- 12.4. Before considering approval for new development, the intrinsic character and beauty of the countryside should be recognized. To this end the character types and areas mapped within the Craven District Assessment 2002 and the North Yorkshire and York Character Assessment 2011 should be actively upheld.
- 12.5. Natural England provides advice on the creation of Landscape Character Assessments (LCA's). It makes the point that existing LCA's can be used as the basis of new or updated assessments. It outlines steps for the carrying out of assessments as follows:
- **Define the purpose and scope of your LCA, e.g. the area it will cover, its scale, level of detail and resources available to carry out the work.**
 - **Conduct a desk study – collect, review and analyse data and documentation and speak to stakeholders involved with the landscape.**
 - **Conduct a field survey – test, refine and add to the outputs from the desk study, capturing aesthetic, perceptual and experiential qualities of the landscape.**
 - **Classify, map and describe the landscape's character areas, types and characteristics including geological, other physical and socio-cultural influences.**
- 12.6. The following characteristics need to be included, but the context of the Craven District Assessment 2002 and the North Yorkshire and York Character Assessment 2011 should be recognised:
- **Topographic features**
 - **Flora and fauna**
 - **Land use**
 - **Sights, sounds, touch and smells**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Cultural associations, history and memories.**

12.7. It is suggested that a review of LCA's is carried out for countryside areas throughout the District with a view to updating as necessary. This review could also be used to assist in the definition of the District's heritage and history as well as its landscape character, and thus inform the use of interpretation in open spaces to engender a greater "sense of place" amongst residents.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P2: ENHANCEMENT OF BIODIVERSITY

12.8. Craven is very lucky to contain a wide number of 'natural' open spaces including nationally important sites. The biodiversity value of such sites locally, regionally and nationally is unquestionable. This is articulated in the Craven Biodiversity Action Plan, which cites a number of habitats and areas of importance in the District including:

- Hedgerows
- Arable field margins
- Lowland meadows
- [Coastal and] floodplain grazing marsh
- Upland hay meadows
- Upland calcareous grassland
- Lowland calcareous grassland
- Eutrophic standing waters
- Ponds
- Rivers
- Fens
- Lowland raised bog
- Upland heathland
- Blanket bog
- Wood pasture and parkland
- Mesotrophic lakes
- Upland mixed ashwoods
- Upland oakwood
- Wet woodland.

12.9. The biodiversity value of the open spaces can be seen to help improve the mental health and sense of place of urban communities.

12.10. This value of biodiversity in open spaces is expressed in the UK Biodiversity Strategy 2002.

'Biodiversity has an essential role to play in liveability improvements: 'designing with nature' especially in buildings and public spaces, can improve people's quality of life directly and show how nature can itself work to maintain the qualities of land air and water for people's benefit.'

(Department of Environment, Food and Rural Affairs, *Biodiversity Strategy*; 2002: 54)

12.11. This value of biodiversity in urban open spaces is re-iterated in the Cabi Space Report – The Value of Public Open Space notes 4 which states that 'Aside from the intrinsic value of having nature in our cities, urban wildlife habitats also provide a focus for local communities, who often become very attached to them. Even the simple knowledge that a natural area exists is, for many, a source of satisfaction. Open space managed for biodiversity provides an opportunity for people to be close to 'nature', with the associated positive impact that this can bring in terms of mental health and the pleasure of experiencing wildlife in the urban situation.

⁴ The Value of Public Open Space – How High Quality Parks and Public Spaces Create Economic, Social and Environmental Value - CABI Space (2003)

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

12.12. This 'value' of biodiversity in open spaces is recognized in the Sustainable Community Strategy for North Yorkshire 2008/18. One of the Strategy's nine priorities is "Environment." In this section Craven's Sustainable Community Strategy. This creates five priorities for action. One of these is "Creating a Sustainable Future – One Planet Living." This states:

".....the focus on bio –diversity reflects the importance of bio diversity as a value in itself but also its importance as a mirror of the way we treat our increasingly stressed environment."

12.13. It is vital that the management of biodiversity in parks and open spaces is in keeping with the overall wildlife management strategy or Biodiversity Action Plan for the area as a whole. For example, the Biodiversity Action Plan⁵ for Craven identifies a range of habitats of Concern requiring the production of Habitat Action Plans. These include woodland; scrub; parkland and eight other habitats.

12.14. In considering all applications for future development, it is suggested that a **Biodiversity Toolkit** is drafted with colleagues responsible for green space management in order to guide the enhancement of biodiversity both in relation to building suitable landscapes in to new developments and altering the management of open spaces managed directly by the District. Given that there may be limited resources at Craven District Council to draft such a toolkit sources of external funding and support should be considered (e.g. North Yorkshire County Council).

⁵ <http://www.hampshirebiodiversity.org.uk/vol-two.html>

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P3: DEVELOPMENT OF GREEN CORRIDORS

- 12.15. The identification, effective protection and enhancement of green corridors can help connect greenspaces within the District of Craven but can also help create green fingers from the surrounding countryside to the very heart of its communities. The successful management of green corridors will only be possible within the context of an integrated urban management framework where biodiversity issues are given meaningful and practical consideration.
- 12.16. There are a number of ways in which the green infrastructure can be used to deliver meaningful opportunities for multiple functions. These functions can be used to drive planning and management of the green environment. Each is considered in this section in relation to what they can afford in relation both to outline proposals for existing open spaces within the Craven district; and to green and blue corridor open space areas in other parts of the District to which these principles can be applied in future. Each is illustrated to indicate the style of approach which can be adopted:
- 12.17. Planting to create a microclimate and to reduce temperature – it has been proved that tree and shrub planting in sufficient quantities can reduce peak urban summer temperatures, a major cause of mortality for instance in Paris in 2003, and can create a cool and more humid microclimate in urban areas. Tree planting and amenity woodland can be extremely successful in this context

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

HOUSING AND COMMERCIAL

- 12.18. Use of landscape features in housing and commercial areas – this can include the use of green roofs and green walls to reduce runoff and to improve air quality.
- 12.19. Parking on permeable surfaces will contribute to the reduction of surface run off.

SUSTAINABLE URBAN DRAINAGE SYSTEMS (SUDS)

- 12.20. This indicates how the green infrastructure can be used to allow for the replication of natural systems that use cost effective solutions with low environmental impact to drain away dirty and surface water run-off through collection, storage, and cleaning. After this point it is allowed to be released slowly back into the environment, such as into water courses. This is to counter the effects of conventional drainage systems that often allow for flooding, pollution of the environment with the resultant harm to wildlife and contamination of groundwater sources used to provide drinking water.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

TRANSPORT

- 12.21. Linear corridors as access routes for sustainable transportation – the creation of routeways of green open space which allow for sustainable transport. The principal objective in this case is to reduce the need for transportation in motor vehicles, and to open up greenspace for walking, cycling and other forms of sustainable transport. The objective is to use the line of a watercourse or natural linking feature, to create footpaths and cycle routes between urban areas to incorporate appropriate waymarking and landscaping.

RECREATION

- 12.22. Recreational open spaces – these create attractive areas for the execution of a range of outdoor recreational pursuits. These may include sports and games; picnics; events and activities; and children's play. Open space designated for this use needs to be managed to avoid conflict between active uses and natural habitats.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

WILDLIFE

- 12.23. Wildlife corridors – these are linear strips of open space which combine habitats and species, which will complement regional and local biodiversity action plans.
- 12.24. Achieving multiple benefits from green infrastructure underlines its importance generally boosts the environmental capacity of the area to support a thriving eco-town. Many sites will naturally fulfill many functions. For example, the Liverpool to Leeds Canal could act as a nature reserve as well as a recreational facility; or a wet woodland can serve to ameliorate flooding and secure habitat value. If planned and managed appropriately the potential of a site and the ecosystem services that the land can provide can be enhanced. This should be done appropriately and not to the detriment of an overriding management priority, such as the need to protect a sensitive habitat.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

AMENITY

- 12.25. Amenity open spaces – these can frequently be used to improve biodiversity. Woodland which is created by planting native species, and which favour a wider diversity of wildlife, create local oases. This has helped to mitigate the effects of peak urban summer temperatures and to provide shade; the use of floral meadow and wetland meadow in areas likely to become saturated, in order to increase biodiversity; and the use of “prairie” plantings to mimic nature in the use of natural species in bold groupings.

GREEN CORRIDORS

- 12.26. These are linear strips of open space which combine habitats and species which will complement regional and local biodiversity action plans

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- 12.27. As previously stated, when planning green infrastructure, it is important to consider the scale and connection of the corridor when green and blue ribbon strategies for habitat and recreational corridors are proposed. It should be noted that a network, for coherence and resilience, is represented by more than just a physical link between two or more ecological areas and must involve working links.
- 12.28. Improving links through linear habitats such as green corridors can provide opportunities to incorporate footpaths and cycleways to promote sustainable travel patterns. Green corridors can serve both people and wildlife by carrying footpaths, cycleways, and tram and light rail routes alongside linear grassland habitats, wooded belts, streams, rivers and ponds.
- 12.29. However, there can be a conflict between providing areas for recreation and transport and simultaneously maintaining biodiversity. This is addressed in the TCPA guide¹⁰² which suggests pedestrian and transport routes need to be well designed so that they do not interfere with habitat creation and provide natural surveillance so that they do not become havens for crime.
- 12.30. In a successful network, an understanding of the existing corridors and their functional requirements is essential in order that a hierarchy of linked spaces can be created.
- 12.31. It is suggested that existing plans to improve the Liverpool to Leeds Canal be pursued, but also that new linkages are explored in order to identify other green corridors which could link communities across the District.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P4 & P5: USING DEVELOPER CONTRIBUTIONS TO IMPROVE GREEN SPACE

- 12.32. At present the Council has yet to decide whether the Community Infrastructure Levy will be implemented. However, developer contributions have been used in the past and will continue to be used. These contributions should be used to meet shortfalls identified in this study in relation to quantity and accessibility. This can be done by creating new provision, but can offset such shortfalls by increasing the quality, and thus the accessibility, of existing green space where necessary.
- 12.33. Shortfalls should be used in particular to assist in the development of specific types of outdoor leisure provision in the District. Targeting should include the provision of exciting play areas by the use of innovative concepts such as iplay, green play, as well as facilities for youth and teenagers, including MUGA's, BMX tracks and pumtracks.
- 12.34. PPG17 states that local authorities are justified in seeking planning obligations where new development will place additional pressure on open space resources and increase local need. This is supported by the Companion Guide to PPG17 which states that developer contributions could include:
- **The cost of the land for open space;**
 - **The laying out of that open space including provision of new play equipment (or enhancement of the quality of existing equipment), either on site or off site;**
 - **Commuted sums for the maintenance cost of open space for a locally established period; and**
 - **Legal fees.**
- 12.35. To ensure that open space contributions are appropriately sought they must comply with the statutory requirements set out in Circular 05/2005. These tests require the contribution to be:
- **Necessary to make the proposed development acceptable in planning terms;**
 - **Directly related to the proposed development; and**
 - **Fairly and reasonably related in scale and kind to the proposed development.**
- 12.36. Developer contributions will be used for establishing and improving open spaces appropriate to the locality in which the development takes place. The requirements are expressed in terms of square metres (m2).

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

12.37. There are two mechanisms that will be used by the Local Planning Authority to deliver open space. These are:

- **Inclusion of open space as part of the development by the developer; and**
- **Financial contributions towards the provision of open space off site.**

12.38. A number of local authorities have used an approach which defines developer contributions in relation to green space. One such in Yorkshire is that adopted by Harrogate Borough Council. It is suggested that a developer contribution model is adopted by the Council once resolution over the use of the Community Infrastructure Levy (CIL) has been achieved. The Council's existing Planning Gain Guide and approach to calculating developer contributions could be used as a basis for developing a model.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P6: MAINTAINING AND IMPROVING THE QUALITY, QUANTITY AND ACCESSIBILITY OF GREEN SPACE

12.39. In order to ensure the adequate supply of green space in the District, it will be necessary to:

1. **Protect valuable existing green space**
2. **Encourage the improvement of existing spaces.**

12.40. The Neighbourhood Planning process is currently being invoked in Craven using guidelines included in the National Planning Policy Framework (NPPF). Parishes will have the opportunity and power to set local planning policies. Within the Neighbourhood Plan, areas of green space that are of value to the community can be protected by having them designated as local green space (LGS). The LGS will also be designated in the Local Plan. The planning authority (Craven District Council) is responsible for the designation process. The criteria for eligibility are as follows:

- **Reasonably close proximity to the community it serves**
 - There is no definition of this in the NPPF and it will be up to individual planning authorities to define. This may vary depending on the size of the community to which the green space relates, the size of the green space or the value placed on it by the community. The land must not be isolated from the community and would normally be within easy walking distance of the community served.
- **Demonstrably special to a local community**
 - Evidence must be provided of the land's value to and use by the local community to show the land holds a particular local significance. The land must fulfil one or more of the following criteria:
- **Beauty**
 - This relates to the visual attractiveness of the site, and its contribution to landscape, character and or setting of the settlement. LGS would need to contribute to local identity, character of the area and a sense of place, and make an important contribution to the physical form and layout of the settlement. It may link up with other open spaces and allow views through or beyond the settlement which are valued locally.
- **Historic significance**
 - The land should provide a setting for, and allow views of, heritage assets or other locally-valued landmarks. It may be necessary to research historic records from the County Archaeologist or National or Local Records Office.
- **Recreational value**
 - It must have local significance for recreation, perhaps through the variety of activities it supports, and be of value to the community.
- **Tranquillity**
 - Some authorities have an existing 'tranquillity map' showing areas that provide an oasis of calm and a space for quiet reflection.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

- **Richness of wildlife**
 - This might include the value of its habitat, and priority areas may have been identified by the council. It may require some objective evidence, such as a designation, like a wildlife site or Local Nature Reserve.
- **Local in character, not an extensive tract of land**
 - The criteria may differ between settlements depending on their physical size and population. The areas would normally be fairly self contained with clearly-defined edges. Blanket designation of open countryside adjacent to settlements will not be appropriate. There is a no minimum size limit for LGS.
- **Land already designated**
 - If land is already protected by Green Belt policy, consideration should be given to whether any additional local benefit would be gained. This may be in a case 4 where LGS designation could help to identify areas that are of particular importance to the local community.

12.41. The Council consulted with the local community including parishes in November and December 2015 to invite the submission of Local Green Space applications. Those applications that meet the criteria set out above will be shown as LGS designations within the Local Plan. It is encouraged to consider looking favourably on eligible green space applications by granting LGS designations.

12.42. In relation to meeting quantitative and accessibility needs in relation to green space, the Council should carefully consider any proven shortfalls in relation to different greenspace types. If approved by the Council, the Community Infrastructure Levy (CIL) should be used to provide new open space in conjunction with new development wherever possible. Prior to the adoption of the CIL, planning obligations need to be invoked in order to facilitate this approach. Where this is not possible, planning obligations should be used to contribute towards improving the quality of existing open spaces where required. This will go some way to both enhancing their recreational value, and offsetting quantitative shortfalls.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P7: PROVISION OF ADDITIONAL BURIAL SPACE

- 12.43. Anecdotal evidence from the quality audit and the parish consultation process appears to indicate that there is a shortage of burial space in the District. Some additional spaces can be created using management techniques, including landraising, fitting new graves between old, or infilling paths, avenues, and ornamental gardens. Some caution is required in that this may still not be sufficient to meet demand, and the character, beauty and integrity of existing burial grounds could be adversely affected.
- 12.44. An initial requirement will be to assess future demand taking into account the following factors:
- **Existing burial space provision**
 - **Future trends (i.e. for burial as against cremation)**
 - **The projected in population levels in the District in future. This projection also indicates that there will be an increase in older age groups as a percentage of the age range**
 - **Area required to accommodate any new burial provision (Evidence is limited in terms of studies relating to this provision. However, paragraph 10.39 of “South East Counties: The Cost & Funding of Growth in South East England” indicates that 1,730 grave plots can be accommodated in a hectare and at an average of 2.5 burials per grave plot this amounts to 4,325 burials per hectare).**
- 12.45. Piecemeal delivery of additional burial space on individual sites is unlikely to be appropriate. Therefore the Council needs to explore options based around the strategic delivery of additional burial space.

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

P8: PROVISION OF ADDITIONAL ALLOTMENT SPACE

- 12.46. Evidence from the quality audit and from the parish consultation indicates at least in anecdotal terms that there is a shortfall in provision in some areas of the District. This is backed up by one parish holding a considerable waiting list of those wishing to cultivate a plot. For example, the parish of Sutton in Craven has 22 plots occupied, but holds a waiting list of 35.
- 12.47. The Small Holdings and Allotments Act 1908 was the first act to comprehensively place a duty on local authorities to provide sufficient allotments according to demand. “Sufficient” has yet to be defined. However, it could be argued that under section 23 of the 1908 act if there is one person on a waiting list for an allotment, a local authority has breached its duty.
- 12.48. In practical terms the 1908 act empowers local authorities to acquire land for allotments by agreement or compulsorily, or to lease land for the supply of allotments.
- 12.49. The National Society of Allotment and Leisure Gardeners Ltd. Carried out in recent years a study which indicates that the number of plots peaked during World War 2 at 1,399,935 plots. This had reduced to 532,964 plots in 1970, and had diminished to 296,923 plots by 1996. The waiting list at that point was 12,950 in England only. There has since been a resurgence of interest in allotment gardening which is likely to be mirrored in Craven.
- 12.50. It is recommended that a review of allotment provision is carried out with a view to obtaining additional plots to meet future demand if necessary.

13. ACTION PLAN

13.1. The actions outlined in previous sections are included in the Action Plan. This is divided into the following:

- **Short-term actions – within the next three years**
- **Medium-term actions – three to five years**
- **Long-term actions – up to ten years.**

13.2. Each action is numbered in accordance with the system used to identify actions in the previous sections, i.e.:

- **“P” numbers (P1; P2; P3, etc.) indicate actions relating to planning issues**
- **“S” numbers (S1; S2; S3, etc.) indicate actions relating to service issues**
- **There is a section where actions are detailed**
- **Resources are indicated either in terms of sources of finance for implementation, or as officer time required for preparation and implementation**
- **The “Progress to Date” and “Review Date” sections are included for the client in order to allow for self-monitoring of progress.**

UPDATE ASSESSMENT FOR OPEN SPACE, SPORT & RECREATION FACILITIES WITHIN CRAVEN DISTRICT

1. Introduction

- 1.1 The Craven Playing Pitch Strategy (PPS) was adopted in 2016 and was developed using the Sport England PPS Guidance. The objectives of the Craven PPS are:
- Engage with Sport England, North Yorkshire Sport, and the relevant National Governing Bodies (NGB's) for sport and use the national PPS methodology to provide the project with a structure proven across the rest of England.
 - Provide a robust evidence base that can be used by multiple Council units and other stakeholders for a wide range of future projects.
 - Gather a representative evidence base, by achieving a high response rate from the surveys sent to clubs, schools, and parish councils/community organisations.
 - Update the Council's comprehensive GIS database, showing the location of playing pitches in Craven.
 - Identify cross boundary NGB issues, the nature and location of any overuse, unmet demand, and spare capacity for play across all pitch types and sports including all elements of current and future demand.
 - Establish clear, prioritised, specific, and achievable recommendations and actions to address the key issues around pitch provision and participation.
- 1.2 Section E of the Sport England's (SE) Planning Pitch Strategy Guidance: An approach to developing and delivering a playing pitch strategy (Oct 2013) talks about implementing and delivering the strategy and keeping the strategy up to date and robust. Craven District Council have been proactive in delivering the priorities within the current PPS through:
- Providing the evidence base for the Local Plan during the formulation of local plan policy INF3. Application of this now adopted policy. is used to achieve planning gain (Section 106 funds) to deliver the PPS priorities and actions.
 - Helping to inform sports development planning and the Council's work with local sports clubs and organisations who deliver sport and physical activity.
 - Providing the evidence to support external funding applications to grant making bodies.
 - Providing the base from which the coordination of resources and investment decisions can be made by the Council, partners, and sports clubs.
 - Craven has prepared Open Space, Playing Pitch and Built Facilities progress reports.

Purpose of the Craven PPS Refresh 2021

- 1.3 The purpose of this refresh is to combine a review of progress on the current priorities and action plan-whilest revisiting the supply and demand to identify any new key issues and changes. As a result, the current priorities will be refreshed and an action plan produced for 2021 onwards. This updated evidence can be used by multiple Council teams and other stakeholders for a wide range of future projects, including forming a key piece of evidence to inform the development of the new Local Plan for the North Yorkshire area following Local Government Reorganisation in 2023.
- 1.4 The SE PPS Guidance is clear that a PPS should be a living document and remain robust. Craven has prepared Open Space, Playing Pitch and Sports Facility Annual Progress Reports. The last report was published in summer 2019, however Covid 19 meant the 2020 review was delayed and a review of progress will be incorporated within this Craven PPS Refresh study.
- 1.5 The Covid 19 pandemic has impacted on grass roots sport with significant periods of time when participation has not been possible or being undertaken in a restricted manner under the return to play guidance from NGB's. The impact for clubs on their membership, participants numbers and number of teams is unknown, for some clubs numbers may increase, whilst others may stay the same or decrease. Therefore, the lifespan for the refresh will enable Craven to see the outcomes of return to play and the impact on demand. The annual progress reports subsequently undertaken following the refresh will continue to monitor the actions and priorities identified and track the impact of Covid 19 on sports over time.
- 1.6 As a guide Sport England and the NGB's have a view that if a review and subsequent update has not taken place within 3 years the PPS strategy would be out of date. The SE PPS Guidance (2013) states: *'As a guide, if no review and subsequent update has been carried out within three years of the PPS being signed off by the steering group, then Sport England and the NGBs would consider the PPS and the information on which it is based to be out of date.'*
- 1.7 Sport England and the NGB's were consulted in 2020 on a proposed refresh rather than Craven undertaking a complete update of the 2016 PPS. There was agreement for this approach that given the fact that Craven have prepared Annual Progress Reports, the impact of Covid 19 and the timescale for the formal Local Plan Review to be completed by November 2024, which will be replaced by development of a new Local Plan for North Yorkshire to completed by 2028.

Scope of the Craven PPS Refresh 2021-2024

- 1.8 The refresh will include the whole of the Craven District including the part of the district which falls within the Yorkshire Dales National Park Authority (YDNPA). The inclusion of YDNPA is an addition to the original PPS and has been agreed in discussion with YDNPA.

As residents travel across the planning authority areas to access sports provision and the value of collaborative working to deliver shared outcomes, a whole District view is more holistic.

- 1.9 The study will cover Football, Rugby Union, Rugby League, Cricket, Hockey, and Artificial Turf Pitches (ATP) which provide a playing pitch specifically for Football, Rugby, Hockey, or a multi-purpose ATP surface.
- 1.10 The baseline data within the current PPS will be reviewed. The focus for supply will be on the quality of the provision and changes to quantity will be updated. There will be less focus on demand data given the yet unknown impact on clubs of Covid 19, the study will consider any significant projected population and demographic changes and will consult with clubs on their thoughts on the impact of Covid on participation.
- 1.11 Consultation will be undertaken with sports clubs, parish councils who are responsible for playing pitches and education sites with community accessible pitches to determine what changes have taken place since 2016 and their views of needs, demands and aspirations looking forward.

2. Methodology

- 2.1 The Methodology has been developed with reference to the Sport England Playing Pitch Strategy Guidance (2013) and Sport England Planning for Sport Guidance (2019) [Planning for sport | Sport England](#). The methodology follows the guidance's five stages but the level of detailed work of the 10 steps has been adapted to reflect the tailored approach being taken in Craven to refresh the current PPS from 2016 rather than develop a completely new strategy.
- 2.2 The Sport England PPS stages and steps in full are:

Stage A: Prepare and tailor the approach (Step 1)
Stage B: Gather information and views on the supply of and demand for provision (Steps 2 & 3)
Stage C: Assess the supply and demand information and views (Steps 4, 5 & 6)
Stage D: Develop the strategy (Steps 7 & 8)
Stage E: Deliver the strategy and keep it robust and up to date (Steps 9 & 10)

2.3 The methodology for the Craven PPS refresh is outlined in table 1 below and has been developed using the Sport England PPS Check list

Table 1: Craven Refresh Methodology

Stage	Actions	Rationale
A	Prepare and Tailor Approach	
1	Sport England and NGB's have been engaged with in the latter part of 2020 and there was a consensus agreement that a refresh would be the best approach given the impact of Covid 19 on grass roots sport.	Section 1 paragraph 1.3
2	The PPS Study area will include the Craven District and the Yorkshire Dales National Park Authority (YDNPA) areas which lie within the Craven District. The Refresh will continue to consider the North, Mid and South sub areas.	This will provide a holistic perspective for sport. Given residents who live within the YDNPA access provision within the District Council planning area and vice versa.
3	Senior Officer and Political engagement and sign off for the final Craven PPS Refresh. The Craven Spatial Planning Sub Committee has responsibility for approving local plan evidence base work and updates.	Ensures that key decision takers are on board and the PPS refresh sits within wider strategic and corporate plans.
4	Working group will comprise of CDC officers from Spatial Planning and Sports Development, YDNPA Head of Sustainable Development.	To ensure a balance of skills, expertise, and knowledge in relation to the District, YDNPA, Spatial Planning and overall Council Policy
B	Gather Supply and Demand Information	
1	Cross reference the Active Places Power Audit report with the current PPS supply information to identify any changes. Desk top study. (Note for Football – cross reference with FA Local Football Plan 2018)	Ensure that the most up to date supply information is being used for the assessment of supply.
2	Undertake a review of the progress made against actions identified in the 2016 PPS. The progress report produced in 2019 will provide a baseline. (Desktop study). (Note for Football – cross reference with FA Local Football Plan 2018)	To support assessments and priorities
3	Identify if any improvements have been undertaken on sites other than those identified within the current PPS as priorities or strategic sites. Undertake non-technical quality assessment using NGB form. (Desktop study /Consultation/Site Visit)	To support assessments and priorities
4	Identify any sites which are no longer operational and why? (Desktop study /Consultation)	To support assessments and priorities

5	Identify any new sites since 2016. Undertake a non-technical quality site assessment using NGB form. (Desktop study/Consultation/Site visit)	To support assessments and priorities
6	Population projections in line with Local Plan through to 2032. Are there any significant projected changes since the 2016 PPS? Are there any significant projected changes in housing growth since 2016 PPS?	Need to make a judgement whether there are any changes significant enough to impact on demand. If not then assume that the demand remains as of 2016.
7	Consultation Consultation needs to be undertaken with the organisations identified below. This will both ask about quality and demand using an online survey. The survey will be based on the sample NGB Club Survey's which form part of the SE Guidance. There will be a need for more detailed consultation face to face/telephone with certain clubs as identified below.	To support assessments and priorities. To ensure that local knowledge informs the Craven PPS Refresh.
7a	Sports Club Consultation Consult with sports clubs on membership/team numbers prior to Covid 19 how they expected their club to grow or decline in numbers if Covid 19 had not been a factor. Given Covid 19 do they expect membership/teams to reduce/remain the same/increase once play can return? Consult with clubs on their perception of the quality and needs of the provision of pitches and ancillary facilities. Online survey with individual follow up as appropriate.	Due to Covid 19 and the impact on grass roots sport, the ability for clubs to be confident about memberships/teams in the future will be difficult for them to assess. Therefore, need to assume that from 2021-2024 for some clubs it may take this time to build back up. Likely, that once assessed demand will remain as of 2016.
7b	Parish Council Consultation Consult with Parish Councils who are responsible for playing pitches on the quality of the pitches and ancillary facilities, usage. Online survey with individual follow up as appropriate.	To support assessments and priorities
7c	Educational Sites	To support assessments and priorities

	Consult with educational sites who have pitches available for community use on the quality of the pitches and ancillary facilities, usage. Online survey with individual follow up as appropriate.	
7d	<p>Known key lines of enquiry, others may become apparent when undertaking the refresh research. Current identified consultees are:</p> <ul style="list-style-type: none"> • Clarity on Giggleswick School Rugby Pitch developments • North Ribblesdale Rugby Club development plans and needs. • Bridge End/Settle United/ATP in Mid Craven needs and demand. • Bentham Playing Fields Community Group aspirations. • Skipton Cricket Club – Community Club House and Changing Development • Sandylands ATP – capacity, usage, and demand • ATP on educational sites – capacity, usage, and demand 	To support assessments and priorities.
e	<p>NGB</p> <p>The NGBs provided updates and information by answering questions in relation to progress, lessons learnt, changes to sites/provision, specific sports development, new opportunities as part of the consultation to approve the approach to undertake the refresh.</p>	<p>To support assessments and priorities.</p> <p>Stage completed.</p>
7f	YDNPA consultation	To support assessments and priorities and synergy with the YDNPA Local Plan.
C	Assess the Supply, Demand and Consultation Information	
1	Collate the current supply and demand information from desk top studies and consultation. Identify any significant changes since 2016. Use this information to identify key findings, emerging issues, new priorities.	Forms the base information from which recommendations and an action plan can be developed.
2	Provide NGB's with the opportunity to comment on the key findings, emerging issues, and new priorities.	Provides an external check and challenge. Opportunity for any additional NGB Strategic Planning to inform the action plans.
D	Develop the Craven PPS Refresh 2021	

1	Ensure that the recommendations and actions reflect the purpose and drivers of the document.	
2	Recommendations and actions should be precise and specific to enable them to be achievable and provide a clear evidence base for funding such as S106.	Evidence base which will be robust and fit with the Local Plan and planning decisions. Support external organisations to secure funding and investment.
3	Share the proposed recommendations and actions with relevant parties and consultees.	Ensure understanding and buy in.
4	Formal process within Craven District Council (and YDNPA) to accept the Craven PPS Refresh 2021 as updated evidence to inform development of new Local Plan for the North Yorkshire area following Local Government Reorganisation in 2023.	Embedded within organisations at a strategic level.

3. Context

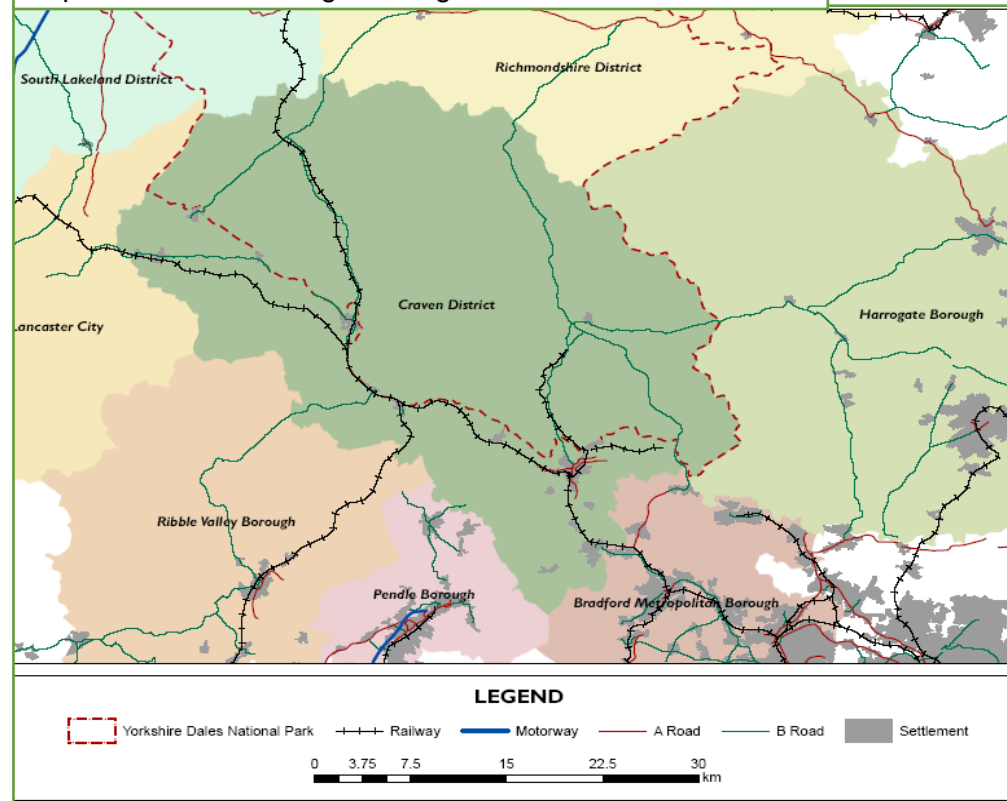

Population and Demographics

- 3.1 The geographic area of the PPS Refresh includes the YDNPA which lies within the Craven District. The maps below show the areas with the green lines indicating the district and ward boundaries and the yellow shaded area those which lie within the YDNPA area. Map one below shows the boundary of Craven District in addition to ward boundaries within the district. The yellow shaded area is part of the Craven District that lies within the YDNPA area. Map two shows the Craven District in the context of neighbouring local authorities and key transport links.
- 3.2 It should be noted that as from 2023 Local Government reorganisation will be implemented and the current Craven District Council will no longer exist. North Yorkshire County Council and the six district councils will be disbanded and a new unitary North Yorkshire Council will take over. The transition period begins with local elections in May 2022.

Map 1 - Craven District

Map 2- Craven and neighbouring local authorities

- 3.3 The ONS Sub National Population estimates 2018 have been used for the Refresh with projected population figures for 2021 and 2032 as the baseline for the Refresh. The projected overall population change shows that there will be a decrease in the population below 34 years of age and an increase in all other age groups, most notably in the 60-74 year age groups. The population within the YDNPA area is projected to decline in all age groups. This will have an impact on the number of residents who are projected to be active and participating in sport. Table 2 below provides a comparison of the population projections.

Table 2: Population Projection Comparisons

	Projected 2032 Population Breakdown from 2012-Based Projections in Previous PPS			Projected 2032 Population Breakdown from ONS 2018 to 2032 Population Projections for Craven (including YDNP)			Difference as at 2021 in population projections since 2016 PPS
Age Group	Total	Male	Female	Total	Male	Female	Difference total in population projections since 2016 PPS
0 to 4	2,436	1,246	1,190	2,302	1,176	1,126	-134
5 to 9	2,665	1,368	1,297	2,544	1,293	1,251	-121

90 and over	1,488	550	938	1,054	343	711	-434
TOTALS	53,317	25,820	27,497	59,341	28,807	30,534	6,024

- 3.4 The population changes have a direct impact on the active age group population figures for each sport in the PPS. A minor increase in the female youth rugby age group of 13-18 years, senior football 11 v 11 both male and female age groups 16-45 years and male senior rugby union age 19-45 years all indicate a 1% increase in the active age groups. All other active age groups for sports indicate a decrease of between 3% and 16% in the active age groups. The non-active age group of over 55 years increases by 15%. Table 3 below provides the detailed comparison of the active age groups.

Table 3: Active Age Group Population Projection Comparisons

Based on the 2021 point of the ONS 2018 Based Sub-National Population Projections for Craven (including YDNP)					Based on the 2032 point of the ONS 2018 Based Sub-National Population Projections for Craven (including YDNP)					Percentage Change 2021 - 2032		
Active Age Group	Sport	Male	Female	Mixed	Active Age Group	Sport	Male	Female	Mixed	Male	Female	Mixed
0-5 years	Non active			2,882	0-5 years	Non active			2,787			-3%

- 3.5 The housing needs and potential development in the Craven District including the YDNPA area identifies a need for 4,840 dwellings in the period 2012 -2032. The Craven Local Plan makes for provision of a minimum of 4,600 net additional dwellings in Craven outside of

the YDNPA area over the period April 2012 to March 2032. This equates to an annual average housing requirement of 230 net additional dwellings. It leaves a residual need for 240 dwellings to be provided from within the Yorkshire Dales National Park, which equates to 12 per annum.

- 3.6 Between 1st April 2012 and 31st March 2021, a net total of 1,614 new houses have been built in Craven District outside of the National Park. Over the same period a further 139 additional dwellings have been completed within the part of Craven District inside the National Park. Therefore, a total of 1,753 dwellings have been built within Craven District (including the YDNP) at March 2021, leaving a need for 3,088 dwellings up to 2032.
- 3.7 Policy SP4 of the 2019 Craven Local Plan sets out a guideline for the distribution of new homes across the district, directing the largest proportions to Skipton, Settle and Bentham. Policy SP3 of the 2016 Yorkshire Dales Local Plan identifies Grassington/Threshfield as the largest service centre wholly contained within the Craven portion of the National Park, although other service centres, such as Settle, Giggleswick and Ingleton, are bisected by the National Park boundary.

Strategic Review and Documentation

- 3.8 Since the 2016 PPS a number of the strategic documents have been updated.

Table 4: Comparisons of strategic documents 2016 to 2021

PPS 2016 Strategies and Documents	PPS Refresh 2021 updated documents
National Planning Policy Framework (NPPF)	<p>NPPF was revised in 2021. There has been no significant amendments to the wording of the Open Space and Recreation section within chapter 8: Promoting Healthy and Safe Communities, as set out in paragraphs 98 and 99 of the NPPF.</p> <p>In terms of paragraph 98 of the NPPF, the aim of this PPS refresh is to keep the assessment of need for open space, sport and recreation facilities up to date and robust, in line with the NPPF.</p> <p><i>98. Access to a network of high quality open spaces and opportunities for sport and physical activity is important for the health and well-being of communities, and can deliver wider benefits for nature and support efforts to address climate change. Planning policies should be based on robust and up-to-date assessments of the need for open space, sport, and recreation facilities (including quantitative or</i></p>

	<p><i>qualitative deficits or surpluses) and opportunities for new provision. Information gained from the assessments should be used to determine what open space, sport and recreational provision is needed, which plans should then seek to accommodate.</i></p> <p>The adopted local plan policy INF3 reflects paragraph 99 of the NPPF</p> <p><i>99. Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:</i></p> <p><i>a) an assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or</i></p> <p><i>b) the loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or</i></p> <p><i>c) the development is for alternative sports and recreational provision, the benefits of which clearly outweigh the loss of the current or former use.</i></p> <p>Policy INF3 aims to promote Craven's health, wellbeing, and quality through growth by safeguarding and improving sport, open space and built sports facilities. The policy supports the delivery of standards, recommendations and actions set out in the PPS, Open Space Assessment and Built Sports Facilities Strategy 2016 and any subsequent updates by safeguarding and improving sport, open space and built sports facilities. The policy requires developer contributions to be made towards new or improved spaces and facilities, in specific circumstances, by looking at existing quality and quantity deficiencies that are identified in the PPS and any subsequent updates. The policy reflects the provision of the NPPF.</p>
A New Strategy for an Active Nation : Sporting Future 2015	<p>Superseded in 2021 by Sport England Uniting Movement – 10-year vision to transform lives and communities through sport and physical activity. There are five big issues identified:</p> <ul style="list-style-type: none"> ● Recover and Reinvent ● Connecting Communities ● Positive Experiences for children and young people

	<ul style="list-style-type: none"> • Connecting with health and wellbeing • Active environments <p>The vision- Imagine a nation of more equal, inclusive, and connected communities. A country where people live happier, healthier, and more fulfilled lives.</p> <p>The Mission - We're here to invest in sport and physical activity to make it a normal part of life for everyone in England, regardless of who you are.</p>
North Yorkshire Community Plan 2014-2017	<p>North Yorkshire Council Plan 2021-2025. The plan identifies five ambitions for 2025:</p> <ul style="list-style-type: none"> • Leading for North Yorkshire • Every child and young person has the best possible start in life; • Every adult has a longer, healthier, and independent life. • North Yorkshire is a place with a strong economy and a commitment to sustainable growth, and • Innovative and forward thinking Council
Craven District Council Plan 2015-2018	<p>Craven Council Plan for 2020 and Beyond</p> <p>The Council's Vision <i>For Craven to be a prosperous place with strong and vibrant communities, where all residents enjoy a good quality of life.</i></p> <p>The Council's Priorities for 2020 onwards Carbon Neutral Craven Facilitating economic growth in a low carbon Craven</p> <p>Supporting the wellbeing of our communities Developing vibrant, connected, and healthy communities</p> <p>Attracting and retaining younger people Creating a district that attracts people of working age to live and work</p>

	<p>Financial sustainability Ensuring a self-sustainable Council</p>
Not relevant in 2016	<p>The Yorkshire Dales National Park Management Plan 2019-2024</p> <p>The plan contains 49 specific objectives that we are working together to achieve now. An ambitious vision for what the National Park will be like by 2040. The vision to 2040 includes the objective to:</p> <p><i>Be home to strong, self-reliant, and balanced communities with good access to the services they need.</i></p>
New Local Plan 2014 ongoing (Draft)	<p>Adopted Craven Local Plan 2012- 2032</p> <p>Sets out a spatial strategy and polices for change, development, and conservation in Craven District outside the YDNP for the period 2012-2032.</p> <p>The PPS 2016 informed Policy INF3 – Sport, Open Space and Built Facilities. Policy INF3 aims to promote Craven’s health, wellbeing and quality of life by safeguarding and improving sport, open space and built sports facilities.</p> <p>The policy will support, subject to meeting other relevant local plan policies, the delivery of the standards, recommendations and actions set out in the PPS, Open Space Assessment and the Built Sports Facilities Strategy 2016 and any subsequent updates. Priority will be given where the greatest deficiency exists in terms of the type of open space, pitches or facilities, as identified in the study and any subsequent updates.</p> <p>The policy sets out the criteria for developer contributions under section 106 agreements to new or improved provision.</p>
Not relevant in 2016	<p>Yorkshire Dales National Park Local Plan 2015-2030</p> <p>Policy C9 – Existing Community Facilities; aims to protect vital community facilities which includes sports pitches, play and recreational areas, public gardens and greens, sports pavilions, gymnasiums and changing facilities.</p>

	<p>Policy C10- New and Improved Community Facilities; aims to support new and improved community facilities that meet the needs of local residents.</p> <p>Policy C13 – Important open space; aims to retain the contribution that important open spaces make to amenity, recreation and the historical character of towns and villages. For spaces designated because of their sporting or recreational value, any loss of or significant harm to their qualities and functions will only be permitted if it can be demonstrated that the space is no longer needed, or a suitably located replacement of at least equivalent standard is secured.</p>
<p>North Yorkshire Health and Wellbeing Strategy 2013 -2018</p> <p>Joint Strategic Needs Assessment – Annual Update 2015</p>	<p>Joint Health and Wellbeing Strategy 2015-2020.</p> <p>Delivered through the North Yorkshire Health and Wellbeing Board and informed by the Joint Strategic Needs Assessment.</p> <p>Priorities are:</p> <ul style="list-style-type: none"> • Connected Communities • Start Well • Live Well • Age Well • Dying well
<p>Young and Yorkshire – Children’s Plan 2014-17</p>	<p>Young and Yorkshire 2 Plan</p> <p>Written by the North Yorkshire Children’s Trust. The plan covers:</p> <ul style="list-style-type: none"> • Our vision and our approach to all we do for children and young people; • The key considerations we will use to test we are truly making a difference; • The outcomes we want to achieve for all children and young people; and priorities and actions. <p>Outcome is for all children and young people to be happy, healthy, and achieving.</p>

- 3.9 The value of participation in sport and physical activity outlined in the 2016 PPS paragraph 2.4.4-2.4.6 remain valid. The Covid 19 pandemic of 2020-2021 has clearly highlighted how valuable sport and physical activity has been to maintain both physical and mental health. Sport England undertook a series of studies during the pandemic which tracked participation levels and attitudes and motivations in relation to being active. It was clear that more people were engaged in being active in an outdoor environment. A trend which is likely to continue for some time as individual confidence grows to return to pre pandemic activity.
- 3.10 The Active People Survey has been superseded by the Active Lives Survey. The current participation data for the Craven District is detailed in the tables below for adults and children and young people. In general terms Craven performs better when compared to the national and North Yorkshire Active Partnership area. It should be noted in the academic year 19/20 which was affected by school closures during the Covid 19 pandemic children and young people's participation levels in Craven were impacted and in general they were being less active.

Table 5: Participation Levels- Sport England Active Lives Survey

	Better than North Yorkshire and England
	Approximately In line with England/North Yorkshire
	Worse than North Yorkshire and England

Adult Participation Levels

Inactive: less than 30 minutes a week	May 18-19	Nov 18-19	May 19-20

4. Football

FA Grassroots Football Strategy 2020-24 – Survive – Revive - Thrive (March 2021)

4.1 Underpinning the strategy is the aim for the grassroots game to:

Harness the power of football to unite communities and improve the health of the nation.

4.2 There are 14.1 M people playing grassroots football in all forms and frequencies, including 13.5M regular participants, contributing £7.74bn of direct economic value, £1.62bn of healthcare savings and £780m of social value.

4.3 The FA can evidence that:

- Children who play football are more confident and more resilient than those who do not play sport.
- Adult football contributes to the reduction of 203.4K cases of physical and mental health conditions.
- Walking football is important for older adults and helps improve mobility and coordination, gives participants a sense of belonging and provides them with a sense of purpose.

4.4 The FA have identified that by 2024 seven focus areas of;

- Modernised opportunities to retain and re-engage millions of male participants in the game.
- Female participation - A sustainable model based on a world-class, modernised offer, with 90% of primary and secondary schools and 75% of clubs offering equal access to football.
- A vibrant national club network that delivers inclusive, safe local grassroots football and meets community needs.
- Enhanced access to good quality pitches across grassroots football.
- A transformation in community football by inspiring, supporting and retaining volunteers in the game.
- An efficient grassroots digital ecosystem to serve the administrative and development needs of players, parents and the workforce.
- A game that's representative of our diverse footballing communities, played in a safe and inclusive environment.

Consultation

4.5 Consultation was undertaken in June 2021, a survey was sent out to football clubs, schools, sports providers, and Parish Councils. The surveys were based on the Sport England PPS Guidance templates but adapted to gather key information most relevant to refreshing

the PPS with the focus being on changes since 2016. Telephone consultation was undertaken where appropriate. West Riding FA were consulted on the findings and recommended action plan. Feedback was received from:

Table 6: Football Consultee Responses

Football Clubs (FC)	Parish Council (PC) – 19 returns of which the following responsible for football pitches	Sports Providers	Education Sector
Settle Utd AFC Cononley Sports Club Bradley FC Sutton Juniors FC Gargrave United Crosshills FC Grassington United Grassington United Football Club Skipton Walking Football Club Ingleton Football Club Skipton Juniors Football Club	Gargrave Parish Council Burton In Lonsdale Cowling PC Bentham Town Council Sutton-In-Craven Carleton-In-Craven Parish Council Embsay with Eastby Parish Council Giggleswick PC Long Preston Parish Council Skipton Town Council	Bentham Playing Fields Association Sandylands Sports Centre Dalesway (owner of LMS ground)	Giggleswick School Embsay Primary Glusburn Primary Ingleton Primary Settle College Skipton Academy South Craven School Upper Wharfedale School

Supply

- 4.6 There has been no significant loss of pitches since 2016. The Malsis School site has been developed in line with the PPS 2016 action plan and is now known as Malsis Hall Playing Fields. The Sport England 2021 PPS data when compared with the 2016 data has removed several primary school sites (it is assumed these were not community accessible pitches but continue to be used for education purposes) which accounts for the change sites. The total number of pitches available including the YDNPA area is:

Table 7: Football Pitch Supply

Grass Pitches	2016	2021
Total sites	36	33
Total Pitches	58	57

- 4.7 A comparison with the detailed 2016 pitch quality assessments has been undertaken based on the information supplied by consultees. There have been no on site assessments undertaken as part of the refresh, the quality information is subjective as supplied by the clubs. Based on the feedback the quality of provision has reduced at five sites, there has been no change at nine sites and improvement at six sites. (Note: the SE database has been updated since 2016 and a number of sites are no longer included in 2021.)

Table 8: Comparison of pitch quality 2016 to 2021

Site	Rating 2016	Rating 2021 Based on Survey Feedback	
		Maintenance/ Quality of pitches	Overall quality compared to 2016
Bentham Sports Field	Standard	Good	Slightly Poorer
Bradley Cricket Club	Poor	Adequate	Slightly Better
Bridge End Ground (Settle)	Good	Good	Much Better
Burnside Crescent (Skipton)	Poor	Not included in SE database	
Burton In Lonsdale Sports and Recreation Field	Standard	Adequate	Much Better
Carleton Primary School	Standard	Not included in SE database	
Cedar House School (Bentham)	Standard		No Change
Cononley Primary School	Poor	Not included in SE database	
Cononley Sports Club	Standard	Poor	Slightly Poorer
Cowling Community Primary School	Poor	Not included in SE database	
Cowling Sports Club	Poor	Unsuitable	Much Poorer
Cross Hills Football Club	Good	Good	Much Better

Firth Street Recreation Ground (Closed)	Poor	Not included in SE database	
Gargrave Church of England Primary School	Standard	Not included in SE database	
Gargrave Sports Field	Standard	Good	No Change
Giggleswick School	Good	Good	

Glusburn Primary School	Standard	Good	No Change
Greatwood Primary School (Skipton)	Standard	Not included in SE database	
Harrison Playing Field (Giggleswick)	Standard	Good	No Change
Hellifield Sports Football Club	Poor		
High Bentham Primary School	Poor	Not included in SE database	
Ingleton Football & Cricket Field	Good	Good	Slightly Better
Ingleton Middle Primary School	Poor	Good	
Keighley Road (Skipton)	Poor	Not included in SE database	
Low Green, Gargrave	Poor	Adequate	Slightly Poorer
Malsis Hall Playing Fields (Sutton in Craven)	Not applicable	Good - new pitch development	
Raikes Road Recreational Ground (Skipton)	Poor	Not included in SE database	
Ramper Park (Carleton)	Standard	Adequate	No Change
Sandylands Grass Pitches - Skipton (NYCC)	Poor	Poor	Much Poorer
Settle College	Standard	Adequate	
Skipton Academy	Standard	Poor	
Skipton LMS Pitch	Standard	Adequate	No Change
Skipton Town FC	Standard	Adequate	No Change
South Craven School	Standard	Adequate	No Change
Sutton Park	Poor	Adequate	No Change
Town End Field - Grassington	Not applicable	Good	Much Better
Upper Wharfedale School (Grassington)	Not applicable	Poor	

- 4.8 The 2016 PPS highlighted that Bridge End Ground, Cross Hills Football Club and Giggleswick School scored well. The feedback indicates that the quality of these pitches remains good and that there have been further improvements since 2016. The Malsis School site which was closed in 2016 has now been developed into playing fields and these are of good quality and the home of Sutton Utd, the pitches are known as Malsis Hall Playing Fields.

- 4.9 In 2016 the pitches at Hellifield Sports Club and, Sutton Park were highlighted as scoring poorly. There is no club playing at Hellifield and no improvements to the pitch or ancillary facilities. In addition to the new pitches at the Malsis Hall Playing Fields, Sutton United continue to use the Sutton Park pitch and it has been rated as adequate by the club.
- 4.10 The 2021 feedback highlights that there has been a reduction in the quality of pitches at Cononley Sports Club, Cowling Sports Club, Low Green Gargrave, Sandylands NYCC pitches and at Upper Wharfedale School.
- 4.11 Football teams playing at these sites are; senior men's team at Cononley Sports Club, Sandylands NYCC is the home of Skipton Juniors who have teams across all age groups from U7/U8 through to U17/U18. At Low Green, Gargrave mini football 7v7 and youth football 9v9 is offered by Gargrave United. Grassington Football Club have junior and senior teams who use Upper Wharfedale School site and Town End Field Grassington.
- 4.12 The Skipton LMS Pitch is being used by Skipton Juniors on an occasional basis under a local arrangement with the owner for midweek training when daylight hours prevent the NYCC Sandylands pitches being available and capacity is not available at the 3G AGP at Sandylands Sports Centre.
- 4.13 Based on feedback from consultation and other known information including the 2019 Progress Report, the current progress on the 2016 PPS action plan is detailed below.

Table 9: PPS 2016 Action Plan Progress Update

Site 2016	Pitch Type 2016	Site 2021	Pitch Type 2021	Notes	Progress Update as at 2019 on the PPS 2016 action plan	Feedback from 2021 Survey
Bentham Sports Field	Adult Football	BENTHAM PLAYING FIELDS	Adult Football	No Grass Pitches Currently Marked Out	<p>Foot1 -No teams at site, has limited progress. New group Bentham Playing Fields Association (PFA) reformed to take site forward. New PFA members leading on developing the site and use after community consultation</p> <p>Note: Craven Wanderers are based mainly at Ingleton. Caton Juniors have agreed use of pitch at Burton in Lonsdale.</p>	<p>Playing Fields Association -We are desperate to try and improve the facilities at Bentham playing fields for Bentham and the wider community.. Bentham no longer has its own football club to maintain the pitch to its previous standard. Craven Wanderers use the pitches for training and matches. Caton Juniors use the floodlit area in winter for training. We also have rounders, netball, pickleball, tennis, yoga, singing group and a local soccer school use the field. In future to provide a kitchen area, expanding the flood lighting. Installing an all-weather/4g pitch. Ongoing issue with dogs</p> <p>Parish Council -we are hoping to be able to further support the excellent playing fields we have in High Bentham, currently leased from Angus Fire Armour. The playing fields committee are considering a walking/running/cycling track, a 'pump' track, and eventually a clubhouse if feasible. we, would obviously like to support them if we can, we already help with grass cutting.</p>
Bridge End Ground Settle	Adult Football	BRIDGE END GROUND	Adult Football		Foot-3 Settle Utd FC have plans drawn up to improve facilities to meet current and future demand – costs ca £130k Lots of in kind support from Club members and some club funds for this but will need some external funding	<p>Ground has been improved through FA Grants. Have planning permission secured for a new clubhouse and changing facilities. In the process of raising the funds. Size of ground unable to field all youth sides at same time. Training space limited. 3G illuminated pitch and access to another grass pitch would be hugely beneficial to club and</p>

						community. Settle Utd are striving to improve facilities, any help to sustain our involvement in the community and provide effective coaching and club for young players as well as senior players would be greatly appreciated
Burton In Lonsdale Sports and Recreation Field	Adult Football	BURTON IN LONSDALE SPORTS AND RECREATION FIELD	Adult Football		Foot-4 No progress as Burton FC has folded and action not relevant with no team	Parish Council -Early 2021 drainage works to improve pitch; further works anticipated to facilitate drainage at northwest corner around MUGA pitch. Regular grass cutting with mulching cutter puts cuts grass back into ground; drainage improved early 2021. Separate social space and loos (inc. disabled access loo)within same building; limited equipment storage (currently exploring options for increasing storage). The Sports Pavilion was built in 2015 and since then it has been a useful addition to the Recreation Field facilities. The Parish Council has recently agreed Lonsdale Terriers (formerly Caton Terriers) Junior Football Club use our Recreation Field as its 'home' pitch - brings a lot of people to Field 2 x week, in addition to regular bookings by Lonsdale Archers. Prior to COVID-19: Wray FC used the Field for home matches; Young Farmers used pitch in summer and Social Room during winter. Local bridge club used Social Room for weekly meetings. We've had a wedding, and a couple of music events as well. Hopefully, these users (and more!) will come back to the facility, with the right COVID protocols in place.
Cononley Sports Club	Adult Football	CONONLEY SPORTS CLUB	Adult Football		Foot -5 –Cononley Mill planning application has secured £228k of planning gain. Initiated work with club about this site triggered by planning gain resource. Club has worked up list of projects for the planning gain	Cononley FC - Would like to purchase new nets and goalposts During 2019 the club had correspondence and meetings with CDC officers who assisted in linking the club with NYCC Flood management, Environment Agency, West Riding FA and Sports

					<p>2 – as above – line 1</p> <p>3 – No CUA with South Craven secured subject to floodlights at South Craven and cost of Astro is prohibitive to clubs so they go to Skipton</p>	<p>Pitch Agronomists companies in order the for the drainage and pitch quality matters to be addressed. There has been no further progress on this matter.</p> <p>The club have approached CDC to access the planning gain funding for minor works.</p>
Embsay Sports Field	Adult Football	EMBSAY SENIOR FOOTBALL PITCH	Adult Football	No Grass Pitches Currently Marked Out	<p>Foot -6 – Agreed with landowner and developer via housing planning scheme but awaiting progress on the implementation of this. Senior team has folded Housing scheme started and club to progress scheme to planning</p>	<p>Parish Council - have top levelled ground since 2016. Would like improve drainage in the future.</p> <p>Planning application has been submitted to develop the land identified as part of the development. The planning application proposes to improve the quality of the existing adult pitch and develop a 9V9 pitch on the site and create training area. 2020/21348/FUL</p> <p>There are some aspects of the planning to be determined re: drainage into culvert on neighbouring land, car parking and potential for changing rooms at a later date.</p> <p>Legal agreement regarding planning gain to be agreed with developer subject to above. Embsay Juniors FC have progressed to become incorporated as a CIO and are in a better place to negotiate lease and access funding.</p>
Gargrave Sports Field	Adult Football	GARGRAVE SPORTS FIELD	Adult Football		<p>Foot - 7 Just juniors using the football pitch this season so club feels adequate.</p> <p>2 – Ongoing and clubhouse ok at present</p>	<p>No change the Parish Council cut the grass and the club line marks the pitches.</p> <p>Reduction of pitch quality identified in survey return.</p>
Giggleswick School	Adult Football	GIGGLESWICK SCHOOL	Adult Football		<p>Foot-8 Support development at School and secure training slots for nearby football clubs at peak time if viable - Need to await actions in relation to Rug -1, Hock- 1</p>	<p>The school pitches are booked by external hirers.</p>

Hellifield Sports Football Club	Adult Football	HELLIFIELD SPORTS FOOTBALL CLUB	Adult Football		<p>Foot - 9 – Site owners (Skipton Auction Mart) applied for 8 dwellings on site and reinvesting in new pitch and clubhouse.</p> <p>New team on site for 2018 season, no team in 2019.</p>	<p>Website information indicates that the newly formed club will play in the 2020/21 season in the Craven and District Football League and indicate the home pitch is the recreation field in Hellifield BD23 4JE.</p> <p>Previous planning applications have been withdrawn.</p>
Malsis School Closed		MALSIS HALL SITE			<p>Foot -10 ACTION COMPLETE</p> <p>1 – 4: Planning application (32/2016/17097) that includes re-orientation of pitches to create 5 viable grass pitches for the Club: Application approved in Nov 2017, S106 agreement in place and works on pitches carried out summer / Autumn</p> <p>2018 – Pitched and Club house complete Sept 2019.</p> <p>5 – New internal layout for wooden building for clubhouse being worked up with club ready to meet Condition on planning permission.</p> <p>6 – Artificial pitch is being removed to integrate land into grass pitch layout for 5 pitches</p>	<p>Sutton Juniors - Changing available at Malsis Hall only, used by the older end. Younger end come ready changed to play at Sutton Park and club opens facilities if they need the bathroom.</p> <p>Malsis parking a challenge. Local police consulted - but not much can be done. Malsis Hall would consider supporting an increased parking footprint if council would. The club would like to solve the parking problem at Malsis.</p> <p>Malsis being created has made our pitch management a lot easier.</p>

Sandylands Grass Pitches	Adult Football	SANDYLANDS GRASS PITCHES (NYCC)	Youth Football 11 v 11	Dedicated 11 v 11	<p>Foot -11 the Cricket and Football Clubs have worked together and secured planning permission for new multi sports Clubhouse, Football club leading on pitch improvement works following pitch assessment report. Potential funding for the NYCC pitches as well as reconfigures them. Multi agency meeting with NYCC in Oct 19 to facilitate this.</p>	<p>Skipton Juniors - the club has to switch games on occasions due to the number of games and unsuitability of the state of the grass pitches. Attempts are made to play some games at the Sandylands AGP but availability and costs are issues.</p> <p>Pitches maintained by NYCC and generally poor with club volunteers regularly having to remark. Pitches susceptible to rabbit holes, unofficial use. Drainage work circa 2018 has resulted in little improvement, new development adjacent to site has coincided with greater incidence of flooding. Club is committed to the Community Hub Partnership with Skipton Cricket Club which if realised will give Skipton Juniors a much needed base and it is hoped that through linked work with the FA and NYCC there maybe scope for much needed serious improvement works.</p> <p>Pitches are designated for educational use and therefore able to only offer a licence to occupy outside of school hours to clubs. NYCC are a willing to partner with the Community Hub development to demonstrate secured use as a co- applicant in funding applications.</p>
--------------------------	----------------	---------------------------------	------------------------	-------------------	---	---

Skipton LMS Pitch	Adult Football				<p>Foot -12 Planning application withdrawn. Skipton juniors using pitch for youth matches. Owner considering their options such as 3G solution on site</p>	<p>No regular use since 2013. Occasional training in 2018- 2021 (Skipton Juniors). No pitches marked out.</p> <p>Has been used as overspill car park for events at Sandylands, special event parking e.g. Tour de Yorkshire, Cricket Festival.</p> <p>Landowner has maintained the site - fencing and fly tipping removal, annually maintains grass cutting. Overall quality of pitch remains as at 2016.</p> <p>Future plans - Part redevelopment of the former LMS ground, comprising improvement of an area to be retained for playing pitch purposes and alternative (parking) use on the remainder of the site, has long been identified for the former LMS ground by the owner.</p> <p>Since February 2016 (when the current PPS was published), an application for full planning permission has been submitted by Dalesway, in October 2016, for an improved grass pitch on two thirds of the site and a new surface level car park on the remaining third (under reference: 63/2016/17523).</p> <p>That 2016 application was ultimately withdrawn in August 2019 whilst the landowner developed proposals for an alternative all-weather sports pitch led development to include a multi-storey car park on the remainder of the site. An alternative application for full planning permission was then submitted in June 2020, and remains under consideration by the Council, for a multi-use all weather sports pitch and multi storey car park for approximately 480 vehicles (under reference 2020/21748/FUL).</p>
Skipton Town FC	Adult Football	SKIPTON TOWN AFC	Adult Football		<p>Foot -13 – club applied to Football for Pitch Improvement Fund to increase pitch playing quality and playing capacity</p>	<p>Working more closely with Skipton Juniors to feed into the Skipton Town Reserves team. Currently field 2 senior men's and 1 senior women's team. One pitch used to service all three teams. Club potentially may move to 2</p>

					Club working up club development plan	women's teams which would lead to potential overuse of the pitch. Club needs access to good quality additional pitch or suitable training pitches as the number of teams grows. To enable the pitch for competitive play to be protected.
South Craven School	Adult Football	SOUTH CRAVEN SCHOOL	Adult Football		Foot- 14 School secured planning application for floodlights that include the tennis court area. Lights have no impact upon residents but do not meet sports NGB minimum lighting levels for recreational and training use. Air dome built facility planning permission now expired	Facilities now being managed on behalf of the School by Communihire Ltd. Floodlights installed and portable floodlights available for use on site.
Sutton Park	Mini Soccer 5v5	SUTTON PARK	Junior Football 11v11		Foot -15 Support development plans for the former Malsis School with a view to bringing together most of clubs use onto single site. See above.	Younger end come ready changed at Sutton Park and open facilities if they need the bathroom. Drainage poor

- 4.14 The 2016 PPS identified an action to for joint working with the FA and Craven District Council to fund and develop an equipment bank for maintenance machinery and to benefit from additional maintenance training. This action was assigned to include; Bentham Playing Fields, Bradley Cricket Club, Burton in Lonsdale Recreation Field, Cononley Sports Club, Gargrave Sports Field Skipton Town Football Club and Sutton Park.
- 4.15 The feedback from all consultee responses in addition to the above which relates to the 2016 action plan has highlighted the following key areas of note, improvement, or development.

Table 10: Feedback from Consultees 2021

Site 2016	Pitch Type 2016	Site 2021	Pitch Type 2021	Notes	Feedback from 2021 Survey
Cedar House School, Bentham	Youth Football 11v11	CEDAR HOUSE SCHOOL	Adult Football	Commercial Management	School for vulnerable children 8-18yrs so safeguarding & child protection is paramount. Enhance DBS clearance required for anyone using the pitch. Currently, no external hirers.
Cowling Sports Club	Adult Football	COWLING SPORTS CLUB	Adult Football		Parish Council (PC) -Pitch surface is poor with large holes and uneven/sunken areas. PC in future reinvestment in the whole recreation ground to include grass pitch
Cowling Sports Club	Mini Soccer 5v5				
		ERMYSTEDS GRAMMAR SCHOOL	Adult Football		School has submitted a planning application in June 2021 to replace the playing field with 3G floodlit. AGP due to the poor condition of the playing field which impacts on usage by the school. Intention to offer community access. Planning reference 2021/22977FUL.
Giggleswick School	Adult Football	GIGGLESWICK SCHOOL	Adult Football		With the exception of Lords Playing Field pitches in excellent condition. Regular external hires. Community club regular bookings for football by Settle Seniors and Juniors.

Glusburn Primary School	Mini Soccer 5v5	GLUSBURN COMMUNITY PRIMARY SCHOOL	Junior Football 11v11		School response - quality of pitch good. Sutton Juniors hire pitches for Sunday matches. Demand by hirers not changed since 2016.
Glusburn Primary School	Mini Soccer 5v5	GLUSBURN COMMUNITY PRIMARY SCHOOL	Mini Soccer 7v7		

		GRASSINGTON JUNIORS FOOTBALL CLUB TOWN END SITE	Adult Football And Junior football	One pitch on Town end site. Communihire Ltd will	<p>Have spent a lot of money bringing changing facilities up to standard. New showers, shower pump. New toilets with basins. New kitchen with tea facilities. Also just renewed a ceiling and will need to replace two more and a floor next year.</p> <p>We have spent a lot of money on drainage (More drainage, more cuts and weed and feed, all big costs to the club), but in winter both the juniors and seniors both struggle to play on it. Sometimes we have to rent Sandylands at a high cost. The juniors just don't get to play. We have done what we can, we won't get it any better. We really need a AGP pitch in the local area.</p> <p>Replacing the flooring in the club house and constant reseeding of the pitch</p> <p>Grassington Football Club - We are collaborating alongside Wharfedale Rugby Club with the sports hub for the Dale's. We need better facilities in the area to help children both boys and girls get into sport. There are no facilities for the disabled which is a real shame. The opportunity to create a sports hub is massive, there are so many people that want to make this happen and give those everyone in the area a chance and opportunity to play football, rugby, cricket, hockey, rounders, athletics and so many other sports.</p>
		GRASSINGTON JUNIORS FOOTBALL CLUB	Junior Football 11v11	No Grass Pitches Currently Marked Out	
Ingleton Football & Cricket Field	Adult Football	INGLETON SPORTS FIELD	Adult Football		Would like separate changing rooms for officials
		INGLETON PRIMARY SCHOOL	Junior Football 11v11		<p>School response - Pitch quality good.</p> <p>External hire - Local Junior football team, one evening a week and weekends during the grassroots season.</p> <p>Local rounders team. Ingleton football club occasionally for training. Overall demand has decreased since 2016.</p> <p>Expect demand to further decrease as junior football team starting to use another pitch in High Bentham.</p>

		INGLETON PRIMARY SCHOOL	Junior Football 11v11		
Low Green, Gargrave	Adult Football	LOW GREEN	Adult Football		Parish Council - Well used by many visitors, dog fouling present and visits by Travellers when they feel like pitching camp. The users of the football pitch would welcome any improvements that could be made, sadly as a Parish Council we are not in a position to fund any. Pitch used by Gargrave Utd Juniors
		LONG PRESTON PLAYING FIELD	Football - not marked		Pitch quality good, not changed since 2016. New goal post dual purpose football/rugby installed in 2021. Future - build a sports pavilion in early stages of planning.
Ramper Park	Adult Football	RAMPER PARK	Mini Soccer 7v7		Parish Council - small pitch quality and maintenance adequate. Used by local children up to age of approx. 14-15 years.
Settle College	Adult Football	SETTLE COLLEGE PLAYING FIELDS	Adult Football		Since 2016 - Verti draining etc. work every summer, rabbit pest control, erection of a fence around the field to prevent dog walkers. External hire - Settle United Junior FC from Sept 21 (Weekend), Settle Harriers running group (evenings), Clubbercise exercise class (evenings), Community sports day. Demand has increased since 2016. We struggle to staff the locking and unlocking of the facilities in the evening and over weekends and this affects our ability to hire it out. We also have a legacy gravel dust area on our field, used in years gone by as an all-weather surface but this is not up to any modern standard for use by school children as the gravel dust surface can cause slips and injuries
Settle College	Adult Football	SETTLE COLLEGE PLAYING FIELDS	Adult Football

Skipton Academy	Adult Football	THE SKIPTON ACADEMY	Adult Football		<p>Poor. Although ample space, the pitches are generally not flat, with the 11 v 11 football pitch and the rugby pitch being on very distinct slopes. Furthermore, the pitches suffer from rabbits digging partial holes.</p> <p>Since 2016 - The field now has a perimeter fence, which now prevents members of the public from walking their dogs on the school field. External hire - A local junior football team uses the pitches during evenings and weekends. Number of lettings has increased since 2016.</p>
Skipton Academy	Youth Football 11v11	THE SKIPTON ACADEMY	Junior Football 9 v9		
South Craven School	Adult Football	SOUTH CRAVEN SCHOOL	Adult Football		Facilities on an evening are now managed by community hire. New venture with school post Covid as previous company went bankrupt.
		SOUTH CRAVEN SCHOOL			
		SOUTH CRAVEN SCHOOL	Adult Football		

		UPPER WHARFEDALE SCHOOL	Junior Football 11v11		<p>External hire -Wharfedale Cricket Club, Rugby Club, Grassington Football Club. Demand has stayed the same since 2016.</p> <p>One pitch for all sports and the quality is poor.</p> <p>There is no drainage on the pitches, so during winter months we are unable to use them.</p> <p>If there was scope for improvement, there is reasonable space for adequate pitches or 4G, but we don't have any funding to improve these facilities.</p> <p>If we had a 4G pitch the local sports club could use it more regularly and all year round. We have to limit external use to ensure the pitch is in a reasonable condition for school use.</p> <p>Communihire Ltd will be managing the community use at the site as from November 2021 on behalf of the school.</p>
--	--	-------------------------------	-----------------------------	--	--

Demand

- 4.16 Clubs were asked how many teams they expected to have in the full season 2021-2022, the eleven clubs who provided feedback indicated that collectively they would have 84 teams. The West Riding FA (WRFA) data shows that there are 110 affiliated teams in the district across all formats, a growth of 8 teams from the 2016 baseline of 108 teams the change is because of a decline in open age male, a growth in mini soccer teams and growth in the female game (girls). The West Riding FA data is used as the baseline for the supply and demand assessment for the PPS Refresh.

Table 11: Demand by number of teams affiliated to WRFA 2021

Age Group	Type	Number of teams		Total
		Boys/Men	Girls/Women	
Mini Soccer U7/U8	5v5	17	2	19
Mini Soccer U9/U10	7 v7	19	2	21
Total		36	4	40
Youth U11/U12	9 v9	16	2	18
Youth U13 – U 17	11 v11	23	4	9
Total		39	6	45
Over 18 Senior	11v11	23	2	25
Overall Total		98	12	110

- 4.17 There are two of the largest clubs within this cohort, Sutton Juniors have twenty-seven teams and Skipton Juniors twenty teams which equates to 67% of the junior football teams in the district. In the mid craven areas Settle United have six junior teams and three senior teams. Grassington Football Club which were not included in the 2016 PPS have five junior teams and two senior teams.
- 4.18 Embsay Juniors who were highlighted in the 2016 PPS at that time had eight teams, although no feedback was received they have teams in all junior age groups. The design and access statement for the current planning application (2020/21348/FUL) relating to the existing and creation of a new football pitch at land at Shires Lane, Embsay, confirms the club continues to have eight teams. Five teams in the Craven and Aire and Wharfe Junior League plus mini soccer teams in the Dales Friendly League. The West Riding FA data indicates there are eleven teams at Embsay Juniors. The club plays at a number of pitches and the proposed development of the football pitches will provide a home for the club.
- 4.19 The feedback from clubs indicated that in comparison to the season 2018-2019, pre Covid, most clubs had seen the number of teams stay the same. There has been a small number of increased teams particularly for Mini Soccer. Decrease in teams are more notable for Boys Youth teams. Senior men's and women's have stayed the same at ten clubs with an increase at two clubs. The feedback from clubs was:

Table 12: Impact of Covid19 on participation

In comparison to the full season 2018-019, pre Covid, how has the number of teams in your club changed?						
Club	Mini Soccer - Boys	Mini Soccer - Girls	Youth - Boys	Youth - Girls	Senior - Men	Senior - Women
Settle UTD AFC	Increased		Decreased		Increased	
Cononley Sports	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same
Bradley FC					Stayed the same	
Sutton Juniors FC	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same
Gargrave United	Stayed the same		Stayed the same			
Crosshills FC			Stayed the same		Stayed the same	
Grassington United	Decreased	Increased	Decreased	Increased	Stayed the same	Stayed the same
Bentham PFA	Increased	Stayed the same	Increased	Stayed the same	Stayed the same	Stayed the same
Skipton Walking Football Club					Stayed the same	
Ingleton Football Club					Stayed the same	Stayed the same
Skipton Juniors Football Club	Increased	Increased	Stayed the same	Stayed the same		

- 4.20 There was a total of 102 teams identified in the 2016 PPS. Given the feedback from clubs in 2021 on the number of teams and the information above on the impact of Covid 19 there appears to be stability within clubs given most clubs and the number of teams. Given the growth at Sutton Juniors and the inclusion of Grassington Football Club the West Riding FA data indicates that there has been a growth of 8 team with 110 teams affiliated with West Riding FA.

- 4.21 The 2016 PPS indicated that there would be a future demand for more teams across all male age groups and that needed to be factored into future facility provision. In 2016 it was projected that in total 10.5 additional teams would be required. These teams were likely to be at Senior Men's and in Mini Soccer. Given the growth identified above and the inclusion of Grassington in the period since 2016 it can be assumed that this projection is on track with an additional 8 teams since 2016. The development of pitches at Malsis Playing Fields have enabled this to be achieved.
- 4.22 Team Generation Rates (TGR) provide an indication of how many people it may take to generate a team. TGR considers current and future populations and what this potential change across the sport and age groups may mean for playing pitches in the future. Using the Sport England TGR calculator, the TGR for Craven as of 2021 are:

Table 13: Team Generation Rates

Age Groups	Number of teams in age group within the area	2021 population in age group within the area	2032 population in age group within the area	Current TGR	Population Change in Age Group	Potential Change in Team Numbers in Age Group
Football Adult Men 11v11 (16-45yrs)	2329	7895	8010	272.24	115	0.42
Football Adult Women 11v11 (16-45yrs)	2	7821	7896	3910.50	75	0.02
Football Youth Boys 11v11 (12-15yrs)	23	1338	1208	47.79	-130	-2.72
Football Youth Girls 11v11 (12-15yrs)	4	1176	1112	235.20	-64	-0.27
Football Youth Boys 9v9 (10-11yrs)	16	665	556	36.94	-109	-2.95
Football Youth Girls 9v9 (10-11yrs)	2	587	534	146.75	-53	-0.36
Football Mini Soccer Mixed 7v7 (8-9yrs)	19	1197	1048	63.00	-149	-2.37
Football Mini Soccer Mixed 5v5 (6-7yrs)	17	1106	1010	73.73	-96	-1.30
Football Mini Soccer Girls 7v7 (8-9yrs)	2	618	518	309.00	-100	-0.32
Football Mini Soccer Girls 5v5 (6-7yrs)	2	525	495	262.5	-30	-0.11
Note : Total number of teams 110 compared with 102 in 2016.						
Current TGR is the number of people required to generate one team e.g. 73.73 children aged 6-7 years is needed to generate one team in 2021. With the change in population by 2032 the number of teams in the age group will reduce by 1.3.						

- 4.23 The future demand is likely to be from potential slight increases in adult football and possible reductions in approximately 10 junior football teams. It is important to note that Skipton Juniors currently have around 250 members and are unable to accept more players due to a lack of coaches and volunteers. The club is to some extent stretched for pitch capacity and this would need to be part of any consideration to accept more players should the number of coaches and volunteers available be increased.
- 4.24 Junior competitive football is played in the Dales Friendly League on Saturdays and in the Craven, Wharfe and Aire Junior league on Sundays. There has been a reduction in the number of teams in the Dales Friendly League and should this become unsustainable in the future the likelihood is teams would enter the Craven, Wharfe and Aire Junior League therefore increasing the demand for pitches on a Sunday.

Supply and Demand Balance

- 4.25 Given the updated information on supply and demand and the light touch approach to the PPS refresh it is reasonable to conclude that there is sufficient supply of pitches to meet current and future changes in demand for pitches. Therefore, pitches need to be protected and improved to ensure good quality provision.
- 4.26 There are sites such as Hellifield and Bentham where there is currently no football team. The rural nature and locality of such sites means that they are important as a community recreational amenity space as well as a playing field and can be used for other activities and sports and not just football. The LMS site is underutilised but is important within the overall Sandylands location.
- 4.27 It is important to ensure that where the quality of pitches is good this is at least maintained and where required the quality of pitches improved and enhanced. There is no need to provide additional pitches beyond this development. The pitch development at Embsay was previously identified in the 2016 PPS and is still required and remains a valid recommended action.

Football and Artificial Grass Pitches (AGP)

- 4.28 There are several surface types that fall into the category of artificial grass pitches. The FA considers that 3G rubber crumb support intensive use and suitable for playing and training. These surfaces are being increasingly used for competition. Competitive football can take place on all 3G surfaces and the preferred pile length is 60mm. Only competition up to (but not including) regional standard can take place on a 40mm pile. Football training can take place on sand and water based surfaces but this is not preferred to a 3G pitch.

- 4.29 In Craven the provision of AGP includes two 3G surfaces at Sandylands Sports Complex and South Craven School. Since the 2016 PPS floodlighting has been installed at the South Craven School site. Both pitches are of a good standard and the Sandylands pitch meets FIFA approved standards with the current certification valid until 2023.
- 4.30 The current overall supply of AGP in 2021 compared with 2016 is detailed in the table below with the 3G AGP highlighted. Although the preference for football is a 3G rubber crumb surface it is important to consider the total supply as sand based short pile AGP can be used for football for recreational and training purposes.

Table 14: Supply of AGP in Craven District

Site Name 2016	Size	Community use category	Security of use	Pitch score
Burton In Lonsdale Sports and Recreation Field	36x20m	Available for community use and used	Secured	Poor
Giggleswick School	100x60m	Available for community use and used	Secured	Standard
Malsis School	65x37m	Not available for community use	None	Poor
Sandylands Sports Centre – 3G	100x60m	Available for community use and used	Secured	Standard (Note: this has recently failed a performance test and requires resurfacing)
South Craven School -3G	100x60m	Available for community use and used	Unsecured	Standard – no floodlighting

Site Name 2021	Size	Community use category	Security of use	Pitch score
Burton In Lonsdale Sports and Recreation Field	36x20m	Available for community use and used	Secured	Standard
Ingleton Multi Use Games Areas - 3G – small sided 7 a side, floodlit	30m x 20m tbc	Available for community use and used	Secured	Good
Giggleswick School	100x60m	Available for community use and used	Secured	Good – resurfaced 2016
Sandylands Sports Centre - 3 G	100x60m	Available for community use and used	Secured	Good – resurfaced 2016, lighting upgraded 2018
South Craven School – 3G	100x60m	Available for community use and used	Unsecured New contract 2021 with local operator for community use.	Good – lighting installed

South Craven School	Approx. 35m x45m (3 tennis courts)	Available for community use and used	Unsecured	Good
---------------------	---	---	-----------	------

4.31 Ermysteds Grammar School submitted a planning application (2021/22977FUL) in summer 2021 to replace an existing grass pitch with a 3G floodlit AGP. The school have identified in the planning application community use during the evening and at weekends. There is a sand based AGP at Giggleswick School which provides a community accessible facility for football training, which is regularly booked by community clubs outside of school hours. The owner of the LMS ground has proposed in the planning application (2020/21748FUL) the installation of an AGP. Consultation with Skipton Juniors, Sandylands Sports Centre and Skipton Cricket Club indicates that should a AGP be developed at this site a short pile sand based AGP would enable not just football but other sports and activities to benefit.

4.32 Demand and usage for the existing 3G pitch at the Sandylands is summarised as:

- Open hours Monday - Friday 9.00am-10.00pm, Saturday 9.00am-6.00pm, Sunday 9.00am-9.00pm
- Evenings October to March at 100% capacity. Block bookings with biggest demand is between 6.00-8.00pm, currently have a waiting list for these slots.
- Operate leagues Monday and Sunday evenings.
- Some education uses midweek daytime variable throughout the year. Walking football daytime.
- Well used by Skipton Juniors Saturday morning and midweek evening for training.
- April - September club bookings stop and tend to be replaced by social/recreational football bookings. Usually, have some capacity at the 6.00-8.00pm slot.
- April- September less well used by education sector

4.33 Demand and usage at existing 3G pitch at South Craven School is summarised as:

- Opening hours Monday- Friday 5.30-9.30pm Saturday 9.00am-4.00pm, Sunday opening can be accommodated subject to demand/events
- 98% of bookings are block bookings midweek. Junior soccer hub booking on Saturdays. As of September 2021, only 3 hours not yet block booked through to December, expect similar pattern to the end of March.
- The school has recently carpeted a MUGA and purchased portable floodlights to compliment to 3G. This area accommodates 3 tennis courts, provides a training surface suitable for hockey and under 16's football, tennis, netball.
- School have entered into a contract with a local sports facility management company to operate and grow the community use.

- 4.34 Using the FA indicative supply and demand model as set out in the 2016 PPS it is estimated that one full size AGP can service 38 teams. On that basis and that we estimate there are 110 teams in Craven in 2021, there is a recommended need for 2.9 rounded up to 3 full size 3G pitches, to be used at peak times. An increase of 1 full size 3G AGP from the 2016 PPS.
- 4.35 In 2016 there was a recommended need for 2 full size 3G pitches at peak times and that the improvements to the Sandylands Sports Complex pitch and installation of flood lights at South Craven School would meet this need. Both these recommended actions have been completed and two good quality 3G AGP are available in Craven. The 2018 Football Foundation Local Football Facility Plan (LFFP) confirmed that there was sufficient full size 3G pitches.
- 4.36 The 2016 PPS suggested that any new provision to meet the need for 2 full size 3G pitches (if there was no floodlighting at the South Craven School pitch) should service the central and northern parts of the district.
- 4.37 Since 2016, the Ingleton 3G small sided 5 v 5 side pitch operated and owned by Ingleton Rural Community Association brings the number of 3G pitches to 2.25, a shortfall of 0.75 of the 2021 recommended need of 3 full size 3G AGP. The Ingleton 3G AGP provides access to a 3G AGP facility in the mid- north area of the district. The Football Foundation Local Football Facility Plan (LFFP) had recommended this pitch being upgraded to a 3G as a priority project, which has been achieved.
- 4.38 The FA's updated modelling suggests that one full-size equivalent 3G AGP can serve approximately 38 affiliated teams (previously 45 teams). This suggests that there is a current shortfall of 0.75 full-size 3G AGPs in the district. The 2021 refresh concurs with the 2016 PPS that there remains a deficit in the central and northern areas of the district and as stated in the 2016 PPS any supply for any additional 3G AGP (small-sided or full size utilised by other sports i.e. Rugby) should be focussed in the central and northern parts of the district. Further confirmation on location is found in the LFFP 2018 which highlighted the rural nature of the district which has an impact on access and travel times to 3G pitches and with an uneven distribution of pitches to the south of the district and that small sided 3G pitches were needed in the central and northern parts of the district.

Key Findings for Football

- 4.39 The supply and demand results indicate that overall that there is sufficient capacity across the district of grass pitches and a shortfall of one full size 3G AGP football pitch. The development of a full sized 3G AGP pitches in the mid and north areas of the district would be beneficial to participation, in particular the Grassington/Threshfield area which does not have an accessible 3G pitch suitable for training and small sided games. It should be noted that the supply and demand data does not support a strategic need for additional AGP in the south of the district. This subsequently informs any future developments for example at Ermysteds Grammar School or the LMS ground as described in paragraph 4.31.
- 4.40 Enhancements have been made since 2016 which include:

- The development of the Malsis School site which has enabled Sutton Junior Football Club to continue to grow and develop.
 - The Ingleton 5 v 5 pitch has been upgraded to a 3G AGP surface and floodlit.
 - Planning permission has been granted for the development of a multisport club house at Skipton Cricket in a partnership between the cricket club and Skipton Town Juniors. Settle Utd FC have equally secured planning permission for a new club house and changing facilities. The securing of funding to deliver these projects is a priority for these clubs.
 - Embsay Junior FC are working with the landowner/developer and have submitted a planning application to develop the playing pitches which will provide the club with a base.
 - Several Parish Councils, clubs and education sites have improved the quality of pitches by implementing grounds maintenance and management plans. Feedback from clubs and Parish Councils indicates that there is a continued commitment towards enhancing the provision available.
 - Floodlighting has been installed at South Craven School to increase the capacity for community access to the 3G AGP.
 - There are several sports clubs based at the Sandylands location. There is mixed land ownership and sports facility management at Sandylands which adds a layer of complexity to the master planning approach identified in the 2016 PPS. The Sandylands Sports Complex resurfaced the 3G surface which meets FIFA approved standards and have made improvements to the floodlighting. More recently, Craven District Council have facilitated the clubs to work more closely together and the local authority will support the commissioning of a master planning exercise to identify areas for joint work, investment, and priorities in the future.
- 4.41 The LMS site within the Sandylands location has a strategic fit with the location, although not fully utilised at present there is the potential to enhance the pitch provision to fit with the development of the new club house and changing rooms identified above, with the pitch being used by Skipton Town Juniors and potentially Skipton Town should additional women's teams be developed. Development of the LMS pitch will be governed by the current owner who is exploring the feasibility of investment and long term leases.
- 4.42 Little progress has been made on a collaborative pitch maintenance programme for the district. The geography of the district to a certain extent makes this more restrictive. However, in locations such as Sandylands where there are several sports clubs this would be more realistic. Since 2016, the launch in 2021 of the Football Foundation and FA Pitch Power scheme provides clubs with a tool to inspect and assess pitch quality with the potential to unlock funding to make improvements.

Recommended Action Plan

- 4.43 The recommended action plan includes existing actions from 2016 which remain relevant and updated and new actions based on the information and issues which have emerged during the PPS Refresh study. The format of the action plan follows on from the 2016 PPS.
- 4.44 The actions in relation to Sandylands, Skipton Town and the LMS site in Skipton are linked to the cricket and rugby and AGP action plans later in the document. Similarly, this applies to the development and improvement of sports pitches in Grassington/Threshfield, Wharfedale.

Table 15: PPS Refresh 2021 Football Action Plan

Site	Action ID	Issue/Opportunity to be addressed Key Actions	Specific Actions	Lead (Bold) and Partners	Resource Implications	Timescales and Priorities Short 1-3 years Medium 3-5 years Long 6-10 years
Collaborative Pitch Maintenance Programme Assigned to pitches identified in specific actions column	Foot-1 Foot - 2 Foot – 4 Foot – 5 Foot - 6 Foot – 7 Foot - 8 Foot – 9 Foot -11 Foot -13 New Foot -15 Foot - 17 Updated	PPS 2016 identified the action for FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training. Recommended Revised Action: The FA and Football Foundation have launched PitchPower (https://footballfoundation.org.uk/pitchpower) - a really simple tool to help individual sites inspect and improve their grass pitches. The site self-inspection will provide regular detailed assessment reports from grounds management experts at the Grounds Management Association, including	This action was assigned to: Bentham Playing Fields Bradley Cricket Club Foot- Burton in Lonsdale Playing Field Gargrave Sports Field Cononley Sports Club Embsay Sports Field Hellifield Sports Field Sandylands Grass Pitches Skipton Town FC Sutton Park Addition –	FA and CDC Clubs	FA support CDC support Volunteer time. Giggleswick School	<p>Foot-8</p> <p>Not applicable</p>	<p>School will no longer be developing a 3G pitch and therefore 2016 actions not applicable.</p> <p>The school continues to make the existing AGP and grass pitches available under the community use agreement for local clubs.</p>				
Hellifield Sports Football Club	<p>Foot-9</p> <p>No change</p>	<p>Use potential planning gain available to invest in a new facility and develop overall provision at the site.</p>	<p>Specific actions will be dependent on any planning application by site owners and the stability of the newly formed club on site.</p>	<p>Hellifield Sports Football Club</p> <p>Site owners</p> <p>CDC</p>	<p>Volunteer time</p> <p>CDC Officer time</p>	<p>Medium to Long Term</p> <p>Low priority</p>
(Former) Malsis School	<p>Foot-10</p> <p>Not applicable</p>	<p>The site has been developed and the key actions from the 2016 PPS completed.</p>				
Sandylands Grass Pitches	<p>Foot-11</p> <p>Updated</p>	<p>The action to undertake some pitch improvement was completed in 2018 by NYCC. However, clubs indicate that this has resulted in very little improvement and matches need to be switched due to flooding.</p> <p>Recommended Revised Action:</p>	<p>CDC to support the club with discussions with NYCC.</p> <p>Pitch condition survey by qualified agronomist to provide plan of action</p>	<p>Skipton Junior Football Club in partnership with Skipton Cricket Club</p> <p>CDC</p>	<p>Volunteer time</p> <p>CDC and NYCC Officer time</p> <p>Qualified agronomist</p>	<p>Short</p> <p>High Priority</p>

		<p>NYCC to be a partner as a co-applicant for funding to enable Skipton Juniors who are working together with Skipton Cricket Club to potentially access external grants for pitch improvement and the new multisport club house which has secured planning permission.</p> <p>This will demonstrate a commitment for the securing of the pitches in the long term for community and education use.</p>	<p>to remedy flooding and improve pitches.</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	<p>NYCC</p> <p>FA</p>	<p>Funding to undertake study and any subsequent pitch works</p>	
Skipton LMS Pitch	<p>Foot-12</p> <p>Updated</p>	<p>The owner has submitted revised plans for the site for 2/3 of the site to be retained as a sports pitch. Planning reference 2020/21748FUL.</p> <p>The location of the pitch has a strategic fit with the Sandylands Sports Complex, Skipton Cricket Club, Skipton Rugby Club and the NYCC Sandylands grass pitches, Skipton Town Football Club.</p> <p>Recommended Revised Action: The site is not surplus to requirements and consideration as to how best it should be used to fit with the wider strategic planning of sports facilities and pitches in the area which is known locally as Sandylands which incorporates the sites listed above.</p>	<p>CDC to provide planning guidance on potential appropriate sports use of the site.</p> <p>Site owner to consider development options and their feasibility.</p> <p>Potential collaborative working with Sandylands clubs and landowners.</p>	<p>Site owner</p> <p>CDC</p>	<p>CDC officer time</p>	<p>Short</p> <p>High Priority</p>
Skipton Town FC	<p>Foot-13</p> <p>Not applicable</p>	<p>The club have undertaken pitch improvements through the Football Pitch Improvement Fund</p> <p>Note: Should the club grow the carrying capacity of the existing pitch maybe compromised. To alleviate overplay access</p>	<p>Skipton Town to engage in discussions/plans re: any potential partnership working across the Sandylands facilities and clubs.</p>	<p>Skipton Town FC</p> <p>CDC</p>	<p>Volunteer time</p> <p>CDC officer time</p>	<p>Medium</p> <p>Medium Priority</p>

		to grass training area/pitch would be a solution. Potential link with wider Sandylands opportunities for pitch development.				
South Craven School	Foot-14 Not applicable	Action from 2016 PPS completed. Floodlights installed and portable floodlights available for use on site. Community access has been increased.				
Sutton Park	Foot-15 Updated	Action from 2016 PPS completed with the development of Malsis site. Drainage on the site is poor and site continues to be used by Sutton Junior FC	Pitch improvement works to improve the surface. CDC to assign developer contributions where applicable in line with Local Plan policies	Sutton in Craven Parish Council	Volunteer time	Medium Low priority
Town End – Grassington	Foot – 17 New	Club has invested in the changing rooms and pitch drainage. However, there are still problems during the winter months with the surface. The site has one pitch used by both adult and junior teams. This limits the potential for growth, particularly for junior football. There is collaboration ongoing with Wharfedale Rugby Club to consider a multisport hub development	Investment in a detailed feasibility for the development of a sports hub in Wharfedale. Planning advice sought from YDNPA.	Grassington Adult and Junior Football Clubs in collaboration with Wharfedale Rugby Club CDC - sports development support YDNPA – planning support	Volunteer time FA RFU CDC Officer time YDNPA Officer time Funding to enable detailed feasibility to be undertaken.	Short High Priority
Wharfedale School - Grassington	Foot – 18 New	There is one pitch of poor quality which is used by the Grassington Sports Clubs to supplement other pitches. Pitch has very limited winter use due to drainage issues.	Engage in the discussions on the development of a multisport hub.	Wharfedale School	Senior School Management time	Short High Priority

		Any development of the pitch at Wharfedale should be linked into the wider consideration for multisport hub in Grassington.	Actively be part of a detailed feasibility as outlined in Foot -17.	CDC - sports development support YDNPA – planning support	CDC Officer time YDNPA Officer time Communihire Ltd time	
Gargrave	Foot – 19 New	The pitch quality has decreased since 2016. The FA Pitch Power tool to be used in the first instance to assess the condition and determine actions to improve the quality.	Club to register with Pitch Power, identify an action plan. CDC to assign developer contributions where applicable in line with Local Plan policies	Gargrave Football Club Gargrave Parish Council	Volunteer time FA Parish Council CDC	Medium High Priority

5. Cricket

ECB Five Year Plan : Inspiring a Generation 2020-2024

5.1 The ECB purpose states.

We connect communities and improve lives by inspiring people to discover and share their passion for cricket.

With the ambition that by 2024 a generation is inspired to say that “Cricket is a game for me”

5.2 The 2020-2024 priorities are.

- Grow and Nurture the Core – we will ensure that there’s a thriving county network at the heart of the domestic game.
- Inspire through Elite teams – we will create and celebrate the heroes at the pinnacle of the elite game.
- Make cricket accessible – we will give more people the opportunity to engage in cricket more often.
- Engage Children and Young People- We will inspire a new generation of player and fans to develop a love for cricket.
- Transform Women’s Cricket – We will drive cricket progress to becoming a truly gender-neutral sport.
- Support our communities – We will sue our purpose to connect communities and improve lives more broadly across society.

Consultation

5.3 Consultation was undertaken in June 2021, a survey was sent out to cricket clubs, schools, sports providers, and Parish Councils. The surveys were based on the Sport England PPS Guidance templates but adapted to gather key information most relevant to refreshing the PPS with the focus being on changes since 2016. Telephone consultation was undertaken where appropriate. The England Cricket Board and Yorkshire Cricket Board were consulted on the findings and recommendations. Feedback was received from:

Table 16: Consultee Responses

Cricket Clubs	Parish Council – 19 returns of which the following responsible for pitches	Sports Providers	Education Sector
Cowling Cricket Club Sutton in Craven Cricket Club Upper Wharfedale Cricket Club Embsay Cricket Club Skipton Cricket Club Skipton Church Institute Cricket Club Ingleton Cricket Club Glusburn Cricket Club Settle Cricket Club Bradley Cricket Club	The survey responses indicated that Bradley Parish Councils own and rent the ground to Bradley CC, the club are responsible for the ground.	All clubs who responded indicated they owned or had secured long term leases. Skipton Church Institute – lease from NYCC. Skipton Cricket Club – Coulthurst Trust Upper Wharfedale Cricket Club – Gardeners Trust Ingleton – Ingleton Rural Community Association Settle CC – Langcliffe Estate	Giggleswick School Settle College

Supply

- 5.4 There has been one loss a of two pitches since 2016 at the former Malsis School site. The change in the data reflects this and the inclusion of Upper Wharfedale Cricket Club and Bolton Abbey Cricket Club who are located within the YDNPA. The Upper Wharfedale Cricket Club ground is also used for evening matches by Grassington, Threshfield and Linton Cricket Clubs who play in the Dales Evening League. Bolton Abbey Cricket Club play in the Nidderdale and District League and the juniors team in the Upper Airedale Junior Cricket league. All other clubs play in the Craven and District League with Skipton Cricket Club also having a team in the Aire and Wharfedale Cricket League.

Table 17: Supply of Cricket Grass Pitches

Grass Pitches	2016	2021
Total sites	19	21
Total Pitches	21	21

- 5.5 A comparison with the detailed 2016 pitch quality assessments has been undertaken based on the information supplied by consultees. There have been no technical on site assessments undertaken, the pitch quality assessments are subjective based on consultee feedback. Detailed technical assessments supported by an agronomy report would be needed in the future to identify specific quality issues and remedial actions. Based on the 2021 feedback it appears that the quality of provision has improved across the district, however up to date information is not available for all pitches.

Table18: Quality Pitch Assessments Comparisons

2016		2021			
Site	Rating	Maintenance/Quality of pitches	Issues or Problems	Overall quality since 2016	Reason for Changes
Bentham Sports Field	Standard				Currently not in use as a cricket pitch
Bradley CC	Good	Good	Club has rated the maintenance undertaken as good but the overall quality as adequate	Adequate	Drainage poor, needs investment
Bolton Abbey					No information available
Cononley Sports Club	Good		over marking with football		
Cowling Sports Club	Good	Good		Much better	
Ermysteds Grammar School	Good				School play cricket at Sandylands. No information available re: school site
Gargrave CC	Good				No information available
Giggleswick School	Good	Excellent 3 pitches	Outfield at Lords Playing Field uneven	Slightly better	Plans in place to level and resurface Lords Playing Field in 2021/2022 and to submit a planning application to build a new changing pavilion.
Giggleswick School	Good	Good 1 pitch			
Giggleswick School	Good				
Giggleswick School	Standard				

Glusburn CC	Good	Good	Two clubs from the Quaid-E-Azam Sunday league play at the ground.	Slightly better	Achieved through groundsmen's work and expertise
Ingleton Football & Cricket Field	Good	Good	Ground leased from Ingleton Rural Community Association. Club maintains the ground. Dog fouling an issue	Slightly better	New mobile nets. Next project to build new store for grounds equipment.
Malsis School	Standard	Closed			
Malsis School	Standard	Closed			
Rathmell & Wigglesworth CC (Closed)	Poor				
Royd Hill (Sutton in Craven CC)	Good	Good 2 pitches	Occasional social nuisance and dog fouling	Much better	The club have fortunately been able to invest in better equipment and soil management. Also added some additional pitches on our ground (with a 2nd square) which has relieved the pressure on our main square. Practice and junior games can now be undertaken on the 2nd square.
Settle CC	Good	Good	In addition to the club the ground and facilities are used by Settle College who play games here as do local primary schools. Usually we host a schools' tournament and festival for 6-7 local schools Local Rounders team play here, plus an over 50s walking cricket team have used the ground	Slightly better	Hard work by volunteer ground staff and investment by the club has led to the improvements.

Skipton CI CC	Standard	Adequate	Unofficial use becoming a problem. Condition of outfield including drainage.	Slightly better	Better equipment, newly laid square.
Skipton CC	Good	Good 2 pitches		Much better	Time spent by groundsman working on the square and money spent by the club improving the surface
The Robinson Memorial Ground (Embsay CC)	Good	Good	Outfield used for women's rounders	Much better	The groundsman undertook a lot of work during the pandemic whilst cricket could not be played to improve the pitch. The club has additional volunteers to assist with the grounds maintenance.
Thornton-In- Craven CC	Standard				No information available
Upper Wharfedale		Good	Dog fouling now under better control after gates padlocked	Slightly better	Better team working on the ground

- 5.6 The 2016 PPS highlighted Royd Hill as being a top scoring site and this has been maintained. Embsay, Skipton and Cowling Cricket Clubs have all indicated the quality of their pitches is much better than in 2016. Upper Wharfedale Cricket Club have rated the pitch as good and that it has seen improvements since 2016.
- 5.7 In terms of ancillary facilities, Upper Wharfedale Cricket Club, Settle and Skipton Cricket Clubs indicated there is not enough pavilion space and Bradley Cricket Club and Skipton Cricket Club rated the facilities as poor. Skipton Cricket Club in partnerships with Skipton Town Juniors continue to address this issue which featured as a priority in the 2016 PPS and have secured planning permission for a community building with changing to serve both sports. Several clubs highlighted the issue of being able to provide suitable changing and toilet facilities for women and girls cricket.
- 5.8 Progress on the action plan which resulted from the 2016 PPS has continually been reviewed with the last formal report produced in 2019. Based on the feedback from consultation and other known information the current progress on the 2016 action plan is detailed below.

Table 19: 2016 PPS Action Plan Progress and 2021 Feedback from Consultees

Site 2016	Site 2021	Notes	Progress Update 2019	Feedback 2021
	AUSTWICK PLAYING FIELDS			No information
Bentham Sports Field	BENTHAM PLAYING FIELDS	No Grass Pitches Currently Marked Out		
	BOLTON ABBEY CRICKET CLUB	Within YDNPA		Two Senior and Two Junior teams.
Bradley CC	BRADLEY CRICKET CLUB		Crick-1 1 & 2 – Football pitch moved slightly closer to wicket so no room now for extra non turf wicket. Cricket Club have report on drainage and working up solution to this to improve links to the football pitch drains	<p>Drainage needs renewing and the outfield evenness needs improving.</p> <p>Quality of the changing rooms is poor, too small with no disability access or women's changing facilities.</p> <p>Clubs wants to improve the facilities to increase playing capacity and develop girls/women's cricket. Investment in new cricket nets required.</p> <p>Club has plans need permission from Parish Council.</p>
Cononley Sports Club	CONONLEY SPORTS CLUB		Crick -3 Club has progressed wicket covers with Grant Funding and support from CDC. Considering the non-turf pitch plans.	Proposal to improve the drainage under development and will be progressed further at the end of 2021 cricket season will include gutters to garage block, work to ditches alongside cricket and football pitches. Plans to install artificial wicket.
Cowling Sports Club	COWLING SPORTS CLUB	Pitch/square 1 - No. of grass wickets - 10 Ground also		Laid artificial practice nets enclosed area and minimal work on drainage. More could be done.

		used by Sunday League teams		
Ermysteds Grammar School	ERMYSTED'S GRAMMAR SCHOOL	No Grass Pitches Currently Marked Out		School has submitted planning application (2021/22977/FUL) in June 2021 to replace the playing field with AGP due to the poor condition of the playing field which impacts on usage.
	FLOSHERS FIELD (Cracoe Cricket Club)	Near Cracoe within YDNP Does not appear to be in use. Formally Cracoe/Ryle stone Clubs		No information
Gargrave CC	GARGRAVE SPORTS FIELD	Play- Cricket.com indicates two senior teams		No information
Giggleswick School	GIGGLESWICK SCHOOL		4 pitches	Proposals to level and resurface the Lords Playing Field Cricket pitches outfield. Build a changing pavilion with community space. Settle Cricket Club and Rothwell Cricket Club occasionally use pitches. Settle Cricket Club hire sports hall for winter training.
Glusburn CC	GLUSBURN CRICKET CLUB			CCTV fitted to pavilion, portable defibrillator installed, scoreboard upgraded to enable connection to Play Cricket Scoring APP.
Ingleton Football & Cricket Field	INGLETON SPORTS FIELD		Cricket - 4 Install non-turf pitch permanent net facility at the sports club. Club has worked up a scheme and progressing,	New portable nets are in place. Need to build a grounds equipment storage.

			some local residential objections so on hold.	Changing facilities are rated as good but lack separate changing for officials and girls/women.
Malsis School	MALSIS SCHOOL (CLOSED)	Closed		
	RAMPER PARK	No Grass Pitches Currently Marked Out		
Rathmell & Wigglesworth CC (Closed)	RATHMELL AND WIGGLEWORTH CRICKET CLUB (CLOSED)	Closed		
Royd Hill	ROYD HILL (Sutton CRAVEN CC)	Pitch/square 1 - No. of grass wickets - 10 Pitch/square 2 - No. of grass wickets - 4 Ground used by Sunday League team in addition to Main Club.	Crick- 5 Confirm with club priority development (nets or mobile cage) awaiting confirmation from club	New build pavilion and supporting clubhouse in 2016 meeting all SE/ECB specifications for cricket for both players and officials. The facilities are among the best. Since 2016 - Pitch quality much better. The club have fortunately been able to invest in better equipment and soil management. Also added some additional pitches on our ground(with a 2nd square) which has relieved the pressure on our main square. Practice and junior games can now be undertaken on the 2nd square. We have plans to replace our existing equipment storage.
	SANDYLANDS GRASS PITCHES (NYCC)	See Skipton CIC - leased to SCC by Coulthurst Trust		

	SETTLE COLLEGE PLAYING FIELDS	1 pitch		<p>Note Settle College also use Settle Cricket Club pitch.</p> <p>Grounds maintenance carried out e.g. verti draining to improve playing pitches</p>
Settle CC	SETTLE CRICKET CLUB (MARSHFIELD GROUND)			<p>New wall and store shed built to compensate for loss of storage and space as nearby development was built which included protective netting.</p> <p>Most recently installed 25 extra memorial benches to increase seating capacity.</p> <p>Pitches all winter dressed, new covers purchased.</p> <p>Would like to renovate old pavilion, increase kitchen capacity and toilets.</p> <p>Create space for women's changing.</p> <p>Training nets need upgrading,</p> <p>This is a very successful club at the heart of the community bringing sport to all ages with well used facilities. To bring the game to women and girls e.g. to offer additional changing facilities so they feel valued club members rather than an afterthought. With 9 sides playing regularly there is pressure on the ground and had we not had access to Giggleswick School facilities for some junior games we would have struggled to support all teams</p>

Skipton CI CC		Pitch/square 1 - No. of grass wickets - 7	Crick-6 Skipton CICC moved their wicket and pitch next to clubhouse and secured long lease from NYCC for site as this is club priority. Site now fenced off and club continuing to manage their site well.	Unofficial use becoming a problem. Condition of outfield including drainage. Since 2016 - Improved, Better equipment, newly laid square, new covers, new practice cage. New grounds equipment mower purchased, roller on order. Improved the changing rooms
Skipton CC	SKIPTON CRICKET CLUB	Pitch/square 1 - No. of grass wickets - 10 Pitch/square 2 - No. of grass wickets - 4	Crick 7 Planning permission secured and now working up finances on how to deliver the scheme. Costs coming in at around £1m. The £330k from Burnside housing development notionally allocated to support this. Ongoing feasibility for non-turf pitch	Pressure on parking spaces - shared parking area No changing for officials but plans passed for a new clubhouse/community hub in 2022/23. Issues: Rabbit holes, littering, unofficial use Since 2016 improvements - Time spent by groundsman working on the square and money spent by the club improving the surface
The Robinson Memorial Ground	THE ROBINSON MEMORIAL GROUND Embsay Cricket Club	Pitch/square 1 - No. of grass wickets - 10		The pitch and grounds have been improved. Concern regarding availability for car parking following the development on land next to the ground. There is a need to purchase covers this would require additional land for storage
Thornton-In- Craven CC	THORNTON-IN-CRAVEN CRICKET CLUB			Quality of pitch much improved since 2016. The amount of time spent working on the ground by the grounds team has improved pitch.

	UPPER WHARFEDALE CRICKET CLUB, WOOD LANE GRASSINGTON	Pitch/square 1 - No. of grass wickets - 10		<p>Car Parking if it's a dry day use the rugby field. Otherwise. difficult and cars park on road.</p> <p>Ancillary facilities - Not enough space, no separate female changing. Were adequate 30 years ago when built but limited cricket then compared to now.</p> <p>Dog fouling now under better control after gates padlocked.</p> <p>Pitch quality since 2016 slightly better. Better team working on the ground</p> <p>We have converted a room into a bar, funded a new electronic scoreboard, refitted the kitchen, bought mobile net cages, and converted the old scoreboard into an outside COVID friendly bar .</p> <p>Would love to be able to resurface the artificial nets and create new changing and toilet areas.</p>
--	--	---	--	---

Demand

- 5.9 Clubs were asked how many teams they expected to have in the full season 2021-2022, the clubs who provided feedback indicated that collectively they would have 54 teams. There were ten teams who responded to the PPS consultation in 2016 and they indicated that the total number of teams would be 54.
- 5.10 It can be assumed there has been a growth in cricket as by adding the data from 2016 to the clubs who did not respond in 2021 the total number of teams would be 59. Reviewing the ECB Play Cricket website confirms there has been a growth of not, is that Settle Cricket Club has a women's team and there are both boys and girls cricket teams at Settle and Ingleton Cricket Clubs. Bolton Abbey Cricket Club who was not included in the 2016 PPS have two senior teams. Upper Wharfedale Cricket Club have two senior teams and under13, under 11 and under 9's cricket teams.

5.11 The information from clubs who responded to the consultation is detailed below.

Table 20: Demand by number of teams

Club	No. of competitive teams				Total
	Senior men	Senior women	Juniors Boys	Junior Girls	
Cowling Cricket Club	2	0			2
Sutton-in-Craven Cricket Club	2		2		4
Upper Wharfedale Cricket Club	2	1	2	1	6
Embsay Cricket Club	2		2		4
Skipton Cricket Club	3		11	1	15
Skipton Church Institute	2		1	1	4
Glusburn Cricket Club	2				2
Ingleton Cricket Club	3		1	1	5
Settle Cricket Club	4	under development	3		7
Bradley Cricket Club	2		2	1	5
Total	24	1	24	5	54

Using the 2016 data from the clubs who did not response it is assumed that there would be 28 senior men's team, 25 junior boys' teams equating to the total of 59 teams as suggested above.

- 5.12 Clubs were asked about the participation in junior coaching sessions for the under 11's age group. There was junior coaching taking place at all the clubs who responded to the consultation and both girls and boys are participating in cricket. Most clubs have in the region of 11 – 20 participants in each of the under 11's and under 9's age groups. Skipton Cricket Club have a large number of juniors; within the region of 40 participants at under 11's and over 50 participants at under 9's
- 5.13 Skipton Cricket Club achieved disability cricket status in 2020 and offers a range of activity for both adults and children with physical and learning disabilities. Post Covid weekly sessions have grown from around 6-8 people to over 20.
- 5.14 The feedback from clubs indicated that in comparison to the season 2018-2019, pre Covid, most clubs, other than Sutton in Craven had seen the number of teams stay the same. Although Sutton in Craven have seen a reduction in the number of senior players they are

looking to launch girls and women's cricket in 2021. There has been a small increase in numbers particularly for lower age ranges of junior cricket.

- 5.15 Settle Cricket Club indicated that they are undertaking significant work to rebuild post Covid 19 and have taken a cricket programme into seven local primary schools, they have some 80 junior players registered with the numbers being rebuilt at the lower age groups, with more work to be done at over 11's. There is a need for qualified coaches to enable the rebuilding, growth, and development.

- 5.16 The 2016 PPS indicated that there would be a future demand for more teams particularly youth boys cricket. With 1.8 additional youth boys teams required based on the population and 0.8 teams for adult males.
- 5.17 Team Generation Rates (TGR) provide an indication of how many people it may take to generate a team. TGR considers current and future populations and what this potential change across the sport and age groups may mean for playing pitches in the future. Using the Sport England TGR calculator, the TGR for Craven as of 2021 are:

Table 22: TGR Rates 2021

Sport and Age Groups	Number of teams in age group within the area	Current population in age group within the area (2021)	Future population in age group within the area (2032)	Current TGR	Population Change in Age Group	Potential Change in Team Numbers in Age Group
Cricket Open Age Men's (18-55yrs)	28	11,162.00	10,704.00	398.64	-458	-1.15
Cricket Open Age Women's (18-55yrs)	1	11,612.00	11,054.00	11612.00	-558	-0.05
Cricket Junior Boys (7-18yrs)	25	3,832.00	3,580.00	153.28	-252	-1.64
Cricket Junior Girls (7-18yrs)	4	3,462.00	3,279.00	865.50	-183	-0.21
Current TGR is the number of people required to generate one team e.g. 398.64 male adults aged 18-55 years is needed to generate one team in 2021. With the change in population by 2032 the number of teams in the age group will decrease by -1.15.						

- 5.18 There is likely to be a slight decrease in demand across all cricket teams as the population changes through to 2032. However, whilst the data might suggest a decrease, with national programmes to develop women's and girls' cricket it is expected that demand for playing pitches would increase with future growth. It is notable that several clubs have highlighted the need to be able to accommodate women's and girls' cricket and that dedicated changing and toilet facilities are not available at their grounds.

Supply and Demand Balance

- 5.19 Given the updated information on supply and demand and the light touch approach to the PPS refresh it is reasonable to conclude that there is sufficient supply of secured pitches to meet current and future changes in demand for pitches. Therefore, pitches need to be protected.
- 5.20 However, it is important to ensure that the where the quality of pitches is good this is at least maintained and where required the quality of pitches improved. The ECB have resources available in partnership with Grounds Management Association (GMA) which act as reference point for cricket club volunteers to find practical guidance on maintaining and developing their ground.
- 5.21 Enhancement of changing facilities and cricket nets will enable clubs to continue to develop the game and open up to more women and girls and disability cricket.

Key Findings for Cricket

- 5.22 The supply and demand results indicate that overall that there is sufficient capacity across the district of cricket pitches. Changing accommodation limits the growth of cricket through the ability to provide changing for both male and females at Upper Wharfedale, Settle and Ingleton Cricket Clubs. The development of the new build pavilion at Skipton Cricket Club will provide suitable changing for male and female players.
- 5.23 Enhancements have been made since 2016 which include:
- Planning permission has been granted for the development of a multisport club house at Skipton Cricket in a partnership between the cricket club and Skipton Town Juniors. The securing of funding to deliver the project is a priority for the club.
 - Sutton in Craven Cricket Club have added a second square and have a new pavilion.
 - Skipton CIC have secured a long term lease and been able to move the wicket and make improvements to the pitch.
 - Ingleton Cricket Club have purchased portable cricket nets.
 - There are number of cricket clubs who have invested financially and in volunteer time to make improvements to the quality of the pitches and ancillary facilities. Feedback from clubs indicates that there is a continued commitment towards enhancing the provision available.

- 5.24 Giggleswick Schools proposed pitch and changing room developments at the Lords Playing Field site will enhance the provision for both education and community use. A planning application has not been submitted to date, as part of any planning application securing a community use agreement would need be linked to the pitch and changing facility development to increase the supply of community secured pitches. The school pitches are used by Settle Cricket Club without which the club would struggle to accommodate all teams.
- 5.25 Little progress has been made on a collaborative pitch maintenance programme for the district. The geography of the district to a certain extent makes this more restrictive. However, in locations such as Sandylands where there are several sports clubs this would be more realistic. Clubs can seek support through the ECB partnership with Grounds Management Association where resources are available which act as reference point for cricket club volunteers to find practical; guidance on maintaining and developing their ground.

Recommended Action Plan

- 5.26 The recommended action plan includes existing actions from 2016 which remain relevant and appropriate and new actions based on the information and issues which have emerged during the PPS Refresh study. The format of the action plan follows on from the 2016 PPS.
- 5.27 It should be noted the actions in relation to clubs based in the area known as Sandylands, i.e. Skipton Cricket Club, Skipton CI Cricket Club are linked to the football and rugby and AGP action plans. Similarly, this applies to the development and improvement of sports pitches in Grassington/Threshfield, Wharfedale.

Table 23: PPS Refresh 2021 Cricket Action Plan

Site	Action ID	Issue/Opportunity to be addressed Key Actions	Specific Actions	Lead (Bold) and Partners	Resource Implications	Timescales and Priorities Short 1-3 years Medium 3-5 years Long 6-10 years
Bradley Cricket Club	Crick -1 Updated	The club has identified a requirement for an additional training facilities. Require and additional grass wicket to allow teams to practice on edge of square.	Identify funding opportunities and submit bids	Bradley Cricket Club Bradley Parish Council	Volunteer time Funding	Short Medium Priority

		<p>Improvements to drainage required.</p> <p>Recommended Revised Action: Project plan and cost the works required for drainage and secure funding.</p> <p>Identify funding to purchase new cricket nets</p> <p>Negotiate with the Parish Council and develop a partnership approach.</p>	CDC to assign developer contributions where applicable in line with Local Plan policies	<p>CDC</p> <p>ECB – YCB (Yorkshire Cricket Board)</p> <p>GMA (Grounds Management Association)</p>		
Cononley Sports Club	Cricket 2 Updated	<p>The site suffers from drainage issues and moles. The club are looking to extend the pitch in order to reduce over marking with football.</p> <p>Recommended Revised Action: Plan and gain funds should be used to engage an agronomist to undertake a study to recommend an action plan to resolve the pitch conditions for both cricket and football. Action cross references with Foot-5</p>	<p>Partnership working between football and cricket clubs supported by CDC to engage a qualified agronomist.</p> <p>Review outcome of agronomist study and plan accordingly.</p> <p>Current proposal includes work to ditches and installation of artificial wicket, progress proposed solutions.</p>	<p>Cononley Sports Club</p> <p>CDC</p> <p>(FA and ECB, YCB)</p>	<p>Volunteer time</p> <p>CDC officer time</p> <p>Planning gain funds (secured)</p>	<p>Short</p> <p>High priority</p>
Cowling Sports Club	Cricket -3 Updated	<p>There has been some work done on drainage but more work would improve the pitches.</p> <p>The installation of practice nets has been completed.</p> <p>Recommended Revised Action:</p>	<p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions</p>	<p>Cowling Sports Club</p> <p>ECB- YCB County Pitch Advisor and GMA</p> <p>CDC</p>	<p>Volunteer time</p> <p>ECB – YCB Officer time</p> <p>CDC Officer time</p>	<p>Medium</p> <p>Medium Priority</p>

		Club to undertake further drainage works.	where applicable in line with Local Plan policies			
Ingleton Football and Cricket Field	Crick – 4 Updated	<p>A requirement has been identified for additional practice facilities. Club would like permanent non -turf practice nets to replace or complement the current non-turf pitch they use with a temporary net on the square. Mobile practice nets now available.</p> <p>Recommended Revised Action: The building of storage facility for the ground maintenance equipment.</p>	<p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	<p>Ingleton Cricket Club</p> <p>ECB - YCB</p>	Volunteer time	
Royd Hill (Sutton in Craven CC)	Crick -5 Updated	<p>Club identified need for mobile cage. Identified need for Non turf pitch to reduce demand on grass pitches.</p> <p>Club have new clubhouse and 2nd pitch which has reduced the pressure on pitches. Less of a priority for the mobile cage now exists.</p>	<p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	Sutton in Craven Cricket Cub	Volunteer time	<p>Medium</p> <p>Low Priority</p>
Skipton Church Institute Cricket Club	Crick -6 Updated	<p>Club completed moving the square to nearer the closer to the clubhouse.</p> <p>Recommended Revised Action: Improve drainage to the outfield Opportunity for working with Skipton Cricket Club for example on shared training facilities such as cages</p>	<p>Continue to develop a working relationship with Skipton Cricket Club for the mutual benefit of both clubs</p> <p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions</p>	<p>Skipton CIC</p> <p>Skipton CC</p> <p>CDC</p>	<p>Volunteer time</p> <p>CDC Officer time</p> <p>ECB- YCB Officer time</p>	Ongoing

			where applicable in line with Local Plan policies			
Skipton Cricket Club	Crick -7 Updated	<p>Club has secured planning permission for new multisport club house. Funding required to complete the project. Project has developed in partnership with Skipton Town Juniors FC.</p> <p>This will enable Skipton Juniors FC who are working together with Skipton Cricket Club to potentially access external grants for pitch improvement and the new multisport club house which has secured planning permission.</p>	<p>Identify funding opportunities and submit bids</p> <p>Project Plan for the construction and development of the proposed facility.</p> <p>Partnership working to be developed to be developed with Skipton Juniors FC and other sports clubs to maximise the opportunities of new facility.</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	<p>Skipton CC</p> <p>Skipton Town Juniors FC and other sports clubs</p> <p>CDC</p> <p>ECB, YCB and FA</p>	<p>Volunteer time</p> <p>CDC officer support</p> <p>ECB- YCB Officer time</p>	<p>Short</p> <p>High Priority</p>
Upper Wharfedale Cricket Club	Crick -8 New	Development of Changing facilities to support the growth of cricket in the club, and to be able to offer female changing facilities.	<p>Feasibility study to understand the need and sustainability.</p> <p>Club to link with the wider sports club network in Grassington/Wharfedale in discussions about multisport hub</p>	<p>Upper Wharfedale Cricket Club</p> <p>ECB, YCB</p> <p>YDNPA</p>	<p>Volunteer time</p> <p>YDNPA Officer time</p> <p>CDC Officer time</p> <p>ECB – YCB Officer time</p>	<p>Medium</p> <p>Medium Priority</p>

Giggleswick School	Crick -9 New	<p>School intending to submit planning application to upgrade the Lords Playing Field which will improve the cricket outfield.</p> <p>The proposal includes new changing rooms and club house with social space and kitchen.</p> <p>The improved and enhanced facilities will be an asset to the school and the wider sporting community. It will be important to ensure that community access is available.</p>	CDC to work with Giggleswick School to ensure that a formal Community Use Agreement (CUA) enables access for cricket and other community groups.	Giggleswick School Craven District Council	<p>School Senior Management team</p> <p>CDC Officer time</p>	<p>High</p> <p>High priority</p>
<p>The Robinson Memorial Ground</p> <p>Embsay Cricket Ground</p>	Crick – 10 New	<p>Club to undertake a feasibility to be able to purchase and store covers.</p> <p>Should the proposed football pitches be granted planning permission (Foot-6) adjacent to the ground presents an opportunity to negotiate access to additional car parking.</p>	<p>Partnership work with landowners.</p> <p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	Embsay Cricket Club ECB, YCB	<p>Volunteer time</p> <p>CDC Officer time</p>	<p>Medium</p> <p>Medium priority</p>
Settle Cricket Club	Crick -11 New	<p>Capacity of changing and pavilion to support and develop women and girls cricket at the club.</p> <p>Condition of training nets.</p> <p>Access to additional pitch to accommodate current and potential growth of teams.</p>	<p>Project plan to look at feasibility and costs to upgrade the pavilion and training nets.</p> <p>Identify funding opportunities and submit bids</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	Settle Cricket Club ECB, YCB Craven District Council	<p>Volunteer time</p> <p>CDC officer time</p>	<p>Medium</p> <p>Medium Priority</p>

			Inform the Community Use Agreement highlighted in Crick-9 to enable access to additional pitches			
All Clubs	Crick- 12 New	PPS 2016 identified the action to develop and fund an equipment bank for maintenance machinery and benefit from additional maintenance training. Not been achieved or progressed. Cricket Clubs should access the Groundcare resources via the ECB website Cricket Home Grounds Management Toolkit (thegma.org.uk)	Clubs to access resources	Cricket Clubs	Volunteer time	Short High Priority

6. Rugby Union

Rugby Union

6.1 The Rugby Football Union (RFU) England Rugby Strategy has a vision for a Successful and Thriving Game across England 2021 identifies:

Our Purpose – To enrich lives, introduce more people to rugby and develop the sport for future generations.

6.2 The RFU have eight priorities which are:

- Enabling positive, enjoyable player experiences
- Creating the best possible high-performance system
- Enhancing player welfare
- Supporting clubs to sustain and grow themselves
- Driving rugby union to reflect the diversity of society
- Building a deep understanding of players, volunteers, and fans to shape future of the game
- Connect with and grow the rugby community
- Ensure a sustainable and efficient business model delivered by inspired workforce.

6.3 In terms of grass roots club rugby, the RFU are looking to:

- Improve accessibility for women and girls across the game
- Make the game inclusive and attractive for 14 to 18 year olds
- Redefine playing opportunities, structures, and competitions for current and future players, recognising the strategic importance of the adult male game
- Develop match officials and coaches in the community game to enhance player enjoyment
- Provide support to club and volunteers so they can attract new, diverse volunteers and help clubs to be fit for the future and self-sustaining Provide support to help clubs maximise the benefit from their facilities and assets
- Help clubs manage their risk and liabilities
- Improve the diversity of all facets of our game and continue to create an inclusive environment for all

Consultation

- 6.4 Consultation was undertaken in June 2021, a survey was sent out to rugby union clubs, schools, sports providers, and Parish Council. The surveys were based on the Sport England PPS Guidance templates but adapted to gather key information most relevant to refreshing the PPS with the focus being on changes since 2016. Telephone consultation was undertaken where appropriate. Rugby Football Union (RFU) were consulted on the findings and recommendations. Feedback was received from:

Table 24 : Consultee Responses

Rugby Clubs	Parish Council – 19 returns of which the following responsible for pitches	Sports Providers	Education Sector
North Ribblesdale RUFC (Settle) Skipton RUFC Wharfedale RUFC (Grassington)	Giggleswick Parish Council have responsibility for pitches at Harrison Road Playing Field. Harrison Playing Field is hired to North Ribblesdale RUFC as they require additional capacity for junior rugby.	All clubs who responded indicated they owned or had secured long term leases. Coulthurst Trust lease ground to Skipton Rugby Club. Gardener Trust lease the ground to Wharfedale Rugby Club	Giggleswick School Settle College Skipton Academy South Craven School Upper Wharfedale School

Supply

- 6.5 There has been a loss of pitches since 2016 at the former Malsis School site however, there has been an overall increase in provision from the 2016 report. The change in the data reflects this and the inclusion of Wharfedale Rugby Club, Upper Wharfedale School and the G.F. Gardener Trust Memorial Ground all in Grassington/Threshfield within the YDNPA. The Harrison Road site in Settle was not included in the 2016 study, North Ribblesdale Rugby Club use the site for junior rugby. Additional pitches have been identified since 2016 at Sandylands and Giggleswick School, and Settle College. There are three rugby union clubs in the district Skipton RFC, North Ribblesdale RFC (Settle) and Wharfedale RFC (Grassington).

Table 25 : Supply of Grass Pitches

Grass Pitches	2016	Senior	Junior	2021	Senior	Junior
Total sites	8			11		
Total Pitches	23	17	6	34	25	9

- 6.6 The 2016 PPS highlighted that Giggleswick School were looking to develop a World Rugby Regulation 22 AGP. However, those plans have been superseded and the school has developed a scheme to undertake significant pitch improvement works at the Lords Playing Field which will result in two high quality senior rugby union pitches and an improved cricket outfield. The plan includes new changing rooms with kitchen and community/social space. It is expected that a planning application will be submitted before the end of 2021
- 6.7 A comparison with the detailed 2016 pitch quality assessments has been undertaken based on the information supplied by consultees. There have been no on-site technical assessments undertaken, the pitch quality assessments are subjective based on consultee feedback. Detailed technical assessments supported by an agronomy report would be needed in the future to identify specific quality issues and remedial actions. Based on the feedback the quality of pitch provision has generally improved across the district.

Table 26 : Quality Pitch Assessments Comparisons

Site	2016	Rating 2021 Based on Survey Feedback		Reason for change
		Maintenance/ Quality of pitches	Overall quality since 2016	
GIGGLESWICK SCHOOL	Adequate	Excellent	Slightly Better	Continued grounds maintenance works
GIGGLESWICK SCHOOL (LORDS PLAYING FIELD)	Adequate	Adequate	No Difference	Proposals developed for pitch improvements
GROVE PARK - North Ribblesdale Rugby Club	Adequate	Good	Slightly Better	Second pitch much better due to major pitch works

GROVE PARK	Poor	Good	Much Better	
HARRISON PLAYING FIELD		Adequate	Slightly Better	Parish Council and North Ribblesdale Club work together to maintain and prepare pitches
SANDYLANDS GRASS PITCHES	Poor	Good	Slightly Better	
SETTLE COLLEGE PLAYING FIELDS	Poor	Adequate	Slightly Better	Verti draining work undertaken in summer
THE SKIPTON ACADEMY	Poor	Poor	No Difference	
SKIPTON RUGBY CLUB	Adequate	Adequate	Slightly Better	Total resurfacing of one pitch
SOUTH CRAVEN SCHOOL	Poor	Adequate		
THE G.F. GARDENER TRUST MEMORIAL GROUND				
UPPER WHARFEDALE SCHOOL		Poor		One grass pitch used for all sports
WHARFEDALE RUGBY UNION FOOTBALL CLUB		Adequate	Slightly Better	Improved drainage to both full sized pitches. 2nd team pitch has been recently levelled

- 6.8 The 2016 PPS highlighted pitches were poor at Sandylands Grass Pitches, Skipton Academy and South Craven School and the second pitch at North Ribblesdale Rugby Club. There has only been a significant improvement at North Ribblesdale Rugby Club, Grove Park through major drainage works on the second pitch. All other pitches are poor or adequate except for Giggleswick School and Grove Park, although information suggests the pitches are poor/adequate there has been proactive work to make improvements particularly at Harrison Road Playing Fields and Wharfedale Rugby Club, however the quality of the pitches at the latter in 2016 is unknown as the sites were not previously included.
- 6.9 The three rugby union clubs rated their ancillary facilities; Skipton and North Ribblesdale rated their facilities as adequate and Wharfedale as poor. The key points highlighted by the clubs were.

Table 27 : Quality of Ancillary Provision

Club	Comments
North Ribblesdale RFC	Further changing rooms needed to accommodate number of teams and upgrade showers and toilets. The Club are looking to build an extension to make 2 further changing rooms to accommodate their current and future demand levels
Skipton RFC	Upgrading of the flood lights on the second pitch would help extend the available training space and it would then be possible to have multiple teams training at the same time. It should be noted, however, that this will increase the number of match equivalent sessions accommodated on said pitch. The perimeter fencing for the 1st team pitch, which is a league requirement needs replacing as a priority, it was first installed over 50 years ago. The club is exploring options to finance this project. The second pitch requires more work such as reseeding and the ongoing rabbit damage causes problems. In the future the condition of the stand will need addressing.
Wharfedale RFC	Existing changing rooms undersized and not in an ideal state of upkeep. No facilities for dedicated female change or dedicated female match official changing. Medical room undersized for number of players. 600-800 spectators regularly for Saturday home matches. Current parking requires use of a field which is weather dependent. As a result, cars park on the road verge as well which isn't ideal. A dedicated, hard standing parking area is required. The Club has significant aspirations to enhance both pitch and ancillary provision on the site, providing good quality, modern facilities to both male and female participants, officials and spectators.

- 6.10 Progress on the action plan which resulted from the 2016 PPS has continually been reviewed with the last formal report produced in 2019. Based on the feedback from consultation and other known information the current progress on the 2016 action plan is detailed below and is combined with feedback regarding all pitches from consultees.

Table 28 : Action Plan Progress and Feedback from Consultees 2021

Site 2016	Type of Pitch	Site 2021	Type of Pitch	Notes	Progress Update 2019	Feedback 2021
		FIRTH STREET RECREATION GROUND (CLOSED)	Junior Rugby Union	Closed		
Giggleswick School	Junior Rugby Union	GIGGLESWICK SCHOOL	Junior Rugby Union		Rug- 1 the school is currently looking to develop a full size World Rugby 22 3G pitch, which would have a formal community use agreement for peak hours. Scheme has been worked up and awaiting next stage of planning application	School no longer looking to develop a full size World Rugby 22 3G pitch. Alternative project is; Planning application to be submitted to redevelop the Lords Playing Field to level and improve the ground and build new changing rooms with club house with kitchen and community/social space. Intention to enter into a community use agreement. School have consulted locally with Parish Council and North Ribblesdale RC.

		GIGGLESWICK SCHOOL (LORDS PLAYING FIELD)	Senior Rugby Union			
Grove Park – North Ribblesdale RUFC	Senior Rugby Union	GROVE PARK	Senior Rugby Union		Rug -2 Pitch works complete and into establishment period. Await School actions Club has identified clubhouse extension is their next priority to cater for women's teams to have separate changing spaces and a small gym	Further changing rooms needed to accommodate number of teams and upgrade showers and toilets. NGB Officer Feedback - Development and growth at North Ribblesdale; pitch improvement works have supported this, however the growth of female participation has increased and added capacity challenges. The improved pitches are supporting this, however changing rooms access and quality is no longer fit for purpose. The club have developed plans to address this and are near to starting to cost and consider funding options for this Quality of pitches much better since 2016. Second pitch much better due to a major project. Although undulation on first pitch has got worse. Club uses grass and AGP pitches at Giggleswick School and the Harrison Playing Field. Problem areas still exist.
Grove Park – North Ribblesdale RUFC	Senior Rugby Union	GROVE PARK	Senior Rugby Union			

		HARRISON PLAYING FIELD	Senior Rugby Union	Used for junior rugby by North Ribblesdale Rugby Club		<p>Pitches leased to North Ribblesdale by Giggleswick Parish Council. Rate quality overall as adequate and the quality is slightly better than in 2016.</p> <p>There currently is a public right of way across the pitch so dog fouling can be an issue. The pitch has to be checked each time before play and training sessions (The club regularly uses the site for the junior section training).</p> <p>The parish council has employed a new mowing contractor and the club contribute to the maintenance and upkeep of the site.</p> <p>The landowners of the site opposite, and independent school, are developing a sports pavilion which will have community access and will therefore provide changing and toilet facilities which the club can have access to. The council is additionally investigating a change of route for the public right of way.</p>
Malsis School	Senior Rugby Union	MALSIS SCHOOL (CLOSED)	Senior Rugby Union	Closed	Development of site has taken place. Football pitches developed and used by Sutton Juniors FC	
		NORTH PARADE RECREATION GROUND (CLOSED)	Junior Rugby Union	Closed		

		SANDYLANDS GRASS PITCHES	Senior Rugby Union		Rug -3 progressing as pitch swap with Skipton CICC and ongoing works with Football club to improve whole ground	Skipton CIC have moved cricket pitch nearer to pavilion. Wider discussions about the Sandylands site have been undertaken involving all clubs on the site. RFU NGB Officer feedback no major progress. Continues as a priority area to develop from a RFU perspective and as a cross sport approach.
Sandylands Grass Pitches	Senior Rugby Union	SANDYLANDS GRASS PITCHES	Senior Rugby Union			
Settle CE Primary School	Junior Rugby Union					No additional information
		SETTLE COLLEGE PLAYING FIELDS	Junior Rugby Union			Annual pitch maintenance plan in place
		SETTLE COLLEGE PLAYING FIELDS	Senior Rugby League			Rugby pitches not used by external clubs. (Football pitches re used by local clubs) Schools ability to hire to the local community affected by staff availability.
Skipton Academy	Senior Rugby Union	THE SKIPTON ACADEMY	Senior Rugby Union			Pitch has combined rugby/football goals
Skipton Rugby Football Club	Senior Rugby Union	SKIPTON RUGBY CLUB	Senior Rugby Union		Rug-4 club looking at side lighting, temporary floodlighting in line with recommendation and potential planning gain Awaiting development on this action to undertake drainage improvements on 3rd team pitch	Pitches slightly better quality since 2016. Problem areas still exist. Pitch has been re-laid.

Skipton Rugby Football Club	Senior Rugby Union	SKIPTON RUGBY CLUB	Senior Rugby Union		Club has invested in new lift at clubhouse with some planning gain to improve access to clubhouse	Upgrading of the flood lights on the second pitch would help extend the available training space and it would then be possible to have multiple teams training at the same time which would be better.
Skipton Rugby Football Club	Senior Rugby Union	SKIPTON RUGBY CLUB	Senior Rugby Union			<p>The perimeter fencing for the 1st team pitch, which is a league requirement needs replacing as a priority, it was first installed over 50 years ago</p> <p>The second pitch requires more work such as reseeding and the ongoing rabbit damage causes problems.</p> <p>In the future the condition of the stand will need addressing.</p>

		WHARFEDALE RUGBY UNION FOOTBALL CLUB	Senior Rugby Union			<p>Improved drainage to both full sized pitches. 2nd team pitch has been recently levelled. Quality of pitches slightly better since 2016. Club uses additional grass pitch at Upper Wharfedale School</p> <p>Have had pre-application conversations with YDNPA planning about. Have started to develop " Wharfedale Sports hub for the Dales"</p> <p>1) Additional pitch(es) required to cater to the number of teams and increasing trajectory of participation. 2) All weather surface is vital to allow training / playing in the Winter months. Currently, in poor weather, in order to protect the grass pitches, matches/ training are cancelled or players have to travel to Keighley to play there. (It's a 50-mile round trip from Kettlewell to Keighley which does demonstrate the issues we face).</p> <p>3) Additional changing rooms required. 4) Dedicated changing rooms for Female players required. 5) Dedicated changing rooms for Female match officials required. 6) Additional rooms for training of Apprenticeships / classrooms. 7) Additional kitchen capacity. 8) Additional hospitality area / function room</p>
--	--	--	-----------------------	--	--	--

Demand

- 6.11 Clubs were asked how many teams they expected to have in the full season 2021-2022. The three clubs, Skipton, North Ribblesdale and Wharfedale provided feedback and indicated that collectively they would have 44 teams. Only Skipton and North Ribblesdale were included in the 2016 PPS where the number of teams was 22. The growth in teams is not wholly due to the inclusion of Wharfedale Rugby Club, Skipton and North Ribblesdale have seen an increases in teams since 2016.

Table 29: Demand by number of teams 2021

Name of Club	Mini/Midi U7-U12's	Youth U13-U17's Boys/Men	Youth U13-U17's Girls/Women	Colts U18-U19 Boys/Men	Colts U18-U19 Girls/Women	Senior Boys/Men	Senior Girls/Women	
North Ribblesdale	6	2	1	1	0	2	1	13
Skipton RFC	6	3			0	2	1	12
Wharfedale RUFC	6	5	2	1	1	4		19
Total	18	10	3	2	1	8	2	44

- 6.12 The feedback from clubs indicated that in comparison to the season 2018-2019, pre Covid, there has only been a decrease at the senior level at Skipton Rugby Club. The area of growth is in senior women's rugby with all other levels remaining the same. Feedback from clubs indicated they had been proactive during Covid to keep members engaged.

Table 30: Impact of Covid 19 on participation

Name of Club	Mini/Midi U7-U12's	Youth U13-U17's - Boys	Youth U13-U17's - Girls	Colts U18-U19 - Girls	Colts U18-U19 Boys	Senior Men	Senior Women
North Ribblesdale	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Increased
Skipton RFC	Stayed the same	Stayed the same				Decreased	Increased
Wharfedale RUFC	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same	Stayed the same

- 6.13 In addition to the above, touch rugby takes place at all clubs and walking rugby takes place at North Ribblesdale and Wharfedale.

- 6.14 The 2016 PPS indicated that there would be a future demand for more teams with mini and midi the largest area of growth with 1.2 teams and a 0.5 growth in teams at youth and senior rugby.
- 6.15 Team Generation Rates (TGR) provide an indication of how many people it may take to generate a team. TGR considers current and future populations and what this potential change across the sport and age groups may mean for playing pitches in the future. Using the Sport England TGR calculator, the TGR for Rugby in Craven as of 2021 are:

Table 31: TGR Rates

Sport and Age Groups	Number of teams in age group within the area	Current population in age group within the area (2021)	Future population in age group within the area (2032)	Current TGR	Population Change in Age Group	Potential Change in Team Numbers in Age Group
Rugby Union Senior Men (19-45yrs) includes Colts	10	6,930	6,985	693.00	55	0.08
Rugby Union Senior Women (19-45yrs)	3	7,015	7,033	2338.33	18	0.01
Rugby Union Youth Boys (13-18yrs)	10	1,999	1,942	199.90	-57	-0.29
Rugby Union Youth Girls (13-18yrs)	3	1,691	1,709	563.67	18	0.03
Rugby Union Mini/Midi Mixed (7-12yrs)	22	3,603	3,208	163.77	-395	-2.41
Current TGR is the number of people required to generate one team e.g. 693 male adults aged 19-45 years is needed to generate one team in 2021. With the change in population by 2032 the number of teams in the age group will increase by 0.08.						

- 6.16 The future demand through to 2032 is likely to be from potential slight increase in senior men's and women's rugby and youth girls' rugby. Decreases are projected for youth boys and mini/midi rugby, however the RFU consider this to be unlikely.

Supply and Demand Balance

- 6.17 Given the updated information on supply and demand and the light touch approach to the PPS refresh it is reasonable to conclude that there remains insufficient supply of community secured rugby pitches to meet current and future changes in demand for pitches. There are rugby pitches at education sites but without community use agreements in place the access to pitches remains unsecured.
- 6.18 The 2016 PPS identified an under supply of pitches with a series of actions to improve supply. The progress against those actions such as drainage works at North Ribblesdale's Grove Park site and the additional partnership work with the Giggleswick Parish Council at the Harrison Road Pitches and Skipton Rugby Clubs pitch improvements at Sandylands have been completed enabling better pitch carrying capacity.
- 6.19 The proposed World Rugby 22 AGP at Giggleswick School will no longer be developed but the proposed development of two senior grass pitches at the school which will be available for community use will replace the 2016 proposed AGP. A planning application has not been submitted to date, as part of any planning application securing a community use agreement would need be linked to the pitch development to increase the supply of community secured pitches.
- 6.20 In Wharfedale the need is to improve the quality of playing pitches and ancillary facilities within the area for example at Upper Wharfedale School and Wharfedale Rugby Club will increase the playing capacity and enable more community use. Bringing back into use the rugby pitch at the Gardener Trust site adjacent to Upper Wharfedale Cricket Club will similarly increase playing capacity.
- 6.21 There is no World Rugby 22 compliant AGP pitch within the district. Teams travel outside of the district to Keighley to use a World Rugby 22 AGP for training, this pitch is more accessible to clubs in the south of the district. The assessment of supply and demand for football concludes that there is a deficit of one full-size 3G AGP in the central and north areas of the district. A 3G AGP that is World Rugby 22 compliant would be beneficial to participation, in particular the Grassington/Threshfield area and support multi-sport participation.
- 6.22 Rugby pitches in the district need to be protected. It is important to ensure that where the quality of pitches is good this is at least maintained and where required the quality of pitches improved and enhanced. Securing community access to the proposed pitch developments at Giggleswick School will in part address under supply.

Key Findings for Rugby

- 6.23 The supply and demand results indicate that overall that there is insufficient supply across the district of rugby pitches. Supply will increase with a community use agreement attached to the proposed two pitches at Giggleswick School and, provide additional capacity during community use times in the main for North Ribblesdale Rugby Club.

- 6.24 Changing accommodation and toilet provision limits the growth of rugby and the ability to provide changing for both male and females at Wharfedale Rugby Club and North Ribblesdale Rugby Clubs. This presents challenges for ensuring good practice is met for safeguarding. Disability access is difficult.
- 6.25 Wharfedale Rugby Club has an apprenticeship programme which requires more suitable and dedicated space to support the educational elements. Catering facilities are not fit for purpose to meet the current demand and therefore any subsequent increased future demand as rugby and potentially other sports grow.
- 6.26 Further pitch and floodlighting improvements at Skipton Rugby Club would be of benefit. Replacement of the pitch perimeter fencing is a priority and in the future the stand will need works.
- 6.27 In Wharfedale poor drainage and accessibility issues to the pitch adjacent to the rugby club limits the use of that pitch for weekend junior rugby. The rugby pitch at the Gardener Trust site is currently not used, although some distance from the main club there is the potential to bring the pitch back into use with pitch improvement work. Upper Wharfedale School current pitch quality impacts on its use and availability for club rugby both for education and community use.
- 6.28 There is no World Rugby 22 compliant AGP pitch within the district. Teams travel outside of the district to Keighley to use a World Rugby 22 AGP for training, this pitch is more accessible to clubs in the south of the district. Potential AGP development needs to be considered in conjunction with findings from other sports within the PPS Refresh 2021.
- 6.29 The rugby clubs have invested financially and in volunteer time to make improvements to the quality of the pitches and ancillary facilities. Feedback from clubs and indicates that there is a continued commitment towards enhancing the provision available. The RFU Groundsmen Connected tools and resources offer support and advice to clubs on the maintenance of turf pitches.

Recommended Action Plan

- 6.30 The recommended action plan includes existing actions from 2016 which remain relevant and appropriate and new actions based on the information and issues which have emerged during the PPS Refresh study. The format of the action plan follows on from the 2016 PPS.
- 6.31 It should be noted that the actions in relation to clubs based in the area known as Sandylands, are linked to the football and cricket and AGP action plans. Similarly, this applies to the development and improvement of sports pitches in Grassington/Threshfield, Wharfedale.

Table 32 : PPS Refresh 2021 Rugby Action Plan

Site	Action ID	Issue/Opportunity to be addressed Key Actions	Specific Actions	Lead (Bold) and Partners	Resource Implications	Timescales and Priorities Short 1-3 years Medium 3-5 years Long 6-10 years
Giggleswick School (Main Site) Giggleswick School (Lords Playing Field)	Rug-1 Updated	School is currently looking to develop a full size World Rugby 22 3G pitch, which would have a formal community use agreement for peak hours. Recommended Revised Action: There continues to be a need for additional high quality rugby pitches for education and community use. This can be provided by the schools proposal to make improvements to the pitches at Lords Playing Field and the building of new changing facilities.	School to finalise proposals and submit planning application. Community Use Agreement (CUA) be negotiated to ensure access to sports pitches and changing facilities. Continued partnership development with North Ribblesdale Rugby Club to support the growth and development of rugby	Giggleswick School CDC Officer time North Ribblesdale Rugby Club RFU	Funding for development identified through sale of land as identified within local plan. CDC Officer time to negotiate CUA	Short High Priority
Grove Park - North Ribblesdale Rugby Club	Rug -2 Updated	Pitch improvements are completed. Recommended Revised Action: Rug 2a - Continued development of the club requires access to additional	Continued partnership development with Giggleswick School to secure through CUS access to the new pitches and changing facilities at Lords	North Ribblesdale Rugby Club Giggleswick School	Volunteer time CDC Officer time to negotiate CUA	Rug - 2a Short High Priority Rug- 2b

		<p>pitches particularly for junior development.</p> <p>Rug 2- b Additional changing and improved facilities are required to accommodate the number of teams.</p>	<p>Playing Field once developed.</p> <p>Continue to work with Giggleswick Parish Council for the continued provision of pitches at Harrison Playing Fields</p> <p>Undertake feasibility for the development of the existing changing accommodation. Identify funding.</p> <p>CDC to assign developer contributions where applicable in line with Local Plan policies</p>	<p>Giggleswick Parish Council</p> <p>CDC Officer time</p>		<p>Medium</p> <p>Medium Priority</p>
Harrison Playing Field - Giggleswick	<p>Rug – 5</p> <p>New</p>	<p>Playing pitch would be better protected by a change to the public right of way (PROW) which is directly through the middle of the area.</p> <p>Opportunity for partnership work with proposed Lords Playing development at Giggleswick School to enable users of Harrison Playing Fields to be able to access the changing facilities.</p>	<p>To investigate how the PROW can be amended with the relevant planning officers.</p> <p>Continue to work in partnership with North Ribblesdale Rugby Club to maintain the pitches.</p> <p>Develop a relationship with Giggleswick School regarding access to the proposed</p>	<p>Parish Councillors</p> <p>CDC</p> <p>North Ribblesdale Rugby Club</p> <p>Giggleswick School</p>	<p>Parish Councillor time</p> <p>Clerk to Parish Council time</p> <p>CDC Officer time to negotiate CUA</p>	<p>Short</p> <p>High Priority</p>

			changing rooms. To be part of any CUA negotiations.			
Sandylands Grass Pitches	Rug- 3 Updated	Cricket pitch has been moved Action regarding pitch improvements remain to improve the overall quality and drainage on the Sandylands pitches. In conjunction with overall pitch improvements linked to Football action plan	Work with NYCC to improve the quality of the pitches and any relevant National governing Bodies	RFU NYCC	Officer time to manage the projects	Medium Medium Priority
Skipton Rugby Club	Rug – 4 Updated	Pitch improvements taken place and club house access improved. Recommended Revised Action: Replacement of the pitch perimeter fencing. Upgrade floodlighting to enable more flexible training opportunities.	Club to develop full plans and costs. Identify funding opportunities and submit bids. Engage in the wider Sandylands masterplan discussions. CDC to assign developer contributions where applicable in line with Local Plan policies	Skipton Rugby Club RFU CDC	Volunteer time RFU Officer time CDC Officer	Fencing Short High Priority Floodlighting Medium Medium Priority
The G.F. Gardener Trust Memorial Ground - Grassington	Rug – 6 New	Pitch drainage improvements. Any development of the pitch at Wharfedale should be linked into the wider consideration for multisport club in Grassington.	Engage in the discussions on the development of a multisport hub	Wharfedale Rugby Club RFU	Volunteer time RFU Officer time CDC Officer time YDNPA Officer time	Short High Priority

		Links to actions Foot- 17, 18		CDC - sports development support YDNPA – planning support		
Wharfedale School - Grassington	Rug – 7 Same as New	There is one pitch of poor quality which is used by the Grassington Sports Clubs to supplement other pitches. Pitch has very limited winter use due to drainage issues. Any development of the pitch at Wharfedale should be linked into the wider consideration for multisport club in Grassington. Links to actions Foot- 17, 18	Engage in the discussions on the development of a multisport hub. Actively be part of a detailed feasibility as outlined in Foot -17.	Wharfedale School CDC - sports development support YDNPA – planning support	Senior School Management time Communihire Ltd time	Short High Priority
Wharfedale Rugby Union Football Club	Rug- 8 New	The current pitches are in good condition and drainage works have been undertaken. The club accesses Wharfedale School see above as require additional pitches to cater for the number of teams although the school pitches are poor. Winter training is affected by the need to protect pitches and therefore needs to be additional good quality training pitches and/or artificial surface. Players travel to Keighley to access AGP in the winter. Changing accommodation does not meet the needs of the club. No facilities for female changing both for players and match officials.	Engage in the discussions on the development of a multisport hub. Actively be part of a detailed feasibility as outlined in Foot -17.	Wharfedale Rugby Club RFU CDC - sports development support YDNPA – planning support	Volunteer time RFU Officer time CDC Officer time YDNPA Officer time	Short High Priority

		Links to actions Foot- 17, 18				
All Clubs	Rug – 9 New	PPS 2016 identified the action to develop and fund an equipment bank for maintenance machinery and benefit from additional maintenance training. Not been achieved or progressed. Rugby Clubs should register with the RFU's Rugby Groundsmen Connected where they will be able to access information and advice. Register via groundsmenconnected@rfu.com .	Clubs to register with RFU	Rugby Union Clubs	Volunteer time	Short High Priority

Rugby League

- 6.32 As in 2016 there are no Rugby League Clubs or pitches in the district, this was confirmed through consultation with the Rugby Football League.

7. Hockey

Hockey

- 7.1 England Hockey have five ambitions; International Success, Increased Visibility, Growth in Participation, Develop Hockey Infrastructure, Be Proud and Respected Custodian of Hockey. These ambitions are driven by a series of objective, the key ones relating to grass roots club hockey being:

Our ambition is to double the number of hockey players from 140,000 to 280,000. To achieve this, we will:

- Support our clubs to grow participation year on year
- Encourage a wide participation base of hockey in schools

Our ambition is to ensure our infrastructure is fit for the purpose of driving our objectives. To achieve this we will:

- Introduce and develop a programme to empower a cohort of clubs to develop a model that could support a domestic product that provides frequent player contact, financial viability, and scalability
- Regularly review strategies for coaching, officials, and clubs to ensure they are fit for purpose
- Implement the facilities strategy to secure better long-term arrangements for clubs

Consultation

- 7.2 Consultation with England Hockey (EH) has indicated that Craven does not have any competitive hockey clubs playing within the district.. The district does, however, provide opportunities for recreational participation for hockey through Settle Hockey Club. No response was received from Settle Hockey Club. Skipton Women's Hockey Club play outside of the district and train and play at Ben Rhydding Sports Club, Ilkley no response was received via the consultation.

Supply

- 7.3 Giggleswick School has the only floodlit full size AGP suitable for hockey i.e. full sized sand dressed AGP. South Craven School have a floodlit AGP surface area which is suitable for junior training. The Giggleswick pitch is in good condition as it was resurfaced in 2016. Both pitches are accessible out of education hours for community use.

However, it is noted that the Giggleswick School pitch is available for community use 8.00am - 1.00pm on Saturdays with school fixtures taking place in the afternoons and Sundays 9.00am – 2.00pm, this contributes to competitive hockey being displaced to outside of the district.

Demand

- 7.4 Skipton Hockey Club Women's team play in the Moor and Dales Division 1. Settle Hockey Club is a recreational and social club. The TGR rates were considered but do not provide valid data due to the number of teams in the district.

Supply and Demand Balance

- 7.5 In 2016 there was a small positive balance of capacity at Giggleswick School for the sand based AGP even when considering its use by other sports during the community accessible times. Skipton Women's Hockey Club are training approximately 10 miles from Skipton which is nearer than travelling to Giggleswick which is approximately 16 miles.
- 7.6 In 2016 the Facilities Planning Model (FPM) for Craven suggested the population at that time created a demand for 0.3 pitches, given by 2032 the population is projected to reduce it suggests that should an FPM report be produced in 2021 this figure would reduce. The 2016 PPS considered the proposed 3G pitch development at Giggleswick School and that would result in displacing some users from the sand dressed pitch and there would be additional capacity for hockey. Although the 3G pitch development is no longer going to take place there is no significant demand for hockey and there continues to be capacity at the Giggleswick pitch. There is no additional evidence to support the further development of a full size AGP suitable for hockey.

Key Findings for Hockey

- 7.7 The information above illustrates that that there is no significant unmet demand for hockey and that there is sufficient supply of suitable AGP.

8. Key Findings Overall

8.1 Progress has been made on several actions identified in the 2016 PPS most significantly;

- The development of the Malsis School site which has enabled Sutton Junior Football Club to continue to grow and develop.
- Planning permission has been granted for the development of a multisport club house at Skipton Cricket in a partnership between the cricket club and Skipton Town Juniors.
- Settle Utd FC have equally secured planning permission for a new club house and changing facilities. The securing of funding to deliver the projects is a priority for these clubs.
- Embsay Junior FC are working with the landowner/developer and have submitted a planning application (2020/21348/FUL) to develop the playing pitches on land off Shires Lane Embsay, which will provide the club with a base.
- Floodlighting has been installed at South Craven School to increase the capacity for community access to the 3G AGP.
- Sutton in Craven Cricket Club have added a second square and have a new pavilion.
- Skipton CIC have secured a long term lease and been able to move the wicket and make improvements to the pitch.
- North Ribblesdale Rugby Club have undertaken a major project to improve the quality of the second pitch. The club have established a partnership with the Parish Council to maintain the playing fields at Harrison Road to accommodate growing junior rugby.
- In education settings NYCC have undertaken some improvements at the Sandylands pitches, although there are still quality issues with the pitches and Settle College have introduced a better off season pitch maintenance programme.
- The Burton in Lonsdale Parish Council have addressed drainage issues with further works planned and an improved maintenance programme, the pitch is now the regular home venue for a junior football team.
- There are number of football, cricket and rugby clubs and Parish Councils who have invested financially and in volunteer time to make improvements to the quality of the pitches and ancillary facilities. Feedback from clubs and Parish Councils indicates that there is a continued commitment towards enhancing the provision available.

- 8.2 There are several sports clubs based at the Sandylands location. There is mixed land ownership and several operators managing the different facilities and clubs. This adds a layer of complexity to the master planning approach identified in the 2016 PPS. Progress on improving provision across the Sandylands location has been made since 2016, including the points above which reference Skipton Cricket Club, Skipton CICC, Skipton Juniors FC and NYCC. Additionally, Skipton Rugby Club have re-laid a pitch and made improvements to the club house. The Sandylands Sports Complex resurfaced the 3G AGP which meets FIFA approved standards and have made improvements to the floodlighting. More recently, Craven District Council have facilitated the clubs and operators to work more closely together to look at commissioning a master planning exercise to identify areas for joint work, investment, and priorities in the future.
- 8.3 The LMS site within the Sandylands location has a strategic fit with the location. The pitch is used on occasions by Skipton Juniors FC during winter evenings and when the Sandylands NYCC pitches are not playable. There is the potential to enhance the provision to provide a pitch to fit with the development of the new club house and changing rooms identified above, with the pitch being used by Skipton Town Juniors and potentially Skipton Town should additional women's teams be developed. Development of the LMS pitch will be governed by the current owner and exploring the feasibility of investment and long term leases.
- 8.4 In the 2016 PPS Giggleswick School was planning to develop a rugby compliant AGP, this action has now been superseded with the school's proposal to develop the Lords Playing Field creating two high quality full size rugby grass pitches and significant improvements to the cricket outfield. The proposal includes the replacement of the existing changing facilities with a fit for purpose changing facility with social/community space. The pitches and facilities will be community accessible. It is anticipated that the school will submit a planning application before the end of 2021.
- 8.5 The projected population change and identified housing development through to 2032, identified in the Craven Local Plan, will not impact on the future demand for pitches and supports that supply is sufficient. The TGR rates overall indicate there will be little change in the number of teams by 2032. However, the impact on Covid 19 and post pandemic participation levels are yet to be experienced. The NGB for sport have strategic plans which focus on growing their sports and in particular women and girls' participation, the NGB's do not expect there to be a decrease in the demand for pitches.
- 8.6 There is no evidence to support that there is a surplus of pitches. Any building development proposal in the future which may come forward would need to be considered in line with the National Policy Planning Framework and within the adopted Craven Local Plan Policy INF3 and the YDNPA Local Plan, which clearly identifies that open space, sports and recreational buildings and land, including playing fields should not be built on unless strict criteria are met.
- 8.7 The key supply and demand balance for Football, Cricket, Rugby Union grass pitches are summarised as:

Table 33: Supply and Demand Summary

Football	<p>There is sufficient supply of pitches to meet current and future changes in demand for pitches. Therefore, pitches need to be protected and improved to ensure good quality provision.</p> <p>There are sites such as Hellifield and Bentham where there is currently no football team. The rural nature and locality of such sites means that they are important as a community recreational amenity space as well as a playing field and can be used for other activities and sports and not just football. The LMS site is underutilised but is an important within the overall Sandylands location.</p> <p>It is important to ensure that where the quality of pitches is good this is at least maintained and where required the quality of pitches improved and enhanced. There is no need to provide additional pitches beyond this development. The pitch development at Embsay was previously identified in the 2016 PPS and is still required and remains a valid recommended action</p>
Cricket	<p>The supply and demand results indicate that overall that there is sufficient capacity across the district of cricket pitches. Changing accommodation limits the growth of cricket through the ability to provide changing for both male and females at Upper Wharfedale, Settle and Ingleton Cricket Clubs. The development of the new build pavilion at Skipton Cricket Club will provide suitable changing for male and female players.</p> <p>Giggleswick Schools proposed pitch and changing room developments at the Lords Playing Field site will enhance the provision for both education and community use. A planning application has not been submitted to date, as part of any planning application securing a community use agreement would need be linked to the pitch and changing facility development to increase the supply of community secured pitches. The school pitches are used by Settle Cricket Club without which the club would struggle to accommodate all teams.</p> <p>Little progress has been made on a collaborative pitch maintenance programme for the district. The geography of the district to a certain extent makes this more restrictive. However, in locations such as Sandylands where there are several sports clubs this would be more realistic. Clubs can seek support through the ECB partnership with Grounds Management Association where resources are available which act as reference point for cricket club volunteers to find practical; guidance on maintaining and developing their ground.</p>
Rugby	<p>The supply and demand results indicate that overall that there is insufficient supply across the district of rugby pitches. Supply will increase with a community use agreement attached to the proposed two pitches at Giggleswick School and, provide additional capacity during community use times in the main for North Ribblesdale Rugby Club.</p>

	<p>Changing accommodation and toilet provision limits the growth of rugby and the ability to provide changing for both male and females at Wharfedale Rugby Club and North Ribblesdale Rugby Clubs. This presents challenges for ensuring good practice is met for safeguarding. Disability access is difficult.</p> <p>Further pitch and floodlighting improvements at Skipton Rugby Club would be of benefit. Replacement of the pitch perimeter fencing is a priority and in the future the stand will need works.</p> <p>In Wharfedale poor drainage and accessibility issues to the pitch adjacent to the rugby club limits the use of that pitch for weekend junior rugby. The rugby pitch at the Gardener Trust site is currently not used, although some distance from the main club there is the potential to bring the pitch back into use with pitch improvement work. Upper Wharfedale School current pitch quality impacts on its use and availability for club rugby both for education and community use.</p> <p>There is no World Rugby 22 compliant AGP pitch within the district. Teams travel outside of the district to Keighley to use a World Rugby 22 AGP for training, this pitch is more accessible to clubs in the south of the district. Potential AGP development needs to be considered in conjunction with findings from other sports within the PPS Refresh 2021</p>
--	---

- 8.8 Using the FA indicative supply and demand model as set out in the 2016 PPS it is estimated that one full size AGP can service 38 teams. On that basis and that we estimate there are 110 teams in Craven in 2021, there is a recommended need for 2.9 rounded up to 3 full size 3G pitches, to be used at peak times. An increase of 1 full size 3G AGP from the 2016 PPS.
- 8.9 Since 2016, the Ingleton 3G small sided 5 v 5 side pitch operated and owned by Ingleton Rural Community Association brings the number of 3G pitches to 2.25, a shortfall of 0.75 of the 2021 recommended need of 3 full size 3G AGP. The Ingleton 3G AGP provides access to a 3G AGP facility in the mid- north area of the district. The Football Foundation Local Football Facility Plan (LFFP) had recommended this pitch being upgraded to a 3G as a priority project, which has been achieved.
- 8.10 The mid/north area has an accessible small sided 3G AGP in Ingleton, a 5 a side sand based AGP in Burton in Lonsdale and a full sized sand dressed AGP at Giggleswick School.
- 8.11 The 2021 refresh concurs with the 2016 PPS that there remains a deficit in the central and northern areas of the district and as stated in the 2016 PPS any supply for any additional 3G AGP (small-sided or full size utilised by other sports i.e. Rugby) should be focussed in the central and northern parts of the district. Further confirmation on location is found in the LFFP 2018 which highlighted the rural nature of the district which has an impact on access and travel times to 3G pitches and with an uneven distribution of pitches to the south of the district and that small sided 3G pitches were needed in the central and northern parts of the district.

- 8.12 There is additional sand based AGPs in the district with a small sided pitches at Burton in Lonsdale and South Craven School. Giggleswick School has a full sized AGP with secured community access. In 2016 there was a small positive balance of capacity at Giggleswick School for the sand based AGP, which is the only full sized pitch suitable for hockey, even when considering its use by other sports during the community accessible times. There is no additional evidence in 2021 to support the development of a full size AGP suitable for hockey.
- 8.13 The PPS refresh includes the area of the district which lies within the YDNPA. The consultation work has identified that in the Grassington and Threshfield area;
- There are good quality pitches at Wharfedale Rugby and Upper Wharfedale Cricket Clubs but both clubs lack appropriately sized changing facilities and toilet provision to meet the needs of both male and female players and officials. This presents challenges for ensuring good practice is met for safeguarding. Disability access is difficult. Car Parking is a challenge for both clubs.
 - The rugby club has an apprenticeship programme which requires more suitable and dedicated space to support the educational elements. Catering facilities at the club are not fit for purpose to meet the current demand and therefore any increased future demand as rugby and potentially other sports grow.
 - The Grassington Football Club pitch has seen investment in drainage but continues to have problems during the winter. Having only one pitch which is used by both adult and junior teams has an impact on the ability to grow participation in football. Investment has been made in improving the changing facilities.
 - Upper Wharfedale School grass pitch is of poor quality and is unable to be used by the Grassington Football and Wharfedale Rugby Clubs to supplement their need, given the poor quality and the need to protect the use for school PE. Overall there is limited use of the pitch during the winter months.
 - The rugby pitch adjacent to the cricket pitch is used at the weekends, there are no floodlights and the pitch has poor drainage. The pitch is isolated from the main rugby club site; as the crowd is only a short distance from the rugby club but is not accessible as there is no crossing over the River Wharfe and is therefore around a 3 mile journey by road from the main club. All these factors contribute to the pitch being underutilised.
 - The lack of an AGP coupled with the grass pitch quality issues limits the growth in the local sports clubs and the ability of the education sector to offer a good quality PE experience. An AGP in Grassington/Threshfield would enable more participation in sport by more people. A suitable site which maximises access via car, cycling, walking and public transport and accessible for community sports club and educational use needs to be identified.
 - The Sport England Active Power Places database shows the nearest AGP are the 3G pitches in Skipton approximately 15 - 20 minutes (10 miles) journey time. The football teams make limited use of the pitches in Skipton due to affordability and

accessibility. There is a rugby compliant 3G pitch at Keighley which is a 40-45 minute journey time (20 miles) which the rugby club use on occasions the limiting factor being journey time and the sand based AGP at Giggleswick School which is not used by any the clubs as this is 45-50 minutes (18 miles) journey time. Given the rurality of the area and the road infrastructure accessibility to AGP is a key challenge.

- Wharfedale Rugby Club, Grassington Football Club and Upper Wharfedale Cricket Clubs and Upper Wharfedale School have recognised that to address their individual challenges that a collective and collaborative approach to enhancing provision in the area is the way forward.

- 8.14 Little progress has been made on a collaborative pitch maintenance programme for the district identified as an action in the 2016 PPS. The geography of the district to a certain extent makes this more restrictive. Since 2016 NGB's have developed different approaches to supporting clubs with pitch maintenance, signposting clubs to NGB resources is the favoured approach in 2021.

9. Recommendations

- 9.1 The emphasis should remain as in the 2016 PPS on improving quality rather than quantity of provision given there is sufficient provision for the current and future levels of football and cricket. There are proposed developments in hand which if successful will help address the deficiencies for rugby.
- 9.2 There is a shortage of one full size 3G pitches but it is recommended that consideration is given to AGP provision at Grassington/Threshfield in Wharfedale given the lack of proximity to existing provision and to offset and address some of the pitch quality issues for both community and education use.
- 9.3 The action plans above identified for each sport are the recommended way forward to enhance provision in the district. Planning gain may present opportunities to support the taking forward of the action plans.
- 9.4 The multisport approach at Sandylands and at Grassington/Threshfield in Wharfedale present significant opportunities to maximise the benefits of partnership and collaborative working by sports clubs, public sector, national governing bodies and funders.
- 9.5 The continued commitment by all PPS stakeholders to ensure that there is a network of high quality accessible facilities will contribute overall to healthier lifestyles across all age groups and enable greater opportunities for people to be physically active and participate in sport.

Recommended Planning Considerations

- 9.6 In previous years there has been planning applications for residential developments next to cricket grounds where there has been a risk of ball strike and this could constitute a nuisance under the Environmental Health legislation if there was damage or injury to people and property, and this could prejudice the use of the playing field. In cases where there are planning applications adjacent to a playing field that is at risk of ball strike, the applicant will be expected to undertake a ball strike risk assessment produced by a suitably qualified person and the applicant will be expected to provide and maintain any ball stop mitigation that is identified in the risk assessment.

“Disclaimer: If any playing field sites, sport facilities, and/or pitches are not contained within this Playing Pitch Strategy, this is due to an accidental omission, and does not in any way mean that they can be redeveloped. Planning applications to develop any omitted sites will still need to be considered against Paragraph 99 of the NPPF.”

1. INTRODUCTION AND SCOPE

INTRODUCTION

- 1.1 The rural district of Craven is located in the county of North Yorkshire and covers 370 square kilometres. The District is bordered by Lancashire to the west and south, and Bradford Metropolitan District to the southeast; to the north and east are Richmondshire District and Harrogate Borough, respectively. Areas to the north and east fall within the Yorkshire Dales National Park (YDNP) boundary. Although the total area of Craven is 1,1179 sq kilometres, 808 sq kilometres (68.5%) is in the YDNP, which has its own planning authority.
- 1.2 The four largest settlements include the market towns of Skipton which is designated as the principle settlement in the Regional Spatial Strategy, Benthams in the north sub area, Settle in the mid sub area and the villages of Glusburn/Cross Hills which serve the south. The population of Skipton is around 15,000, and that of Settle 3,000.
- 1.3 The population of the whole of Craven is 55,574 as at the ONS 2012 midyear estimates and is expected to grow to 58,000 by 2037. The population of the YDNP is 8,500, meaning the population for this Strategy (study area) is 47,074. The District is within the top ten most sparsely populated local authority areas in England. Given the rural nature of Craven many people need a car out of necessity to access services.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 1.1: Craven District, showing surrounding districts and the National Park

Version: April 2012

RATIONALE FOR DEVELOPING A SPORTS FACILITIES STRATEGY

- 1.4 Craven District Council (CDC) recognises that their 2007 sport and recreation strategic documents and 2004 built facility strategies are out of date and the evidence base that underpinned this work needs reviewing. Given the policy and financial changes of the last five years, including reductions in revenue budgets, there is a need to identify options for future provision which meet local need, but can be delivered more effectively and efficiently. This also provides a fresh opportunity to deploy national best practice to ensure the needs of a diverse resident population are suitably planned for, and addressed.
- 1.5 The Council has a statutory duty to meet the requirements of the National Planning Policy Framework. The NPPF para 73 states “*access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning Policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision are required.*”
- 1.6 The time is therefore opportune to develop a robust needs and evidence base for future provision of sports facilities in the District, supported by an audit and mapping of provision. This Sports Facility Strategy sits alongside the recently reviewed 2015 Playing Pitch Strategy. The two documents will ensure that the current and future demand for sport and recreation facilities are planned for holistically and that the needs of the population of Craven can be fully met. The two strategies provide clarity on how and where available investments should be targeted and how the Council and other partners can use their own resources and work with others to ensure that the right sports facilities (indoor and outdoor) are delivered in the right places, to deliver the right outcomes.
- 1.7 The aims of the Sports Facility Strategy are to:
- **Provide a viable and deliverable model of sports facility stock (type/mix) that meets existing and anticipated future demand**
 - **Provide a clear understanding of the overall surpluses and deficiencies across the District and any specific geographical and/or individual facility needs**
 - **Establish the principles to help inform where future resources should be focused and help inform the policy direction of the emerging LDP (Local Development Plan)**
 - **Produce a strategy which is compliant with Sport England guidance**
- 1.8 Craven District Council is in the process of producing a new Local Plan; in line with the National Planning Policy Framework (NPPF) the Council’s Local Plan will comprise:

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- **An analysis of the value of provision in terms of environment, economy, health, people and community**
- **A determination of appropriately locally-derived quantity, quality and accessibility standards in accordance with the guidance for new development and future populations.**
- **An identification of surpluses and deficiencies in the quality, quantity and accessibility of sport and open space facilities as well as an identification of the spatial distribution of unmet needs and a forecasting of future needs for the Council' settlement areas.**
- **A range of creative solutions which will meet identified deficits, including more effective recommendations for the setting of accessibility, quantitative and qualitative use of existing open space and recreational facilities**
- **An updating of the schedule of sports and recreation facilities (including site mapping and digitalisation)**
- **The production of site-specific action plans identifying individual improvements.**

BACKGROUND CONTEXT

STRATEGY SCOPE

1.9 The scope of the work included is summarised as:

- **Building on existing material to comprehensively audit all pre-defined sports facilities / facility networks across Craven District.**
- **Assess the impact of forecast population growth on the future planning for sports facility provision within Craven District.**
- **Assess the impact that sports facility provision in neighbouring Local Authorities has on future provision and planning for sports facility provision within Craven District.**
- **Assess the requirements to demonstrate the impact of investing in existing and new facility stock across Craven District in terms of economic, social and health outcomes.**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

1.10 The project scope includes the following type of facilities:

- **Swimming Pools – indoor and outdoor**
- **Sports Halls**
- **Fitness Facilities (gyms)**

1.11 The key sports covered by the facilities included within the scope include:

- | | |
|--|-------------------------------------|
| • Badminton | • Basketball |
| • Volleyball | • Indoor Netball |
| • Health and Fitness (Fitness Suites and dance studios) | • Swimming (all disciplines) |
| • Bowls | • Indoor Tennis |
| | • Table Tennis |

1.12 Whilst the main focus of this assessment and strategy is sports halls and swimming pools, other locally important sports facilities are referenced as appropriate.

1.13 Sports such as Gymnastics, Boxing and Martial Arts, whilst requiring specific high performance facilities, can also be delivered at introductory levels in multipurpose sports halls.

1.14 The Strategy assesses and identifies the provision of all strategic scale indoor recreation facilities i.e. 3 court sports halls, 20m pools or larger. The strategy focusses on key providers such as:

- **Local Authority**
- **Education (School and Further and Higher Education based)**
- **Voluntary and Private Sectors**

TERMS OF REFERENCE

1.15 The brief developed by Craven District Council identifies the key objectives of the strategy as:

- **To help deliver the public health agenda**
- **To underpin CDC's (Craven District Council) core strategic priorities**
- **To inform the investment strategy for Council initiatives/projects**
- **To inform Local Plan Policies and assessment of planning applications**
- **To inform potential developer contributions**
- **To help facilitate and promote community use of open spaces/sport facilities/playing pitches**
- **To inform sports development initiatives**
- **To evaluate trends in participation and needs of different users particularly in respect of social inclusion and DDA**
- **To understand cross boundary border issues and facility provision**
- **To inform efficient management and maintenance of facilities in response to pressures such as budgetary pressures**
- **To establish catchment areas for particular sports**
- **To protect and enhance facilities**
- **To provide evidence to secure internal and external funding**
- **To understand opportunities for dual use of facilities**

STRATEGY STRUCTURE

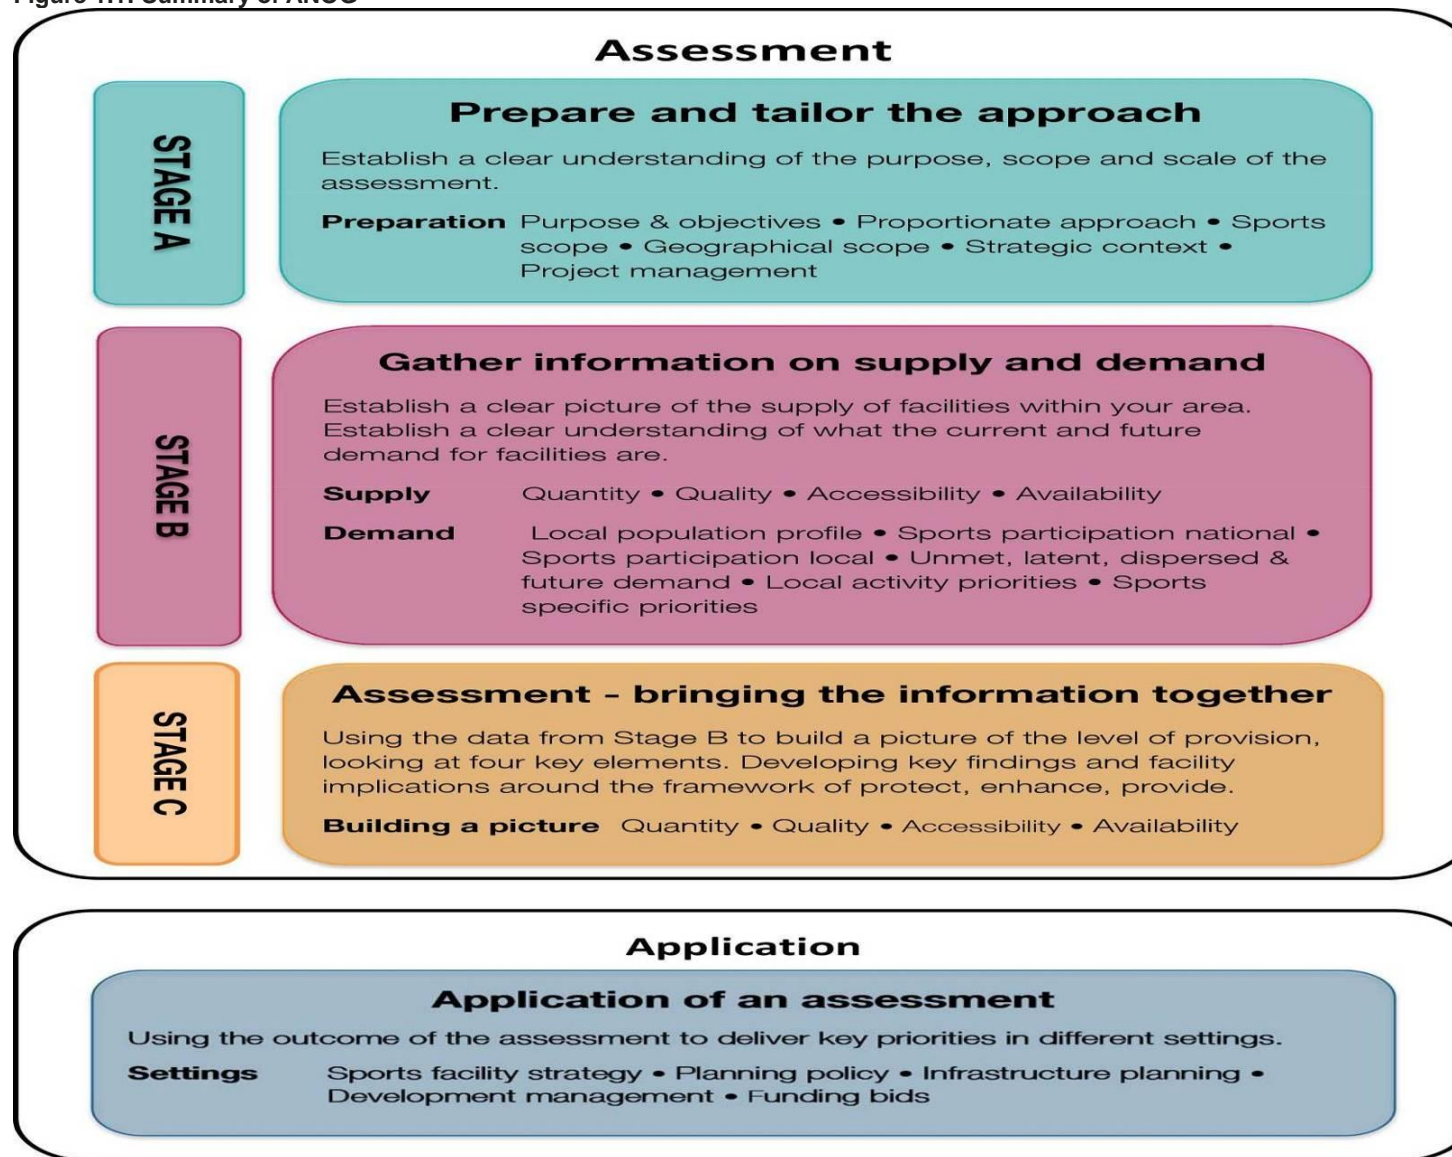

1.16 The Strategy has been developed using the Sport England Assessing Needs and Opportunities guidance (ANOG), published in 2014.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

1.17 The Strategy structure has been developed to reflect the ANOG Guidance. The structure is detailed in the Contents section, and reflects the following ANOG stages, as set out in Figure 1 below:

Figure 1.1: Summary of ANOG

2. STRATEGIC POLICY AND CONTEXT

INTRODUCTION

NATIONAL LEVEL

- 2.1 The National Planning Policy Framework (NPPF) sets out the requirement of local authorities to establish and provide adequate and proper leisure facilities to meet local needs. Paragraphs 73 and 74 outline the planning policies for the provision and protection of sport and recreation facilities.
- 2.2 “Access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision is required”.
- 2.3 ‘Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:
- **An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or**
 - **The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or**
 - **The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.”**
- 2.4 Sport England is a statutory consultee on all planning applications that affect sports pitches and it has a long established policy of playing pitch retention, even prior to the NPPF guidance. It looks to improve the quality, access and management of sports facilities as well as investing in new facilities to meet unsatisfied demand. Sport England requires local authorities to have an up-to date assessment of playing pitch needs and an associated strategy including a recommendation that the evidence base is reviewed every three years.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.5 The key drivers for the production of the strategy as advocated by Sport England are to protect, enhance and provide playing pitches, as follows:

- **Protect: To provide evidence to inform policy and specifically to support Site**
 - Allocations and Development Management Policies which will protect playing fields and their use by the community, irrespective of ownership
- **Enhance: To ensure that sports facilities are effectively managed and maintained and that best uses are made of existing resources - whether facilities, expertise and/or personnel to improve and enhance existing provision – particularly in the light of pressure on local authority budgets**
- **Provide: To provide evidence to help secure external funding for new facilities and enhancements through grant aid and also through CIL and Section 106 agreements Sport England and local authorities can then use the strategies developed and the guidance provided in making key planning decisions regarding sports pitches and facility developments in the area and to support or protect against planning applications brought forward by developers.**

A NEW STRATEGY FOR SPORT – DEPARTMENT FOR CULTURE, MEDIA AND SPORT (CONSULTATION DRAFT DECEMBER 2015)

2.6 The Department for Culture, Media and Sport issued a consultation paper in August 2015 for comment by October 2015. The development of the new strategy reflects a need to re-invigorate the nation's appetite for participation in sport following what appears to be a significant reduction in participation (most high profile being swimming), following the upsurge after the 2012 London Olympics.

2.7 The Consultation Paper has 10 themes, which explore the future role, remit and influence of sport in the UK into the future:

- **Theme One: Participation**
- **Theme Two: Physical Activity**
- **Theme Three: Children and Young People**
- **Theme Four: Financial Sustainability**
- **Theme Five: Coaching, Workforce and Good Governance**
- **Theme Six: Elite and Professional Sport**
- **Theme Seven: Infrastructure**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- **Theme Eight: Fairness and Equality**
- **Theme Nine: Safety and Wellbeing**
- **Theme Ten: International Influence and Major Sporting Events**

- 2.8 The key driver for the strategy is to increase participation in sport and physical activity and to make activity an integral part of everyday life in the UK, for everyone.
- 2.9 The Consultation paper examines the role of funding, partnerships and priorities for the future of sport and sports facilities. It is anticipated that the full Strategy will be published in 2016.
- 2.10 The remaining national policy context is summarised in Appendix 1, National Level.

LOCAL LEVEL

- 2.11 A number of current strategic policies, strategies and factors influence current and future supply and demand for sport and recreation facilities in Craven. These include:
- **North Yorkshire Community Plan 2014-2017**
 - **Craven District Council Plan 2015-2018**
 - **New Local Plan 2014 ongoing (Draft)**
 - **North Yorkshire Health and Well Being Strategy 2013 -2018**
 - **Joint Strategic Needs Assessment – Annual Update 2015**
 - **Young and Yorkshire – Children’s Plan 2014-17**
 - **Population Profiles and Projections**
 - **Participation Trends and Rates**

NORTH YORKSHIRE COMMUNITY PLAN 2014-2017

- 2.12 The North Yorkshire Community Plan sets out the key issues and actions that need to be tackled in partnership across North Yorkshire to help make sure that the county is well placed to respond to both challenges and opportunities.

‘Our vision is we want North Yorkshire to be a thriving county which adapts to a changing world and remains a special place for everyone to live, work and visit’

- 2.13 Three priorities for 2014-2017 are:

- **Facilitate the development of key housing and employment sites across North Yorkshire delivering necessary infrastructure investments through partnership.**
- **Supporting and enabling North Yorkshire communities to have a greater capacity to shape and deliver the services they need and to enhance their resilience in a changing world.**
- **Reduce Health inequalities across North Yorkshire**

- 2.14 The plan acknowledges the rapid changes in the public sector and the way in which services are delivered. It identifies that where a service is reduced, there is potential for impact on the delivery of another service by another partner; therefore collaborative working should look to minimise any impact.

- 2.15 The growing older population in North Yorkshire provides opportunities to promote community action and healthy aging, helping tackle issues such as dementia, loneliness and isolation.

- 2.16 North Yorkshire offers a good quality of life for many. However, there are significant differences in terms of health and well being for those in the more affluent communities compared to those who experience higher social and economic deprivation. The plan recognises that public sector budget cuts have already started to impact; in the longer term these will impact on the health and wellbeing of the population. It is therefore important to ensure that negative impacts are minimised.

CRAVEN DISTRICT COUNCIL PLAN 2015-2018

2.17 The Plan explains the Council's future priorities for improving the services offered to communities and residents.

'The Council's vision is for the Craven to be a prosperous place with strong, vibrant, and diverse communities'

2.18 The Council has four priorities:

- **Enterprising Craven**
- **Greener Craven**
- **Working with Communities**
- **Financial resilience**

2.19 The Sports Facility Strategy can contribute to a number of the actions identified under each priority; these include;

- **Enterprising Craven**
 - Improve the economic vitality of Cravens market towns and villages by implementing a range of initiatives to make them more attractive places to live, work, visit and do business.
- **Greener Craven**
 - Improve the quality of life and make Craven's public spaces cleaner, safer and greener
- **Working with Communities**
 - Provide support for community-based groups to undertake initiatives aimed at improving their local community.
 - Work with partners to deliver the Tour de France legacy
 - Improve the opportunities available to residents of Greatwood and Horse Close, South Skipton
 - Increase partner and community involvement in service delivery
- **Financial Resilience**
 - Ensure the Council remains financially sustainable and has robust arrangements in place for securing value for money.

CRAVEN LOCAL PLAN TO 2032

- 2.20 The information below has been referenced from the draft new Local Plan which went out to public consultation in September 2014, with feedback collated in February 2015. The feedback is being taken into account as further work on the plan and the development of the SPD's (Supplementary Planning Documents) is undertaken. The timescale for adoption of the plan is 2016/17.
- 2.21 The vision for Craven in 2032 is for a period of steady and sustainable growth and change. There will be;
- **Greater equality in communities in terms of housing choice**
 - **Better paid local job opportunities**
 - **More opportunities to pursue a healthy and active lifestyle**
 - **More access to services on which residents of all ages depend**
- 2.22 Craven will be an attractive place to live, work and visit, offering a full and vibrant community life.
- 2.23 A key issues in the District is projected population growth. The population grew by 3.3% from 2001 to 2011 to 55,409; further growth of 4.7% is projected from 2011 to 2032 to 58,000. The population of older people will continue to increase, placing great demands on health and social care. The population within younger age groups has fallen and will continue to do so.
- 2.24 Household sizes will fall, but the number of households will increase as a result of the population growth. In addition, there is likely to be an increase in people commuting into Craven from areas where housing is more affordable.
- 2.25 The Local Plan draws out the varied characteristics, functions and needs of the three Sub- Area. Each sub-area has different geographies, housing markets and travel to work patterns.

SPORT AND LEISURE FACILITIES STRATEGY
 CRAVEN DISTRICT COUNCIL

Table 2.1: Summary of Craven's Sub Areas

	NORTH SUB-AREA	MID SUB-AREA	SOUTH SUB-AREA
COMMUNITIES	Market Town - Bentham Villages - Ingleton, Clapham, Burton in Lonsdale	Market Town – Settle Villages – Rathmell, Giggleswick, Hellfield	Market Town – Skipton, largest in Craven 14,677 (32% of District) Cross Hills/Glusburn provide serves from South Craven Villages – Sutton in Craven, Gargrave
HOUSING & INCOME	Significant need for affordable housing Gross household income average for District £22K	Significant need for affordable housing Gross household income above average £24K	Significant need for affordable housing Gross household income average for District £22K
HEALTH	Bentham GP Surgery is part of NHS Cumbria CCG	Settle/Hellifield GP Practices part of Bradford Districts CCG	Skipton, Gargrave, Cross Hills GP Practices part of Bradford Districts CCG
EDUCATION-	Primary schools in Bentham. Ingleton, Clapham. No secondary Schools, links with Kirby Lonsdale, Cumbria	Primary schools in market town and villages. Secondary School in Settle in addition a private school in Giggleswick	Strong reputation of the schools attracts commuting and migration from areas outside Craven.
ACCESSIBILITY	10 miles from M6 Rail links from Bentham and Clapham to Skipton, Leeds, Lancaster Infrequent public transport	Rail connections from Settle to Carlisle. Connection between Giggleswick, Settle, Hellifield and Skipton through to Leeds.	Good Accessibility by road and rail to Leeds, Bradford and beyond to South Yorkshire. Rail links to Leeds, Bradford, Lancaster and Carlisle. Daily direct train to London
DEPRIVATION	Parts of Clapham and Ingleton disadvantaged in terms of access to services	Issues of access to services and lack of further education facilities.	Parts of south and west Skipton are the most deprived areas in the District. 2 LSOA are within top 20 % in England.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	NORTH SUB-AREA	MID SUB-AREA	SOUTH SUB-AREA
ECONOMY	High levels of self employment and micro businesses	Significant number of small businesses and self employed. Industrial Estate in Settle.	Diverse local economy with links to outside the District. Employment in financial services, manufacturing and health care.
TOURISM	Gateways to Forest of Bowland, YDNP	Gateway to YDNP Settle to Carlisle Railway	Skipton a visitor destination in its own right as well as gateways to YDNP.
LINKS WITH AREAS OUTSIDE CRAVEN	Net out commuting from this area for work and education in Lancaster and Cumbria	Compared with the other sub-areas links to outside Craven are less strong. The area is a greater distance from towns and cities outside of the District.	Strategic links exist with West Yorkshire cities of Leeds and Bradford and East Lancashire via the M56 corridor. Commuting to and from the south sub-area.

(Source Craven District Local Plan to 2032)

2.26 The plan has 9 objectives; most relevant to this strategy are:

- PO1:** Achieve patterns of development which make best use of available resources, nurture high quality environments and community life and promote health, well being and equality.
- PO5:** Enhance the vitality of market towns and larger village centres and improve the provision of local community services and facilities in smaller settlements.
- PO6:** Provide sufficient and suitable employment land to enable businesses to grow and enhance their productivity and identify locations for new and diversified employment related to a high quality local environment, the tourism economy and recreation opportunities.

2.27 The Spatial Strategy within the Local Plan uses the sub-area approach to identify the most appropriate locations and distribution for different types of development in Craven. Most forms of new development and growth are directed to the more sustainable locations with the primary area for growth area being the south sub-area. The north and mid sub areas are identified as secondary growth areas. The three market towns are identified as the primary focus for growth in each sub-area as Skipton, Settle and Bentham provide for their own local communities and act as service hubs for the wider and sparsely populated rural hinterlands. Secondary areas for growth in the sub-areas are identified key villages.

2.28 Although the Plan supports Neighbourhood Planning to date only three parish councils have come forward with ambitions to develop a Neighbourhood Plan.

2.29 The Local Plan promotes a policy of good design and highlights that:

‘Development should promote socialising, recreation, art, health and wellbeing, by maintaining and improving existing public spaces and creating new public spaces, such as parks, squares and other areas of public realm’.

2.30 It is important that any future planning conditions attached to new development of eg schools, community buildings requires community access too sports facilities; this needs to be on the basis of ‘proper’ pay and play access, not simply groups or sports clubs.

2.31 There is a requirement for at least 5,120 new homes over the next 15 years of the Plan period. This represents an average of 256 dwellings per annum (overall 5,120 new homes 2012-2032). The distribution of new housing allocations per annum is:

- **25 North sub area**
- **22 mid sub area**
- **113 South sub area**

2.32 The largest numbers of new homes will be in the market towns of Skipton, Settle and Benthams.

2.33 The main focus for development is in the south sub-area which includes 9.5 hectares for a strategic business zone in Skipton. The plan recognises the importance of the rural economy and acknowledges the potential sustainability benefits of people being able to live and work locally.

2.34 Tourism plays a substantial part in the economy of Craven and the District attracts visitors for a variety of reasons. Continued growth in tourism needs to be sustainable and the Plan states that the growth will be achieved in a number of ways including:

- **‘Enabling established tourism destinations to become even better through the development of new and improved facilities**
- **Acknowledging the range of sporting, recreational, cultural and leisurely activities that people wish to engage in as tourists’**

2.35 The Plan references the use of Section 106 agreements as part of the development process. The Council will also be considering the introduction of Community Infrastructure Levy (CIL) whilst being mindful that any planning obligations and CIL charges will perform separate functions and developers will be safeguarded from ‘double charging’

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.36 The importance of community buildings and social spaces is highlighted as it is difficult for some disadvantaged communities to access services. The Plan aims to promote the continuation and improvement of village services and facilities including sports facilities and community buildings.

NORTH YORKSHIRE HEALTH AND WELL - BEING STRATEGY 2013-2018

2.37 The Strategy is based on the JSNA (Joint Strategic Needs Assessment), which highlights the needs and health inequalities in North Yorkshire. Key challenges in the County are:

- **Rurality** – just seven towns in the County have populations over 15,000
- **An Ageing population** – predicted increase of over 65's from 125,000 to 160,000 by 2021
- **Deprivation** – pockets of deprivation including Skipton
- **'Killer' Disease** – CVD, stroke, cancer
- **Financial Pressures** – continued challenge to make financial efficiencies

2.38 The Health and Wellbeing Board encourage commissioners and providers to pursue an integrated approach to provide joined up solutions and reduce duplication of effort and investment. The board is expecting commissioners to increase their investment in community- based services.

2.39 Areas of particular focus for the Strategy include;

- **Social isolation and its impact on mental and wider aspects of people's health**
- **Encouraging positive lifestyle behaviour changes. Improving awareness around need to develop healthy lifestyles, in particular smoking reduction, obesity and alcohol consumption**
- **Opportunities should be sought to develop healthy lifestyles by supporting wide-ranging less obvious initiatives such as maximising the use of our local countryside and supporting local sports clubs**

2.40 In response to the challenges identified, the Strategy aims to achieve:

- **Improved access to leisure activities for people in rural areas**
- **A reduction in the number of socially isolated vulnerable people**
- **Improved knowledge and understanding of the assets available within local communities by health and social care agencies and the communities themselves**
- **More services being developed and provided in partnership**
- **Reduction in the instances of 'killer' diseases**
- **Improvements in life expectancy for people with chronic and long term conditions**
- **Increase in the number of people of all ages choosing to adopt a healthier lifestyle**
- **More people having better mental health**
- **People with mental health needs will have improved physical health**

JOINT STRATEGIC NEEDS ASSESSMENT (JSNA) ANNUAL UPDATE 2015

2.41 The North Yorkshire JSNA was originally produced in 2012; annual updates provide a snapshot of the current health and wellbeing indicators and how they have changed. A countywide annual update is produced with summary reports for each of the local Clinical Commissioning Groups (CCG) in the County. Key facts from the Craven 2015 update are;

- **2 Lower super Output Areas (LSOA) in Skipton are amongst the most deprived in England.**
- **Life expectancy is above the national average for both males and females.**
- **Alcohol is an area of concern although not significantly worse than the national average**
- **The level of overweight 10-11 year olds in Craven is 21%, well below the national average of 33%. In 2014 18.9% of adults were classed as obese, lower than the national average. However, excess weight levels for Adults in Craven are above the national average with 65.7% which is over 30,000 people.**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- **Smoking in Craven is 11.3% compared with national average of 19.5%**
- **Long term and chronic health conditions are high compared to the national average. Specifically asthma, Cardio-pulmonary disease, hypertension and stroke.**
- **Detection rates indicate that there are a large number of CVD related factors being undiagnosed. Only 40.8% of people invited for a health check in Craven 2013/14 made an appointment. The national average is 49%.**

YOUNG AND YORKSHIRE – NORTH YORKSHIRE CHILDREN & YOUNG PEOPLES PLAN 2014-2017

- 2.42 Development of the Plan included listening to children, young people and their families across the County. Clear themes and messages emerged which included concerns about rural isolation and hopes for more local amenities, health and other public services, and better transport links. There was a desire to be able to readily access organised sports and leisure facilities, and many young people expressed a desire to have more places to 'hang out' with their mates.
- 2.43 The Vision for the Plan is expressed through both the children's version;

'We want North Yorkshire to be a cool place with loads of great things to do'

- 2.44 And the professional's statement:

'We want North Yorkshire to be a special place where every childhood is wonderful and every young person thrives'

- 2.45 Three priorities have been identified

- **Ensuring that education is our greatest liberator**
- **Helping children enjoy a happy family life**
- **Ensuring a healthy start in life with more children and young people leading a healthy lifestyle.**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

2.46 Measures within the Plan include 63% of Key Stage 2 students participating in 5 hours or more of physical activity per week, and 50% at key stages 3/4. Targets for increasing the physical activity levels are Year 1 65% and 52% and by the end of the plan 66% and 53% respectively.

POPULATION PROFILES AND PROJECTIONS

2.47 Understanding the population and future growth projections are important in planning the future provision of sports facilities. The Local Plan, Spatial Strategy identifies the primary and secondary locations for development and growth. The population of the three market towns is:

- **Bentham 3,027, (north)**
- **Settle 2,564 (mid district)**
- **Skipton 14,623 (south)**
- **The other significant settlement is in the parish of Glusburn/Cross Hills, South Craven at 3,980**

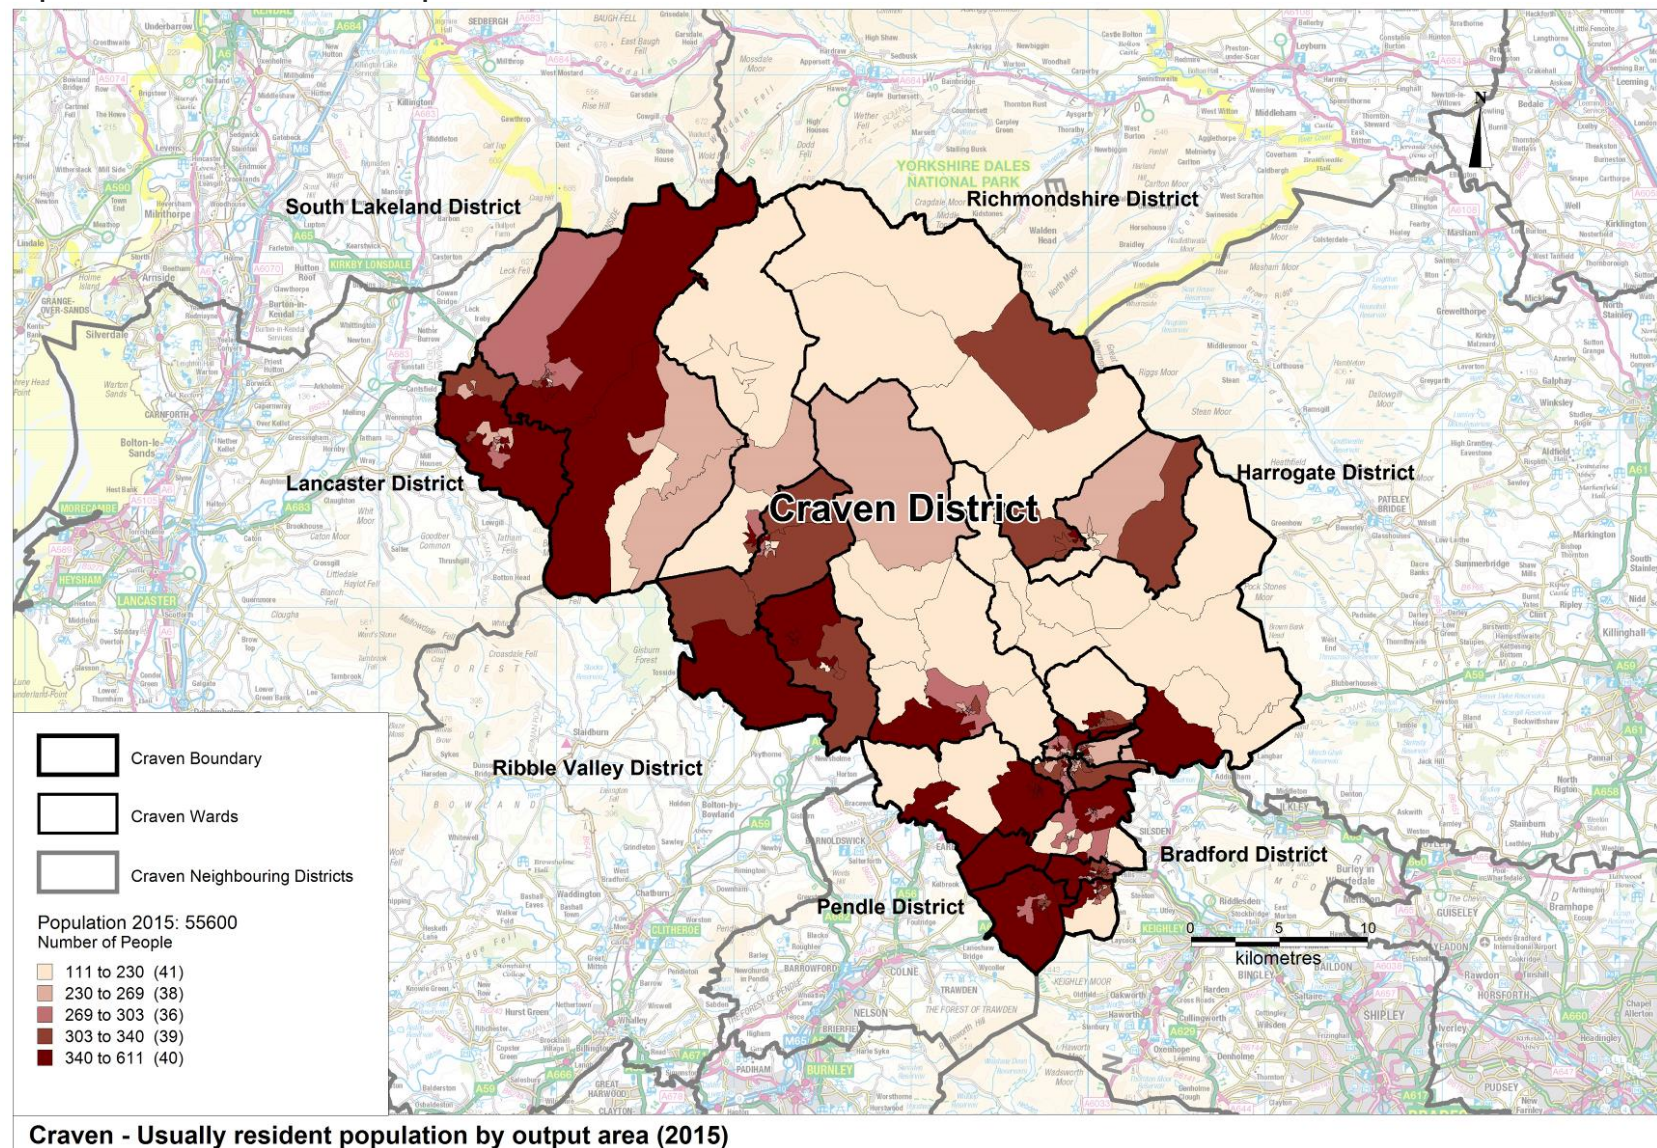

(Source: ONS Data 2011 Census)

2.48 31% of the district's population live in Skipton, which is the largest town in Craven. 69% of the population live in the other market towns and in the small villages and hamlets, which characterise the rest of the district.

2.49 Map 2.1 shows the current population distribution in the District. The darker the shade, the higher the population in that area. The large light area is the National Park.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

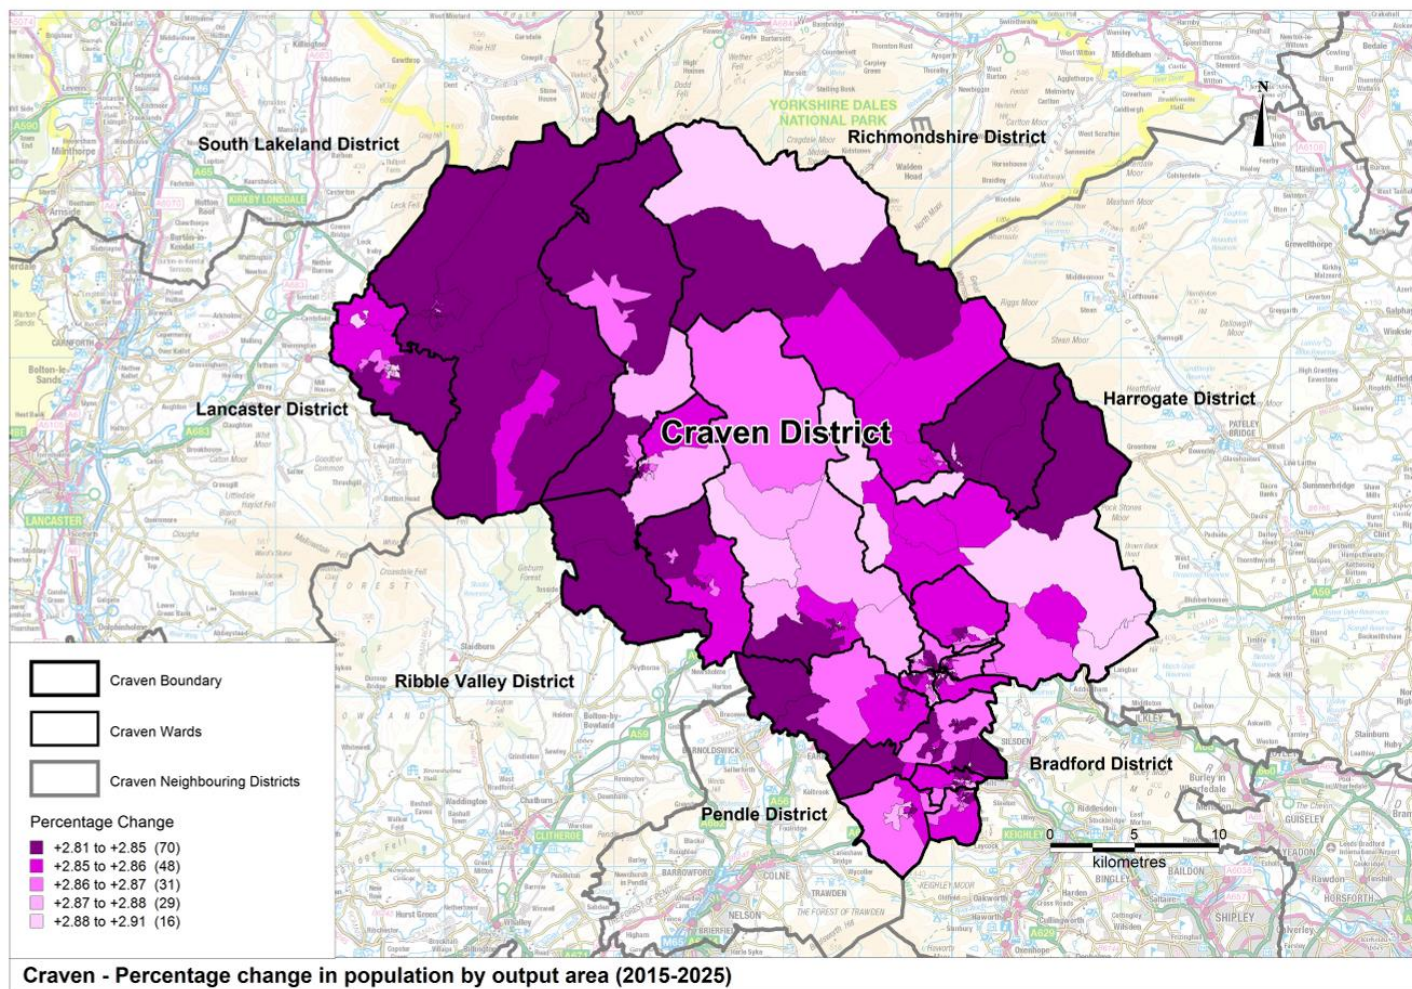

Map 2.1 Craven District – Current Population

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.50 Map 2.2 shows the future population distribution in the District, and how the population density will increase around the urban areas, and particularly in the north and west by 2037. The darker the colour shade, the higher the population growth in that specific area. The areas of densest population growth are in and around the three market towns, as detailed in Table 2.3, with the greatest level of growth around Bentham in the north and across to the east around Settle, and in the south east around Skipton.

Map 2.2 Craven District – Population Change

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

2.51 Over the period 1991 to 2011, the total population of Craven increased by 11%. Over this period, the proportion aged 0-15 increased by 4%, those aged 16-39 reduced by 16.7%, those aged 40-59 increased by 29.2% and those aged 60 and over has increased by 30%.

(source: Strategic Housing Market Assessment (SHMA) 2015).

2.52 Population estimates (Source: Census 2011 2012 midyear estimates) indicate an overall population growth of 0.7% from 2012-2018 from 55,500 to 56,000 (and further growth to 58,800 by 2037).

2.53 The population across Craven is expected to increase with the building of 256 new homes per annum to 2032 (including the National Park Area) (Source: Strategic Housing Market Assessment (SHMA) 2015). Excluding the 117 new homes per annum required in the National Park Area, this equates to 256 new homes per annum in the District, or a total of 5,120 new homes by 2032. Around 1,300 have been given permission to date (See Appendix 11). A growth of 5,120 new homes equates to an increased population of 6,243 (based on the study area population being 47,074 and increasing to 53,317 by 2032).

2.54 The majority of the new homes to be built in the District will be in and around Skipton, Bentham and Settle.

2.55 The largest growth in population will be in the 50-74 year old age band. A downward trend in population growth is projected for the 10-24 and 40-49 age bands. There will continue to be marginally more females than males in the District.

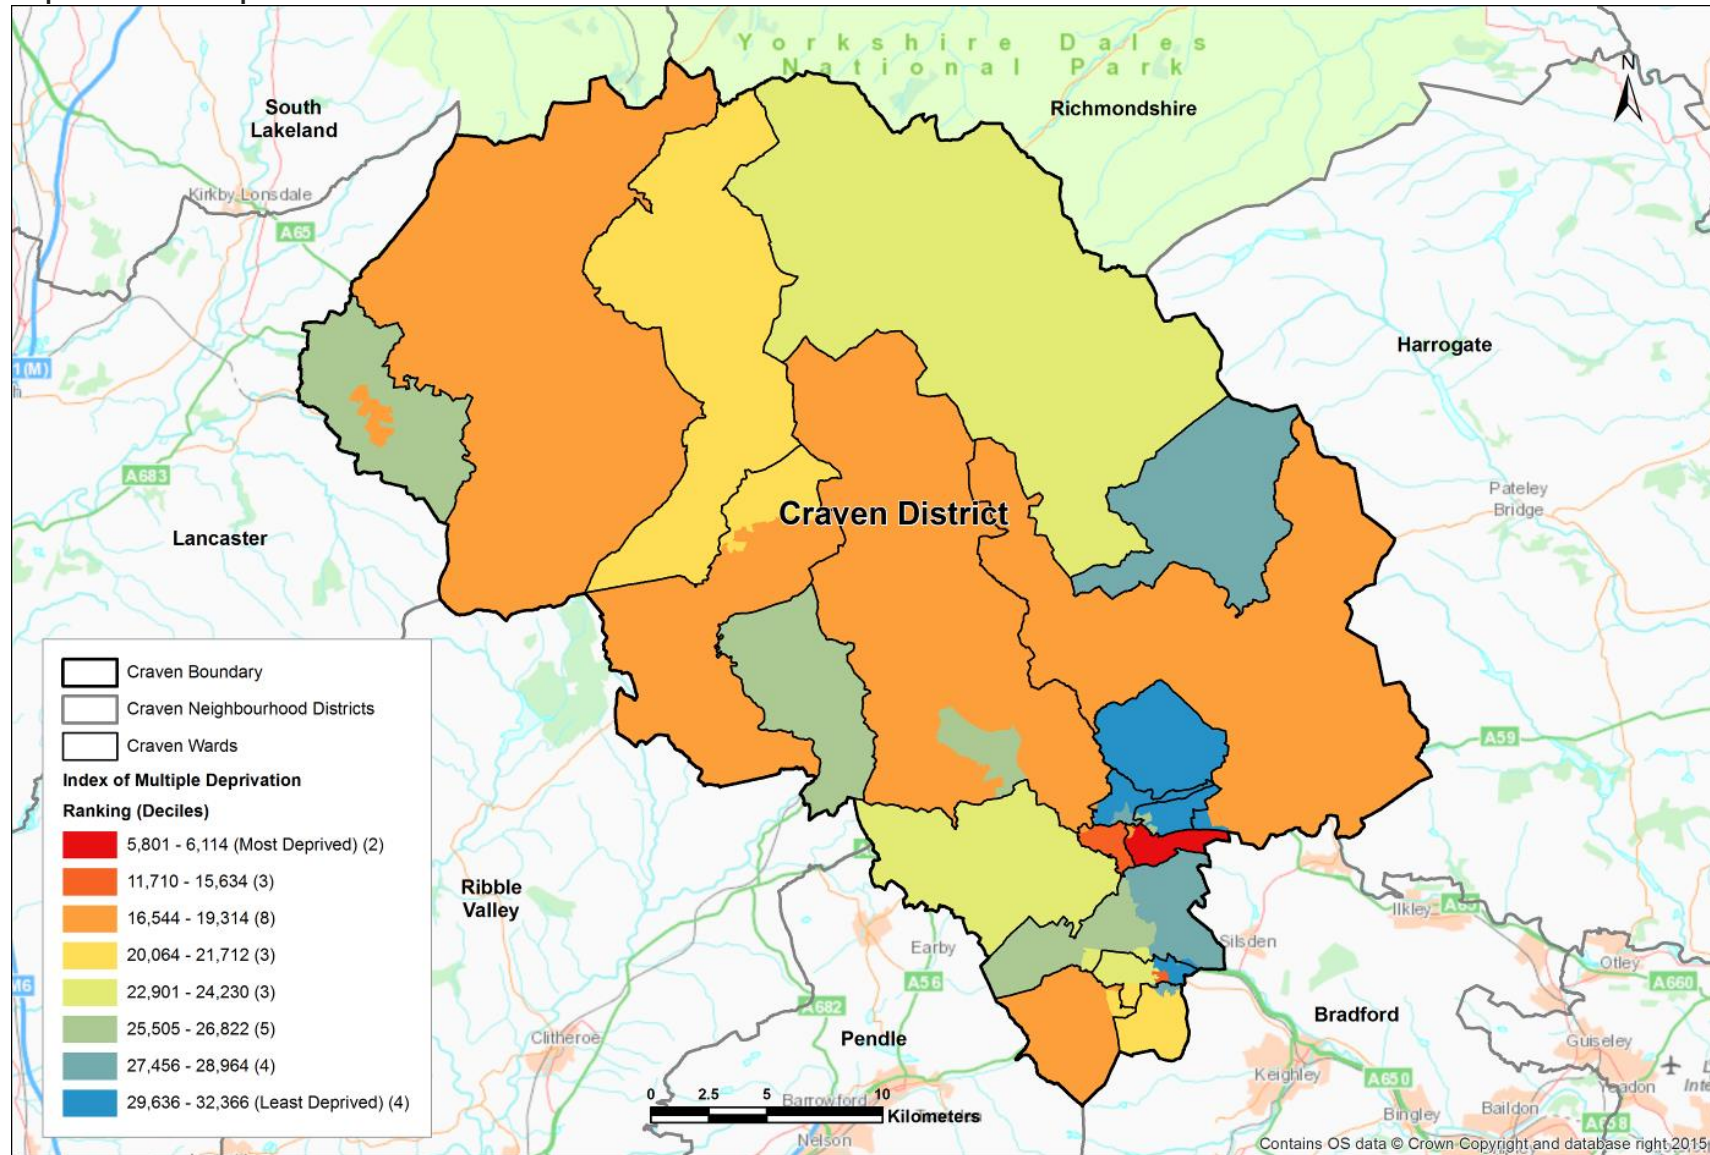

(Source: ONS 2012 based subnational population estimates)

DEPRIVATION

2.56 There is lower than average deprivation in Craven; the highest levels are concentrated in the south of the District, (shown in red). The orange area, which covers a significant amount of the District, also indicates areas of deprivation. 4.1% of the Craven population live in an area which is in the 20% most deprived areas in England.

SPORT AND LEISURE FACILITIES STRATEGY Craven District Council

Map 2.3 Areas of Deprivation in Craven District

Craven Index of Multiple Deprivation (2015)

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

2.57 Table 2.4 summarises the overall demographics of the Craven Planning Area (excluding the YDNP):

Table 2.4 Summary of Craven Planning Area Demographic Profile

KEY FACTORS	CRAVEN DISTRICT
POPULATION 2015 (ALL AGES) (Office for National Statistics mid year estimates 2013)	47,074 (Population 2012 45,620)
POPULATION 2037 (ALL AGES)	53,317
POPULATION INCREASES PLANNED	5,120 new homes 2015-2032; circa 6,243 additional residents 2015-2032 (based on 2012 population, 7,697 additional residents)
POPULATION CHARACTERISTICS	Predominantly white; the population is ageing – the largest growth in the population will be in the 50-74 age group.
RURAL AREAS	Craven is predominantly rural. 31% of the population live in Skipton, the largest town.
CAR OWNERSHIP	Although levels of car ownership are rising, 16% of the population does not own a car, a lower level than the regional and national averages (27% and 25% respectively) reflecting the rural nature of the local authority area with limited public transport available.
DEPRIVATION	Deprivation is lower than the England average, but where it does occur, it is significant. Life expectancy is 9.0 years lower for men and 5.2 years lower for women in the most deprived areas of Craven than in the least deprived areas. (Source: Craven Health Profile 2014)
OBESITY	18.9% i.e. less than a fifth of the adult population are categorised as obese, although 65.7% are classified as overweight (including those categorised as obese); 14.1% of children are obese. Both these levels, whilst of concern, are lower than the England average.
HEALTH COST OF INACTIVITY	£1,555,571 per 100,000 population
HEALTH ISSUES	The health of the Craven community is generally better than the England average. The main health problems are caused by obesity and smoking, cardio vascular diseases and diabetes.

(Sources: Craven Local Plan, Sport England Local Sports Profile 2015)

THE ECONOMIC VALUE OF SPORT

- 2.58 Sport has a valuable role to play in benefitting the health and social economy of the nation and at local level. It is estimated (**source: Sport England local profile 2015, and the Economic value of sport, 2013**) that sport makes an £11.3 billion contribution to the health economy of England. In 2010, sport contributed gross value-add of £20.3 billion to the economy in England. In Craven, 26,900 jobs are in sport or sport related sectors

PHYSICAL ACTIVITY AND PARTICIPATION

THE VALUE OF PARTICIPATION

- 2.59 The value of participation in sport and physical activity is significant, and its contribution to individual and community quality of life should not be under estimated. This is true for both younger and older people; participation in sport and physical activity delivers:
- **Opportunities for physical activity, and therefore more ‘active living’**
 - **Health benefits – cardio vascular, stronger bones, mobility**
 - **Health improvement**
 - **Mental health benefits**
 - **Social benefits – socialisation, communication, inter-action, regular contact, stimulation**
- 2.60 In addition, participation in sport and physical activity can facilitate the learning of new skills, development of individual and team ability / performance, and provide a ‘disciplined’ environment in which participants can ‘grow’ and develop.
- 2.61 The benefits of regular and active participation in sport and physical activity will be important to promote in relation to future sport, leisure and physical activity in Craven. There is an existing audience in the District, which already recognise the advantages of participation, and a latent community who are ready to take part. The sport, physical activity and leisure offer in the District can support the delivery of the desired outcomes across a number of District and County Strategic priorities and objectives.

CURRENT PARTICIPATION RATES

- 2.62 The Active People Survey (ASP) 9 (2014/15 Q2) shows that 32.4% of those aged 16+ years participate in sport at least once per week and 28.6% participate three or more times per week in sport and active recreation (NI8).
- 2.63 The Sport England (SE) Local Sports Profile for the District shows a trend over the last ten years of steady growth in once a week participation from 33.8% in 2005/06 peaking at 43.2% in 2011/12; this growth saw the District achieve participation rates above both regional and national figures. The last three years has seen a downward trend in participation to levels below the 2005/06 figures and the average regional (34.9%) and national rates (35.5%).
- 2.64 The number of those participating (NI8) shows a similar trend peaking at 32.3% in 2012/13 (APS7).
- 2.65 The number of people not participating in sport is 54.8% as at APS 9 (Q2), an increase from 52%, APS 8 2013/14.
- 2.66 Latent demand i.e. those who would like to do more sport, has risen from 39.9% APS 8 to 50% APS 9 (Q2). The number of those who are currently inactive but would like to do more sport has increased from 25.9% to 35.9%. Data for those who are currently active and would like to do more sport is unavailable.
- 2.67 The SE Small Area Estimates maps for the District indicate in geographic terms the areas where there is greatest participation. Once a week participation is greatest in the south and south east of the District where there is greater number of sports facilities and where middle super output areas border the neighbouring districts of Harrogate and Bradford.
- 2.68 The Small Areal Estimates map for 3 x 30 min per week shows a high level of participation across the east of the District, middle to high participation rates in the North West and low to middle rates in the central area.
- 2.69 Participation in organised sport such as club membership (APS 6-19.7%, APS 9- 23.6%) and participation in competitions (APS 6-14.4%, APS 9- 17.8%) has shown growth since 2011/12. Participation in coaching/tuition grew similarly, but has seen a downward trend from APS 8 21% to 16.1% APS 9 (Q2). Data for volunteering is unavailable.
- 2.70 Satisfaction with local sports provision indicates that 67.4% were very/fairly satisfied with local sports provision in 2014/15. Satisfaction levels have increased year on year since 2012/13.
- 2.71 The Craven 2014 Health Profile identifies that 60.3% of the population are physically active, but that 21.4% does not participate in physical activity.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

2.72 Given the demographics of the population, the issues highlighted in the Health and Well Being Strategy and the priorities of the Children and Young People's Plan the downward trends in participation are of real concern. However, the potential to address participation rates and their impact by addressing latent demand is a significant opportunity.

SPORT ENGLAND KEY PERFORMANCE INDICATORS

2.73 Sport England, the Governments agency for sport, measures 5 key areas in relation to sport activity. Tables 2.5 and 2.6 set out the performance of Craven, compared with the Yorkshire and Humber region and England.

Table 2.5: Participation Frequency in Physical Activity - Comparison with Sport England KPIs

	YEAR	CRAVEN			YORKSHIRE & HUMBER			ENGLAND

Source: Active People Survey, Year: 2011/12-2014/15, Measure: Key Performance Indicators 3, 4, 5, 6

* Data unavailable, question not asked or insufficient sample size

2.74 Craven is performing above the regional and national KPI averages (highest average KPIs shown in green in Tables 2.5 and 2.6, and lowest shown in red), despite the downward trend in participation levels. However, it is clear that regular participation opportunities continue to be provided.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

SPORTS ACTIVITY

- 2.75 Active People data is limited in terms of the being able to identify the top participation sports as a result of insufficient sample size. The data available for individual sports does show a drop in participation from APS 7 (7.68%) to APS 8 (5.83%) for swimming; the current APS 9 Q2 indicates an increase in participation to 8.71% for swimming.
- 2.76 Levels of participation in indoor sports are around 20-22% this is mirrored by sports hall and swimming pool usage figures. Participation in Keep fit and Gym activities is around 12.5%, and 13% for activities which take place in flexible locations eg running, cycling. Participation levels have remained stable in these activities APS7 – APS 9 Q2. Participation in individual sports shows a decline. Data for 1 vs1 and team sports is not available.

MARKET SEGMENTATION

- 2.77 Sport England's market segmentation model comprises of 19 'sporting' segments. It is designed to assist understanding of attitudes, motivations and perceived barriers to sports participation and to assist agencies involved in the delivery of sport and recreation to develop tailored interventions, communicate more effectively with the target market and to better understand participation in the context of life stages and cycles.
- 2.78 In Craven the dominant segments are Tim, Philip, Roger & Joy, Elaine and, Elsie and Arnold as summarised below;

Table 2.3: Summary of Market Segmentation for Craven

MARKET SEGMENT	KEY CHARACTERISTICS	% CRAVEN	ACTIVITIES / SPORTS THAT APPEAL TO SEGMENT
Tim, Settling Down Males	Tim is an active type that takes part in sport on a regular basis. He is aged 26-35, may be married or single, is career professional and may or may not have children. Tim participates in very active, technical sports, team sports, individual activities and is likely to have a gym membership	11.3%	Cycling, Keep fit/gym, swimming. Football, athletics or running, football
Philip, Comfortable Mid-Life Males	<p>Mid-life professional, sporty males with older children and more time to themselves.</p> <p>Philip's sporting activity levels are above the national average. The top sports that Philip participates in are cycling; 16% of this segment does this at least once a month, almost double the national average. Philip also enjoys keep fit/gym, swimming, football, golf and athletics (running). His participation in most of his top sports is above the national average, which is indicative of the priority he places on sport.</p>	10.9%	Cycling Keep fit/gym Swimming Football, Golf, Athletics or running

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

MARKET SEGMENT	KEY CHARACTERISTICS	% CRAVEN	ACTIVITIES / SPORTS THAT APPEAL TO SEGMENT
Roger & Joy, Early Retirement Couples	<p>Free-time couples nearing the end of their careers aged 56-65 years</p> <p>Roger & Joy are slightly less active than the average adult population. The top sports that Roger & Joy participate in are keep fit/gym and swimming are the most popular sports with 13% of the segment doing these, followed by cycling (8%), golf (6%) and angling (2%).</p> <p>Their participation levels are below average for all of these sports, with the exception of bowls, golf and angling</p>	9.4%	Swimming, Keep fit/gym Cycling, Golf, Angling
Elaine, Empty Nest Career Ladies	<p>Mid-life professionals, who have more time for themselves since their children left home, aged 46-55 years.</p> <p>Elaine's sporting activity levels are consistent with the national average, and slightly above average for some indicators. The top sports that Elaine participates in are Keep fit/gym and swimming are the most popular sports with around a fifth of the segment doing these, followed by cycling (7%), athletics or running (3%), tennis (2%), badminton (2%) and horse riding (2%). Her participation levels are above average for keep fit/gym and swimming</p>	8.4%	Keep fit/gym, Swimming, Cycling
Elsie & Arnold Retirement Home Singles	<p>Retired singles or widowers, predominantly female, living in sheltered accommodation. Aged 66+ years.</p> <p>Elsie & Arnold are much less active than the average adult population. They are likely to be doing less sport than 12 months ago, mainly due to health or injury. The top sports that Elsie & Arnold participate in are 10% of this group take part in 'keep fit/gym', 7% take part in swimming, and 3% in bowls</p>	8.2%	Keep fit/gym, Swimming, Bowls

Figure 2.1: Dominant Market Segments in Craven

Population of all segments within catchment area

Catchment area:
 Craven District

- Craven District
- North Yorkshire
- Yorkshire
- England

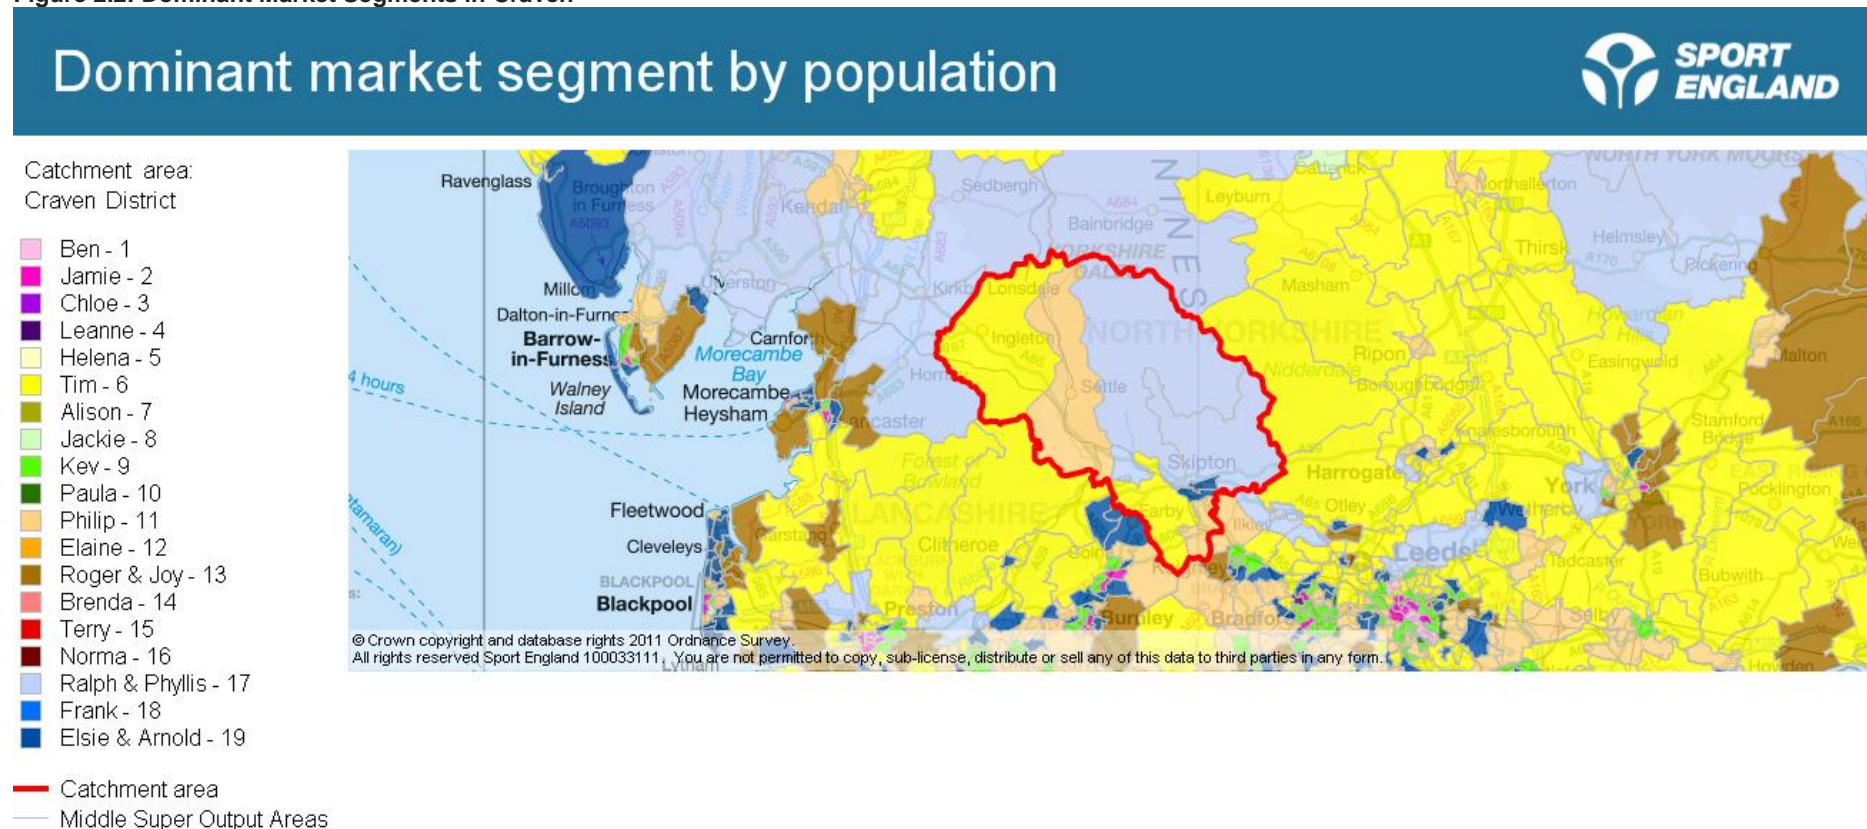

(Source: Sport England October 2015)

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

- 2.79 The implications of the above analysis are that there is need to ensure provision of quality facilities for cycling, keep fit/gym, swimming and football with opportunities to participate in bowls, golf and running.
- 2.80 The distribution of the dominant market segments are shown on the map below. Ralph and Phyllis dominate in the east of the District, Philip in the middle and Tim in the North and South of the District.

Figure 2.2: Dominant Market Segments in Craven

(Source: Sport England October 2015)

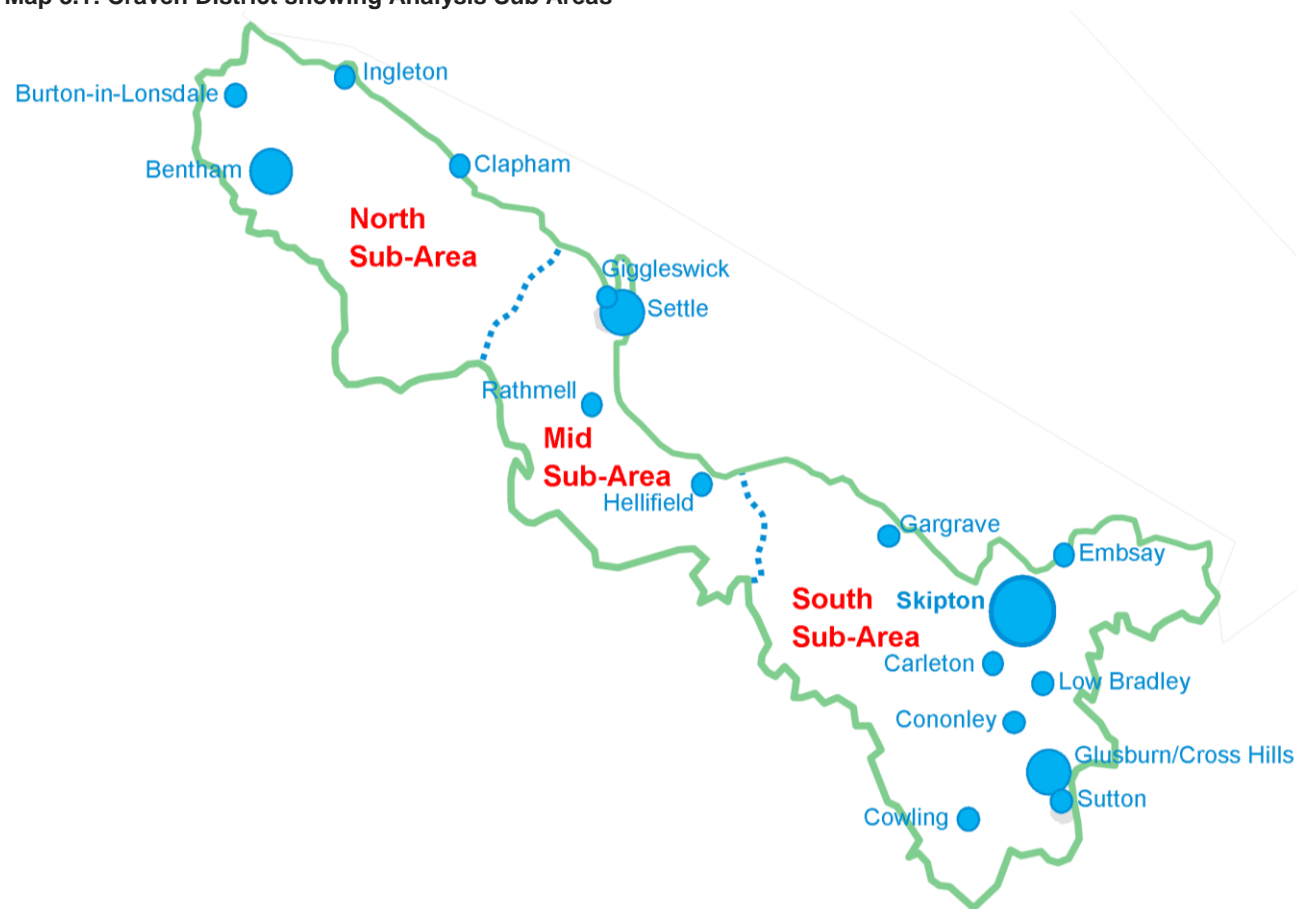

- 2.81 Further analysis of each of the dominant segments by population shows that Philips are evenly spread across the District, Elaine's live more on the eastern side, Roger and Joy to the west and north and Elsie and Arnold the north and south.
- 2.82 Accessible opportunities to participate in sport and physical activity are an important factor in planning for future provision.

3. EXISTING FACILITY PROVISION

INTRODUCTION

- 3.1. The current level and nature of facility provision in Craven, has been assessed overall on the basis of the three sub areas as shown on Map 3.1 below. Map 3.1 also illustrates the main towns and smaller settlements in these sub areas.

Map 3.1: Craven District showing Analysis Sub Areas

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3.2. There are three other main facilities in the District:

- **Sandylands Sports Centre – managed by Sandylands Community Trust**
- **Settle Swimming Pool – managed by Settle Community Trust**
- **Craven Swimming Pool and Fitness Centre - managed by Craven District Council**

SUPPLY OF SPORT AND RECREATIONAL FACILITIES IN CRAVEN

3.3. The following summarises the existing indoor sports facilities across Craven:

Table 3.2: Existing Indoor Sports Facilities – Craven

FACILITIES	CRAVEN
Health & Fitness Suite	17
Sports Hall	15
Squash Courts	8
Swimming Pool	5
TOTAL	45

N.B Outdoor facilities are covered in the 2015 Craven Playing Pitch Strategy

- 3.4. Based on the Active Places database, the Sport England Facility Planning Model (FPM), the local sports profile data (Sport England), and the audit undertaken to inform this Strategy, the maps used in the following facility assessments show the extent of existing sport and leisure built facility provision in Craven.
- 3.5. Active Places allows sports facilities in an area to be identified. Nationally, it contains information regarding 50,000 facilities, across eleven facility types.
- 3.6. Users of sport and recreation facilities do not recognise administrative boundaries and will use facilities that are convenient and/or provide a quality/value for money experience. Ownership and management are, in this context, a minor consideration for most users.
- 3.7. The availability of facilities in neighbouring areas can and does influence sports facility usage patterns; however, in Craven, usage patterns are more affected by accessibility, given the rurality of the area, levels of car ownership (72.5% of the population have access to private transport), and limited public transport.

CATCHMENT AREAS

- 3.8. Catchment areas for different types of provision provide a means of identifying areas currently not served by existing indoor sports facilities. It is however, recognised that catchment areas vary from person to person, day to day, hour to hour, and are also very different in rural and urban areas. This problem is overcome by accepting the concept of 'effective catchment', defined as the distance travelled by around 75-80% of users. The Maps in Section 3 demonstrate catchment areas for facility provision in Craven, based on this approach.

PUBLIC TRANSPORT

- 3.9. Car ownership in Craven is above the national average with 72.5% owning one car compared with nearly 44% in England, despite relatively low incomes. Villages in the district are dispersed, and public transport services inadequate in many locations, thus leading to people needing to travel. Relatively poor public transport (compared with more urban areas) and a limited walking and cycling infrastructure etc., makes the option of owning a private car more attractive.

(Source: Craven Local Plan 2015).

- 3.10. 27.5% of the Craven population do not have access to private transport (Source: Craven Local Plan 2015). It is not always easy (or indeed possible in some cases) to use public transport to get to and from some sport and recreation facilities.
- 3.11. In light of aspirations to reduce private car journeys, improved links with the public transport network could improve access to sport and recreation facilities. Establishing or improving links with existing or proposed public transport networks should therefore be a key consideration in development of new sports facilities in Craven. It is however recognised that in rural areas this can present more of a challenge than in more urban communities.
- 3.12. This approach is clearly supported in Local Plan policy, which positively supports the development of additional opportunities for walking and cycling (within existing communities and those that will be developed), both on an informal basis, for example, new routes connecting to existing networks, and as a means of accessing community facilities, and thereby reducing the number of car journeys and contributing to Craven's health and wellbeing agenda.

ASSESSMENT OF EXISTING SPORTS FACILITY PROVISION IN CRAVEN

- 3.13. Given the range of facilities in Craven, each type is summarised below and assessed separately, to provide a more detailed picture of the current supply and demand, and critically future need.
- 3.14. The facility types assessed are:

- **Sports Halls**
- **Health and Fitness Facilities**
- **Swimming Pools**
- **Squash Courts**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.15. The quality assessment of the CDC facility, managed by CDC is summarised in Table 3.3; this is also be referenced in subsequent sections as it clearly impacts on swimming pools, health and fitness facilities etc. A quality audit was also undertaken on the other two main sports facilities in the District. Site visits were also made to the key school sports facilities.
- 3.16. The quality audits comprise an independent visual assessment of the quality and condition of the facilities; results are recorded on the ANOG assessment sheet, developed by Sport England. Details of the audits undertaken are included in Appendix 8a-8c.
- 3.17. The audit scores are based on a numerical value, detailed on each assessment sheet, as follows:

Table 3.3: Audit Scoring System

KEY	RATING
>80%	Excellent
60% - 80%	Good
40% - 59%	Average
20%-39%	Poor
<20%	Very Poor

- 3.18. A facility scoring highly in terms of visual quality and condition is likely to require less investment than one which in a poorer visual condition. The combination of the scores results in the facility rating, and identification of investment need (significant, moderate etc).

Table 3.4: Summary of CDC Facility and other Main Facilities in Craven District – Quality Audits

FACILITY	QUANTITATIVE AUDIT SCORE	QUALITATIVE AUDIT SCORE	NEED FOR INVESTMENT
CRAVEN SWIMMING POOL AND FITNESS CENTRE	98%	Excellent	Minimal; opportunities exist for extension/expansion if required Need for investment in order to maintain the current high quality service
OTHER MAIN SPORTS FACILITIES			
SETTLE SWIMMING POOL	61%	Good	Moderate
SANDYLANDS SPORTS CENTRE	58%	Average	Significant

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

SPORTS HALLS

EXISTING PROVISION - SUPPLY

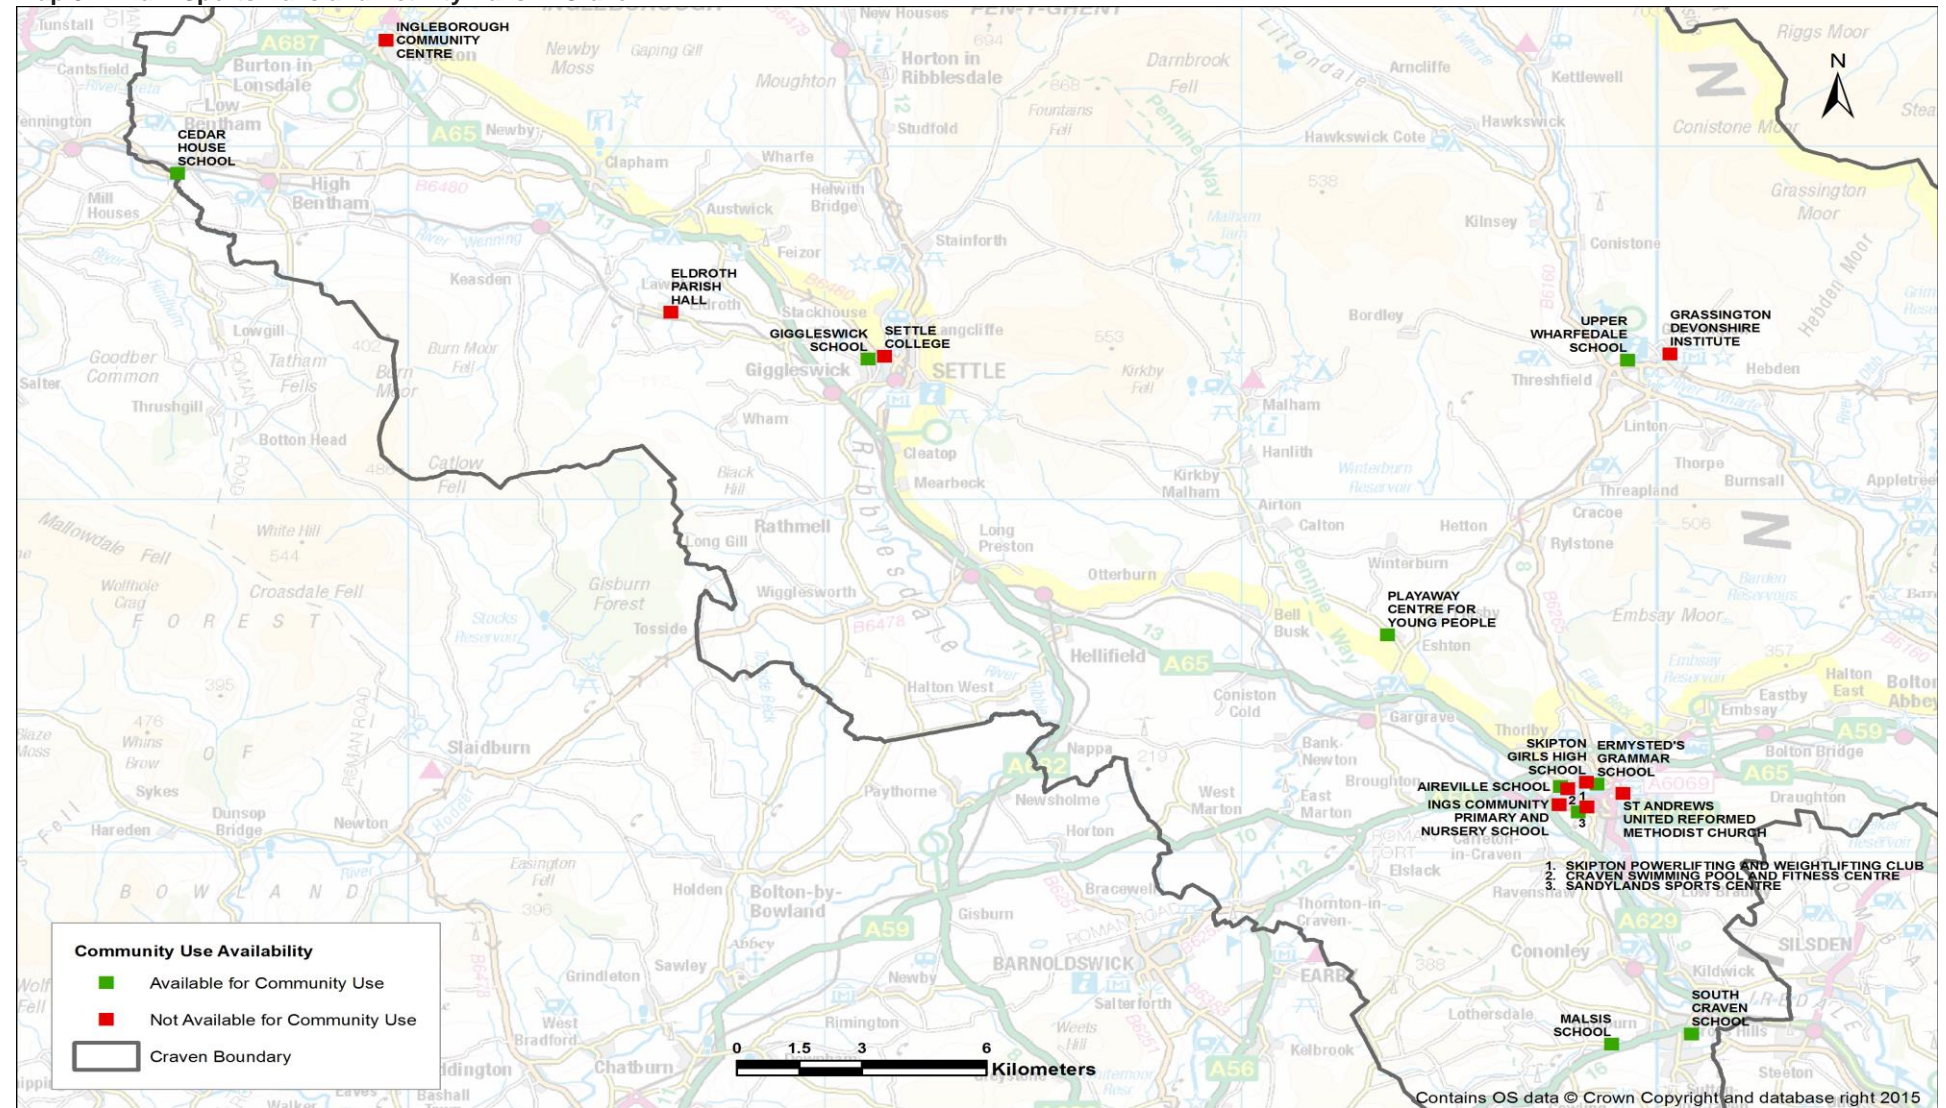

- 3.19. Indoor multi-sports halls are defined as areas where a range of sport and recreational activities are carried out. They are at least 10m x 18m (e.g., the size of one badminton court including surrounding safety area) and include specifically designed venues such as leisure centres and school sports halls. The definition also applies to halls where activities can take place, such as school assembly halls, community buildings and community centres (the main ones are included in the table below). Specialist centres, e.g. dance centres, are not included.

SPORTS HALL SUPPLY IN CRAVEN

- 3.20. The supply analysis identifies that Craven has a total of 15 halls (sports halls/activity halls) across 9 sites (Craven Facility Planning Model Report and Active Places, September 2015). However, as highlighted in Table 3.5, there are only 10 sports halls across 9 sites. All of these facilities are community accessible.
- 3.21. Map 3.2 shows all the sports halls and main activity halls in Craven and their location. Sports halls are primarily located on education sites and at Sandylands Sports Centre, Skipton.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.2: Main Sports Halls and Activity Halls in Craven

N.B The above shows facilities in the whole of Craven; the analysis takes into account that this Strategy only covers the facilities in the area outside the YDNP.

- 3.23. Given that the scope of this Strategy is the Craven district outside the YDNP, the actual number of badminton courts considered is 32 (Upper Wharfedale High School, (5 courts) is in the YDNP). This means the actual number of accessible badminton courts reduces to 25.9, and the number of community accessible sports halls to 9.
- 3.24. Table 3.5 highlights that there are no sports halls larger than 4 badminton court size in the District. All of the sports halls except two (Sandylands Sports Centre and Playaway Centre for Young People) are on education sites; all sports halls provide access for /community associations/sports club use.
- 3.25. There are only two sports halls in the District which are accessible for daytime use (Sandylands Sports Centre and Playaway Centre for Young People); this may result in accessibility challenges particularly for older people who are unable to get out in the evening, or whom are reliant on public transport. The sports halls with daytime access are in the south and middle of the District; there is no daytime access to sports halls in the north of Craven. CDC does not operate any sports halls in the District.
- 3.26. All school sports halls identified in Table 3.5 have community access. The issue is that only four of the seven schools are community schools; excluding Upper Wharfedale School because it is out of the assessment area, reduces this to three community schools:
- **Skipton Academy, Skipton**
 - **Ermysted's grammar School for Boys, Skipton**
 - **South Craven High School, Cross Hills**

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3.27. Three Independent Schools also provide sports halls available for community access:

- **Malsis School, Glusburn but school closed in 2014**
- **Giggleswick School, Settle**
- **Cedar House School, Bentham**

3.28. All schools in Craven were contacted as part of the development of this Strategy. The responses from those with sports facilities are particularly important for future provision.

3.29. Consultation with the schools identified the following information about their programmes and community access.

SCHOOL/COLLEGE CONTACT	WHAT SPORTS FACILITIES DO YOU HAVE ON YOUR SITE?	ARE YOUR SPORTS FACILITIES USED BY THE COMMUNITY OUTSIDE OF THE SCHOOL DAY AND TERM TIME?		DO YOU HAVE ANY PLANS TO DEVELOP NEW OR MAKE IMPROVEMENTS TO EXISTING SPORTS FACILITIES IN THE FUTURE?
				<p>(The Academy has 2 Sports halls = 7 badminton courts, plus 2 traditional school gyms). The Academy are therefore looking to go back with a revised scheme to the planners for floodlighting for the hard courts and existing 3G AGP. No matter the outcome the tennis and netball courts will be resurfaced and upgraded.</p> <p>Keen that if our work suggests otherwise when looking at the bigger picture for the District he is interested to know if the Academy can fit to support wider sports development in District. If our work equally would assist in supporting the Academy's revised plans for floodlighting. He is happy to show someone around the site if we think it would be of value.</p>

	<p>NO Cricket</p> <p>Hard courts marked with 2 tennis, 3 Netball</p> <p>School roll 300</p>	<p>Skipton tennis Centre booked courts in summer for coaching – trying to get a club set up</p> <p>School Holiday Club book facilities</p>		
ERMYSTEDS GRAMMAR BOYS SCHOOL	<p>Indoor Sport Hall</p> <p>Playing Field - size of one small cricket pitch</p> <p>External facility hire by School</p> <p>Book the facilities at Sandylands every week. The playing fields owned by NYCC three times a week, the 3G twice a week, the Squash and tennis courts ad hoc and the Changing facilities at Skipton Rugby Club for two terms.</p> <p>School roll in region of 700</p>	<p>Sports hall is let out in the evenings to local groups and to holiday clubs.</p> <p>Cricket clubs for cricket nets (Jan - April only)</p> <p>Cricket Academy (Oct - Mar)</p> <p>Football academy (all year round- term time)</p> <p>Badminton (all year round)</p> <p>Football Club juniors (Sept – Mar)</p> <p>No casual pay and pay as no staff to supervise</p>		<p>Increase the current lettings arrangements, especially those all year round.</p> <p>We will keep the existing facility updated but we are struggling to build new as we have run out of premises areas to build on.</p> <p>We would like to improve our very limited outdoor facilities but the funding requirements for it will be significant.</p>
GIGGLESWICK	<p>4 court sports hall</p> <p>2 small halls</p> <p>2 Squash courts</p> <p>3 1 Fives court</p>	<p>Yes; pay and play usage and let to clubs and groups</p>		<p>Potential for a new 3G pitch on playing field site.</p>

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

SCHOOL/COLLEGE CONTACT	WHAT SPORTS FACILITIES DO YOU HAVE ON YOUR SITE?	ARE YOUR SPORTS FACILITIES USED BY THE COMMUNITY OUTSIDE OF THE SCHOOL DAY AND TERM TIME?		DO YOU HAVE ANY PLANS TO DEVELOP NEW OR MAKE IMPROVEMENTS TO EXISTING SPORTS FACILITIES IN THE FUTURE?
	<p>Small pool – not available for community use</p> <p>Fitness Suite – approx. 17 stations</p> <p>All weather floodlit pitch</p> <p>Grass pitches – rugby and football</p> <p>9 tennis courts (3 hard and 6 grass)</p> <p>Mountain Bike Trail</p> <p>Also manage Settle Golf Course</p>			
<p>MALSIS SCHOOL INDEPENDENT SCHOOL</p> <p>SCHOOL PERMANENTLY CLOSED AS FROM DEC 2014</p>	<p>Small pool</p> <p>4 court sports hall</p> <p>2 cricket pitches with pavilions</p> <p>$\frac{3}{4}$ size sand dressed all weather pitch</p> <p>2 rugby pitches</p> <p>Sufficient land to provide more mini soccer pitches</p>	No the site is now closed to all public and community use		Various options under discussion.

3.30. Analysis of the above information highlights the following:

- **There is quite limited availability of the sports halls/gymnasiums during the week and weekends for community use.**
- **The use of these facilities is predominantly by block bookings, as opposed to pay and play usage; based on school feedback, only two facilities seem to offer 'true' pay and play access.**
- **Table 4.7 highlights the nature of the use of the existing school sports facilities, and that this comprises a wide range of sports. It also emphasises that the majority of usage at the school facilities is by clubs and organised groups, as opposed to pay and play.**
- **Whilst it appears that there may be some potential to increase hours of community access at the facilities on school sites, in reality this may not be possible, and would be the decision of the schools. Ermsysted's Grammar Boys' School is the only school to highlight that they would like to increase their operational hours.**
- **Some of the schools e.g. Giggleswick have formal community use agreements, as a result of either a negotiated arrangement, or as a result of a planning condition. The schools without formal community use agreements could decide to withdraw access to sports facilities at anytime, which has occurred in the recent past.**
- **It is clear that there is extensive usage of Sandylands Sports centre by Craven College (predominantly the all weather pitch), and also Skipton Girls' School.**

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

3.31. Detailed quality assessments have been undertaken on all CDC facilities. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4 above.

3.32. Two of the sports hall facilities in Craven have been refurbished within the last 11 years (South Craven School 2007, and Sandylands Sports Centre in 2009). However, given that the two facilities were built between fifty-six and forty four years ago (South Craven School 1960, Sandylands Sports Centre 1972), there is a need to plan for their replacement in the medium to long term. The buildings are ageing, and the quality of their environment is deteriorating. If these facilities were re-provided today, their design, layout, circulation space, and appearance would be very different; they would also have the added benefit of modern technology in terms of heating and light, which can significantly reduce utility costs.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

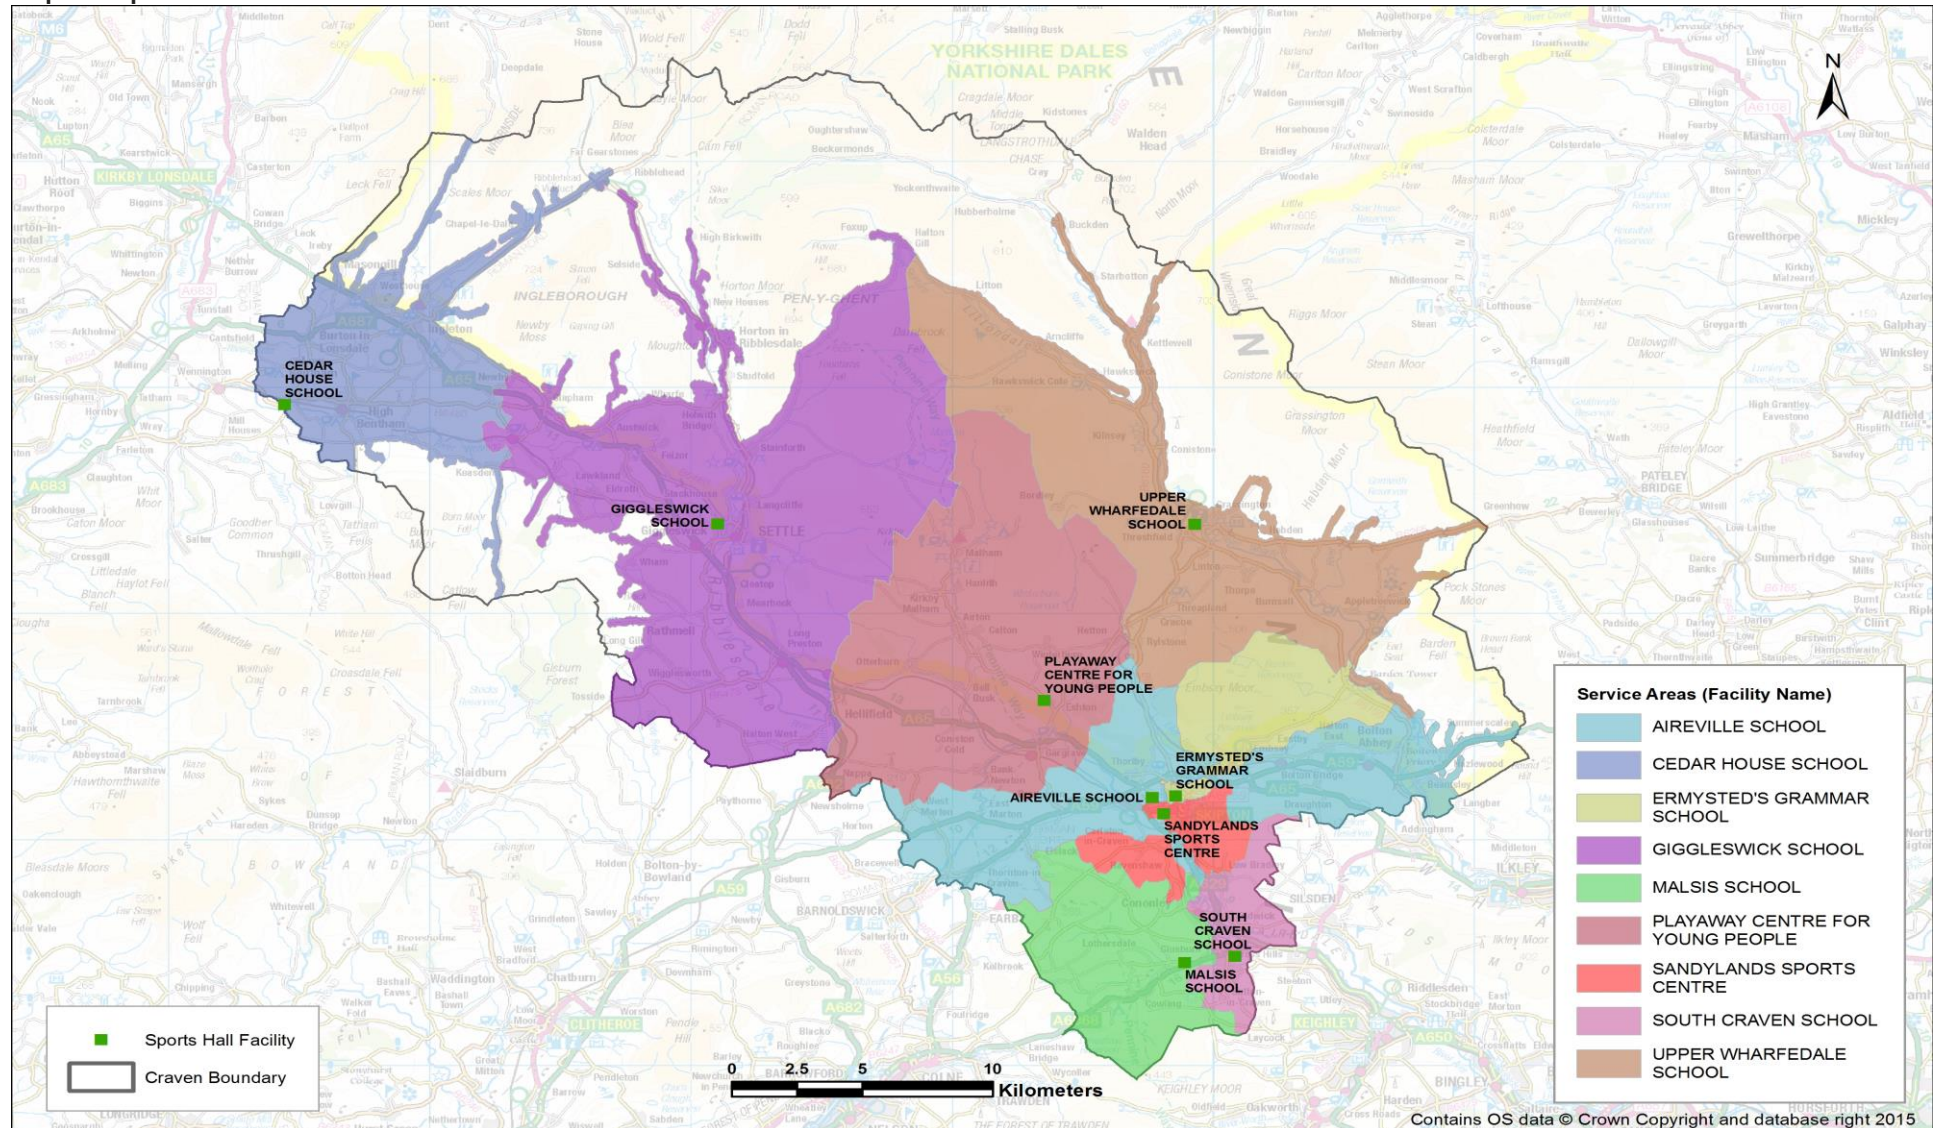

- 3.33. Of the other 9 community accessible sports halls (3 courts+), one was built 62 years ago (1954 Skipton Academy). Only 1 community accessible sports halls have been built in the last 10 years – Giggleswick 2007.
- 3.34. The quality of the existing facilities is therefore variable, despite refurbishments undertaken in the last 11 years. Whilst two of the pay and play facilities have been refurbished to modern standards, most of the community accessible facilities on education sites are older and have not been refurbished to date. Although the sports hall at Giggleswick is relatively new build, investment will be required to upgrade/refurbish other existing sports halls in the next few years, given their age, current condition and quality.

EXISTING SUPPLY - ACCESSIBILITY

- 3.35. Geographical distribution of sports hall provision is based around the more urban areas of Craven (See Map 3.3). All sub areas have access to an existing 4 badminton court sports hall.
- 3.36. Whilst the facilities in the urban areas are within walking distance of a large number of residents in those towns, walking catchment areas alone are not an appropriate means of determining accessibility for those in more rural areas. The rural roads are not particularly safe for either walking or cycling, so use of private transport tends to be the norm to access leisure facilities.
- 3.37. As illustrated in Map 3.3, the majority of Craven falls within the identified catchment areas for the existing community accessible sports hall facilities. The area outside the 20 minute catchment area is predominantly the YDNP. The YDNP area is served by Upper Wharfedale High School sports facilities.
- 3.38. The areas of Craven outside the identified catchment areas are to the west of the district, where access to facilities in Ribbles Valley and Lancaster is available, assuming residents have transport.
- 3.39. The main issue for accessibility of sports halls in Craven is the fact that 7 out of the 9 available sports halls (minimum 3 badminton court size) are on school sites. Even if the schools have formal community use arrangements in place, this does mean that there is only limited access available during the day; such as weekends only.
- 3.40. Sandylands Sports Centre has a four badminton court sports hall; this is an ageing facility, very heavily used during the day by Skipton Girls' School, and also Craven College, at other times it is very heavily used for football. This is not the case as it has always been heavily used by footy and this has not increased due to the 3G pitch carpet.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.3: Sports Halls in Craven – Service Areas

Sports Hall facilities service areas in Craven with community access (up to 20 minutes drive time)

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.41. The challenge in Craven is that whilst around 31% of the community live in the largest settlement of Skipton, which is where the majority of sports hall provision is located, 69% of the population live in other market towns and small settlements. This is where the provision of local and informal activity halls, or sports halls on education sites becomes even more important, as this type of facility increases the level of local provision available for local people. Given the planned population increases in and around the main market towns, it will be important to ensure there is adequate provision of, and access to, sports hall and other leisure facilities in the urban centres, as well as the rural areas.

3.42. A summary of the three sub areas and their existing sports hall provision is set out below:

- **South Sub Area - South Craven Academy, Cross Hills**, provides good range of indoor and outdoor facilities, and is planning to improve 3G and Facility at south of district close to Keighley in the neighbouring authority of Bradford.
- **Skipton** - 3 schools plus 1 college in the town, where there are suitable facilities all offering community use. All but one school books external facilities at Sandylands as they cannot cater for their curriculum needs on site. There appears to be a shortfall of indoor facilities and quality outdoor pitch space for education use during curriculum time which then impacts on the availability of facilities for daytime community access. Appears to be competition during curriculum time for space at Sandylands; the revenue provided by education daytime use also needs to be considered, as it is important for the operation of Sandylands Sports Centre.
- **Mid Sub Area - Settle** - lack of suitable facilities indoor and outdoor; access not always possible at Giggleswick School for other education use. Minimum of 30min travel time to other facilities at Skipton or Kirby Lonsdale in neighbouring authority
- **North Sub Area** – very limited provision ie Cedar House School
- **YDNP (out of study area)** Upper Wharfedale School - good facilities: sports hall, pool and pitches serving relatively small school and very rural area. Facilities have capacity for more community use. There has been investment in recent years.

3.43. **Village Halls/Community Halls** there are a number of rural villages with small halls; some already cater for short mat bowls, fitness classes, badminton, table tennis, martial arts or have the potential to do so. Such halls can be limited in what they are able to offer due to a lack of space.

3.44. All schools and colleges offer their sports hall facilities for community use although the nature, extent and practical arrangements surrounding this and 'usefulness' of said facility use varies considerably. This matters in terms of both future accessibility and participation. Those education facilities with a formal community use arrangement provide community access and use based on this formal agreement e.g. times and types of use; education facilities which are not subject to a formal community use arrangement may withdraw community access at any time.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.45. The newest and most recently refurbished sports halls have been developed on education sites as a result of investment in education provision; these sites tend to have at least a form of formal community usage agreed, even if it is use by community sports clubs and associations. However, schools with Academy status tend not to have formal community use arrangements, even if they allow their facilities to be used by the community.
- 3.46. Maintaining developing increased community access to education-based sports facilities is important to ensure locally available access and facilitating increased participation in sport and physical activity for health benefits.

SUPPLY AND DEMAND ANALYSIS

SPORT ENGLAND'S FACILITIES PLANNING MODEL

- 3.47. Strategic Leisure was provided with Sport England's Facilities Planning Model National Run (September 2015 report, based on January 2015 data) for sports hall provision in Craven.

CRAVEN

- 3.48. The report sets out an assessment of the current situation regarding sports hall supply, based on 2015 population (55,574). The key findings are summarised below. The full report can be accessed at Appendix 2.

SUPPLY

- 3.49. The Sport England Facilities Planning Model analysis for Craven identifies 15 sports halls (including 1 court activity halls on the same site as sports halls) across 9 sites in the District, with a total supply equivalent to 63.6 marked out courts. However, when the availability of sports hall space during the peak period is calculated, the number of courts actually available reduces significantly to 30.39 (This may not specifically relate to the number of courts available but reflects the space available in each hall and what this equates to in equivalent court space). This hall space provides a capacity for approximately 5,647 visits per week during the peak period (vpwpp).
- 3.50. The halls modelled are those identified as being accessible to the community on a club hire basis (see Table 3.5), and take into account court availability.
- 3.51. There are 10 community accessible sports halls in the District (7 halls have 4 badminton courts, and 3 have 3 badminton courts); this is higher than its neighbouring rural local authority areas such as Richmondshire (5 halls on 4 sites), South Lakeland (14 halls on 11 sites), Ribbles Valley (8 halls on 7 sites). Craven's stock of halls is lower than its neighbouring more urban local authority areas: Harrogate (18 halls on 13 sites), and Bradford (53 halls on 34 sites); while it has more than Lancaster, (13 halls on 9 sites) and Pendle (8 halls on 8 sites).

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.52. Craven's total supply of sports halls at peak periods equates to 11 courts per 10,000 population. This is a higher level of supply than both the regional and national averages (5 and 4 respectively), and is, on average, double the supply available in all comparator local authority areas, including Bradford and Harrogate (5 and 4 respectively).
- 3.53. Excluding the YDNP area, there are 9 sports halls in the District, with 25.39 courts available for community access. Excluding Upper Wharfedale School from the assessment reduces the overall capacity of the existing sports halls by approximately 1,202 vpwpp. The analysis excluding Upper Wharfedale School is shown in brackets (where it is possible to calculate).

CURRENT DEMAND

- 3.54. The Sport England Facilities Planning Model analysis identifies that the 2015 population (55,574) generates a demand for 16.06 courts and 3,507 (2305) visits per week during peak periods (this is based on a comfort factor of 80%: above 80% usage a sports hall is too full to be used). Clearly, with current community accessible provision at 30.39 (25) courts, and capacity for 8,298 vpwpp there is an over-supply of sports halls in the District of around 14.33 (9.33) courts. N.B This is calculated by taking the current supply of courts available for community use i.e. 30.39 (25.39) away from the actual number that are required i.e.16.06.
- 3.55. Currently, 92% of all demand for sports hall provision is met in the District; this is a higher figure than both the regional (91%) and England average (89.7%). 43.4% of all available capacity in the existing and available community accessible provision is used during peak periods, compared with the regional average of 69%, and the England average of 72%.
- 3.56. 88.6% (2,858 vpwpp) of all demand is retained in the District. It is likely that the figures are relatively high due to the rurality of the area, and the distances to other facilities outside the District.
- 3.57. Some use of Craven's existing sports halls is a result of people living outside the district using the facilities. This is called 'net import' and equates to 747 vpwpp (20.7% of used capacity).
- 3.58. The percentage of demand satisfied by car users (83.9%) is much higher than the national average (75.3%) and the Yorkshire average (73.2%), reflecting the rural nature of the district. 84% of all visits to sports halls in the District are made by car.
- 3.59. 16.4% of Craven residents do not have access to a car; this figure means that some residents may not be able to access this type of provision, either in the District, or in neighbouring authorities.
- 3.60. 8% of demand is unmet by the current provision of community accessible sports halls. This is a low figure, equating to 280 vpwpp, or 0.3 courts. Given the need to increase activity levels significantly in the District to address health inequalities, the availability of court capacity is a real opportunity.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.61. It is thought that this demand is unmet predominantly because people live outside the catchment area of an existing sports hall (8% (280 vpwpp)). Areas of unmet demand are mostly in the YDNP where there is only the one community accessible sports hall at Upper Wharefdale which has only capacity of 1,202 vpwpp.

3.62. Table 3.9 summarises the analysis described in paragraphs 3.54 – 3.62.

Table 3.9: Summary of 2015 Supply and Demand Analysis

2015 DEMAND FOR COURTS	2015 SUPPLY OF COURTS	SURPLUS (+)/ DEFICIENCY (-) OF COURTS	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) DEMANDED BY CURRENT POPULATION	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) SATISFIED	VISITS PER WEEK IN THE PEAK PERIOD (VPWPP) UNSATISFIED	DEMAND MET IN THE DISTRICT	DEMAND UNMET IN THE DISTRICT
16.06	30.39 (25.33)	+14.33 (9.33)	3,507	3,227	280	92%	8%

3.63. The existing sports hall stock is sufficient to meet current demand; however, given existing facilities are ageing, and over time quality will further deteriorate, there is potential to review the nature of district-wide sports hall provision in the future, and replace existing sports halls with newer stock.

3.64. The highest level of unmet demand for sports hall provision is in and around the YDNP.

3.65. Based on current demand, there is sufficient sports hall provision in the District. The increase in population (6,243) from 5,120 new homes by 2032 will increase demand for sports halls. Although there is currently capacity in most sports halls in the District, two are operating above the Sport England recommended comfort level; Sandylands Sports centre is operating at 80%, and Cedar House School at 73% (this facility has very limited opening hours for the community). South Craven School is operating at only 56% of capacity, which suggests there is opportunity to increase usage. Malsis School sports hall built in 1965 operated at only 20% of its available capacity when it was open.

FUTURE DEMAND

3.66. The Sport England FPM analysis undertaken does not identify future demand. The overall population of Craven will increase to 58,000; the population of the study area will increase from 47,074 to 53,317, an increase of 6,243 people).

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.67. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on this population increase.
- 3.68. Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. That needs to be informed by the nature and location of future housing development, local geography and accessibility, and critically the location of existing facilities.
- 3.69. This is because future demand may have the potential to be address through facility extension, or refurbishment, as well as new build.
- 3.70. Future demand will also need to reflect the current supply and demand analysis. Clearly if there is under-supply of a specific facility type now, the level of undersupply is going to increase by 2031, given population growth and increased levels of participation.
- 3.71. The SFC for Craven identifies the following future facility demand (Table 3.10), based on a population increase of 2,000 by 2032.

Table 3.10: Future Facility Demand (2032) – Craven

FACILITY TYPE	UNIT	FACILITY	ADDITIONAL VPWPP
SPORTS HALL	1.80 Badminton Courts	0.45 4 Badminton Court Sports Halls	994

- 3.72. Using the SFC, the future demand for sports halls and badminton courts generated by 2000 additional residents in the Districts is 0.45 sports halls, equivalent to 1.80 courts.
- 3.73. Taking the existing over supply of provision into account (+14.33/+9.33)), by 2032, if no other sports halls are built, nor additional hours are accessed in the existing provision, both current and future demand can be met by the existing stock of sports halls. The real issue is the quality of this provision, as the majority of existing facilities are ageing.

CONSULTATION

- 3.74. Consultation with relevant National Governing Bodies (NGBs), and local clubs, highlights local factors in relation to supply and demand for sports halls in the future.

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
		<p>Craven not a priority.</p> <p>Looking to develop and retain local authority parks facilities.</p> <p>Will support local clubs if they come forward with requests but would signpost them mainly through Yorkshire Sport CSP.</p>
<p>ENGLAND NETBALL</p>	<p>Within the last year netball has seen an increase in participation rates. There are now more than 150,000 netballers across the country who are playing the sport for at least half an hour every week.</p> <p>‘Back to Netball’ for women over 16 provides coached sessions.</p>	<p>Craven is not a priority area</p> <p>The workforce in North Yorkshire consists of the following posts:</p> <ul style="list-style-type: none"> • Netball Development Officer (14 hours per week) • Performance Pathway coach (1 per Sport England region) <p>National picture: Plans are in place to develop a National Facilities Strategy for netball during 2015.</p> <p>Facility Objectives and Outputs 13-17 (as set out in Your Game Your Way)</p> <p>Increase provision of, and access to, community level venues for netball through the development of partnerships with leisure trusts and NGB’s with an aligned ambition</p> <p>Development of a new network of caged netball arenas to support a new form of the game</p>

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
		<p>Increase the network of county and regional netball centres providing central venue 'Homes' for the sport</p> <p>Enhance provision at Intensive Netball Training Centres (INTC's) to ensure high quality netball environments for performance athletes</p>
TABLE TENNIS ENGLAND		<p>Currently no strategic facility plans for this area, but continue to support any clubs and leagues looking to develop multi table facilities.</p> <p>Not aware of any plans in the Craven area.</p>
VOLLEYBALL ENGLAND	<p>Go Spike – Adult participation programme (16+)</p> <p>Satellite Clubs – Children and young people (11-25)</p> <p>Further Education – Colleges and Sixth Forms (16-18)</p> <p>Club Development</p> <p>Sitting Volleyball – Disability offer (14+)</p> <p>Since 2013 nationally there has been lots of effort put in to develop new clubs.</p>	<p>No affiliated clubs, not a focus areas</p>

3.75. Consultation was undertaken at local level with local sports clubs, who were asked their views on the current facilities they use, whether they are likely to increase their membership in the future, and what the main issues are for them in terms of facilities in Craven.

3.76. A summary of feedback from sports clubs using sports hall facilities is set out below. Detailed feedback is included at Appendix 5..

SUMMARY OF SPORTS HALL SPORTS CLUB VIEWS'

3.77. A questionnaire was sent to identified indoor sports clubs in July 2015. There was an extremely poor response to this survey, therefore follow up telephone calls were made in September 2015. This also elicited a very poor response. All identified clubs were contacted again by email and telephone in October and November 2015.

Table 3.12: Summary of Sports Club Consultation – Sports Hall Sports

CLUB	FACILITY HIRED	RESPONSE
CRAVEN DRAGONS NETBALL CLUB	South Craven Academy 3.5 hours per week Sports hall Some use of outdoor courts in summer	Indoor sports hall facility rated as excellent. Changing rooms. Toilets etc. rated as basic but OK, club does not tend to use as it suits people to come and go in sports kit. Club membership in the region of 75 across juniors, cadets and seniors. Waiting list for cadets. Growth of club limited by capacity of 2 x volunteer coaches having time to deliver more sessions. If the bubble over the outdoor courts was to go ahead would provide 2 adjacent courts and therefore be able to have more attendees within same time period. General comment from coach – Insufficient opportunities to keep girls interested and taking part in sport in Craven. Support needs to be in the form of funding to help set things up, marketing and recruiting and training volunteers
SKIP TON BADMINTON CLUB CRAVEN BADMINTON CLUB	Sandylands Sports Centre Skipton Club – 2 hrs x 4 courts , Adults Craven – 6 hrs x 4, Adults, Juniors and Disability sessions	Skipton Bad Club approx 30 members Craven Bad Club Approx 25 juniors mid week, 15 juniors Sat am, 12 disability group, ?adults Cleaning – on occasions would be helpful to have remedial cleaning prior to use of courts for badminton. Changing rooms and toilets not used – club does not tend to use as it suits people to come and go in sports kit.
SETTLE BADMINTON CLUB	Giggleswick School 3 hrs per week	Club has in the region of 20-25 members. Mainly adults; had juniors a couple of years ago who are now adult club members.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

CLUB	FACILITY HIRED	RESPONSE
		<p>Quality of sports hall excellent as built in the last 5 years and the only 4 court hall in the Settle area.</p> <p>Play socially and in the Craven local badminton league.</p>
LOW BENTHAM BADMINTON CLUB RESPONDENT)	<p>Cedar House School (independent school) 4 hours</p>	<p>10 junior, 15 adult members.</p> <p>Sports hall quality rated as very good, cleaning/maintenance rated as fairly good.</p> <p>Concerned if school was to close, due to lack of alternative facility in the area. Have a view that when new school was built in Low Bentham by NYCC this should have included a community accessible sport shall.</p>
CRAVEN FENCING CLUB	<p>St Andrews Methodist Church Hall (Skipton)</p> <p>Sandylands and some village halls for private lessons</p> <p>5- 8 hours per week</p>	<p>30 under 18's , 10 adults</p> <p>Rate facilities as adequate to fairly good. Changing facilities was poor.</p> <p>Size of the hall too small at busy times. Club numbers have increased and in the longer term likely to need larger facility and would need support to help find a suitable venue.</p>
GRASSINGTON BADMINTON CLUB	<p>Upper Wharfedale School sports hall</p> <p>2 hours per week from Sept to May - Thurs nights</p>	<p>Overall good. Use up to 4 courts, and have access to toilets and changing facilities. The school cleaner and caretaker look after the hall. Take our own nets and shuttles. The sports hall has minor problems such as occasional leaks, and sometimes a slippery floor, or a bit of mud after junior football training but is generally good. Previously used the Town hall, which had a single court so good to have more space!</p> <p>Membership Approx. 12 adult players. Mainly age 50+. Stays about the same, new people join and then players are off with injuries etc. No youth members at present, we did have a 21 yr old for a couple of years but he has moved away.</p> <p>Next 3 years – Membership will stay about the same.</p>

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

CLUB	FACILITY HIRED	RESPONSE
		There was a junior club for a couple of years run by volunteers. It was for 12 - 16 yr old on a Friday night. This has now folded. Club members used to introduce their teenage children to the club but we are all too old to have teenagers now!

3.78. In summary, sports hall sports clubs based at Upper Wharfedale School sports facilities are happy with the facilities and you get a sense they are just grateful and appreciate having sports facilities in this part of the district (YDNP). It appears that the clubs are catering for older people in the main, and there probably needs be work to develop access and opportunities for young people.

3.79. South Craven Academy Sports facilities - the netball and badminton clubs highlight areas for improvement in the facility.

SUMMARY CONCLUSIONS – SPORTS HALLS

3.80. From the Sport England Facility Planning Model (FPM), which is only one element of the needs assessment, the simplistic analysis of supply versus demand in relation to sports halls within Craven has identified a current over supply of sports hall space within the local authority area (+14.33 (+9.33) courts), and future demand for an additional 1.80 courts. This assumes retention of all existing community accessible facilities.

3.81. On the basis of current and future demand to 2032, there is no need for additional badminton courts in the District, as future demand can be accommodated within the existing facility stock.

3.82. Current levels of satisfied demand are higher than national and regional levels at 92%, because there is available sports hall capacity to meet demand.

3.83. The largest sports halls are 4 court; there are no 6 or 8 court halls in the District; this means there is a lack of indoor competition venues for netball, basketball, and volleyball. However, given the rurality of the area, and the population scale, it is unlikely that a hall of this scale would be operationally viable (in the context of the current levels of use).

3.84. No Governing Bodies (NGBs) highlight the need, and demand, for additional indoor sports hall space in Craven. Clubs highlight qualitative issues with existing facilities, as opposed to a lack of provision. It is the education sector that identifies a lack of facilities, particularly in Skipton, because two education institutes have insufficient facilities to deliver their curriculums.

3.85. Given there are a significant number of sports halls on education sites, it may be possible to achieve some increased capacity within the existing sports hall stock, by negotiating improved and extended access to existing facilities on educational sites through formal community use agreements, and opening existing community facilities for longer.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.86. Schools play a key role in providing facilities for community access; it is key that all new sports halls on school sites provide secured community access to a minimum 4 court sports hall, through a formal agreement, which prioritises pay and play access, not simply sports clubs and groups.
- 3.87. The condition and quality of these facilities, despite various refurbishments, will need to be carefully monitored, to ensure that facility quality does not deteriorate. Despite the fact that there is an over supply of sports halls (badminton courts) in the District, planning should be undertaken for replacement facilities in the medium term (3-5 years), to ensure quality of provision does not deteriorate further.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

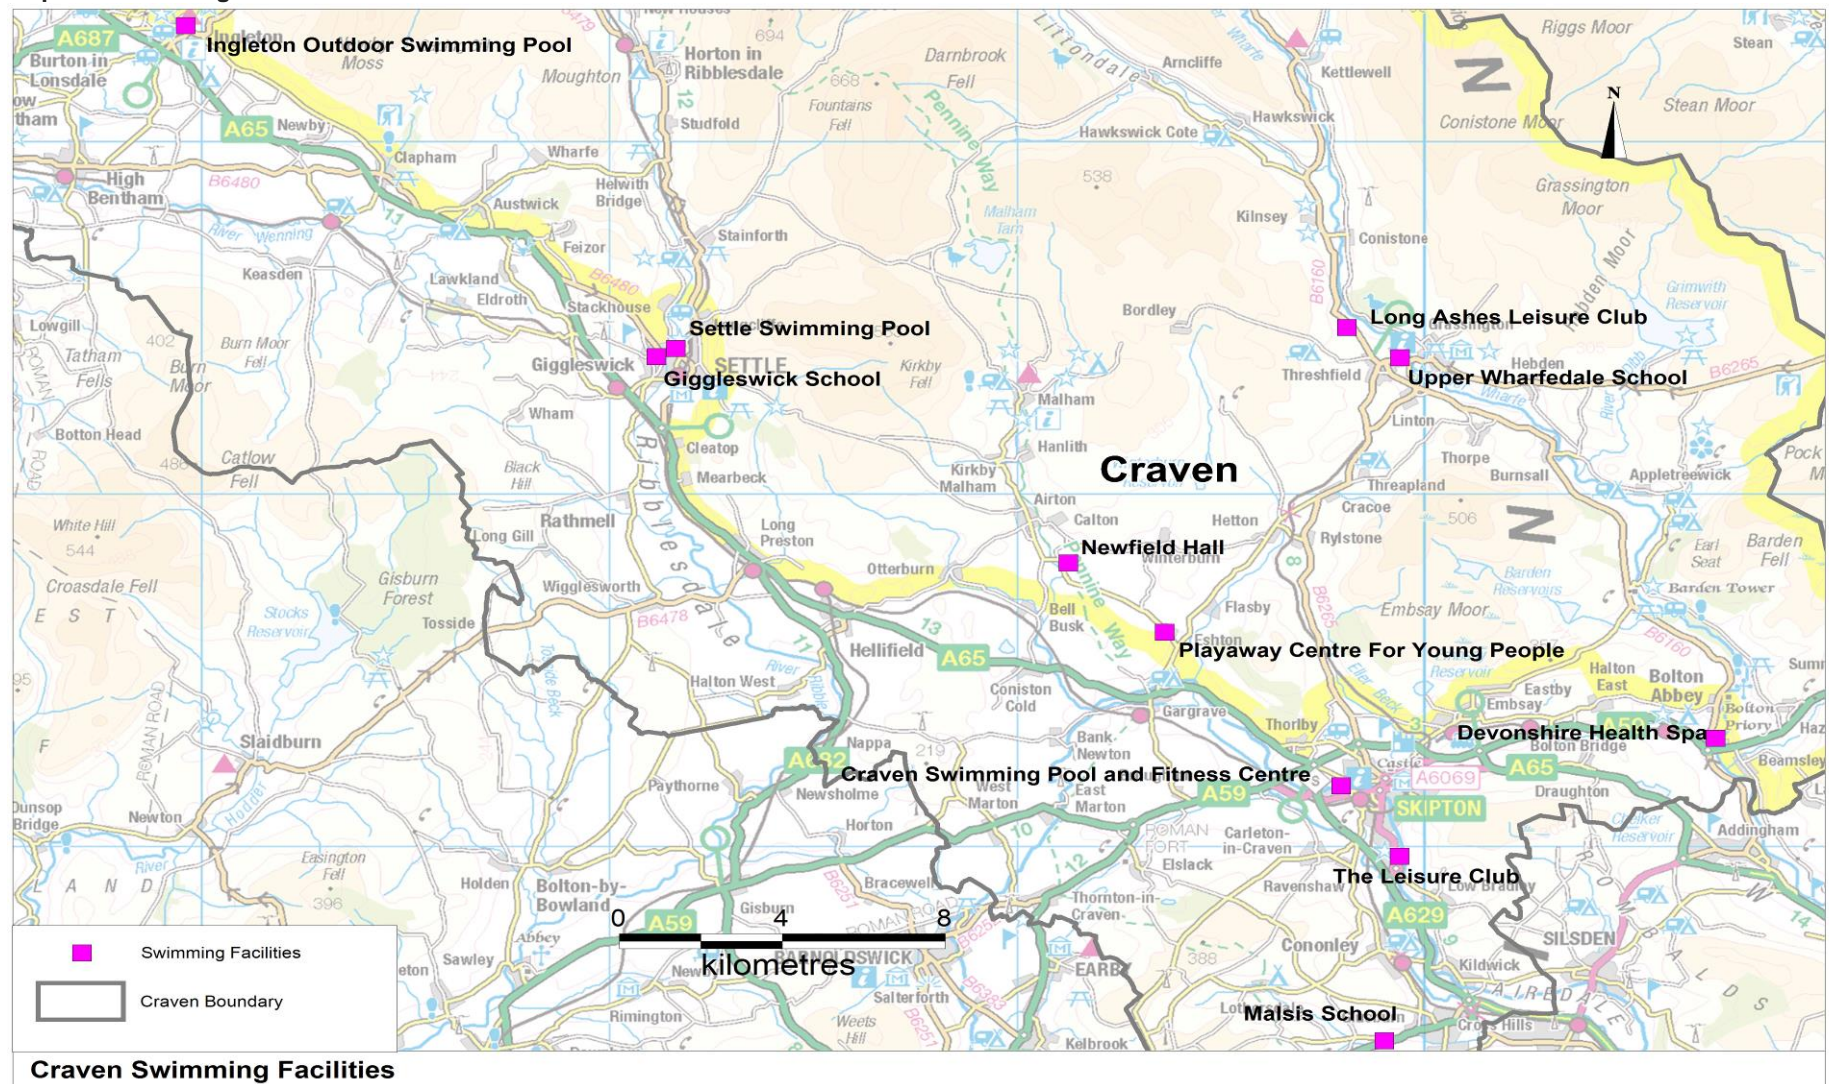

SWIMMING POOLS

SWIMMING POOL SUPPLY IN CRAVEN

- 3.88. Overall there are 7 main pools, 1 learner pool and 4 lidos in Craven; these are shown on Map 3.4.
- 3.89. The supply analysis identifies that Craven has a total of 5 community accessible swimming pools, across 4 sites (FPM September 2015 (Data January 2015), Active Places August 2015). Of these 5 pools, 4 are main pools, and 1 is a learner/teaching/training pool.
- 3.90. 3 sites, offer pay and play community access; Craven Swimming Pool and Fitness Centre managed by CDC has a 6 lane x 25m pool and a small learner pool. Settle Swimming Pool is 20m x 3 lanes and is managed by the Settle Community Trust. Upper Wharfedale School also has a 20m x 3 lane pool, which is managed by the school.
- 3.91. Giggleswick School also has a small pool 18m x 4 lane, but this is not available for community access, except on very rare occasions when it is hired out to a group. The pool has no poolside area and it is not considered safe to allow pay and play use.
- 3.92. There are also pools at the Devonshire Spa and the Long Ashes Leisure Club, but these require membership to use.
- 3.93. Malsis School has a pool, but this is now rarely used.
- 3.94. The lidos are located at The Newfield, the Playaway Centre, Ingleborough Community Centre, and the Leisure Club. These are predominantly seasonal facilities.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.4: Swimming Pools in Craven

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.95. Map 3.4 shows the swimming pools in Craven and their location. The analysis of the overall swimming pool supply in Craven, is as follows:

Table 3.13: Analysis of Swimming Pool Supply in Craven

TOTAL SWIMMING POOLS	8
TOTAL COMMUNITY ACCESSIBLE SWIMMING POOLS	4 (2 LOCAL AUTHORITY POOLS)
TOTAL MAIN POOLS	7 (1 LOCAL AUTHORITY POOL)
TOTAL LEARNER POOLS	1 (1 LOCAL AUTHORITY POOL)
NON COMMUNITY ACCESSIBLE POOLS	4

3.96. Table 3.13 highlights that half the swimming pools in Craven are available for community use. All CDC pools are available for community use at all times and are programmed accordingly, with a combination of lessons, casual and lane swimming, fun sessions, aqua fitness sessions, and club use. The only learner pool is at the Craven Swimming and Fitness Centre.

3.97. In addition to the CDC pools, Settle Swimming Pool and Upper Wharfedale School is available for community use.

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

3.98. Detailed quality assessments have been undertaken on the CDC facility and the two other community accessible pools in the District. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4 above.

3.99. The Craven Swimming and Fitness Centre was built in 2003. Settle Swimming Pool was built in 1975 and minor refurbishment in 2004. Upper Wharfedale School was built in 1972 and changing rooms refurbished in 2010. Giggleswick School pool was built in 1906 and refurbished in 2002.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

3.100. The quality of the existing swimming pool facilities is therefore variable.

3.101. Although an ageing facility, the Upper Wharfedale School pool is in good condition given its refurbishment six years ago. Settle Pool was refurbished twelve years ago; it is an ageing facility, and is showing this. Thought will need to be given to its further refurbishment/replacement (potentially funded through developer contributions (CIL/S106), given the scale of housing development in the area) in the medium to long term, given that public swimming facilities are typically designed with a life of 30-40 years. The quality of the future swimming offer is important to encourage increased physical activity, given that half of all community swimming is provided through the non-CDC pools. A more modern facility would also be more efficient and economic to operate.

EXISTING SUPPLY - ACCESSIBILITY

3.102. Swimming pool facilities are based in the more urban areas of Skipton and Settle, and the very rural YDNP.

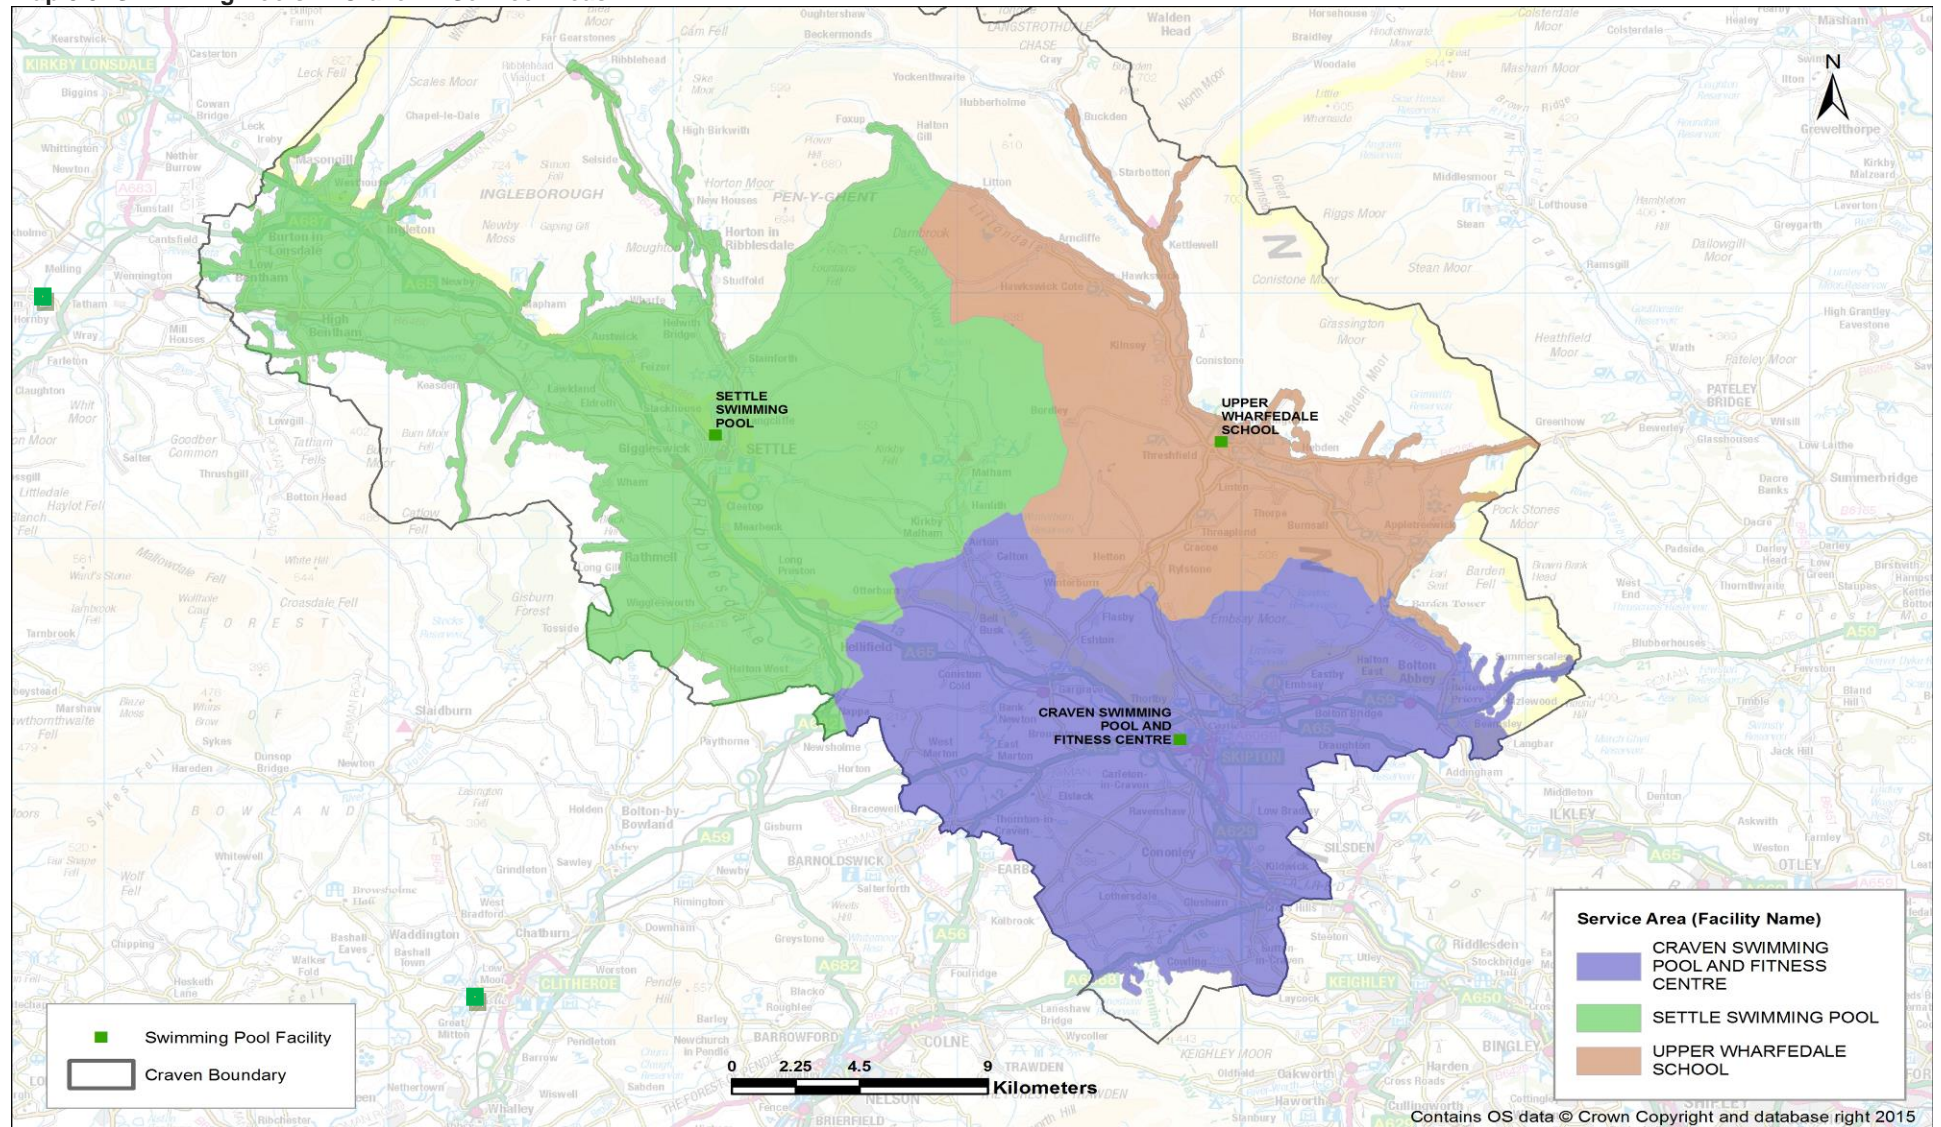

3.103. Map 3.5 below illustrates that the majority of residents are within 20 minutes drive time of a community accessible swimming pool; residents in Skipton have access to a 25m pool, whereas the other two main pools are 20m in length.

3.104. Residents in the north west of the District have very limited access to pool facilities in Ribble Valley or Lancaster. The nearest community accessible pools are between a 10-15 mile drive from Ingleton and 20 mile drive from Settle

3.105. A significant proportion of users travel by car to use the swimming facilities.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.5: Swimming Pools in Craven – Service Areas

Swimming Pool facilities service areas in Craven with community access (up to 20 minutes drive time)

SUPPLY AND DEMAND ANALYSIS

SPORT ENGLAND'S FACILITIES PLANNING MODEL

3.106. Strategic Leisure was provided with the Sport England's Facilities Planning Model National Run (September 2015; data from January 2015 report) for swimming pool provision in Craven. The report sets out an assessment of the current situation regarding swimming pool supply, based on 2015 population (55,574), and provision in the surrounding local authorities of Harrogate, Richmondshire, South Lakeland, Lancaster, Ribble Valley, Pendle, Bradford.. The key findings are summarised below. The full report can be accessed at Appendix 3.

SUPPLY

3.107. The Facilities Planning Model analysis identifies 5 pools across 4 sites in Craven. This is the same number of pools, though more sites than neighbouring LA areas of Richmondshire (5 pools on 2 sites) and Pendle (5 pools on 3 sites), but fewer than all other neighbouring LA areas apart from Ribble Valley (3 pools on 2 sites).

3.108. This supply of swimming pools in Craven provides a total water space of 16 sqm reduces to 9.22 from above note. per 10,000 population, which is higher than national and regional levels (both around 12 sqm.) as well as all other comparator local authority areas, particularly Bradford which has half this level of water space per 10,000 population.

3.109. However, in reality there are only 4 community accessible pools as Giggleswick School pool is not available for pay and play community use. This includes the Upper Wharfedale Pool, which really only serves the population of the YDNP.

3.110. The population of the YDNP area of Craven is 8,500 so bringing the study area population down to 47,074. The Upper Wharfedale pool at 160m² should technically service YDNP population (well over 160 sq m per 10,000 population). With this pool and population outside the study area it means that Craven then has just 433.5 sq meters of water space to serve the 47,074 residents. This gives the study area just 9.22 sq m of water space per 10,000.

3.111. The boundary of the national park is just a few miles from both Settle and Skipton pools and residents living in the YDNP will use both of these pools, thus putting more demand on accessible pool space.

3.112. Where possible to calculate, the impact of removing Giggleswick Pool and Upper Wharfedale Pool from the FPM analysis is shown in brackets in the following paragraphs 3.113- 3.116).

3.113. The 5 (3) swimming pools have a capacity of 5,145 (3,847) visits per week in the peak period (vpwpp), based on the current supply of 894 (554) square metres (sqm) of water space, if it is assumed that all pools are full to 100% capacity.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.114. The existing community accessible pools provide a total of 593.5 (408) sq m of water space, compared with a current demand for 555.3 sq m of water space (based on pools being 70% full, using the Sport England comfort factor. The comfort factor means that the facility is full, but people can still swim; if capacity is over the 70% comfort factor, it is difficult to actually swim in the pool.), an oversupply of 38.21 (or under supply of -134.6) sqm. The oversupply is very small; the under supply is equivalent to just under 2 lanes of a 6 lane x 25m pool.
- 3.115. Whether the situation is a very small over supply, or an under supply, it is important to note that the majority of neighbouring local authorities also have very low levels of pool provision. Therefore, additional demand in Craven is unlikely to be met in neighbouring districts.
- 3.116. Residents in Craven have reasonable access to swimming pools, with the majority of the population being able to access a pool within a 20 minute drive time. This is emphasised by the fact that 82.2% of demand, or 2,313 vpwpp, for swimming is retained in the district.

CURRENT DEMAND

- 3.117. The Facilities Planning Model analysis identifies that the 2015 population (55,574) generates a demand for 3,346 visits per week during peak periods (vpwpp). This equates to 5,553 sq m of water space, based on pools operating at 70% capacity, as paragraph 3.112 above. Clearly there is currently a very small over supply of water space in the District. This also needs to be seen in the context that nationally there is a decline in levels of participation in swimming..
- 3.118. 84.1% (2,812 visits per week in peak periods) of all demand for swimming pool provision is met in the District; this is a low level of satisfied demand compared to regional (90%) and England (91%) averages. 88.94% of all existing use is made by those using a car. 82.2% of all demand for swimming is retained in the District. However, only 52.6% of all available capacity in the existing community accessible provision is used during peak periods. Craven Swimming and Fitness Centre is the only pool operating at near to capacity at 63%; Settle Swimming Pool operates at 42% of its 949 capacity, which is available for 39 hours weekly at peak period. Upper Wharfedale School operates at 37% of its smaller 533 capacity, which is available for only 20 hours weekly at peak period.
- 3.119. 15.9% (533 vpwpp) of demand is unmet by the current provision of community accessible swimming pools; this is higher than the regional (10%), and England average (9%). Areas with the highest unmet demand are in the south between Skipton and Keighley, and around Lower Benthams in the far west of the District. This demand is unmet because some pools are at capacity (4% of the unmet 533 vpwpp), and secondly because some residents are outside the catchment of an existing swimming pool (96.2% of the unmet 913 vpwpp). This latter point reflects the fact that around 16.4% of Craven residents do not own a car (England average is 25%). Despite this 94% of all pool visits are made by car.
- 3.120. Craven imports 392 swimmers (14.5%) per week.
- 3.121. The age of the existing pool stock, particularly Settle Swimming Pool will become an issue into the future, and therefore the quality of the offer will diminish.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.122. A growth in population by 2032 will increase demand for swimming provision, and the level of over-supply will decrease, whilst an under supply will increase. Table 3.14 summarises the analysis described in paragraphs 3.115 – 3.120.

Table 3.14: Summary of 2015 Supply and Demand Analysis

2015 DEMAND FOR POOLS Sq M	2015 SUPPLY OF POOLS Sq M	SURPLUS (+)/ DEFICIENCY (-) OF POOLS	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) DEMANDED BY CURRENT POPULATION	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) SATISFIED	VISTS PER WEEK IN THE PEAK PERIOD (VPWPP) UNSATISFIED	DEMAND MET IN THE DISTRICT	DEMAND UNMET IN THE DISTRICT
555.3	593.5 (568)	+38.21 (-134.6) sq m	3,346	2,812	533	84.1%	15.9%

FUTURE DEMAND

- 3.123. The FPM analysis undertaken does not identify future demand. The population of Craven will increase to 58,000..
- 3.124. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on this population increase.
- 3.125. Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. That needs to be informed by the nature and location of future housing development, local geography and accessibility, and critically the location of existing facilities. This is because future demand may have the potential to be addressed through facility extension, or refurbishment, as well as new build.
- 3.126. Future demand will also need to reflect the current supply and demand analysis. Clearly if there is under-supply of a specific facility type now, the level of undersupply is going to increase by 2032, given population growth and increased levels of participation.
- 3.127. The SFC for Craven identifies the following future facility demand (Table 3.15), based on a population increase by 2032.

Table 3.15: Future Facility Demand (2032) – CRAVEN

FACILITY TYPE	UNIT	FACILITY	ADDITIONAL VPWPP
SWIMMING POOL	1.17 Lane (62.40sq m)	0.29 of a 4 Lane X 25m Pool	376

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 3.128. Clearly, the small over supply of water space is insufficient to meet future demand or swimming provision, generated by population growth. The identified actual under supply increases; taking the under supply and the future need together, there will be a need for almost 1 4 lane x 25m pool

CONSULTATION

- 3.129. Consultation with relevant National Governing Bodies (NGBs), and local clubs, highlights local factors in relation to supply and demand for swimming pool provision in the future.

Table 3.16: Summary of National Governing Body Consultation – Aquatic Activities

NATIONAL GOVERNING BODY	CURRENT FOCUS/PRIORITIES	FUTURE FOCUS/PRIORITIES
AMATEUR SWIMMING ASSOCIATION (ASA)	Encouraging and facilitating more people to swim more often. Development of the Talent pathway.	The ASA has not identified the need for additional swimming pool provision in Craven.

CLUB CONSULTATION

- 3.130. Consultation feedback from local swimming clubs identifies the following:

- **Clubs based at Upper Wharfedale School sports facilities are happy with the facilities; they are just grateful and appreciate having sports facilities in the YDNP. However, assistance is needed to help the swimming club address their membership scheme to make access more affordable.**
- **Settle Swimming Pool – the clubs accept the facility for what it is, but there are opportunities for club and pool to work together more.**

SUMMARY CONCLUSIONS – SWIMMING POOLS – AMEND AS NECESSARY FROM ABOVE NOTE

- 3.131. From the FPM, which is only one element of the overall assessment of swimming pools in Craven, it is clear that there is a current small over supply of pools in the District.
- 3.132. Based on current and future demand, there is just sufficient swimming pool provision in the District. Current over supply of water space equates to +38.21 sq m, but if the real situation is taken i.e. excluding both Giggleswick and Upper Wharfedale pools from the assessment, there is an under supply of 134.6 sq m); future demand based on population growth equates to 62.40sqm of a 25m pool. In total by 2032, assuming no new pools are opened, and the existing facilities remain open, there will be a need for **an additional 197sqm minimum of a 25m pool; this cannot be met by the existing facility stock. This equates to a 4 lane x 25m pool (200 sq m).**
- 3.133. The current level of satisfied demand is low in Craven, reflecting the fact that 1 of the 3 main pools is virtually operating at recommended capacity.
- 3.134. Current levels of unmet demand are at 15.9% in Craven and equate to 533 vpwpp. This unmet demand is attributed predominantly to existing pools being full (4%), and to people living outside the catchment of an existing pool (96.2%).
- 3.135. 52.6 % of peak available capacity is used; this is considerably lower than the regional and national averages (67% and 65% respectively) as well as being much lower than the more urban Bradford (90%), Pendle (73%) and Lancaster (64%). Swimming pools in Craven are used at around the same level as Harrogate but are busier than those of its more rural neighbouring LA areas of Richmondshire, South Lakeland and Ribbles Valley.
- 3.136. Unmet demand is highest between Skipton and Keighley, and in the Lower Bentham area.
- 3.137. There is a need to consider the age, condition and quality of the existing pools in Craven as the quality of the offer will reduce over time; the need to replace Settle Swimming pool facilities will need to be a medium –long term priority (5-10 years).
- 3.138. The ASA has not highlighted the need to provide better quality facilities in Craven.
- 3.139. Given the major developments of new housing will be in Skipton, Settle and Long Bentham, sufficient provision of good quality and accessible water space for both current and future residents of Craven is necessary. Consideration should also be given to the fact that swimming is the most popular sport in Craven, and that it provides a significant opportunity to increase participation.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

HEALTH AND FITNESS FACILITIES

SUPPLY OF HEALTH AND FITNESS SUITES IN CRAVEN

3.140. The supply analysis identifies that Craven has a total of 14 fitness suites across 15 sites (Active Places September 2015).

3.141. The analysis of the overall fitness suite supply in Craven is as follows:

Table 3.16: Analysis of Fitness Suite Supply in Craven

TOTAL FITNESS SUITES	17
TOTAL FITNESS STATIONS	393
TOTAL COMMUNITY ACCESSIBLE FITNESS SUITES (ALL WILL REQUIRE SOME FORM OF PAYMENT PRIOR TO USE/MONTHLY DD, MEMBERSHIP ETC)	4
TOTAL COMMUNITY ACCESSIBLE FITNESS STATIONS	109

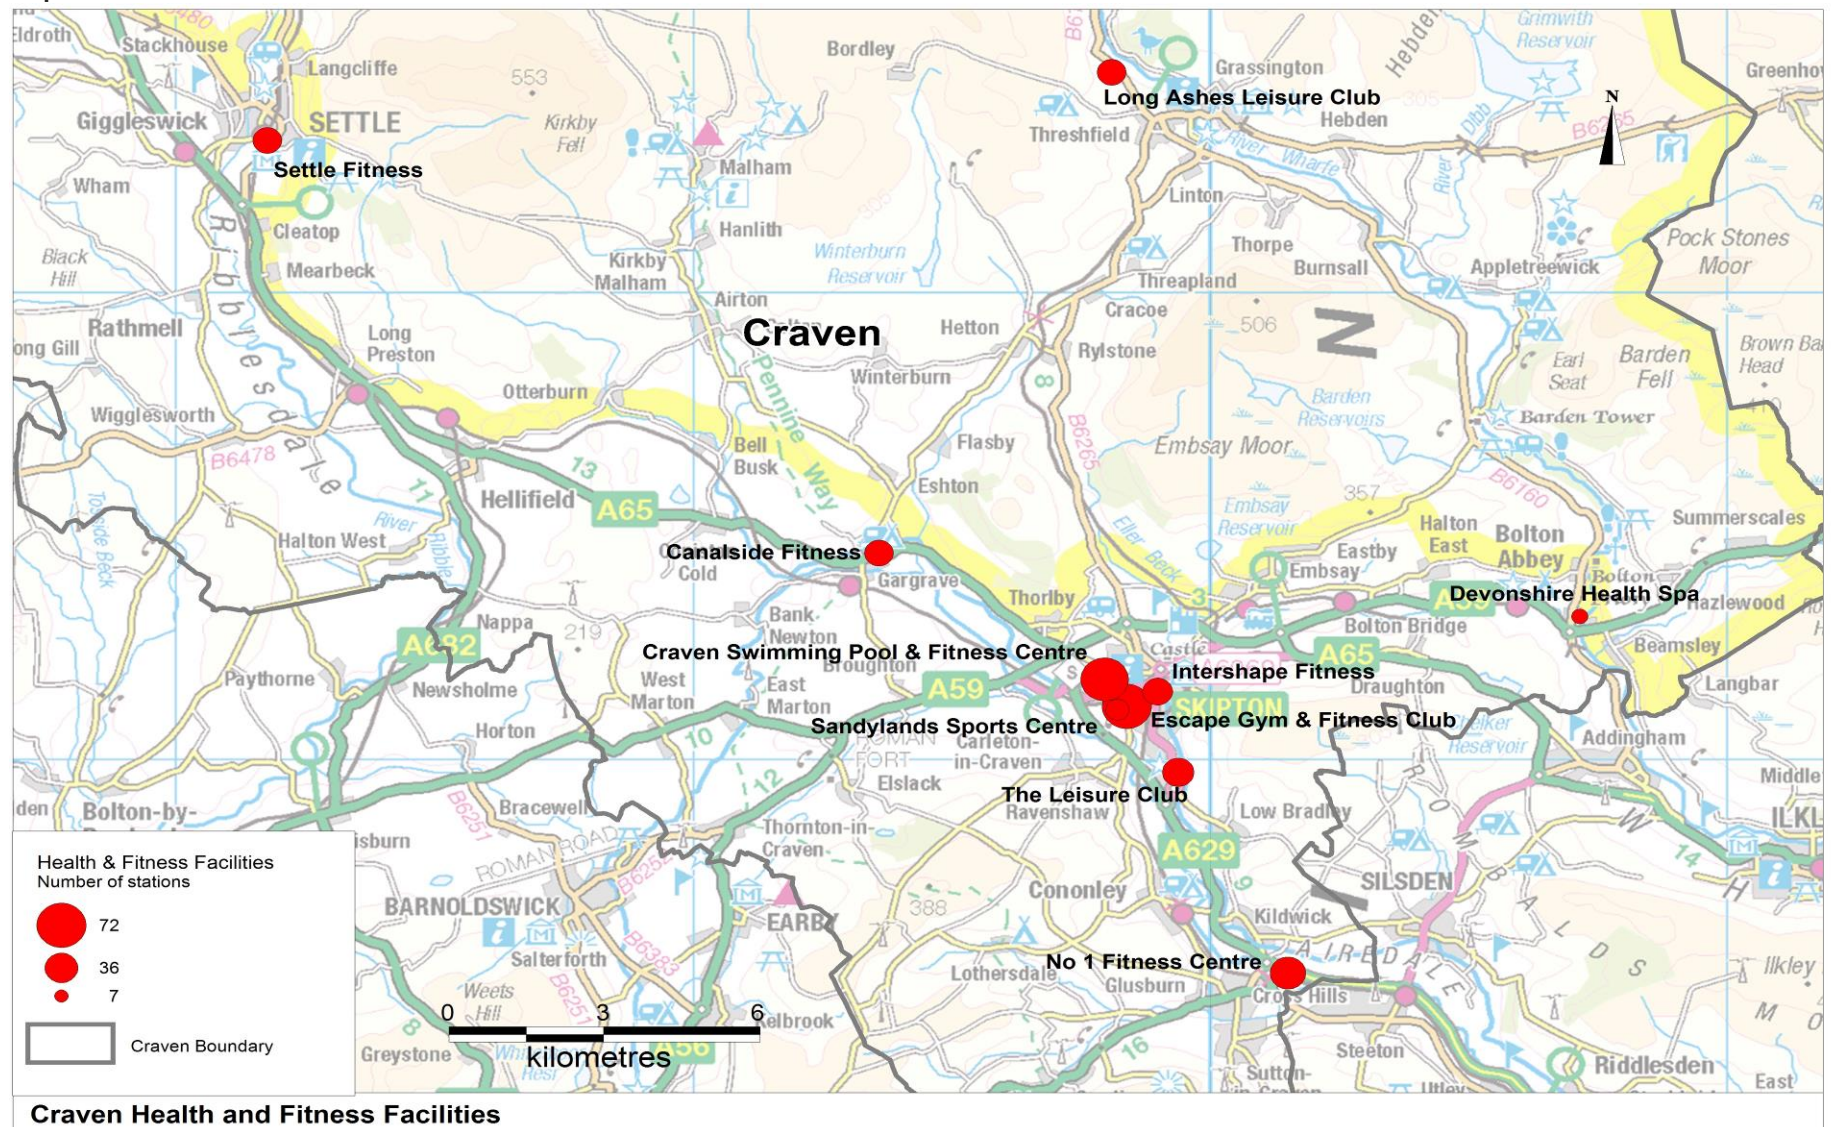

3.142. Table 3.16 highlights the supply of fitness stations in Craven. Only a few facilities operate as pay and play facilities (4 fitness suites, with a total of 109 stations),

3.143. All fitness facilities will require some form of payment/membership before use with the CDC facilities no different to those in the commercial sector. The 4 education facilities are small and provide for school students. Commercial fitness facilities in Craven are not 'top end' provision, but in the bottom to middle of the commercial market; therefore the membership/monthly fees do not present too much of a barrier.

3.144. Map 3.6 shows all the fitness suites in Craven.

SPORT AND LEISURE FACILITIES STRATEGY Craven District Council

Map 3.6: Health and Fitness Facilities Craven

EXISTING SUPPLY – GEOGRAPHICAL DISTRIBUTION AND QUALITY

QUALITY

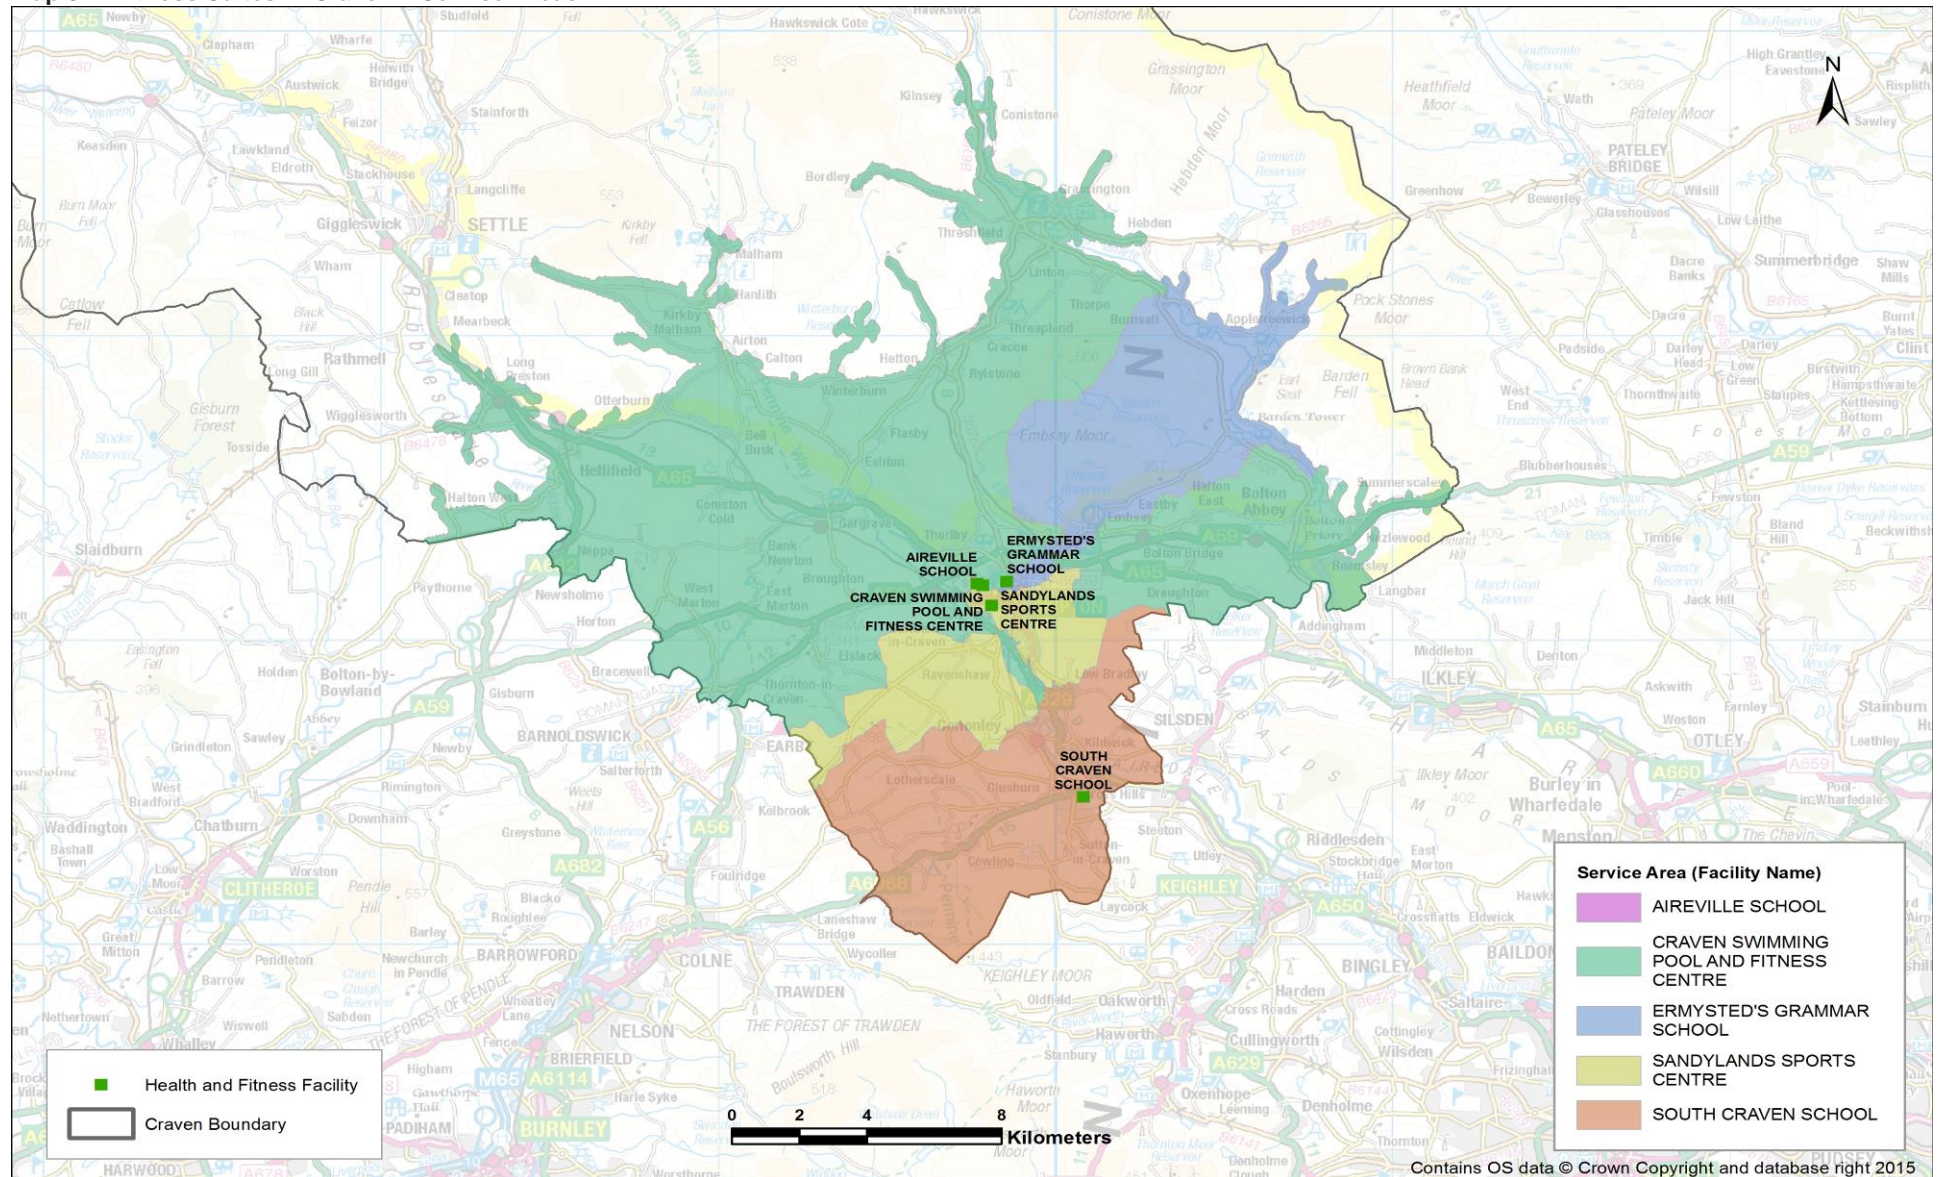

- 3.145. Detailed quality assessments have been undertaken on the CDC facility and other main sites. These are provided in Appendix 8 (8a-8c), and summarised in Table 3.4.
- 3.146. The majority of the existing fitness suites in Craven were built from 2000 onwards; some have been refurbished in the last 5-10 years.
- 3.147. The quality of the existing facilities is therefore better than that of pools and halls.

EXISTING SUPPLY - ACCESSIBILITY

- 3.148. Geographical distribution of community accessible fitness facilities is focused on the south of the District, in and around Skipton.. Map 4.7 shows the community accessible fitness suites with a 20 minute catchment area, which demonstrates that a significant area of the District is not within the catchment area of these facilities. There is only one facility in Settle, (commercial), and none in the north sub area.
- 3.149. The challenge in Craven is that in a rural area travel distances vary, and although car ownership is high, 16.4% of the community do not have access to private transport.
- 3.150. This is where the local provision of fitness facilities on education sites, becomes even more important, as this type of facility increases the level of local provision available for local people. Maintaining and developing increased community access to education-based sports facilities is key in ensuring locally available access, and facilitating increased participation in sport and physical activity for health benefits. Equally, the provision of a few fitness stations in a village hall/community hall could increase access to provision, particularly in a rural area.
- 3.151. In addition there is potential to locate some fitness provision, for example 6 fitness stations, resistance and cardio-vascular, in some community halls, to improve access in the rural areas. Such an approach would be most sustainable if located in a community/village hall which already has some sports facilities such as a pitch, and/or a bowls green. The fitness facilities would then provide participation opportunities for local people playing in teams, as well as individuals.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

Map 3.7: Fitness Suites in Craven – Service Areas

Health and Fitness facilities service areas in Craven with community access (up to 20 minutes drive time)

SUPPLY AND DEMAND ANALYSIS

- 3.152. Appendices 6 and 7 model the current supply and demand of community accessible fitness stations in more detail; based on current population demand for fitness in Craven (excluding the YDNP) there is an under supply of -14 fitness stations in the District. Based on population projections for 2032, there remains an under supply of provision, but this increases to -32 stations. Craven Swimming Pool and fitness center is considering options of reconfiguring and extending the center to plan for this future demand.
- 3.153. If new facilities are built in the district to replace existing, ageing facilities, there is potential to increase the current number of community accessible fitness stations provided. This would help to address future demand, generated by population growth and increased participation.

SUMMARY CONCLUSIONS – FITNESS SUITES

- 3.154. There is a very good supply of fitness facilities across Craven in and around the market towns. There is limited provision in the rural areas, however, as shown in Map 3.7, accessibility is satisfactory.
- 3.155. Current supply of fitness suites is predominantly through the public and commercial sectors (low to middle end of the market); limited facilities are located on education sites.
- 3.156. The quality of fitness provision is better than that of pools and sports halls, because the facilities are newer.
- 3.157. Overall there is sufficient provision of fitness stations to meet current and future demand given that there is more actual provision than demand, assuming that some individuals use facilities where membership is required.

SQUASH

SUPPLY OF SQUASH FACILITIES IN CRAVEN

- 3.158. There are 8 squash courts in Craven, located across 3 sites. Only 2 courts are glass back.
- 3.159. Existing squash courts are managed as follows: Giggleswick School (2 courts), Sandylands Sports centre (4 courts, 2 glass-backs), and the Leisure club (2 courts). Of the 8 courts available, 6 are community accessible, but the Leisure Club site requires membership.
- 3.160. No response to consultation was received by from England Squash and Racketball, or local squash clubs.
- 3.161. No need for additional squash courts has been identified in the area, assuming the existing level of supply is retained. .

OTHER SPORTS FACILITY NEEDS IDENTIFIED THROUGH CONSULTATION

SKIPTON LAWN TENNIS CLUB

- 3.162. In 2007 Skipton Lawn Tennis Club folded with just 3 members. The club courts and clubhouse based at Sandylands were gifted to the Coulthurst Craven Sports Centre (AKA Sandylands Sports Centre). CDC then worked to set up the Skipton Tennis Centre and re-established the club in 2008. The qualified coach secured a long term lease on the club facilities and a LTA loan to resurface 3 of the courts.
- 3.163. The Club has 12 teams, and over 200 players in a coaching programme and works with nearly 30 schools across Craven. The club also supports many healthy lifestyle programmes and many local businesses and organisations.
- 3.164. The Club currently has 3 floodlit courts and a clubhouse.
- 3.165. The Tennis Club and coach now wish to further develop the site as follows, over the next 5 years
- **2 extra courts making us a 5 court club - This will help us grow our current programme and meet the needs of the community, we are currently 120 players over subscribed for court space (2015)**
 - **3 improved LED floodlit courts - This will reduce our running costs and our footprint on the environment**
 - **New Fencing**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- **Improved changing facilities to provide shower facilities.**
- **Indoor Courts (long term goal) - The longer term goal is to provide 3 indoor courts for the residents of Craven.**

3.166. There is opportunity to work with Skipton Table Tennis Club to have a Table Tennis room added to indoor tennis courts; an alternative option would be to develop one court as multi-purpose space, based on wider sporting need. This would be likely to drive more revenue than a single tennis court.

BOWLS

3.167. There are 15 Bowling Crown Green Bowls clubs/ facilities across the Craven District (2 inside YDNP). Most have their own pavilion / clubhouse. Due to the predicted increase in number of older people, CDC should seek to protect and enhance bowling provision to ensure that this resource is supported to meet the changing demographics.

3.168. Currently, the population of 47,074 in Craven need 4.18 indoor bowls rinks, providing for 651 vpwpp. By 2032, the Craven population will demand 4.73 indoor rinks, which equates to 0.79 of a 6 rink centre. Demand will be for an additional 86 visits vpwpp.

SKIPTON CYCLING CLUB

3.169. Cycling: despite high levels of adult cycle participation (4500 adults) there is very limited cycling facility provision in Craven. There are no thriving junior cycle clubs due to lack of accessible, suitable and safe venue. Skipton Cycle Club has expressed a need/demand for a closed road cycle circuit in Skipton to provide a viable venue for its junior programme as well as Get back in the Saddle adult programme. Craven Energy Tri Club also has a junior section and they share this need/demand. Skipton Athletics Club's junior section is currently homeless and would also use such a venue to host their club training.

3.170. The Club needs a closed circuit cycle track (1km loop). British Cycling would support any development with technical guidance etc but not funding, as it would not fit with their national priorities for the location of closed road circuits. The location proposed at Sandylands is unlikely to take a full 1.5km track but possibly a 1km, if a track was to be pursued. Although it would not meet BC requirements in terms of length they would like to see any development in line with other technical guidance in terms of width, gradient, run offs etc. They would see a track of this sort as good for beginners, go- ride programme training and local races, and as a safe place to introduce people to cycling.

ATHLETICS CLUBS

3.171. The following feedback was received to the consultation:

CLUB	FACILITIES USED	FEEDBACK
SETTLE HARRIERS JUNIORS	Giggleswick School Running, biking tracks and sports pitches 1- 4 hours per week	80 under 18's, 120 adult members; membership increasing, have a waiting list Most members from Settle, Ingleton and Bentham areas Rate the facilities and services as adequate to fairly good. In the future looking for winter indoor training space, need support for volunteer recruitment for coaches etc in order to reduce waiting list.
SKIPTON ATHLETICS CLUB	Craven Swimming Pool and Fitness Centre as a meeting point for runs Tues & Thurs	Meet outside the Craven Swimming Pool & Fitness Centre twice a week (Tuesday and Thursday evenings) and head out in groups to jog/run a choice of routes around the local area up to approximately 7-9 miles. We also run interval sessions on Tuesdays; in summer use the track adjacent to the cricket field and in winter either train in Aireville Park or in local streets. 115 adult members and no junior members, (other than family members). This has remained fairly consistent over the last 3 years. Looking to the next 3 years the membership is expected to increase due to a number of factors: <ol style="list-style-type: none">1. In the process of setting up a Junior section and would anticipate this to increase membership numbers2. Being more pro-active in promoting the club3. Increased participation in local events such as Harrogate District Summer Race League and West Yorkshire Winter League4. Supporting events such as Skipton parkrun and the recently held 'Celebration of Aireville Park'

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

CLUB	FACILITIES USED	FEEDBACK
		<p>Skipton Athletics Club has been established for over 30 years catering for all abilities, but in recent years, has not had an active junior section. The club is currently investing in getting more qualified athletics coaches and running leaders, with a vision of offering more improved coaching to both senior and junior athletes alike. A facility which allows us to effectively deliver coaching in support of this vision would be welcome; the club has recently been in talks with Sandylands and the Tennis Centre around using their facilities for junior coaching</p> <p>The cycling club needs a tarmac track.</p> <p>This would be a great facility for the running club too especially as the running track facilities elsewhere are too far away and the facilities at Sandylands are better in the summer than the winter.</p>

3.172. Settle and Skipton Athletics Clubs, Triathlon Club and Fencing Club indicate that they need either more access to facilities and/or alternative venues.

4. APPLYING THE ANALYSIS

CONSULTATION WITH NEIGHBOURING LOCAL AUTHORITIES

- 4.1. In determining the nature, level and location of sports facility provision required for the future in Craven, it is also important to be aware of how neighbouring local authorities are planning for the future. Given that communities use sports facilities in areas other than where they live, the development of new or improved provision can impact significantly on both participation levels and capacity cross-boundary.
- 4.2. The issue for Craven residents, however is that neighbouring local authorities actually have relatively low levels of sports hall and swimming pool provision.
- 4.3. Table 4.1 summarises the consultation undertaken with neighbouring local authorities to inform this Strategy.

Table 4.1: Neighbouring Local Authority Swimming Pool Developments

LOCAL AUTHORITY	FACILITY DEVELOPMENTS
RIBBLE VALLEY BC	No new provision likely, although the Ribblesdale Pool requires significant investment. The all weather pitch at Roefield may be refurbished.
BRADFORD MDC	There are plans to invest £41m to build four new swimming and sports facilities, and to close four existing facilities. The closest facility to Craven, which will eventually close, is Bingley Pool. Oakbank School, Keighley will be re-developed; this is one of four schools to be re-developed, but is the closest one to Craven.
PENDLE BC	No response received
RICHMONDSHIRE DC	Local Plan Review identified that the District has sufficient provision. New leisure centre opened in partnership with Catterick Garrison 4 years ago.
HARROGATE BC	No response received
STH LAKELAND DC	No response received
LANCASTER Cc	No response received

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 4.4. Consultation with the neighbouring local authorities does not identify any development proposals, other than the new pools/school facilities in Bradford, which are likely to have a limited impact on provision in Craven.

KEY ISSUES AND OPTIONS

- 4.5. Based on the local context and the supply and demand analysis, there is potentially a need to consider additional provision of swimming pools in the District, plus a need to address identified demands for community accessible health and fitness provision. There is also a need to replace some existing sports and leisure facilities in Craven in the medium to long term (3-10 years). There are a number of reasons for this:
- **The age, condition and poor quality of some facilities – particularly Settle swimming pools and Sandylands sports halls**
 - **The need to significantly increase participation in physical activity for community health benefits**
 - **The need to invest in active environments, where physical activity is the norm**
 - **The vision of providing good quality community sport and leisure facilities for all Craven communities**
 - **The need to improve accessibility in rural areas**
 - **The focus on the 3 sub areas in terms of community provision and accessibility**
 - **Long term population growth in Craven, which will increase demand for community facilities, including sport and leisure provision, particularly in the market towns where the majority of new homes will be built**
 - **The potential future need for additional swimming pool space.**
- 4.6. Housing development is one of the principal justifications for additional community sports facilities because additional residents increase demand for sports facilities. The population of Craven is set to grow by 2032, and there will be a need to ensure good quality community sport and leisure facilities are available to meet existing and future demand.
- 4.7. A further driver for considering investment/replacement in terms of sports facilities is accessibility; accessibility is related both to geographic location and programming. If particular activities are not provided, or are programmed at times which are unsuitable for participants, they are unlikely to take part.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 4.8. The way in which a sport and recreation facility is managed often determines the level and type of community use allowed/encouraged. For example, local authority managed sport and recreation facilities are more likely to encourage use by disadvantaged groups than those managed by commercially sector operators and are, thus, more accessible.
- 4.9. Retaining and improving the quality of provision is particularly important in given that 32.4% of Craven residents currently take part in sport and physical activity at least once a week, on a regular basis.

(source: APS 9, 2014/15)

- 4.10. Priority is placed on reducing health inequalities and increasing participation in physical activity in Craven; the provision of good quality, local community facilities, accessible and affordable to meet identified need, is key to facilitating participation growth.

- 4.11. Based on the quality audits and assessments, age and condition, the priorities for future investment in facility provision are:

- **Swimming Pools – due to age (by 2032) – Settle Pool medium to long term (5-10years)**
- **Sports Halls – due to age (by 2032) – Sandylands Sports Centre medium term (3-5years)**
- **Facilities on Education sites due to age – Skipton Academy medium to long term (5-10years)**

- 4.12. Key issues informing future provision include:

Table 4.2: Key issues informing future provision

	KEY ISSUE	EVIDENCE
1	Population growth of 4.75k by 2032. The number of people in older age groups (50-74yrs) will increase with the number in younger age groups continuing to fall.	Local Plan, NY Health & Well Being Strategy
2	Rural district, sparsely populated in areas. Three market towns of Bentham, Settle and Skipton are key service centres. Majority of population lives in these three towns. Yorkshire Dales National Park covers much of the District.	Local Plan
3	Access to services difficult. Many people need a car out of necessity.	Local Plan

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
	Net out-commuting from the District particularly in the North and South for work and education. High car ownership at 74.6%.	
4	<p>Community buildings important as it is difficult to access services. Local plan aims to promote continuation and improvement of facilities including sports and community buildings.</p> <p>Existing buildings to be safeguarded and full justification needed for any development, which would result in loss of a community asset.</p> <p>Development of new and improved community buildings encouraged but need to be well located, accessible, meet local needs and consider options for co-location.</p>	Local Plan Report section 2.23, 2.24,2.25
5	<p>Health and Well Being challenges: ageing population, Asthma, CVD, Stroke, Cancer, social isolation, 2 x LSOA in Skipton amongst the most deprived in England, less than national average make an appointment for health checks.</p> <p>Lower levels of childhood obesity (14%) than national average; adult obesity is at 66%, higher than the national average.</p>	NY Health & Well Being Strategy JSNA
6	<p>Children and young People are concerned about rural isolation, would like more local amenities, better transport links.</p> <p>Like to be able to access organised sport and leisure facilities.</p>	NY Children's and Young People Plan
7	Three year downward trend in participation levels for both once a week (now 32.4%) and 3 x 30 levels. Participation levels are below the regional and national averages.	SE APS 9
8	Latent demand for those who would like to do more sport has risen to 50%.	SE APS 9
9	<p>Participation in organised sport such as club membership and competition has risen.</p> <p>Recent downward trend in numbers participating, and in those taking part in coaching and tuition.</p>	SE APS 9

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
10	Satisfaction with local sports provision is rated as very/fairly satisfied.	SE APS 9
11	Sports which appeal to the most dominant market segments are: keep fit/gym, swimming, football, bowls, cycling, running/athletics, angling, golf.	SE market segmentation
12	<p>There is a dominance of facilities in the south sub area of the District, the most heavily populated area of the District. Indoor facilities in Settle and Wharfedale provide access for the population who live in the mid and north sub areas. Overall sports facilities are accessible to the majority of the population.</p> <p>The District Council is directly responsible for the management and operation of only one facility – Craven Swimming Pool and Fitness Centre (Skipton). Other facilities are managed and operated by Community Trusts and the education sector. There are commercial operators in the health and fitness market.</p> <p>Consideration needs to be given to the impact of any loss of a facility, changes to community access at facilities which are not managed by the District Council, and how such factors might reduce opportunities for access to sport and physical activity in the District.</p> <p>How can the District Council influence, support, work in partnership with other providers to ensure access to sports provision across the District?</p>	Local Plan Active Places Consultation
13	<p>Settle Pool operated by Community Trust – in need of investment to meet up to date design, operation guidance.</p> <p>Financial position weak, in part due to reduction of £30K grant by CDC.</p> <p>Full programme of public swimming, lessons, clubs, disability swimming, etc.</p> <p>Should the pool no longer be viable or cease to trade, loss of the pool would have a significant impact on people's ability to participate in swimming. Minimum of 30-40 min drive to next nearest pool.</p>	Consultation Active Places FPM

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

	KEY ISSUE	EVIDENCE
14	<p>Sandylands - Quality of indoor changing/ sports hall complex average. Outdated and ageing facility, compared with newer developments on the site 3G pitch, tennis club.</p> <p>Craven Swimming Pool and Fitness Centre – very good quality, well maintained, modern up to date facility; very heavily used; certain facilities at capacity eg studio, fitness suite.</p>	Quality audits
15	<p><i>Is the facility mix and number of facilities appropriate?</i> - Consultation outcomes begs the question 'is there a need for additional sports hall provision? Possibly as a partnership venture between education and local authority in Skipton?</p> <p><i>Does Settle need a Sportshall - dual use facility adjacent to Settle Pool/Settle College? Or are there opportunities to widen access at Giggleswick School? i.e. increase hours of use</i> - There is capacity at Upper Wharfedale School, and at South Craven School.</p>	Consultation Active Places FPM
16	<p>15 halls on 9 sites; 11 courts per 1000 population – higher level of supply than national (5) and regional (4) average.</p> <p>All halls on education sites, except 2. Therefore limited access for daytime use.</p>	<p>Sport England Halls FPM September 15</p> <p>Sports Facility Calculator</p>
17	<p>Only 3 pools are community accessible</p> <p>Craven Swimming and Fitness Centre operates at 63% capacity; overall all the pools operate at 53% of capacity.</p> <p>Settle Pool is operated by a Trust and may not be sustainable. If this pool were to close, there would be a current and future under supply of water space against demand.</p>	<p>Sport England Pools FPM September 15</p> <p>Sports Facility Calculator</p>

4.13. Based on the analysis, consultation and identified key issues, the main facility priorities to address are:

1. **South Sub Area** - What should future provision look like in Skipton and is there a need for a new sports hall?
2. **South Sub Area** - is there a need to retain the existing sports hall and pool at Malsis School?

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

3. **South Sub Area** – is there a need for the proposed dome at South Craven School to create additional indoor courts?
4. **Mid Sub Area** – Given the need for a pool in Settle, what are the options for Settle Swimming Pool?
5. **North Sub Area** - Is there a need for additional facility provision in the north/north west of the District, given the population growth planned around Bentham, and the fact that there is limited provision in the area?

SOUTH SUB AREA

- 4.14. The issue of the need for a new sports hall in Skipton was examined in the 2014 NAA report. This report highlights the fact that the need for additional sports hall facilities is predominantly driven by education, because two institutions in particular lack the required facilities to deliver their curriculum. The provision of additional sports hall facilities in Skipton would impact on current educational use of Sandylands Sports centre.
- 4.15. This Strategy has highlighted that existing sports halls are not all used to capacity, although at peak periods Sandylands Sports Centre is operating at 80%, and Cedar House School at 73% (this facility has very limited opening hours for the community).
- 4.16. South Craven School is operating at only 56% of capacity, which suggests there is opportunity to increase usage. When the Malsis School sports hall was open (built in 1965) it operated at only 20% of its available capacity
- 4.17. The 2014 naa report does not recommend the development of a new sports hall in Skipton; whilst a replacement sports hall would improve the quality of provision, the existing community usage levels do not justify a new facility. Future demand for sports hall facilities can be accommodated within the existing over supply of facilities (14 courts).
- 4.18. The opportunity to increase sports hall capacity at Sandylands Sports Centre could be achieved both by moving football outdoors (if the all weather pitch is re-surfaced), and through the development of a multi-purpose space, in partnership with the Skipton Lawn Tennis Club. This approach could realise improved tennis facilities, new space for table tennis and the development of multi-purpose hall space, which could be used by schools and the community. School use during the day could release some sports hall space for community use.
- 4.19. Equally, the development of multi-purpose hall space at Craven Swimming and Fitness Centre, as well as, or instead of, development at Sandylands, would provide functional revenue generating space, which could be used by a wide section of the population.
- 4.20. Based on the approach of developing some new multi-purpose space in Skipton, and the fact that there is already a surplus of sports halls and swimming pools (small surplus, but this is calculated excluding Malsis Pool) in the District, there is no need to retain the sports hall and pool at Malsis School. There is also a new school facility to be developed in Keighley, which could be accessible to Craven residents.
- 4.21. However, this is in the context of supporting investment in South Craven School to improve the tennis courts and outdoor pitches (floodlighting). Investing in a dome is not, however necessary, unless this proves to be the one opportunity to deliver indoor tennis in the District. South Craven School has the largest number of badminton courts on anyone site in the District, but the facilities are not used to capacity. The aim should be to increase community access on this site by extending accessibility, and investing in improving and developing existing facilities. Better use of the capacity at this site for e.g. club use, could also help to release some pay and play access in other sports halls in the south sub area, e.g. Sandylands Sports Centre.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

MID SUB AREA

- 4.22. In the mid sub area the main issue is the future of Settle Pool. The pool is now 40 years old and nearing the end of its original intended lifespan. Should it be retained/replaced, or closed?. Closure would leave the district with a significant deficiency of water space with very limited accessibility to other community water space for both the mid and north Craven Sub areas. The current vision of the pool owners and management is to retain the pool and try and sustain it over the short to medium term. The assessment highlights the need to replace the facility in the medium to long term (5-10+ years). The [Sport England Affordable Community Swimming pools](https://www.sportengland.org/media/42751/Affordable-Community-Swimming-Pools-R003-2012.pdf) model demonstrates it is entirely realistic for a replacement pool to be fully sustainable. <https://www.sportengland.org/media/42751/Affordable-Community-Swimming-Pools-R003-2012.pdf>. Replacement of the existing facility is the most likely option, as a modern pool would be more efficient and effective to operate, at less cost; if the existing facility is replaced, opportunity should be taken to develop a larger pool, to meet both current and future need in the District.
- 4.23. Clearly the existing pool, whilst ageing, provides an important facility for the middle of the District. There is a need for investment to improve the facility quality, and an opportunity to invest in e.g. fitness provision to increase revenue. If this pool were to close there would be a significant current and future under supply of water space in the District, so it is important that the Trust is supported to manage, and develop, the pool. This is critical to ensure its current viability and consider its future sustainability.
- 4.24. A partnership approach (the Trust, NYCC and Public Health, CDC, North Yorkshire Sports Partnership, and the local community) is important moving forward, to develop and better manage the facility, increase usage, and drive up revenue, to sustain its current operation.
- 4.25. Every opportunity should also be taken to increase access to facilities at Giggleswick School, as capacity is not currently used.

NORTH SUB AREA

- 4.26. There will be population growth in and around Bentham to 2032. The only existing facility in this area is Cedar House School; the sports hall here is operating at 73%. Increased capacity could be achieved if additional opening hours could be secured.
- 4.27. The level of population growth will not justify the provision of another sports hall, but there is potential to consider the development of multi-purpose hall space: such as access to the new Bentham Primary School hall. Equally, access to all available community hall space should be maximised, to facilitate participation.

HEALTH AND FITNESS

- 4.28. There is a significant amount of fitness provision in Craven, with the majority of facilities being provided by the public/commercial sector.

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- 4.29. Overall access is generally good to fitness facilities across Craven; however, there is a lack of community accessible provision outside the South sub area. The commercial fitness facilities in Craven are not 'top end' and therefore are more likely to be affordable; this means that commercial facilities are likely to be accessed by the local community. On this basis, although the assessment identifies an apparent under supply of provision both now and into the future, the reality is that there is sufficient fitness provision across all sectors to meet identified demand.
- 4.30. This does not preclude the provision of additional community accessible fitness stations eg at Settle Pool, as this would further improve accessibility, and reduce the need to travel.

OTHER FACILITIES

- 4.31. Other future facility provision, linked particularly to the population growth and housing development, is the development of new and improved walking, jogging and cycling routes, to encourage active travel, and provide an environment in which physical activity can be easily integrated into daily life.
- 4.32. Need has also been identified for:
- **Improved tennis facilities – Sandylands sports centre**
 - **A closed circuit cycling track – Sandylands Sports centre could be a potential location**
 - **Retention of existing, and potentially development of additional bowls facilities as population ages**

5. DELIVERING THE STRATEGY

INTRODUCTION

- 5.1. Overall, Craven has a good range of existing sport and leisure facilities across the area; however, some are now ageing, and will require investment and/or replacement. This is particularly true of education-based sports hall and swimming pool facilities. In Craven there is sufficient swimming pool provision to meet current and future demand. There is also sufficient sports hall provision to meet both current and future demand.
- 5.2. Whilst there are some facilities on education sites, which are not available for community use, these are in the minority. Proposals for new schools should incorporate formal community use arrangements for use of sports facilities.
- 5.3. Craven's population will grow over the next few years, particularly in and around the main urban areas, so there is a need to ensure sufficient provision of accessible, quality and affordable facilities to meet local need.
- 5.4. There is a range of facility providers in Craven, and it is important that CDC continues to work with these in partnership to develop and deliver facility provision, given its enabling and facilitating role.

VISION

- 5.5. The Vision for future provision of sport and leisure facilities in Craven is:

To encourage more people to be more active, more often, by facilitating provision of, and access to, a range of quality, accessible and sustainable facilities

- 5.6. CDC wishes to see accessible community sport and leisure facilities for swimming, fitness and sports hall sports/activities available for all residents. This includes both formal and informal spaces in which to play sport and be physically active.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

AIMS

5.7. The aim of providing sufficient high quality, fit for purpose and accessible provision is to:

- **Increase the regular amount of physical activity undertaken by individuals**
- **Develop additional facility provision where need is evidenced**
- **Create active environments where the choice to become physical active is an integral part of everyday life**
- **Encourage new participants to start taking part in physical activity**
- **Facilitate the further development of healthier lifestyles across Craven's communities**
- **Contribute to a reduction in health inequalities across Craven**
- **Support and provide opportunities for local sports clubs and community groups**

5.8. The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven, and help people to live and age better.

5.9. Sustainability of facility provision is key to maintaining these opportunities; CDC needs to plan now for the investment requirements of its existing facilities, and work in partnership with other providers and stakeholders to address the other priorities identified through this Strategy.

PRINCIPLES FOR FUTURE PROVISION

5.10. Analysis of existing provision also identifies the principles that should underpin all future sport and leisure facility development in Craven. These are to:

- **Ensure residents in all sub areas of Craven have good quality, local, accessible and affordable facilities, with the minimum provision being a 4 court sports hall, a 25m pool, and a fitness suite**
- **Replace ageing facilities where new provision is needed; all new provision should be designed and developed based on Sport England and NGB guidance, and be fully inclusive**

SPORT AND LEISURE FACILITIES STRATEGY

CRAVEN DISTRICT COUNCIL

- Rationalise existing provision where new fit for purpose facilities can replace/improve existing buildings
- Invest in existing provision to maintain and improve quality where economically viable or replace where refurbishment is not viable
- Development of Craven Swimming pool and Fitness Centre dryside provision to reconfigure and extend the centre to make best use of space and growing market
- Invest strategically to ensure economic viability and sustainability of provision
- Where possible, provide facilities (formal and informal) closer to where people live; access to informal provision is critical in the rural areas
- Aim to ensure that more facilities on education sites provide opportunities (on a formal basis) for community access

SUMMARY OF NEEDS, PRIORITIES AND OPPORTUNITIES

5.11. The assessment and analysis undertaken to develop this Strategy identifies a need for some additional provision, across a range of facility types, as well as more generic needs in terms of improvement to the quality of existing facilities, and the accessibility and operational management of provision.

5.12. The facility needs have been identified as a result of the qualitative, quantitative and accessibility analysis undertaken.

5.13. These are summarised below, by facility type.

Table 5.1: Summary of Facility Needs in Craven

FACILITY TYPE	FACILITY NEEDS/PRIORITIES
SPORTS HALLS	Multi-purpose space in Skipton such as extended space at Craven Swimming pool and Fitness Centre Replacement of ageing sports hall at Sandylands and on education sites
SWIMMING POOLS	Improved facilities at Settle Pool Additional water space, given scale of population growth, and current under supply; Craven Swimming and Fitness Centre is operating at 63%. The equivalent of an additional 4 lane x 25m pool will be required by 2032.

SPORT AND LEISURE FACILITIES STRATEGY
CRAVEN DISTRICT COUNCIL

FACILITY TYPE	FACILITY NEEDS/PRIORITIES
OTHER FACILITIES	Improved tennis courts Closed circuit cycling track Retention and potentially development of bowls facilities
INFORMAL FACILITIES	Cycling and walking routes; safe cycling routes

PRIORITY INVESTMENT NEEDS

5.14. The facilities that have been identified as being in need of investment are:

Table 5.2: Priority Facility Investment Needs

TOWN	FACILITIES REQUIRING REPLACEMENT (DUE TO AGE/CONDITION)	NEED FOR ADDITIONAL PROVISION - FACILITY TYPE	
		SPORTS HALLS (BADMINTON COURTS)	SWIMMING POOLS
NORTH SUB AREA		Multi-purpose space, indoor courts	
MID SUB AREA	Settle Swimming pool (medium to long term)	Increased capacity for community use at Giggleswick School	Additional pool provision on the Settle Pool site – likely to be a new facility given age and design of existing facility. The equivalent of a new 4 lane x 25m pool is needed by 2032, in addition to the existing water space in the District.
SOUTH SUB AREA	Sandylands Sports Centre (medium – term) Skipton Academy	Multi-purpose space at Sandylands Sports Centre and/or Craven Swimming and Fitness Centre	

5.15. The exact scale of provision in each town, and the options to consider in determining this are set out in detail in Section 5.

OTHER PRIORITIES AND NEEDS

CAPITAL INVESTMENT

5.16. It is clear from the strategy analysis that there is a need for capital investment in Craven's existing facility network, or replacement of this, to address both current and future needs. Whilst some of this investment relates to additional facility provision, there is also a need for medium – long-term investment in existing ageing stock; increased participation is more likely to be achieved if the environment in which people take part is fit for purpose. The current planning policy SRC2 and developer contributions can assist with this along with potential use of New Homes Bonus funds and the future adoption of the Council of a Community Infrastructure Levy. External funding will be required from Sport England Governing Bodies and NYCC for Education sites.

5.17. It is also clear that delivery of the levels of investment required will only result from a local partnership approach. The development of improved sports facilities, and physical activity environments, will facilitate increased participation, which in turn will benefit individual and community health. The challenge is that the greatest health benefit will be gained by encouraging the inactive, to become active.

5.18. In relation to getting more people active, it is important to highlight the following issues:

- **Much of the existing facility portfolio is ageing and of poor quality**
- **Increasing population will put additional demands on the capacity of existing facilities**
- **Increasing participation will increase demand on existing facilities**
- **Whilst there is no current or future need for additional facilities, there is a need to:**
 - **replace ageing facilities**
 - **develop multi-purpose, sustainable hall space**
 - **optimise the capacity for community use of sports facilities on education sites**

5.19. These issues all highlight the need for investment, and some additional provision. Whilst some of this could be met through extending the operational hours of existing school sports halls (and generating the schools additional income), there remains a need for CDC to consider investment in additional multi-sport hall space. This could be funded through developer contributions, New Homes bonus or Community Infrastructure Levy if pursued by the Council.

SPORT AND LEISURE FACILITIES STRATEGY CRAVEN DISTRICT COUNCIL

LOCAL PARTNERSHIP WORKING

- 5.20. In order to deliver the identified Strategy needs, and the key outcome of increased participation to address health inequalities, there is a need to further develop and deliver through partnership working.
- 5.21. More joined-up partnerships on the ground, with shared, and agreed local priorities will address the health, participation and investment issues in Craven much more successfully than organisations working on their own.

FACILITY PROVISION BASED ON SUB AREAS

- 5.22. Development of facility provision based on sub areas, which includes both formal and informal sports facilities is an opportunity in Craven. Given the rural nature of the district, it is not economically viable to provide a sports hall or swimming pool in every community. It is inevitable that there will be fewer specialist facilities in an area, than those which are multi-purpose.
- 5.23. It is therefore a priority to invest, not just in the formal sports facilities to provide opportunities for participation, but in the village halls and community centres around the district, to enable them to provide a wider activity offering at a very local level. Investment may be needed in resources, people, and programming, as well as in the facilities themselves.
- 5.24. This model of facility provision is based on a 'hub and spoke' approach. Formal sports facilities, located in the market towns (areas of highest population) form the 'hubs' at the centre of the participation model; these are then linked to, and complemented by school halls, which are open for community access (preferably with secured community use agreements), and community halls where informal activities are offered.

OVERVIEW

- 5.25. Although Craven's market towns have good sports facilities there are some ageing facilities, which will require replacement in the medium to long term. These are the Sandylands Sports Centre hall, Settle Pool and Skipton Academy.
- 5.26. The anticipated population growth in Craven to 2032 needs to be appropriately catered for in terms of demand for sports facilities – both formal facilities and informal, multi-purpose spaces.
- 5.27. The provision of a network of high quality and accessible facilities will contribute to the overall priority for healthier lifestyles in Craven, across all age groups. Facilitating opportunities to be more physically active, more often is also important, to contribute to a reduction in health inequalities across Craven, and help people to live and age better, because they are more active.
- 5.28. In order to realise the above Vision and Aims for sport and leisure facility provision in Craven there are a number of key priorities that need to be addressed, and implemented. These are set out below in the Action Plan, based on the recommendations for future provision.

RECOMMENDATIONS

RECOMMENDATION 1 (R1)

The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, including the retention and increase of water space in Settle £5m and new or fully refurbished sports hall at Sandylands Sports Centre (£1.2m).

RECOMMENDATION 2 (R2)

CDC identifies the level of capital funding required to address the identified investment needs circa £7.5 – £8.7million, and seeks to secure S106 contributions and adoption of CIL to secure investment for the identified needs

RECOMMENDATION 3 (R3)

CDC adopts the suggested sub area approach to provision of participation opportunities through formal and informal facilities and facilitates and enables this local approach in partnership working driven by increased investment in sports facilities.

RECOMMENDATION 4 (R4)

It is recommended that the pool and sports hall on the former Malsis school site are closed – surplus to requirements.

RECOMMENDATION 5 (R5)

South Craven School is developed as a key community accessible sports facility; improvements to the tennis courts and pitches should progress, and the sports hall capacity be maximised for use by local clubs.

RECOMMENDATION 6 (R6)

CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community access (pay and play usage as a priority).

RECOMMENDATION 7 (R7)

Further work is undertaken to assess the business case for the development of improved tennis and multi-sport facilities at Sandylands Sports centre. £1m

RECOMMENDATION 8 (R8)

Further work is undertaken to develop the business case for investment in, and development of a closed circuit cycling track, and the future development of bowls facilities. £1m

Part V: Open Space, Playing Pitch and Sports Facility Annual Progress
Report on Delivery Summer 2017

Craven District: Open Space, Playing Pitch and Sports Facility Annual Progress Report on Delivery – Summer 2017

Introduction

In March 2016 the Council approved the Craven District Open Space, Built facility and Playing Pitch Assessment and Strategy. The work produced a set of specific site recommendations and policy or service recommendations that were set out in Action plans for each of the 3 study area sections. A total of 57 actions were included in these plans along with a short, medium or long term timeframe.

The action plans set out who is the lead organisation for implementing the recommendations including site owners, sports clubs, developers, Parish/Town Council or District Council. In order to ensure that the evidence base remains up to date and robust as highlighted below, under the National Context, the Council will ensure that an annual update of progress against the action plans is done.

National Context

The National Planning Policy Framework (NPPF) sets out the requirement of local authorities to establish and provide adequate and proper leisure facilities to meet local needs. Paragraphs 73 and 74 outline the planning policies for the provision and protection of sport and recreation facilities.

- *“Access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision is required”.*
- *‘Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:*
- *An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or*
- *The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or*
- *The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.”*

Proposed Annual Update

The Sport England guidance for both Playing Pitches and Sports Facilities clearly sets out that there should be an annual progress of delivery and a review of the evidence base every 3 years. The Open Space report states that the plan must be actively implemented and regularly reviewed with the “Progress to Date” and “Review Date” sections of the actions plans for the Council to self-monitor progress and record this. For consistency the Council will apply this Progress to Date across each of the 3 areas of work. The action plan tables below show this and record the progress to date for works done up to May 2017.

Craven District Council will circulate the report as an update to: the steering group; relevant local networks such as Parish/Town Councils; internal management structures and relevant Council committees and sub committees for information.

Built Facility Action plan and Progress to Date.

Playing Pitch Recommendation Action plan and Progress to Date

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Bentham Sports Field	Foot-1	The pitch was identified as having issues with weeds that need to be addressed. The local community also has aspirations to improve the ancillary facility.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Work with the FA to undertake a feasibility study to upgrade the existing clubhouse	Bentham Football Club and PFA FA CDC	FA support for maintenance training and equipment. Volunteer time or Consultant to undertake feasibility study	1. Short 2. Long Low Priority	1 – The West Riding FA have piloted such a scheme and awaiting how this might roll out across the region. 2 – No Progress The BPFA are struggling to sustain the site due to limited use
Bradley Cricket Club	Foot-2	The playing pitches are rated as poor with moderate sloping and drainage issues.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	Bradley AFC and Parish Council FA CDC	Volunteer time to apply for FF or Sport England Small Grants Funding. FA funding for maintenance training.	Short Low Priority	1 – as above
	Crick-1	The club has identified a requirement for additional training facilities. They require additional grass wickets to allow teams to practice on the edge of the square	1. Undertake agronomist study to confirm the square has capacity for additional pitches 2. Use ECB small grants to fund additional strips at the edge of square	Bradley Cricket Club and Parish Council YCB ECB	YCB time to confirm space for development. ECB funding for agronomist installation work	Short Low Priority	1 & 2 – Football pitch moved slightly closer to wicket so no room now for extra non turf wicket. Cricket Club have report on drainage and working up solution to this to improve links to the football pitch drains
Bridge End Ground	Foot-3	This is one of the highest quality football sites in the district however the ancillary facilities are in need of improvement.	1. Undertake a feasibility study for a new ancillary facility, with a view to replacing the current building with a high quality, fit-for purpose facility	Settle United FC FA CDC	Volunteer time or Consultant to manage feasibility study	Medium to Long Med Priority	Settle Juniors have developed refurbished ancillary accommodation after feasibility over re-use of Settle Middle School buildings. New clubhouse and changing to serve middle school pitches
Burton In Lonsdale Sports And	Foot-4	The pitch was rated as standard but suffers from drainage issues and a sloping pitch. An improved	1. Undertake a pitch assessment to identify the drainage solution and improvements needed	Parish Council AFC Burton	Volunteer time and agronomist costs to	Medium Low Priority	No progress as Burton FC has folded and action not relevant with no team.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Recreation Field		maintenance programme is required to improve the overall standard and increase the carrying capacity of the current pitch.	2 -Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	FA CDC	Undertake feasibility study.		
Cononley Sports Club	Foot-5	The site suffers from drainage issues and moles. The club is currently looking to extend the pitch in order to reduce the over marking with the cricket pitch	1. Undertake a feasibility study for moving the pitch off the cricket square 2. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 3. If floodlights are installed at South Craven, secure a long-term community access by way of S106 CUA	Cononley Sports Club FC CDC FA	Volunteer time and consultancy costs to undertake a feasibility study. FA support for maintenance training and equipment. Officer time to negotiate S106	Short Med Priority	1 – No progress on this other than identified in Connonley Mill planning application as need. Await progress of planning application and any planning gain. 2 – as above – line 1
	Crick-2	The club would benefit from enhanced draining as it often floods following heavy rain	1. Use a qualified agronomist to undertake a study and recommend an improvement strategy to reduce flooding	CDC YCB	Funding for agronomist report	Short Med Priority	1 – no progress on this other than identified above re Connonley Mill planning
Cowling Sports Club	Crick-3	The club requires additional training facilities to satisfy demand for training at peak times	1. Install non-turf pitch permanent net facility at the sports club	Cowling Sports Club ECB CDC	Shared funding between club and ECB small grants	Medium Low Priority	Club has progressed wicket covers with Grant funding and support from CDC. Considering the non-turf pitch plans
Embsay Sports Field	Foot-6	The site was rated as poor during the assessment and is not fit-for-purpose for a growing and ambitious club. There is currently significant demand for youth football, all of which is supplied by Skipton Academy. It would be beneficial to have as much football as possible	1. Transfer the existing adult football pitch and additional land to the ownership of the club and use additional planning gain and grant funds to improve the quality and carrying capacity of the adult pitch, as well as developing a new 9v9 pitch on the site. 2. Work with the FA and CDC to fund and develop a equipment bank for	Embsay Football Club CDC FA	Volunteer and Officer time to project manage ownership transfer. Developer to carry out Feasibility report and partnership	Short High Priority	1 – Agreed with land owner and developer via housing planning scheme but awaiting progress on the implementation of this. Senior team has folded 2 – as above line 1

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		undertaken at the home ground.	maintenance machinery and benefit from additional maintenance training, to be supported by the FA		to implement. FA support for maintenance training and equipment.		
Gargrave Sports Field	Foot-7	This site was identified as having drainage issues and a poor ancillary facility, which are not fit for purpose for competitive football.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Refurbish the ancillary accommodation for cricket use	Gargrave FC FA CDC	Officer time and consultancy costs to undertake feasibility study. Long-term costs for ancillary refurb.	Medium Long Term for Clubhouse Low Priority	1 – As above line 1. Just juniors using the football pitch this season so club feels adequate. 2 – Ongoing and clubhouse ok at present. Shall await outcome of planning application and potential planning gain for site.
Giggleswick School	Foot-8	The schools is currently planning to develop a Rugby 3G floodlit AGP, which could benefit local clubs – See below	1. Support the development at Giggleswick School and secure training slots for nearby football clubs at peak time if viable	FA CDC	FA and CDC time during planning phases	Medium Med Priority	Need to await below action
	Rug-1	The school is currently looking to develop a full size World Rugby 22 3G pitch, which would have a formal community use agreement for peak hours. Wharfedale RUFC and North Ribblesdale RUFC have stated that their facility supply does not meet the current or future demand and this development would address part of that lack of capacity.	1. Support the development of a World Rugby 22 AGP, emphasising the importance of making the pitch as large as possible 2. Seek long-term agreements with North Ribblesdale RUFC, Wharfedale RUFC and Leeds Carnegie, for the use of the facilities for training and matches 3. Work with the FA to balance the demand for rugby with football use where required	Giggleswick School RFC CDC North Rib RUFC Wharfedale RUFC	Giggleswick and RFU for part funding. CDC officer time to negotiate fair usage schedule	Medium High Priority	1 – Scheme has been worked up and awaiting next stage of planning application.
	Hock-1	The school is currently used by Settle Hockey Club, who play informal hockey on a Sunday morning and enjoy high and	1. Continue to support Settle Hockey club, using their model as a case study for increasing participation in other parts of the UK	England Hockey Giggleswick School	None	Short High Priority	Club continues to use the pitch

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead= Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		consistent participation		Settle HC			
Grove Park (North Rib RUFC)	Rug-2	The site requires improved maintenance programmes on both pitches, in order to improve the long-term sustainability of the pitches. 2 nd pitch needs full pitch improvement works of leveling and drainage The current supply of two pitches does not satisfy the demand for rugby at the club, leading to ad hoc use of nearby sites	1. Complete pitch drainage project currently being undertaken as part of the Sport England Pitch Improvement project. 2. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund. 3. Implement the full recommended works for improving the 2 nd pitch with the Sport England and Club funding 4. Support the Giggleswick school development and negotiate appropriate peak time training slots for those players who are willing to travel to the school	North Rib RUFC RFU CDC	Funding and support for maintenance equipment bank.	Short High Priority	1 & 3 - Final stages of this scheme with planning permission being granted and scheme due to start this year. 2 – As above line 1 4 – await School actions
Hellifield Sports Football Club	Foot-9	The ancillary facility is one of the worst in the area and requires full redevelopment. The pitch also requires an improved maintenance programme in order to increase the rating and allow play during periods of poor weather	1. Use potential planning gain available to invest in a new facility and develop the overall provision at the site. 2. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	CDC and Parish Council FA Hellifield Sports FC	Officer time to project manage facility development. FA support for maintenance training and equipment.	Medium Med Priority	1 – Site owners (Skipton Auction Mart) are looking at developing around 5 houses and reinvesting in pitch and clubhouse. No team on site at present. 2 - NA
Ingleton Football and Cricket Field	Crick-4	A requirement has been identified for additional practice facilities. The club would like permanent non-turf practice nets to replace or complement the current non-turf pitch that they use with a temporary net on the square.	1. Install non-turf pitch permanent net facility at the sports club	Ingleton Football and Cricket Club ECB CDC	Shared funding between club and ECB small grants	Medium Low Priority	1 – Club has worked up a scheme and progressing, some local residential objections so on hold.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
(Former) Malsis School	Foot-10	The new owner of this site has aspirations to develop housing on 5Ha of the sites 8Ha of playing fields. Approval granted to build 41 units on approx. 2Ha of playing fields with agreed planning gain investment of £500k into improving the remaining sports facilities on site and a community use agreement. This planning permission was obtained by Malsis School, which are no longer the owners of the site. Several community sports clubs used the site when open as a school but no longer have access to the site. This assessment identifies a clear deficiency of football provision in the south Craven area	<p>1. Developer and Agent to submit planning application for disposal of part of the sites playing fields subject to protection and enhancement of the 3Ha southern area playing fields through a S106 agreement for £1m worth of improvements.</p> <p>2: Developer to produce a fully costed site masterplan and project plan for the protection and enhancement of the residual 3Ha of southern playing fields to include:</p> <p>3. Reconfiguring and improving drainage to provide new football pitches (1 adult, 2 youth and 2 mini-soccer*)</p> <p>4 Developer/Owner to agree full community use of the playing fields for use by Crosshills Cosmos FC, and Sutton FC and consider/negotiate a long term fully maintaining and insuring lease to Sutton FC</p> <p>5. Rationalize the existing pavilions/clubhouses and masterplan to include a new fit for purpose clubhouse and changing rooms to service the southern playing fields and meet clubs needs</p> <p>6. Re-develop the existing sand-based AGP into a small sided 60x40 3G site with floodlighting, to be used for training and mini soccer* matches</p>	Agent and Developer CDC The FA Sutton FC Crosshills Cosmos FC	Officer time to for planning gain negotiation to fund and deliver all action plan items and developer to project manage site development	Short to Medium High Priority	<p>1 – 4: Planning application (32/2016/17097) that includes re-orientation of pitches to create 5 viable grass pitches for the Club: Application approved in Nov 2017 subject to signing of S106 agreement.</p> <p>5 – Developer offering re-use of wooden building for clubhouse with limited capacity for changing etc HAS THESE BEEN AGREED AS PART OF PLANNING APPROVAL? – Await planning application and negotiation with developer. BRUCE – CAN YOU AMEND THIS POINT AS NECESSARY</p> <p>6 – Artificial pitch is being removed to integrate land into grass pitch layout for 5 pitches.</p>
Royd Hill	Crick-5	The club has identified a requirement for a mobile batting	1. Confirm with club their priority development (nets or mobile cage)	Sutton Cricket	Officer time for priority	Medium	1 – awaiting confirmation from club

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		cage so this can be used on prepared pitches at the edge of the square. The club would also benefit from a non-turf pitch to reduce the demand on the grass pitches.	2. Invest in agreed priority, to provide greater training capacity for the club	Club ECB CDC	discussion. Shared funding between club and ECB small grants	Med Priority	2 – pending above decision
Sandylands Grass Pitches	Foot-11	The pitches have been rated as POOR, have insufficient maintenance regimes and have unsafe goal posts. The site is perfectly located, with access to the 3G as well as local transport links, to be developed into a football hub for the area and to provide a high quality set of pitches and ancillary facilities to be used by the local area	1. Work with the ECB and RFU to undertake a feasibility study for the site, looking at the rationalisation of ancillaries and how funding can be utilised to improve the overall quality of grass pitches, through the creation of a 'hub' site with a modern, fit for purpose, multi-sport clubhouse 2. Work with North Yorkshire County Council to use recent Sport England Pitch Improvement funding to improve the quality of the grass pitches 3. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	FA CDC North Yorkshire County Council Sport England ECB RFU	Officer time to manage hub project FA time for strategy planning. FA support for maintenance training and equipment.	Medium High Priority	1 & 2 – the Cricket and Football Clubs have been working up a scheme but Cricket Club has decided to replace their pavilion with much larger clubhouse at concept design stage, football club leading on pitch improvement works and funding for the NYCC pitches as well as reconfigure them. 3 – as above line 1
	Rug-3	These pitches are currently poor in terms of quality. Further investment in the maintenance regime and upkeep is required if they are to be utilised as formal pitches. There is an opportunity to turn this site into a multi-sport hub with shared ancillary facilities	1. Work with the ECB and FA to undertake a feasibility study for the site, looking at the rationalisation of ancillaries and how funding can be utilised to improve the overall quality of grass pitches, through the creation of a 'hub' site. 2. Work with North Yorkshire County Council to use recent Sport England Pitch	RFU CDC North Yorkshire County Council Sport England ECB	Officer time to manage hub project RFU time for strategy planning. RFU funding and support for maintenance equipment bank.	Medium to Long Med Priority	1 – as above 2 - progressing as pitch swap with Skipton CICC and ongoing works with Football club to improve whole ground 3 – as above line 1

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		and improved pitches,	Improvement funding to improve the quality of the grass pitches 3. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund.	FA			
Skipton CI Cricket Club	Crick-6	The club is currently located in close proximity to Skipton Cricket Club however does not share facilities or benefit from the nearby high profile club. The ancillary facility does not make this an attractive place to play cricket. The club is also keen to move the square closer to the current clubhouse.	1. Work with the FA and RFU to develop plans for a combined sports hub site at Sandylands, using shared pavilions and funding pitch improvements across all sports	YCB ECB RFU FA Skipton CI Cricket Club CDC	Officer time to manage hub project. Funding for pitch improvements.	Medium to Long High Priority	Skipton CICC applied for funding to move their wicket and pitch next to clubhouse and asset transfer. As this is club priority. Unsure if club would form part of a whole site hub site?
Skipton Cricket Club	Crick-7	The club does not currently have any non-turf pitches and is therefore forced to train on the grass pitches, which increases demand on an already over-capacity square	1. Undertake a feasibility study for a non-turf pitch to be installed on the square and fund if feasible 2. Work with the FA and RFU to develop plans for a combined sports hub site at Sandylands, using shared pavilions and funding pitch improvements across all sports	Skipton Cricket Club CDC YCB ECB RFU FA	Feasibility study costs for new non-turf pitch. Officer time to manage hub project. Funding for pitch improvements.	Medium to Long High Priority	1 – ongoing 2 – working up plans with football club to propose this scheme, but produced concept design for just going on their land.
Skipton LMS Pitch	Foot-12	The site requires a new clubhouse and ancillary facility, which could then be utilised by the nearby Sandylands pitches. Both pitches are also in need of improved maintenance programmes and investment in	1. New site owner to refine plans for their private on-site development on 1/3 rd of land with remaining pitch space. This must be retained for a high quality full-sized football pitch and fully implemented by way of planning gain agreement. 2. Work collaboratively with the	CDC Skipton LMS Seniors Skipton FC Juniors FA	Officer time to negotiate sports output from planned developments. FA support for maintenance	Short High Priority	1 – Planning application submitted that does not fully accord with this action plan and Sport England exception policies, so objection. Awaiting CDC decision. Land owner has ceased clubs use of the site. LMS Seniors have folded after 80 years and junior club desperate for pitch for 2017/18 season.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		the quality of the provision. A recent acquisition of the site provides opportunity for development and facility improvement.	Sandylands Grass Pitches action to create a fit-for-purpose facility mix across the entire site.		training and equipment.		2 – limited collaborative work on this matter – Cricket Club going on their own with concept design for new clubhouse
Skipton RFC	Rug-4	The club is looking to develop the drainage on the third pitch, having recently undertaken an extensive drainage improvement project on the 2nd pitch. The club will need to improve the maintenance programme to balance the projected growth of the club. The pitches across the site (including Sandylands) cannot be managed efficiently in winter due to the lack of floodlights.	1. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund 2. Install side lighting or invest in temporary floodlighting, to allow flexible training use of all the land at the site 3. Undertake the draining improvement project on the 3rd team pitch	Skipton Rugby Club RFU CDC	RFU funding and support for maintenance equipment bank. RFU funding for lights and drainage improvement	Medium Low Priority	1 – as above line 1 2 – club looking at this in line with recommendation and potential planning gain 3 – awaiting development on this action
Skipton Town FC	Foot-13	The pitch was identified as having a loss of grass cover and issues with worms and weeds. An improved maintenance programme is required in order to develop the pitch, which has the potential to be a high quality site.	1. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	Skipton Town FC FA CDC	Officer time and consultancy costs to undertake feasibility study.	Medium Low Priority	1 – club applied to Football for Pitch Improvement Fund to increase pitch playing quality and playing capacity
South Craven School	Foot-14	The school has a full size 3G but it has no floodlights and therefore has very little community use capacity. Adding floodlights would have a significant positive impact on provision in the area and would provide a large amount of additional football capacity for a relatively small investment	1. Undertake a feasibility study for new floodlights at the site, understanding the current planning issues with local residents. If viable then negotiate increased access for community clubs	FA CDC South Craven School	FA and officer time to negotiate on planning issues. FA funding for floodlights if successful	Short to Medium High Priority	1 – School has submitted planning application for floodlights that include the tennis court area. Lights have no impact upon residents but do not meet sports NGB minimum lighting levels for recreational and training use. School not progressed built facility plans. Reasons unknown.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Sutton Park	Foot-15	The two junior pitches were marked poorly by the site assessor, who identified issues with weeds and poor drainage. This should be improved if the club is projecting growth, as the under-supply will grow in severity. The pitches are heavily used and the club is looking for a new site, potentially at the former Malsis School	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Support development plans for the former Malsis school, with a view to bringing together the most of clubs use onto a single site.	Sutton FC CDC FA	Officer time for planning negotiations. FA support for maintenance training and equipment if staying at current site.	Medium High Priority	1 – as above line 1 2 – as per Malsis School site

The Sport England Guidance on keeping the PPS Strategy robust and up to date includes the following simple annual review tasks:

- How the delivery of the recommendations and action plan has progressed and any changes required to the priority afforded to each action (e.g. the priority of some may increase following the delivery of others)
- How the PPS has been applied and the lessons learnt
- Any changes to particularly important sites and/or clubs in the area (e.g. the most used or high quality sites for a particular sport) and other supply and demand information, what this may mean for the overall assessment work and the key findings and issues
- Any development of a specific sport or particular format of a sport
- Any new or emerging issues and opportunities.

Most of the above points are captured in the action plans “Progress to Date” column. However, there are a couple of issues to highlight and be recorded for steering group approval.

Bentham school playing field provision: At the time of the assessment both the Low Bentham Primary and High Bentham Primary schools had or were closing. Both schools have small mini soccer size pitches that were captured in stage B of the PPS. There was limited or no community use of both sites. The new Bentham Primary school was being built and opened in 2015, which has a new mini soccer pitch and Netball court. This was not captured in the 2015 PPS Stage A and B work and is therefore a missing site in the PPS. The Low Bentham Primary school playing field site has been sold to the Bentham Town Council for the purpose of creating an equipped play area and recreation ground for the community as identified in the Open Space assessment as deficiency and local need. The High Bentham former school site has been **identified as a draft housing allocation in the Pre-Publication Draft Craven Local Plan June 2017, with potential for Extra Care Accommodation**. For the purpose of clarity the facilities at the new Bentham Primary school: Mini Soccer pitch and Netball court: could be considered as a direct replacement of the mini soccer pitch and multi-use games area at High Bentham Primary school. There are two other, multi pitch, playing field sites in Bentham with Cricket and Football provision that, according to the PPS, meet the current and potential future needs of pitch sports in the Community.

Skipton CI Cricket Club Cricket Action Plan Site No 6: this club has moved its cricket wicket to move it closer to their clubhouse to form a better site connection between the two and is therefore a minor addition to the PPS work.

Skipton LMS Pitch Football Action Plan Site No 12: A change of use planning application has been submitted for this site and includes for levelling of the senior pitch and construction of a 180 car parking space on a third of the site. The application is awaiting a CDC decision. The land owner has recently ceased clubs use of the site and the Senior football club has folded. The Junior Club, that have used the site for over 15years, have a need to continue using both the small sided pitch as well as increased use of the full size pitch for the coming season. All relevant steering group members are closely involved in this planning application.

No other sites have new or emerging issues that need to be highlighted.

Part VI: Open Space, Playing Pitch and Sports Facility Annual Progress
Report on Delivery Summer 2019

Craven District: Open Space, Playing Pitch and Sports Facility Annual Progress Report on Delivery – Summer 2019

Introduction

In March 2016 the Council approved the Craven District Open Space, Built facility and Playing Pitch Assessment and Strategy. The work produced a set of specific site recommendations and policy or service recommendations that were set out in Action plans for each of the 3 study area sections. A total of 57 actions were included in these plans along with a short, medium or long term timeframe.

The action plans set out who is the lead organisation for implementing the recommendations including site owners, sports clubs, developers, Parish/Town Council or District Council. In order to ensure that the evidence base remains up to date and robust as highlighted below, under the National Context, the Council will ensure that an annual update of progress against the action plans is done.

National Context

The National Planning Policy Framework (NPPF) sets out the requirement of local authorities to establish and provide adequate and proper leisure facilities to meet local needs. Paragraphs 73 and 74 outline the planning policies for the provision and protection of sport and recreation facilities.

- *“Access to high quality open spaces and opportunities for sport and recreation can make an important contribution to the health and well-being of communities. Planning policies should be based on robust and up to date assessments of the needs for open space, sports and recreation facilities and opportunities for new provision. The assessments should identify specific needs and quantitative or qualitative deficits or surpluses of open space, sports and recreational facilities in the local area. Information gained from the assessments should be used to determine what open space, sports and recreational provision is required”.*
- *‘Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:*
- *An assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or*
- *The loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or*
- *The development is for alternative sports and recreational provision, the needs for which clearly outweigh the loss.”*

Proposed Annual Update

The Sport England guidance for both Playing Pitches and Sports Facilities clearly sets out that there should be an annual progress of delivery and a review of the evidence base every 3 years. The Open Space report states that the plan must be actively implemented and regularly reviewed with the “Progress to Date” and “Review Date” sections of the actions plans for the Council to self-monitor progress and record this. For consistency the Council will apply this Progress to Date across each of the 3 areas of work. The action plan tables below show this and record the progress to date for works done up to August 2019.

Craven District Council will circulate the report as an update to: the steering group; relevant local networks such as Parish/Town Councils; internal management structures and relevant Council committees and sub committees for information. Each action has highlighted text to show headline progress.

Built Facility Action plan and Progress to Date.

RECOMMENDATION	ACTION	LEAD RESPONSIBILITY	TIMESCALE		RESOURCES	PROGRESS TO DATE
			SHORT	= 1 – 3 YEARS		
			MEDIUM	= 3 – 5 YEARS		
			LONG TERM	= 5 – 10 YEARS		
RECOMMENDATION 1 (R1) The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, including the retention and increase of water space in Settle and new or fully refurbished sports hall at Sandylands Sports Centre.	Ensure the need for future swimming provision in Settle and a replacement sports hall in Skipton at Sandylands Sports Centre are reflected in the Local Plan	CDC	SHORT		CDC – planning, leisure officers	COMPLETED LP Policy adopted to achieve this action
	Ensure identified facility needs are reflected in the CIL/S106 funding requirements for the District	CDC	SHORT		CDC – planning, leisure officers New pool in Settle £5m Replacement sports hall at Sandylands Sports Centre £1.2m	COMPLETED LP Policy adopted to achieve this action Sandylands Sports hall was partially refurbished in 2016 due to flooding. Further work required to check the future life of the sports hall Plans for new indoor space with Tennis and Gymnastics centre have been submitted for planning
	Undertake a feasibility study on Settle Pool to assess the options and best solution for future	Settle Swimming Pool	SHORT TO MEDIUM NEW POOL - LONG		CDC officers/External consultants	COMPLETED Full options report carried out by Strategic Leisure for the Pool, which includes a more detailed business case feasibility report on

			LONG TERM	= 5 - 10 YEARS		
	provision on that site					preferred option done. Short term roof issues. Pool opting for front and side extension to refurbish entrance, changing and create extra space for generating income. Pre application completed and grant offer from Sport England.
RECOMMENDATION 2 (R2) CDC identifies the level of capital funding required to address the identified investment needs and seeks to secure S106 contributions and adoption of CIL (possibly in the future) to secure investment for the identified needs	Ensure all identified facility needs are reflected in the CIL/S106 funding requirements for the District	CDC	SHORT TO MEDIUM		CDC – planning, leisure officers Total £7.5m-£8.7m	COMPLETED LP Policy adopted to achieve this action
RECOMMENDATION 3 (R3) CDC adopts the suggested sub area approach to provision of participation opportunities through formal and informal facilities and facilitates and enables this local	Adopt the identified sub area approach to future provision and delivery of leisure facilities and participation opportunities	CDC, local stakeholders / partners	SHORT TO MEDIUM		CDC leisure and planning officers	COMPLETED LP Policy adopted to achieve this action

RECOMMENDATION	ACTION	LEAD RESPONSIBILITY	TIMESCALE		RESOURCES	PROGRESS TO DATE
			SHORT	= 1 - 3 YEARS		
			MEDIUM	= 3 - 5 YEARS		
			LONG TERM	= 5 - 10 YEARS		
approach in partnership working driven by increased investment in sports facilities.						
RECOMMENDATION 4 (R4) It is recommended that the pool and sports hall on the former Malsis school site are closed – surplus to requirements	Confirm that the pool and sports hall on the former Malsis school site are closed, as they are surplus to requirements. (The pool is surplus to requirements given its age and scale as it cannot realistically contribute to the current and future under supply of pool provision in the District).	CDC and Sport England	SHORT		CDC leisure and planning officers; Sport England, Site developer and Agent	Action Complete Planning application on this site (32/2016/17097) for Conversion and restoration of Malsis Hall to create care facility (use class C2) including demolition of existing extensions and construction of new extensions, upgrading and re-opening of former sports facilities and residential development of 67 dwellings within grounds (including conversion of listed lodge building to dwelling house). Application approved in Nov 2017 signed S106 agreement and works underway.
RECOMMENDATION 5 (R5) South Craven School is developed as a key community accessible sports facility; improvements to the tennis courts and pitches should	Confirm South Craven as a key multi-sport hub for the District	South Craven School; facility operators	SHORT TO MEDIUM		CDC leisure and planning officers; South Craven School; facility operators	Limited progress to date . Also PPS action linked to this. Planning permission for Air dome expired. No progress in 2019

RECOMMENDATION	ACTION	LEAD RESPONSIBILITY	TIMESCALE		RESOURCES	PROGRESS TO DATE
			SHORT	= 1 - 3 YEARS		
			MEDIUM	= 3 - 5 YEARS		
			LONG TERM	= 5 - 10 YEARS		
progress, and the sports hall capacity be maximised for use by local clubs.	Support the School in its plans to develop improved tennis courts and pitches on site	South Craven School; facility operators	SHORT TO MEDIUM		CDC leisure and planning officers; South Craven School; facility operators	Limited progress in 2019 Academy applied for Planning for flood lights on 3G pitch and outdoor tennis courts. Lights failed to meet min NGB standards, but were approved by CDC. Therefore no NGB grants eligible. Also PPS action linked to this. No progress in 2019
	Work with the School and facility operators to extend capacity for community use of the sports facilities at the School, and develop a secure community use agreement for the site.	South Craven School; facility operators ; Sport England, NYCC	SHORT TO MEDIUM		CDC; South Craven School; facility operators; Sport England, NYCC	Limited progress in 2019 Limited work with facility operator as commercial company. No ability by the Council to secure CUA as academy did not upgrade lights to meet min NGB standards and so no grant or ability to secure CUA. No progress in 2019
RECOMMENDATION 6 (R6) CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community	Develop a partnership approach to discussions with NYCC, existing, and all new secondary schools to develop formal community use agreements for on-site sports facilities.	CDC to initiate	ONGOING		CDC leisure and planning officers, NYCC, Sport England	Limited progress in 2019 All schools have LEA hire agreements in place and charging scheme. A range of community use groups use school facilities. Play and pay element has not been discussed and investigated. No progress in 2019

Playing Pitch Recommendation Action plan and Progress to Date

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Bentham Sports Field	Foot-1	The pitch was identified as having issues with weeds that need to be addressed. The local community also has aspirations to improve the ancillary facility.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Work with the FA to undertake a feasibility study to upgrade the existing clubhouse	Bentham Football Club and PFA FA CDC	FA support for maintenance training and equipment. Volunteer time or Consultant to undertake feasibility study	1. Short 2. Long Low Priority	2019 - No Teams at this site, limited progress. 1 – The West Riding FA have piloted such a scheme and awaiting how this might roll out across the region. 2 – New Group at Bentham PFA leading on site development and outline options for clubhouse carried out in spring 2018 2019 – new PFA members leading on developing the site and use after community consultation
Bradley Cricket Club	Foot-2	The playing pitches are rated as poor with moderate sloping and drainage issues.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	Bradley AFC and Parish Council FA CDC	Volunteer time to apply for FF or Sport England Small Grants Funding. FA funding for maintenance training.	Short Low Priority	1 – as above
	Crick-1	The club has identified a requirement for additional training facilities. They require additional grass wickets to allow teams to practice on the edge of the square	1. Undertake agronomist study to confirm the square has capacity for additional pitches 2. Use ECB small grants to fund additional strips at the edge of square	Bradley Cricket Club and Parish Council YCB ECB	YCB time to confirm space for development. ECB funding for agronomist installation work	Short Low Priority	Limited progress 1 & 2 – Football pitch moved slightly closer to wicket so no room now for extra non turf wicket. Cricket Club have report on drainage and working up solution to this to improve links to the football pitch drains
Bridge End Ground	Foot-3	This is one of the highest quality football sites in the district however the ancillary facilities are in need of improvement.	1. Undertake a feasibility study for a new ancillary facility, with a view to replacing the current building with a high quality, fit-for purpose facility	Settle United FC FA CDC	Volunteer time or Consultant to manage feasibility study	Medium to Long Med Priority	Some progress Settle Utd FC have plans drawn up to improve facilities to meet current and future demand – costs ca £130k Lots of in kind support from Club members and some club funds for this but will need some external funding.
Burton In Lonsdale Sports And	Foot-4	The pitch was rated as standard but suffers from drainage issues and a sloping pitch. An improved	1. Undertake a pitch assessment to identify the drainage solution and	Parish Council AFC Burton	Volunteer time and agronomist costs to	Medium Low Priority	No progress as Burton FC has folded and action not relevant with no team.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Recreation Field		maintenance programme is required to improve the overall standard and increase the carrying capacity of the current pitch.	2 -Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	FA CDC	Undertake feasibility study.		
Cononley Sports Club	Foot-5	The site suffers from drainage issues and moles. The club is currently looking to extend the pitch in order to reduce the over marking with the cricket pitch	1. Undertake a feasibility study for moving the pitch off the cricket square 2.Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 3. If floodlights are installed at South Craven, secure a long-term community access by way of S106 CUA	Cononley Sports Club FC CDC FA	Volunteer time and consultancy costs to undertake a feasibility study. FA support for maintenance training and equipment. Officer time to negotiate S106	Short Med Priority	Good progress 1 –Cononley Mill planning application has secured £228k of planning gain. Initiated work with club about this site triggered by planning gain resource. Club has worked up list of projects for the planning gain 2 – as above – line 1 3 – No CUA and cost of astro is prohibitive to clubs so they go to Skipton
	Crick-2	The club would benefit from enhanced draining as it often floods following heavy rain	1. Use a qualified agronomist to undertake a study and recommend an improvement strategy to reduce flooding	CDC YCB	Funding for agronomist report	Short Med Priority	1 – progress on this with Sports Club linked to above Cononley Mill planning gain
Cowling Sports Club	Crick-3	The club requires additional training facilities to satisfy demand for training at peak times	1. Install non-turf pitch permanent net facility at the sports club	Cowling Sports Club ECB CDC	Shared funding between club and ECB small grants	Medium Low Priority	Some progress Club has progressed wicket covers with Grant funding and support from CDC. Considering the non-turf pitch plans
Embsay Sports Field	Foot-6	The site was rated as poor during the assessment and is not fit-for-purpose for a growing and ambitious club. There is currently significant demand for youth football, all of which is supplied by Skipton Academy. It would be beneficial to have as much football as possible	1. Transfer the existing adult football pitch and additional land to the ownership of the club and use additional planning gain and grant funds to improve the quality and carrying capacity of the adult pitch, as well as developing a new 9v9 pitch on the site. 2. Work with the FA and CDC to fund and develop a equipment bank for	Embsay Football Club CDC FA	Volunteer and Officer time to project manage ownership transfer. Developer to carry out Feasibility report and partnership	Short High Priority	Good progress 1 – Agreed with land owner and developer via housing planning scheme but awaiting progress on the implementation of this. Senior team has folded Housing scheme started and club to progress scheme to planning. 2 – as above line 1

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		undertaken at the home ground.	maintenance machinery and benefit from additional maintenance training, to be supported by the FA		to implement. FA support for maintenance training and equipment.		
Gargrave Sports Field	Foot-7	This site was identified as having drainage issues and a poor ancillary facility, which are not fit for purpose for competitive football.	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Refurbish the ancillary accommodation for cricket use	Gargrave FC FA CDC	Officer time and consultancy costs to undertake feasibility study. Long-term costs for ancillary refurb.	Medium Long Term for Clubhouse Low Priority	Limited progress 1 – As above line 1. Just juniors using the football pitch this season so club feels adequate. 2 – Ongoing and clubhouse ok at present.
Giggleswick School	Foot-8	The schools is currently planning to develop a Rugby 3G floodlit AGP, which could benefit local clubs – See below	1. Support the development at Giggleswick School and secure training slots for nearby football clubs at peak time if viable	FA CDC	FA and CDC time during planning phases	Medium Med Priority	Limited progress Need to await below action
	Rug-1	The school is currently looking to develop a full size World Rugby 22 3G pitch, which would have a formal community use agreement for peak hours. Wharfedale RUFC and North Ribblesdale RUFC have stated that their facility supply does not meet the current or future demand and this development would address part of that lack of capacity.	1. Support the development of a World Rugby 22 AGP, emphasising the importance of making the pitch as large as possible 2. Seek long-term agreements with North Ribblesdale RUFC, Wharfedale RUFC and Leeds Carnegie, for the use of the facilities for training and matches 3. Work with the FA to balance the demand for rugby with football use where required	Giggleswick School RFC CDC North Rib RUFC Wharfedale RUFC	Giggleswick and RFU for part funding. CDC officer time to negotiate fair usage schedule	Medium High Priority	1 – Scheme has been worked up and awaiting next stage of planning application.
	Hock-1	The school is currently used by Settle Hockey Club, who play informal hockey on a Sunday morning and enjoy high and	1. Continue to support Settle Hockey club, using their model as a case study for increasing participation in other parts of the UK	England Hockey Giggleswick School	None	Short High Priority	Club continues to use the pitch. Pitch carpet replaced May 2019

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		consistent participation		Settle HC			
Grove Park (North Rib RUFC)	Rug-2	The site requires improved maintenance programmes on both pitches, in order to improve the long-term sustainability of the pitches. 2 nd pitch needs full pitch improvement works of leveling and drainage The current supply of two pitches does not satisfy the demand for rugby at the club, leading to ad hoc use of nearby sites	1. Complete pitch drainage project currently being undertaken as part of the Sport England Pitch Improvement project. 2. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund. 3. Implement the full recommended works for improving the 2 nd pitch with the Sport England and Club funding 4. Support the Giggleswick school development and negotiate appropriate peak time training slots for those players who are willing to travel to the school	North Rib RUFC RFU CDC	Funding and support for maintenance equipment bank.	Short High Priority	Good progress 1 & 3 – Pitch works complete and into establishment period. 2 – As above line 1 4 – await School actions Club has identified clubhouse extension is their next priority to cater for womens teams to have separate changing spaces and a small gym
Hellifield Sports Football Club	Foot-9	The ancillary facility is one of the worst in the area and requires full redevelopment. The pitch also requires an improved maintenance programme in order to increase the rating and allow play during periods of poor weather	1. Use potential planning gain available to invest in a new facility and develop the overall provision at the site. 2. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	CDC and Parish Council FA Hellifield Sports FC	Officer time to project manage facility development. FA support for maintenance training and equipment.	Medium Med Priority	Some progress 1 – Site owners (Skipton Auction Mart) applied for 8 units on site and reinvesting in new pitch and clubhouse. New team on site for 2018 season, no team in 2019. 2 – Await outcome of planning application as site owner may be required to do this.
Ingleton Football and Cricket Field	Crick-4	A requirement has been identified for additional practice facilities. The club would like permanent non-turf practice nets to replace or complement the current non-turf pitch that they use with a temporary net on the square.	1. Install non-turf pitch permanent net facility at the sports club	Ingleton Football and Cricket Club ECB CDC	Shared funding between club and ECB small grants	Medium Low Priority	Limited progress 1 – Club has worked up a scheme and progressing, some local residential objections so on hold.

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
(Former) Malsis School	Foot-10	The new owner of this site has aspirations to develop housing on 5Ha of the sites 8Ha of playing fields. Approval granted to build 41 units on approx. 2Ha of playing fields with agreed planning gain investment of £500k into improving the remaining sports facilities on site and a community use agreement. This planning permission was obtained by Malsis School, which are no longer the owners of the site. Several community sports clubs used the site when open as a school but no longer have access to the site. This assessment identifies a clear deficiency of football provision in the south Craven area	<p>1. Developer and Agent to submit planning application for disposal of part of the sites playing fields subject to protection and enhancement of the 3Ha southern area playing fields through a S106 agreement for £1m worth of improvements.</p> <p>2. Developer to produce a fully costed site masterplan and project plan for the protection and enhancement of the residual 3Ha of southern playing fields to include:</p> <p>3. Reconfiguring and improving drainage to provide new football pitches (1 adult, 2 youth and 2 mini-soccer*)</p> <p>4 Developer/Owner to agree full community use of the playing fields for use by Crosshills Cosmos FC, and Sutton FC and consider/negotiate a long term fully maintaining and insuring lease to Sutton FC</p> <p>5. Rationalize the existing pavilions/clubhouses and masterplan to include a new fit for purpose clubhouse and changing rooms to service the southern playing fields and meet clubs needs</p> <p>6. Re-develop the existing sand-based AGP into a small sided 60x40 3G site with floodlighting, to be used for training and mini soccer* matches</p>	Agent and Developer CDC The FA Sutton FC Crosshills Cosmos FC	Officer time to for planning gain negotiation to fund and deliver all action plan items and developer to project manage site development	Short to Medium High Priority	<p>ACTION COMPLETE</p> <p>1 – 4: Planning application (32/2016/17097) that includes re-orientation of pitches to create 5 viable grass pitches for the Club: Application approved in Nov 2017, S106 agreement in place and works on pitches carried out summer / Autumn 2018 – Pitched and Club house complete Sept 2019.</p> <p>5 – New internal layout for wooden building for clubhouse being worked up with club ready to meet Condition on planning permission.</p> <p>6 – Artificial pitch is being removed to integrate land into grass pitch layout for 5 pitches.</p>
Royd Hill	Crick-5	The club has identified a requirement for a mobile batting	1. Confirm with club their priority development (nets or mobile cage)	Sutton Cricket	Officer time for priority	Medium	1 – awaiting confirmation from club

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		cage so this can be used on prepared pitches at the edge of the square. The club would also benefit from a non-turf pitch to reduce the demand on the grass pitches.	2. Invest in agreed priority, to provide greater training capacity for the club	Club ECB CDC	discussion. Shared funding between club and ECB small grants	Med Priority	2 – pending above decision
Sandylands Grass Pitches	Foot-11	The pitches have been rated as POOR, have insufficient maintenance regimes and have unsafe goal posts. The site is perfectly located, with access to the 3G as well as local transport links, to be developed into a football hub for the area and to provide a high quality set of pitches and ancillary facilities to be used by the local area	1. Work with the ECB and RFU to undertake a feasibility study for the site, looking at the rationalisation of ancillaries and how funding can be utilised to improve the overall quality of grass pitches, through the creation of a 'hub' site with a modern, fit for purpose, multi-sport clubhouse 2. Work with North Yorkshire County Council to use recent Sport England Pitch Improvement funding to improve the quality of the grass pitches 3. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	FA CDC North Yorkshire County Council Sport England ECB RFU	Officer time to manage hub project FA time for strategy planning. FA support for maintenance training and equipment.	Medium High Priority	Some progress 1 & 2 – the Cricket and Football Clubs have worked together and secured planning permission for new multi sports Clubhouse, Football club leading on pitch improvement works following pitch assessment report. Potential funding for the NYCC pitches as well as reconfigure them. Multi agency meeting with NYCC in Oct 19 to facilitating this. 3 – as above line 1
	Rug-3	These pitches are currently poor in terms of quality. Further investment in the maintenance regime and upkeep is required if they are to be utilised as formal pitches. There is an opportunity to turn this site into a multi-sport hub with shared ancillary facilities	1. Work with the ECB and FA to undertake a feasibility study for the site, looking at the rationalisation of ancillaries and how funding can be utilised to improve the overall quality of grass pitches, through the creation of a 'hub' site. 2. Work with North Yorkshire County Council to use recent Sport England Pitch	RFU CDC North Yorkshire County Council Sport England ECB	Officer time to manage hub project RFU time for strategy planning. RFU funding and support for maintenance equipment bank.	Medium to Long Med Priority	Some progress 1 – as above 2 - progressing as pitch swap with Skipton CICC and ongoing works with Football club to improve whole ground 3 – as above line 1

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		and improved pitches,	Improvement funding to improve the quality of the grass pitches 3. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund.	FA			
Skipton CI Cricket Club	Crick-6	The club is currently located in close proximity to Skipton Cricket Club however does not share facilities or benefit from the nearby high profile club. The ancillary facility does not make this an attractive place to play cricket. The club is also keen to move the square closer to the current clubhouse.	1. Work with the FA and RFU to develop plans for a combined sports hub site at Sandylands, using shared pavilions and funding pitch improvements across all sports	YCB ECB RFU FA Skipton CI Cricket Club CDC	Officer time to manage hub project. Funding for pitch improvements.	Medium to Long High Priority	Good progress Skipton CICC moved their wicket and pitch next to clubhouse and secured long lease for site as this is club priority. Site now fenced off and club continuing to manage their site well.
Skipton Cricket Club	Crick-7	The club does not currently have any non-turf pitches and is therefore forced to train on the grass pitches, which increases demand on an already over-capacity square	1. Undertake a feasibility study for a non-turf pitch to be installed on the square and fund if feasible 2. Work with the FA and RFU to develop plans for a combined sports hub site at Sandylands, using shared pavilions and funding pitch improvements across all sports	Skipton Cricket Club CDC YCB ECB RFU FA	Feasibility study costs for new non-turf pitch. Officer time to manage hub project. Funding for pitch improvements.	Medium to Long High Priority	Good progress 1 – ongoing 2 – Planning permission secured and now working up finances on how to deliver the scheme. Costs coming in at around £1m. The £330k from Burnside housing development notionally allocated to support this – see R8 action above.
Skipton LMS Pitch	Foot-12	The site requires a new clubhouse and ancillary facility, which could then be utilised by the nearby Sandylands pitches. Both pitches are also in need of improved maintenance programmes and investment in	1. New site owner to refine plans for their private on-site development on 1/3 rd of land with remaining pitch space. This must be retained for a high quality full-sized football pitch and fully implemented by way of planning gain agreement. 2. Work collaboratively with the	CDC Skipton LMS Seniors Skipton FC Juniors FA	Officer time to negotiate sports output from planned developments. FA support for maintenance	Short High Priority	Limited progress 1 – Planning application withdrawn. Skipton juniors using pitch for youth matches. Owner considering their options such as 3G solution on site

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead= Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
		the quality of the provision. A recent acquisition of the site provides opportunity for development and facility improvement.	Sandylands Grass Pitches action to create a fit-for-purpose facility mix across the entire site.		training and equipment.		2 – limited collaborative work on this matter – Cricket Club going on their own with PP secured for new clubhouse
Skipton RFC	Rug-4	The club is looking to develop the drainage on the third pitch, having recently undertaken an extensive drainage improvement project on the 2nd pitch. The club will need to improve the maintenance programme to balance the projected growth of the club. The pitches across the site (including Sandylands) cannot be managed efficiently in winter due to the lack of floodlights.	1. Develop and use a maintenance equipment bank, shared with the other clubs in the district and funded from sources such as the Sport England Pitch Improvement Fund 2. Install side lighting or invest in temporary floodlighting, to allow flexible training use of all the land at the site 3. Undertake the draining improvement project on the 3rd team pitch	Skipton Rugby Club RFU CDC	RFU funding and support for maintenance equipment bank. RFU funding for lights and drainage improvement	Medium Low Priority	Limited progress 1 – as above line 1 2 – club looking at this in line with recommendation and potential planning gain 3 – awaiting development on this action Club has invested in new lift at clubhouse with some planning gain to improve access to clubhouse
Skipton Town FC	Foot-13	The pitch was identified as having a loss of grass cover and issues with worms and weeds. An improved maintenance programme is required in order to develop the pitch, which has the potential to be a high quality site.	1. Work with the FA and CDC to fund and develop a equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA	Skipton Town FC FA CDC	Officer time and consultancy costs to undertake feasibility study.	Medium Low Priority	Good progress 1 – club applied to Football for Pitch Improvement Fund to increase pitch playing quality and playing capacity Club working up club development plan
South Craven School	Foot-14	The school has a full size 3G but it has no floodlights and therefore has very little community use capacity. Adding floodlights would have a significant positive impact on provision in the area and would provide a large amount of additional football capacity for a relatively small investment	1. Undertake a feasibility study for new floodlights at the site, understanding the current planning issues with local residents. If viable then negotiate increased access for community clubs	FA CDC South Craven School	FA and officer time to negotiate on planning issues. FA funding for floodlights if successful	Short to Medium High Priority	Limited progress 1 – School secured planning application for floodlights that include the tennis court area. Lights have no impact upon residents but do not meet sports NGB minimum lighting levels for recreational and training use. Air dome built facility planning permission now expired..

Site	Action ID	Issue / opportunity to be addressed	Key Action(s) Numbering indicates order of preference	Partners (Lead=Bold) Supporting partners	Resource Implications and potential sources of resourcing	Timescale & Priority – Sh: 1–3 yrs Med: 3-5 yrs Lng	Progress to Date
Sutton Park	Foot-15	The two junior pitches were marked poorly by the site assessor, who identified issues with weeds and poor drainage. This should be improved if the club is projecting growth, as the under-supply will grow in severity. The pitches are heavily used and the club is looking for a new site, potentially at the former Malsis School	1. Work with the FA and CDC to fund and develop an equipment bank for maintenance machinery and benefit from additional maintenance training, to be supported by the FA 2. Support development plans for the former Malsis school, with a view to bringing together the most of clubs use onto a single site.	Sutton FC CDC FA	Officer time for planning negotiations. FA support for maintenance training and equipment if staying at current site.	Medium High Priority	Limited progress 1 – as above line 1 2 – as per Malsis School site

The Sport England Guidance on keeping the PPS Strategy robust and up to date includes the following simple annual review tasks:

- How the delivery of the recommendations and action plan has progressed and any changes required to the priority afforded to each action (e.g. the priority of some may increase following the delivery of others) -
Some priorities have drifted due to lack of resources whereas some have progressed well. Often the progress is linked to the club's capacity or the progress of planning gain as a key driver for leveraging the action.
- How the PPS has been applied and the lessons learnt?
Lessons are shared between projects so as to ensure learning and pitfalls or opportunities are addressed. NGB's also input around lessons from other similar projects. Benchmarking is also done with other schemes outside Craven such as planning gain agreements. Also share progress with other District LA's in North Yorkshire.
- Any changes to particularly important sites and/or clubs in the area (e.g. the most used or high quality sites for a particular sport) and other supply and demand information, what this may mean for the overall assessment work and the key findings and issues
As set out in the above progress to date column or key issue sites below.
- Any development of a specific sport or particular format of a sport
Walking football has been growing and demand has been catered for at existing sites
- Any new or emerging issues and opportunities.
North Ribblesdale RUFC have plans to expand their clubhouse to cater for growing female game

Most of the above points are captured in the action plans "Progress to Date" column. However, there are a couple of issues to highlight and be recorded for steering group approval.

Skipton CI Cricket Club Cricket Action Plan Site No 6: this club has moved its cricket wicket to move it closer to their clubhouse to form a better site connection between the two and is therefore a minor addition to the PPS work.

Hellifield Sports Football Club Foot-9: planning applications have been submitted for this site for houses with a planning gain commitment for new clubhouse and new pitches to compensate for the loss of playing field space. Key challenge is that there is no club at this site, partially due to the poor quality facilities. Await outcome of planning application.

Skipton LMS Pitch Football Action Plan Site No 12: The change of use planning application has been on hold for this site after continued objection from Sport England. . All relevant steering group members are closely involved in this planning application. Potential solution being investigated with NYCC and Skipton Juniors FC for having a 4G pitch on the NYCC land to compensate for the loss of the car park land.

No other sites have new or emerging issues that need to be highlighted.

1. Introduction

- 1.1 Craven District Council commissioned Strategic Leisure to prepare a Built Sports Facilities Strategy (2015-2032), to inform the preparation of the Craven Local Plan, which was adopted by the Council in November 2019. This strategy was completed and accepted into the Council's local plan evidence base in February 2016.
- 1.2 In order to review and keep the 2016 Built Sports Facilities Strategy up to date, in line with national guidance, Craven District Council have prepared and published progress reports on the delivery of the strategy in 2017 and 2019 and specifically in relation to the action plan included in the strategy.
- 1.3 It should be noted that due to the impact of the COVID pandemic on the use of built sports facilities and that following the pandemic the Council focused on refreshing the 2016 Playing Pitch Strategy. To ensure that the evidence base remains up to date and robust the Council has prepared this progress report to reflect an updated picture of delivery of the strategy and action plan at year end 2022-2023. This work provides updated evidence to be used in the implementation of the adopted Craven Local Plan Policy.
- 1.4 In preparing the progress report Para 98 of the [National Planning Policy Framework 2021 \(NPPF\)](#), [National Planning Practice Guidance \(NPPG\)](#) and Sport England (SE) document titled '[Assessing needs and opportunities guide for indoor and outdoor sports facilities: How to undertake and apply needs assessments for sports facilities](#)' in 2014 (known as ANOG) has been used for reference and guidance.

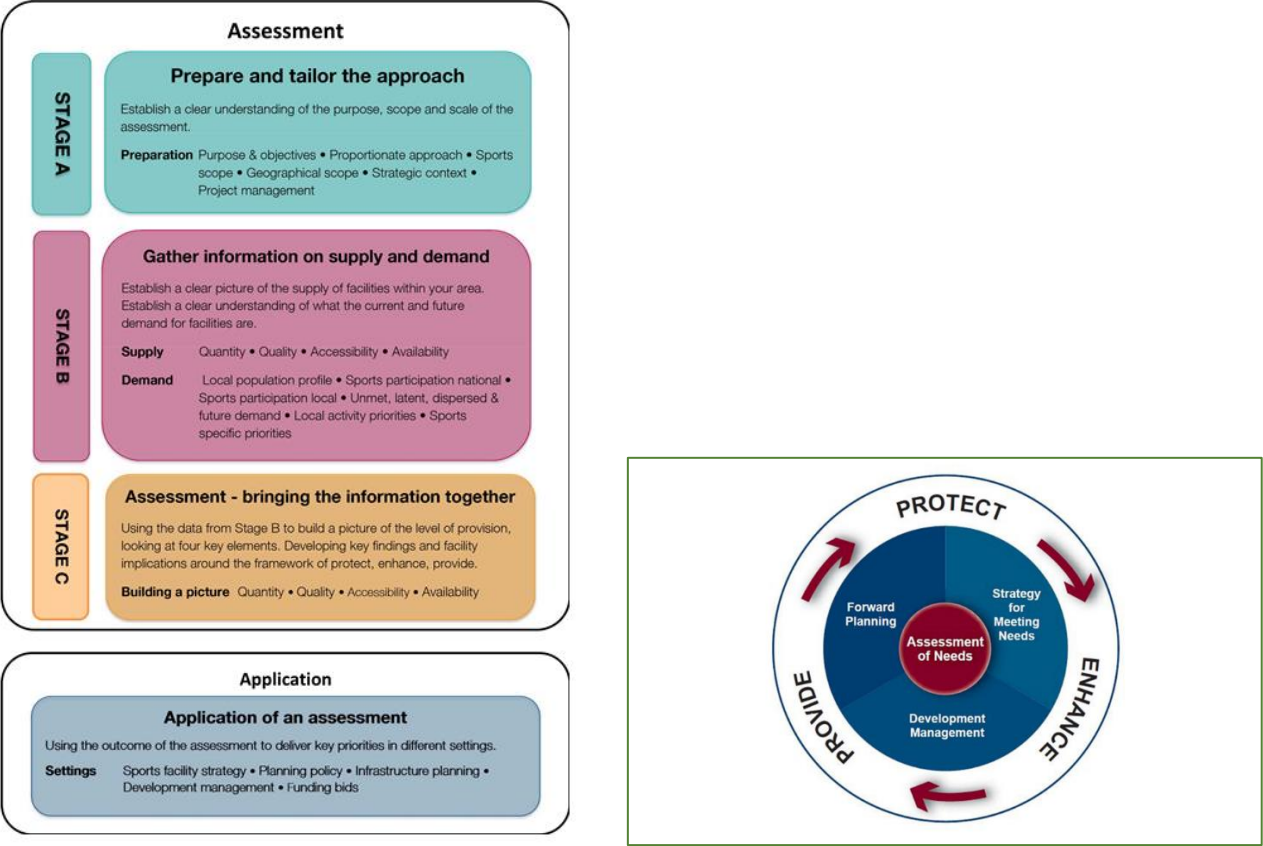

2. Local Context

- 2.1 Craven District Council adopted the [Craven Local Plan](#) in November 2019. Policy INF3: Sport, Open Space & Recreational Facilities aims to promote health, wellbeing and quality by safeguarding and improving sport, open space and built sports facilities. Criterion c) of this policy states that '*deficiencies in sport, open spaces and recreation facilities (built sport facilities) are identified in the PPS, Open Space Assessment and Built Sports Facilities Strategy 2016 and any subsequent updates when compared against minimum standards.*'
- 2.2 In terms of built sports facilities, the aim of Policy INF3 is to maintain the current level of provision and to improve the quality of existing facilities or provide replacement facilities in line with the Built Sports Facilities Strategy 2016 and subsequent updates, including Progress Reports. Policy INF3 supports the delivery of the standards, recommendations and actions set out in the Built Sport Facilities Strategy 2016 and any subsequent updates, including Progress Reports.
- 2.3 As a result of *Local Government Reorganisation (LGR)* from the 1st April 2023, a new North Yorkshire Council will replace the current county council and seven district and borough councils, meaning that after 31st March 2023, Craven District Council will cease to exist.

The new North Yorkshire Council will be required to prepare and adopt a local plan for the new Council within five years from the creation of the new authority. What this plan will look like is still to be decided, however there will need to be comprehensive evidence base prepared for this new local plan, which will include a Built Sports Facilities Strategy for North Yorkshire.

- 2.4 *Review of the Adopted Craven Local Plan:* In line with paragraph 33 of the NPPF (2021) Craven District Council is required to complete a review of the adopted Craven Local Plan no later than five years from the adoption date of a plan i.e., by November 2024, however this date is following the creation of the new North Yorkshire Council. Recommendations on the preferred approach to plan making for the new authority were supported by the LGR Board in early in 2023. One of these recommendations is that a number of District and Borough local plan reviews be halted in order to focus resources on preparing the new Local Plan for North Yorkshire. It is recommended that the Craven Local Plan review is halted.
- 2.5 *Justification of Approach:* Given the context of LGR and what this is likely to mean for the Craven Local Plan review coupled with the new authority having the requirement to prepare a new Local Plan (LP) for North Yorkshire and subsequent evidence base, including a Built Sports Facilities Strategy for North Yorkshire, it was considered that the best approach to continue to keep the 2016 Built Sports Facilities Strategy up to date was to prepare a 2022-2023 Progress Report in line with those undertaken in 2017 & 2019.
- 2.6 The Progress Report provides an updated picture of delivery of the strategy and action plan and ensures that the adopted Craven Local Plan policy INF3 can be implemented based on as up to date evidence as possible, and subsequently can be used to help prioritise investment needs and opportunities, and support any funding bids, prior to a new North Yorkshire Local Plan (NYLP) being adopted by the new authority.
- 2.7 The Progress Report will also represent important updated built sports facilities evidence for the Craven local plan area that can feed into the LP evidence base for the new NYLP.
- 2.8 The *methodology* to prepare the report reflects Sport England ANOG Guidance [Planning for sport | Sport England](#). It is important to note that this is a *PROGRESS REPORT* and not a new Built Facilities Strategy. The report has been produced by cross referencing the current status of Built Facilities in the Craven District with the Built Facilities Strategy 2016 and the subsequent Progress Reports from 2017 and 2019 to build up a picture of what has changed and any potential future developments in order to update the priorities and actions in the current evidence base. Several site visits have taken place and consultation has been undertaken with external organisations, sports clubs and operators to gain an understanding of the current status.

Diagram 1: Summary of SE ANOG And Planning for Sport

3. Strategic Context

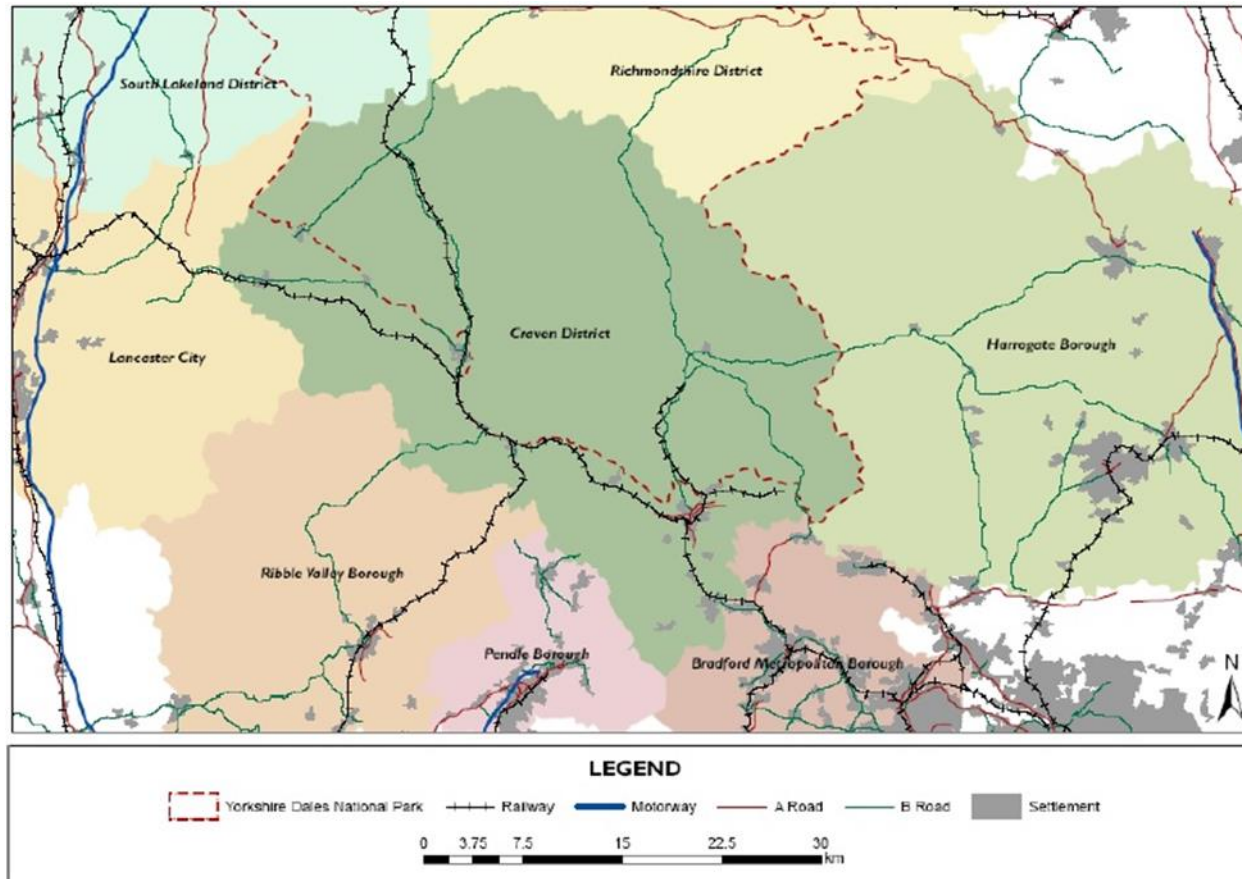

Population

- 3.1 The geographic area of the Built Facilities Progress Report includes the area of the Yorkshire Dales National Park Authority (YDNPA) which lies within the Craven District. The maps below show the district and ward boundaries, indicated with green lines. The yellow shaded area shows those which lie within the YDNPA area. Map 1 below shows the boundary of Craven District in addition to ward boundaries within the district. The progress report includes those facilities within the whole of Craven District, including the part of Craven that lies within the YDNPA boundary which were excluded in the 2016 strategy. Map 2 shows Craven District, in the context of neighbouring local authorities and key transport links. The districts of Richmondshire and Harrogate will be part of the new North Yorkshire Council area.

Map 1

Map 2

3.2 Understanding the population and future growth projections is important in planning for future sport facilities. The 2016 Strategy projected population estimates which indicated an overall population growth of 0.7% from 2012-2018 from 55,500 to 56,000 (and further growth to 58,800 by 2037). (Source: ONS Census 2011, 2012 mid year estimates.)

- 3.3 The ONS Sub National Population estimates 2018 project population figures for 2021 and 2032 project an overall population change showing that there will be a decrease in the population below 34 years of age and an increase in all other age groups, most notably in the 60-74 year age groups. The population within the YDNPA area is projected to decline in all age groups. Including the YDNPA the projected total population in 2032 is 59,341. This will have an impact on the number of residents who are projected to be active and participating in sport.
- 3.4 Adopted Craven Local Plan Policy SP1: Meeting Housing Need makes provision for a minimum of 4,600 net additional dwellings in Craven outside of the YDNPA area during the period 2012- 2032. Up to March 2022 a net total 1881 new houses have been built in Craven District outside of the National Park, leaving a need for 2719 dwellings up to 2032 in this part of Craven. Adopted Yorkshire Dales National Park Local Plan Policy SP3: Spatial Strategy makes provision for a minimum of 405 net additional dwellings for the part of Craven District inside the National Park during the period 2015 – 2030. Up to March 2022 a net total of 177 new houses have been completed within the part of Craven District inside the National Park leaving a need for 228 dwellings up to 2030 for this part of Craven.
- 3.5 Policy SP4 of the 2019 Craven Local Plan sets out a guideline for the distribution of new homes across the district, directing the largest proportions to Skipton, Settle and Bentham. Policy SP3 of the 2016 Yorkshire Dales Local Plan identifies Grassington/Threshfield as the largest service centre wholly contained within the Craven portion of the National Park, although other service centres, such as Settle, Giggleswick and Ingleton, are bisected by the National Park boundary.
- 3.6 In summary the population growth projection has reduced since 2016 as has the corresponding housing needs. However, the reduced projections are marginal in terms of any impact on the planning of future sports facilities. There has been no change in the focus of the locations in which the majority of new homes will be built.

Strategic Documents Updates

- 3.7 Since the 2016 Built Facilities Strategy a number of the strategic documents have been updated. With the transition to the new North Yorkshire Council over time new strategic documents will be prepared for the new authority.

Table 1: Comparisons of strategic documents 2016 to 2022

Built Facilities 2016 Strategies and Documents	Built Facilities Progress Report 2022 updated documents
<p>National Planning Policy Framework (NPPF)</p> <p>National Planning Policy Framework 2021 (NPPF), National Planning Practice Guidance (NPPG)</p>	<p>NPPF was revised in 2021. There has been no significant amendments to the wording of the Open Space and Recreation section within chapter 8: Promoting Healthy and Safe Communities, as set out in paragraphs 98 and 99 of the NPPF.</p> <p>In terms of paragraph 98 of the NPPF, the aim of this PPS refresh is to keep the assessment of need for open space, sport and recreation facilities up to date and robust, in line with the NPPF.</p> <p><i>98. Access to a network of high quality open spaces and opportunities for sport and physical activity is important for the health and well-being of communities, and can deliver wider benefits for nature and support efforts to address climate change. Planning policies should be based on robust and up-to-date assessments of the need for open space, sport, and recreation facilities (including quantitative or qualitative deficits or surpluses) and opportunities for new provision. Information gained from the assessments should be used to determine what open space, sport and recreational provision is needed, which plans should then seek to accommodate.</i></p> <p>The adopted local plan policy INF3 reflects paragraph 99 of the NPPF</p> <p><i>99. Existing open space, sports and recreational buildings and land, including playing fields, should not be built on unless:</i></p> <p><i>a) an assessment has been undertaken which has clearly shown the open space, buildings or land to be surplus to requirements; or</i></p> <p><i>b) the loss resulting from the proposed development would be replaced by equivalent or better provision in terms of quantity and quality in a suitable location; or</i></p> <p><i>c) the development is for alternative sports and recreational provision, the benefits of which clearly outweigh the loss of the current or former use.</i></p>

<p>A New Strategy for an Active Nation: Sporting Future 2015</p>	<p>Superseded in 2021 by Sport England Uniting Movement Uniting the Movement Sport England– 10-year vision to transform lives and communities through sport and physical activity. There are five big issues identified:</p> <ul style="list-style-type: none"> • Recover and Reinvent • Connecting Communities • Positive Experiences for children and young people • Connecting with health and wellbeing • Active environments <p>The vision- Imagine a nation of more equal, inclusive, and connected communities. A country where people live happier, healthier, and more fulfilled lives.</p> <p>The Mission - We're here to invest in sport and physical activity to make it a normal part of life for everyone in England, regardless of who you are.</p>
<p>North Yorkshire Community Plan 2014-2017</p>	<p>North Yorkshire Council Plan 2021-2025. Council plan North Yorkshire County Council</p> <p>The plan identifies five ambitions for 2025:</p> <ul style="list-style-type: none"> • Leading for North Yorkshire • Every child and young person has the best possible start in life; • Every adult has a longer, healthier, and independent life. • North Yorkshire is a place with a strong economy and a commitment to sustainable growth, and • Innovative and forward thinking Council.
<p>Craven District Council Plan 2015-2018</p>	<p>Craven Council Plan for 2020 and Beyond Craven District Council : Council Plan and Priorities (cravenc.gov.uk)</p> <p>The Council's Vision</p> <p><i>For Craven to be a prosperous place with strong and vibrant communities, where all residents enjoy a good quality of life.</i></p>

	<p>The Council's Priorities for 2020 onwards</p> <p>Carbon Neutral Craven Facilitating economic growth in a low carbon Craven</p> <p>Supporting the wellbeing of our communities Developing vibrant, connected, and healthy communities</p> <p>Attracting and retaining younger people Creating a district that attracts people of working age to live and work</p> <p>Financial sustainability Ensuring a self-sustainable Council</p>
New Local Plan 2014 ongoing (Draft)	<p>Adopted Craven Local Plan 2012- 2032 Craven District Council : Craven Local Plan (cravendc.gov.uk)</p> <p>Sets out a spatial strategy and policies for change, development, and conservation in Craven District outside the YDNP for the period 2012-2032.</p> <p>The PPS 2016 informed Policy INF3 – Sport, Open Space and Built Facilities. Policy INF3 aims to promote Craven’s health, wellbeing and quality of life by safeguarding and improving sport, open space and built sports facilities.</p> <p>The policy supports the delivery of standards, recommendations and actions set out in the PPS, Open Space Assessment and Built Sports Facilities Strategy 2016 and any subsequent updates by safeguarding and improving sport, open space and built sports facilities. Priority will be given where the greatest deficiency exists in terms of the type of open space, pitches or facilities, as identified in the study and any subsequent updates. The policy sets out the criteria for developer contributions under section 106 agreements for new or improved provision. The policy reflects the provision of the NPPF.</p>

For spaces designated because of their sporting or recreational value, any loss of or significant harm to their qualities and functions will only be permitted if it can be demonstrated that the space is no longer needed, or a suitably located replacement of at least equivalent standard is secured.</p> <p>A Local Plan 2023- 2040 is being prepared and consulted on with the aim that the plan will go live in 2024.</p>
--	--

Demographics

- 3.8 There have been changes in the way some demographic data is gathered and presented since the 2016 strategy was produced, it is therefore in some cases not easy to compare exact like for like data. However, the facts in the table below provide a picture of the current demographic profile and where there may have been change since 2016.

Table 2: Comparisons of Demographic Profile

Key Factors	2016	2022	Change
Life expectancy	Life expectancy is 9.0 years lower for men and 5.2 years lower for women in the most deprived areas of Craven than in the least deprived areas.	Life expectancy is 4.9 years lower for men and 3.3 years lower for women in the most deprived areas of Craven than in the least deprived areas. Life expectancy at birth for males 81.1 years, females 85.0 years. Better than the regional and England averages.	
Adult overweight or obese	65.7% which was below the North Yorkshire and England averages	55% in Craven which is less than the average levels for North Yorkshire at 61.4% and England 63.5%	
Prevalence of obesity in Children	14.1% of children in Craven lower than the England average	18.7% of children in Craven compared with North Yorkshire 21.0% and England 20.2%	
Health issues	The health of the Craven community is generally better than the England average. The main health problems are caused by obesity and smoking, cardiovascular diseases and diabetes	Suicide level 12.45 which is above the regional level of 10.7 and the England level of 9.64. Mortality levels from cardiovascular disease are significantly lower than the regional level at 51.3 compared to 52.0 and the England value of 71.7. Estimated diabetes diagnosis levels are increasing for those aged 17+ years and are relatively stable in the 65+ years. Smoking prevalence in adults has risen (Indicator is rate per 100,000 population.)	
Population density	Craven is predominantly rural. 31% of the population live in Skipton, the largest town. The higher population density is in the south, southeast and northwest border with Lancaster and Ribble Valley. Least populated areas are in the north and northeast of the district.	There is an average population density of 48 persons per sqm in the district. The higher population densities are in the south and southeast and the least in the east and northeast.

Built Facilities Strategy 2016

Public Health England LA Health Profile 2019 published 2020
Census 2021

- 3.9 In terms of deprivation Map 2.3 in the 2016 Strategy when compared with data from IMD 2019 continues to indicate that the most deprived areas are in the Skipton and South Craven sub area. As a whole 55.2% of the population are not living in an area of deprivation. There has been no significant change in the levels of deprivation.
- 3.10 The value of participation in sport and physical activity outlined in the 2016 Built Facilities Strategy paragraphs 2.59 - 2.61 remain valid these include the benefits that being active brings to physical and mental health and social interaction. The Covid 19 pandemic of 2020-2021 has clearly highlighted how valuable sport and physical activity has been to maintain both physical and mental health. Sport England undertook a series of studies during the pandemic which tracked participation levels and attitudes and motivations in relation to being active. The most recent data for participation in sport and physical activity for Craven is detailed below.

Adult Participation Levels – Sport England (SE) Active Lives Survey

- 3.11 The Active People Survey (data used in the 2016 Built Facilities Strategy) has been superseded by the Active Lives Survey. The current participation data for adults in the Craven District is detailed in the tables below. The data is taken from the SE Active Lives survey for the period mid November 2020 – mid November 2021 for adults aged 16+years. The data contains a full year of COVID 19 restrictions and was released in April 2022.
- 3.12 The three levels of activity are identified and are defined as:
- Active – at least 150 minutes a week
 - Fairly Active- an average of 39-149 minutes a week.
 - Inactive – less than 30 minutes a week.

Table 3: Active Lives Adult Participation Levels

	November 2015-16			November 2019 - November 2020			November 2020 - November 2021		
	Active (150+ minutes a week)	Fairly Active (30-149 minutes a week)	Inactive (<30 minutes a week)	Active (150+ minutes a week)	Fairly Active (30-149 minutes a week)	Inactive (<30 minutes a week)	Active (150+ minutes a week)	Fairly Active (30-149 minutes a week)	Inactive (<30 minutes a week)
	Rate (%)	Rate (%)	Rate (%)	Rate (%)	Rate (%)	Rate (%)	Rate (%)	Rate (%)	Rate (%)
National - All Adults 16+ years	62.1%	12.4%	25.6%	61.4%	11.5%	27.1%	61.4%	11.5%	27.2%
North Yorkshire	66.1%	10.5%	23.4%	65.3%	10.5%	24.2%	65.7%	10.0%	24.3%
Craven	66.6%	12.0%	21.5%	71.8%	11.3%	17.0%	70.1%	10.7%	19.2%
Hambleton	70.0%	7.8%	22.2%	65.6%	9.5%	25.0%	63.9%	11.1%	25.0%
Harrogate	65.2%	10.3%	24.5%	64.8%	9.3%	26.0%	70.8%	9.6%	19.6%
Richmondshire	68.8%	9.9%	21.3%	68.6%	6.2%	25.2%	69.3%	6.7%	23.9%
Ryedale	62.0%	9.2%	28.8%	63.5%	11.7%	24.8%	59.1%	11.5%	29.4%
Scarborough	60.5%	10.2%	29.3%	63.8%	10.1%	26.1%	64.2%	6.9%	28.9%
Selby	69.5%	8.6%	21.9%	59.3%	13.0%	27.7%	57.5%	15.9%	26.6%

- 3.13 The population of Craven have consistently been more active than the national participation levels for England and those for the North Yorkshire Active Partnership area. Craven participation levels are most similar to those in Harrogate and Richmondshire. The change in participation from the 2015-2016 baseline indicates slightly better participation levels, although SE see this is as not statistically significant and is recorded as no change in the SE data.
- 3.14 The key performance indicators in table 2.6 in the 2016 Strategy have been superseded by data collected as part of the Active Lives survey. The graphs below sourced from the SE Active Lives Interactive Data tool [Active Lives | Home \(sportengland.org\)](https://www.sportengland.org/active-lives/) provide some insight into adult club membership and volunteering in Craven.
- 3.15 Club membership is greater than in 2014/15 where club membership for Yorkshire and Humber was 20.7%. Club membership peaked at 43.8% in the May 2019-2020 Active Lives survey for Craven, there was a decline following Covid 19 to 33.5% in the May 2020-2021 survey, Craven has seen an upward trajectory since sport re-opened post the pandemic.

Graph 1 The percentage of adults who participated who were a member of a club.

- 3.16 Volunteering data in 2014/15 indicated that 14.3% of adults volunteered at least one hour a week in Yorkshire and Humber and 12.9 % in England. Volunteering levels have increased and the level of volunteering in Craven is higher than the Regional, County and

England levels. However, it has not yet returned to the pre pandemic level of 24.4% as in the November 2019-2020 Active Lives Survey.

Graph 2 Adults who volunteered in the last 12 months

3.17 The Market Segmentation data table 2.3 in the 2016 Strategy has not been updated by SE and therefore remains as in the 2016 Strategy.

Children and Young People Participation Levels - SE Active Lives Survey

- 3.18 The Active Lives Children and Young Peoples Survey (age 5-16 years) for the academic year 2021-2022 was released in December 2022. Sport England have identified that nationally children's and young people's activity levels are back to pre-pandemic levels and that overall activity levels are up 2.6 per cent, meaning there are 219,000 more active children compared to the previous academic year back in line with the 2018-2019 academic year.
- 3.19 Information for the Craven area is not available for all years detailed below in relation to participation levels for children and young people. This is due to a number of factors which include what and how data has been collected, the level of responses or the data set not being statistically significant. Where data for Craven is not available regional and county data has been included.
- 3.20 The three levels of activity are identified and defined as:
- Active – an average of at least 60 minutes a day
 - Fairly Active- an average of 30-59 minutes day
 - Inactive – less than an average of 30 minutes a day
- 3.21 Data for the Craven district is not available, however there is data for North Yorkshire. The North Yorkshire Active Partnership data and England national data is detailed in the table below. North Yorkshire performs worse than the England average in terms of being Active and better in terms of being Fairly Active and Less Active. It would be reasonable to assume that Craven would perform at least in line with the North Yorkshire average. In comparison with the 2020-21 academic year North Yorkshire has a significant decrease of -5.5% for Children and young people being active whilst there has been no significant change in the Fairly Active and Less Active groups.

Table 4: Active Lives Children and Young Peoples Participation Levels

Academic Year 2021-2022	Active (an average of 60 minutes or more a day) ¹	Fairly active (an average of 30-59 minutes a day) ¹	Less active (less than an average of 30 minutes a day) ¹
National - Children and Young People 5-16 years	47.20%	23%	30.10%
North Yorkshire	40.40%	27%	32.60%

3.22 The SE Active Lives Interactive Data tool provide some further insight into children's participation in Craven and the trends prior to Covid 19. The levels of activity inside and outside of the school day indicate a downward trend and levels below the England, Regional and County levels in the academic year 2020-21.

Graph 3 Percentage of children active for 30+ minutes a day outside of school hours

Outside of school hours: an average of 30+ minutes a day

% During school hours or outside of school hours activity by Where:

■ Yorkshire and the Humber Region ■ North Yorkshire AP ■ Craven LA ■ North Yorkshire CC

Graph 4 Percentage of children active for 30+ minutes a day during school hours

 ■ Craven LA
 ■ North Yorkshire CC

4. Facility Provision

Overview of Facilities

- 4.1 The level and nature of the facility provision has been assessed as in the 2016 strategy based on three sub areas; North Mid and South Craven. Additionally, the area of the Craven district which falls within the YDNPA has been included in this Progress Report. There exists, as in 2016, three main facilities in the district as follows;
- **Sandylands Sports Centre – a registered charitable trust who own and operate the facility.** The Charity received planning permission in November 2022 for an extension for a gymnastics and bouldering facility Planning reference 2021/23374/FUL. (Charity number 515760)
 - **Settle Swimming Pool – owned and managed by Settle Area Swimming Pool a CIO (Charitable Incorporated Organisation Charity number 1171790).** In 2022 the facilities have been improved with new village changing and reception and extended to include a multifunctional fitness space and café. These facilities opened in November 2022.
 - **Craven Swimming Pool and Fitness Centre – owned and operated by Craven District Council under the Craven Leisure branding.** Investment in health and fitness and energy systems since 2016.
- 4.2 There are several community accessible facilities on education sites e.g. South Craven School, Skipton Academy, Ermysted's Grammar, Giggleswick School and Upper Wharfedale School.
- 4.3 Table 5 below summarises the supply of facilities in Craven, including area of the district inside the Yorkshire Dales National Park. Variations in supply are due to changes in provision such as closure/new of facilities or as a result of reporting from Sport England Active Places Power data tool.

Table 5: Comparison of number Sports Facilities

Facilities	Craven 2016	Craven 2022	Notes – 2022
Health & Fitness Suite	15 gyms 7 studios At 17 sites	15 gyms 6 studios At 16 sites	Escape Fitness, No.1 Fitness, Settle Fitness, Settle College no longer appear on the 2022 report. Jetts, Phoenix Fitness and Coniston Hall and Spa are additions to the 2022 report.
Sports Hall <i>Indoor multi-sports halls are defined as areas where a range of sport and recreational activities are carried out. They are at least 10m x 18m (e.g., the size of one badminton court including surrounding safety area.)</i>	13 individual sites 4 court hall x 6 (excluding Malsis which was closed) 3 court hall x 3 2 court hall x 0 1 court hall x 6 at 4 sites. Total 15 sports halls	15 individual sites 4 court hall x 6 3 court hall x 3 2 court hall x 2 1 court hall x 11 at 9 sites Total 22 sports halls	In 2016 and 2022 community accessible 3 or 4 court Main Halls numbered 9. In 2016 1 or 2 court Community Halls numbered 6 compared with 11 in 2022. This change is due to the addition of 2 court halls at Giggleswick School and Settle College, some sites reported as 0 court halls in 2016 are reported as 1 court in 2022 data. This is reflected below in the reduced number of activity spaces. Note: some sites include more than one type of hall
Activity space in community buildings <i>For information – are not within the definition above. Less than one badminton court in size.</i>	21 halls at 19 sites	10 halls at 9 sites	Not further considered within the context of the strategy in 2016 or 2022/2023, although are valuable community assets particularly in the rural area of Craven.
Squash Courts	8	6	Rise Fitness, Skipton no longer has 2 squash courts.
Swimming Pool	5	6	6 Main /General Pools
Fitness Studios	7	6	
Tennis		35	All courts outdoor

Cycling		2	BMX Pump Tracks
Athletics	0	0	
Indoor Bowls	0	0	
In 2022 there are a total of 102 facilities located at 45 sites			

Data Source SE Active Places Power and 2016 BFS. Data collection and information recorded has seen some changes since 2016, hence some of the variables when comparing 2016 and 2023.

- 4.4 The Skipton Tennis Centre has developed since 2016 with the recent addition of a Padel tennis court and further developments are proposed. A mapping of the wider tennis provision within the district has been included in this Progress Report.
- 4.5 Users of sport and recreation facilities do not recognise administrative boundaries and will use facilities that are convenient and/or provide a quality/value for money experience. Ownership and management are, in this context, a minor consideration for most users. The availability of facilities in neighbouring areas can and does influence sports facility usage patterns; however, in Craven, usage patterns are more affected by accessibility, given the rurality of the area. These remain valid points from the 2016 Strategy.
- 4.6 Quality assessments were undertaken in 2016 for Sports Halls, Health and Fitness Facilities, Swimming Pools and Squash Courts. Where applicable these quality assessments have been revisited with consultees in the production of the Progress Report. Additional quality assessments have been undertaken as required or where the consultation process has asked facility operators to provide a self-assessment on condition and developments compared with 2016. All quality assessments are non-technical visual assessments.

5. Sports Halls

Supply

- 5.1 The supply of Sports Halls in Craven is as detailed in the tables below. There are the same number of four/three court sized sports halls as in 2016 excluding Malsis School which was included within the 2016 data but the facility had been closed. There are the addition of two, two court sports halls at Giggleswick and Settle College and an increase in one court hall due to a change in how data is reported since 2016. There are 22 sports halls in 2022 compared with 15 in 2016.
- 5.2 There are 15 unique sites in the Craven district with a total of 48 badminton courts compared with 13 unique sites and 39 courts in 2016. There is only one 4 court sports hall at Sandylands which is fully community accessible. The remaining 4 court halls are all on education sites and are therefore available out of school hours at evenings and weekends and in some cases are governed by community use agreements.

- 5.3 Sport England recommend that a standard sports hall is a four court hall. However three court sports halls are of value and can be used for a variety of sports and activities such as gymnastics, short mat bowls, table tennis, martial arts, fitness classes. Full size basketball and netball courts cannot be accommodated but the space is adequate for training or recreational purposes.
- 5.4 There is a significant reduction in activity halls since 2016 due to the SE data no longer recording smaller halls which are less than the size of one badminton court (18 x 10m hall) which are often found in community buildings and often unsuitable for sports activity. One court halls can accommodate for example badminton, 4 table tennis, 3 short mat bowls, gymnastics, martial arts. The two court halls have the potential to be used for mini basketball, children's five a side.

Table 6 Analysis of Sports Hall Supply in Craven

Demand and Consultation

- 5.5 Consultation has been undertaken with several operators of sports halls and a desk top review of National Governing Body (NGB) information for sports which take place in a sports hall has been completed. Local club information has been collated either by desk top research, conversations with operators or direct consultation with clubs. The aim of the consultation with main sports hall providers/operators in the District was to understand the current status and any priorities for the future. The key points can be found below and in table 7.

Education Sites

- 5.6 Communihire Ltd operate the lettings and bookings for South Craven School and Upper Wharfedale School, these are new arrangements since the 2016 strategy was produced. Communihire have ambitions to extend the services they offer to other schools in the area having established a track record in the last 2 years.
- 5.7 Communihire have an excellent working relationship with the schools' senior staff at both venues. The model of operation is that Communihire manage all the bookings outside of the school hours in the evenings from 4.00pm/5.00pm until 10.00pm and daytime at the weekends. Most of the bookings are club or block bookings but Communihire provide a pay and play offer subject to availability of facilities.
- 5.8 South Craven School has excellent facilities within the school, they work closely with Communihire to set expectations of users, quality standards and the pricing structure. There is one point of entry and access to the sports facilities are controlled. Facilities include sports hall, gym hired to Personal trainers and outside pitches which are covered within the Craven PPS Refresh 2021. Consultation with the school confirmed there are no plans for future developments of sports facilities.

- 5.9 Upper Wharfedale School offers a sports hall, community room with kitchen which is suitable for workshops, meetings and a swimming pool. The outside pitches are covered in the Craven PPS Refresh 2021. These are important facilities for a rural secondary school and wider community. Consultation with Upper Wharfedale School has identified that there is the ambition to put new heating and lighting systems into the existing facilities.
- 5.10 Giggleswick School sports hall is subject to a Community Use Agreement and the school has a number of sports clubs who regularly book the facility throughout the year. There have been no changes or developments to the sports hall since the 2016 Strategy. In 2022 a planning application was submitted by the school and was successful with regards the development of the Lords Close Playing Fields. The developments will include a new pavilion with a community space, a Community Use Agreement has been agreed, the space will be suitable for group exercise classes, meetings, workshops. Planning reference 2021/23539/FUL.
- 5.11 Ermysted's Grammar School have a lettings policy for external hire of the school facilities outside of education time to organisations and sports clubs. The school policy is that any external hire should offer community access, pay and play is not available. The four court sports hall built in 2007 is available for hire and, for example is used by Skipton Scorpions Netball Club and an external holiday club provider. The indoor climbing wall which is within the sports hall is booked by an 'My Expedition Rocks' an outdoor education and adventure company for winter training.
- 5.12 Planning consent has been granted for the construction of a small additional gym / sports studio building at Ermysted's Grammar (Planning reference 2021/23548/FUL), but due to accelerating costs the school have not been able to progress. Funds to support the build were identified and the cost estimates were based on DfE construction costs at the start of 2022. The tender process for the build resulted in quotes from contractors being significantly higher than the anticipated costs which has meant the school was unable to take forward the build at this time.
- 5.13 The Skipton Academy hires out the 3 court sports hall, two traditional school gyms and dance studio to sports clubs and community organisations outside of education time. There are limitations to the type of activity which can take place in the sports hall due to the type of lighting, a built in projector and chairs which have to be stored at the side of the sports hall. One of the traditional gyms flooring will need attention in the near future and changing accommodation is in need of modernisation. Craven Gymnastics Club are based at the school four times a week.
- 5.14 Skipton Girls' High School have limited on site facilities and use Sandylands Sports Centre throughout the year to deliver PE. The school's traditional hall and studio space is hired to groups for martial arts, fitness and dance. Greatwood Primary School is part of the same Academy Trust and the school hall at this site is also used for sports and fitness groups outside of education time.
- 5.15 Craven College have limited facilities and as required hire external facilities to support course delivery.

- 5.16 Settle College in the 2016 strategy identified a need for a sports hall which could be for both school and community use with land available to the rear of Settle Swimming Pool. There have been no developments of sports facilities at Settle College, the College maintain an asphalt outdoor area and have installed perimeter fencing to the sports field for safeguarding reasons. Consultation with Settle College confirmed they continue to have aspirations for a new sports facility but cannot see a way to achieve or fund this at this time. In section 6 below developments since 2016 at Settle Swimming Pool are outlined and the pools future aspirations given other land and buildings which are owned by NYCC adjacent to the site. There may be justification to explore opportunities for partnership working to enable Settle College and Settle Swimming Pool with NYCC and subsequently the new North Yorkshire Council (NYC) to bring their aspirations forward.

Ingleborough Community Centre

- 5.17 Ingleborough Community Centre located in Ingleton is managed and operated jointly by the Parish Council and Ingleton Rural Community Association. The main hall has a single badminton court with run off, sprung floor and high ceiling. The main hall is used by the badminton club detailed in table 7 below. The hall also accommodates Toddler Groups, Keep Fit Classes, Tea Dances, and a Theatre Group. The management committee's view is that the main hall facilities are in excellent condition. In the long term, being able to extend the building towards the outdoor pitches with a viewing area to watch football and cricket and provide a larger more flexible space is an ambition. There are also aspirations for further improvements and developments in relation to the other outdoor facilities (MUGA, Pump Track, Bowling Green).
- 5.18 Ingleborough Community Centre signposts bookings for badminton which they cannot accommodate to the Scout Hut. This has a full size court marked out although the ceiling height is compromised but the facility remains suitable for recreational and junior games. This facility has been self-assessed as adequate.

Sandylands Sports Centre

- 5.19 In the 2016 strategy the recommendation was to consider the refurbishment or replacement of the ageing sports hall, since then refurbishment work has been undertaken. The sports hall at Sandylands Sports Centre is in good condition; both the floor and lighting has been updated since the 2016 strategy. Further areas for improvement would be to remove and infill the high level windows in the sports hall and enable the viewing area to be screened to provide an environment which would meet the identified needs of the wider community. Only a condition survey would determine if or when the sports hall may need replacing. The hall is well used by several sports clubs, community groups and pay and play bookings. It is the only 4 courts sports hall in Skipton that is community accessible throughout the day, evenings and weekends.
- 5.20 During consultation and at a non-technical site visit it was identified that accessibility in and around the centre is an area for improvement, for example there is no lift to the upper floor to enable customers to use the fitness facilities, easy opening/electronic

doors are not fitted, and signage is poor for example for those with visual impairments. Ancillary facilities require upgrading, for example, the changing rooms current standards fall below what customers may expect to find compared to those in more modern up to date facilities. During busy peak periods, usually 5.00-7.00pm and certain periods at the weekend the car park is too small. There is land available to the rear of the 3G Artificial Turf Pitch (ATP) which Sandylands have identified could be developed into additional car parking spaces for around 50 vehicles which would reduce the peak time issue.

5.21 Planning permission for development at Sandylands Sport Centre was granted in November 2022, (Planning reference 2021/23374/FUL). This planning permission relates to an extension to the existing all-weather changing rooms building to accommodate a Dedicated Gymnasium and Internal and External Climbing Walls and associated Bouldering Area, also incorporating a Café and Two Meeting Rooms, together with associated Internal and External Alterations to the existing all-weather changing rooms building. The aims of the Sandylands extension project are:

- To increase participation in the sports of gymnastics and indoor climbing through the development of dedicated facilities.
- That the proposed new facilities will be sustainable and contribute positively to the overall sustainability of the Sandylands Sports Centre. The business case, funding strategy and operational model are currently being developed by Sandylands Sports Centre to support this aim.

5.22 The first floor of the proposed extension will also accommodate a Café for in the region of 50 diners (overlooking the All-Weather Pitch) and two meeting rooms. Currently there is no Café or indoor viewing for the 3G ATP and no suitable rooms at the Sports Centre for courses, workshops and meetings. The plans include the reconfiguration of the rear entrance which currently serves the 3G ATP to create a welcoming entrance and improve the oversight of the 3G pitch; internal changes to the layout of changing rooms will enable improvements to the disability changing and toilet facilities. Sandylands have additional work to do to develop the full business case and to secure funding for the proposed development. Further details of the proposed development are captured in below in tables 7 and 8.

Table 7: Summary of Information and Consultation with NGB's and Sports Clubs

Organisation	Status and future priorities
British Gymnastics (Desktop)	Facilities Strategy for the period 2017-2022 identifies that demand outstrips supply and that there is need for quality sustainable facilities which may be provided through dedicated and non-dedicated provision. There are four goals highlighted in the strategy which support to increase capacity within clubs, leisure providers and other delivery partners and, to maintain and improve the quality of facilities and equipment within existing partners.

	<p>Craven Gymnastics Club have worked with British Gymnastics (BG) on a Business Plan for a dedicated facility since 2018 with the document being updated in April 2022. In April 2022 BG confirmed there are 3 BG registered clubs within a 10 mile radius of Skipton of which only Ambitions Gymnastics Club have a dedicated facility, and a total of 7 clubs within a wider 15 mile catchment. Both Craven Gymnastics Club and Ambitions have experienced sustained growth during the 2016-2022 period; Craven Gymnastics Club have increased numbers from 50 – 120 in the 6 months prior to April 2022. BG have concluded that there is likely to be latent demand for gymnastics in the area.</p> <p>Note: Ambitions Gymnastics Club is based in Barnoldswick outside of the Craven District.</p>
Craven Gymnastics Club (Face to Face)	<p>Craven Gymnastics Club are based at the The Skipton Academy 4 evenings a week and Sandylands once a week. They operate for 18 hours a week with a membership of 259 as at September 2022 and a waiting list of 100. Predominately a female only club as currently do not have equipment or qualifications for male gymnastics to progress beyond a basic level. The club also offer special needs and adult sessions. In terms of talent identification/elite potential the club links their gymnasts with Diamonds Gymnastics Club in Halifax.</p> <p>The club have worked closely with Sandylands on the proposal for a dedicated gymnastics facility at the Sports Centre. The aim is to be operational by 2024. A Business Plan has been prepared which demonstrates the club proposals for a sustainable dedicated facility.</p> <p>Consultation with Sandylands Sports Centre outlines that their aim is to fund the capital project to construct the extension with the internal capital costs for the fit out of the gymnastics facility being the responsibility of the Craven Gymnastics Club. Further work is required on the detail of a lease agreement with the gymnastics club and as of January 2023 no heads of terms have been agreed.</p>
England Netball (Desktop)	<p>England Netball have four categories of facility classification and clearly identify that Netball can be played both indoors and outdoors. Community facilities are classed as being for recreational leagues, junior district leagues and community club training. Club facilities are for competitive play from Club to Senior County level; the additional categories are Premier and International. Facility specifications are provided for each category for both indoor and outdoor courts which includes details of run offs, surfaces, posts, changing and spectator requirements. Indoor courts tend to have a sprung surface or surface with a degree of elasticity. Although not ideal or preferable England Netball do say that the sport can be played on short pile sand dressed Artificial Turf for recreational and community club netball. Informal courts which are not full size at</p>

	17m x10m plus a 1m run off which are created where limited space is available can be used for School PE, Back 2 Netball, Walking Netball and Netball Now programmes.
Netball Clubs (Desktop)	<ul style="list-style-type: none"> • Skipton Scorpions have an adult and junior section and train and play at Ermysted's Grammar School sports hall. They run fun netball leagues. • The U3A have a walking netball session at Sandylands Sports Centre. • Settle Netball use indoor and outdoor courts at Giggleswick School. • Craven Dragons are based at South Craven School, adults and juniors and play competitive netball. Use mainly outdoor courts.
Badminton England (Desktop)	Limited facility information available. Badminton England can provide guidance to support facility design for halls to ensure they are suitable for playing badminton.
Local Craven Clubs (Desktop)	<p>Local Badminton Clubs in the mid and south of the district play in the Craven League, Bradford District League with Ingleton badminton Club playing in the Lancaster and Morecambe league. Clubs use a number of sports halls in the district.</p> <ul style="list-style-type: none"> • Skipton and Craven Badminton Clubs - Sandylands Sports Centre • Crosshills and Sutton & South Craven Badminton Club – South Craven School • Settle Badminton Club – Giggleswick School • Ingleton Badminton Club – Ingleborough Community Centre. The club are still rebuilding post Covid prior to which there were 50 participants a week. Junior and Senior sections and field two competitive teams. • Low Bentham Badminton Club – Cedar House School
Basketball England (Desktop)	Facility specifications are provided for indoor and outdoor courts. Currently no strategic plans in the public domain. Support is available through online resources, workshops etc.
Craven Basketball (Desktop)	West Craven Turbines have both men's and junior training based at Sandylands Sports Centre. Competitive matches and leagues are played at other venues outside of Craven mainly in Lancashire.

Table Tennis England (Desktop)	Table Tennis England is committed to increasing the number of dedicated facilities that offer competitive or recreational table tennis. Their website provides information and guidance to support the development of indoor and outdoor Table Tennis facilities. Signposting to Sport England Club Matters resources.
Table Tennis in Craven (Desktop)	There are no clubs registered on the Table Tennis England website within Craven. The U3A offer table tennis as part of their programme at Sandylands Sports Centre and at Langcliffe Village Institute near Settle.
British Fencing (Desktop)	The website provides information and guidance to support clubs in the development of fencing. Signposting to British Fencing resources and to Sport England Club Matters resources.
Skipton Fencing Club (Desktop)	Based at St Andrews Church Hall, Skipton and offer beginner and advanced fencing. The club has success with members at junior and cadet level being selected to represent GB.
British Mountaineering Council (BMC) (Desktop)	<p>Given the ambitions at Sandylands Sports Centre detailed above and in table 8 below to build a climbing and bouldering wall, as part of the progress report, further consideration has been given to understanding the current status of indoor climbing in the area.</p> <p>The BMC do not have a strategy for facility development but do provide technical and safety guidance for indoor climbing. There are resources and support for clubs on their website and a funding page, although the BMC do not directly provide funding, a grants page offers signposting to funders elsewhere. The BMC has a mapping function which covers indoor facilities, crags and huts.</p>
Local Indoor Climbing (Desktop)	<p>The Craven Mountaineering Club have a programme of outdoor activity and additionally have sessions at the Ingleton Climbing Wall. The Gritstone Outdoor Club have included indoor climbing within their programme in 2022 at the Depot in Leeds.</p> <p>Ingleton Climbing Wall is a private operation and includes a main climbing wall 25 lines, tower 15 lines, height of lines range from 8-13m. Bouldering Rooms x 2 with graded circuits, training balcony. There is membership and single session bookings available. Taster sessions and children's classes are available. Instructed sessions and courses, open 7 days a week. Courses are offered which enable progression from indoors to outdoor climbing.</p> <p>Ermysted's Grammar School have an indoor climbing wall which is available for hire outside of education time.</p>

	<p>Outside of the Craven district there are climbing walls at the Climbing Hub, Bradford and Harrogate, and Clip n Climb in Ilkley.</p> <p>There are an abundance of Craggs identified in the BMC website for outdoor climbing and bouldering within the Craven District.</p> <p>Sandylands Sports Centre planning application for the indoor climbing extension (Planning reference 2021/23374/FUL) included a letter of support from the BMC dated September 2021 stating that the facility would be an asset. The proposed development would include a climbing wall located partly on the ground floor and then extended “through” the first floor and into the roof-space, allowing the possibility of an “overhang”. The remainder of the first floor will be bouldering walls. The external southern gable will also include a climbing wall, located under a cantilevered roof. Sandylands are in discussion with Troll Outdoors Ltd as a potential operator. The capital project to construct the extension would be the responsibility of Sandylands Sports Centre with the internal capital costs for the fit out of the climbing and bouldering being the responsibility of an external operator. As of January 2023 further work is required on securing an operator and for the detail of a lease agreement.</p>
--	--

Sport England Demand Data

- 5.23 A new Sport England FPM (Facilities Planning Model) report which assesses the supply of sports halls taking into account the supply of halls from surrounding areas was not commissioned for this Progress Report. In 2016 the FPM report identified there was a current over supply of sports hall space with a projected future demand by 2032 of 1.8 badminton courts.
- 5.24 The FPM analysis does not identify future demand based on changes of population. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on population increase. Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. In 2023 the report indicates that an additional 3.11 badminton courts would be needed to meet the population growth by 2032.
- 5.25 The conclusions in 2016 were that demand could be met by existing stock but the real issue was the quality of the existing facilities which were ageing. A multipurpose space in South Craven at Sandylands Sports Centre/Skipton Tennis Club or Craven Leisure was suggested and the need to consider sports hall access in mid Craven highlighted. The 2023 consultation suggests that these remain valid.

- 5.26 A more detailed study of the demand and need which includes, updated FPM and SFC data, and the feasibility of providing sports hall/multipurpose space in Craven is required to identify facility options(new, extend, refurbish) the most appropriate type of provision and location to meet future demand.

Strategy Recommendations 2016 - Progress Update

- 5.27 Sports hall development in relation to the 2016 Strategy recommendations are summarised in the table below.

Table 8 Summary of Progress since 2016

Facility	2017 Progress Report	2019 Progress Report	2023 Status
Sandylands Recommendation 1 and 7	<p>The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, new or fully refurbished sports hall at Sandylands Sports Centre. Sandylands Sports hall was partially refurbished in 2016 due to flooding. Further work required to check the future life of the sports hall.</p> <p>Initial facility plans drafted and ongoing work being undertaken to develop outdoor tennis facilities at the site before full indoor venue feasibility and business case undertaken. Appendix C to the Pre- Publication draft Local Plan; Infrastructure Delivery Plan identifies the need to replace ageing sports halls at Sandylands, and the development of the site as multi sports hub as evidenced in the Built Facilities Assessment &</p>	<p>Good Progress.</p> <p>Facility plans produced and costed. Planning application submitted and approved Sept 19. Business case undertaken for Gym and Tennis leading to viability appraisal over capital cost, negotiations on land use arrangements being discussed and resolved before project can progress. Application to LTA (Lawn Tennis Association) etc. planned by end of 2019.</p> <p>Appendix A to the adopted Craven Local Plan and the Council's Infrastructure Delivery Plan, provides evidence as to the need to replace the ageing sports hall at Sandylands, and to develop the site as multi sports hub as evidenced in the Built Facilities Assessment & PPS 2016.</p>	<p>Continued Progress</p> <p>Planning 2021/23374/FUL was approved with conditions on 18.11.22 for the following; <i>Proposed extension to existing all-weather changing rooms building to accommodate a Dedicated Gymnasium and Internal and External Climbing Walls and associated Bouldering Area, also incorporating a Café and Two Meeting Rooms, together with associated Internal and External Alterations to the existing all-weather changing rooms building.</i></p> <p>As described above this is a project still under development with business planning, securing operators/tenants and securing funding. Costs have been sought from three construction companies as of January 2023. The detailed cost estimates are still awaited but</p>

	PPS 2016.		<p>indicative figures are around £1M excluding the fit out for the indoor climbing and gymnastics.</p> <p>A loan was agreed with the LTA to develop the tennis facilities in 2021/2022 but this has been withdrawn as the LTA are revisiting their national priorities due to a high demand for funds towards Padel Tennis. Tennis is covered in more detail section 9 below.</p> <p>The PPS Strategy Review 2022 identified a need for a master planning exercise for the Sandylands location which would include the Sandylands Sports Complex, this is being progressed and funding has been approved by CDC for the work to be undertaken.</p>
<p>South Craven School</p> <p>Recommendation 5</p>	The Strategy confirmed South Craven as a key multi-sport hub for the District with a recommendation to develop as a key community accessible facility.	<p>Limited progress.</p> <p>Planning Permission for an Air dome expired. No progress in 2019.</p> <p>Limited work with facility operator as commercial company. No ability by the Council to secure Community Use Agreement (CUA) as academy did not upgrade lights to meet min NGB standards and so no grant or ability to secure CUA. No progress in 2019</p>	<p>Positive Direction</p> <p>There is no CUA secured however the school is committed to community access.</p> <p>The appointment of Communihire who are locally based and have a community sport ethos to manage the bookings and lettings since 2020 has been a positive move. The School and Communihire are working together to ensure that</p>

		Academy progressed floodlighting on AGP and outdoor tennis courts captured in the 2021 PPS Refresh.	excellent facilities are available for students and the community.
Malsis Recommendation 4	Planning application for conversion and restoration to create care facilities and upgrade and reopening of sports facilities	Completed. New playing pitches created captured in the 2021 PPS Refresh.	Completed – Malsis site details within the 2021 PPS Refresh.
Community Use Recommendation 6	CDC and NYCC should work with local schools to develop formal community use agreements or commitments for a period to protect community access. The progress reports in 2017 highlighted that NYCC schools all have hire agreements and a charging scheme in place under the LEA and facilities are used by a range of community groups, the pay and play element had not been discussed or investigated.	No change in 2019.	Positive Direction There is a commitment to Community Use at South Craven School and Upper Wharfedale School. The arrangements between the schools and Communihire include an online platform available for bookings, which are mostly block bookings by community clubs but one -off bookings available for pay and play. These arrangements with the schools positively contributes to recommendation 6. Giggleswick School has a formal Community Use Agreement (CUA) for their sports hall outside of education needs. The sports hall is booked by local badminton, tennis, cricket clubs on a regular basis with additional ad hoc use from the rugby club and local schools. This provides an accessible community facility in the mid Craven area. An additional CUA has been agreed for the Pavilion which will be built at the Lords Close Playing Fields.

--	--	--	--

Recommendation 6 – 2016 -Progress Update

- 5.28 Recommendation 6 ‘Community Use’ identifies that CDC and NYCC should work with local schools to develop formal community use agreements. However, it is important to recognise other community venues which have an important role in the district for sports provision. Ingleborough Community Centre is an important community asset in the north of the district. It is a ‘sporting hub’ for the area with a mix of indoor and outdoor facilities including Ingleton swimming pool which is detailed in section 6 below and a bowls green along with cricket and football pitches and the Artificial Turf MUGA which are highlighted in the PPS Strategy Refresh 2022. All the sporting facilities in Ingleton are managed and operated by voluntary organisations in addition to the delivery of sport through local sports clubs which cater for adults and juniors. Similarly, the Deed of Trust for the Sandylands Sports Centre ensures that facilities are accessible and open for the community.

Summary Conclusions – Sports Halls

- 5.29 Since 2016 the supply of four court sports hall provision has not increased but there are an additional two, two court halls and more one court halls. Reference paragraph 5.4 and Table 5 above re number of sports halls - shows more in 2022 than 2016. There has been greater access to sports halls on education sites in part where those sites are being managed by a local company on behalf of the schools. It is important to note that there has been no increase in formal community use agreements (CUA) and as such education sites without a CUA could decide to withdraw access to sports facilities. Given education sites play a key role in providing facilities for community access should any new education-based sports halls be developed a formal CUA would secure community access for both pay and play and sports clubs.
- 5.30 Sports halls use is predominantly through block bookings with the only fully accessible facility for pay and play at Sandylands Sports Centre. South Craven School and Upper Wharfedale School do offer pay and play subject to availability. The mid and north Craven areas are less well served with access to four court sports halls for play and play. Sport and physical activity is being delivered in community halls and venues for example Ingleborough Community Centre, these facilities are important hubs in the more rural areas of the district.
- 5.31 Consideration could be given to undertaking a feasibility and options appraisal which considers the aspirations of Settle College and Settle Area Swimming Pool (reference section 6 below) which may result in findings which could deliver improved access to a four-court sports hall or multipurpose hall for education and pay and play community use in the mid and north Craven areas.
- 5.32 Sandylands Sports Centre facilities are used extensively by a number of Skipton schools who in some cases have insufficient on site facilities to deliver the curriculum. It is the only fully accessible pay and play facility in the District.

- 5.33 The proposed extension to Sandylands Sports Centre for indoor climbing and gymnastics will provide new facilities and opportunities for participation in sport. The evidence of demand and need and business plan for gymnastics has been progressed by the Craven Gymnastics Club. Planning permission is in place, but further work is required on sustainability and funding. The 2016 strategy identified a need for improvements of the aging facilities at Sandylands, whilst there has been work to the sports hall the ancillary facilities such as changing rooms, reception and accessibility have seen little investment and are areas for improvement.
- 5.34 The conclusions in 2016 were that demand could be met by existing stock but the real issue was the quality of the existing facilities which were ageing. A multipurpose space in South Craven at Sandylands Sports Centre/Skipton Tennis Club or Craven Leisure was suggested. The 2023 consultation suggests that there is still a need for a community accessible multipurpose space in South Craven, most likely at Craven Leisure.

6. Swimming Pools

Supply

- 6.1 Table 9 below provides a summary of the swimming pool supply in Craven with Table 10 below providing more detailed analysis on the total supply of swimming pools. In comparison with 2016 there has been no change in the supply of community accessible swimming pools.
- 6.2 Craven Leisure is the only local authority swimming pool. Settle Area Swimming Pool and Ingleton Lido are operated by community organisations, Upper Wharfedale pool is part of the community school and Giggleswick School pool is operated by the independent school. Since 2016 development of the Settle Swimming Pool has included a new changing village, reception, multipurpose space, and café.

Table 9 Summary of Swimming Pool Supply in Craven

Total number of Swimming Pools in Craven	12	All types of swimming pool
Total number of sites	11	Only Craven Leisure has two pools – main and teaching
Community Accessible Swimming Pools	4 pools 3 sites	Craven Leisure, Settle Pool, Upper Wharfedale Pool are accessible as pay and play
Seasonal Community Accessible Swimming Pool	1	Ingleton Lido accessible pay and play
Available for Community Hire	1	Giggleswick School limited by school use and pool design
Accessible as part of a membership package	4	Devonshire Health Spa, Long Ashes Leisure Club, Coniston Hotel, Leisure Club (Grand Fitness @ Rendezvous Hotel) all have a membership offer which includes access to the swimming pool.
Not accessible		The Playaway Centre is an outdoor education residential centre with an outdoor pool as part of their offer. Newfield Hall is a hotel with guest access to the swimming pool.

- 6.3 **Craven Leisure and Settle Area Swimming Pool** have pool programmes which include general swimming, lanes, fun and inflatable sessions, aquacise classes, swimming lessons, disability swimming, splash tots and club use (swimming, underwater hockey). These pools provide public swimming in the market town of Skipton in the south Craven area and Settle in mid Craven. Settle Area Swimming Pool is building back up the programme and opening hours following a lengthy closure for their building project. The pool re-opened in November 2022.
- 6.4 **Giggleswick School** swimming pool is used by Settle Stingrays except during the summer holidays. The pool is available outside of education needs for external bookings, although community access is not part of a formal CUA. The pool provides additional water space although limited by the design in mid Craven.

- 6.5 **Upper Wharfedale School** pool community use is managed by Communihire, the pool is hired to a number of swim schools who deliver children's and toddler swimming lessons. One of the swim schools operates two community sessions a week for general swimming although booking is essential as the maximum pool capacity is 16. The swim schools are responsible for ensuring lifeguarding and safe systems are in place for their activities. Communihire undertake pool water testing during community use with the school having overall responsibility for the pool plant operations. North Yorkshire County Council undertook improvements to the Pool in summer 2021 which included works to the roof, windows, cladding an, heating and ventilation.
- 6.6 It is important to note the value of **Ingleton Outdoor Pool**, although it is not included within the Sport England ANOG guidance for water space calculations. Like Settle Area Swimming Pool this pool is a CIO (Charitable Incorporated Organisation) registered formally as Ingleton Rural Community Association No. 1171743. The history of the pool goes back to 1934 with a major facelift in 1974 to provide a 20m x 8m pool and further improvements in 2005 (filtration, changing), 2013 (seating) and in 2021 (splash zone features, upgrade the entrance, new seating and BBQ facilities, bike parking). During the summer the pool employs seasonal staff with the operations heavily supported by volunteers.

Demand and Consultation

Swim England

- 6.7 Consultation has been undertaken with several operators of swimming pools and a desk top review of the National Governing Body (NGB) Swim England position. Local club information has been collated either by desk top research, or conversations with operators.
- 6.8 Swim England's latest strategic plan which is in the public domain is 'Strategic Plan for Swimming 2017-2021 – Towards a Nation Swimming'. Swim England supported pools with guidance for reopening during different stages of the Covid 19 pandemic and focussed on raising awareness of the importance of swimming and that the increased cost to operate pools in line with guidance was of significant concern for pool operators. This has further been compounded by the increase in energy costs resulting in nationally some pool closures and potential further closures in the future.
- 6.9 In December 2022 Swim England launched their 'Save our Pools' campaign to further remind government that support was needed for vulnerable pools. Nationally there had already been pools which had been closed due to the financial pressures. There are a range of facts which demonstrate the importance of swimming pools and given one example from the latest Active Lives survey that there has been a national rise in pupils unable to swim 25m, the need to retain pools is important. Paragraph 3.22 and Graph 5 show that there has been a decline in children able to swim 25m at national regional and county levels and for the periods of time where data is available in the Craven District.

Local Aquatic Clubs

- 6.10 There are two swimming clubs in the District; Skipton Swimming Club based at Craven Leisure with approximately 148 swimmers (Swim England data) and Settle Stingrays which are based at Giggleswick School with approximately 34 swimmers (Swim England data). Settle Stingrays have in the past also used Settle Area Swimming Pool and there is the potential for a return to Settle Pool for some sessions following the pools re-opening in November 2022.
- 6.11 Skipton Swimming Club host four galas per year, 3 Stepping Stones Galas and an Annual Club Gala at Craven Leisure. The club competes in swim meets across the region. The club has six sessions a week with a mix of early morning, evening and weekend times. The Club has two sessions a week at West Craven Leisure Centre, Barnoldswick as Craven Leisure is unable to accommodate the further sessions that the club would like at Craven Leisure. Club swimmers (approximately 12-15) are also accessing SwimFit sessions which are operated by Craven Leisure. Skipton Swimming Club has swimmers who are competing at national level swim meets and several swimmers are identified as part of the British Swimming pathway with potential to compete in international competition.
- 6.12 Settle Stingrays have four sessions a week and three squads, A, B, and C. The club competes in swim meets across the region. The club train at Giggleswick School and have not, to date, returned to having sessions at Settle Area Swimming Pool.
- 6.13 Craven Energy Triathlon Club have 4.75 hours of pool time per week, some of the time is for 2 lanes only and demand from club members is greater than the current time and space. Craven Leisure is also the base for the club for some runs although the club use several locations for adult and junior run training in and around Skipton such as The Skipton Academy and Aireville Park. The Club is asking for more pool space and time. The impact of this is that there has been a high demand for Craven Leisure adult sessions within the pool programme. The club have started to book the spinning studio as an additional training opportunity for members.
- 6.14 Craven Underwater Hockey Club have adult and junior sessions on Friday evening, the lack of more pool time is a factor in restricting the growth of the club. The club is unable to host matches at home due to lack of pool time.
- 6.15 Ingleton Outdoor Pool closed in January 2023 and will reopen in May 2023 during which time maintenance works will be undertaken as described below in 6.31.

Craven Leisure (Skipton)

- 6.16 Craven Leisure swimming pool is extremely busy in all sessions. The learn to swim programme is at capacity and demand is high with 1000 swimmers on the waiting list. Recruitment of qualified swimming teachers is an issue and work is taking place in partnership with the other local authorities in North Yorkshire and Swim England linked to the preparation for LGR. Craven Leisure has become an authorised Swim England Training Centre for running swim teaching and coaching qualification courses. Rookie and National Pool

Lifeguard Courses are delivered by Craven Leisure. The facility lacks a multipurpose/meeting room to host the classroom elements and works in partnership with The Skipton Academy to provide the facilities needed for the courses. An additional multi-purpose space would be beneficial for example workshops, staff training, meetings, group exercise and hire to sports clubs who are based at Craven Leisure/Aireville Park such as athletics, cycling and triathlon.

- 6.17 There is a demand for Aqua-aerobics classes with existing classes at capacity and as with all group exercise classes in the centre a waiting list is in operations. Capacity to fit more classes into the pool programme due to a full pool programme is not possible. Not being able to access these classes has resulted in some people cancelling their membership. Membership is covered in section 7 below.
- 6.18 The pool toilet, shower and changing are showing signs of their age and are becoming dated and their condition shows sign of wear and tear. There are only two family changing rooms which is not sufficient to serve the customers using the pool. The disability changing is good and fitted with hoists and appropriate changing facilities. The lockers are at the end of their lifespan, regular maintenance is undertaken but the frequency of the need for replacement locks is increasing and is becoming challenging in terms of time and costs. Customers make comments on the frustration of finding lockers not working.
- 6.19 Craven Leisure are aware that their customer base is from a wide geographical area. Customers do not make their choices based on local government boundaries but on the quality of the offer and services, travel times and distances. Many customers are from Skipton and the Craven District area but customers are also travelling from Keighley, Pendle, Clitheroe and Bingley to use the facilities; customers are travelling up to 30 minutes to use Craven Leisure facilities. Sport England Active Places data indicates that are seven public swimming pools within a maximum of 30 minutes from Craven Leisure with the majority in the more densely populated areas to the south of the district.
- 6.20 Investment has been made into improving the energy systems in the Centre. The CHP Unit (Combined Heat and Power) was 13 years old and has been replaced by air source heat pumps and solar panels to reduce energy costs and for the centre to move towards being more carbon neutral. The complete switch over to the new system has been delayed which unfortunately has meant the benefits to date on the reduction of energy costs is still to make an impact. Based on the year to date performance (January 2023) the projected year end was likely to have seen the centre in surplus however, the utility charges which are impacting nationally on leisure facilities has negated the positive growth at Craven Leisure.
- 6.21 The café at Craven Leisure is due to have some minor changes made in early 2023. Through improvements, operation and service delivery the café has started to make a surplus and is well used by the centre's customers and people visiting Aireville Park.

Settle Area Swimming Pool

- 6.22 Settle Area Swimming Pool (SASP) has seen major refurbishment in 2022/2023 in line with the recommendations in the 2016 Built Facilities Strategy. The details are provided below in Table 11. SASP has had a challenging time from 2020 onwards with the impact of Covid 19 on income at a time when the Trustees were mid project planning for the extension and upgrade of the facilities. The facility was closed during the building project and reopened in November 2022. The build project took longer than planned as the closure was extended due to storm damage to the pool roof, however, this has resulted in a new roof to the pool being installed. The cost estimates of the build were exceeded as Settle Pool experienced the impact of increased construction costs resulting from Covid. (para 5.12 above detail similar experience at Ermysted's Grammar School).
- 6.23 The facilities have been transformed and now provide a bright and airy village changing area, better viewing facilities, a café and the FitSpace (a multipurpose community and wellbeing space) which has the flexibility to be divided into three distinct areas. Since reopening in November 2022 the priority has been to build up the programme on offer for the pool and new dry side.
- 6.24 Partnerships are being developed for example with GP practices and the local Pre-School. The centre is directly delivering group exercise classes including spinning, but a limiting factor is availability of qualified instructors in the area. As of January 2023 the centre is directly delivering 6 classes per week and have plans for further development. The new FitSpace has regular baby and toddler soft play sessions and is being hired to community groups. The programme will continue to be developed across direct delivery, partner delivery and bookings. A Business Development Manager has been appointed to drive forward this area of the business including the café. The café is being used by customers of the facility and is gaining a reputation such that people are coming in to access the café even when not using the facilities.
- 6.25 The rebuilding of the learn to swim programme is in hand. There are 150 children on the waiting list for lessons with the pool facing the same challenges as Craven Leisure with teacher recruitment. A shortfall in qualified lifeguards has been addressed through a volunteer recruitment campaign which has seen volunteers come forward who have undergone training. The shortfall of lifeguards has hindered the complete re-opening of the pool seven days a week. The pool reopened at 75% of pre-closure opening hours. As of January 2023 the number of qualified staff has increased and the plans are that the pool programme will expand in line with staffing capacity. As of February 2023 the pool will be operating at 5 hours less than the pre closure hours and will continue to recruit lifeguards to increase opening hours. Volunteer roles have also included support in reception, meet and greet and administration of swimming lessons.
- 6.26 Club Right Leisure Management system is used for bookings and prior to the closure for building 2,000 people were registered on the system. Since promoting the reopening in September 2022 in four months there has been a further 600 registrations and an indication of the positive endorsement of the new facilities.

- 6.27 The pool tank was built in 1974 and as a requirement of the Sport England funding for the recent developments a survey and inspection was a condition of grant. The inspection raised no concerns about the tank and a further structural engineer assessment of the steelworks on the pool hall uprights and roof was positive. The boiler was replaced around 3 years ago and in 2022 the pool pumps, filters and dosing equipment were replaced. There are 75 solar panels on the roof and the requirements to meet BREAM standards with the development means that the centre is better insulated and more energy efficient.
- 6.28 Looking to the future with regards Settle Area Swimming Pool the following has been highlighted:
- During the building works the centre has been fitted for fibre broadband with funding available to connect with existing fibre infrastructure, however there is a need to negotiate with Settle College/NYCC to lay cable across the 200m of the playing fields at the rear of the building to make the final connection. Better connectivity will bring with it more opportunities such as virtual exercise classes, an enhanced customer experience and enable external hires to offer for example digital workshops.
 - The car park is owned and the responsibility of NYCC. There is no serviceable lighting and is pitch black in the evenings. This has a negative impact as for some customers this raises concerns about accessibility, safety, and security.
 - There is land at the rear of the building which is within the pool's lease redline boundary and has the potential for development in the future for example an additional swimming pool and/or health and fitness gym. Land and buildings adjacent to the pool belong to NYCC, part of which is leased to a pre-school. What the long term plans are for this area is unknown but the potential to create a community sports/exercise/wellbeing hub in the future may be an option to be explored.

Ingleton Outdoor Pool

- 6.29 Ingleton Outdoor Pool has an online advanced booking system for swimming with walk ups admitted subject to availability. Private pool hire bookings are available and local booking charges are available for affiliated groups, organisations and residents within a designated catchment area.
- 6.30 The pool is heated during the summer season which starts at the end of May through to September and the pool's plans are to continue to provide heated swimming facilities for families during the summer months. However, given the increase and trend towards cold water swimming in 2022, the pool has offered swimming at selected times during the autumn/winter season and have aspirations to build on and expand cold water swimming opportunities in September – December and April – May. The experience of the trial in 2022 has created demand and has seen the pool tap into a new customer base and the pool intend to continue to trial cold water swimming in April 2023.
- 6.31 Consultation confirmed that the pool has closed from January 2023 whilst maintenance work is undertaken to empty and regrout the pool tank in readiness for reopening at Whitsun in May. There is a need to replace the boiler and new mechanical pool covers would

enable a reduction in the number of staff/volunteers required to open and close the facility. The pool did incur issues with the supply of Chlorine in 2022 during the period when nationally there was a shortfall in supply.

Sport England Demand Data

- 6.32 A new Sport England FPM (Facilities Planning Model) report which assesses supply of pools taking into account the supply of pools from surrounding areas was not commissioned for this Progress Report. In 2016 the report identified that if you exclude Upper Wharfedale and Giggleswick Pools as they are not fully accessible there was an undersupply of 134.6 sqm the equivalent of 2 lanes of a 25m pool. In 2016 it was noted that the neighbouring local authorities also had low levels of pool provision and therefore any additional demand in Craven was unlikely to be met in neighbouring districts.
- 6.33 The evidence above in 2023 particularly for Craven Leisure indicates that the demand for swimming in Craven has increased from residents and from the neighbouring areas. Given in 2016 Craven Leisure was already operating near to capacity at 63% in peak periods and Settle Pool at 42% at peak periods and figures in the 2016 FPM indicated 14.5% of swimmers came from outside of Craven it is very likely that a new FPM would continue to identify an undersupply of water space.
- 6.34 The FPM analysis does not identify future demand based on changes of population. Using the Sport England Facility Calculator (SFC), it is possible to estimate overall future demand for provision of sports halls, swimming pools and indoor bowls rinks, based on population increase.
- 6.35 Using the SFC provides a quantitative estimate of future need, but unlike the FPM the analysis does not identify specific locations for future provision. That needs to be informed by the nature and location of future housing development, local geography and accessibility, and critically the location of existing facilities. This is because future demand may have the potential to be addressed through facility extension, or refurbishment, as well as new build. In 2016 the strategy identified that given the population growth projected to 2032 that the undersupply would increase by an additional 62sqm.
- 6.36 The 2016 Strategy concluded that by 2032 in total, assuming no new pools are opened, and the existing facilities remain open, there will be a need for an additional 197sqm minimum of a 25m pool; this cannot be met by the existing facility stock. This equates to a 4 lane x 25m pool (200 sq. m).
- 6.37 The SFC in 2023 using updated projected growth population for 2032 identifies there would be a need for an additional 2.24 lanes. Although the FPM has not been re-run in 2023 it is likely that the outcome would be similar with an undersupply of 2 lanes. Therefore, in 2023 the indication remains that there is a need for an equivalent of a 4 lane x 25m pool as described in paragraph 6.36.

Strategy Recommendations 2016 - Progress Update

Table 11: Progress Update

Facility	2017 Progress Report	2019 Progress Report	2022 Status
Settle Pool Recommendation 1	<p>The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, including the retention and increase of water space in Settle.</p> <p>Full options report undertaken by Strategic Leisure for the Pool, which includes a more detailed business case feasibility report on preferred option done. Short term roof issues taking priority over long term solution.</p>	<p>Completed</p> <p>Full options report carried out by Strategic Leisure for the Pool, which includes a more detailed business case feasibility report on preferred option done. Short term roof issues.</p> <p>Pool opting for front and side extension to refurbish entrance, changing and create extra space for generating income. Pre application completed and grant offer from Sport England.</p>	<p>Positive Outcome</p> <p>Development completed and opened in November 2022. The development includes a multi-use purpose community wellbeing space, branded the FitSpace, café/kitchen new reception and village change. Planning reference 2020/22081/FUL. Funded by local fundraising and donations, reserves, external grants, loans.</p> <p>In addition to the planned works the pool roof was also replaced in 2022, covered in part by insurance claim for storm damage and additional fundraising enabled solar panels to be installed.</p> <p>Branded under <i>Settle Area Swimming Pool – More than Just a Pool</i> as the facility now has what is described as a FitSpace and is promoted as a wellbeing centre. www.settleswimmingpool.co.uk details of the development.</p>

Summary Conclusions – Swimming Pools

- 6.38 The pools at Giggleswick School and Upper Wharfedale School were excluded as part of the calculation for water space requirements in the district as they are not fully accessible pay and play facilities and this remains the same in 2023.
- 6.39 The consultation undertaken clearly shows that the demand for water space at Craven Leisure exceeds the capacity available. Settle Area Swimming Pool is rebuilding its pool programme and customer base following the building works but equally are expecting demand to be greater than the capacity available. Although an updated Facilities Planning Model (FPM) was not undertaken as part of the progress report the evidence gathered does support the findings in the 2016 Strategy of a future need for more water space. This is further evidenced by the 2023 SFC report.
- 6.40 As in 2016 and confirmed in 2023 there is a need for more water space in Craven given the growth in population. A more detailed study of the demand and need and feasibility of providing additional swimming pool capacity in Craven is required to identify facility options (new, extend, refurbish) and whether an equivalent of a new 25m four lane pool as identified in 2016 is the most appropriate type of swimming pool facility to future proof swimming pool provision in Craven.
- 6.41 In 2016 the need to consider the age, condition, and quality of existing pools in Craven was highlighted as the quality of the offer would reduce over time. In the 2016 strategy the focus was Settle Pool. The recommendation in the 2016 strategy for Settle Pool was completed in 2022, however, this did not include the increase in water space. In 2023 facilities at Craven Leisure, particularly the changing facilities, are clearly showing signs of age, wear and tear, and a reduction in quality due to an increase in demand.
- 6.42 At Craven Leisure and Settle Area Swimming Pool, measures have been put in place to become more efficient and reduce energy consumption. Given the increased energy costs these measures will have had a positive impact on the operation of the facilities and the cost of utilities, continued monitoring of the impact of energy costs at these facilities will be needed. As at January 2023 sports facilities have been excluded from the governments Energy Bill Relief Scheme as the sector has failed to be classified as an Energy and Trade Intensive Industry. The sector are lobbying for change given that pools are already closing and predictions are that there will be significant closures and reductions in services in the future. The evidence clearly indicates that the swimming pools in the Craven District are important and any reduction in service would have a significant impact on wellbeing.

7. Health and Fitness

Supply

- 7.1 Since 2016 it appears there has been no reduction in the number of fitness gyms however the number of stations i.e. the number of pieces of fitness equipment, has increased from 393 to 448 community accessible fitness stations. All facilities require some form of

payment/membership. There is only one local authority facility (Craven Leisure) and one voluntary sector operator (Sandylands Sports Centre gym leased to commercial operator) with both operating no differently to the commercial sector. At Craven Leisure and Sandylands pay and play options are available. The supply of Fitness Suites is detailed in table 12 below.

Table 12: Summary of Fitness Suite Supply

Total Fitness Gyms	15	
Total Fitness Studios	6	
Total Fitness Stations	523	
Total Community Accessible Fitness Suites require some form of membership or pay and play	10	Craven Leisure, Canalside Fitness, Devonshire Spa, Intershape Fitness, Jetts, Long Ashes Leisure Club, Phoenix Fitness, Coniston Hotel, Leisure Club (Grand Fitness @ Rendezvous Hotel), Sandylands Sports Centre. Craven Leisure and Sandylands Sports Centre offer pay as you go in addition to membership.
Total Community Accessible Fitness Stations	448	Craven Leisure has 100 stations and Jetts 150 stations. The remaining fitness suites all have 32 or less stations
Community/Education based Fitness Gyms and studios with restricted use	5 gyms 3 studios	<i>Fitness Gym only</i> Ermysted's Grammar, Giggleswick School, Wharfedale RUFC <i>Gym and Studio</i> Skipton Girls' High School, Skipton Academy, <i>Studio only</i> South Craven School
Community/Education based Fitness Gyms with restricted use	75	Ermysted's Grammar, Giggleswick School, Wharfedale RUFC, Skipton Girls' High School, Skipton Academy

- 7.2 The supply of fitness facilities in Craven overall is at the bottom to middle of the commercial market with some which may be described as more high end being part of a wider Health, Fitness and Spa package. The likes of Craven Leisure, Sandylands, Jetts, Canalside Fitness, Phoenix Fitness ranging from £19-£36 per month for a membership.
- 7.3 Craven Leisure and Sandylands Sports Centre have studio space for group exercise classes. Small group exercise classes are offered at other providers in a space within the gym. Additional studio space is available to hire at Skipton Girls' High School, South Craven College and Skipton Academy.

Demand and Consultation

- 7.4 The information below is from desktop research, site visits and conversations with operators.

Craven Leisure (Skipton)

- 7.5 The gym at Craven Leisure offers cardio and strength machines, free weights and a functional fitness zone. Access to digital fitness tracker and online workouts and resources is included as part of the membership package. A Healthy Lifestyles programme which includes weight management support for adults, exercise referral and stroke rehabilitation is delivered across the gym, studio and swimming pool.
- 7.6 The gym was developed and relocated since the previous 2016 strategy, in 2018 to the front of the building, the location of the gym prior to this is now a studio space accommodating around 20-30 people for group exercise classes depending on the type of class. A dedicated room for spinning houses ten bikes. The gym equipment was purchased directly and owned by the Centre and is coming to the end of the 5 year warranty. Consideration needs to be given to service contracts and future replacement and upgrades.
- 7.7 Although January is typically a peak time for people wanting to use a gym or take part in exercise classes Craven Leisure have seen a growth in membership and demand through 2022 and although there would be some expected drop off post the new year peak this is unlikely to impact massively on what was already a high demand. Group exercise classes are full and a waiting list for up to a maximum of 10 people is maintained for each class to cover any customer cancellations. The demand for spinning classes far exceeds the current capacity and more bikes/space would be beneficial. The gym is busy during the day and at peak times there is often a queue for machines and the capacity of space is nearing maximum. Membership has grown post Covid and is currently 2,500.

Sandylands Sports Centre

- 7.8 The Sandylands gym, group exercise and personal training is operated under a lease agreement with Sandylands Fitness. The facility offers cardio and strength machines, free weights and the studio with spinning bikes. Personal training is available on a 1 to1 or small groups basis and injury rehabilitation can be provided through links with Skipton Injury Clinic. A programme of group exercise classes is available throughout the week. The equipment and internal fittings are owned and maintained by the leaseholder.

Other providers

- 7.9 **Settle Area Swimming Pool** as part of their 2022 developments (2020/22081/FUL) have built a multipurpose fitness space as detailed in 6.22- 6.23 and table 11 above. **Giggleswick School** secured planning permission (2021/23539/FUL) in 2022 which will see the development of a new pavilion at the school's Lords Close Playing fields which will include a community space suitable for health and fitness classes.

Strategy 2016 - Update

- 7.10 The 2016 Strategy did not identify a need, priority or opportunity for additional health and fitness provision. However, it did conclude that there was potential to locate community accessible small facilities in local communities and this remains the case in 2023.
- 7.11 An existing undersupply of 14 fitness stations was calculated in 2016 and that a small undersupply of 32 stations was projected by 2032. The 2022 data shows that an additional 55 stations are now available mainly because of an increase at Craven Leisure from 70 to 100 stations and Jetts having 150 stations.

Summary Conclusions – Health and Fitness

- 7.12 As in 2016 there continues to be a good supply of health and fitness facilities in Craven although these are more dominant in the south of the district where residents can make a choice to suit their needs based on price, middle end provision and fitness and membership packages.
- 7.13 The mid and north areas of the district have limited provision in terms of gyms with resistance and cardio fitness equipment with Phoenix Gym in Settle (a 28 station gym) and Long Ashes Leisure in Wharfedale (a 27 station gym). The addition of the flexible FitSpace at Settle Area Swimming Pool and the proposed new community space at Giggleswick School increase the provision of space for group exercise, health and wellbeing activities in Settle. The 2016 strategy considered increasing community access on education

based sites or the potential to locate fitness provision (resistance and cardio equipment) in community spaces in the rural areas to improve and increase accessibility. Co-location with existing facilities for example Settle Area Swimming Pool or Ingleborough Community Centre is more likely to enable sustainable provision.

- 7.14 In 2016 the strategy concluded there was overall sufficient provision of fitness stations. Since then there has been some change in the overall supply. Supply of fitness stations in 2023 exceeds the projected 2032 undersupply of stations from the 2016 Strategy. This undersupply has been met mainly by Craven Leisure and Jetts fitness stations. Craven Leisure having expanded its provision is currently unable to meet demand. Demand at Craven Leisure for both the gym, spinning sessions and group exercise classes exceeds supply suggesting a need to further increase provision. The detailed demand and supply modelling undertaken in 2016 has not been repeated as part of the progress report and would be required to confirm the supply and demand needs.
- 7.15 Fitness equipment is continually changing and being updated, and where facilities are busy the equipment suffers increased wear and tear which can be challenging for operators to maintain the quality levels customers expect. In addition to the demand at Craven Leisure the current equipment is nearing the end of its 5 year warranty and therefore consideration needs to be given to the best options to maintain a high quality experience for members.

8. Squash

Supply

- 8.1 There are 6 squash courts in Craven located at 2 sites; **Sandylands Sports Centre** and **Giggleswick School**. Since 2016 the Leisure Club (Grand Fitness) in Skipton, now under the name of Rise Fitness no longer has 2 squash courts.
- 8.2 The current supply consists of 4 courts at Sandylands Sport Centre of which 2 are glass backed, and 2 courts at Giggleswick School.

Demand and Consultation

- 8.3 The Sandylands courts are available on a pay and play basis. Skipton Squash League/Club operates a box league and as of January 2023 there are 32 players registered playing regularly in the league. There are three qualified coaches associated with the league listed but their capacity is limited and the Sports Centre has struggled to recruit squash coached to help grow the sport. The club has over 70 players registered who could potentially play in the league. Recreational Racquetball is also played once a week organised by one of the league contacts.

- 8.4 Consultation identified that the Sandylands Courts operate at between 40-50% capacity on average throughout the year. Players do travel some distance as there is a lack of pay and play courts available and to some extent Sandylands has benefitted as a result of other facilities reducing the number of courts or converting courts for other use. The nearest courts to Skipton are at Keighley, Bradford and Pateley Bridge.
- 8.5 The courts at Giggleswick School are available for community hire outside of the school use.
- 8.6 England Squash in their strategic document 'Squash in a Changing World 2021-2025' identify three priorities to increase participation by engaging with partners and ensuring squash is accessible and affordable to all who wish to engage, enhance diversity and nurture talent.

Summary Conclusions – Squash

- 8.7 No change from the 2016 Strategy which concluded there was no need for additional squash courts in the area, assuming the existing level of supply is retained.

9. Tennis

Supply

- 9.1 There are no indoor tennis courts in Craven. In the 2016 strategy the focus for Tennis was Skipton Tennis Centre and the desire to continue to develop the facilities over the next 5 year including the longer term goal of indoor courts. Since 2016, there has been considerable development and improvements at Skipton Tennis Centre and these are outlined below in table 13. Being mindful that there are other tennis facilities in the district the Progress Report gives due consideration to the wider provision for Tennis throughout the District.
- 9.2 The overall supply of tennis courts in Craven is detailed in table 13 below.

Table 13: Supply of Tennis Courts in Craven

Site Name	Post Town	Number of courts	Access Type	Management Type	Year Built

Demand and Consultation

9.3 Consultation has been undertaken with the operator of Skipton Tennis Centre, informal site visits and desk top research of other local tennis clubs have been carried out along with a desk top review of the National Governing Body (NGB) Lawn Tennis Association priorities.

Skipton Tennis Centre

9.4 The developments that have been undertaken at Skipton Tennis Centre since 2016 are highlighted below in table 14.

Table 14: Skipton Tennis Club Developments

2016 Development Priorities	Progress since 2016
2 extra courts creating a 5 court club - This will help the club grow the current programme and meet the needs of the community. The club currently has 120 players and are over subscribed for court space (2015)	As of January 2023 the club facilities include: <ul style="list-style-type: none"> • 5 courts – 3 floodlit • Padel Court – floodlit • Viewing areas with seating • Parking • Heated Clubhouse • Changing facilities • Lounge (with Smart TV) • Club Pro Shop with restringing service • Refreshment Bar • Free Wi-Fi • Kitchen
3 improved LED floodlit courts - This will reduce club running costs and footprint on the environment.	Completed

New Fencing	Completed
Improved changing facilities to provide shower facilities.	<p>The female changing and shower area has been improved and are in working order.</p> <p>There are only changing space and toilets in the male changing rooms with no shower facilities.</p>
Indoor Courts (long term goal) - The longer term goal is to provide 3 indoor courts for the residents of Craven.	<p>This option has been explored with feasibility and business planning taking place working with the Lawn Tennis Association (LTA). A planning application was submitted and agreed with conditions in September 2019. The application was for the extension to Skipton Tennis Centre Clubhouse to provide 4 no. indoor tennis courts, together with extensions comprising stores for sports equipment, link corridors, biomass boiler room/wood pellet store and cafe, and additional adjacent car parking. Planning reference 2019/20610/FUL.</p> <p>The project is paused due the increasing construction costs which have made it cost prohibitive. The aim was to have a financial mix of private funds and LTA loan and possibly S106 developer contributions.</p> <p>To expand provision Skipton Tennis Centre built and opened a Padel court in summer 2022. This has proved to be a successful project and the intention is to add a further two Padel courts and to install a canopy above the courts to enable all weather play. Two additional tennis courts are proposed. The aim being to complete this development 2023/2024. An agreed LTA loan has been withdrawn at present as the LTA revisit their programme of investment in Padel Tennis. Funding sources are being investigated. Access to S106 developer contributions is being negotiated and are subject to criteria in respect of lease agreements and a Community Use Agreements.</p>
There is opportunity to work with Skipton Table Tennis Club to have a Table Tennis room added to indoor tennis courts; an	This was considered in the feasibility work. Consideration was also given to a dedicated gymnastics facility as part of the development.

alternative option would be to develop one court as multi-purpose space, based on wider sporting need. This would be likely to drive more revenue than a single tennis court.	The gymnastics facility planned development is in the proposed extension to the Sandylands Sports Centre described in section 5 above.
---	--

- 9.5 The Lawn Tennis Association (LTA) have worked closely with Skipton Tennis Centre and engaged positively with Craven District Council to help support the developments as detailed above, although Skipton would not fit the LTA requirements for a target location for a community indoor tennis centre. However, the Padel tennis development does support the LTA Vision for 2019-2023 to grow tennis by making it more relevant, accessible, welcoming and enjoyable. Similarly, additional floodlighting at Craven Tennis Centre will enable the game to grow.
- 9.6 In late 2022 Skipton Tennis Centre surveyed the membership to determine how members rate their experience and if they would recommend the tennis Club to others, the response to both questions gave a high rating of satisfaction scoring in the range of 8-10 out of 10 for a net promoter score. There were very positive comments about the service and programme on offer and when asked about what improvements could be made the key themes were:
- Increasing and improving the courts cleaning and maintenance to reduce moss and dirt build up. Courts can become slippery.
 - Covers/Indoor courts would be welcomed.
 - More Padel courts

Local Craven District Tennis Clubs

- 9.7 In 2022 **Craven Tennis Club (Gargrave)** installed 'Tweener – LED' floodlights on two of their interconnected all weather tennis courts with the aim to increase participation throughout the year. (Planning reference 2022/23935/FUL). In total the club has four grass courts playable for four months during the year and three all-weather courts. At the time of submitting the planning application the club had in the region of 130 members and 6,000 visits per annum, it is anticipated that the installation of the floodlighting will support growth in participation and membership of the club. The club had calculated that there would be 2,600 hours of additional playing time available through the year because of the floodlight installation. A visual non-technical site visit in January 2023 found the facilities to be in good condition. The club has teams in local leagues and opportunities for recreational tennis. A Croquet club is based at the facilities.
- 9.8 **Austwick Tennis Club** has two all-weather courts and a third court which is part of multipurpose games area. A club house serves both the tennis and nearby bowling green. A play area is adjacent to the sports provision creating a hub for activity. A visual non-technical site visit in January 2023 found the facilities to be in good condition. The club plays in local leagues and books Giggleswick School sports hall for winter tennis. There are also opportunities for recreational tennis.

- 9.9 **Crosshills Tennis Club** has 3 all-weather courts which are floodlit and a small club house. A visual non-technical site visit in January 2023 found the facilities to be in good condition. The club has teams in local leagues and opportunities for recreational tennis.
- 9.10 Skipton, Craven, Crosshills and Austwick Tennis Clubs all offer social and competitive tennis for adults and juniors. All three clubs enter teams into the Wharfedale Tennis League and the Bradford Parks and Friendly Leagues.
- 9.11 **Bentham Playing Fields Association** facilities include two hard surface tennis courts. The courts are overmarked for netball and basketball and are used by the local community at no charge. The surface and floodlighting are in poor condition and not in full working order. There is no tennis club. The Bentham Playing Fields Association are active in promoting the use of the facilities and organising events and fundraising to make improvements to the playing fields facilities (football pitch, play area, skate park, pavilion). The land is leased to the Playing Fields Association from the company, Angus Fire and from Craven District Council.

Summary Conclusions – Tennis

- 9.12 The facility developments at Skipton Tennis Centre have increased the provision of tennis courts and introduced Padel Tennis to the district which in turn has provided increased participation opportunities. The Padel Tennis has proved successful since opening and the demand for additional courts has been created. Skipton Tennis Centre are working closely with the LTA and Sandylands Sports Centre to further develop and expand the opportunities for tennis in the district. Indoor courts remain an aspiration, this project remains paused for the foreseeable future in favour of additional outdoor and Padel tennis courts.
- 9.13 Access to tennis courts and clubs is good with courts and clubs located across the district. With the exception of the courts in Bentham the quality of the courts is good, overall, it will be important to ensure that quality of the courts and facilities continue to be maintained and the provision secured as these are important community accessible facilities which in some cases are adjacent to other sports provision or host other sports.

10. Other Sports Facility Needs Identified through Consultation

- 10.1 The 2016 Built Facilities Strategy included references to Bowls, Skipton Cycling Club, and Athletics and updates for these sports are below.
- 10.2 As a result of reviewing the 2016 Strategy, Indoor Climbing has been included as an additional sport worthy of inclusion and more detail has been added for Gymnastics considering the proposed development of new facilities at Sandylands Sports Complex. The details for both sports are included in Section 5 above.

Bowls

- 10.3 In 2016 the Strategy identified there are 15 Bowling Crown Green Bowls clubs/facilities across the Craven District (2 inside YDNP). Most have their own pavilion / clubhouse. The 2016 Strategy recommended that due to the predicted increase in the number of older people, CDC should seek to protect and enhance bowling provision to ensure that this resource is supported to meet the changing demographics. The 2016 strategy did not identify venues where indoor short mat bowls clubs took place.
- 10.4 In 2023 there are 21 Bowls Clubs identified in the district. There is no indoor bowling rink, although indoor short mat bowls clubs take place in community halls. The Bowling Clubs are identified in table 15 below.

Table 15: Outdoor and Indoor Bowls in Craven

Outdoor Bowling Greens (Total 15)	Indoor Bowls (Total 6)
Austwick Bowling Club	Clapham Indoor Bowling Club
Bentham Springfield Bowling Club	Embsay Village Hall Carpet Bowls Club
Broughton Road Bowling Club	Gargrave Indoor Bowling Club
	Glusburn Indoor Bowling Club
Cononley Bowling Club	Ingleton Indoor Bowling Club
Craven Bowling Club (Skipton)	Langcliffe Institute Bowling Club
Crosshills & District Bowling Club	
Gargrave Bowling Club	
Grassington & District Bowling Club	
Grassington Bowls & Pétanque	
Ingleborough Bowling Club	
Settle Bowling Club	
Skipton Devonshire Bowling Club	
Springfield Bowling Club (High Bentham)	
Sutton In Craven Bowling Club	
Whinfield Bowling Club	

Cycling

- 10.5 The 2016 Strategy through consultation with Skipton Cycling Club and Craven Energy Triathlon Club identified a need for a closed road cycling circuit. However, it was clear that an options appraisal and business case would inform any decisions taken on any future facility. The British Cycling position was they would support any development with technical guidance but not funding as it would not fit with their priorities.
- 10.6 Closed road circuits near to Craven are located at Leeds, Nelson, Bradford and York in areas of larger population. Craven has seen the development of BMX/Pump tracks. It should be noted that BMX/Pump tracks are included within the 2016 Open Spaces Strategy and are located in Burton In Lonsdale, and Aireville Park, Skipton).
- 10.7 Since 2016 there have been additional developments with the building of the Pump Tracks at the following locations;
- Ingleton built in 2017 (Planning reference 45/2015/16039). The existing track is in good condition but there are further aspirations to extend the provision and Ingleton Parish Council have agreed to allow an adjacent field to be developed by the young people in the village into a more challenging track, designed & built by the riders on Parish Council land. Insurance, maintenance etc. have yet to be confirmed.
 - Settle – Millennium Gardens built in 2022 with lighting to extend the period of useable time. (Planning reference 2021/23347/FUL)
 - Skipton – To be provided as part of on-site developer contributions at Hawbank Fields (Planning Reference 2021/23027/CND). Awaiting construction
- 10.8 Given the available closed road circuits within less than hour of Craven and the development of BMX/Pump tracks in the area it can be considered that the need identified in 2016 is met. The priorities of Sport England and British Cycling is to increase participation. British Cycling 'A Cycling Nation' project looks to increase participation in all cycling disciplines and by encouraging commuter and active travel. In 2022 British Cycling secured funding from Sport England to further breakdown the barriers for participation in cycling and provide pathways for the cycling disciplines.

Athletics

10.9 There are three Athletics Clubs in the District, one Triathlon club and a regular Park Run as detailed below;

Table 16: Athletics and Running Clubs

Club	Summary
Skipton Athletics Club	Cross county, fell/hill, road running and track and field. Based at Aireville Park Book athletics track at Keighley.
Wharfedale Harriers	Cross county, fell/hill, road running and track and field. Based at Silsden Park/School.
Settle Harriers	Cross county, fell/hill, road running and track and field. Based from Giggleswick School.
Park Run	Volunteer run weekly event Aireville Park- Skipton Supported by Skipton Athletics Club
Craven Energy Triathlon Club	Based at Craven Leisure, runs are mainly form Aireville Park and Craven College. Use Keighley Athletics Track

10.10 England Athletics Strategy 2021-2032 has a vision with runners and athletes at its heart by creating opportunities, enhancing experiences and powering potential. They want to support clubs to be safe, sustainable, and welcoming and the best that they can be and create vibrant environments for their athletes. Through their National Facilities Strategy 2018-2025 the aim is to create innovative and inspiring network of sustainable athletics facilities with the capacity to meet both current and future demand across England. There is a hierarchy of facilities from compact athletics, club venues, regional, national and international venues with a reference that for a sustainable model co-location within a wider sports complex should be considered and that alternatives beyond a traditional 400m oval that can provide for the elements of run, jump and throw can be taught and some training take place at scaled down facilities.

- 10.11 In the 2016 Strategy Skipton Athletics Club highlighted the need for a facility that could facilitate the delivery of coaching and support the growth of the club. It also identified there is the potential to work with other sports and facilities. As with cycling in 10.6 above the master planning exercise at the Sandylands Complex should consider the demand and need for facilities which would enhance provision for athletics which additionally would benefit Triathlon.

Rifle and Pistol Club

- 10.12 The Wellington Rifle & Pistol Club is in an independent building to the rear of Sandylands Sports Centre. The Sandylands Management are aware that the club has undertaken refurbishments of the facilities which is confirmed on the clubs website. The club operates daytime and evening sessions Monday – Thursday and Sunday morning subject to a range officer being available for the required security and safety. The club is a member of the national small- bore rifle association.
- 10.13 The 2016 Strategy did not reference the facilities however, the facilities have been part of sports centre site and are listed in the Declaration of Trust in 1984.

Summary Conclusions – Other Sports Facilities

- 10.14 No change since 2016; CDC should seek to protect and enhance bowling provision to ensure that this resource is supported to meet the changing demographics.
- 10.15 In 2016 the strategy identified a need in future facility provision for a closed circuit cycling in the location of Sandylands. Recommendation 8 in the 2016 strategy was for further work be undertaken to develop the business case for investment in a closed circuit cycle track, however there has been no work undertaken to date. Recommendation 7 in 2016 also suggested further work to assess the development of improved tennis and multi-sport facilities at Sandylands Sports Centre. As described above work in this area has seen progressed. The PPS Refresh in 2021 supported the 2016 recommendation for a master planning exercise to be undertaken for Sandylands.
- 10.16 CDC have agreed funding for the master plan work to be undertaken and an external contractor to be appointed. The contractor will be required to work with all stakeholders to develop a long term masterplan for the wider Sandylands Complex and as part of the work give due consideration for the demand and needs for athletics and cycling as organised sports and for informal participation. The master plan will help support future investment decisions.

11. Needs, Priorities and Opportunities – Update 2023

11.1 The summary conclusions from the sections above for sports halls, swimming pools, health and fitness, squash tennis and other sports are collated below in table 17.

Table 17: Summary Conclusions by facility type

Facility Type	Summary Conclusions
Sports hall	<ul style="list-style-type: none"> Since 2016 the supply of four court sports hall provision has not increased but there are an additional two, two court halls and more one court halls. Reference paragraph 5.4 and Table 5 above re number of sports halls - shows more in 2022 than 2016. There has been greater access to sports halls on education sites in part where those sites are being managed by a local company on behalf of the schools. It is important to note that there has been no increase in formal community use agreements (CUA) and as such education sites without a CUA could decide to withdraw access to sports facilities. Given education sites play a key role in providing facilities for community access should any new education-based sports halls be developed a formal CUA would secure community access for both pay and play and sports clubs. Sports halls use is predominantly through block bookings with the only fully accessible facility for pay and play at Sandylands Sports Centre. South Craven School and Upper Wharfedale School do offer pay and play subject to availability. The mid and north Craven areas are less well served with access to four court sports halls for play and play. Sport and Physical activity is being delivered in community halls and venues for example Ingleborough Community Centre, these facilities are important hubs in the more rural areas of the district. Consideration could be given to undertaking a feasibility and options appraisal which considers the aspirations of Settle College and Settle Area Swimming Pool (reference section 6 above) which may result in findings which could deliver improved access to a four-court sports hall or multipurpose hall for education and pay and play community use in the mid and north Craven areas. Sandylands Sports Centre facilities are used extensively by a number of Skipton schools who in some cases have insufficient on site facilities to deliver the curriculum. It is the only fully accessible pay and play facility in the District. The proposed extension to Sandylands Sports Centre for indoor climbing and gymnastics will provide new facilities and opportunities for participation in sport. The evidence of demand and need and business plan for gymnastics has been progressed by the Craven Gymnastics Club. Planning permission is in place, but further work is required on sustainability and funding. The 2016 strategy identified a need for improvements of the aging facilities at Sandylands. Whilst there has been work to the sports hall the ancillary facilities such as changing rooms, reception and accessibility have seen little investment and are areas for improvement.

	<ul style="list-style-type: none"> The conclusions in 2016 were that demand could be met by existing stock but the real issue was the quality of the existing facilities which were ageing. A multipurpose space in South Craven at Sandylands Sports Centre/Skipton Tennis Club or Craven Leisure was suggested in 2016. The 2023 consultation suggests that there is still a need for a community accessible multipurpose space in South Craven, most likely at Craven Leisure.
Swimming Pools	<ul style="list-style-type: none"> The pools at Giggleswick School and Upper Wharfedale School were excluded as part of the calculation for water space requirements in the district as they are not fully accessible pay and play facilities and this remains the same in 2023. The consultation undertaken clearly shows that the demand for water space at Craven Leisure exceeds the capacity available. Settle Area Swimming Pool is rebuilding its pool programme and customer base following the building works but equally are expecting demand to be greater than the capacity available. Although an updated Facilities Planning Model (FPM) was not undertaken as part of the progress report the evidence gathered does support the findings in the 2016 Strategy of a future need for more water space. This is further evidenced by the 2023 SFC report. As in 2016 and confirmed in 2023 there is a need for more water space in Craven given the growth in population. A more detailed study of the demand and need and feasibility of providing additional swimming pool capacity in Craven is required to identify facility options(new, extend, refurbish) and whether an equivalent of a new 25m four lane pool as identified in 2016 is the most appropriate type of swimming pool facility to future proof swimming pool provision in Craven. In 2016 the need to consider the age, condition, and quality of existing pools in Craven was highlighted as the quality of the offer would reduce over time. In the 2016 strategy the focus was Settle Pool. The recommendation in the 2016 strategy for Settle Pool was completed in 2022, however, this did not include the increase in water space. In 2023 facilities at Craven Leisure, particularly the changing facilities, are clearly showing signs of age, wear and tear, and a reduction in quality due to an increase in demand. At Craven Leisure and Settle Area Swimming Pool, measures have been put in place to become more efficient and reduce energy consumption. Given the increased energy costs these measures will have had a positive impact on the operation of the facilities and the cost of utilities, continued monitoring of the impact of energy costs at these facilities will be needed. As at January 2023 sports facilities have been excluded from the governments Energy Bill Relief Scheme as the sector has failed to be classified as an Energy and Trade Intensive Industry. The sector are lobbying for change given that pools are already closing and predictions are that there will be significant closures and reductions in services in the future. The evidence clearly indicates that the swimming pools in the Craven District are important and any reduction in service would have a significant impact on wellbeing.
Health and Fitness	<ul style="list-style-type: none"> As in 2016 there continues to be a good supply of health and fitness facilities in Craven although these are more dominant in the south of the district where residents can make a choice to suit their needs based on price, middle end provision and fitness and membership packages.

	<ul style="list-style-type: none"> The mid and north areas of the district have limited provision in terms of gyms with resistance and cardio fitness equipment with Phoenix Gym in Settle (a 28 station gym) and Long Ashes Leisure in Wharfedale (a 27 station gym). The addition of the flexible FitSpace at Settle Area Swimming Pool and the proposed new community space at Giggleswick School increase the provision of space for group exercise, health and wellbeing activities in Settle. The 2016 strategy considered increasing community access on education based sites or the potential to locate fitness provision (resistance and cardio equipment) in community spaces in the rural areas to improve and increase accessibility. Co-location with existing facilities for example Settle Area Swimming Pool or Ingleborough Community Centre is more likely to enable sustainable provision. In 2016 the strategy concluded there was overall sufficient provision of fitness stations. Since then there has been some change in the overall supply. Supply of fitness stations in 2023 exceeds the projected 2032 undersupply of stations from the 2016 Strategy. This undersupply has been met mainly by Craven Leisure and Jetts fitness stations. Craven Leisure having expanded its provision is currently unable to meet demand. Demand at Craven Leisure for both the gym, spinning sessions and group exercise classes exceeds supply suggesting a need to further increase provision. The detailed demand and supply modelling undertaken in 2016 has not been repeated as part of the progress report and would be required to confirm the supply and demand needs. Fitness equipment is continually changing and being updated, and where facilities are busy the equipment suffers increased wear and tear which can be challenging for operators to maintain the quality levels customers expect. In addition to the demand at Craven Leisure the current equipment is nearing the end of its 5 year warranty and therefore consideration needs to be given to the best options to maintain a high quality experience for members.
Squash	<ul style="list-style-type: none"> No change from the 2016 Strategy which concluded there was no need for additional squash courts in the area, assuming the existing level of supply is retained.
Tennis	<ul style="list-style-type: none"> The facility developments at Skipton Tennis Centre have increased the provision of tennis courts and introduced Padel Tennis to the district which in turn has provided increased participation opportunities. The Padel Tennis has proved successful since opening and the demand for additional courts has been created. Skipton Tennis Centre are working closely with the Lawn Tennis Association (LTA) and Sandylands Sports Centre to further develop and expand the opportunities for tennis in the district. Indoor courts remain an aspiration, this project remains paused for the foreseeable future in favour of additional outdoor and Padel tennis courts. Access to tennis courts and clubs is good with courts and clubs located across the district. With the exception of the courts in Bentham the quality of the courts is good, it will be important to ensure that quality of the courts and facilities continue to be maintained and the provision secured as these are important community accessible facilities which in some cases are adjacent to other sports provision or host other sports.

Other Sports	<ul style="list-style-type: none"> • No change since 2016; CDC should seek to protect and enhance bowling provision to ensure that this resource is supported to meet the changing demographics. • In 2016 the strategy identified a need in future facility provision for a closed circuit cycling in the location of Sandylands. Recommendation 8 in the 2016 strategy was for further work be undertaken to develop the business case for investment in a closed circuit cycle track, however there has been no work undertaken to date. Recommendation 7 in 2016 also suggested further work to assess the development of improved tennis and multi-sport facilities at Sandylands Sports Centre. As described above work in this area has seen progressed. The PPS Refresh in 2021 supported the 2016 recommendation for a master planning exercise to be undertaken for Sandylands. • CDC have agreed funding for the master plan work to be undertaken and an external contractor to be appointed. The contractor will be required to work with all stakeholders to develop a long term masterplan for the wider Sandylands Complex and as part of the work give due consideration for the demand and needs for athletics and cycling as organised sports and for informal participation. The master plan will help support future investment decisions.
--------------	--

- 11.2 In 2016 justification for the inclusion of the statement *“there is potentially a need to consider additional provision of swimming pools in the District, plus a need to address identified demands for community accessible health and fitness provision. There is also a need to replace some existing sports and leisure facilities in Craven in the medium to long term (3-10 years)”* was provided based on the local context and the supply and demand analysis.
- 11.3 The updated position based on the findings within this Progress Report is “ ***there continues to be a need to consider additional provision of swimming pools in the District and the provision of good quality and accessible community sport and leisure facilities in the north mid and south Craven areas.***” The reasons for this are:
- Craven is a rural district and access to services can be difficult. Strategic documents support the development of vibrant, strong and well connected communities to promote health, wellbeing and quality of life by safeguarding and improving sport, open spaces and built sports Facilities. (Table 1)
 - The population is projected to grow by 2032 to a level slightly greater than projected in 2016 and coupled with new housing development will be a driver for increased future demand.
 - Reducing health inequalities and increasing participation continues to be important in Craven. There has been no significant improvements in health inequalities in Craven since 2016 (Table 2). The provision of good quality, local community facilities, accessible and affordable to meet identified need, is key to facilitating participation growth.

- Retaining and improving the quality of provision is important in Craven given there has been a slight increase in adult participation since 2016 (3.13, table 3). Data for children and young people in North Yorkshire indicates a decrease in those that are active whilst the fairly active and inactive have stayed the same and children being able to swim 25m unaided has fallen and is below the national average (Table 4, Graph 4)
- People are more likely to participate if accessibility in terms of geographic location and programming/opening hours are suitable to their needs.

Main Priorities 2023

11.4 The Vision for the future of sport and leisure in Craven in the 2016 Built Facilities Strategy is:

To encourage more people to be more active, more often, by facilitating provision of, and access to, a range of quality, accessible and sustainable facilities

The Vision and aims of the strategy underpin the updated priorities below. The main priorities are based on the progress and changes since 2016.

- a) The sports hall provision in South Craven is sufficient and there is no requirement for a new sports hall. The existing supply should be retained with the quality of the facilities maintained and where necessary improved. Sandylands Sports Centre is a key facility as it is the only community sports hall provision that is fully accessible to the community not being based on an education site. It remains important to ensure that supply continues to meet demand and that community access to sports halls on education sites in South Craven is retained.
- b) The 2016 strategy highlighted the opportunity to develop a multipurpose space at Sandylands Sports Centre in partnership with tennis to realise improved tennis facilities and space for other sport and activities. Sandylands Sports Centre have superseded this with the proposed extension for a dedicated gymnastics and indoor climbing facilities and café. The Tennis Centre have developed additional outdoor courts and Padel tennis. Evidence supports the need for gymnastics and tennis facility development. The Business Case for indoor climbing and café needs further development.
- c) There is continued evidence to support the need for additional multi-purpose space in Skipton as identified in the 2016 strategy. Given the proposed sports specific development at Sandylands Sports Centre and a shift away from the original plans for a multi-use space and indoor tennis development, and when taking into consideration the ever increasing demand for a multipurpose space at Craven Leisure, any future proposals for a new multi-purpose facility, should be considered in the first instance to be provided on the Craven Leisure site.

- d) There is more limited access to sports halls in the Mid and North Craven areas and the priority should be to retain community access on Education sites at Giggleswick and in Upper Wharfedale. The opportunity exists to look at the feasibility and options appraisal to provide a sports hall or multipurpose hall as a partnership project between Settle College, Settle Area Swimming Pool and NYCC who own the land.
- e) The access to all community facilities such as Ingleborough Community Centre should be maximised to support participation and quality improved where necessary to facilitate this.
- f) A more detailed study into the demand, need and feasibility of providing additional swimming pool capacity in Craven is required to identify facility options and whether a 25m four lane pool as identified in 2016 is the most appropriate facility to future proof swimming pool provision in Craven.
- g) Withstanding the priority above, improvements to the quality of the changing rooms and lockers at Craven Leisure is required.
- h) Although there is sufficient supply of health and fitness facilities these dominate the South area. Increasing access to health and fitness in the North and Mid Craven area by co-location of with existing facilities for example at Settle Area Swimming Pool and Ingleborough Community Centre, will improve accessibility and reduce the need to travel is more likely to enable sustainable provision.
- i) Given priority c) above and the demand for group exercise, spinning and gym use at Craven Leisure the aim should be to develop and invest in the dry side facilities to increase capacity at the site and widen opportunities for participation in activities for individuals and clubs.
- j) The master planning on the Sandylands site is cross cutting with the Built Facilities Strategy and the PPS Refresh 2021. It should be a priority that any future investment and development at Sandylands site is undertaken with the full involvement of all key stakeholders.

Investment Needs

- 11.5 The Progress reports concurs with the 2016 Strategy that there is and continues to be a need for capital investment in Craven's existing facilities. It is important to maintain and update existing facilities as increased participation is more likely to be achieved if environments in which people take part are fit for purpose. There is also a need to continue to invest in additional facility provision.
- 11.6 The priority investment needs are listed below. Timescales have been assigned in line with the 2016 strategy where short term = 1- 3 years, medium term = 3 - 5 years and long term = 5 – 10 years.

- Additional pool provision at Craven Leisure and/or Settle Area Swimming Pool – detailed feasibility and options appraisal required to determine type and location. (*Feasibility – short term; Outcomes delivered – medium- long term*).
- Changing and lockers at Craven Leisure to replace ageing provision. (*Short term*).
- A multipurpose space in South Craven- most likely at Craven Leisure to provide a flexible space to increase capacity and opportunities for participation. (*Feasibility – short term; Outcomes delivered – medium- long term*).
- Sports hall or multipurpose small hall in Mid Craven – most likely at Settle Area Swimming Pool with dual use agreement with Settle College. Detailed feasibility and options appraisal required. (*Feasibility – short term; Outcomes delivered – medium- long term*).
- Continued improvements to existing facilities at Sandylands Sports centre to enhance the quality of existing provision and overall customer experience. (*Short- Medium term*)
- There is evidence of demand and need for a gymnastics facility and a proposed development at Sandylands Sports Centre has planning permission. Further work on business planning including governance structure, operational model and sustainability plans is needed. (*Short term*)
- Subject to the outcomes from the master planning exercise at Sandylands, identify priority areas for investment across the whole of the Sandylands Complex. (*Master planning – in progress, Outcomes delivered – medium- long term*).

- 11.7 The financial and funding landscape in the public, private and VCSE sectors has seen significant change since 2016 because of external factors impacting on the economy. Therefore, it is important that detailed business planning is undertaken to make the case for investment. Detailed business planning provides clarity about the long term sustainability of any investment in facilities and how the investment will impact on creating opportunities for people to be active, increase participation and contribute to improved health, wellbeing and quality of life.
- 11.8 In 2016 the Strategy highlighted that the delivery of improvements and additional facilities would only result from a local partnership approach. This is equally if more relevant in 2023 with the challenges in the public sector and external grant making bodies. There has been a growing emphasis on collaborative and partnership working by funders and in the public sector since 2016.
- 11.9 For example within Sport England's Uniting the Movement Implementation Plan 2022-2025 one of the catalysts for change is identified as having effective investment models “*The right kinds of investment, timed well and delivered skilfully can stimulate demand, provide opportunities to get active, enable innovation, encourage collaboration, reduce inequalities and enable greater sustainability.*” The plan identified that by 2025 change will be achieved by “*Organisations in the health, education, transport and fitness and leisure sectors will be collaborating at all levels with the sport and physical activity sector to break down the barriers that exist for people in taking part.*”

- 11.10 Recommendation 2 (R2) in 2016 was “CDC identifies the level of capital funding required to address the identified investment needs and seeks to secure S106 contributions and adoption of CIL to secure investment for the identified needs” with the action to “Ensure all identified facility needs are reflected in the CIL/S106 funding requirements for the District”. This has been completed with the adoption of the Local Plan and the implementation of Appendix A: INF3 Policy- Sport, Open Space and Built Sports Facilities.
- 11.11 Between 2016 and 2022 £827,399 of funding has been secured through Section 106 legal agreements across all the typologies in the INF3 Policy. During the period 2016-2022 £386,252 of improvements have been made across all INF3 typologies. The requirements for projects to access allocated S106 funds are stated within the letter of award for the funding from CDC, this ensures that projects are robust and the investment will support the delivery of strategic priorities and facilitate increased participation.

12. Recommendations and Actions

- 12.1 The 2016 Strategy made eight recommendations, within this report the progress against these recommendations has been described and priorities and investment needs as at 2023 have been updated in section 11 above. The findings from the work undertaken to produce this Progress Report have led to the following updated recommendations and actions in tables 18 and 19 below.

Table 18: Updated Recommendations 2023

2016 Recommendations	2023 Updated Recommendations
RECOMMENDATION 1 (R1) The need to replace ageing facilities is recognised and planned for appropriately and investment is required to achieve this, including the retention and increase of water space in Settle and new or fully refurbished sports hall at Sandylands Sports Centre.	RECOMMENDATION 1 (R1) - UPDATED The need to provide additional facilities, replace or update ageing facilities is recognised and planned for appropriately and investment is required to achieve this. Section 11 paragraph 11.4 above identifies the revised priorities related to this recommendation, as of 2023.
RECOMMENDATION 2 (R2) CDC identifies the level of capital funding required to address the identified investment needs and seeks to secure S106 contributions and adoption of CIL (possibly in the future) to secure investment for the identified needs.	RECOMMENDATION 2 (R2) – NO CHANGE CDC identifies the level of capital funding required to address the identified investment needs and seeks to secure S106 contributions and adoption of CIL (possibly in the future) to secure investment for the identified needs.
RECOMMENDATION 3 (R3) CDC adopts the suggested sub area approach to provision of	RECOMMENDATION 3 (R3) – NO CHANGE CDC adopts the suggested sub area approach to provision of

participation opportunities through formal and informal facilities and enables this local approach in partnership working driven by increased investment in sports facilities.	participation opportunities through formal and informal facilities and enables this local approach in partnership working driven by increased investment in sports facilities.
RECOMMENDATION 4 (R4) It is recommended that the pool and sports hall on the former Malsis school site are closed – surplus to requirements.	Completed
RECOMMENDATION 5 (R5) South Craven School is developed as a key community accessible sports facility; improvements to the tennis courts and pitches should progress, and the sports hall capacity be maximised for use by local clubs.	RECOMMENDATION 5 (R5) – UPDATED Where an education site looks to develop or improve sports facilities a Community Use Agreement (CUA) should be encouraged to secure community use.
RECOMMENDATION 6 (R6) CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community access (pay and play usage as a priority).	RECOMMENDATION 6 (R6) - NO CHANGE CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community access (pay and play usage as a priority).
RECOMMENDATION 7 (R7) Further work is undertaken to assess the business case for the development of improved tennis and multi-sport facilities at Sandylands Sports centre.	Completed - with new facilities at Skipton Tennis Centre and Sandylands Sports Centre's proposal for the development of dedicated indoor climbing and gymnastics supersedes the recommendation for multi-sport facilities.
RECOMMENDATION 8 (R8) Further work is undertaken to develop the business case for investment in, and development of a closed circuit cycling track, and the future development of bowls facilities.	RECOMMENDATION 8 (R8) – UPDATED Following the master planning at Sandylands which will be undertaken in 2023 develop the business case(s) for investment in the masterplan priority outcomes.
RECOMMENDATION 9 (R9) New 2023	RECOMMENDATION 9 (R9) - NEW CDC (North Yorkshire Council as from 1st April 2023) should facilitate the delivery of sport and leisure provision in the Craven District area. To ensure that community access to good quality

	facility provision and opportunities is provided in the most appropriate and sustainable manner whether that be direct delivery or support for providers and by encouraging partnership and collaborative working.
--	--

Table 19: Progress Report Updated Recommendations and Action Plan 2023

Updated Recommendation 2023	Action	Lead Responsibility	Timescale Short = 1- 3 years Medium = 3 – 5 years Long = 5 – 10 years	Resources
RECOMMENDATION 1 (R1) - UPDATED The need to provide additional facilities, replace or update ageing facilities is recognised and planned for appropriately and investment is required to achieve this.	Additional pool provision at Craven Leisure and/or Settle Area Swimming Pool – detailed feasibility and options appraisal required to determine type and location.	CDC/NYC	Feasibility – Short Outcomes delivered – Medium - Long	CDC/NYC officers Input from stakeholders e.g. SASP. Potential external expertise.
	Changing and lockers at Craven Leisure to replace ageing provision	CDC/NYC	Short	CDC/NYC officers
	A multipurpose space in South Craven - most likely at Craven Leisure to provide a flexible space to increase capacity and opportunities for participation.	CDC/NYC	Feasibility – Short Outcomes delivered – Medium - Long	CDC/NYC officers Input from stakeholders e.g. Sandylands Sports Complex, Education sites. Potential external expertise.
	Sports hall or multipurpose small hall in Mid Craven – most likely at	CDC/NYC	Feasibility – Short	CDC/NYC officers

	Settle Area Swimming Pool with dual use agreement with Settle College. Detailed feasibility and options appraisal required.		Outcomes delivered – Medium - Long	SASP Potential external expertise.
	Continued improvements to existing facilities at Sandylands Sports centre to enhance the quality of existing provision and overall customer experience	Sandylands Sport Centre	Short - Medium	Trustees and staff Support CDC/NYC officers Potential external expertise.
	There is evidence of demand and need for a gymnastics facility and a proposed development at Sandylands Sports Centre has planning permission. Further work on business planning including governance structure, operational model and sustainability plans is needed.	Craven Gymnastics Club in partnership with Sandylands Sport Centre	Short	Club management committee and volunteers. Trustees and staff Sandylands Sports Centre. British Gymnastics expertise. Support CDC/NYC officers
RECOMMENDATION 2 (R2) – NO CHANGE CDC identifies the level of capital funding required to address the identified investment needs and seeks to secure S106 contributions and adoption of CIL (possibly in the future) to secure investment for the identified needs.	This will be done by continuing to apply Local Plan Policy INF3 and Appendix to secure developer contributions for the future provision and delivery of sport and leisure facilities and participation opportunities. Ensure all identified facility needs are reflected in developer contributions/S106 agreements.	CDC/NYC	Ongoing secure contributions. INF3 contributions reviewed in line with policy and Local Plan updates.	CDC/NYC officers

RECOMMENDATION 3 (R3) – NO CHANGE CDC adopts the suggested sub area approach to provision of participation opportunities through formal and informal facilities and enables this local approach in partnership working driven by increased investment in sports facilities.	This will be done by continuing to apply Local Plan Policy INF3 and the INF3 calculator based on the sub area approach. Ensure all identified facility needs are reflected in developer contributions/S106 agreements.	CDC/NYC	Ongoing secure contributions. INF3 contributions reviewed in line with policy and Local Plan updates.	CDC/NYC officers
RECOMMENDATION 5 (R5) - UPDATED Where an education site looks to develop or improve sports facilities a Community Use Agreement (CUA) should be encouraged to secure community use.	Subject to planning application submissions, review the need to have a CUA. As appropriate CUA to be a condition of planning approval.	CDC/NYC	Ongoing subject to any proposed changes at education sites.	CDC/NYC officers
RECOMMENDATION 6 (R6) - NO CHANGE CDC and NYCC work with local schools to develop formal community use agreements, or at minimum commitments for a period of time to protect community access (pay and play usage as a priority).	Develop partnership approach with schools and education providers. As from 1 st April 2023 the new North Yorkshire Council will supersede CDC and NYCC to implement this recommendation.	CDC/NYC	Ongoing	CDC/NYC officers

RECOMMENDATION 8 (R8) – UPDATED Following the master planning at Sandylands which will be undertaken in 2023 develop the business case(s) for investment in the masterplan priority outcomes	Subject to the outcomes from the master planning exercise at Sandylands, identify priority areas for investment across the whole of the Sandylands Complex. Develop detailed business case(s) for priorities.	CDC/NYC – Master planning CDC/NYC and stakeholders – Outcomes delivery	Master planning – in progress. Outcomes delivered – Medium- Long term	CDC/NYC officers CDC/NYC officers Input from stakeholders e.g. Sandylands Sports Complex. Potential external expertise.
RECOMMENDATION 9 (R9) - NEW CDC (North Yorkshire Council as from 1st April 2023) should facilitate the delivery of sport and leisure provision in the Craven District area. To ensure that community access to good quality facility provision and opportunities is provided in the most appropriate and sustainable manner whether that be direct delivery or support for providers and by encouraging partnership and collaborative working.	Continue to be engaged with facility providers from all sectors; public, private, VCSE. Develop partnership approach to ensure access to good quality built sports facility provision.	CDC/NYC	Ongoing	CDC/NYC officers Facility providers and operators.

- 12.2 The Progress Report information provides an updated position and evidence base for the application of the INF3 Policy and capital investment. Therefore, ensuring that resources can be allocated and directed towards priorities. The information in the report will support the allocation of local authority investment and applications for external funding by local authorities, other public sector bodies and voluntary, community and social enterprise community sports organisations.
